gerous to the successful existence of such companies for them to make or be required to make freight rates upon mere theories or conjectures. They have to deal with business as they find it. It is evident in this instance, from the very sparsely settled country through which its railroad lines are operated, that, outside of the through business which is furnished to the defendant at Wallula by the Northern Pacific Railway and by the Oregon Short Line at Umatilla, one of the chief articles of freight upon which it must depend is the transportation of wheat to Portland. There is this difference between the business of the defendant and each of the other roads with which it has been compared as to the transportation of wheat, and it is a very great difference. Passing through more populous communities, in addition to the through freights furnished by their connections they have a greater variety of local and way freights, and are not compelled to depend, as is the defendant, so largely upon what they receive for the transportation of any one local commodity, such as wheat. They therefore derive revenue from these other sources of local and way freights to a much greater extent than the defendant, and can with confidence rely upon them, and for this reason alone can safely make their rates less on wheat than the defendant. Besides, the wheat hauled by the defendant is transported in sacks, which is a more expensive mode of shipping and delivering wheat than that usually adopted by the other roads with which it has been compared, which is in car loads of solid wheat received from and delivered to elevators along their lines.

A very large proportion of the business of the defendant is derived from through freights and cannot at present be otherwise than received from through freights. The volume of through freights fluctuates very greatly, in some seasons being more and in others less, and is frequently influenced by causes beyond the control of a remote carrier like the defendant. These fluctuations are occasionally hazardous to the business of such a carrier. The expense of frequently hauling empty cars to reach this wheat before it can be received for carriage back to Portland is a circumstance that cannot be overlooked in an inquiry of this description, where the reasonableness of the rate charged upon it is the only question involved. The bare statement of these combined considerations, without amplifying them at length, as we could do, by abundant statistics and obvious reasoning, shows them to be vital and of very controlling weight, and that they cannot be ignored in a proceeding of this character.

The defendant's railroad lines are phenomenally well situated in their relation to other transportation facilities and a large field of growing commerce and agriculture; and the consideration of their alleged large earnings has been urged upon us as a circumstance to show that it ought to reduce its rates upon wheat very greatly from Walla Walla to Portland. It is plain to be seen that the revenue derived by the defendant from this valuable property is very remunerative, but as to its amount the evidence is conflicting, and leaves

been compelled to employ and the defendant railroad company under the Seventh Amendment of the Constitution of the United States being entitled to a trial by jury, the Commission, because it could not give such a trial, declined to go into that question leaving the complainant to his appropriate remedy in the courts for the alleged trespass and assault upon him, in which, under section 8 of the Act to Regulate Commerce, the defendant may be held liable for counsel or attorneys' fees "to be fixed by the court."

(Decided December 8, 1887.)

COMPLAINT that the petitioner has been subjected to unreasonable prejudice and unjust discrimination by the refusal of the defendant to furnish the accommodations for which he had paid, and claiming large money damages for injuries done him and for reasonable fees of attorneys he had been compelled to employ. The Commission declined to proceed upon the claim so far as it was in its nature an action of trespass, but entered an order requiring that such unlawful acts and all unjust discriminations should be discontinued.

The facts are stated in the opinion of the Commission.

Messrs. Brandon & Hundly, for plaintiff.

Mr. Julius L. Browne, for defendant.

REPORT AND OPINION OF THE COMMISSION.

Morrison, Commissioner:

The complaint of William H. Councilll against the Western & Atlantic Railroad Company states that he is a minister of the Gospel of the African Methodist Church, a school teacher, a citizen of the United States, a resident of Huntsville, in the State of Alabama, where he is principal of the State Colored Normal and Industrial School; and that said Railroad Company is a common carrier of passengers and property from Chattanooga, in the State of Tennessee, to Atlanta, in the State of Georgia; that, having occasion to visit some of the States east of Alabama in the interest of said school, he had, on April 7, 1887, proceeded as far as Chattanooga, where he purchased of said Railroad Company a first class ticket over its road from Chattanooga to Atlanta, and, shortly before the train started, entered a car and seated himself without direction from anyone as to the car he should take or the seat he should occupy. Soon after he went aboard and the train had started, and before his ticket had been asked for, he was told by a man to go into another car. The person making this request did not announce his official character, and the same being unknown to complainant the request was not heeded. And complainant avers that, whether or not such person was an officer, agent, or employee of said company, he had no right or authority to require complainant to change his seat.

The complainant was soon again told to go into another car, this time by a brakeman or person in railroad garb, to whom complainant answered that when the conductor came for

his ticket he, complainant, would go into another car if the conductor so directed. Soon after the second direction to go into another car, the brakeman or employee by whom it was given, returned with two other persons, one carrying a railroad lantern, who again told complainant to go into another car, to which he responded as before, that he would go if told to do so by the conductor. The person holding the lantern, without provocation, struck the complainant with it several blows, cut and bruised his face, and the three together forcibly ejected him from the car and compelled him to go into and occupy another car, in which he rode until the train reached Dalton, Georgia, at which place, in consequence of the injuries and bruises inflicted on him, he left the train. His ticket over the road to Atlanta had been surrendered. These injuries and wrongs were done to complainant in the presence of the passengers seated in the car which he was compelled to vacate, and none of said passengers were told to change their seats nor were they otherwise molested; that the conductor witnessed the violence and had information that it was intended and made no effort to prevent it, and when requested by complainant to protect him and see that his rights as a passenger on said train was respected, his reasonable request was answered by the conductor with harsh and abusive language.

That defendant did, on April 7, 1887, in respect of the matter stated by complainant, subject him to unreasonable prejudice and disadvantage in violation of the Act to Regulate Commerce, and especially of the third section of said Act; that, being a colored man, he was in consequence thereof not allowed a seat in said car, while white passengers who had purchased tickets at the same price paid by complainant were allowed to ride in said car, and that, because of his color, he was unreasonably discriminated against and subjected to unreasonable prejudice and disadvantage; that, by reason of the public manner of the assault, ejection from the car, bruises received, pain endured, mental anxiety and humiliation, delay in making his journey, and the unjust discrimination against him, he had been damaged in the sum of \$25,000, which he asks may be awarded to him, together with \$1,500 for the reasonable pay of counsel he has been compelled to employ.

The answer of the defendant railroad company admits, or does not contest, the occupation, citizenship, and residence of the complainant as stated in his complaint. It admits that defendant is a common carrier of passengers, that complainant is a colored man and purchased a ticket over its road as stated by him, and does not contest his statement that he, on April 7, 1887, entered the car and seated himself without direction from anyone as to the car he might take or the seat he might occupy. Defendant admits that complainant was twice told by employees, its agents, or, as it claims, was politely requested, once by the conductor and once by the brakeman, to go into another car, and that complainant was removed from that car to another by violence, but, as it alleges, not by its agents. It admits that the violence was used in the presence of the passengers in the ladies' car, and that no

INTER 8.

The LINCOLN BOARD OF TRADE

v.

The MISSOURI PACIFIC R. R. CO.

(No. 95.)

ABSTRACT of complaint filed November 17, 1887, alleging the imposition of unreasonable rates between St. Louis, Missouri, and Lincoln and other places in Nebraska.

Complain that the rates between St. Louis, Missouri and Lincoln, Nebraska and adjacent and competitive points in Nebraska are unreasonable as compared with former rates and rates to other points on their system (specifying cases), being from 10 to 50 per cent higher than from St. Louis to Weeping Water or Omaha. For twelve years previous to the Act Lincoln enjoyed Omaha rates.

Lincoln should not be considered a local station but "a rate basing point from which rates are graded."

Lincoln is a jobbing point of 45,000 population.

The charges are too great in themselves and constitute discrimination against Lincoln, inasmuch as they give preference to certain localities.

PLUMMER, PERRY AND CO.

v.

The UNION PACIFIC R. CO. and Southern Pacific Co.

(No. 96.)

ABSTRACT of complaint filed November 17, 1887, alleging an imposition of an extra and discriminative charge for the transportation of sugar.

Complainants are wholesale grocers at Lincoln, Nebraska.

The Union Pacific owns and operates the Omaha & Republican Valley Railway (giving points of connections of the roads).

Defendants, pursuant to an agreement, combination etc., operate lines of railway constituting a through line connecting San Francisco with Omaha and Lincoln, Nebraska.

That the said Union Pacific Railway Company and the said Southern Pacific Company by virtue of said agreement, had fixed a schedule of prices and rates for carrying goods and passengers from San Francisco to Omaha; but when the rates to interior points and towns west of the Missouri River in Nebraska were agreed upon and schedule of prices fixed, the complainants are not informed.

On information, etc., complainants allege that it was a part of said agreement and "such has been the practice of said companies that the rate only should be quoted from the City of Francisco to the City of Omaha, Nebraska, so that the Union Pacific Railway Company could rebill all goods at the City of Omaha to interior points and towns on their line of Railway and get the benefit of a charge for local rates."

Complainants allege that heretofore to wit: on the 24th and 25th days of June, 1887, the American Sugar Refining Company of San Francisco, California, shipped at that point "the goods and property having been pur-

chased and billed at one time" consigned to complainants at Lincoln, Nebraska, 375 barrels of sugar by way of defendants' lines at rates set forth in exhibits annexed; said shipment was by continuous carriage, without break of bulk or change of cars, from San Francisco to Lincoln.

For the purpose of evading the Act and in pursuance of said agreement, etc., the Southern Pacific Railway Company declined to make a rate from San Francisco to Lincoln; but pursuant to request of Union Pacific Company and said agreement guaranteed that the rate to Omaha should not exceed sixty cents per 100 pounds on car load lots.

The Union Pacific, in pursuance of agreement, refused to switch the goods by way of the Omaha & Republican Valley Railroad direct to their destination, but sent them to Omaha where they were rebilled. Causing the goods to be shipped to Omaha and there rebilled involved additional distance of transit of seventy miles and imposed an extra charge on complainants—thereby discriminating against them.

The NEW ORLEANS COTTON EXCHANGE, a Corporation Established under the Laws of Louisiana,

v.

NEW ORLEANS, CINCINNATI & TEXAS PACIFIC R. CO. "A Corporation Owning and Managing Several Lines of Railroad."

(No. 97.)

ABSTRACT of complaint filed November 15, 1887, charging violation of section 1 of the Act, by making unjust and unreasonable rates for handling cotton.

Defendant is "a common carrier engaged in the transportation of passengers and property by railroad under a common control, etc.," "for a continuous carrying or shipment from one State of the United States to other States of the United States, to wit:" from New Orleans, Louisiana, to and through Louisiana, Mississippi, Tennessee, Kentucky, Pennsylvania, New York and other States to the Cities of Lowell and Boston, Massachusetts, and New York City, and in the opposite direction from said respective places to New Orleans.

Defendant for the last six months has been and still is making unjust and unreasonable rates for hauling cotton from Meridian, Mississippi, to New Orleans, Louisiana, and from points between Meridian and New Orleans to New Orleans in violation of the last clause of the first section of the Act. Has charged "or received from" some persons more than others for doing a "like, etc.," service, under substantially, etc. (Quoting words of Act.) Has given undue and unreasonable advantage, etc., to Lowell and Boston and subjected to undue, etc., disadvantages, New Orleans. Specifies:

Has charged and does charge for transporting cotton from Meridian, Mississippi, to Boston and Lowell, Massachusetts (1,500 miles, or less), seventy-five cents per 100 pounds and pays out of that sum ten cents per 100 pounds for compressing—making net rate to Boston and Lowell sixty-five cents per 100 pounds also.

the actual result in inextricable doubt at this time. Upon the theory of petitioners it would be between 10 and 11 per cent net per annum; upon the theory of defendant, and taking into the estimate the several judgments rendered against it for \$210,000 by the Federal Court in Oregon, and now pending on appeal in the Supreme Court of the United States, it would be about 6 per cent per annum. We have considered this, but it does not change the conclusion we have reached and which has been already stated.

A certified copy of a recommendation made on the second day of June, 1887, by the honorable Board of Railroad Commissioners of the State of Oregon to the Oregon Railway & Navigation Company, recommending, among other things, to reduce its rates on wheat to twenty cents per 100 pounds in car load lots from certain points east in that State to Portland has been introduced in evidence by petitioners and is relied on by them as sustaining their view of this case. Among the points thus named are Centreville, Blue Mountain, and Pendleton. A recommendation of that honorable board as evidence upon any matter to which it relates receives, as it deserves to receive, at our hands a very high and respectful consideration; but we do not know the evidence upon which that recommendation was made, and if we did we would still be constrained to be governed by the evidence that is before us in this proceeding, which involves interstate commerce and is within a peculiar jurisdiction, which is devolved upon us by the Statute.

Shortly after these petitions were filed the defendant, as it had a right to do under the statute, reduced its rate on wheat from Walla Walla to Portland from \$6 per ton to \$5 per ton, or twenty-five cents per 100 weight.

Since the first of April, 1887, the defendant has reduced its rates as follows:

	Cents per 100 lbs.
Dry goods, boots, and shoes,	33
Sugar, in less than car loads,	15
Coffee,	15
Bacon, in less than car loads,	37
Bacon, in car loads,	15
Nails, in car loads and less than car loads,	15
Hardware,	12
Agricultural implements in less than car loads,	33
Lime, in car loads,	33
Soap,	15
Starch, less than car loads,	43
Starch, in car loads,	38
Barbed wire,	15
Coal oil, less than car loads,	83
Dried fruit,	43

These are large and general reductions on a fine line of freights, and they are fairly entitled to be taken into consideration in a proceeding of this nature. Rates are, and should be, to a considerable extent, so related to each other in the manner in which they are laid for the revenue of a railroad that the instances are very frequent in which a change of the freight upon one important article of commerce involves a consideration of the relative rates on other articles. This case is one of that description. A reduction of rates, such as is claimed by petitioners, to fifteen cents per 100 pounds, or \$3 per ton, on wheat shipments from Walla Walla to Portland is one that

INTER S.

would be antirely too great under the circumstances by which the defendant is surrounded at this time.

The order, therefore, is that on and after the 15th day of December, 1887, the defendant must cease to charge more than 23½ cents per 100 pounds, or \$4.70 per ton, on wheat transported by it over its railroad lines from Walla Walla, in Washington Territory, to Portland, in the State of Oregon, during the present grain season.

The order is also made in this form as to the present grain season upon the statement in the answer of the defendant that further reductions on wheat rates are intended to be made by defendant as soon as this can be done, and upon the general course of dealing of defendant, as shown in the proofs, that the rate for the next season on wheat will doubtless be further modified.

LINCOLN BOARD OF TRADE

v.

CHICAGO, BURLINGTON & QUINCY
R. R. CO., Burlington & Missouri River R.
R. Co. in Nebraska; Denver & Rio Grande
R. R. Co.; Rio Grande Western R. R. Co.;
and Southern Pacific Co.

(No. 94.)

ABSTRACT of complaint filed November 17, 1887, alleging the imposition of unreasonable rates between Chicago and Lincoln.

Complains that the rates between Chicago and Lincoln are unreasonable being 10 to 40 per cent higher than to Louisville or Omaha.

That the Chicago, Burlington & Quincy with its connections, transports by a through line to San Francisco in accordance with a joint traffic arrangement. It transports from San Francisco (principally sugar and canned goods) to Denver, Lincoln, Omaha and Chicago, and has published a joint tariff.

Canned goods sugar.

San Francisco to Lincoln	1.46.	.75
Omaha to Chicago	.75	.60

Freight over Chicago, Burlington & Quincy from San Francisco to Omaha and Chicago passes through Lincoln.

Present rates to and from Lincoln discriminate against this locality.

Defendants violate:

Sec. 1. Charges unreasonable in themselves etc.

Sec. 2. Constitutes unjust discriminations etc.

Sec. 3. Gives preference to certain firms and localities.

Sec. 6 *. Shall not receive or collect greater or less charges than published rates.

Sec. 7 *. No interruption shall be made of continuous carriage to evade Act.

*This is the way the charge is made in the complaint under sections 6 and 7 reciting the words of the Act, but only by inference from what precedes, stating that it is violated.

Complaints of discrimination against small shippers by virtue of the classification of freight adopted by the defendants in common, in which a distinction is made (or was not done before April 1, 1887) between car load lots and less than car load lots.

Complainants are retail merchants, usually buy in less than car load lots, and by the discrimination are now compelled to buy in local markets.

The classification violates section 1, as being *per se* unjust and sections 2 and 3 as discriminating in favor of large shippers.

Thomas L. Greene, of New York, Manager of N. Y. Freight Bureau, is authorized to present the petition.

Prays for a decree requiring defendants to cease, etc., from acts complained of, and for general relief, and that this complaint may be heard at same time and place as other complaints of retailers.

REPORT OF THE INTERSTATE COMMERCE COMMISSION.*

HON. LUCIUS Q. C. LAMAR,
Secretary of the Interior:

SIR: The undersigned, Commissioners ap-

pointed under "An Act to Regulate Commerce" approved February 4, 1887, in discharge of the duty imposed by the twenty first section of said Act, which directs the Commission on or before the first day of December in each year to make a report to the Secretary of the Interior, to be by him transmitted to Congress; the report to "contain such information and data collected by the Commission as may be considered of value in the determination of questions connected with the regulation of Commerce, together with such recommendations as to additional legislation relating thereto as the Commission may deem necessary," beg leave respectfully to report:

It is provided in the Act referred to that its provisions shall apply to—

Any common carrier or carriers engaged in the transportation of passengers or property wholly by railroad or partly by railroad and partly by water when both are used, under a common control, management, or arrangement, for a continuous carriage or shipment from one State or Territory of the United States or the District of Columbia to any other State or Territory of the United States or the District of Columbia, or from any place in the United States to an adjacent foreign country, or from any place in the United States through a foreign country to any other place in the United States, and also to the transportation in like manner of property shipped from any place in the United States to a foreign country, and carried

*This first annual report of the Interstate Commerce Commission seems proper to be published in these pages, since it has all the interest and almost the weight of an actual decision in an individual case raising all the questions discussed, and shows the views of the Commission upon the intent and scope of the Interstate Commerce Act, and upon its construction and application. It will be found to be one of the most elaborate, as it is certainly the most authoritative, of the commentaries which have appeared upon this important and far reaching Act, and to be of the utmost importance to all who are interested in the operation of the Act or in proceedings before the Commission. [Ed.]

ANALYTICAL INDEX TO THE REPORT.

from such place to a port of transshipment or shipped from a foreign country to any place in the United States, and carried to such place from a port of entry either in the United States or an adjacent foreign country; *Provided, however*, That the provisions of this Act shall not apply to the transportation of passengers or property, or to the receiving, delivering, storage, or handling of property wholly within one State, and not shipped to or from a foreign country from or to any State or Territory as aforesaid:

It is further provided that—

The term "railroad," as used in this Act shall include all bridges and ferries used or operated in connection with any railroad, and also all the road in use by any corporation operating a railroad, whether owned or operated under a contract, agreement or lease; and the term "transportation" shall include all instrumentalities of shipment or carriage.

The railroad mileage of the United States, computed to the close of the fiscal year 1886, of the companies respectively, was 133,606. The number of corporations represented in this mileage was 1,425, but by the consolidation or leasing of roads, the number of corporations controlling and operating roads as carriers was reduced to 700. It is estimated that 4,380 miles of road have been constructed since the foregoing statistics were obtained, making a total mileage at this time of 137,986. It is impossible to say with entire accuracy what is the number of railroad companies subject to the provisions of the Act; but it is believed that not less than 1,200, operated by about 500 corporations as carriers, engage either regularly or at times in interstate commerce, so as to make the Act applicable. The Commission has as yet no statistics of its own collection to lay before the public; but in a manual generally accepted as reliable, the cost of construction and equipment of the 133,606 miles of road is estimated at \$7,254,995,223, and the funded debt of the companies at \$3,882,966,330. Interest according to the same authority was paid by these companies for the last fiscal year to the amount of \$187,856,540; and the aggregate payment to stockholders in dividends was \$80,094,188.

Some idea of the magnitude of the interest which the Act undertakes to regulate may be obtained from these figures, but they fall far short of measuring, or even of indicating its importance. The regulation of no other business would concern so many or such diversified interests, or would affect in so many ways the

of this power of regulation was made by the Constitution the commerce between the States which might be controlled under it was quite insignificant both in volume and value. It was for the most part carried on by means of coast wise vessels and by water craft of various kinds which were sailed or otherwise propelled on the lakes, rivers, and smaller streams of the interior. On the land there was very little that could be said to rise to the dignity of interstate commerce; and the regulation of that little, as also of that which was exclusive State traffic, was for the most part left to the rules of the common law. The exceptional regulations, if any seemed to be called for, were made by the state laws. In a few cases where persons had associated themselves together as regular carriers of persons on definite routes, exclusive rights were granted to them by the States, as such carriers, the motive to such grants being a belief on the part of the state authorities that without the exclusive privilege the regular transportation would not be adequately and reliably provided for.

For the the regulation of commerce on the ocean and other navigable waters Congress very promptly passed the necessary laws; but its jurisdiction within the limits of the States was not very clearly understood, and it was not until the great case of *Ogden v. Gibbons* decided in 1824, that it was authoritatively and finally determined that the waters of a State, when they constituted a highway for foreign and interstate commerce, are, so far as concerns such commerce, as much within the reach of federal legislation as are the high seas, and consequently that exclusive rights for their navigation cannot be granted by States whose limits embrace them.

But while providing from time to time for the regulation of commerce by water, Congress still abstained from undertaking the regulation of commerce by land. The reasons for this continued to be the same as at the first. The land commerce was insignificant in amount, and the rules of the common law were in general found adequate to the settlement of the questions arising out of it. The commerce of trappers and hunters, of traders with the Indians, or that of the early settlers in the wilderness, needed only the most primitive modes of conveyance: the emigrant wagon

and imperative demand for other and very different highways to those which accommodated the pack-horses and heavy wagons of the early traders and settlers. But even then the circumstances were favorable to a prolongation of state control. The first improved highways were turnpikes; the next in grade were canals; but the highways by water as well as the highways by land were provided for by the States. The General Government made some appropriations for canals where they were needed as improvements in existing navigation; but the great artificial channels of water transportation were state creations. Such was the case with the Erie Canal, which during the period when emigration to the wilderness was greatest, and when improvement in the new Territories was most rapid, constituted the most important of all the highways connecting the interior with the sea-board. Such also were the canals which were constructed to connect the Delaware with the Hudson, the Chesapeake with the Ohio, the waters of Lake Erie with the Ohio at Portsmouth, at Cincinnati and at Evansville, the waters of Lake Michigan with the Mississippi, and many others now almost forgotten, but which were of great temporary importance and value.

As the States constructed these great interstate highways, it was not unnatural that they should be left in charge of the regulation of trade upon them, especially as no complaint was made that their regulations were unjust, or that they discriminated unfairly as against the citizens or the business of the other States. When in 1830 steam power began to be applied to the propulsion of vehicles upon land, the same reasons as regards control continued to prevail. The roads constructed for such vehicles were authorized by and built under the authority of the States; the corporate charters under which they were operated, and which prescribed the rights, privileges, and powers of the associated owners were state laws; the States determined for them the measure of their taxation, and limited if it seemed politic their charges and their profits. The States thus touched them so nearly in all their interests and all their functions that federal intervention seemed not only unnecessary but intrusive unless state power should be abused; and the abuse not often appearing, intervention was scarcely thought of by anyone.

For a long time, therefore, the power of the Federal Government in the regulation of commerce between the States was put forth by way of negation, rather than affirmatively; that is to say, it was put forth in restraint of excessive state power when it appeared, instead of by way of affirmative national regulation. The national restraint, when there was any, was commonly effected by invoking the action of the Judicial Department of the Government, and by its assistance arresting such State action as appeared to constitute unauthorized interference with interstate traffic and intercourse. This special intervention, whether in the exercise of an original jurisdiction, as in the *Wheeling Bridge Case*, reported in 18 Howard, 518, or under an appellate authority, as in *Ward v. Maryland* (12 Wallace, 418), and *Welton v. Missouri* (91 United States Reports, 275), has been important and useful in a considerable

number of cases, but in the nature of things it could not accomplish the purposes of general regulation. On the other hand, the effect was to leave the corporations, into whose hands the internal commerce of the country had principally fallen, to make the law for themselves in many important particulars—the state power being inadequate to complete regulation, and the national power not being put forth for that purpose.

The common law still remained operative, but there were many reasons why it was inadequate for the purposes of complete regulation. One very obvious reason was that the new method of land transportation was wholly unknown to the common law, and was so different from those under which common-law rules had grown up, that doubts and differences of opinion as to the extent to which those rules could be made applicable were inevitable. A highway of which the ownership is in private citizens or corporations who permit no other vehicles but their own to run upon it bears obviously but faint resemblance to the common highway upon which every man may walk or ride or drive his wagon or his carriage. If we undertake to apply to the one the rules which have grown up in regulation of the others, there must necessarily be a considerable period in which the state of the law will, in many important particulars, be uncertain; and while that continues to be the case, those who have the power to act and who must necessarily act by rule and according to some established system, will for all practical purposes make the law, because the rule and the system will be of their establishment.

Such, to a considerable extent, has been the fact regarding the business of transporting persons and property by rail.

Those who have controlled the railroads have not only made rules for the government of their own corporate affairs, but very largely also they have determined at pleasure what should be the terms of their contract relations with others, and others have acquiesced though oftentimes unwillingly, because they could not with confidence affirm that the law would not compel it, and a test of the question would be difficult and expensive. The carriers of the country were thus enabled to determine in great measure what rules should govern the transportation of persons and property; rules which intimately concerned the commercial, industrial, and social life of the people.

The circumstances of railroad development tended to make this indirect and abnormal law-making exceedingly unequal and oftentimes oppressive. When railroads began to be built the demand for participation in their benefits went up from every city and hamlet in the land, and the public was impatient of any obstacles to their free construction and of any doubts that might be suggested as to the substantial benefit to flow from any possible line that might be built. Under an imperative popular demand general laws were enacted in many States which enabled projectors of roads to organize at pleasure and select their own lines; and where there were no such laws the grant of a special charter was almost a matter of course, and the securities against

abuse of corporate powers were little more than nominal. For a long time the promoter of a railway was looked upon as a public benefactor, and laws were passed under which municipal bodies were allowed to give public money or loan public credit in aid of his schemes, on an assumption that almost any road would prove reasonably remunerative, but that in any event the indirect advantages which the public would reap must more than compensate for the expenditures.

In time it came to be perceived that these sanguine expectations were delusive. A very large proportion of all the public money invested in railroads was wholly sunk and lost. Many roads were undertaken by parties who were without capital, and who relied upon obtaining it by a sale of bonds to a credulous public. The corporation thus without capital was bankrupt from its inception, and the corporators were very likely to be mere adventurers who would employ their chartered powers in such manner as would most conduce to their personal ends.

It is striking proof of the recklessness of corporate management that 108 roads, representing a mileage of 11,066, are now in the hands of receivers, managing them under the direction of courts, whose attention is thus necessarily withdrawn from the ordinary and more appropriate duties of judicial bodies. So serious has been the evil of bringing worthless schemes into existence and making them the basis for an appropriation of public moneys or for the issue of worthless evidences of debt, that a number of the States have so amended their constitutions as to take from the Legislature the power either to lend the credit of the State in aid of corporations proposing to construct railroads, or to authorize municipal bodies to render aid, either money or credit. State legislation has at the same time been in the direction of making compulsory the actual payment of a *bona fide* capital before a corporation shall be at liberty to test the credulity of the public by an issue of negotiable securities.

When roads were built for which the business was inadequate, the managers were likely to seek support by entering upon competition for business which more legitimately belonged to the other roads, and which could only be obtained by offering rates so low that if long continued they must prove destructive. A competitive warfare was thus opened up in which each party endeavored to underbid the other, with little regard to prudential considerations, and freights were in a great many cases carried at a loss, in the hope that in time the power of the rival to continue the strife would be crippled and the field practically left to a victor who could then make its own terms with customers. When the competition was less extreme than this, there was still a great deal of earnest strife for business, some of which was open and with equal offerings of rates and accommodations to all, but very much of which was carried on secretly, and then the very large dealers practically made their own terms, being not only accommodated with side tracks and other special conveniences, but also given what were sometimes spoken of as wholesale rates,

INTER 8.

or perhaps secret rebates, which reduce cost to them of transportation very greatly below what smaller dealers in the same line of business were compelled to pay. Allowances were sufficient of themselves in very many cases to render successful competition, as against those who had them, practically impossible.

The system of making special arrangements with shippers was in many parts of the country not confined to large manufacturers and dealers, but was extended from person to person under the pressure of alleged business necessity, or because of personal import or favoritism, and even in some cases from a desire to relieve individuals from the consequences of previous unfair concessions to rivals in business. The result was that arrangements of importance were commonly made under special bargains entered into for a limited occasion, or to stand until revoked, of which the shipper and the representative of the public were the only parties having knowledge. These arrangements took the form of special rates, rebates, and drawbacks, underbidding reduced classification, or whatever might be best adapted to keep the transaction from coming to the public; but the public very well understood that private arrangements were to be made, and the proper motives were presented. A memorandum book carried in the pocket of the general freight agent often contained only record of the rates made to the different patrons of the road; and it was in his power to place a man or a community under a moral obligation by conceding a special rate on one day, and to nullify the effect of the next by doing even better by a competitor.

The system, if it can be called such, involved a great measure of secrecy, and the necessary conditions were such as to prevent effective efforts to break it down, though the willingness to make the effort was not wanting among intelligent shippers. It was the last importance to the shipper that he should on good terms with those who made them; he must pay; to contend against them was sometimes regarded as a species of presumption which was best dealt with by increasing existing burdens; and the shipper was cautious about incurring the risk. Nevertheless it was a common observation, even among those who might hope for special favors, that a system of rates, open to all and fair between localities, would be far preferable to a system of special contracts into which a large personal element entered or was commonly supposed to enter. Permanent rates was also seen to be of very high importance to every man engaging in business enterprises, since without it business could be no more than lottery ventures. It was also perceived that the absolute sum of the money charged for transportation, if not clearly beyond the bounds of reason, was of less importance in comparison with the obtaining of rates that should be open, equal, related just as between places, and as steady in the nature of things was practicable.

Special favors or rebates to large dealers were not always given because of any special interest which was anticipated from the business obtained by allowing them; there were

reasons to influence their allowance. It was early perceived that shares in railroad corporations were an enticing subject for speculation, and that the ease with which the hopes and expectations of buyers and holders could be operated upon pointed out a possible road to speedy wealth for those who should have the management of the roads. For speculative purposes an increase in the volume of business might be as useful as an increase in net returns; for it might easily be made to look, to those who knew nothing of its cause, like the beginning of great and increasing prosperity to the road. But a temporary increase was sometimes worked up for still other reasons; such as to render plausible some demand for an extension of line, or for some other great expenditure, or to assist in making terms in a consolidation, or to strengthen the demand for a larger share in a pool.

Whatever was the motive, the allowance of the special rate or rebate was essentially unjust and corrupting; it wronged the smaller dealer, oftentimes to an extent that was ruinous, and it was very generally accompanied by an allowance of free personal transportation to the larger dealer, which had the effect to emphasize its evils. There was not the least doubt that had the case been properly brought to a judicial test these transactions would in many cases have been held to be illegal at the common law; but the proof was in general difficult, the remedy doubtful or obscure, and the very resort to a remedy against the party which fixed the rates of transportation at pleasure, as has already been explained, might prove more injurious than the rebate itself. Parties affected by it, therefore, instead of seeking redress in the courts, were more likely to direct their efforts to the securing of similar favors on their own behalf. They acquiesced in the supposition that there must or would be a privileged class in respect to rates, and they endeavored to secure for themselves a place in it.

Personal discrimination in rates was sometimes made under the plausible pretense of encouraging manufacturers or other industries. It was perhaps made a bargain in the establishment of some new business or in its removal from one place to another that its proprietors should have rates more favorable than were given to the public at large; and this, though really a public wrong (because tending to destroy existing industries in proportion as it unfairly built up others) was generally defended by the parties to it on the ground of public benefit.

Local discriminations, though not at first blush so unjust and offensive, have nevertheless been exceedingly mischievous; and if some towns have grown, others have withered away under their influence. In some sections of the country if rates were maintained as they were at the time the Interstate Commerce Law took effect, it would have been practically impossible for a new town, however great its natural advantages, to acquire the prosperity and the strength which would make it a rival of the towns which were specially favored in rates; for the rates themselves would establish for it indefinitely a condition of subordi-

nation and dependence to "trade centers." The tendency of railroad competition has been to press the rates down and still further down at these trade centers, while the depression at intermediate points has been rather upon business than upon rates. In very many cases it has resulted in the charging of more for a short than for a long haul on the same line in the same direction; and though this has been justified by railroad managers as resulting from the necessities of the situation, it is not to be denied that the necessity has in many cases been artificially created and without sufficient reason.

The inevitable result was that this management of the business had a direct and very decided tendency to strengthen unjustly the strong among the customers and to depress the weak. These were very great evils, and the indirect consequences were even greater and more pernicious than the direct; for they tended to fix in the public mind a belief that injustice and inequality in the employment of public agencies were not condemned by the law, and that success in business was to be sought for in favoritism rather than in legitimate competition and enterprise.

The evils of free transportation of persons were not less conspicuous than those which have been mentioned. This, where it extended beyond the persons engaged in railroad service, was commonly favoritism in a most unjust and offensive form. Free transportation was given not only to secure business but to conciliate the favor of localities and of public bodies; and, while it was often demanded by persons who had, or claimed to have, influence which was capable of being made use of to the prejudice of the railroads, it was also accepted by public officers of all grades and of all varieties of service. In those last cases the pass system was particularly obnoxious and baneful; for if any return was to be made or was expected of public officers, it was of something which was not theirs to give, but which belonged to the public or to constituents. A ticket entitling one to free passage by rail was often more effective in enlisting the assistance and support of the holder than its value in money would have been; and in a great many cases it would be received and availed of when the offer of money, made to accomplish the same end, would have been spurned as a bribe. Much suspicion of public men resulted, which was sometimes just, but also sometimes unjust and cruel; and some deterioration of the moral sense of the community, traceable to this cause, was unavoidable while the abuse continued. The parties most frequently and most largely favored were those possessing large means and having large business interests.

The general fact came to be that in proportion to the distance they were carried those able to pay the most paid the least; for the poor man had seldom any ground on which to demand free transportation, while the rich man was likely to have many grounds on which he could make it for the interest of the railroad company to favor him, and he was sometimes favored with free transportation not only for himself and his family but for business agents also, and even sometimes for his customers. The demand for free transportation was often

in the nature of blackmail, and was yielded to unwillingly and through fear of damaging consequences from a refusal. But the evils were present as much when it was extorted as when it was freely given.

These were some of the evils that made interference by national legislation imperative. But there were others that were of no small importance. Rates when there was no competition were sometimes so high as to be oppressive; and when competition existed by lines upon which the public confidently relied to protect them against such a wrong, a consolidation was effected and the high rates perpetuated by that means. In some cases the roads, created as conveniences in transportation, were so managed in respect to business passing or destined to pass over other roads that they constituted hinderances instead of help, to the great annoyance of travel and to the serious loss of those who intrusted their property to them. Then their rates were changed at pleasure and without public notification; their dealings to a large extent were kept from the public eye, the obligation of publicity not being recognized; and the public were therefore without the means of judging whether their charges for railroad service were reasonable and just or the contrary.

But the publications actually made only increased the difficulties. Railroad rates, difficult enough to be understood by the uninitiated when printed plainly in one general tariff with classification annexed, became mysterious enigmas when several different tariffs were printed, as was the case in some sections; some relating to competitive points and others to what were called local points, and each referring to voluminous and perhaps different classifications, which were printed but not posted, and which were observed or disregarded at will in the rates as published. Such unsystematic and misleading publications naturally led to many overcharges and controversies, and naturally invited and favored special rates and injurious preferences.

These were serious evils; and they not only to some extent blunted the sense of right and wrong among the people and tended to fix an impression upon the public mind that unfair advantages in the competition of business were perfectly admissible when not criminal, but they built up or strengthened a class feeling and embittered the relations between those who for every reason of interest ought to be in harmony. It was high time that adequate power should be put forth to bring them to an end. Railroads are a public agency. The authority to construct them with extraordinary privileges in management and operation is an expression of sovereign power, only given from a consideration of great public benefits which might be expected to result therefrom. From every grant of such a privilege resulted a duty of protection and regulation, that the grant might not be abused and the public defrauded of the anticipated benefits.

The abuses of corporate authority to the injury of the public were not the only reasons operating upon the public mind to bring about the legislation now under consideration; some other things which in their direct effects were wrongs to stockholders only had their influence

also, and this by no means a light one. The manner in which corporate stocks were manipulated for the benefit of managers and to the destruction of the interest of the owners was often a great scandal, resulting sometimes in the bankruptcy and practical destruction of roads which, if properly managed, would have been not only profitable but widely useful. This in its direct results might be a wrong to individuals only, but in its direct influence it was a great public wrong also.

The most striking and obvious fact in such a case commonly is that persons having control of railroads have in a very short time by means of the control amassed great fortunes. The natural conclusion which one draws who must judge from surface appearances is, that these fortunes are unfairly acquired at the expense of the public; that they represent excessive charges on railroad business, or unfair employment of inside privileges, and furnish in themselves conclusive evidence that current rates are wrong and probably extortionate. An impression of this sort, when it happens to be wide of the fact is for many reasons unfortunate. It creates or strengthens a prejudice against all railroad management—the honest as well as the dishonest—which affects the public view of all railroad questions; it renders it more difficult to deal with such questions calmly and dispassionately; it makes the public restive under the charges they are subjected to, even though they be moderate and necessary; it tends to strengthen a feeling among the unthinking that capital represents extortion. However careful, considerate, fair, and just the management of any particular road may be, and however closely it may confine itself to its legitimate business, it is impossible that it should wholly escape the ill effects of this prejudice, which are visited upon all roads because some conspicuous railroad managers have by their misconduct given in the public mind a character to all.

Evils of the class last mentioned were difficult of legislative correction, because they sprang from the over-confidence of stockholders in the officers chosen to manage their interests, and whose acts at the time they perhaps assented to. But if capable of correction by any legislative authority, it was in general that of the States, not that of the Nation. The States in the main conferred the corporate power, and it was for the States by their legislation to provide for the protection of the individual interests which were brought into existence by their permission. The National Government had to do with the commerce which these artificial entities of state creation might be concerned in. Nevertheless, the manifest misuse of corporate powers strengthened the demand for national legislation, and this very naturally, because the private gains resulting from corporate abuse were supposed to spring, to some extent at least, from excessive burdens imposed upon the commerce which the Nation ought to regulate and protect.

For the purpose of correcting the evils above alluded to, so far as it was constitutionally competent for national legislation to do so, the Act to Regulate Commerce lays down certain rules to be observed by the carriers to which

its provisions apply, which are intended to be and emphatically are rules of equity and equality, and which, if properly observed, ought to and in time no doubt will restore the management of the transportation business of the country to public confidence.

THE ACT TO REGULATE COMMERCE.

The leading features of the Act are the following:

All charges made for services by carriers subject to the Act must be reasonable and just.

Every unjust and unreasonable charge is prohibited and declared to be unlawful.

The direct or indirect charging, demanding, collecting, or receiving, for any service rendered, a greater or less compensation from any one or more persons than from any other for a like and contemporaneous service, is declared to be unjust discrimination and is prohibited.

The giving of any undue or unreasonable preference, as between persons or localities, or kinds of traffic, or the subjecting any one of them to undue or unreasonable prejudice or disadvantage, is declared to be unlawful.

Reasonable, proper, and equal facilities for the interchange of traffic between lines, and for the receiving, forwarding, and delivering of passengers and property between connecting lines is required; and discrimination in rates and charges as between connecting lines is forbidden.

It is made unlawful to charge or receive any greater compensation in the aggregate for the transportation of passengers or the like kind of property under substantially similar circumstances and conditions for a shorter than for a longer distance over the same line in the same direction, the shorter being included within the longer distance.

Contracts, agreements, or combinations for the pooling of freights of different and competing railroads, or for dividing between them the aggregate or net earnings of such railroads or any portion thereof, are declared to be unlawful.

All carriers subject to the Law are required to print their tariffs for the transportation of persons and property, and to keep them for public inspection at every depot or station on their roads. An advance in rates is not to be made until after ten days' public notice, but a reduction in rates may be made to take effect at once, the notice of the same being immediately and publicly given. The rates publicly notified are to be the maximum as well as the minimum charges which can be collected or received for the services respectively for which they purport to be established.

Copies of all tariffs are required to be filed with this Commission, which is also to be promptly notified of all changes that shall be made in the same. The joint tariffs of connecting roads are also required to be filed, and also copies of all contracts, agreements, or arrangements between carriers in relation to traffic affected by the Act.

It is made unlawful for any carrier to enter into any combination, contract, or agreement, expressed or implied, to prevent, by change of time schedules, carriage in different cars, or by other means or devices, the carriage of

freights from being continuous from the place of shipment to the place of destination.

These, shortly stated, are the important provisions of the Act which undertakes to prescribe the duties and obligations of the carriers which by its passage are brought under federal control. Some important exceptions are made by the twenty-second section, which provides:

That nothing in this Act shall apply to the carriage, storage, or handling of property free or at reduced rates for the United States, state, or municipal governments, or for charitable purposes, or to or from fairs and expositions for exhibition thereof, or the issuance of mileage, excursion, or commutation passenger tickets; nothing in this Act shall be construed to prohibit any common carrier from giving reduced rates to ministers of religion; nothing in this Act shall be construed to prevent railroads from giving free carriage to their own officers and employees, or to prevent the principal officers of any railroad company or companies from exchanging passes or tickets with other railroad companies for their officers and employees; and nothing in this Act contained shall in any way abridge or alter the remedies now existing at common law or by statute; but the provisions of this Act are in addition to such remedies.

These provisions, it will be seen, are not intended to qualify to any injurious extent the general rules of fairness and equality which the Act has been so careful to prescribe, and the exceptions may all be said to be authorized on public considerations.

In the performance of its duties the Commission has had occasion to decide that the transportation of Indian supplies may be free or at reduced rates under this section (1 Interstate Commerce Commission Reports, p. 16). [*ante*, 22] as also may be that of the agents and material of the United States Fish Commission (*Id.* p. 21) [*ante*, 606]. The question of what may be included under the exception made for charitable purposes has never come before the Commission in such form as to call for an expression of opinion. It will be noted that in terms it applies to property only, not to persons.

By the eleventh section of the Act this Commission is created and established, and other sections prescribe its duties and powers. Those sections it will be necessary to consider somewhat at length further on.

The Commission was organized March 31, 1887, and entered at once upon the discharge of its duties. The other provisions of the Act took effect April 5, 1887. The demands upon its attention were immediate, and some of them of a very perplexing nature. It will be more convenient to take notice of these under specific heads in connection with the provisions of the Act under which they were severally presented for its action.

I. THE CARRIERS SUBJECT TO ITS JURISDICTION.

These are indicated by general designation in the first section of the Act, and the provision on that subject has already been recited. By reference thereto it will be seen that it embraces the carriers "engaged in the transportation of passengers or property wholly by railroad, or partly by railroad and partly by water when both are used, under a common control, management, or arrangement, for a continuous carriage or shipment," in interstate or international commerce. It does not embrace the carriers wholly by water, although they

in the nature of blackmail, and was yielded to unwillingly and through fear of damaging consequences from a refusal. But the evils were present as much when it was extorted as when it was freely given.

These were some of the evils that made interference by national legislation imperative. But there were others that were of no small importance. Rates when there was no competition were sometimes so high as to be oppressive; and when competition existed by lines upon which the public confidently relied to protect them against such a wrong, a consolidation was effected and the high rates perpetuated by that means. In some cases the roads, created as conveniences in transportation, were so managed in respect to business passing or destined to pass over other roads that they constituted hinderances instead of help, to the great annoyance of travel and to the serious loss of those who intrusted their property to them. Then their rates were changed at pleasure and without public notification; their dealings to a large extent were kept from the public eye, the obligation of publicity not being recognized; and the public were therefore without the means of judging whether their charges for railroad service were reasonable and just or the contrary.

But the publications actually made only increased the difficulties. Railroad rates, difficult enough to be understood by the uninitiated when printed plainly in one general tariff with classification annexed, became mysterious enigmas when several different tariffs were printed, as was the case in some sections; some relating to competitive points and others to what were called local points, and each referring to voluminous and perhaps different classifications, which were printed but not posted, and which were observed or disregarded at will in the rates as published. Such unsystematic and misleading publications naturally led to many overcharges and controversies, and naturally invited and favored special rates and injurious preferences.

These were serious evils; and they not only to some extent blunted the sense of right and wrong among the people and tended to fix an impression upon the public mind that unfair advantages in the competition of business were perfectly admissible when not criminal, but they built up or strengthened a class feeling and imbibed the relations between those who for every reason of interest ought to be in harmony. It was high time that adequate power should be put forth to bring them to an end. Railroads are a public agency. The authority to construct them with extraordinary privileges in management and operation is an expression of sovereign power, only given from a consideration of great public benefits which might be expected to result therefrom. From every grant of such a privilege resulted a duty of protection and regulation, that the grant might not be abused and the public defrauded of the anticipated benefits.

The abuses of corporate authority to the injury of the public were not the only reasons operating upon the public mind to bring about the legislation now under consideration; some other things which in their direct effects were wrongs to stockholders only had their influence

also, and this by no means a light one. The manner in which corporate stocks were manipulated for the benefit of managers and to the destruction of the interest of the owners was often a great scandal, resulting sometimes in the bankruptcy and practical destruction of roads which, if properly managed, would have been not only profitable but widely useful. This in its direct results might be a wrong to individuals only, but in its direct influence it was a great public wrong also.

The most striking and obvious fact in such a case commonly is that persons having control of railroads have in a very short time by means of the control amassed great fortunes. The natural conclusion which one draws who must judge from surface appearances is, that these fortunes are unfairly acquired at the expense of the public; that they represent excessive charges on railroad business, or unfair employment of inside privileges, and furnish in themselves conclusive evidence that current rates are wrong and probably extortionate. An impression of this sort, when it happens to be wide of the fact is for many reasons unfortunate. It creates or strengthens a prejudice against all railroad management—the honest as well as the dishonest—which affects the public view of all railroad questions; it renders it more difficult to deal with such questions calmly and dispassionately; it makes the public restive under the charges they are subjected to, even though they be moderate and necessary; it tends to strengthen a feeling among the unthinking that capital represents extortion. However careful, considerate, fair, and just the management of any particular road may be, and however closely it may confine itself to its legitimate business, it is impossible that it should wholly escape the ill effects of this prejudice, which are visited upon all roads because some conspicuous railroad managers have by their misconduct given in the public mind a character to all.

Evils of the class last mentioned were difficult of legislative correction, because they sprang from the over-confidence of stockholders in the officers chosen to manage their interests, and whose acts at the time they perhaps assented to. But if capable of correction by any legislative authority, it was in general that of the States, not that of the Nation. The States in the main conferred the corporate power, and it was for the States by their legislation to provide for the protection of the individual interests which were brought into existence by their permission. The National Government had to do with the commerce which these artificial entities of state creation might be concerned in. Nevertheless, the manifest misuse of corporate powers strengthened the demand for national legislation, and this very naturally, because the private gains resulting from corporate abuse were supposed to spring, to some extent at least, from excessive burdens imposed upon the commerce which the Nation ought to regulate and protect.

For the purpose of correcting the evils above alluded to, so far as it was constitutionally competent for national legislation to do so, the Act to Regulate Commerce lays down certain rules to be observed by the carriers to which

ble. The Act was examined in detail, and it was contended that on a fair construction of the terms made use of, the express companies could not be embraced. The history of the legislation was also discussed, and it was urged that the public demand for legislative regulation of railroad traffic had been made upon grounds which did not apply to the express traffic; the express companies had not practiced secret rebates; they had not so frequently made the greater charges for the shorter hauls; they had not made unjust discriminations between persons or places. The argument *ad inconvenienti* was also pressed with great earnestness; it was said to be practically impossible for the express companies to print and publish their tariffs, so numerous are the points to which their business extends; and it was even said that so voluminous would they be that no public building at the national capital could contain them.

The Commission has felt the force of the considerations urged so far as they are drawn from the phraseology of the Law, but the other arguments have not appeared to be so weighty. The Commission cannot agree that any serious difficulty would be found in the making and filing of the express tariffs. The companies have no difficulty now in putting into the hands of their agents a tariff which the agents can understand and work by, and which at the same time is neither great in bulk nor cumbersome in use. What the express agent can understand it is fair to assume other people can understand also, and it would impose no hardship upon the express company to require that it be kept where the public can inspect it at pleasure. The objection made to this publication is precisely the same that was made by some railroad companies to the publication of their tariffs, and the language employed is no more extravagant; and yet the railroad companies, when compliance has been undertaken, have found the difficulties dwindling into insignificance. And the several express companies which actually filed their tariffs did not, when forwarding them to the Commission, even suggest that any difficulty had been encountered in preparing them.

The arguments from the history of the Act have plausibility. It may be conceded that the evils at which the Act was aimed have not existed to any great extent in the express business. One reason—perhaps the principal reason—for this is that, as each of the several express companies has had a practical monopoly on the lines on which it operates, the inducement to secret rebates and to the unjust discrimination which springs from severe competition has been wanting. It has been easier, also, to make and maintain rates which are proportioned to distance. Water competition, which so seriously affects the ordinary freight traffic of railroads, would scarcely affect at all the traffic for which shippers are willing to pay high rates in order to have great speed. But the complaint of excessive charges upon express traffic has been common, and that of greater charges on shorter hauls is sometimes heard; and if it shall be held that express companies are not controlled by the rules of fairness and equality which the Act prescribes, it is easy to see that the mischief against which

the Act is aimed may reappear and be enacted with impunity.

It has already been said that no clear line of distinction exists between the express business and some branches of what is exclusively railroad service; and the express business may easily be enlarged at the expense of the other. Those roads which now do their express business through a nominal corporation might hand over to this shadow of their corporate existence the dressed meat or live stock business, or the fruit transportation, or any other business in respect to which speed was specially important; and they might continue this process of paring off their proper functions as carriers until they should be little more than the owners of lines of road over which other organizations should be carriers of freight, and on terms by themselves arbitrarily determined.

The Commission, after a hearing of all the arguments advanced by those who appeared for the express companies, is of opinion that the express business, so far as it is done by the railroad companies themselves, whether directly, and by their managing officers, or indirectly, and through nominal corporations created for the purpose, is within the Act, and that such companies are under obligation to see that the tariffs are filed, and that the rules of fairness and equality which the Act prescribes are observed. Whether the express companies which are independent of the railroads are within the contemplation of the Act is more doubtful.

The Commission is of opinion that the question is one which Congress ought to put beyond question by either expressly and by designation including the express companies or by excluding them. The railroad companies that see fit to do their own express business ought not, either as respects principles or methods, to be subjected in the management of such business to any different control or regulation from that which the independent express companies of the country are required to obey. If the latter are not within the contemplation of the Act to Regulate Commerce, all express business, by whomsoever carried on, should be excluded. Justice to the public, as well as to that business, demands that it be governed throughout the country by rules of general application, and which shall not be dependent on mere forms, or on the will of those who happen to be in the control of the railroads and therefore have the power to determine by what agencies this important portion of the business of the roads shall be conducted.

What is said of the express business is applicable also to the business of furnishing extra accommodations to passengers in sleeping and parlor cars. These accommodations are furnished in some cases by the railroad companies, and in others by outside corporations, who are not supposed to be embraced by the terms of the Law. Outside companies are also to some extent engaged in the transportation of live stock in cars owned by themselves, but transported over the railroads under special agreements with the railroad companies which supply the motive power. As these last named companies furnish better accommodations for live stock, and transport them with less lia-

also may be engaged in the like commerce, and as such be rivals of the carriers which it undertakes to control. For the omission to include them many reasons may be suggested, but perhaps the most influential were that the evils of corporate management had not been so obvious in the case of carriers by water as in that of carriers by land; and moreover the rates of transportation by water were so extremely low that they were seldom complained of as a grievance, even when they were unequal and unjustly discriminating. In their competition with the carriers by land the carriers by water were sometimes at a disadvantage and compelled to accept lower rates, and this also had some influence in propitiating public favor, inasmuch as they appeared to operate as obstacles to monopoly and as checks upon extortion.

But some of the railroad practices which the Act undertakes to bring to an end have been common among carriers by water also, and if wrong in themselves might justly be forbidden in their case as well. The carriers by water discriminate between their customers on grounds not sanctioned by equity when interest seems to require it; they make rates at pleasure, they put up and put down rates suddenly without public notification; they make secret rebates to secure the business of large dealers, they charge less in some cases for a longer than for a shorter transportation over the same line in the same direction, the shorter being included in the longer distance.

It is not intended, however, by this enumeration to intimate an opinion that these things are common. The fact that there has been no general public complaint of them may be regarded as strong and perhaps conclusive evidence to the contrary. But, as the statutory law now is, they may be practiced at pleasure; and the fact that they may be is very likely to lead rivals in business to suspect that they are so practiced much oftener than is actually the case. The existence of such a suspicion, with plausible ground for it, naturally tempts to retaliatory measures of a similar nature where escape from detection is thought likely, and the enforcement of the Law as against those who are subject to it is made more troublesome and less certain by the fact that one class of competitors for business is restrained while the other is left at full liberty.

It may be worthy the careful attention of Congress whether the same rules of fairness and equality ought not to be applied to all carriers whose operations subject them to the federal power; whether those by water as well as those by land ought not in particular to be required to publish their rates, to maintain them steadily, and to apply them impartially, and ought not to be forbidden to give secret rebates. Such rules, prescribed and enforced, would take away much of the present temptation on the part of carriers by land to violate or evade the Law, and would, besides, be intrinsically just and right.

The question whether another class of carriers is within the contemplation of the Act is not so clear. We refer now to those who are engaged in the express business of the country. This business has an origin more recent than that of railroad transportation; it began in a very small way, but it has grown to immense

proportions, and now constitutes a large and increasing share of the business done by rail. Of the carriers engaged in this business there are several classes.

Some are partnerships of individual members, or joint associations constituting a species of statutory partnership, but resembling corporations in having the interests of the members represented by shares in a capital stock, and also in provisions made for perpetuity.

Some are corporations organized under state charters or general incorporation Acts.

These have their several names as express companies, and as such they make bargains with the railroad companies for the transportation of their freight and their agents at a compensation agreed upon. This compensation is likely to be a definite share in the gross receipts from the freight traffic, and each of the several express companies has a territory of its own, so that each road carries the freight and the agents of one only.

Some of the railroad companies, however, have undertaken to do the express business on their own lines through their own agencies. The Baltimore & Ohio Railroad Company did this for a time, and then sold the business to one of the existing express companies. Some of the western railroads combined for the purpose, and for convenience create a nominal corporation to do the business over their several lines and divide the net proceeds. In organization and general methods this corporation resembles some of the fast freight lines of the country, the railroad companies being the nominal corporators and the business done being in every sense railroad business, though for convenience carried on by the several companies through a common agency.

There is no recognized distinction between what shall be considered express freight and what not, except that which concerns the method of transportation. Express freight is commonly but not always taken in cars attached to passenger trains; and, however taken, it is expedited beyond what is possible with freight in general; and any freight taken is express for which the owner consents to pay the charges. These charges are much greater than are made upon ordinary freight of like or similar kind.

Immediately after the organization of the Commission the question was presented whether the express companies of the country were under obligation to file their tariffs in its office. If they came within the enumeration of carriers in the first section of the Act, the obligation was upon them; but not if that enumeration failed to include them. The Commission deemed it prudent to rule, until satisfied to the contrary, that they were included, inasmuch as that ruling could harm no one and was in the direction of safety. The Canadian, the Northern Pacific, and the Dominion Express Companies acquiesced in this ruling and filed tariffs; but the companies for the most part objected, and it was deemed advisable to offer them an opportunity to present their views. This was accordingly done; able counsel appeared to argue the question, and it was very fully and carefully considered.

Many arguments were urged on the part of the companies which are admitted to be forcible

the whole length of a road to a terminus on a water highway would not exceed those for the transportation for half the distance only, to a way station not similarly favored with competition. The seeming injustice was excused on the plea of necessity. The rates to the terminus, it was said, were fixed by the competition and could not be advanced without abandoning the business to the boats. The greater rates to the local points were no more than was reasonable, and they were not by reason of the low rates to the competitive point made greater than they otherwise would have been. On the contrary, if the rates on the railroad were established on a mileage basis throughout, with no regard to special competitive forces at particular points, the effect in diminishing the volume of business would be so serious that local rates at non-competitive points would necessarily be advanced beyond what they are made when the competitive business can be taken also, even though the competitive business be taken at rates which leave little margin above the actual cost of movement. Such is the common argument advanced in support of the short haul rates.

But the lower rates on the longer hauls have not been due altogether to water competition; railroad competition has been allowed to have a similar effect in reducing them. But as the railroad tariffs are commonly agreed upon between the parties making them, the necessity which controlled the water competition was not so apparent here, and to some extent the lower rates have been conceded to important towns in order to equalize advantages as between them and other towns which were their rivals, and to which low rates had been given under a pressure of necessity. But they were given also in many cases as a means of building up a long haul traffic that could not possibly bear the local rates, and which consequently would not exist at all if rates were established on a mileage basis, or on any basis which, as between the long and short haul traffic, undertook to preserve anything like relative equality.

It would be foreign to the purposes of this report to discuss at this time the question whether in this system of rate-making the evils or the advantages were most numerous and important. Some of the evils are obvious; not the least of which is the impossibility of making it apparent to those who have not considered the subject in all its bearings, that the greater charge for the shorter haul can in any case be just. The first impression necessarily is that it must be extortionate; and until that is removed it stands as an impeachment of the fairness and relative equity of railroad rates. But, on the other hand, it must be conceded that this method of making rates represents the best judgment of experts who have spent many years in solving the problems of railroad transportation; and its sudden termination without allowing opportunity for business to adapt itself to the change would, to some extent, check the prosperity of many important places, render unprofitable many thriving enterprises, and probably put an end to some long-haul traffic now usefully carried on between distant parts of the country. It is also quite clear that the more powerful corporations of the country, controlling the largest

traffic and operating on the chief lines of trade through the most thickly settled districts, can conform to the statutory rule with much more ease and much less apparent danger of loss of income than can the weaker lines, whose business is comparatively light and perhaps admits of no dividends, and the pressure of whose fixed charges imposes a constant struggle to avoid bankruptcy.

If Congress intended this immediate change of system, it was not for the Commission to inquire whether the evils of making it at once would or would not exceed the benefits. The Law must stand as the conclusive evidence of its own wisdom, and the authorities charged with enforcing it were not to question but to obey it. With the Commission, therefore, the first question was one of interpretation; and when it was clearly perceived what Congress intended, the line of duty was plain. The intent should be given effect, not only because it was enacted, but because in the enactment it was determined by the proper authority that the public good required it.

In coming to a consideration of the fourth section of the Act it was immediately perceived that many different views were taken of it, some of which were settled convictions which were the result of thought and reflection, while others were mere off-hand impressions and deserving of little attention. By some persons it was assumed that the Commission had by the Act been given a general authority to suspend altogether the operation of the fourth section, and upon this utterly baseless and unreasonable assumption the Commission was plied with arguments in support of a general suspension. Other views went to the opposite extreme, and while holding that the general rule must be enforced in all cases until the Commission had sanctioned exceptions, would restrict the power to make exceptions to individual shipments made under circumstances and conditions which were special and peculiar. Such a restriction would obviously render the authority to make exceptions of no practical utility.

But among those who had given the subject thought and attention, and whose views for that reason were deserving of consideration, a most important difference of opinion was found to exist regarding the stage at which the intervention of the Commission under the fourth section was to be invoked. By some persons it was believed that a rule was laid down by that section which could not lawfully be departed from until the Commission on investigation had determined that the circumstances and conditions of the longer and of the shorter transportation were so dissimilar as to justify making the greater charge for that which was the shorter, and had prescribed the extent of the permissible exception.

By others the fact was emphasized that the charging or receiving "any greater compensation in the aggregate for the transportation of passengers or of the like kind of property" "for a shorter than for a longer distance over the same line in the same direction, the shorter being included in the longer distance," was only declared by the section to be unlawful when both were "under substantially similar circumstances and conditions;" and they com-

from such place to a port of transshipment or shipped from a foreign country to any place in the United States, and carried to such place from a port of entry either in the United States or an adjacent foreign country; *Provided, however, That the provisions of this Act shall not apply to the transportation of passengers or property, or to the receiving, delivering, storage, or handling of property wholly within one State, and not shipped to or from a foreign country from or to any State or Territory as aforesaid:*

It is further provided that—

The term "railroad," as used in this Act shall include all bridges and ferries used or operated in connection with any railroad, and also all the road in use by any corporation operating a railroad, whether owned or operated under a contract, agreement or lease; and the term "transportation" shall include all instrumentalities of shipment or carriage.

The railroad mileage of the United States, computed to the close of the fiscal year 1886, of the companies respectively, was 133,606. The number of corporations represented in this mileage was 1,425, but by the consolidation or leasing of roads, the number of corporations controlling and operating roads as carriers was reduced to 700. It is estimated that 4,390 miles of road have been constructed since the foregoing statistics were obtained, making a total mileage at this time of 137,996. It is impossible to say with entire accuracy what is the number of railroad companies subject to the provisions of the Act; but it is believed that not less than 1,200, operated by about 500 corporations as carriers, engage either regularly or at times in interstate commerce, so as to make the Act applicable. The Commission has as yet no statistics of its own collection to lay before the public; but in a manual generally accepted as reliable, the cost of construction and equipment of the 133,606 miles of road is estimated at \$7,254,995,223, and the funded debt of the companies at \$3,882,966,830. Interest according to the same authority was paid by these companies for the last fiscal year to the amount of \$187,356,540; and the aggregate payment to stockholders in dividends was \$30,094,188.

Some idea of the magnitude of the interest which the Act undertakes to regulate may be obtained from these figures, but they fall far short of measuring, or even of indicating its importance. The regulation of no other business would concern so many or such diversified interests, or would affect in so many ways the results of enterprise, the prosperity of commercial and manufacturing ventures, the intellectual and social intercourse of the people, or the general comfort and convenience of the citizen in his every day life. The railroads provide for the people facilities and conveniences of a business and social nature which have become altogether indispensable; and the importance of so regulating these that the best results may be had, not by the general public alone, but by the owners of railroad property also, is quite beyond computation.

The Act to regulate commerce was passed under the authority conferred upon Congress by the Federal Constitution "to regulate commerce with foreign Nations, among the several States, and with the Indian Tribes," and in recognition of a duty which, though long delayed, had at length, in the opinion of Congress, become imperative. The reasons for the delay are well understood. When the grant

INTER S.

of this power of regulation was made by the Constitution the commerce between the States which might be controlled under it was quite insignificant both in volume and value. It was for the most part carried on by means of coast wise vessels and by water craft of various kinds which were sailed or otherwise propelled on the lakes, rivers, and smaller streams of the interior. On the land there was very little that could be said to rise to the dignity of interstate commerce; and the regulation of that little, as also of that which was exclusive State traffic, was for the most part left to the rules of the common law. The exceptional regulations, if any seemed to be called for, were made by the state laws. In a few cases where persons had associated themselves together as regular carriers of persons on definite routes, exclusive rights were granted to them by the States, as such carriers, the motive to such grants being a belief on the part of the state authorities that without the exclusive privilege the regular transportation would not be adequately and reliably provided for.

For the the regulation of commerce on the ocean and other navigable waters Congress very promptly passed the necessary laws; but its jurisdiction within the limits of the States was not very clearly understood, and it was not until the great case of *Ogden v. Gibbons* decided in 1824, that it was authoritatively and finally determined that the waters of a State, when they constituted a highway for foreign and interstate commerce, are, so far as concerns such commerce, as much within the reach of federal legislation as are the high seas, and consequently that exclusive rights for their navigation cannot be granted by States whose limits embrace them.

But while providing from time to time for the regulation of commerce by water, Congress still abstained from undertaking the regulation of commerce by land. The reasons for this continued to be the same as at the first. The land commerce was insignificant in amount, and the rules of the common law were in general found adequate to the settlement of the questions arising out of it. The commerce of trappers and hunters, of traders with the Indians, or that of the early settlers in the wilderness, needed only the most primitive modes of conveyance; the emigrant wagon in one direction and the pack-horse and canoe in the other, performed in respect to it the functions now performed by the railroad train and the steamboat. The use of such primitive instrumentalities required little regulation by either state or national law. When Congress provided for the construction of the Cumberland road as a great national highway, it was thought quite undesirable to regulate its use by national law or to take national supervision of the commerce upon it; and, with the commerce on the ordinary highways, it was left to the supervision and care of the States respectively through or into which the road should be built.

With the application of steam as a motive power for propelling vessels the conditions were immediately, to a considerable extent, changed. An impetus was given to the internal commerce of the country which promised immense results, and which made immediate

mission called the attention of the several carriers which had obtained orders to the desirability of revising their tariffs and bringing them more nearly into conformity with the general rule of the fourth section. The opinion was expressed that this revision was practicable without serious injury to the interests involved. This suggestion was acted upon by several of the petitioning carriers, and by a still greater number who had not petitioned for relief; and the Commission takes pleasure now in being able to report that in large sections of the country obedience to the general rule of the fourth section is without important exception. While before the passage of the Act few lines operated as competitors for long haul traffic could be found upon which the practice of the lesser charge for the longer haul did not exist, on a very large proportion of them all it has now come to an end. This has in some instances been accomplished by raising the rates on through traffic, but in many cases where this was done the practical experiment resulted finally in a general reduction throughout the line. In other instances the lower rates on long haul traffic were retained and the local rates reduced to the limit thus established. In still other instances a compromise course was pursued, the previous low rates at certain so-called competitive points being raised somewhat, and the local rates at intermediate points reduced sufficiently to be brought within the statutory rule. This last course was pursued upon some of the leading roads in the Southern States as to points to which it was in their power to control the rates made.

The process has been continually going on, and is still in progress. Tariffs are from time to time filed with the Commission showing a reconstruction of the rates in the direction of the rule laid down in the fourth section. The carriers making them sometimes protest that the rates are not voluntarily made, but only because the Law so requires, and that they will involve large loss of revenue. The apprehension of loss in cases when the local and non-competitive rates are adjusted to the through rates is in some cases supported by strong probabilities.

The transcontinental roads have not conformed to the general rule of the fourth section. By the managers of those roads it is contended that in view of the competition which they must meet, not only of ocean vessels but of the Canadian railways, it will be absolutely impossible for them to comply with the strict rule of the fourth section without surrendering a very large portion of their through business, and that such surrender will be equally ruinous to their own interest and to many other large interests on the Pacific coast. How far this contention is just the Commission has as yet neither had the occasion nor found the opportunity for judging; but cases now pending in which the rates to interior points are complained of will soon receive attention, and the general question will probably to some extent be found involved.

Neither is it the case that the roads in the States south of the Ohio have come into general conformity with the rule of the fourth section. Some of them have greatly modified

their tariffs in that direction; some profess compliance, while some insist that compliance is not possible without ruin. Of these the case of the Louisville & Nashville Railroad Company may be taken as representative. In pending proceedings against that company for a violation of the fourth section it is frankly avowed by the company that its method of making rates has not been changed since the Act was passed, and at the same time it is insisted that any considerable change is impossible. The local rates cannot be reduced, it is said, because they are as low now as can be afforded unless the competitive rates are raised, and to raise the competitive rates would be to abandon the business, which would then go to other carriers. It is further insisted for the company that while it gives, as it is compelled to do, very low rates to competing points, the intermediate stations participate in the benefits, because their rates never exceed the rates to the competitive points with the local rates thence to the intermediate stations added; and therefore every reduction to the competitive point causes a like reduction to the intermediate point also. This, as has been said, is the contention which the company makes in pending cases, and in support of which much evidence has been put in.

Some of the cases in which the strict rule of the fourth section is not applied are cases in which the longer hauls are made by circuitous routes, and the charges are necessarily made very low in order to meet the competition of more direct lines. The competition by these circuitous routes is in some cases hardly legitimate, and while it continues it constitutes a disturbing element in the general railroad business of the section. It is nevertheless thought by the local communities to be important, and there are probably some weak lines that would find it difficult to maintain a useful existence if not permitted to engage in competition for a business that would naturally fall to other lines. It happens in some of these cases that the lower charges on the longer hauls are only made lower because the points to which they are made are nearer by direct routes to the common market than the points to which the higher charges are made; and in such cases to compel the circuitous route to conform to the rule of the fourth section strictly would be to compel an abandonment of some portion of its business. If the direct lines to the common market give to the nearer point the lower rate, the circuitous line has no alternative but to do the same or to give up any attempt at competition.

The Commission has not as yet had occasion to decide a case which involved the construction of the fourth section in its application to traffic by these circuitous routes; the only case in which the question was made having been found, when the facts were examined, not to present it. 1 Interstate Commerce Commission Reports, p. 199 [*ante*, 631].

In some cases the lower rate on the longer line is a combination of rates over several lines; and it has been contended in some quarters that the fourth section only applies to cases in which the carrier who makes the greater charge for the shorter haul controls the line of longer haul, and makes the charge upon

abuse of corporate powers were little more than nominal. For a long time the promoter of a railway was looked upon as a public benefactor, and laws were passed under which municipal bodies were allowed to give public money or loan public credit in aid of his schemes, on an assumption that almost any road would prove reasonably remunerative, but that in any event the indirect advantages which the public would reap must more than compensate for the expenditures.

In time it came to be perceived that these sanguine expectations were delusive. A very large proportion of all the public money invested in railroads was wholly sunk and lost. Many roads were undertaken by parties who were without capital, and who relied upon obtaining it by a sale of bonds to a credulous public. The corporation thus without capital was bankrupt from its inception, and the corporators were very likely to be mere adventurers who would employ their chartered powers in such manner as would most conduce to their personal ends.

It is striking proof of the recklessness of corporate management that 108 roads, representing a mileage of 11,066, are now in the hands of receivers, managing them under the direction of courts, whose attention is thus necessarily withdrawn from the ordinary and more appropriate duties of judicial bodies. So serious has been the evil of bringing worthless schemes into existence and making them the basis for an appropriation of public moneys or for the issue of worthless evidences of debt, that a number of the States have so amended their constitutions as to take from the Legislature the power either to lend the credit of the State in aid of corporations proposing to construct railroads, or to authorize municipal bodies to render aid, either money or credit. State legislation has at the same time been in the direction of making compulsory the actual payment of a *bona fide* capital before a corporation shall be at liberty to test the credulity of the public by an issue of negotiable securities.

When roads were built for which the business was inadequate, the managers were likely to seek support by entering upon competition for business which more legitimately belonged to the other roads, and which could only be obtained by offering rates so low that if long continued they must prove destructive. A competitive warfare was thus opened up in which each party endeavored to underbid the other, with little regard to prudential considerations, and freights were in a great many cases carried at a loss, in the hope that in time the power of the rival to continue the strife would be crippled and the field practically left to a victor who could then make its own terms with customers. When the competition was less extreme than this, there was still a great deal of earnest strife for business, some of which was open and with equal offerings of rates and accommodations to all, but very much of which was carried on secretly, and then the very large dealers practically made their own terms, being not only accommodated with side tracks and other special conveniences, but also given what were sometimes spoken of as wholesale rates,

or perhaps secret rebates, which reduced the cost to them of transportation very greatly below what smaller dealers in the same line of business were compelled to pay. Such allowances were sufficient of themselves in very many cases to render successful competition, as against those who had them, practically impossible.

The system of making special arrangements with shippers was in many parts of the country not confined to large manufacturers and dealers, but was extended from person to person under the pressure of alleged business necessity, or because of personal importunity or favoritism, and even in some cases from a desire to relieve individuals from the consequences of previous unfair concessions to rivals in business. The result was that shipments of importance were commonly made under special bargains entered into for the occasion, or to stand until revoked, of which the shipper and the representative of the road were the only parties having knowledge. These arrangements took the form of special rates, rebates, and drawbacks, underbidding, reduced classification, or whatever might be best adapted to keep the transaction from the public; but the public very well understood that private arrangements were to be had if the proper motives were presented. The memorandum book carried in the pocket of the general freight agent often contained the only record of the rates made to the different patrons of the road; and it was in his power to place a man or a community under an immense obligation by conceding a special rate on one day, and to nullify the effect of it on the next by doing even better by a competitor.

The system, if it can be called such, involved a great measure of secrecy, and its necessary conditions were such as to prevent effective efforts to break it down, though the willingness to make the effort was not wanting among intelligent shippers. It was of the last importance to the shipper that he be on good terms with those who made the rates he must pay; to contend against them was sometimes regarded as a species of presumption which was best dealt with by increasing existing burdens; and the shipper was cautious about incurring the risk. Nevertheless it was a common observation, even among those who might hope for special favors, that a system of rates, open to all and fair as between localities, would be far preferable to a system of special contracts into which so large a personal element entered or was commonly supposed to enter. Permanence of rates was also seen to be of very high importance to every man engaging in business enterprises, since without it business contracts were lottery ventures. It was also perceived that the absolute sum of the money charges exacted for transportation, if not clearly beyond the bounds of reason, was of inferior importance in comparison with the obtaining of rates that should be open, equal, relatively just as between places, and as steady as in the nature of things was practicable.

Special favors or rebates to large dealers were not always given because of any profit which was anticipated from the business obtained by allowing them; there were other

than one common carrier, and the several common carriers operating such lines or routes establish joint tariffs of rates, or fares, or charges for such continuous lines or routes, copies of the same are in like manner required to be filed; and the Commission is empowered to require their publication in so far as it shall be found practicable, and to determine the measure of publicity to be given to such rates, fares, and charges. With these provisions there has been general but not in all cases satisfactory, compliance on the part of the carriers; and the Commission, acting under the discretionary authority conferred upon it to require the publication of joint tariffs, has made order for their publication in all cases where the joint tariff is competitive to that which is taken by a single line between the same points; the publication under such circumstances being important to the interests of fair and open competition.

But though the carriers make and file their tariffs as required by the Act, there is no general uniformity to the tariffs or to the classifications, either in form or in general method of preparation. This is unfortunate for several reasons, but especially because the public, who have to deal with many carriers, are likely to be confused between the different methods of giving information, and possibly to be misled in some cases. The difficulty of making use of them for the purposes of the Commission is also greatly enhanced by the want of uniformity, and the Commission would be very glad to correct it if that were possible. The force of assistants which the appropriation made by the Act enabled the Commission to engage is so small that any steps in this direction have up to this time been quite out of the question. Some idea of the labor devolved upon this clerical force may be formed when it is known that as near as can be estimated one hundred and ten thousand books, papers, and documents, showing rates, fares, and charges for transportation, and contracts, agreements, or arrangements between carriers in relation to interstate traffic, have been filed in the office of the Commission, all of which required appropriate classification and systematic arrangement. It has been quite impossible to do more with these than to acknowledge the receipt, classify, and index them, and put them in order for reference. The organization of a general system upon which they might most usefully be made has not been attempted; nor even any systematic investigation of their contents for the purpose of observing to what extent the provisions of the Act to Regulate Commerce is complied with in their preparation.

This latter duty seems to be clearly contemplated by the Act. The Commission has felt it to be its duty not to exceed in its expenditures the appropriation made, unless compelled by a necessity that should be plainly imperative; and steps, however desirable, that required, to give them effect, more clerical force than the appropriation would enable it to secure have therefore been postponed. Should it be within the power of the Commission at any time hereafter to deal with the subject effectively, it will endeavor to do so.

It is within the knowledge of the Commis-

sion that some carriers have been advised by their counsel that the prohibition in the Act against an increase of rates except on ten days' notification does not apply to joint rates. The Commission does not admit this advice to be sound; but in case the Act should be amended, it is believed the prohibition should in clear terms be made to extend to joint rates.

IV. GENERAL SUPERVISION OF THE CARRIERS SUBJECT TO THE ACT.

It is provided in the twelfth section of the Act—

That the Commission hereby created shall have authority to inquire into the management of the business of all common carriers subject to the provisions of this Act, and shall keep itself informed as to the manner and method in which the same is conducted, and shall have the right to obtain from such common carriers full and complete information necessary to enable the Commission to perform the duties and carry out the objects for which it was created; and for the purposes of this Act the Commission shall have power to require the attendance and testimony of witnesses, and the production of all books, papers, tariffs, contracts, agreements, and documents relating to any matter under investigation, and to that end invoke the aid of any court of the United States in requiring the attendance and testimony of witnesses and the production of books, papers, and documents under the provisions of this section.

This is a very important provision, and the Commission will no doubt have frequent occasion to take action under it. It will not hesitate to do so in any case in which a mischief of public importance is thought to exist, and which is not likely to be brought to its attention on complaint of a private prosecutor. There is every reason to believe, however, that some of the most serious evils which were notorious in the railway service before the passage of the Act, and were in the legislative mind as reasons for its enactment, have now almost ceased to exist. One of these was the giving of special and secret rebates. These were exceedingly common before the Act, and constituted one of the readiest means of making unjust discrimination. No provision in the Act to Regulate Commerce is more important than that which forbids them. But among all the complaints made to the Commission not one has charged a specific Act in violation of this provision; and where a disregard of it has been suggested it has been by way of formal charge and as an expression of suspicion only.

In the litigated cases which have come before the Commission involving an examination into railroad practices at important centers, there has been entire agreement in the proofs that special rates to individuals and secret rebates were no longer made; a single exceptional instance only has come out in the proofs. Their condemnation by the law and the provision made for their detection and punishment have brought about this result. Further evidence in the same direction is furnished by the complaints of those who formerly had them that the Law injuriously affects their business; but these complaints, which are aimed at the justice and equity of the Law, the public may bear with equanimity, satisfied that in this particular at least substantial benefit has come from its enactment.

Complaints of unjust discrimination and the giving of undue and unreasonable preferences

in the nature of blackmail, and was yielded to unwillingly and through fear of damaging consequences from a refusal. But the evils were present as much when it was extorted as when it was freely given.

These were some of the evils that made interference by national legislation imperative. But there were others that were of no small importance. Rates when there was no competition were sometimes so high as to be oppressive; and when competition existed bylines upon which the public confidently relied to protect them against such a wrong, a consolidation was effected and the high rates perpetuated by that means. In some cases the roads, created as conveniences in transportation, were so managed in respect to business passing or destined to pass over other roads that they constituted hinderances instead of help, to the great annoyance of travel and to the serious loss of those who intrusted their property to them. Then their rates were changed at pleasure and without public notification; their dealings to a large extent were kept from the public eye, the obligation of publicity not being recognized; and the public were therefore without the means of judging whether their charges for railroad service were reasonable and just or the contrary.

But the publications actually made only increased the difficulties. Railroad rates, difficult enough to be understood by the uninitiated when printed plainly in one general tariff with classification annexed, became mysterious enigmas when several different tariffs were printed, as was the case in some sections; some relating to competitive points and others to what were called local points, and each referring to voluminous and perhaps different classifications, which were printed but not posted, and which were observed or disregarded at will in the rates as published. Such unsystematic and misleading publications naturally led to many overcharges and controversies, and naturally invited and favored special rates and injurious preferences.

These were serious evils; and they not only to some extent blunted the sense of right and wrong among the people and tended to fix an impression upon the public mind that unfair advantages in the competition of business were perfectly admissible when not criminal, but they built up or strengthened a class feeling and embittered the relations between those who for every reason of interest ought to be in harmony. It was high time that adequate power should be put forth to bring them to an end. Railroads are a public agency. The authority to construct them with extraordinary privileges in management and operation is an expression of sovereign power, only given from a consideration of great public benefits which might be expected to result therefrom. From every grant of such a privilege resulted a duty of protection and regulation, that the grant might not be abused and the public defrauded of the anticipated benefits.

The abuses of corporate authority to the injury of the public were not the only reasons operating upon the public mind to bring about the legislation now under consideration; some other things which in their direct effects were wrongs to stockholders only had their influence also, and this by no means a light one.

The manner in which corporate stocks were manipulated for the benefit of managers and to the destruction of the interest of the owners was often a great scandal, resulting sometimes in the bankruptcy and practical destruction of roads which, if properly managed, would have been not only profitable but widely useful. This in its direct results might be a wrong to individuals only, but in its direct influence it was a great public wrong also.

The most striking and obvious fact in such a case commonly is that persons having control of railroads have in a very short time by means of the control amassed great fortunes. The natural conclusion which one draws who must judge from surface appearances is, that these fortunes are unfairly acquired at the expense of the public; that they represent excessive charges on railroad business, or unfair employment of inside privileges, and furnish in themselves conclusive evidence that current rates are wrong and probably extortionate. An impression of this sort, when it happens to be wide of the fact is for many reasons unfortunate. It creates or strengthens a prejudice against all railroad management—the honest as well as the dishonest—which affects the public view of all railroad questions; it renders it more difficult to deal with such questions calmly and dispassionately; it makes the public restive under the charges they are subjected to, even though they be moderate and necessary; it tends to strengthen a feeling among the unthinking that capital represents extortion. However careful, considerate, fair, and just the management of any particular road may be, and however closely it may confine itself to its legitimate business, it is impossible that it should wholly escape the ill effects of this prejudice, which are visited upon all roads because some conspicuous railroad managers have by their misconduct given in the public mind a character to all.

Evils of the class last mentioned were difficult of legislative correction, because they sprang from the over-confidence of stockholders in the officers chosen to manage their interests, and whose acts at the time they perhaps assented to. But if capable of correction by any legislative authority, it was in general that of the States, not that of the Nation. The States in the main conferred the corporate power, and it was for the States by their legislation to provide for the protection of the individual interests which were brought into existence by their permission. The National Government had to do with the commerce which these artificial entities of state creation might be concerned in. Nevertheless, the manifest misuse of corporate powers strengthened the demand for national legislation, and this very naturally, because the private gains resulting from corporate abuse were supposed to spring, to some extent at least, from excessive burdens imposed upon the commerce which the Nation ought to regulate and protect.

For the purpose of correcting the evils above alluded to, so far as it was constitutionally competent for national legislation to do so, the Act to Regulate Commerce lays down certain rules to be observed by the carriers to which

reparation to be made for past injury. Most of the cases were such as to present no case for reparation—they looked only to the establishment of a rule for the future. Some complaints, however, were evidently made in the expectation that the Commission might proceed to give damages upon a grievance that would support an action on the common-law side of the federal court. The Commission, when such complaints have been brought to a hearing, has not discovered in the statute a purpose to confer upon it the general power to award damages in the cases of which it may take cognizance. The failure to provide in terms for a judgment and execution is strong negative testimony against such a purpose; but what is perhaps more conclusive is that the Act must be so construed as to harmonize with the seventh amendment to the Federal Constitution, which preserves the right of trial by jury in common-law suits.

It is believed to be unquestionable that parties can not be deprived of this right through conferring authority to award reparation upon a tribunal that sits without a jury as assistant; and that therefore any determination that reparation should be made, in a case in which a suit at law might have been maintained, can not be made absolutely binding and enforceable against the defendant in the form of a judgment; but that under the statute it will put the defendant to election, either to satisfy the complainant, in which case he will be relieved from further liability or penalty, or, on the other hand, to take the risks of proceedings in a federal court to recover damages or penalty, or both, in which case the finding of the Commission would be *prima facie* evidence of the facts recited in it.

Abstracts of the decisions made by the Commission in the cases litigated before it, and which up to this time it has been enabled to decide, are given in an appendix hereto, marked B. A brief statement is also made of the proceedings in all the cases begun by formal complaint, whether already disposed of or still pending.

In every case in which the Commission made an order against the carrier complained of, the carrier has filed notice of its compliance.

In the course of the hearings before the Commission a great body of evidence has been taken, which will remain on file in the office for reference or for any future use for which there may be occasion.

VI. PROCEEDINGS BEFORE THE COMMISSION.

It has been deemed exceedingly desirable that proceedings before the Commission on complaints against carriers should be made as informal as should be consistent with order and regularity, and that dilatory action of every nature should be discouraged. The rules of procedure, therefore, which were early adopted and put in force made no other requirement for a complaint than that it should be in the form of a verified petition and set forth the facts which constitute the grievance complained of. When such a statement has appeared, however informally made, the petition has been accepted and an answer called for. Demurrers or motions to dismiss have

not been favored, unless the case was such that the whole merits would thereby be presented; but the defendant has been expected to discontinue its defense by answer, so that one hearing may be sufficient for the final disposition of the case.

By this method of procedure technicalities are discarded, the complaints and the answers to them are treated as presenting business controversies which the parties, if they elect so to do, can manage for themselves. This they may do without being placed at disadvantage by the want of legal learning, unless the case is such as to depend rather upon the law than upon disputed questions of fact, which many of them do not. When parties have managed their own cases the taking of testimony has been somewhat informal also; and the Commission has given its aid in the examination of the witnesses produced, in order that the whole truth bearing on the matter in controversy might as far as possible be brought out and made plain. It is a pleasure to note that in this informal mode of procedure the parties have in general most heartily co-operated, and that they have been very liberal in agreeing upon the facts when it was practicable to do so, thereby materially shortening the hearings and making them assume more the form of amicable contentions.

A copy of the rules of procedure adopted by the commission under the seventeenth section of the Act is hereto appended, marked D.*

VII. EXPENSE OF HEARINGS.

The Act provides for compulsory process to bring witnesses before the Commission, and that when summoned they shall be paid for their attendance. It requires the principal office of the Commission to be at the national capital, and apparently contemplates that its sittings shall in general be there held. It provides, however, in the nineteenth section that—

Whenever the convenience of the public or of the parties may be promoted or delay or expense prevented thereby, the Commission may hold special sessions in any part of the United States. It may, by one or more of the Commissioners, prosecute any inquiry necessary to its duties in any part of the United States, into any matter or question of fact pertaining to the business of any common carrier subject to the provisions of this Act.

The Commission understands that witnesses produced by parties to controversies are to be paid by the parties producing them. This, in some cases, where they must come long distances, is a great burden, especially in view of the fact that the Commission is not given authority to tax costs or even to impose the costs of the hearing upon the defeated party; and the Commission has endeavored to obviate it, first by inducing the parties, as far as possible, to stipulate the facts, and next by providing for the taking of the testimony by deposition, after the manner in which it is taken in the federal courts. Where, however, a great number of witnesses are to be examined, it has been deemed advisable to hold the sessions near where the transactions which are to be inquired into have taken place, not only because this course is least expensive to the parties, but because in that way the facts are more likely to be completely brought out.

*See 1 Interstate Commerce Reports, Appendix I.

also may be engaged in the like commerce, and as such be rivals of the carriers which it undertakes to control. For the omission to include them many reasons may be suggested, but perhaps the most influential were that the evils of corporate management had not been so obvious in the case of carriers by water as in that of carriers by land; and moreover the rates of transportation by water were so extremely low that they were seldom complained of as a grievance, even when they were unequal and unjustly discriminating. In their competition with the carriers by land the carriers by water were sometimes at a disadvantage and compelled to accept lower rates, and this also had some influence in propitiating public favor, inasmuch as they appeared to operate as obstacles to monopoly and as checks upon extortion.

But some of the railroad practices which the Act undertakes to bring to an end have been common among carriers by water also, and if wrong in themselves might justly be forbidden in their case as well. The carriers by water discriminate between their customers on grounds not sanctioned by equity when interest seems to require it; they make rates at pleasure, they put up and put down rates suddenly without public notification; they make secret rebates to secure the business of large dealers, they charge less in some cases for a longer than for a shorter transportation over the same line in the same direction, the shorter being included in the longer distance.

It is not intended, however, by this enumeration to intimate an opinion that these things are common. The fact that there has been no general public complaint of them may be regarded as strong and perhaps conclusive evidence to the contrary. But, as the statutory law now is, they may be practiced at pleasure; and the fact that they may be is very likely to lead rivals in business to suspect that they are so practiced much oftener than is actually the case. The existence of such a suspicion, with plausible ground for it, naturally tempts to retaliatory measures of a similar nature where escape from detection is thought likely, and the enforcement of the Law as against those who are subject to it is made more troublesome and less certain by the fact that one class of competitors for business is restrained while the other is left at full liberty.

It may be worthy the careful attention of Congress whether the same rules of fairness and equality ought not to be applied to all carriers whose operations subject them to the federal power; whether those by water as well as those by land ought not in particular to be required to publish their rates, to maintain them steadily, and to apply them impartially, and ought not to be forbidden to give secret rebates. Such rules, prescribed and enforced, would take away much of the present temptation on the part of carriers by land to violate or evade the Law, and would, besides, be intrinsically just and right.

The question whether another class of carriers is within the contemplation of the Act is not so clear. We refer now to those who are engaged in the express business of the country. This business has an origin more recent than that of railroad transportation; it began in a very small way, but it has grown to immense

proportions, and now constitutes a large and increasing share of the business done by rail. Of the carriers engaged in this business there are several classes.

Some are partnerships of individual members, or joint associations constituting a species of statutory partnership, but resembling corporations in having the interests of the members represented by shares in a capital stock, and also in provisions made for perpetuity.

Some are corporations organized under state charters or general incorporation Acts.

These have their several names as express companies, and as such they make bargains with the railroad companies for the transportation of their freight and their agents at a compensation agreed upon. This compensation is likely to be a definite share in the gross receipts from the freight traffic, and each of the several express companies has a territory of its own, so that each road carries the freight and the agents of one only.

Some of the railroad companies, however, have undertaken to do the express business on their own lines through their own agencies. The Baltimore & Ohio Railroad Company did this for a time, and then sold the business to one of the existing express companies. Some of the western railroads combined for the purpose, and for convenience create a nominal corporation to do the business over their several lines and divide the net proceeds. In organization and general methods this corporation resembles some of the fast freight lines of the country, the railroad companies being the nominal corporators and the business done being in every sense railroad business, though for convenience carried on by the several companies through a common agency.

There is no recognized distinction between what shall be considered express freight and what not, except that which concerns the method of transportation. Express freight is commonly but not always taken in cars attached to passenger trains; and, however taken, it is expedited beyond what is possible with freight in general; and any freight taken is express for which the owner consents to pay the charges. These charges are much greater than are made upon ordinary freight of like or similar kind.

Immediately after the organization of the Commission the question was presented whether the express companies of the country were under obligation to file their tariffs in its office. If they came within the enumeration of carriers in the first section of the Act, the obligation was upon them; but not if that enumeration failed to include them. The Commission deemed it prudent to rule, until satisfied to the contrary, that they were included, inasmuch as that ruling could harm no one and was in the direction of safety. The Canadian, the Northern Pacific, and the Dominion Express Companies acquiesced in this ruling and filed tariffs; but the companies for the most part objected, and it was deemed advisable to offer them an opportunity to present their views. This was accordingly done; able counsel appeared to argue the question, and it was very fully and carefully considered.

Many arguments were urged on the part of the companies which are admitted to be forced

bulk or weight was large as compared with their value.

On the system of apportioning the charges strictly to the cost, some kinds of commerce which have been very useful to the country, and have tended greatly to bring its different sections into more intimate business and social relations, could never have grown to any considerable magnitude, and in some cases could not have existed at all, for the simple reason that the value at the place of delivery would not equal the purchase price with the transportation added. The traffic would thus be precluded, because the charge for carriage would be greater than it could bear. On the other hand, the rates for the carriage of articles which within small bulk or weight concentrate great value would on that system of making them be absurdly low; low when compared to the value of the articles, and perhaps not less so when the comparison was with the value of the service in transporting them.

It was, therefore, seen not to be unjust to apportion the whole cost of service among all the articles transported, upon a basis that should consider the relative value of the service more than the relative cost of carriage. Such method of apportionment would be best for the country, because it would enlarge commerce and extend communication; it would be best for the railroads, because it would build up a large business, and it would not be unjust to property owners, who would thus be made to pay in some proportion to benefit received. Such a system of rate-making would in principle approximate taxation; the value of the article carried being the most important element in determining what shall be paid upon it.

Accordingly, and for convenience and certainty in imposing charges, freight is classified; that which comes in one class being charged a higher proportional rate than that which is placed in another. But other considerations besides value must also come in when classification is to be made. Some articles are perishable, some are easily broken, some involve other special risks in carriage, some are bulky, some specially difficult to handle, and so on. All these are considerations which may justly affect rates, and therefore may be taken into account in classification. But still others have been found potent. Every section of the country has its peculiar products which it desires to market as widely as possible, and is not unwilling that classification should be made use of by the railroads which serve it as a means of favoring and thus extending the trade in local productions; favoring them by giving them low classification and thus low rates, and discriminating against those of other sections through a classification which rated them more highly.

It has been in the power of every railroad to have a classification of its own; but the necessities of an interchange of business have brought about agreements, and the railroad associations have been given the authority to make classifications for all their members. Their labors in this direction have been extremely important and useful; they have been

steadily reducing the number of different classifications in the country, and steadily approaching a condition of things in which there will be one only. But in these associations, when in session for the making of rates, each railroad official has, to some extent, had the district which was served by his road behind him; he has felt the pressure of the interests there, and contended for them as against the the interests in classification represented by others, not only because it was desirable that the road should favor the policy its patrons favored, but also because the same policy was likely to be beneficial to both.

The result necessarily is that a classification made by a railroad association represents a series of compromises, to which not only the railroad are parties, but in a certain sense business interests and sections of country also; these in many cases being admitted by their representatives to the consultations upon a subject so vitally concerning their interests, and allowed to present their views. This contention of interests still continues to go on in the meetings and conferences, but with a steady tendency in the direction of one uniform classification, and there is reason to hope that without much further delay all classifications will be brought into harmony. If any other tribunal were to be given the authority to make classification, it must, if it would exercise its power wisely, proceed in much the same way; it must act deliberately, give all interests an opportunity to be heard, take into account all the considerations which ought to bear upon it; cost of service, interest of sections, equity as between industries and between classes of persons, and so on indefinitely.

Whether, therefore, the steady tendency in the direction of one uniform classification would be hastened by conferring the power to make one on a national commission is not entirely certain. The work if taken up anew would be one requiring much time for its proper performance; it would involve a careful consideration of the interests peculiar to different sections of the country, and a close study of the conditions of railroad service as they bear upon such interests. But these conditions change from month to month; the classification cannot be permanently the same, but must be subject to modification on the same grounds on which it was originally made; the appeals for modification would be as numerous as they would be perplexing, because of the diversity of reasons on which they would be grounded. Under the Law as it now is the Commission has appellate powers to correct any unjust classification, and it will keep in view the desirability of general uniformity and do what it properly can to bring about that result.

The classification of passengers has to some extent been a subject of complaint to the Commission. Some carriers as a rule have but one rate of passenger transportation, and but one class of passengers, except as they may be carriers of emigrants in considerable bodies, and they then have emigrant rates which are lower than those given to other persons, and the emigrants are either given less desirable cars attached to the regular trains, or are sent on trains by themselves. Other carriers make

bility to injury and with less shrinkage than is done in the ordinary stock car, it is not improbable that they, like the companies which furnish special accommodations for passengers, may in time build up a large business in respect to which they will not be controlled by any existing legislation.

It is well known also that the transportation of mineral oil is already to a very large extent in tank cars owned by parties who are not carriers subject to regulation under the Act to Regulate Commerce. A willingness to disregard the rules of equality and justice as between shippers, when it can be made for the interest of the carriers to do so is as likely to make its appearance in the action of the managers of any one of these outside organizations as in that of the managers of the railroads, for the temptations will be the same, and the same class of persons will be bidding for special privileges and advantages which before the Act was passed prospered so unfairly upon railroad favors. The Act has not changed the nature of the grasping disposition of individuals; it has only interposed certain restraints which it is reasonable to assume will be evaded if the opportunity shall be presented.

These facts are noted for the purpose of placing the whole subject distinctly before the National Legislature. If it is the will of Congress that all transportation of persons and property by rail should come under the same rules of general right and equity, some further designation of the agencies in transportation which shall be controlled by such rules would seem to be indispensable.

II. THE LONG AND SHORT HAUL CLAUSE OF THE ACT.

Another question presenting itself immediately on the organization of the Commission was that respecting the proper construction of the fourth section of the Act, which, after providing

That it shall be unlawful for any common carrier subject to the provisions of this Act to charge or receive any greater compensation in the aggregate for the transportation of passengers or of like kind of property, under substantially similar circumstances and conditions, for a shorter than for a longer distance over the same line, in the same direction, the shorter being included within the longer distance,

proceeds to say—

That, upon application to the Commission appointed under the provisions of this Act, such common carrier may, in special cases, after investigation by the Commission, be authorized to charge less for longer than for shorter distances for the transportation of passengers or property; and the Commission may from time to time prescribe the extent to which such designated common carrier may be relieved from the operation of this section of this Act.

The provision against charging more for the shorter than for the longer haul under the like circumstances and conditions over the same line and in the same direction, the shorter being included within the longer distance, is one of obvious justice and propriety. Indeed, unless one is familiar with the conditions of railroad traffic in sections of the country where the enactment of this provision is found to have its principal importance, he might not readily understand how it could be

claimed that circumstances and conditions could be such as to justify the making of any exceptions to the general rule.

It is a part of the history of the Act that one House of Congress was disposed to make the rule of the fourth section imperative and absolute, and it is likely that in some sections of the country many railroad managers would very willingly have conformed to it, because for the most part they could have done so without loss, and with very little disturbance to general business. But in some other parts of the country the immediate enforcement of an iron-clad rule would have worked changes so radical that many localities in their general interests, many great industries, as well as many railroads, would have found it impossible to conform without suffering very serious injury. In some cases probably the injury would have been overbalanced by a greater good; in others it would have been irreparable. To enforce it strictly would have been, in some of its consequences in particular cases, almost like establishing, as to vested interests, a new rule of property.

A study of the conditions under which railroad traffic in certain sections of the country has sprung up is necessary to an understanding of the difficulties which surround the subject. The territory bounded by the Ohio and the Potomac on the north and by the Mississippi on the west presented to the Commission an opportunity, and also an occasion, for such a study. The railroad business of that section has grown to be what it is in sharp competition with water carriers, who not only have had the ocean at their service, but by means of navigable streams were able to penetrate the interior in all directions. The carriers by water were first in the field, and were having a very thriving business while railroads were coming into existence; but when the roads were built the competition between them and the water-craft soon became sharp and close, and at the chief competing points the question speedily came to be, not what the service in transportation was worth, or even what it would cost to the party performing it, but at what charge for its service the one carrier or the other might obtain the business. In this competition the boat owners had great advantages: the capital invested in their business was much smaller; they were not restricted closely to one line, but could change from one to another as the exigencies of business might require; the cost of operation was less. But the railroads had an advantage in greater speed, which at some times, and in respect to some freight, was controlling.

In this competition of boat and railroad the rates of transportation which were directly controlled by it soon reached a point to which the railroads could not possibly have reduced all their tariffs and still maintain a profitable existence. They did not attempt such a reduction, but on the contrary, while reducing their rates at the points of water competition to any figures that should be necessary to enable them to obtain the freights, they kept them up at all other points to such figures as they deemed the service to be worth, or as they could obtain. It often happened, therefore, that the rates for transporting property over

in devising these means the chief difficulty was encountered. Agreements upon rates were voluntary arrangements which could be departed from at pleasure, and if they had behind them no sanction, they were not likely to stand in the way of a war of rates when the provocation to one seemed sufficient. Accordingly, the scheme of pooling freights or the earnings from traffic was devised and put in force through the agency of these associations, as a means whereby steadiness in rates might be maintained. The scheme was one which was made use of in other countries and had been found of service to the roads.

The pooling system was looked upon with distrust by the public, mainly because it seemed to be a scheme whereby competition between the roads could be obviated, and rates for railroad service put up or kept up to unreasonable figures. But if railroad managers supposed that by this scheme they were to stop competition among themselves, the result has not answered their expectations. The competition has still gone on; each road striving to obtain as large a share of the business as possible, and no agreement among them could altogether prevent a yielding to the pressure of shippers for lower rates.

In 1877, when the pooling system was put in force by the Trunk Line Association, the rates charged on the first, second, third, and fourth classes of freights from New York to Chicago were, respectively, 100, 75, 60, and 45 cents a hundred pounds. They are now 75, 65, 50, and 35 cents, but the classification as to many articles has in the meantime been reduced, so that the actual reduction is greater than these figures would indicate. Rates from Chicago to New York are also proportionately less. A similar result has been apparent elsewhere. The pooling system has done much to maintain steadiness in rates, but the managers have not been able by means of it to keep rates up to former standards. It has done something, however, to check a prevailing tendency to consolidation. The motives to consolidation are diminished by any contrivance which removes obstacles to the interchange of business and increases the facilities and conveniences for uninterrupted commercial intercourse.

The Act to Regulate Commerce, expressing in that particular the desire of Congress to preserve to the people the benefits of competition, contains the following provision:

That it shall be unlawful for any common carrier subject to the provisions of this Act to enter into any contract, agreement, or combination with any other common carrier or carriers for the pooling of freights of different and competing railroads, or to divide between them the aggregate or net proceeds of the earning of such railroads, or any portion thereof; and in any case of an agreement for the pooling of freights as aforesaid, each day of its continuance shall be deemed a separate offense.

But while thus prohibiting pooling the Act undertakes to give by other provisions some of the securities which railway managers had hoped might be realized from that device. The seventh section provides—

That it shall be unlawful for any common carrier subject to the provisions of this Act to enter into any combination, contract or agreement, expressed or implied, to prevent, by change of time schedule, carriage in different cars, or by other means or devices, the carriage of freights from being continu-

ous from the place of shipment to the place of destination; [and no break of bulk, stoppage, or interruption made by such common carrier shall prevent the carriage of freights from being and being treated as one continuous carriage from the place of shipment to the place of destination] unless such break, stoppage, or interruption was made in good faith for some necessary purpose, and without any intent to avoid or unnecessarily interrupt such continuous carriage or to evade any of the provisions of this Act.

And in the third it is declared that—

Every common carrier subject to the provisions of this Act shall, according to their respective powers, afford all reasonable, proper, and equal facilities for the interchange of traffic between their respective lines, and for the receiving, forwarding, and delivering of passengers and property to and from their several lines and those connecting therewith, and shall not discriminate in their rates and charges between such connecting lines; but this shall not be construed as requiring any such common carrier to give the use of its tracks or terminal facilities to another carrier engaged in like business.

The fourth section of the Act has also important possibilities as a restraint upon reckless rate wars. The reductions when such wars are in progress have generally been made chiefly at competitive points a considerable distance apart; and when a reduction of rates at such points involves also a reduction to or from a great number of intermediate points, a resort to a cutting of rates that goes beyond the warrant of legitimate competition becomes unlikely in proportion as it would be injurious to the party inaugurating it.

The pooling of freights and of railroad earnings, so far as the Commission has knowledge or information on the subject, came to an end when the Act took effect. But as pooling was only one of several purposes had in view in forming railroad associations, the leading associations have not been dissolved, but have been continued in existence for other objects. Among these objects are the making of regulations for uninterrupted and harmonious railroad communication and exchange of traffic within the territory embraced by their workings. Some regulations in addition to those made by the law are almost if not altogether indispensable. Thus, while the seventh section of the Act forbids the carriers preventing shipments from being continuous by the device of changing time schedules, carriage in different cars, etc., it has not undertaken to provide for the making of such time schedules as would facilitate the continuous shipment, or to prescribe rules for the loading and movement of cars for that purpose. However desirable this might have been if it were practicable to make rules which, while general in their nature, should be sufficiently definite for enforcement as laws, it was doubtless perceived by Congress that these and many other matters of detail, though they might be of high importance, could not be wisely and effectively dealt with by general legislation, but that such legislation must chiefly be restricted to provisions for regulation and to prevent abuse.

Moreover, these matters of detail, to a considerable extent involve the element of contract, and also of credit, when one company becomes the agent for another in the sale of tickets and the collection of freight moneys; and they then require the assenting minds of

parties; and the number of parties whose minds are to be brought into accord being commonly very considerable, an association of officers or agents is made the means of bringing about the desired unity of action, and is also made a common arbiter, to prevent frequent and serious disturbances.

Classification, also, as has been said, is not by the Act taken out of the hands of the carriers, though a certain power of supervision is vested in the Commission; and classification is not only best made by joint action, but if it were not so made and the methods of the roads thereby brought into harmony, it would probably become indispensable, however undesirable it might otherwise be, for the Law to undertake to provide for it. Moreover, when classification is made and put into effect it becomes necessary to make provision for inspection or some sort of supervision of its application, in order to prevent its being employed as a device for giving preferences as between shippers. A fraudulent classification, through connivance of the agent in making out deceptive shipping bills, has often been resorted to for this purpose; and as the fraud affects the competing carriers as well as the shippers who are discriminated against by means of the cheat, the carriers and the public alike are interested in such a supervision of the work of all the roads as will be likely to detect the fraud. Self interest on the part of the carriers will impel to this supervision, and it is most generally done through some common agency. If it shall be fairly done as between the carriers themselves, it will tend to the protection of the public; and the benefits will be on the same line with those the Act undertakes to establish or provide for.

XI. REASONABLE CHARGES.

Of the duties devolved upon the Commission by the Act to Regulate Commerce, none is more perplexing and difficult than that of passing upon complaints made of rates as being unreasonable. The question of the reasonableness of rates involves so many considerations and is affected by so many circumstances and conditions which may at first blush seem foreign, that it is quite impossible to deal with it on purely mathematical principles, or on any principles whatever, without a consciousness that no conclusion which may be reached can by demonstration be shown to be absolutely correct. Some of the difficulties in the way have been indicated in what has been said on classification; and it has been shown that to take each class of freight by itself and measure the reasonableness of charges by reference to the cost of transporting that particular class, though it might seem abstractly just, would neither be practicable for the carriers nor consistent with the public interest.

The public interest is best served when the rates are so apportioned as to encourage the largest practicable exchange of products between different sections of our country and with foreign countries; and this can only be done by making value an important consideration, and by placing upon the higher classes of freight some share of the burden that on a relatively equal apportionment, if service alone were considered, would fall upon those

of less value. With this method of tariffs little fault is found, and pe at all by persons who consider t from the standpoint of public int deed, in the complaints thus far m Commission little fault has been f the principles on which tariffs for portation of freight are professedly while applications of those princip ticular cases have been complain quently and very earnestly.

Among the reasons most frequen ing to cause complaints of rates m tioned:

The want of steadiness in rates;

The disproportion between the c long and those for short distances;

The great disparity between th made for transportation by roads circumstanced as to advantages;

The extremely low rates which pelled by competition in some which may make rates which as reasonable seem, on comparison, high.

Some others will be mentioned f The want of steadiness in rates is the fault of railroad managers, and from want of care in arranging their or from want of business foresi more often perhaps it grows out o ments between competing compa when they become serious may res of rates between them. Wars of mutual injury is the chief purpose is sometimes the case, are not only in their immediate effects upon the them, and upon the business commu calculations and plans must for a t turbed, but they have a permanent influence upon the railroad service their effect upon the public m railroad companies determine for what their rates shall be, it is not un the public to infer that the lowest rat at any time are not below what can at all times, and that when these are the company is reaching out for e profits.

Now, there are few important li country that have not at some tin history been carrying freight at pr long continued would cause bankru to a large proportion of the publi that the rates were accepted was they were reasonable; and when rates are complained of, the compl demonstrate their unreasonableness to the war prices, and cite them as proof of what the companies ther them can afford to accept. Man complaints have their origin in tl garding rates which these wars h dered or fed, and the evils of the co do not end when the controversies but may continue to disturb the r railroad companies with their patron years afterwards.

It may be truly said, also, that road competition is to be protecte railroad rates unrestrained by compe ciples are disturbers in every direc community reaps a temporary adva

in the nature of blackmail, and was yielded to unwillingly and through fear of damaging consequences from a refusal. But the evils were present as much when it was extorted as when it was freely given.

These were some of the evils that made interference by national legislation imperative. But there were others that were of no small importance. Rates when there was no competition were sometimes so high as to be oppressive; and when competition existed bylines upon which the public confidently relied to protect them against such a wrong, a consolidation was effected and the high rates perpetuated by that means. In some cases the roads, created as conveniences in transportation, were so managed in respect to business passing or destined to pass over other roads that they constituted hinderances instead of help, to the great annoyance of travel and to the serious loss of those who intrusted their property to them. Then their rates were changed at pleasure and without public notification; their dealings to a large extent were kept from the public eye, the obligation of publicity not being recognized; and the public were therefore without the means of judging whether their charges for railroad service were reasonable and just or the contrary.

But the publications actually made only increased the difficulties. Railroad rates, difficult enough to be understood by the uninitiated when printed plainly in one general tariff with classification annexed, became mysterious enigmas when several different tariffs were printed, as was the case in some sections; some relating to competitive points and others to what were called local points, and each referring to voluminous and perhaps different classifications, which were printed but not posted, and which were observed or disregarded at will in the rates as published. Such unsystematic and misleading publications naturally led to many overcharges and controversies, and naturally invited and favored special rates and injurious preferences.

These were serious evils; and they not only to some extent blunted the sense of right and wrong among the people and tended to fix an impression upon the public mind that unfair advantages in the competition of business were perfectly admissible when not criminal, but they built up or strengthened a class feeling and embittered the relations between those who for every reason of interest ought to be in harmony. It was high time that adequate power should be put forth to bring them to an end. Railroads are a public agency. The authority to construct them with extraordinary privileges in management and operation is an expression of sovereign power, only given from a consideration of great public benefits which might be expected to result therefrom. From every grant of such a privilege resulted a duty of protection and regulation, that the grant might not be abused and the public defrauded of the anticipated benefits.

The abuses of corporate authority to the injury of the public were not the only reasons operating upon the public mind to bring about the legislation now under consideration; some other things which in their direct effects were wrongs to stockholders only had their influ-

ence also, and this by no means a light one. The manner in which corporate stocks were manipulated for the benefit of managers and to the destruction of the interest of the owners was often a great scandal, resulting sometimes in the bankruptcy and practical destruction of roads which, if properly managed, would have been not only profitable but widely useful. This in its direct results might be a wrong to individuals only, but in its direct influence it was a great public wrong also.

The most striking and obvious fact in such a case commonly is that persons having control of railroads have in a very short time by means of the control amassed great fortunes. The natural conclusion which one draws who must judge from surface appearances is, that these fortunes are unfairly acquired at the expense of the public; that they represent excessive charges on railroad business, or unfair employment of inside privileges, and furnish in themselves conclusive evidence that current rates are wrong and probably extortionate. An impression of this sort, when it happens to be wide of the fact is for many reasons unfortunate. It creates or strengthens a prejudice against all railroad management—the honest as well as the dishonest—which affects the public view of all railroad questions; it renders it more difficult to deal with such questions calmly and dispassionately; it makes the public restive under the charges they are subjected to, even though they be moderate and necessary; it tends to strengthen a feeling among the unthinking that capital represents extortion. However careful, considerate, fair, and just the management of any particular road may be, and however closely it may confine itself to its legitimate business, it is impossible that it should wholly escape the ill effects of this prejudice, which are visited upon all roads because some conspicuous railroad managers have by their misconduct given in the public mind a character to all.

Evils of the class last mentioned were difficult of legislative correction, because they sprang from the over-confidence of stockholders in the officers chosen to manage their interests, and whose acts at the time they perhaps assented to. But if capable of correction by any legislative authority, it was in general that of the States, not that of the Nation. The States in the main conferred the corporate power, and it was for the States by their legislation to provide for the protection of the individual interests which were brought into existence by their permission. The National Government had to do with the commerce which these artificial entities of state creation might be concerned in. Nevertheless, the manifest misuse of corporate powers strengthened the demand for national legislation, and this very naturally, because the private gains resulting from corporate abuse were supposed to spring, to some extent at least, from excessive burdens imposed upon the commerce which the Nation ought to regulate and protect.

For the purpose of correcting the evils above alluded to, so far as it was constitutionally competent for national legislation to do so, the Act to Regulate Commerce lays down certain rules to be observed by the carriers to which

moving traffic upon it is so very greatly below the cost of rail transportation that the railroads would scarcely be able to compete at all if rapidity of transit were not in most cases a matter of such importance that it enables the railroads to demand and obtain higher rates than are made by boat. But even when compensated for the extra speed, the rates which the roads can obtain in competition with the natural water ways must be extremely low and in some cases leave little if any margin for profit. The experience of the country has demonstrated that the artificial water ways cannot be successful competitors with the railroads on equal terms. If the effort is to make the business upon them pay the cost of their maintenance and a fair return upon the capital invested in them, its futility must soon appear. The railroads long since deprived the great canals of Ohio, Indiana and Illinois of nearly all their importance, and the Erie Canal is only maintained as a great channel of trade by the liberality of the State of New York in making its use free; in this way taking upon itself a large share of the cost of transportation which would be assessed upon the property carried if the canal were owned and held for the profit of operation as the railroads are.

In their competitive struggles with each other towns can not ignore the effect which the existence of natural water ways must have upon railroad tariffs; the railroad companies cannot ignore it, nor can the Commission ignore it if competition is still to exist and be allowed its force according to natural laws. Neither can the great free Erie Canal be ignored; it influences the rates to New York more than any other one cause, and indirectly, through its influence upon the rates to New York, it influences those to all other seaboard cities, and indeed to all that section of the country.

Other considerations bearing upon the reasonableness of rates might be mentioned, but enough has been said to show the difficulty of the task which the Law has cast upon the Commission, and the impossibility that that task shall be so performed as to give satisfaction to all complaints. The question of rates, as has already been shown, is often quite as much a question between rival interests and localities as between the railroads and any one or more of such localities or interests; but while each strives to secure such rates as will most benefit itself, the Commission must look beyond the parties complaining and complained of, and make its decisions on a survey of the whole field that, either directly or indirectly, will be affected by them.

XII. GENERAL OBSERVATIONS.

The Act to Regulate Commerce has now been in operation nearly eight months. One immediate effect was to cause inconvenience in many quarters, and even yet the business of some parts of the country is not fully adjusted to it. Some carriers also are not as yet in their operations conforming in all respects to its spirit and purpose. Nevertheless the Commission feels justified in saying that the operation of the Act has in general been beneficial. In some particulars, as we understand has also been the case with similar statutes in some of

the States, it has operated directly to increase railroad earnings, especially in the cutting off of free passes on interstate passenger traffic, and in putting an end to rebates, drawbacks, and special rates upon freight business. The results of the Law in these respects are also eminently satisfactory to the general public, certainly to all who had not been wont to profit by special or personal advantages. In connection with the abolition of the pass system, there has been some reduction in passenger fares, especially in the charge made for mileage tickets in the Northwest, the section of the country where they are perhaps most employed.

Freight traffic for the year has been exceptionally large in volume, and is believed to have been in no small degree stimulated by a growing confidence that the days of rebates and special rates were ended, and that open rates on an equal basis were now offered to all comers. The reflex action of this development of confidence among business men has been highly favorable to the roads.

In some localities the passage of the Act was made the occasion on the part of dissatisfied and short sighted railroad managers for new exactions, through a direct raising of rates, by change in classification and otherwise. The manifestation of the spirit which induced such action is now but seldom observed, and the wrongs resulting from it have in general been corrected. The effect of the operation of the fourth section has been specially described above, and the Commission repeats in this place its opinion that, however serious may have been the results in some cases, the general effect has been beneficial. The changes in classification made since the Act took effect have been in the direction of greater uniformity, and have also in general, it is believed, been concessions to business interests.

The tendency of rates has been downward, and they have seldom been permanently advanced except when excessive competition had reduced them to points at which they could not well be maintained. No destructive rate wars have occurred, but increased stability in rates has tended in the direction of stability in general business. There is still, however, great mischief resulting from frequent changes in freight rates on the part of some companies; changes that in some cases it is difficult to suggest excuse for.

The general results of the Law have been in important ways favorable to both the roads and the public; while the comparatively few complaints that have been heard of its results are either made with imperfect knowledge of the facts, or spring from the remembrance of practices which the Law was deliberately framed to put an end to.

XIII. AMENDMENTS OF THE LAW.

The Commission has not seen occasion for recommending any very considerable changes in the Act under which its work is performed. It has seemed to its members that the Law for the regulation of interstate commerce should be permitted to have a growth, and that it would most surely as well as most safely attain a high degree of efficiency and usefulness in that way. The general features of the Act

are grounded in principles that will stand the test of time and experience, and only time and experience can determine whether all the provisions made for their enforcement are safe, sound, and workable. When they prove not to be, experience will be a safe guide in legislation to protect them.

Incidentally in this report some need of amendment has been pointed out. Especially ought the Law, as we think, to indicate in plain terms whether the express business and all other transportation by the carriers named in the Act shall be governed by its provisions. The provision against the sudden raising of rates ought to be clearly made applicable to joint rates as well as to others. The Commission ought also to have the authority and the means to bring about something like uniformity in the method of publishing rates, which is now in great confusion, and to carefully examine, collect, and supervise the schedules, contracts, etc., required by the Law to be filed, as well as properly to handle the mass of statistical information called for by the twentieth section. For all these purposes, as well as for others imperfectly provided for, a considerable addition to the force employed with the Commission will be indispensable.

Other matters, and particularly whether transportation by water shall be made subject to the Act, are submitted to the wisdom of Congress without recommendation.

All which is respectfully submitted.

Dated December 1, 1887.

bility to injury and with less shrinkage than is done in the ordinary stock car, it is not improbable that they, like the companies which furnish special accommodations for passengers, may in time build up a large business in respect to which they will not be controlled by any existing legislation.

It is well known also that the transportation of mineral oil is already to a very large extent in tank cars owned by parties who are not carriers subject to regulation under the Act to Regulate Commerce. A willingness to disregard the rules of equality and justice as between shippers, when it can be made for the interest of the carriers to do so is as likely to make its appearance in the action of the managers of any one of these outside organizations as in that of the managers of the railroads, for the temptations will be the same, and the same class of persons will be bidding for special privileges and advantages which before the Act was passed prospered so unfairly upon railroad favors. The Act has not changed the nature of the grasping disposition of individuals; it has only interposed certain restraints which it is reasonable to assume will be evaded if the opportunity shall be presented.

These facts are noted for the purpose of placing the whole subject distinctly before the National Legislature. If it is the will of Congress that all transportation of persons and property by rail should come under the same rules of general right and equity, some further designation of the agencies in transportation which shall be controlled by such rules would seem to be indispensable.

II. THE LONG AND SHORT HAUL CLAUSE OF THE ACT.

Another question presenting itself immediately on the organization of the Commission was that respecting the proper construction of the fourth section of the Act, which, after providing

That it shall be unlawful for any common carrier subject to the provisions of this Act to charge or receive any greater compensation in the aggregate for the transportation of passengers or of like kind of property, under substantially similar circumstances and conditions, for a shorter than for a longer distance over the same line, in the same direction, the shorter being included within the longer distance,

proceeds to say—

That, upon application to the Commission appointed under the provisions of this Act, such common carrier may, in special cases, after investigation by the Commission, be authorized to charge less for longer than for shorter distances for the transportation of passengers or property; and the Commission may from time to time prescribe the extent to which such designated common carrier may be relieved from the operation of this section of this Act.

The provision against charging more for the shorter than for the longer haul under the like circumstances and conditions over the same line and in the same direction, the shorter being included within the longer distance, is one of obvious justice and propriety. Indeed, unless one is familiar with the conditions of railroad traffic in sections of the country where the enactment of this provision is found to have its principal importance, he might not readily understand how it could be

claimed that circumstances and conditions could be such as to justify the making of any exceptions to the general rule.

It is a part of the history of the Act that one House of Congress was disposed to make the rule of the fourth section imperative and absolute, and it is likely that in some sections of the country many railroad managers would very willingly have conformed to it, because for the most part they could have done so without loss, and with very little disturbance to general business. But in some other parts of the country the immediate enforcement of an iron-clad rule would have worked changes so radical that many localities in their general interests, many great industries, as well as many railroads, would have found it impossible to conform without suffering very serious injury. In some cases probably the injury would have been overbalanced by a greater good; in others it would have been irreparable. To enforce it strictly would have been, in some of its consequences in particular cases, almost like establishing, as to vested interests, a new rule of property.

A study of the conditions under which railroad traffic in certain sections of the country has sprung up is necessary to an understanding of the difficulties which surround the subject. The territory bounded by the Ohio and the Potomac on the north and by the Mississippi on the west presented to the Commission an opportunity, and also an occasion, for such a study. The railroad business of that section has grown to be what it is in sharp competition with water carriers, who not only have had the ocean at their service, but by means of navigable streams were able to penetrate the interior in all directions. The carriers by water were first in the field, and were having a very thriving business while railroads were coming into existence; but when the roads were built the competition between them and the water-craft soon became sharp and close, and at the chief competing points the question speedily came to be, not what the service in transportation was worth, or even what it would cost to the party performing it, but at what charge for its service the one carrier or the other might obtain the business. In this competition the boat owners had great advantages: the capital invested in their business was much smaller; they were not restricted closely to one line, but could change from one to another as the exigencies of business might require; the cost of operation was less. But the railroads had an advantage in greater speed, which at some times, and in respect to some freight, was controlling.

In this competition of boat and railroad the rates of transportation which were directly controlled by it soon reached a point to which the railroads could not possibly have reduced all their tariffs and still maintain a profitable existence. They did not attempt such a reduction, but on the contrary, while reducing their rates at the points of water competition to any figures that should be necessary to enable them to obtain the freights, they kept them up at all other points to such figures as they deemed the service to be worth, or as they could obtain. It often happened, therefore, that the rates for transporting property over

& Boston Dispatch Express Company, Pacific Express Company, Southern Express Company, United States Express Company, Wells, Fargo & Company.

Each of these companies operates a certain territory as its own, the entire country having been definitely subdivided among them by agreement or by chance. The right of railroad companies to make an exclusive contract with a selected express company for the handling of all the express business upon its line has recently been established by the Supreme Court of the United States. The language used is as follows:

"The reason is obvious why special contracts in reference to this business are necessary. The transportation required is of a kind which must, if possible, be had for the most part on passenger trains. It requires not only speed, but reasonable certainty as to the quantity that will be carried at any one time. As the things carried are to be kept in the personal custody of the messenger or other employee of the express company, it is important that a certain amount of car space should be specially set apart for the business, and that this should, as far as practicable, be put in the exclusive possession of the expressman in charge. As the business to be done is 'express,' it implies access to the train for loading at the latest and for unloading at the earliest convenient moment. All this is entirely inconsistent with the idea of an express business on passenger trains free to all express carriers. Railroad companies are by law carriers of both persons and property. Passenger trains have from the beginning been provided for the transportation primarily of passengers and their baggage. This must be done with reasonable promptness and with reasonable comfort to the passenger. The express business on passenger trains is in a degree subordinate to the passenger business, and it is consequently the duty of a railroad company in arranging for the express to see that there is as little interference as possible with the wants of passengers. This implies a special understanding and agreement as to the amount of car space that will be afforded, and the conditions on which it is to be occupied, the particular trains that can be used, the places at which they shall stop, the price to be paid, and all the varying details of a business which is to be adjusted between two public servants, so that each can perform in the best manner its own particular duties. All this must necessarily be a matter of bargain, and it by no means follows that because a railroad company can serve one express company in one way it can as well serve another company in the same way and still perform its other obligations to the public in a satisfactory manner. The car space that can be given to the express business on a passenger train is, to a certain extent, limited, and, as has been seen, that which is allotted to a particular carrier must be, in a measure, under his exclusive control. No express company can do a successful business unless it is at all times reasonably sure of the means it requires for transportation. On important lines one company will at times fill all the space the railroad company can well allow for the business. If this space had to

be divided among several companies there might be occasions when the public would be put to inconvenience by delays which would otherwise be avoided. So long as the public are served to their reasonable satisfaction, it is a matter of no importance who serves them. The railroad company performs its whole duty to the public at large and to each individual when it affords the public all reasonable express accommodations. If this is done the railroad company owes no duty to the public as to the particular agencies it shall select for that purpose. The public require the carriage, but the company may choose its own appropriate means of carriage, always provided they are such as to insure reasonable promptness and security." [*Express Cases*, 117 U. S. 23 (29 L. ed. 801).]

The express business is, therefore, very largely noncompetitive. Cases exist where two or more railroad or steamboat lines, over which different express companies have contracts, reach the same terminal or junction points; but, so far as the public are aware, there has been little difficulty in establishing and maintaining agreed rates in such instances. Rate wars or even the existence of any active competition among express companies have seldom, if ever, been heard of. Interchange of traffic between the different companies at points of junction is carried on without friction, usually upon the simple theory that the public in such cases must pay the charges of two companies instead of one.

Their methods of organization are very diverse. Some, like the Southern Express Company and Wells, Fargo & Company, are corporations, holding charters from State Legislatures which authorize them to carry on the express business by name; others, like the American Express Company and the National Express Company, are not corporations, but quasi partnerships, with additional powers recognized by legislation in the State of New York, where more than seven persons are united; being called joint stock companies, having transferable shares of stock, with such perpetuity of organization as the articles of the association provide, and the right of suing and being sued in the name of the president or treasurer; but the shareholders being, nevertheless, liable, as partners, among themselves and to the public. There is nothing in the nature of the express business which prevents its being carried on by an ordinary partnership or even by an individual, provided the necessary contracts can be obtained with transportation lines. Others are practically branches or bureaus of the railroad companies themselves, acting under a distinct head and through separate organizations, but the profits of the business accruing to the railroad treasury. Others still are combinations of roads, organized in an aggregate form, for the purpose of transacting the express business of their several lines.

Soon after the organization of this Commission a letter was received from the Canadian Express Company as follows:

"Canadian Express Company,
General Superintendent's Office,
Montreal, April 1, 1887.
To the Hon. the Chairman of the
Interstate Commerce Committee,

adently affirmed that the carrier could require no order of relief from the Commission when the circumstances and conditions were in fact dissimilar, since the greater charge was not then unlawful and not forbidden. This view would leave the carrier at liberty to act on its own judgment of the conditions and circumstances in any case, subject to responsibility to the Law if the greater charge were made for the shorter transportation when the circumstances and conditions were not in fact dissimilar, unless authorized to make such greater charge by the relieving order of the Commission.

When the Commission was called upon in the performance of its duty to give an interpretation to this section it was found on comparison of views that the interpretation last above mentioned seemed to all its members to be the one best warranted by the phraseology of the statute. Moreover, when it was considered how vast was the railroad mileage of the country, how numerous were the cases in different sections in which, for divers reasons, the general rule prescribed by the fourth section was then departed from, this interpretation seemed the only one which, in administering the Law, would be found practical or workable. Possibly the Commission might therefore have been justified in making immediate announcement of this opinion.

It was not, however, believed to be wise to make such announcement at that time. The construction of a new statute having great remedial purposes in view ought not to be hastily made by the tribunal called upon to act under it. When a question of construction comes before the courts parties interested in taking different views are heard by counsel, and if the case is important the court is likely to have all the considerations which support the several views presented, and will thus be fully informed when it comes to make decision.

The Commission had not had the benefit of discussion by counsel of this most important provision. To delay, before taking any action whatever, until in the ordinary course of affairs a case should arise where the proper construction of the section should be the point in controversy, might be exceedingly injurious to many interests. Under these circumstances it seemed to the Commission that the prudent course, and the course most consistent with the general purposes the Act was intended to accomplish, was to take such action as for the time being would disturb as little as possible the general business of the country, and at the same time give ample opportunity for full discussion and consideration of this most important question.

The Act to Regulate Commerce was not passed to injure any interests, but to conserve and protect. It had for its object to regulate a vast business according to the requirements of justice. Its intervention was supposed to be called for by the existence of numerous evils, and the Commission was created to aid in bringing about great and salutary measures of improvement. The business is one that concerns the citizen intimately in all the relations of life; and sudden changes in it, though in the direction of improvement might in their immediate consequences be more harmful

than beneficial. It was much more important to move safely and steadily in the direction of reform than to move hastily, regardless of consequences, and perhaps be compelled to retrace important steps after great and possibly irremediable mischief had been done. The Act was not passed for a day or for a year; it had permanent benefits in view, and to accomplish these with the least possible disturbance to the immense interests involved seemed an obvious dictate of duty.

Acting upon these views, and in order to give opportunity for full discussion, the Commission, after having made sufficient investigation into the facts of each case to satisfy itself that a *prima facie* case for its intervention existed, made orders for relief under the fourth section, where such relief was believed to be most imperative. These orders were temporary in their terms, and in making them it was announced that sessions would be held in the section of the country to which a majority of these orders related, at which all parties interested in the questions they presented were at liberty to appear and present their views. Whatever view should ultimately be taken of the proper interpretation of the fourth section, this course could result in no serious injury. If the first impression of the Commission should be held to be correct, the orders would only sanction what might have been done without them; but if the opposite view should be taken they would only postpone for a time the strict enforcement of the fourth section, and give opportunity during that period for the business of the country to adapt itself as far as possible to the new requirement.

The considerations which were influential in determining when these temporary orders should be granted were not more the relief of the carriers from danger of loss than the prevention of threatened disturbance of business interests in certain localities, which by its reflex action seemed liable to embarrass seriously the entire country. When no great or special urgency was shown, connecting threatened injury to important interests with the literal enforcement of the section, or when the only showing made was the loss of a certain line of traffic to one carrier which nevertheless was adequately served by being given another direction, temporary orders were not made. Fifty-eight petitions were filed for relief from the operation of the fourth section, some of which were joint; ninety-five railroad companies were petitioners; temporary orders were made in twenty cases, by the terms of which forty-three carriers were for a limited period and pending full investigation relieved from the operation of the section as to certain points enumerated in each order, where the charging of less for the longer distance was permitted to be continued for the time being.

The opinion of the Commission upon the applications for relief is herewith given in Appendix A*. In the same appendix is given a list of the carriers petitioning and a statement of the action of the Commission on each case.

In finally announcing its conclusion, as it did, on the petition of the Louisville & Nashville Railroad Company for relief, the Com-

& Boston Dispatch Express Company, Pacific Express Company, Southern Express Company, United States Express Company, Wells, Fargo & Company.

Each of these companies operates a certain territory as its own, the entire country having been definitely subdivided among them by agreement or by chance. The right of railroad companies to make an exclusive contract with a selected express company for the handling of all the express business upon its line has recently been established by the Supreme Court of the United States. The language used is as follows:

"The reason is obvious why special contracts in reference to this business are necessary. The transportation required is of a kind which must, if possible, be had for the most part on passenger trains. It requires not only speed, but reasonable certainty as to the quantity that will be carried at any one time. As the things carried are to be kept in the personal custody of the messenger or other employee of the express company, it is important that a certain amount of car space should be specially set apart for the business, and that this should, as far as practicable, be put in the exclusive possession of the expressman in charge. As the business to be done is 'express,' it implies access to the train for loading at the latest and for unloading at the earliest convenient moment. All this is entirely inconsistent with the idea of an express business on passenger trains free to all express carriers. Railroad companies are by law carriers of both persons and property. Passenger trains have from the beginning been provided for the transportation primarily of passengers and their baggage. This must be done with reasonable promptness and with reasonable comfort to the passenger. The express business on passenger trains is in a degree subordinate to the passenger business, and it is consequently the duty of a railroad company in arranging for the express to see that there is as little interference as possible with the wants of passengers. This implies a special understanding and agreement as to the amount of car space that will be afforded, and the conditions on which it is to be occupied, the particular trains that can be used, the places at which they shall stop, the price to be paid, and all the varying details of a business which is to be adjusted between two public servants, so that each can perform in the best manner its own particular duties. All this must necessarily be a matter of bargain, and it by no means follows that because a railroad company can serve one express company in one way it can as well serve another company in the same way and still perform its other obligations to the public in a satisfactory manner. The car space that can be given to the express business on a passenger train is, to a certain extent, limited, and, as has been seen, that which is allotted to a particular carrier must be, in a measure, under his exclusive control. No express company can do a successful business unless it is at all times reasonably sure of the means it requires for transportation. On important lines one company will at times fill all the space the railroad company can well allow for the business. If this space had to

be divided among several companies there might be occasions when the public would be put to inconvenience by delays which would otherwise be avoided. So long as the public are served to their reasonable satisfaction, it is a matter of no importance who serves them. The railroad company performs its whole duty to the public at large and to each individual when it affords the public all reasonable express accommodations. If this is done the railroad company owes no duty to the public as to the particular agencies it shall select for that purpose. The public require the carriage, but the company may choose its own appropriate means of carriage, always provided they are such as to insure reasonable promptness and security." [*Express Cases*, 117 U. S. 23 (29 L. ed. 801).]

The express business is, therefore, very largely noncompetitive. Cases exist where two or more railroad or steamboat lines, over which different express companies have contracts, reach the same terminal or junction points; but, so far as the public are aware, there has been little difficulty in establishing and maintaining agreed rates in such instances. Rate wars or even the existence of any active competition among express companies have seldom, if ever, been heard of. Interchange of traffic between the different companies at points of junction is carried on without friction, usually upon the simple theory that the public in such cases must pay the charges of two companies instead of one.

Their methods of organization are very diverse. Some, like the Southern Express Company and Wells, Fargo & Company, are corporations, holding charters from State Legislatures which authorize them to carry on the express business by name; others, like the American Express Company and the National Express Company, are not corporations, but quasi partnerships, with additional powers recognized by legislation in the State of New York, where more than seven persons are united; being called joint stock companies, having transferable shares of stock, with such perpetuity of organization as the articles of the association provide, and the right of suing and being sued in the name of the president or treasurer; but the shareholders being, nevertheless, liable, as partners, among themselves and to the public. There is nothing in the nature of the express business which prevents its being carried on by an ordinary partnership or even by an individual, provided the necessary contracts can be obtained with transportation lines. Others are practically branches or bureaus of the railroad companies themselves, acting under a distinct head and through separate organizations, but the profits of the business accruing to the railroad treasury. Others still are combinations of roads, organized in an aggregate form, for the purpose of transacting the express business of their several lines.

Soon after the organization of this Commission a letter was received from the Canadian Express Company as follows:

"Canadian Express Company,
General Superintendent's Office,
Montreal, April 1, 1887.
To the Hon. the Chairman of the
Interstate Commerce Committee,

that also. The Commission does not take this view, but has decided in the case of the Vermont State Grange against the Boston & Lowell Railroad Co. and others (1 Interstate Commerce Commission Reports, page 158) [*ante*, 571], that where a carrier unites with one or more others in making a rate for long haul traffic, the rate so made constitutes a measure for the rates on short haul traffic upon its own lines as much as it would if the long haul transportation was on its line exclusively.

Where the practice of making the greater charge upon the shorter haul has long prevailed, the effect of its abrogation upon some portion of the business of the smaller cities of the country should perhaps be noted. Those cities have generally been in position to handle goods of all kinds, purchasing them at importing, manufacturing, and producing points, and reselling to retail dealers in the more immediate vicinity. The rates of freight have favored these distributing points, and have been so low that goods could be taken to them and sent forward after handling, or even returned for a certain distance over the same line, at a less aggregate rate of freight than the smaller places could obtain on the same goods from the same initial point. The ability to do this has developed very important business houses, and has largely controlled business methods in some sections of the country; but it no longer exists where the fourth section has been literally applied. The rate from the initial point to the given city—as, for example, from Baltimore or Philadelphia to Danville, Va.—added to the rate from that point to smaller points beyond, will then be more than the through rates from the initial point to the latter places, and at the same time the rate to the given city will be as great or greater than the rates to the intermediate points on the same line; and the natural effect is to depress the wholesale business at all such points and to throw the trade into the hands of metropolitan dealers. This fact is clearly seen in some of the cases now pending before the Commission. There are compensations for all such incidental injuries; and the question involved being one of legislative policy, the Commission deems it sufficient to state the facts as they exist, without comment upon them.

The Commission, on October 20, caused a circular letter* to be sent to the various carriers subject to the provisions of the Act throughout the United States, inquiring concerning the practical application of the fourth section in making the tariffs in use upon the lines of each respectively. This circular has been very generally answered, and the replies give full information in respect to the manner in which the provisions of the "long and short haul" clause are now being observed by the carriers. A very large number of railroad companies, lines and systems answer unequivocally that there are no points upon their respective lines to or from which interstate rates for passengers or freight are greater than to or from more distant points in the same direction over the same line. Others, slightly misapprehending the inquiry made, state that no such instances exist upon their own roads;

but that joint tariffs are made by them to points upon other roads where variations from the rule exist. Still others state the points upon their lines which are exceptionally treated, and give the reasons which are claimed to justify them in the rates made.

The statements and explanations of the different companies so far as they are other than a simple negative reply, present the situation so clearly and directly, from the standpoint of the carriers, and show so distinctly the various circumstances and conditions found in different parts of the country which are claimed by them to affect their traffic to an extent warranting a departure from the letter of the statutory rule that the Commission has determined to lay the entire series before Congress as an appendix to this report. This appendix, which is marked E, contains the following documents:

I. Circular letter to carriers of October 20, 1887;

II. List of carriers which reply that they do not make interstate rates where a greater sum is charged for a shorter than for a longer distance in the same direction over the same line, to or from any point on their respective roads;

III. Letters and documents from carriers which accepted the invitation of the Commission to make a statement concerning the circumstances and conditions of traffic which they claimed made their case exceptional.

Reviewing railway operations during the period which has elapsed since the Act took effect, the Commission feels warranted in saying that while less has been done in the direction of bringing the freight tariffs into conformity with the general rule prescribed by the fourth section than some persons perhaps expected, there has nevertheless been a gratifying advance in that direction, and there is every reason to believe that this will continue. That substantial benefits will flow from making the rule as general as shall be found practicable cannot be doubted; and even when the circumstances and conditions of long and short haul traffic are dissimilar, the desirability of avoiding any considerable disparity in the charges is great and obvious. So far, therefore, and so fast as business prudence and a proper regard to the interests of the communities which would be disturbed and injured by precipitate changes will admit of its being done, such railroad companies as do not now conform to the statutory rule should make their rates on these two classes of traffic more obviously just and more proportional than they have hitherto been or now are.

III. THE FILING AND PUBLICATION OF TARIFFS.

In addition to the publication of the freight and passenger tariffs, each carrier is also required to file with the Commission copies of its schedules of rates, fares, and charges, and promptly to notify the Commission of all changes made in the same; also to file with the Commission copies of all contracts, agreements, or arrangements with other carriers in relation to any traffic affected by the provisions of the Act to which it may be a party. And in cases where passengers and freight pass over continuous lines or routes operated by more

*See *ante*, 601.

to the public is practically an impossibility. This can hardly be assumed to be the case, however, especially in view of the fact that the lines of many railroad systems which have complied with the Law are also excessively long and intricately involved, and the schedules of rates on file not only cover stations upon the line of these roads themselves, but very largely upon connecting lines as well. It is known, moreover, that in the express business there is very little classification of freight, the tariff being usually upon a uniform basis per 100 pounds, with proportionate charges for less and for greater weights, the stations being very widely grouped, and the charges for other services being governed by fixed rules. In fact, it seems necessary that agents of express companies should be instructed explicitly as to charges to be made by them; and if they can be intelligently notified by instructions from the general offices it would seem quite possible to inform the public also. Moreover, the routes covered by the three express companies which have already filed their schedules with the Commission are quite extensive, and, although the tariffs so filed are made up upon different plans, yet they are each intelligible and are sufficient to negative the idea that the thing proposed by Congress is not possible of accomplishment by this class of carriers.

It would seem, therefore, that the bringing of express companies within the salutary provisions of the Act to Regulate Commerce is practicable and on some accounts desirable. The question remains whether or not this has been accomplished by the statute as it stands.

In respect to some of the express companies there can be little, if any, doubt that they are fully subject to the provisions of the Law. When a railroad company itself conducts the parcel traffic on its line by its ordinary transportation staff, or through an independent bureau organized for the purpose, or by a means of a combination with other railroad companies in a joint arrangement for the transaction of this so-called express business, it will not be seriously questioned but that this branch of the traffic is subject to the Act to Regulate Commerce as fully as the ordinary freight traffic.

But the case of the independently organized express companies must be more carefully considered.

The frame of the Act in question is this: The first section provides "that the provisions of this Act shall apply to any common carrier or carriers engaged in the transportation of passengers or property wholly by railroad or partly by railroad and partly by water," when the traffic is interstate. The other sections uniformly refer to "any common carrier subject to the provisions of this Act." Therefore the definition in the first section controls the application of the Law by stating what carriers are within its terms; and the implication at once arises that common carriers exist which are not subject to the provisions of the Act, which is obviously true of stage coaches, independent steamboat lines, etc.

It is said that the words of the Act above quoted, namely: "wholly by railroad or partly by railroad and partly by water," do not describe the transportation business conducted

by express companies, for the reason that their business is largely upon water routes disconnected from railroad lines and upon stage coach routes, as well as by teams used for the collection and delivery of goods and for their transportation between the termini of connecting lines. A very large proportion of their traffic is by rail. Their exclusion from the operation of the statute upon the ground that in cities and large towns it is customary for express companies to collect and deliver the freight would seem to be too refined a construction to place upon the Law. Some railroads do the same thing, and it is much more common in England than here. Wherever it is done in respect to interstate commerce it is obviously merely incidental to the main business, which is the carriage from place to place by railroad. No separate charge for this service is made, the charge being usually the same whether the goods be received and delivered at the general business office of the carrier or by team at the office or residence of the customer. If additional charge for collection or delivery is made, it can easily be stated.

The word "wholly" in the first section of the Act may have been used in contradistinction to the word "partly" in the next clause—"wholly by railroad or partly by railroad and partly by water"—and not as a limitation upon the method of carriage with the meaning by railroad solely, or by railroad and not otherwise, as claimed by the express companies; nevertheless, the literal application of the word "wholly" would exclude a great part of the business transacted by express companies, for it can be truthfully said as to the larger percentage of their shipments that they are not "wholly by railroad" or "partly by railroad and partly by water." A great amount of team and messenger service is involved, as well as the use of other vehicles of transportation which are not within the language of the Act. The use of that word in a section which was evidently framed with the greatest care affords a fair foundation for the claim that the Act does not describe the modes of transportation employed by express companies with sufficient precision to bring them within its terms.

It is moreover, true, as claimed, that the express business, so-called, has been of such long standing and presents such a well known and complete organization in every portion of the country that it must be considered to be a subject which was perfectly understood by Congress at the time of the enactment of the Law in question. More than this, it is a business which has heretofore and frequently been the occasion of distinct legislation by Congress, both in connection with railroad business and as contradistinguished therefrom. We have been referred to a series of congressional enactments running back twenty years, in which the express business, by name, has been the subject of statutory provisions; and the same is true in the legislation of the various States. In view of this the question is asked, If it was the intention of Congress to make the express companies subject to the provisions of the Interstate Commerce Act, why did not the Law explicitly so state? It is said that the addition of a few words would have amply expressed

by the open rates are still frequent; and it is not to be denied that in the existing tariffs there are many rates which, as compared with others made by the same carriers, seem to be unfair and oppressive. But even as regards this species of injustice the good effects of the Law are manifest. For whereas formerly the carriers made discriminations at pleasure, and gave preferences for which their own interest or convenience was deemed sufficient reason, the discriminations or preferences which are now complained of are such as the carriers understand they may be called upon to defend; and they are aware that the defense, to be successful, must be based on grounds of substantial justice, or at least on grounds not palpably untenable. This necessity for defending the discriminations made may be expected to reduce very considerably their number, and has already done much toward bringing about more just proportions in the classification and rating of property transported.

In the performance of its duty of supervision, the Commission has found it necessary to conduct a very extended and voluminous correspondence, which could not be presented in this place even in abstracts. A few letters from the Commission which laid down rules, or were of more than individual importance, are, however, given in an appendix hereto marked C. In connection with these letters, attention is called to the decision made by the Commission in the case of *The Vermont State Grange v. The Boston and Lowell Railroad Company et al.*, [ante, 571,] that the railroads who unite in fast freight lines are responsible for their rates, and bound to see that the tariffs are properly filed.

V. COMPLAINTS TO AND ADJUDICATIONS BY THE COMMISSION.

The ninth section of the Act provides that "any person or persons claiming to be damaged by any common carrier, subject to the provisions of this Act, may either make complaint to the Commission or may bring suit in his or her own behalf for the recovery of the damages" in a federal court. The thirteenth section is:

That any person, firm, corporation, or association, or any mercantile, agricultural, or manufacturing society, or any body politic or municipal organization complaining of anything done or omitted to be done by any common carrier subject to the provisions of this Act, in contravention of the provisions thereof, may apply to said Commission by petition, which shall briefly state the facts; whereupon, a statement of the charges thus made shall be forwarded by the Commission to such common carrier, who shall be called upon to satisfy the complaint or to answer the same in writing within a reasonable time, to be specified by the Commission. If such common carrier, within the time specified, shall make reparation for the injury alleged to have been done, said carrier shall be relieved of liability to the complainant only for the particular violation of law thus complained of. If such carrier shall not satisfy the complaint within the time specified, or there shall appear to be any reasonable ground for investigating said complaint, it shall be the duty of the Commission to investigate the matters complained of in such manner and by such means as it shall deem proper.

Said Commission shall in like manner investigate any complaint forwarded by the railroad commissioner or railroad commission of any State or Territory, at the request of such commissioner or commission, and may institute any inquiry on its own motion in the same manner and to the same effect as though complaint had been made.

INTER 8.

No complaint shall at any time be dismissed because of the absence of direct damage to the complainant.

The complaints made to the Commission have been very numerous, and in many cases the complainants have appeared to suppose that the Commission could interpose and correct at once an alleged evil on an *ex parte* statement of its existence. In other cases the statement of facts has been so defective that no opinion could be formed whether or not a real grievance existed. In no case has the Commission declined to give attention to a complaint because of its being informal or imperfectly presented; but when not in shape for its action, if the facts indicated a probable grievance, it has opened correspondence with the carrier with a view to redress. In the majority of cases the correspondence has resulted in satisfactory arrangement. Either the complainant has been found to be mistaken in his facts, or if wronged it has been through the carelessness or mistake of an agent which the carrier readily corrected, or if the facts presented a case of difference of opinion, the parties, when brought into communication, succeeded in finding some basis for settlement without further intervention. This method of disposing of complaints is believed by the Commission to be more useful than any other, because its tendency is towards the establishment of desirable relations between the carriers and those who must be their customers; but when such a disposition of a case proves to be impracticable, the complainant, if he desires it, is given the necessary directions for putting his complaint in form for an adjudication.

It is provided by the fourteenth section of the Act—

That whenever an investigation shall be made by said Commission, it shall be its duty to make a report in writing in respect thereto, which shall include the findings of fact upon which the conclusions of the Commission are based, together with its recommendation as to what reparation, if any, should be made by the common carrier to any party or parties who may be found to have been injured; and such findings so made shall thereafter, in all judicial proceedings, be deemed *prima facie* evidence as to each and every fact found.

And by the fifteenth—

That if in any case in which an investigation shall be made by said Commission it shall be made to appear to the satisfaction of the Commission, either by the testimony of witnesses or other evidence, that anything has been done or omitted to be done in violation of the provisions of this Act, or of any law cognizable by said Commission, by any common carrier, or that any injury or damage has been sustained by the party or parties complaining, or by other parties aggrieved in consequence of any such violation, it shall be the duty of the Commission to forthwith cause a copy of its report in respect thereto to be delivered to such common carrier, together with a notice to said common carrier to cease and desist from such violation, or to make reparation for the injury so found to have been done, or both, within a reasonable time, to be specified by the Commission; and if, within the time specified, it shall be made to appear to the Commission that such common carrier has ceased from such violation of law, and has made reparation for the injury found to have been done, in compliance with the report and notice of the Commission, or to the satisfaction of the party complaining, a statement to that effect shall be entered of record by the Commission; and the said common carrier shall thereupon be relieved from further liability or penalty for such particular violation of law.

In none of the cases so far decided by the Commission has it felt called upon to order

ANSWER in cases known as the "Car Load Lot Cases," against the "Trunk Lines."

(The substance of the complaints in these cases is stated on pages 355, 396 and 397, *ante*. The answers are substantially the same in all the cases, and therefore one only is now given, that in *Thurber v. N. Y. Central & Hudson River R. R. Co. et al.*)

The joint answer of the New York Central & Hudson River Railroad Company, the New York, Lake Erie & Western Railroad, the Delaware, Lackawanna & Western Railroad Company, the Pennsylvania Railroad Company, and the Baltimore & Ohio Railroad Company to the petition of F. B. Thurber, M. N. Day, E. A. Doty, H. K. Miller, W. B. Timms, and B. F. Shores, claiming to be a

tent the same has been watered, and how often corners have been made on such watered stock; length of lines in miles; whether the business is conducted by rail, vessel, or otherwise; total amount paid to railroads or vessels for use of line or lines; number of officers; number of persons engaged in general administration; number of agents and messengers; total receipts; total expenditures, exhibiting separately amount paid for salaries, for repairs, and for general expenses. * * *

"He may require such other information as to the subjects of this section as, in his judgment, may be necessary to secure such returns as will exhibit the transactions of said several companies."

In compliance with this requirement, a schedule was prepared at the census office containing the interrogatories appropriate to the collection of the information desired. A letter was addressed from that office to the proper officer of each company or association known to be doing what is usually called an express business, inclosing a copy of this schedule, and demanding a return thereupon. As the result of this effort it was ascertained that the companies and associations in question were in general not incorporated companies within the ordinary significance of that term, the express business of the country being, as it would appear, transacted under a highly anomalous system. Of all the companies addressed, but two, and those not the most important, admitted that they came within the purview of the law. The others represented themselves either as mere business partnerships or else as associations of railroads, apportioning their expenses, pooling their earnings in the carrying of parcels, under agreements often informal, and even subject at times to oral modification or enlargement.

The Adams Express Company, the United States Express Company, and the New York & Boston Despatch Company, for instance, state that they are, severally, but joint partnerships, and pay taxes neither on their capital stock nor on their business; that their officers are perpetual, and not affected by any election through stockholders, it not even being the custom to hold stockholders' meetings. The American Foreign and European Express Company, again, claims that it does not operate in the United States, but considers itself simply as a forwarding agency.

The Pacific Express Company took the place of

committee and to represent the New York Board of Trade & Transportation, so called:

1. The respondents are not advised that the petitioners represent the New York Board of Trade and Transportation, or that said board comprises in its membership upwards of 1000 firms and individuals, and therefore ask that the petitioners be held to due proof thereof.

2. The respondents deny the other allegations of the petition, and each and every of them, except as hereinafter stated. They say and allege that in March, 1887, the Joint Committee, so called, being a committee composed of representatives of the Trunk Line Association, so called, the Central Traffic Association, so called, and certain other railroad companies, after careful consideration, adopted, to take effect April 1, 1887, the New Official Classification, superseding the Official Classification of east bound Freight, the Official Classification of west bound Freight, the Middle and Western States Classification of Freight, and the Joint Merchandise Freight Classification, in force prior to April 1, 1887, in different parts of the country, and upon various traffic, which classification was accepted by the respondent companies and other railroad companies, and was used by all the railroad companies in the territory east of the Mississippi River and north of the Ohio River, embracing one half of the railroad mileage and 80 per cent of the railroad tonnage of the United States; that subsequently the said Joint Committee, after careful consideration, the

the express departments of the Kansas Pacific and the Union Pacific Railways, and is virtually an association of the Union Pacific, the Missouri Pacific, and the Wabash, Saint Louis, and Pacific Railways, which carry on the express business upon their own lines under the name of the Pacific Express Company, the stock being subscribed for (but not issued) on the assumed proportion of the aggregate net proceeds which each system would earn. The net earnings, as nearly as they can be ascertained, are paid to the railways monthly. The company is, in fact, a part of these railways, which include their respective receipts from the express or parcels business in their proper railway accounts.

Under the conditions recited, the census office was advised that it was doubtful whether it would be held that companies and associations like the foregoing came within the requirements of the census law, while it was certain that such returns could not be exacted from the companies or associations under the penalties of the statute, penal provisions being always construed strictly.

At the same time that the inadequacy of the provisions of the existing law respecting the companies doing an express business was discovered it was ascertained that much of that business throughout the country was done in such a way as to render it of the highest difficulty, if not virtually impossible, to disentangle it from the general web of railway transactions, even were the parties conducting that business unmistakably subject to the requirements of the law in this respect. Especially was this found to be the case with the officers and employees engaged who were in a great majority of cases the officers or employees of railroads, already so reported, and giving to the express business only a varying fraction of their time, of which no record was kept. Such a condition of things did not seem to justify the census office in a recommendation to Congress of new legislation to enlarge the scope of the provision already recited and to confer upon the agents of the census greater powers. Indeed, only a commission constituted with judicial authority, having the power of subpoena and of summary punishment for contempt, could, with any degree of success, pursue, against unwilling companies, the inquiry into the express business which was in contemplation of Congress in the enactment of the provision recited. * * *

In some cases this course is almost a necessity. The nature of the questions involved is such that they concern large sections of the country quite as much as they do the parties complainant and defendant, and the case ought to be so conducted that any citizen whose interests may be affected can make his views known. A complainant is often only a representative of many interests or of a considerable district of country, but he may be a self chosen representative, and those for whom a decision of his case will constitute a precedent ought not to be concluded without a hearing.

On the other hand, a railroad company may be rather a nominal than a real defendant; the rate, the classification, or the practice complained of may concern some class of its customers who approve of and defend it more than it does the railroad company itself, and the company might be entirely willing to make the change demanded but for the fact that its doing so would bring forward a new class of complainants. Where thus the real controversy is between different interests or different classes of the carriers' customers, the propriety of giving to both the real parties a hearing is obvious; but to make this the most useful and satisfactory it may be necessary to go for the purpose to the part of the country that is specially concerned in the controversy.

There are some questions also which from their nature are such that they can be best investigated where the business they concern is, or where the transactions have taken place out of which they arise. Impressed with this belief the Commission has held sittings in several Southern States, and also in Vermont, Minnesota, and Illinois; and some of the cases now pending might no doubt best be heard at still more distant points, but the appropriation at the service of the Commission has not warranted incurring the necessary expenditures. It seems very certain, however, that the best results can not be attained through sessions held altogether at the national capital.

VIII. ANNUAL REPORTS FROM CARRIERS.

The twentieth section of the Act provides—

That the Commission is hereby authorized to require annual reports from all common carriers subject to the provisions of this Act, to fix the time and prescribe the manner in which such reports shall be made, and to require from such carriers specific answers to all questions upon which the Commission may need information. Such annual reports shall show in detail the amount of capital stock issued, the amounts paid therefor, and the manner of payment for the same; the dividends paid, the surplus fund, if any, and the number of stockholders; the funded and floating debts and the interest paid thereon; the cost and value of the carrier's property, franchises and equipment; the number of employees and the salaries paid each class; the amounts expended for improvement each year, how expended, and the character of such improvements; the earnings and receipts from each branch of business and from all sources; the operating and other expenses; the balance of profit and loss, and a complete exhibit of the financial operations of the carrier each year, including an annual balance sheet. Such reports shall also contain such information in relation to rates or regulations concerning fares, or freights, or agreements, arrangements, or contracts with other common carriers, as the Commission may require; and the said Commission may, within its discretion, for the purpose of enabling it the better to carry out the purposes of this Act, pre-

INTER 5.

scribe (if in the opinion of the Commission it is practicable to prescribe such uniformity and methods of keeping accounts) a period of time within which all common carriers subject to the provisions of this Act shall have, as near as may be, a uniform system of accounts, and the manner in which such accounts shall be kept.

In deciding upon the form and requisites of this report, so far as it was in the discretion of the Commission to do so, three points have been had especially in view: first, to make it as concise as possible consistent with the information to be furnished; second, to bring it as nearly as possible into conformity with the best forms now required in the reports called for by state laws or state commissions; third, to have the report made as late in the year as possible, and still leave time for tabulating and condensing the information furnished in the annual report to be made by the Commission. The date finally fixed upon as that to which the reports of carriers should relate is June 30, which is now the date prescribed for like reports in a number of the States; and it is hoped that without much delay uniformity may be brought about in the reports required under both federal and state laws, so that all may relate to the same time and involve no different methods of book-keeping for their preparation.

In deciding upon a form the Commission has invited and been aided by suggestions from state railroad commissions, and also from auditors of railroad companies.

IX. CLASSIFICATION OF PASSENGERS AND FREIGHT.

A number of the complaints made against railway companies have related to the classification of freight. Some of these have sprung from the fact that classifications are not alike in different sections of the country; and parties who have shipped freight under one classification into a section where a different classification prevails have found the charges against them not the same as they had reason to expect. The ground of others has been that the classification in its effect upon rates worked an unjust discrimination between shippers or between different classes of freights.

It is greatly to be regretted that the same classification is not adopted by the carriers by rail in all sections of the country. The desirability of uniformity is so great, that the suggestion is frequently heard that national legislation should provide for and compel it. If such legislation should be adopted it would be necessary to empower some tribunal to make the classification, and the difficulties which would attend the making would be very great. Relative rates would be involved in it, for classification is the foundation of all rate-making. It was very early in the history of railroads perceived that if these agencies of commerce were to accomplish the greatest practicable good, the charges for the transportation of different articles of freight could not be apportioned among such articles by reference to the cost of transporting them severally, for this, if the apportionment of cost were possible, would restrict within very narrow limits the commerce in articles whose

8. *Held further*, that it was not just or reasonable that the defendant railroad company should give a low **special rate** upon coarse **lumber** in other forms, to the exclusion of **ties**.

4. **Rates** established by a common carrier under the influence of a desire to keep upon its line a material for which the road itself has use, or to keep the price thereof low for its own advantage, can **not be justified**.

(Decided January 13, 1888.)

COMPLAINT alleging the imposition of unreasonable and discriminating rates for the transportation of railroad ties. (See abstract of complaint, *ante*, 600.)

The case came on for hearing December 7, 1887.

The complaint as filed on October 17, 1887, was against the Western New York & Pennsylvania R. Co., the successor, by reorganization, of the Buffalo, New York & Philadelphia Railroad Company. The complaint stated that the property of the railroad company had been in the hands of G. Clinton Gardner as receiver, until the reorganization, and that on such reorganization Mr. Gardner became president of the new company. It appeared that this was a mistake, the receivership having been continued until January 1, 1888.

The complaint was served by mail addressed to G. Clinton Gardner, as president of the Western New York & Pennsylvania Railway Company. Mr. Gardner acknowledged by letter the receipt of the complaint. The answer was prepared in the name of the Western New York & Pennsylvania Railway Company and verified by its president, Mr. Probst, and stated that the reorganized company had not yet come into possession of the road.

When the case came on for hearing, counsel for defendant raised the question whether the case was properly brought. The Commission, without deciding whether it is proper to proceed against a corporation itself when the road is in charge of a receiver, allowed (under the circumstance) the complainant to amend the complaint so as to show the existence of the receivership, and the hearing proceeded.

Mr. E. A. Nash, for complainant.

Mr. George Zabriskie, for defendant.

REPORT AND OPINION OF THE COMMISSION.

Walker, Commissioner:

Complaint of alleged unreasonable and unjust charges for the transportation of railroad ties. The answer asserts that the charges complained of are reasonable and just.

The following facts are found from the proofs: the railroad in question extends from Rochester, N. Y., southwesterly through Olean and Salamanca into the State of Pennsylvania. It connects at Rochester with the New York Central and the West Shore Railroads, at Olean with the Delaware, Lackawanna & Western, and at Salamanca with the New York, Lake Erie & Western. It was formerly owned and operated by the Buffalo, New York & Philadelphia Railroad Company. In actions brought in the United States Courts of New York and Pennsylvania to foreclose a mortgage upon the property of that company,

G. Clinton Gardner was appointed receiver May 20, 1885, and has since operated the property of said company as such receiver. A new company has recently been organized under the foreclosure, entitled the Western New York & Pennsylvania Railway Company. It is expected that said receiver will surrender possession to the latter Company about January 1, 1888. The last named Company and said receiver are the parties defendant in this proceeding.

Complainant is a manufacturer of lumber in the State of Pennsylvania, having an office at Rochester, N. Y. He owns several thousand acres of timber land near the line of said railroad in the vicinity of Corydon, Pa.

Corydon is distant twenty miles from Salamanca, thirty-nine miles from Olean, and 147 miles from Rochester.

For several years complainant has been engaged in manufacturing lumber in Northern Pennsylvania upon the line of said railroad and of the Buffalo, Rochester & Pittsburgh Railroad, most of which has found a market in the State of New York. Much of his timber is oak, of which the trunks are sawn into squared lumber and boards, and the smaller trees, pieces, and large branches manufactured into railroad ties, both sawn and hewn. He also manufactures ties to some extent from chestnut and hemlock. The purchasers of his ties have been the railroad companies above named and other roads reached over said intersecting lines through Salamanca, Olean and Rochester.

Prior to June 15, 1887, the classification in use upon this road, as well as upon other roads in the vicinity, nominally placed lumber in the sixth class, in which railroad ties were included, although not specially named. Lumber, however, being an article of merchandise of considerable bulk in proportion to its value and in respect to which keen competition is met among producers, has for a long time been specially treated, forming practically a class by itself, and receiving very low and special rates; and this practice continues to the present time.

Upon this road lumber and ties were formerly shipped for complainant at identical rates. About February, 1886, the price charged for transportation of ties was greatly increased, so that complainant ceased their shipment for a time. Upon the taking effect of the Act to Regulate Commerce the charges upon ties and the method of collecting the same were so adjusted that his manufacture and shipment thereof were resumed. On July 15, 1887, what is known as the "Official Classification No. 2" became operative and was adopted by the defendant, in common with the other roads north of the Ohio and east of the Mississippi. In this classification lumber in car load lots is in class six; in less than car load lots, class four. Railroad ties in car load lots are in class five; in less than car load lots, class four. It is the only form of rough lumber which was raised to class five in car loads.

Defendant has continuously maintained its low special rate upon lumber, without regard to its being classified in the sixth class, but insists upon the regular fifth class tariff rate for

first and second class rates by the same train, the difference in charge having some regard to difference in the carriages which are allotted to the classes respectively. In some sections colored persons are required to take separate cars, though charged the same rates as others. The carriers making this requirement assume to give to colored persons accommodations equal to those given to white people, and are required by law in some States to do so; but complaint is made that this is not always done.

Then, on all roads of any considerable length parlor and sleeping cars are run, which in most cases are owned by outside corporations, and a special charge made by the owners for seats or berths in them. The palace and sleeping car corporations, like the express companies, as has already been said, do not understand that they come within the contemplation of the Act, so as to be subject to its provisions; but the persons accommodated by them must also have tickets for passage from the railroad companies, and as to those it is not doubted that the same rules of uniformity and impartiality apply as in other cases.

Previous to the passage of the Act it was customary on many of the roads of the country to give reduced rates to the class of persons known as "commercial travelers"; but this was made illegal by the provisions in the Act against unjust discrimination. 1 Interstate Commerce Reports, p. 8 [*ante*, 18]. It was also common in some quarters to give special rates to land lookers, explorers or settlers, who were supposed to be looking for or establishing new homes in a section where their purchase, settlement, or improvement would benefit the carrier giving them, but this also is held to be now forbidden. 1 Interstate Commerce Reports, p. 208 [*ante*, 611]. The opinion of the Commission as declared in these cases is that, under the Law, it is no longer competent for the carrier to discriminate among passengers enjoying the same accommodations, by means of any special classification dependant upon occupation or other condition or circumstance of a personal nature, except as the Law itself, by the twenty-second section, has in terms authorized it.

X. VOLUNTARY ASSOCIATION OF RAILROAD MANAGERS.

Nearly every railroad in its origin has been independent of all others, and in the early history of such roads they were commonly provided for as local conveniences, with no provision of the great highways of trade and communication which they have since become. It was in many cases thought to be important that a road should be kept as distinct in its business from all others as possible, and at their termini in some instances they were not allowed to have the same freight or passenger stations with other roads, lest the local draymen and hackmen should be deprived of a profitable employment.

When the great possibilities of railroad service came to be better understood these primitive notions of local benefits gave way before a more enlightened public sentiment, and the fact was recognized that the public interest would be best subserved by making the connection between the roads as close as possible,

in order that the commerce between different sections and localities might go on steadily and uninterruptedly. The railroad companies perceived also that their interest lay in the same direction; and they not only entered into close business relations with each other, but in many cases formed consolidations. The tendency to consolidation excited public distrust, being looked upon as a device to avoid competition and to deprive the public of the benefits of having more than one line of transportation for the same traffic, which, in some cases, had been the chief inducement to the building of particular lines. Laws were therefore passed forbidding consolidation; but these were avoided by taking leases of roads, or by acquiring a controlling interest in the stock, and then entering into permanent running arrangements.

But it sometimes happened that the managers of a road deemed it for its interest to work in complete independence, and while making profit out of the local conveniences it supplied it found means to add to these a further profit from the inconvenience it could cause to the business of other roads. It therefore discriminated between other roads; it hindered the business of one while it furnished all possible facilities to the business of another; and this it was enabled to do because it was not compellable by law to make joint running arrangements or joint tariffs for business with other roads. Such action was likely to incommode the public quite as much as it did the road which was discriminated against, but it seemed impossible to deal with it adequately by law. To make railroads of the greatest possible service to the country contract relations would be essential, because there would need to be joint tariffs, joint running arrangements, an interchange of cars, and a giving of credit to a large extent, some of which were obviously beyond the reach of compulsory legislation, and even if they were not, could be best settled and all the incidents and qualifications fixed by the voluntary action of the parties in control of the roads respectively.

Agreement upon these and kindred matters became therefore a settled policy, and short independent lines of road seemed to lose their identity and to become parts of great trunk lines, and associations were formed which embraced all the managers of roads in a State or section of the country. To these associations were remitted many questions of common interest, including such as are above referred to. Classification was also confided to such associations, it being evident that differences in classification were serious obstacles to a harmonious and satisfactory interchange of traffic. But what perhaps more than anything else influenced the formation of such associations and the conferring upon them of large authority, was the liability, which was constantly imminent, that destructive wars of rates would spring up between competing roads to the serious injury of the parties and the general disturbance of business.

Accordingly, one of the chief functions of such associations has been the fixing of rates and the devising of means whereby their several members can be compelled or induced to observe the rates when fixed. And

so found is sufficient of itself to suggest that it was placed there for some purpose not readily apparent, and different from the reasons which ordinarily influence classification. No valid excuse for the discrimination being shown, the Commission are of the opinion that the classification of railroad ties in car loads should be reduced to that of lumber.

The question whether or not railroad ties should receive the special lumber rate involves other considerations. Defendant's position respecting the low rate placed upon lumber is that the lumber rates are too low to afford a reasonable compensation to the carrier, and that they are made to meet the competition of lumber brought from other directions over their roads, and are necessary in order to enable defendant to do any lumber business at all, the rates to Rochester in particular having been reduced on September 1, 1887, from \$1.25 to \$1.10 per ton for that very reason; and it is claimed that no such fact exists in regard to ties, which do not meet the same competition, and can properly be charged a higher rate of transportation.

The special lumber rate from Corydon to Salamanca, twenty miles, is \$12 per car of twenty tons, which is said to be about the usual car load weight, or three cents per ton per mile; to Olean, thirty-nine miles, \$12 per car, or 1½ cents per ton per mile, and to Rochester, 147 miles, \$22 per car, or 7½ mills per ton per mile.

No proof has been made of any competition which meets Pennsylvania lumber at either Salamanca or Olean, nor is it apparent that the rates to those points are inordinately low. At Salamanca the rate of sixty cents per ton cannot with justice be claimed to be exceptionally low upon a product of the character of lumber. To charge double that rate upon ties, or \$24 per twenty ton car plus \$1.18 switching charge, making \$25.18 for a haul of twenty miles, is not relatively reasonable and just, especially in view of the fact that the value of the lumber at Salamanca would be about \$176 and of the ties about \$110.

The car load rate to Olean on lumber remains at \$12 and on the ties is increased to \$40.

The present lumber rates to Salamanca and Olean are of long standing, having been originally given to complainant as a special rate, and announced as the public rate upon the passage of the Act to Regulate Commerce.

As complainant in his testimony distinctly states that Rochester is not now a tie market, no order will be made at present in respect to that point.

The circumstance cannot escape observation that the only possible purchasers of railroad ties are railroad companies. It is also obvious that the value of ties at Corydon is their selling price at Salamanca and Olean less the freight. Therefore the higher the freight, the less the value of the ties at Corydon. The defendant itself is a purchaser of ties; it bought a lot of complainant in 1886. The ordinary conflict of interest between the railway and the shipper is here intensified by the fact that the direct interest of the carrier requires the cheapening of the shipper's product. It was candidly admitted by its general superintendent

that this consideration influenced the conduct of defendant in fixing its rates upon ties at a time when its interstate rates were not subject to control under a law of Congress. But if this was legal then, it is so no longer. It involves and implies extortion. It is not only repugnant to every man's sense of propriety and justice, but it is directly forbidden and made illegal by the third section of the Act to Regulate Commerce, in that it subjects this particular description of traffic to undue and unreasonable prejudice and disadvantage for the pecuniary benefit of the carrier itself. It is a course of dealing if possible even more obnoxious to the just provisions of the Act than would be a tariff arranged in the same manner for the purpose of giving a preference to another shipper competing from another direction in the same market.

Rates established by a common carrier under the influence of a desire to keep upon its line a material for which the road itself has use, or to keep the price thereof low for its own advantage, cannot be justified either in morals or in law. Every party who produces such a material is entitled to sell it when he wishes, in the best available market, and the common carrier has no right to prevent his doing so by disproportionate or unreasonable rates. This the defendants in the present case have been attempting to do.

The order of the Commission will be that the defendants cease and desist from charging a greater price for the transportation of railroad ties from points in Pennsylvania to Salamanca and to Olean, in the State of New York, than is charged for the transportation of lumber at the same time between the same points.

RIDDLE, DEAN & CO.

PITTSBURGH & LAKE ERIE R. R. CO.

(No. 88.)

*1. During the summer and early fall of 1887, owing to high freight rates on the vessels on the lakes, and the refusal of shippers to ship upon those rates, there was an immense accumulation of coal and coke and other freights along the line of the Pittsburgh & Lake Erie Railroad Company, a short local and interior railroad extending from New Haven, Pa., to Youngstown, O., from which last named point it has traffic arrangements with the Lake Shore & Michigan Southern Railway, to Ashtabula, and with the New York, Pennsylvania & Ohio Railroad Company to Cleveland. About the middle of September there was a sudden and general rush on the part of these shippers for the coal and coke cars from the Pittsburgh & Lake Erie Railroad Company to ship their coal and coke over its line at once towards Youngstown for Ashtabula and Cleveland, the two nearest and most direct lake ports; and at the same time there was an unprece-

*Head notes by BRAGG, Commissioner.

dedicated quantity of ore from the Lake Superior mines for shipment over this road from Youngstown, in the direction of Pittsburgh, Bessemer and other points along its line south; while the general freights were exceedingly large and brisk. The freight car equipment of the company, according to previous experience in the course of its business, was sufficient to promptly move all the freight as tendered to it for movement over its line; but it turned out to be insufficient to furnish enough cars to remove coal and coke as fast as demanded by shippers, and this, although the company kept this freight equipment well in hand on its own line and refused to send any part of it to other and distant points off its own line in the transportation of freight; and from the 28th of September, 1887, to the 12th of October following, the company was obliged to furnish cars to the coal and coke miners ratably in proportion to their needs and not to the full extent that they demanded. The company had no connection whatever with the vessels on the lakes, and no interest in or control over their rates. In this condition of affairs the complainants demanded of the Pittsburgh & Lake Erie Railroad Company cars for the shipment of coal to Buffalo, N. Y., a point not situated on the line of the Pittsburgh & Lake Erie Railroad. The company was not then permitting any of its coal cars to go to Buffalo because it was using all of these cars and needed even more to move its freight over its own line.

On this state of facts, held:

1. The company was guilty of no violation of the law in refusing to furnish its cars to complainants to carry their coal to Buffalo; but, under the circumstances, it was the duty of the company to do as it did in using this freight equipment in moving its freight over its own line.
2. The inability of the company to furnish cars as fast as demanded by shippers in an extraordinary conjunction like this, for which it was in no wise responsible or to blame, was no violation of the Act to Regulate Commerce.
3. That, being unable for a brief period from the causes stated, to furnish as promptly all coal cars as demanded for the movement of freight over its own line, it was the duty of this company, as it did, to furnish cars ratably and fairly to all the mines along its line in proportion to their freights until the emergency had passed, when it could move all their freights as fast as tendered.
4. The proof does not sustain the complaint that the Company violated the Act to Regulate Commerce by giving a preference in cars to the coke over the coal trade.

INTER 3.

5. The proof does not sustain the charge in the complaint that the Company violated the Act to Regulate Commerce and gave a preference to shippers in not requiring them to load or unload its cars promptly.

6. The petition is dismissed.

(Hear'd Dec. 8-9, 1887. Decided Jan. 14, 1888.)

COMPLAINT alleging violation of section 3 of the Act to Regulate Commerce.

Mr. James L. Black, for complainants.
Messrs. Knox & Bond, for defendant.

REPORT AND OPINION OF THE COMMISSIONER.

Bragg, Commissioner:

The complaint and answer in this proceeding present the following questions for our determination:

1. Whether, during the period commencing September 28, 1887, and ending October 12 of the same year, the Pittsburgh & Lake Erie Railroad Company, in violation of section 3, of the Act to Regulate Commerce, approved February 4, 1887, was guilty of giving an unlawful preference to other coal mines situated along that portion of its line known as the Pittsburgh, McKeesport & Youghiogheny Railroad, by refusing to furnish their proportion of cars daily to the Rainbow Coal Company and the Lake Shore Gas Coal Company for shipments of coal to Buffalo, New York.

2. Whether, during the same period, the Pittsburgh & Lake Erie Railroad Company violated section 3 of the Act to Regulate Commerce by giving an unlawful preference to the coke trade in the region of country along its line by refusing to furnish box cars to the Rainbow Coal Company and the Lake Shore Gas Coal Company and other coal mines represented by complainants for coal shipments, and furnishing the bulk of its box cars for transportation of coke.

3. Whether, during the same period, the Pittsburgh & Lake Erie Railroad Company unlawfully discriminated against the Rainbow Coal Company and the Lake Shore Gas Coal Company, and other coal mines represented by complainants, by siding up coal cars, or gondolas, and converting them into cars suitable for the coke trade, in consequence of which the coal trade was made to suffer and languish.

4. Whether the Pittsburgh & Lake Erie Railroad Company failed to compel the various mills and furnaces located along its line to unload ore, limestone and iron promptly from its cars, but allowed them to stand loaded for days at a time on their sidings, and thereby gave an unlawful preference in this matter to the undue and unreasonable prejudice and disadvantage of the Rainbow Coal and the Lake Shore Gas Coal Company, and other coal mines represented by complainants.

The evidence taken in this proceeding is very voluminous, and so much of it is circumstantial in its nature that it would be difficult, if not impossible, to undertake to group the facts separately as they appear upon each of the above questions.

From this evidence we find the material facts to be that the Pittsburgh & Lake Erie Railroad

Company operates a line of railroad from New Haven, in the State of Pennsylvania, to Youngstown, in the State of Ohio, a distance of 135.72 miles. That part of this line between Pittsburgh and New Haven is known as the Pittsburgh, McKeesport & Youghiogheny Railroad, and its length is 56.95 miles, with branches, and it is operated under a lease for ninety-nine years, made January 1, 1884, to the Pittsburgh & Lake Erie Railroad Company, that company and the Lake Shore & Michigan Southern Railway Company guaranteeing 6 per cent interest on the bonds and 6 per cent dividends on the stock of the Pittsburgh, McKeesport & Youghiogheny Railroad. The balance of this line operated by the Pittsburgh & Lake Erie Railroad Company is between Pittsburgh & Youngstown, Ohio. At Youngstown, Ohio, the Pittsburgh & Lake Erie Railroad Company connects with the Lake Shore & Michigan Southern Railway Company, which extends to Ashtabula, on Lake Erie. At Youngstown the Pittsburgh & Lake Erie Railroad Company connects also with the New York, Pennsylvania & Ohio Railroad Company, which extends from Youngstown to Cleveland, Ohio.

On the 20th day of October, 1877, several contracts referring to and dependent upon each other were made by and between the Atlantic & Great Western Railroad Company (now known as the New York, Pennsylvania & Ohio Railroad Company) the Pittsburgh & Lake Erie Railroad Company, the Youngstown & Pittsburgh Railroad Company, the Cleveland & Mahoning Valley Railroad Company, and the Lake Shore & Michigan Southern Railway Company. The first of these was a trust deed and stock subscription for the construction and completion of the Pittsburgh & Lake Erie Railroad through from Pittsburgh to Youngstown, and was signed by the several railroads named, and also by a large number of private individual subscribers to the stock. It is recited as part of this trust deed and contract of subscription that among other objects had in view by the contracting railroads and the subscribers to the stock, in addition to the construction and completion of the railroad from Pittsburgh to Youngstown, was that said railroad when constructed "should never be consolidated with any of the leading railroad lines of the country nor leased to any of them, and that the same shall be forever conducted as an independent railway, and that the same should be so conducted and so managed that all railroads connecting with it at Youngstown and elsewhere shall have the same facilities for conducting business over the same into and out of Pittsburgh, and that no special favors, charges or privileges shall ever be given to any railway or railways, and the said railway shall never be allowed to pass into the hands of any other railroad company or companies, nor in any way be subjected to the control, direction, or management of any other railway or officers thereof in such manner as to deprive the people of Pittsburgh and the stockholders of the said railroad company from the benefit which they would derive by way of competition and otherwise from said railroad being kept and maintained as a free and independent line and operated in the interest of and under

the control of the stockholders." It also provides for the "making of a continuous independent line of railroad from Pittsburgh to Cleveland, and also to Ashtabula by way of Youngstown," to accomplish which it is recited that "contracts have been entered into for close running arrangements and the exchange of business between the Atlantic & Great Western Railroad Company and the Lake Shore & Michigan Southern Railway Company and the said Pittsburgh & Lake Erie Railroad Company, and the Youngstown & Pittsburgh Railroad Company, copies of which contracts are attached hereto and made a part hereof and marked A, B, and C." These contracts, providing for these close running arrangements and the exchange of business, are before us and we have carefully examined them. Neither of them contain any provision that is in conflict with the right of the Lake Shore & Michigan Southern Railway Company and the Atlantic & Great Western Railroad Company to give directions as to the traffic in the hauling of which their cars shall be used, when furnished by either of them to the Pittsburgh & Lake Erie Railroad Company *to be loaded and returned to points on their respective lines.*

Subsequently the Pittsburgh & Lake Erie Railroad Company by a lease, which is in evidence before us, and some of the terms of which have already been stated, acquired the right to operate the Pittsburgh, McKeesport & Youghiogheny Railroad from the first day of January, 1884, for ninety-nine years. In this lease it is, among other things, provided that the Lake Shore Company shall at all times have the right to make such rates to and from competitive points reached by the road of the Pittsburgh & Lake Erie Company and the road of the said Pittsburgh, McKeesport & Youghiogheny Railroad Company as will enable it to compete with other roads for the same or similar traffic, but that such rates shall be so made and adjusted between the several lines on all business to or from the Youghiogheny Company's road on the same basis, three fourths of 1 per cent minimum ton per mile to the Pittsburgh Company, and so as to no wise, with reference to any traffic, to interfere with the rates and divisions of rates and the other provisions of a certain contract between the Pittsburgh Company and the Youngstown & Pittsburgh Railroad Company, of the first part, and the Lake Shore Company, of the second part, dated October 20, 1877.

Under these traffic arrangements the chief shipments of coal and coke over the Pittsburgh & Lake Erie Railroad Company is north and west from Pittsburgh, and are to Cleveland by way of the New York, Pennsylvania & Ohio Railroad from Youngstown, and to Ashtabula, on Lake Erie, by way of the Lake Shore & Michigan Southern Railway. There is also at certain seasons of the year a considerable shipment of coal to Buffalo, N. Y., over the Lake Shore & Michigan Southern Railway, although greatly less in amount than to Cleveland or Ashtabula; but this has not usually been done during the season when the navigation of the lakes is open, in the months of September and October, and up to the 20th of November. There are a great many furnaces

and rolling mills along the line of the Pittsburgh & Lake Erie Railroad. From the time of the opening of the Great Lakes for navigation, which usually occurs about the first of May, until navigation is closed upon them, which usually occurs about the 20th of November in each year, there is an immense shipment of coal and coke over the Pittsburgh & Lake Erie Railroad to Youngstown for Ashtabula and Cleveland, and from these ports this coal and coke are transported to other points. A great deal of this coke is used in smelting ore at the furnaces and mills along the line of the Pittsburgh & Lake Erie Railroad and its connections, the Lake Shore & Michigan Southern Railway and the New York, Pennsylvania & Ohio Railroad. The cars which transport this coal and coke to the Ports of Ashtabula and Cleveland in great part are promptly loaded with return loads of ore from the Lake Superior mines to Pittsburgh, Bessemer, and other points where there are mills and furnaces along the lines of the Pittsburgh & Lake Erie Railroad. A car load or train load of coal or coke, as the case may be, leaves points on the Pittsburgh & Lake Erie Railroad one day, and the next day thereafter it is in Ashtabula or Cleveland, as the case may be, and unloaded, and the following day it is back again at Pittsburgh or Bessemer with a return load of ore from Ashtabula or Cleveland. If the same cars should carry loads of coal from points on the Pittsburgh & Lake Erie Railroad to Buffalo, they would, under the best connections usually made, be gone from their line for a period of at least a week—more frequently ten days and often two weeks. From this it has resulted that an average of ten cars with coal go over the Pittsburgh & Lake Erie Railroad to Ashtabula and fifteen to Cleveland, as the case may be, where one of such cars goes to Buffa-

coal or coke long distances. Generally the coal business is a little larger on the Pittsburgh & Lake Erie Railroad than the coke business. The bulk of the coke trade is done in foreign cars—that is, cars of the Lake Shore & Michigan Southern Railway and the New York, Pennsylvania & Ohio Railroad, and the Cleveland, Columbus, Cincinnati & Indianapolis Railway. The bulk of the equipment of the Pittsburgh & Lake Erie Railroad is used for its local business between New Haven and Youngstown.

Prior to the first of September, in the year 1887, and, indeed, up to the middle of that month, it is not shown that complaint had been made of an insufficiency of cars for the coal and coke trade along the line of the Pittsburgh & Lake Erie Railroad. There had been a strike among the laborers at the coke mines along its line, which commenced in May, 1887, and lasted until July of that year, and during that period the coke mines had done but little work; but the laborers of the coke mines very generally resumed work in August, and from that time on there was a large output from these mines. From the upper lakes there were exceedingly high rates and an unusually large business for the boats during the summer and fall of 1887. These vessels demanded high rates on coal and coke, which the coal and coke men refused to pay, and in this way there was a standoff between them for a period of two or three months, during which time the vessels returned empty from Ashtabula and Cleveland to the upper lakes. These vessels were not owned or controlled by these railroad companies. At last, and during the latter part of September, the coal and coke men yielded to the rates of the vessels, and then there was a general rush for cars for coal and coke, crowding a volume of shipments of these articles over the Pittsburgh & Lake Erie Railroad, which should naturally

as it had theretofore done during the months of September and October, 1887. The daily capacity of the Pittsburgh & Lake Erie Road from Pittsburgh to Youngstown is about 600 freight cars, and the evidence shows that from the middle of September to the middle of October, 1887, it was worked to its utmost in the transportation of freight over that portion of its line, and that with all the cars it received from its connecting lines added to its own there was, what is called in railroad transportation, "a car famine," and it could give to the mines along the line of its road not more than about half what they required for the transportation of coal and coke. This condition of affairs lasted until the close of navigation in the lakes, about the 20th of November, after which time there were plenty of cars for all purposes, except, perhaps, coke.

While this condition of affairs was existing in Pennsylvania and Ohio along the line of the Pittsburgh & Lake Erie Railroad and the Lake Shore & Michigan Southern Railway, extending to Ashtabula, and the New York, Pennsylvania & Ohio, extending to Cleveland from Youngstown, there was what is known as a coal blockade at Buffalo, N. Y., and cars of the Pittsburgh & Lake Erie Railroad and the Michigan Southern Railway, carrying coal to Buffalo, were detained on the sidings there from two to three weeks before they were returned to the line of the Pittsburgh & Lake Erie Railroad; and in consequence of this stringent orders were issued by the chief officers of the Pittsburgh & Lake Erie and the Michigan Southern, against having any of their cars loaded for Buffalo from points along the Pittsburgh & Lake Erie Railroad, the object of this being to keep their cars at home along their own line for the great and unprecedented work that was before them in transporting the coal and coke to Ashtabula and Cleveland, and to the mines and rolling mills along their lines, and in bringing the ore back from Cleveland and Ashtabula to these points, as well as in keeping their general merchandise freight moving. It was during this period that complainants had contracts for the delivery of coal from the mines they represented, namely: the Rainbow Coal Company and the Lake Shore Gas Coal Company, for delivery at Buffalo, N. Y., where the price of coal was slightly higher than at Ashtabula or at Cleveland, and it is in regard to this that their complaint is made; that they were not furnished with their proportion of cars upon application made by them to the Pittsburgh & Lake Erie Railroad Company for this purpose. The evidence does not show that any other persons applied to the company for coal cars to Buffalo during this period, although it does show that it refused to allow its coal cars to go there for any shipper during this period on account of the facts herein stated. The distance from Youngstown to Buffalo, by the Lake Shore & Michigan Southern railway, is 191 miles, and from Youngstown to Ashtabula, by the same line, is 62 miles; the distance from Youngstown to Cleveland, by the New York, Pennsylvania & Ohio Railroad, is 67 miles.

The manner in which cars are furnished for coal shipments to the mines is upon requisition made by the mines for so many cars per day. These requisitions frequently call for

more cars than the mines actually need, and it would appear that this was done out of abundant caution on the part of the mines, that they might have a sufficiency of cars for their purposes; but it would have resulted in some mines obtaining more than they needed and others less than they were entitled to if it had not been controlled, as far as could be done, by the railroad company using a vigilant discretion in supplying the mines according to their actual output daily, instead of according to their requisitions. It is but proper to state that the Rainbow Coal Company and the Lake Shore Gas Coal Company and the other mines represented by complainants are not shown by evidence to have been guilty of having made any such exaggerated requisitions, but others did; and the Company was put upon the exercise of a vigilant discretion in all its dealings of this character from the causes named. The custom is for the furnace to furnish its own siding. If the furnaces do not unload the ore and coal promptly it is done by the railroad company, and demurrage is charged without preference. The rule of the Company is to allow twenty-four hours of daylight for the unloading of a car by the furnaces. In some instances, where the consignees of freight to be delivered were not at fault, the Company did not charge demurrage, but these were exceptional.

Wherever cars were furnished by the Lake Shore & Michigan Southern to the Pittsburgh & Lake Erie Railroad or by the New York, Pennsylvania & Ohio Railroad or by the Cleveland Columbus, Cincinnati & Indianapolis Railway the rule was that they were furnished under instructions or directions as to the freight with which they were to be loaded for return to those lines although not as to the shippers by name personally who were to be served, and the Pittsburgh & Lake Erie loaded these cars thus furnished and returned them in the manner indicated by these instructions or directions. Various causes frequently caused delay in loading cars at the mines, even when coal was on hand for that purpose. If a miner died, the miners all went out and the mine stopped for the time being. If there was a break in the machinery in shifting the engines, putting the cars into the mines or in unloading them, this caused delay. The mines were not arranged for loading box cars, because their chutes were not made for that purpose. The Lake Shore Gas Coal Mine could load box cars by shoveling, but the Rainbow Coal Mine could not do so in September and October, 1887. Among other methods resorted to by the railroad companies to compel the furnace men, mill men, and mine men to load or to unload cars promptly was that of "shutting them off," as it was called—that is, refusing to give them more cars until they had loaded or unloaded, as the case may be, the cars they had—and this seems to have been resorted to very frequently during last summer and fall by the Pittsburgh & Lake Erie Railroad Company and its connecting lines, the Lake Shore & Michigan Southern and the New York, Pennsylvania & Ohio Railroad Companies. During the pressure for the shipment of coke it appears that the Pittsburgh & Lake Erie Railroad Company found it necessary to side up coal cars or gondolas, as they are called,

way Company and the New York, Pennsylvania & Ohio Railroad Company are not parties to this proceeding. The complainants in developing their case were permitted to show in evidence the traffic arrangements existing between these two companies, and the Pittsburgh & Lake Erie Railroad Company, for the purpose of throwing all the light that this would do, if any, upon the matters involved in their complaint. It appears from this evidence that during the period to which this complaint refers, as well as prior to that time, the Lake Shore & Michigan Southern Railway Company, the New York, Pennsylvania & Ohio Railroad Company, and the Cleveland, Columbus, Cincinnati & Indianapolis Railway Company occasionally sent their cars from their lines to points on the Pittsburgh & Lake Erie Railroad, with instructions or directions to be loaded with certain kinds of freight designated and returned to points on their lines, respectively. The right of these companies to do this was not questioned on the hearing by the counsel for complainants, except only as it was made the means of unjust discrimination, if any, by the Pittsburgh & Lake Erie Railroad Company against the complainants in the shipment of their freight. The evidence does not show that it was productive of any such unjust discrimination against plaintiffs or any other shippers. Such cars were sent for designated traffic and not to designated persons, and the effect of it was to inure to the benefit of all shippers along the line of the Pittsburgh & Lake Erie Railroad Company by enabling that company the better and more promptly to move its freight.

The inability of this Company to furnish complainants instantly upon demand all the cars it needed for the shipment of coal from the mines it represented, resulting from the causes and in the manner shown in the evidence, was not subjecting it "to any undue or unreasonable prejudice or disadvantage in any respect whatever" within the meaning of section 8 of the Act to Regulate Commerce. The vast fluctuations and unforeseen developments of commerce, or the fault or misfortune of some one or more connecting lines, may occasionally bring about a condition of affairs in which the best managed railroad, and with the most ample freight equipment, is unable to move at once as promptly as tendered all the freight upon its line, and this without any fault of its own. There is no evidence that the freight equipment of the Pittsburgh & Lake Erie Railroad Company had been unequal to the business of the previous season; and yet in the season the latter part of which is complained of, it appears, in the exercise of good faith and prudent preparation in the line of its duty, to have increased its freight equipment over what it had been in the previous season, and to have kept it well in hand upon its own line for the movement of the freight of that line; and, in addition to this, it had a right to rely and did rely upon its arrangements with the Lake Shore & Michigan Southern Railway Company and the New York, Pennsylvania & Ohio Railroad Company for cars. It certainly is the duty of every railroad company to provide itself with

a sufficient freight equipment and to keep this well in hand for the prompt movement of freight over its line, based upon known and probable estimates of the business of a season. This the Pittsburgh & Lake Erie Railroad Company seems, from the evidence, to have done; but when an immense volume of local freight was held back by shippers for several months and then precipitated by them upon this Carrier, all at once, it could not furnish all the cars thus demanded for the instant movement of this mass of accumulated freight. It did, however, do all in its power to move this freight as quickly as possible. This was no violation of the third section of the Act to Regulate Commerce.

II. The second ground of complaint is that from the 28th day of September, 1887, to the 12th day of October next following the Pittsburgh & Lake Erie Railroad Company violated section 8 of the Act to Regulate Commerce by giving an unlawful preference to the coke trade in the region of coke along its line, by refusing to furnish box cars to the Rainbow Coal Company and the Lake Shore Gas Coal Company and the other coal mines represented by complainants, and by furnishing the bulk of its box cars for the transportation of coke.

It appears from the evidence that there was a strike among the coke miners about the first of May, 1887, which lasted until July of that year, and that they resumed work, generally and actively, in the month of August. At that time there was a great demand for coke in smelting ore from the Lake Superior mines and in the rolling mills and furnaces along the line of the Pittsburgh & Lake Erie Railroad Company. These rolling mills and furnaces were running day and night, and it required all that the coke beds and the Pittsburgh & Lake Erie Railroad Company could do to furnish them with coke. The only refusal to furnish box cars to the Rainbow and the Lake Shore Gas Coal Companies appears to have been, as we have already seen, to transport coal to Buffalo. In other respects they appear to have received their proportion of cars for shipments of coal from the mines. Box cars are used exclusively for hauling coal only in cases of long hauls, and are far better adapted to the transportation of coke than coal. The hauls of coal or coke from the line of the Pittsburgh & Lake Erie Railroad during this season were short hauls. The coal mines along this road had no chutes to load box cars with coal; and this, the evidence shows, was true of the mines of the Rainbow Coal Company and the Lake Shore Gas Coal Company during the time to which this complaint relates. There is a strong preponderance of evidence to the effect that the bulk of the box cars of the Pittsburgh & Lake Erie Railroad Company, during the time complained of, were not used in transporting coke, but were used chiefly in transporting general merchandise over its line. This ground of complaint, therefore, is not sustained by the evidence.

III. The third ground of complaint is that the Pittsburgh & Lake Erie Railroad Company, in violation of section 8 of the Act to Regulate Commerce, unlawfully discriminated against the Rainbow Coal Company and the Lake Shore Gas Coal Company and other

mines represented by complainants, by siding up coal cars or gondolas and converting them into cars suitable for the coke trade, in consequence of which the coal trade was made to suffer and languish.

The evidence shows that the coal and coke trades are nearly equal in amount, there being slightly more of coal, and that the number of cars required for each is not largely different; and, further, that what are known as gondolas or open flat cars sided up are equally as serviceable in the transportation of coal as coke. We find from the evidence that the company had been siding up or converting into gondolas a considerable number of its open flats, and that these could be used as well for the coal trade as for the coke trade. The evidence is that ever since navigation closed on the lakes, about the 20th of November, and while there are plenty of cars for all else, there is still a shortage in the supply of cars for the coke trade. This itself is a sufficient reason, if there were no other, why the Company should prepare additional cars for the coke trade. The evidence does not sustain the charge that from the cause complained of the coal trade is languishing.

IV. The fourth or last ground of complaint is that the Pittsburgh & Lake Erie Railroad Company has failed to compel the various furnaces and mills located along its lines to unload ore, limestone, and iron promptly from its cars, but allows these cars to stand loaded for days at a time on its sidings, thereby giving

by given to such shipper a party complaining would have to introduce evidence which would show that no demurrage was charged or that no proper efforts were made by the railroad company to have the freight loaded or unloaded more quickly. In this proceeding the evidence shows that the railroad company did all in its power to have its cars loaded and unloaded promptly upon sidings and by consignees. It frequently went to the extent of shutting of mines and mills because they did not load and unload its cars promptly. This ground of complaint is, therefore, not sustained by the evidence.

According to our conclusions above stated the complaint in this proceeding is not sustained by the evidence. It is, therefore, dismissed.

James C. SAVERY & Co., Doing Business
under Name of American Emigrant Co.

NEW YORK CENTRAL & HUDSON
RIVER R. R. Co. et al.

(No. 77.)

COMPLAINT filed September 5, 1887, alleging unreasonable charges for the transportation of emigrants from Castle Garden, New York, to Chicago, etc., and a combination to exclude plaintiffs from interviewing emigrants at Castle Garden.

The case has been set down for hearing at the United States Court House in New York City on February 7 1888

Second. That, being such carriers, and subject to the provisions of said Act, each and every of said railroad companies has been guilty of violating the provisions of the last clause of the first section of said Act in that each of them has, continuously since the first day of April, 1887, exacted unjust and unreasonable charges for the carriage of emigrants and their baggage from the said City of New York to the said City of Chicago, and to other points and places in the States and Territories west, northwest and southwest of the State of New York.

And for the particular grounds and specifications of this charge your petitioners show:

First specification. That continuously, since the said first day of April, 1887, said several railroad companies have exacted the sum of \$18 for the carriage of each adult emigrant carried by it from New York to Chicago, and a proportionate sum for each adult emigrant carried a less distance, while for each adult emigrant carried beyond Chicago the charge has been increased according to the local second class rate of the railroads running beyond that point; such exaction being made in pursuance of an agreement or compact existing between all of said railroad companies establishing rates for the carriage of emigrants and their baggage, which rates are unjust and unreasonable because of the character of the accommodations furnished for the transportation of emigrant passengers, said passengers being usually carried by said railroad companies in an inferior kind of cars called "emigrant cars," or in cars fitted with uncomfortable wooden seats, such cars being run sometimes in connection with passenger trains and sometimes in connection with freight trains, according to the convenience of the carrier, and not on any schedule time, and sixty hours being sometimes occupied in making the trip from New York to Chicago; and which rates are unjust and unreasonable because the number of emigrants carried by said railroad companies from New York to Chicago and to other points west of the State of New York is so great (amounting to between two and three hundred thousand annually) as to warrant their being profitably carried at much lower rates; and which rates are unjust and unreasonable because they are largely in excess of the rates at which the said railroad companies have heretofore carried emigrants and their baggage from New York to Chicago and to other points west of the State of New York; which former rates were as follows: from July 22, 1881, to July 28, 1881, the fare for each adult emigrant from New York to Chicago, as fixed and agreed upon and exacted by said railroad companies, was but \$9; from July 28, 1881, to February 15, 1882, the fare for each adult emigrant for the above distance, as fixed and agreed upon and exacted by them, was \$7; from February 15, 1882, to January 22, 1885, the fare for each adult emigrant fixed, agreed upon and exacted by them for the same distance, was \$18; from January 22, 1885, to January 15, 1886, one of the said railroad companies, to wit: the Pennsylvania Railroad Company, carried nearly all the emigrants landed at the Port of New York, from New York to Chicago, or to Cincinnati, or to St.

Louis, as the case might be at the rate of \$1 for each adult emigrant, and to all other points east of Chicago at the same rate, and to all points west of Chicago at proportionate rates; from January 15, 1886, to June 1, 1886, by a compact to which all the railroad companies hereinbefore mentioned, except the New York, Ontario & Western Railway Company and the Baltimore & Ohio Railroad Company, were parties, and to which the Grand Trunk Railway Company of Canada, the Boston & Lowell Railroad Company, of Massachusetts, the Vermont Central Railway Company of Vermont, the Fitchburg Railroad Company of Massachusetts, the Boston & Albany Railroad Company of Massachusetts, and the New York & New England Railroad Company of Massachusetts, were also parties, the fare for each adult emigrant from New York to Chicago was fixed at \$7; and it was agreed that all the parties to said compact should be jointly interested in all earnings from the carriage of emigrants from New York to Chicago or to other points in the West, and that each should receive a certain stipulated percentage of such earnings, the accounts to be kept and the division to be made in the City of New York by one Albert Fink, who was Trunk Line Pool Commissioner for all of said companies under said compact. On or about June 1, 1886, said several railroad companies entered into a new pool compact by which the fare for each adult emigrant passenger from New York to Chicago was again increased to \$18, at which figure it has since been maintained by the concerted action of said railroad companies, notwithstanding the said pool agreement was rendered invalid by the provisions of the said Act of Congress hereinbefore mentioned.

Second specification. That continuously, since the first day of April, 1887, said several railroad companies have exacted from each emigrant carried from New York to Chicago whose baggage weighed more than one hundred pounds, compensation for extra baggage at the rate of two dollars and sixty cents (\$2.60) per one hundred pounds for the excess over one hundred pounds; which charge for extra baggage is unreasonable and unjust because it is greater than the charge made by the same carriers for the carriage, between the same points, of extra baggage for first class passengers, which is carried on express passenger trains, such last mentioned charge being at the rate of only \$2.40 per one hundred pounds.

Third. And your petitioners further show that each of the said several railroad companies mentioned in the first paragraph of this petition is guilty of unjust discrimination, in violation of the second section of the said Act of Congress, in this, to wit:

First specification. That each of said railroad companies, in pursuance of said compact between them, sells, at the price of \$18, to recently arrived emigrants who are landed at Castle Garden, New York, tickets entitling the holders to transportation by rail from New York to Chicago but refuses to sell the same grade of tickets for the same trains to any other person or persons, at the same price, or at any price; and also refuses to sell the said grade or kind of tickets at any other place or office

than at Castle Garden, New York; and all persons other than recently arrived emigrants who are carried in the same cars with emigrants from New York to Chicago are compelled by each of said carriers to pay for such carriage, the sum of \$17, the price of a second class ticket between said points.

Second specification. That each of said railroad companies, in pursuance of the said compact between them, has continuously, since April 1, 1887, discriminated against emigrants carried by it from New York to Chicago by exacting from them \$2.60 for each one hundred pounds of extra baggage carried for them, while it has charged first class passengers, for extra baggage carried for them, upon express trains, only \$2.40 per one hundred pounds.

Fourth. And your petitioners further show that the said railroad companies mentioned in the first paragraph of this petition have been, and are, guilty of violating section 8 of said Act of Congress, in this: that since April 1, 1887, they have been, and they still are, dividing between them a portion of the aggregate earnings of said railroads, to wit: that portion derived from the carriage of emigrants and their baggage.

Specification. A compact or agreement exists among said railroad companies which was made since the first day of April, 1887, and which has been in full force and operation since June 1, 1887, by which the said railroad companies have agreed that all emigrants carried by any of them whose destination is west or northwest of Chicago, shall be carried by way of Chicago, and have agreed to divide among themselves, instead of the moneys received for the carriage of emigrants and their baggage, the business of carrying the same; and in pursuance of said compact and agreement all such emigrants have been, since June 1, 1887, carried by way of Chicago, and, since said date, the said business of carrying emigrants has been, and still is, divided between the said companies, as follows: the New

York and Ontario & Western Railway is but \$7.85; and the emigrant fare from Brockville, Canada, to Winnipeg, via the Canadian Pacific Railway, is but \$12, making the total all rail

tion by one route and some by another. Such division is rendered possible, by the circumstances that all emigrants arriving at the Port of New York are required by law to be landed at Castle Garden, an enclosed structure occupied by the Commissioner of Emigration of the State of New York, who, by virtue of a contract between them and the Secretary of the Treasury, made pursuant to law, have control of the landing and supervision of all emigrants arriving at said port; that said Commissioners have given to the common agent or agents of said railroad companies the exclusive right to sell railroad tickets to emigrants at Castle Garden, and have excluded and still exclude all persons, except such common agent or agents of said companies, from seeing or conversing with any emigrants arriving at said Garden, until they have been divided and allotted as aforesaid, and have exchanged their money, and have purchased from said common agent or agents, and paid for, their tickets to their destination, and have had their baggage weighed and have paid the extra charges thereon; and that the said railroad companies have severally refused, since June 1, 1887, and still refuse, to sell emigrant tickets at any other place than at said Castle Garden. One of the crying evils resulting from the said action of said railroad companies is that many of the emigrants carried by them are carried out of their way, and made to pay much more for their transportation than the same would cost if they were free to choose their own routes and to buy their tickets elsewhere than at Castle Garden. For example: emigrants bound for Winnipeg are now obliged to purchase tickets and go by the way of Chicago at a cost, for tickets alone, of \$33; whereas, the fare for an emigrant passenger from New York City to Brockville, Canada, via the New York, Ontario & Western Railway is but \$7.85; and the emigrant fare from Brockville, Canada, to Winnipeg, via the Canadian Pacific Railway, is but \$12, making the total all rail

that the said railroad companies mentioned in the first paragraph in this petition have, by their combined action, subjected your petitioners to undue and unreasonable prejudice and disadvantage in their business, hereinafter described, in violation of section 3 of said Act of Congress.

Specification. The business of the American Emigrant Company of Hartford, Connecticut, to which company your petitioners are successors, which business was established twenty-three years ago, has consisted in the sale to emigrants and others of lands situate in the Western States and Territories, and in the establishment of numerous colonies upon such lands, and in disseminating among the common people of various countries of Europe, but especially among the Scandinavians, correct information regarding the newer and more sparsely settled portions of our country, and in acting as the correspondent and agent of persons residing in foreign countries who were about to migrate hither, furnishing them specific information, purchasing their tickets, providing interpreters and agents to meet them upon their arrival and rendering them whatever advice and assistance they might need; and in the course of said business the said American Emigrant Company has become favorably known to a great number of foreign born people residing in every State and Territory of the United States, and a great number of such people have made it their financial agent, entrusting to it sums of money for a great variety of purposes, the chief of which has been the purchase of bills of exchange for transmission to relatives or friends in the old country, and the purchase, for relatives or friends coming to America, of tickets for the journey from New York to their ultimate destination; and also entrusting to it sums of money to be handed to relatives or friends upon their arrival in New York; and have also solicited its advice for such relatives or friends as to the route by which they should travel, and its assistance in procuring for them transportation and whatever else they might need, either in New York or upon their journey; and your petitioners, in continuing the said business, have become the financial agents of a very great number of said foreign born residents, who have entrusted to your petitioners sums of money amounting, in the aggregate, to hundreds of thousands of dollars annually, upon trusts, the performance of many of which is greatly hindered and impeded by the action of the said railway companies herein complained of; among which trusts are the meeting and assisting of emigrants upon their arrival; advising them as to the route to be traveled to reach their ultimate destination; acting for them in securing the most favorable rates possible and in purchasing their tickets; purchasing for them such articles of food or clothing as they might need for their journey; and delivering to them money supplied for their use; and because of their said compact hereinbefore mentioned, and in pursuance thereof, said railroad companies have refused, and each of them has refused, and they and each of them still refuse to sell to your petitioners emigrant tickets for any purpose whatever, and they have caused the

said Commissioners of Emigration to exclude, and to continue to exclude, your petitioners and their agents and interpreters from said Castle Garden, and have hindered and prevented, and still hinder and prevent, your petitioners and their agents and interpreters from communicating with, or advising, or in any manner acting for or serving, emigrants arriving at the Port of New York, and have hindered and prevented, and still hinder and prevent emigrants desiring to do so from seeing or communicating with your petitioners or their agents or interpreters; whereby your petitioners are greatly embarrassed and annoyed, and are hindered and prevented from discharging the duties and obligations which they have assumed toward many of their principals and depositors, by reason whereof their business standing and reputation are impaired, their credit is injured, and they are subjected to very great prejudice and disadvantage.

Of all of which matters and things hereinbefore alleged and set forth, your petitioners will make proof as they may be advised and as this honorable Commission may direct; and they respectfully pray that each and every the said several railroad companies herein complained of may be called upon to satisfy your petitioners or to answer hereto in writing within a reasonable time to be specified by this honorable Commission.

And your petitioners will ever pray, etc.

DETROIT BOARD OF TRADE and Detroit
Merchants & Manufacturers Exchange

GRAND TRUNK R. CO *et al.* (The Trunk
Trunk Line Association.)
(No. 106.)

COMPLAINT filed December 19, 1887, alleging unjust discrimination in rates against Detroit.

Detroit, Mich. November 25, 1887.
To the Interstate Commerce Commission.

We, the undersigned duly elected officers of the Detroit Board of Trade, and of the Detroit Merchants & Manufacturers Exchange, do most respectfully tender you in behalf of the aforesaid corporations, duly organized in accordance with the laws of the State of Michigan, the following petition and complaint, to which we pray your early attention, in the manner laid down by your honorable body, in the rules adopted for its procedure:

The merchants of Detroit have for a long time suffered, without remedy, from the arbitrary and unjust discrimination in fixing the rates of freight by certain railroad corporations called "The Trunk Line Association," upon merchandise to and from seaboard cities, and places taking seaboard rates, originating at, or destined to this city, as compared with the rates of freight fixed upon similar merchandise to and from the same places, originating at, or destined to the City of Chicago, and other places.

COMPLAINT alleging violation of section 8 of the Act to Regulate Commerce.

On motion to amend complaint. *Motion denied.*

The nature of the proposed amendments is stated in the opinion.

Bragg, Commissioner:

The complainants in this proceeding move to amend their original complaint. The original complaint was filed on the 6th day of September, 1887, and answered by the Baltimore & Ohio Railroad Company on the first day of December, 1887.

The substance of the original complaint, briefly stated, is that the Baltimore & Ohio Railroad, prior to the filing of that complaint, had unjustly discriminated against the Yough Slope Mine in refusing to furnish that mine with its fair share of cars during the month of August, 1887, on shipments of coal to Arthur & Boylan, at Cleveland, Ohio.

The proposed amendment to this original complaint is as follows: "The complainants respectfully ask that the complaint, dated September 6, 1887, against the Baltimore & Ohio Railroad Company be amended by the filing of additional complaints as follows: 'That said respondent company, during the month of October, 1887, neglected and refused to furnish cars (their proportion each day) to the Yough Slope Mine, Anderson Mine, and other mines, for the transportation of coal to Buffalo, New York, and to Chicago, Illinois; and further during the months of November and December, 1887, said respondent company refused cars to the aforementioned mines (their proportion each day) for the transportation of coal to Cincinnati, Ohio. That, during the aforesaid months, said respondent company gave a preference to shippers of coke on the line of their road by furnishing said coke shippers with more than their proportion of box cars each day for shipments of coke, to the great injury of the aforementioned coal mines and your petitioners or complainants.'"

By this proposed amendment, as will be seen, complainants now desire to amend the original complaint by showing unjust discrimination by the defendant company against the "Anderson Mine" and "other mines" in refusing to furnish them cars "for the transportation of coal to Buffalo, New York, and to Chicago, Illinois, and further, during the months of November and December, 1887, said respondent company refuses the aforementioned mines their proportion each day for the transportation of coal to Cincinnati, Ohio." This amendment thus brings forward, for the first time, mines alleged to have been discriminated against in shipments to points nowhere referred to in the original complaint, and charges violations of the Statute against these mines and in these shipments, occurring a considerable period of time after the original complaint was filed, and some of them, in fact, after the original complaint had been answered by the defendant railroad company. The grievances stated in the amendment are new and distinct, entirely separate from, and having no relation to, the grievances mentioned in the original complaint.

In considering complaints and amendments,

such as are made and proposed, the Interstate Commerce Commission, under the statute, performs duties that are in their nature judicial. Liberal as our practice has heretofore been, and will continue to be, in allowing amendments to complaints and answers in proceedings before us in the administration of a highly remedial Statute, yet there must, under the rules of law, be a limit to this power of amendment; and this limit, we think, would be passed in allowing the amendment here proposed. The alleged grievances averred in this proposed amendment do not constitute grounds of complaint under the circumstances proper to be brought in by way of amendment to the original complaint in this proceeding.

That portion of the proposed amendment which charges that the defendant company gave a preference "to shippers of coke on the line of their road, by furnishing said coke shippers with more than their proportion of box cars each day for shipment of coke during the aforesaid months" is equally obnoxious to the objection above stated. The matters mentioned in this proposed amendment may be subjects for a new petition if complainants desire to present such a complaint, but not by way of amendment to the original petition.

The proposed amendment is, therefore, not allowed by the Commission.

LINCOLN BOARD OF TRADE

UNION PACIFIC R. Co. & Southern Pacific Co.

(No. 117.)

ABSTRACT of petition filed February 10, 1888, charging unjust discrimination against Lincoln, Nebraska.

Mr. G. M. Lambertson, for petitioner. **Messrs. Shellabarger & Wilson**, for defendant Union Pacific R. Co. **Mr. Charles H. Tweed**, for defendant Southern Pacific Co.

Petition alleges that defendants form a continuous all rail line between San Francisco, Sacramento, San Jose, Los Angeles, Riverside, Santa Anna and other prominent shipping points in California and Omaha, Kansas City and other points on Missouri River, and between said Pacific slope points and Lincoln, Nebraska; that they publish through tariffs, as required by law, on all classes of freight between said Pacific slope points and said Missouri River points but do not, in the same legal and systematic manner, publish through rates on similar traffic between said Pacific slope points and Lincoln, Nebraska; that in some instances rates have been quoted directly to points of destination, and on some articles they have been the same as to Missouri River points; but, as a rule, shippers are compelled to ship to Omaha and rebill from that point to destination, paying rates in effect between Pacific slope points and Missouri River points plus regular local rates between Omaha and Lincoln; that when the Union Pacific Railway was built to Lincoln, Nebraska, Missouri River rates on Pacific coast business were guaranteed, but since the Interstate Law took effect rates have been as herein set forth; that the principal articles of shipment from California are canned

prejudicial to the large towns which before had been specially favored.

2. The spirit and purpose of the Act to Regulate Commerce requires that when the circumstances and conditions will fairly admit of it the charges to all points for a like service should be made **relatively equal**.
3. When the reasonableness of rates is in question the charges made on long **through lines** cannot, for reasons stated in the opinion, form a just basis for comparison with **local rates** for relatively short distances.
4. A carrier is not made responsible for **rates made by a connecting road** because merely of its giving them in connection with its own rates to parties desiring to make through shipments.
5. A carrier is not compellable by law to give to the merchants of a town on its line the **privilege** of shipping their goods from the point of purchase to their own locality and again from thence to the place at which the goods may be sold by them at the same rate which would have been charged had there been but one shipment from the point of purchase to the point of ultimate delivery.
6. The fact that a refusal to give the through rate as for one shipment operates prejudicially to the town desiring the privilege and favorably to another town does **not** make the refusal operate as **unjust discrimination** when the carrier applies the same rule to all towns and accords the privilege to none.
7. **Discrimination** must consist in the doing for or allowing to one party or place what is denied to another; it cannot be predicated of action which in itself is impartial.

(Heard Nov. 14-15, 1887—Decided Feb. 15, 1888.)

COMPLAINT charging unjust rates and discrimination against Danville, Va.

REPORT AND OPINION OF THE COMMISSION.

Cooley, Chairman:

The original petition in this cause was framed with great care and precision, and in nine distinct paragraphs set forth separate grounds of complaint, which were averred to constitute violations by defendant of the Act to Regulate Commerce. For the purposes of an adjudication the following summary of the allegations will suffice:

After appropriate prefatory statement it was alleged:

First. That the defendant, through combination and arrangements with connecting lines of railroad north and west, has charged and continues to charge the people, merchants and tradesmen of Danville, Va., and adjacent country a greater price for the handling and transportation of their goods and merchandise purchased in New York, Philadelphia, Baltimore, Chicago, Cincinnati, Mansfield, Ohio; Grand Rapids, Mich.; St. Louis, Mo., and other places than the said railroad charges other persons

and localities under like conditions and for similar services;

Second. That the defendant for some time past has discriminated and continues to discriminate in its transportation and freight charges in favor of other persons and localities and against Danville and its people, merchants, tradesmen, and others. To instance: the said railroad has arranged its freight charges from Charlottesville, Richmond, and Lynchburg to Reidsville, Greensboro', Durham, Salisbury, High Point, Asheville, and Charlotte, N. C., points south of Danville, that far higher relative rates are charged to the people of Danville and country adjacent than are charged by said road to the people at the points which are referred to or named;

Third. That the defendant discriminates against Danville, its merchants and people adjacent, in its freight charges by applying or attaching to goods or merchandise received from other lines of road for Danville local rates or charges from the point of reception to point of delivery at Danville, notwithstanding it receives from said other lines of road goods of similar character for and carries to such other points at lower and through rates at the same time and by the same haul;

Fourth. That the defendant discriminates against the people of Danville and vicinity by denying to them a lower or approximate "through rate" upon the transportation of their goods which it accords to other persons and points south, say from Richmond to Durham, Salisbury, High Point, Asheville, and Charlotte, N. C.;

Fifth. That the defendant violates the long and short haul clause of the fourth section of the Act to Regulate Commerce by charging more for the transportation of meat, grain, etc., from Danville to points south thereof on its line than it charges from Richmond, Lynchburg, and Charlottesville for the transportation of the like property;

Sixth. That the defendant discriminates against Danville and its people and the vicinity in its charges for the transportation of iron and coal, and particularly in favor of Lynchburg;

Eighth. That the defendant charges to the manufacturers and others at Danville and others dealing with them exorbitant and unreasonable charges for the transportation of tobacco. For example, tobacco is shipped from Richmond to San Francisco, Cal., for from \$1.50 to \$1.61 per cwt.; but the charge for the same from Danville via Richmond by and under the auspices of said road to San Francisco is \$3 per cwt. Charges for the transportation of tobacco from Danville to points in Florida and other States are similarly high and unreasonable;

Ninth. That defendant exacts from the merchants and traders and people of Danville and vicinity unreasonable rates for transportation of property. For example, the charge on first class freight from New York to Lynchburg, 425 miles, is sixty cents per cwt., while from Lynchburg to Danville, sixty-six miles, it is thirty three cents per cwt.;

These several wrongs were charged to be in violation of the second, third and fourth sections of the Act to Regulate Commerce.

railroad ties. There have existed some other apparent irregularities which have presented themselves to complainant's mind as matters of grievance, arising in part from the fact that special rates were given him prior to the enactment of the Act to Regulate Commerce, in part from a misunderstanding about prepayment of freight, and in part from the fact that after the Act became operative the agents of the railroad company at points of shipment failed to conform to the instructions furnished them in respect to ascertaining actual weights, but at times allowed complainant to load cars very heavily, paying only the price of twelve tons, in respect both to lumber and ties. This irregularity was first corrected as to ties, while allowed to continue for a time in regard to lumber. The defendant's rule in this respect has not been consistently enforced, but the reasonableness of the rule, involving the propriety of charging for actual weight in all cases, is not seriously contested.

The results of the tariff now enforced by defendant from Corydon are as follows;

	To Salamanca.	To Olean.	To Rochester.
Lumber, special, per ton	\$0 60	\$0 60	\$1 10
Sixth class	1 00	1 00	2 30
Fifth class (ties)	1 20	2 00	2 70
Oak ties (each)	13	20	27
Oak ties at lumber rates would be, each	06½	06	11

A switching charge of \$1.18 per car is made at Salamanca upon all cars delivered to the Erie Road by defendant. Oak ties weigh about 200 pounds each.

The special rates made by defendant on lumber, as shown by its tariffs on file in the office of the Commission, include rough timber, boards, staves, headlugs, hoop poles, hoops, shooks, hemlock bark, lath, shingles, cordwood and piling.

Prior to the adoption of the official classification No. 2, July, 1887, the special rate upon lumber was treated by railroad companies as including ties. So far as the proof before us shows this was general, except in the case of this defendant—which, as above stated, about February, 1886, refused to treat ties as included in the special lumber class and exacted regular sixth class rates, afterwards raised to fifth class; the reason given by the general superintendent therefor being that he "didn't want the ties to go off from the road."

Upon these facts the case presents two questions:

First. Is the distinction in the "official classification No. 2" just and reasonable, by which railroad ties are placed in class five and other lumber in class six?

Second. Is it just and reasonable that defendant should give a low special rate upon coarse lumber in other forms, excluding ties?

No suggestion was made upon the hearing of any sound reason by which the raising of ties to the fifth class in the new classification can be justified. Defendant's general freight agent endeavored to make out a case of greater cost by saying that "tie shipments are less in quantity and require switching for single cars; whereas, in the case of lumber we switch a large number of cars together." This statement is not at all convincing, in view of the

fact that defendant has from six to seven thousand ties now awaiting shipment, and in August last had from forty to fifty men engaged in their manufacture. Lumber shipments from a mountain siding are not often made by the train load, and no special reason appears in the evidence why tie shipments are not likely to be as large per day as lumber shipments. Ties are purchased by railroad companies who use them in large quantities. They are shipped by manufacturers, who in that way use up material not adapted to the manufacture of lumber; the product must quite nearly approximate the lumber product from oak timber, taking the growth, small and large. Complainant testifies that his tie product considerably exceeds his lumber product on the same acreage.

Defendant's general freight agent further said that he "could think of nothing else that would make any difference in the cost of hauling a given number of cars of ties as compared with an equal number of cars of lumber." The distinction cannot be sustained on the ground of greater cost of movement, for no such greater cost is established.

An examination of said official classification No. 2 shows that other coarse products of the forest are placed in class six, viz.: boards, timber, box stuff, hoop poles, lath, logs, piles, shingles, staves, telegraph poles, wood pulp and empty boxes. Railroad ties from oak timber, which cost for sawing or hewing about twenty-five cents each, or \$2.50 per ton, are no more expensive to manufacture than the above articles; there is no special risk attending their transportation; their value is less per ton than that of most of the articles above enumerated; they naturally arrange themselves with the articles placed in class six.

On the contrary, class five, as now constituted in the official classification, contains a line of articles which do not at all correspond with railroad ties in the characteristics which influence classification. The following list enumerates the various articles manufactured from wood, found in class five, in car loads: axles, balusters, stair rails and other turned work, barrel covers, patent fruit barrels, base ball bats, brush blocks, butcher's blocks, ironing boards, ox bows, telegraph brackets in bags or boxed, bread boards in boxes or crates, bridge material, broom handles, buckets nested, bungs or plugs, butter ladles, molds and plates, churns, cigar boxes, lumber, curtain rollers and slats, dye woods in boxes or barrels, excelsior in bales, wooden fence in sections, blind frames, chair stuff, table leaves, legs, etc., boxed or racked, wooden gates, horse pokes, step ladders, last blocks, measures, moldings, oars, palls, paneling and wainscoting, plane bodies, potato mashers, pumps and tubing, towel racks, rolling pins, scale boards, flour scoops, bench screws, sieves, steak pounders, stove boards, cigar lighters, croquet sets, shoe pegs, sash, skewers, farm wagons, bob sleds, hubs, neck yokes, wagon materials, wagon wheels, wheelbarrows, Indian clubs, tubs, tooth picks. It requires no argument to prove that the placing of railroad ties in the same category with these articles is neither reasonable nor just. The mere fact that it is

the grounds of accusation on the part of the City of Danville was brought out and explained by leading citizens and traders. It is undeniable that the subject presented by the issues is one of very great importance to the people of Danville, and that many of them are firm in the belief that the defendant has been and still is guilty of serious violations of law. If they are not mistaken in this, and it is our power to bring the infraction of law to an end, we ought unquestionably to exert all our authority for the purpose. Danville is one of the leading towns on the lines of defendant's road; and if the fact is as the complainants aver, that the defendant discriminates to its prejudice in making its tariff sheets, the wrong is not only necessarily damaging, but it must be altogether inexcusable. Indeed, the defendant does not attempt to excuse discrimination, but denies its existence; and in so far as we shall find it to exist, it will stand undefended. If, however, what may seem to be discrimination shall prove to be unfavorable results from general causes not under defendant's control, the same proof that exonerates the defendant from responsibility will preclude the Commission from any attempt to give relief in this proceeding. This is too obvious to need more than bare mention; any adjudication against the defendant must necessarily be grounded on a finding of issues involving violation of law against it.

From the voluminous evidence taken in the case it appears that previous to the passage of the Act to Regulate Commerce there were several points on the line of defendant's roads which were recognized as points at which the competitive forces operated more strongly and persistently than they did at the intermediate stations, and to which for that reason more favorable rates were given than to such intermediate points, although the doing so resulted in the making of the greater charge on the shorter haul in many cases. One of the favored points was Richmond; others were Lynchburg, Charlottesville, Danville, Va., Columbia, S. C., Augusta and Atlanta, Ga. A diagram of the rates to the several stations on defendant's line, as they then were resembles to the eye the blade of a saw, the rates being higher at intermediate stations and descending sharply at the points named. There were also some points off the line of defendant's roads which were in like manner favored by the combination of rates which other carriers made with the defendant. In this respect the condition of things which existed on defendant's lines was the same which prevailed generally throughout the Southern States. At all points of great concentration of business the rates were very much lower than were given to intermediate and less important stations. They were given better rates because they were recognized as competitive points; and to speak of a town as a competitive point was to the common understanding equivalent to saying that it was a point to which exceptionally low rates of transportation were given by the railroad managers.

This condition of things as regards rates was of great importance to the towns favored, and tended to emphasize the advantages each of

them might otherwise have had over all the towns between it and the next competitive point to the north or south of it. It was, therefore, favorable to Danville, and resulted in its people paying lesser rates on longer hauls than were paid by people at noncompetitive points for shorter hauls of the like property over the same line and in the same direction. A strict enforcement of the fourth section of the Act to Regulate Commerce would have taken away, or at least have greatly modified, these advantages; and when defendant and other carriers applied for relief from its strict application many of the favored towns came forward with petitions that its request be granted. The complainants in this case, however, were not among the petitioners. On the contrary, they appeared with a protest, and in a printed argument filed with the Commission contended "That the operation of the fourth section of the Act for the Regulation of Commerce should not be suspended or practically nullified, but that the same should be executed with that force and vigor intended by the Congress which passed it. The clamor for its suspension comes mainly from railroad corporations whose grasping propensities and inexorable demands it was the intention of Congress to curb in the interest of the people, or from competitive points long separated from each other, which prosper upon the hardships inflicted by their allies, the railroads, upon intermediate points not favored by a competitive system." This was a very frank expression of opinion, and no doubt represented the honest and matured convictions of those who signed it.

After the orders which were made for relief under the fourth section of the Act had expired the defendant entered upon an extensive revision of its tariff sheets in the direction of bringing them more nearly into conformity with the general rule prescribed by that section, and with the result that there is not now any point on the line of defendant's roads north of Columbia, S. C., to which a consignment at the established rates would result in a greater charge being made for the shorter haul of the like kinds of property on the same line and in the same direction. This result has been brought about principally by a gradual reduction of the rates at noncompetitive points; and, although some increase in rates has been made at some of the competitive points, the increase has not been general, nor in any case which has been brought to our attention has it been very great. The charges, however, being in the direction of equalizing railroad advantages as between competitive and noncompetitive points, must necessarily to some extent prejudice the jobbing interests of towns situated as Danville has been, not only because they render it possible for rival establishments to spring up and maintain themselves in the smaller towns, but because the retailers in the smaller towns, under the favorable rates which are now given them, are enabled to deal directly in larger and more distant markets. Nobody can justly complain of a railroad company for so equalizing its rates as to render this possible; for the law had such an equalization of rates as one of its leading purposes, and provided for it because

justice as between the competitive and non-competitive points seemed, in the opinion of the Legislature, to require it.

It is evident from the testimony given by some of the witnesses that the equalization of rates by the defendant as between Danville and the smaller towns on each side of it has, in the minds of some parties, been regarded as a grievance. Thus the witness, John W. Caton, in answer to the question, "Is Danville regarded and held by the Richmond & Danville Railroad Company as a competitive point for traffic?" said, "It is not. I was informed by the general freight agent, in the presence of another high official of the road, that Danville was not a competitive point, and could not be so held by the road, and that they could not change their local freight rate as applied to Danville, for if the change was made in regard to Danville, Reidsville and Greensboro, although noncompetitive points, would be demanding the same thing; that Danville could not have through rates. These things were told me by the officials of the road when I was demanding better rates for myself and my town."

Now, to anyone who has given the Act to Regulate Commerce much attention it must be obvious that a complaint against a carrier that it gives to noncompetitive points the same rates which it gives to competitive is not a complaint that the Act is violated. On the contrary, the spirit and purpose of the Act require that when the circumstances and conditions will fairly admit of it the charges to all points for a like service should be made relatively equal. If, therefore, this defendant were to so arrange its tariffs as to give the least important station on its line rates as favorable as it allowed to the most important there would in its doing so be nothing out of harmony with the Law. The result might for a time be prejudicial to competitive points, but the carrier cannot be blamed for a consequence which the Law favors; and there can be no doubt that the Law favors Reidsville and Goldsboro' having rates as low as are given to Danville or to Richmond when the circumstances and conditions are such as to render it practicable. There is nothing, therefore, in the giving of such rates which the law will discountenance, much less punish.

But, passing from this general charge to some specific case in which the rates which were exacted by defendant are named, we find it to be an undoubted fact that charges have been made which cannot be justified:

First. There is evidence that defendant in two instances at least charged ninety-seven cents per cwt. for the transportation of cotton baled goods from Piedmont, S. C., to Danville, when the established rate from Piedmont to Richmond, 141 miles further, was but fifty-four cents. Investigation shows that these charges were not warranted by the tariff then in force, which was forty-eight cents per cwt. to Danville instead of ninety-seven cents. This is admitted by defendant, and the overcharge is claimed to have been the error of an agent. Whether the error was intentional or unintentional, the parties who paid the charge are entitled to have the overcharge refunded. It is stated on behalf of defendant that this

ENTER 8.

refunding has already taken place. Evidence has not been placed on file not find that to be the fact. On the other hand, it is to be said that the parties to be reimbursed have not applied for a commission for the purpose, and were informed that any order on their part would be acceptable. The proof of this comes into the case as evidence of the course of dealing, and not as a basis for a specific money claim; and there is no occasion to speak of it further. There is also evidence that in the case of the defendant on a number of occasions of melons by the car load from Greensboro, C., and other points to Danville received from consignees a sum of money which was then the current rates for transportation of like freight from Greensboro to such other points to Richmond as the distance. In respect to these cases, which were made after this process had begun, it appears that the defendant rates which were in force when the charges were made do not admit of any high freight made on a consignment of property to Danville from any point on the defendant's road south thereof than is made on a consignment of like property to Richmond. This is wrong, therefore, in so far as it makes the greater charge for the transportation, has been remedied for in other cases, and of this case, as of the last, it is that as the parties by whom the charges were paid are not now for the refunding of moneys wrongfully taken, this notice of the evidence in this case as it stands seems to call for

Similar remarks may be made in the case of a consignment of cattle from New to a purchaser at Danville, upon which a charge of \$14 per car is shown to have been made in excess of what was then the rate from Newport, through Danville, also regarding a charge on a consignment of cotton batting from Atlanta to Danville, which fifty-eight cents per hundred was charged in excess of the rate for transportation to Richmond. Neither of these actions is explained by the defendant, whether they could be justified by the making payment of the sums of money here demanding a refunding were not taken now to say. The transactions proved in support of the allegations do not violate the long and short of the Act, and they prove that factually. The proof shows, however, that time defendant's tariffs have been raised and at this time they will war between the points named and Danville is higher than the regular rate for property to Richmond. The charges, therefore, in so far as it was concerned, thus been brought to an end.

These, however, and one or two other actions of a like character are named as compared to the charge of defendant against Danville, supposed to be rates charged on shipments of heavy goods, particularly grain, flour, meat, produced at Danville from western and western points, and of tobacco from

rection. The discrimination is supposed to favor, particularly, Richmond and Lynchburg, which places are said to receive such advantages under defendant's established rates that competition with their merchants and traders on the part of the dealers in like goods at Danville is no longer possible on equal terms at any points on defendant's road in the vicinity of Danville or south of it.

The evidence which was given on this branch of the case comes from reputable business men of Danville, who show very clearly that in respect to the western and northwestern trade Danville is at great disadvantage in the competition. The reason is obvious: Richmond and Lynchburg receive consignments of grain, flour, provisions, etc., from Chicago, St. Louis, Louisville, Grand Rapids, and other western and northwestern towns on through bills of lading and over long through lines which accept for the transportation rates very much below the local rates on connecting roads. Consignments of like property for Danville will be delivered to defendant's road at Richmond, Lynchburg, or some other junction point to which the charge will be the same as to Richmond, and from the junction point to Danville will be charged local rates which, in proportion to distance, are very much greater than those charged on the through line. The Richmond & Lynchburg dealer therefore acquires his stock at a less cost than does the dealer at Danville, and is able to undersell the latter almost at his own doors. How great is the difference will appear when it is stated that the former pays twenty-two cents per cwt. on grain from Chicago, while the latter pays thirty-four cents, and the difference in the charges on flour, meats and other provisions are in like proportion. This is unquestionably a great hardship to the Danville dealer, who must not only pay more freight moneys than his competitor would pay on a like consignment, but more in proportion to the distance the property is transported.

What is true as to consignments from the west and northwest is equally true of those which are made for transportation in the other direction. The defendant exacts local rates from the local dealer to or from the points of junction with the through lines, and these are proportionately so much greater than the rates charged on the through lines that it is not surprising that one who compares them without making inquiry into the circumstances under which the charges respectively are made, is inclined to pronounce the charges of defendant unfair and excessive, as some of the witnesses did in the evidence taken by deposition. Thus, Samuel P. Wimbish, in answer to an inquiry whether the defendant charged to the people of Danville more than was reasonable and just for the transportation of property, said: "Yes; I should say so. If the charges made by said road to the people at other points for the transportation of their goods is any criterion to go by, I should say that the charges were unreasonable and unjust. The said road charges far more relatively for the transportation of goods from Danville to Lynchburg, only sixty-five miles, than other roads and the said Richmond & Danville together charge for transporting goods

of the same kind four or five times the distance to Richmond and Lynchburg under similar circumstances and frequently by the same haul."

Like evidence was given by other witnesses. Thus, Geo. W. Yarbrough, answering a similar inquiry, said: "I think it has. If the said road and its connections can bring grain from Chicago to Lynchburg, a distance of 800 or 900 miles, for twenty-two cents per hundred pounds it is certainly unreasonable and unjust to charge Danville, only sixty-five miles further, thirty-four cents per hundred pounds for the same service." And John W. Carter said: "I do not think the charges have been reasonable and just. By the rates shown it appears that the charges made by the Richmond & Danville road are much higher for the same service than are made by other roads. For example the charges made on meat, lard, grain, flour, etc., are very much higher relatively from Lynchburg and Richmond to Danville than from Chicago, St. Louis, and other places to Lynchburg and Richmond. In fact the rate of charges is from four to ten times greater, considering distance and other circumstances." Much other testimony was given to the same effect.

In all this testimony two assumptions appear to be made, which would be of greater importance in this case if they should be found warranted by the facts. The first is that defendant may be held responsible for the rates made on connecting lines when through rates are named to consignors over such lines in connection with its own; and the second is that rates made on long through lines may form a just basis of comparison with defendant's rates when the reasonableness of the latter is in question. Both these propositions are denied by the defendant. It is very evident from the testimony that the hardships of which the witnesses complain arise chiefly from the very great disparity between the through and local rates; and if defendant is responsible in whole or in part for both, there may be just ground of complaint against it. That it is responsible for the local rates is unquestionable, for it makes those without the concurrence or interference of any other carrier—at least so far as any evidence before us shows. Perhaps it is not unnatural that a customer of the road who did not inquire into the facts should suppose the defendant to be in some measure responsible for the through rates also, especially if he found that defendant issued through bills over its own and other lines, named the through rates to those who asked for them, and received payment of freight moneys for the whole distance, exactly as it would if the whole amount were its own.

All these things may happen and still the defendant not be responsible for the making of any rate off its own line. In most respects carriers by railroad may act independently, provided they afford to each other all reasonable facilities for the interchange of traffic. It is for this reason that railroad controversies and questions of rates are attended by so many special embarrassments; they cannot be adjusted as they might be if all roads belonged to one system and were under a single control. If that were the case, the rates might be

for the use of the coke trade, but, as already stated, these are cars which can be used either for the coal or coke trade.

The Pittsburgh & Lake Erie Railroad Company produced in evidence all its billing books and car moving records during the period to which the controversy relates. Its president, superintendent, general manager, freight agent and master of trains were each examined as witnesses at length, answering, so far as we could see, fully and unreservedly all the questions propounded to them; and each testified that, in the shipment of freights and distribution of cars, he had given no preference and knew of none that had been given by the company or any of its agents to any shipper over any other shipper concerning any of the matters involved in this complaint, and there was no evidence that contradicted them in these respects.

The conclusions we have reached upon this evidence and the reasons therefore only remain to be stated:

1. The first ground of complaint is that the Pittsburgh & Lake Erie Railroad Company during the period commencing September 28, 1887, and ending October 12 of the same year, violated section 3 of the Act to Regulate Commerce, approved February 4, 1887, by giving an unlawful preference to other coal mines situated along that portion of its line known as the Pittsburgh, McKeesport & Youghiogheny Railroad in not having furnished their proportion of cars daily to the Rainbow Coal Company and the Lake Shore Gas Coal Company for shipments of coal to Buffalo, in the State of New York.

By what construction the evidence in this proceeding could be held to sustain this charge we are unable to perceive. The Pittsburgh & Lake Erie Railroad is a local, interior road, with its termini at New Haven, in the State of Pennsylvania, and Youngstown, in the State of Ohio; and it does not extend to Buffalo. The Pittsburgh & Lake Erie Railroad Company was not then permitting any of its coal cars to go to Buffalo for reasons which were sufficient, and in no way in conflict with either the spirit or letter of any of the provisions of the Act to Regulate Commerce. These reasons were that, on account of causes for which it was in no sense responsible and for which it could in no way be justly blamed, it then had more work that it could possibly do in transporting freights over its own line; and if it had permitted its coal cars to go to Buffalo with coal for these two mines it would have resulted in these cars being absent from its line for certainly one week and more probably ten days or two weeks, according to the evidence; and it would have thereby rendered itself less able to serve all the business over its line. If complainants had a right to insist that this Company should send its cars at such a time with coal to Buffalo, then every other coal mine on its line had the same right, and this would have stripped this railroad of its equipment, leaving the other business along its line to go to ruin, but none of them had any such right. The Company had its legal duty to perform. Its first and most paramount legal duty to the shipping public was to make its entire freight equipment do its utmost in serving the ship-

pers along its own line. For this purpose, amongst others, it had been chartered by the States of Pennsylvania and Ohio; and for this purpose, chiefly, it had been constructed by those who had furnished their means in subscribing to its stock. If between the 28th of September, 1887, and the 12th of November following, when, as shown by the evidence, this railroad company was unable by its utmost efforts with all of its freight equipment added to that of the freight cars supplied to it by its connecting lines, to move promptly more than one half of the freights as fast as they accumulated along its line, it had furnished coal cars to the mines of the Rainbow and Lake Shore Gas Coal Companies to ship coal to Buffalo in order that they might obtain a better price for it than other shippers along its line were receiving at Cleveland and Ashtabula, and this, too, when it was refusing cars to all other shippers of coal to Buffalo, thus giving to complainants this exceptional advantage, it is quite possible that it would have been guilty of a violation both of the letter and spirit of section 3 of the Act to Regulate Commerce. Under such circumstances the legal duty of this Railroad Company was, as the evidence shows it did, to operate its cars so as to keep them as much as possible on its line, and confined to the business of its line. If, in that crisis it could not furnish sufficient cars to all the shippers along its line for the amount of their freight, then it was its duty to have done what is shown by the evidence it did; and this was to fairly endeavor to furnish its cars to shippers of coal in proportion to their shipments over its line, upon a basis that was relatively and substantially just.

While these shippers all complained, as was to be expected from men whose business was no doubt suffering, that they did not have as many cars as they needed to ship their coal and coke as fast as they were ready to ship it, yet it is but fair to presume that as intelligent men they were generally sufficiently cognizant of the fact to know that this railroad company was not to blame for the excessive volume of freights that had been held back during the summer and early fall on account of the high rates of vessels on the lakes, and then at the last moment had been rushed in upon it to be transported over its line. This Railroad Company did not own any of those vessels or have any control over them; and, as for that matter, the evidence does not show that any of those vessels were owned or controlled by any of its connecting lines. Neither this Company, therefore, nor any of these railroad companies, are shown by the evidence to have been interested in or responsible for the high rates charged by these vessels. In the light of the evidence, it is also but fair to presume that these shippers knew the unprecedented volume of freights that the Company was obliged to transport to the mills and furnaces at Pittsburgh, Bessemer, and other points along its line, coming by way of Youngstown from Cleveland and Ashtabula. These shippers must have known, and so did the Company, that at the utmost this crisis would end when navigation closed on the lakes, about the 20th of November, and that then there would be plenty of cars for all. The Lake Shore & Michigan Southern Rail-

the overcharge in quotation of rates in this instance occurred from ignorance or from carelessness or was an attempt at extortion is not now material; no shipment was shown to have been made under it, and it is not probable the error will occur again.

We have still to consider whether the rates charged on defendant's road are shown, by comparison made with rates on other lines, to be excessive and unreasonable. In the main the comparison has been made by the witnesses with rates on through lines over which the great bulk of the traffic in grain, flour, dressed and canned meats, and provisions passes from interior points to the seaboard. The difference between the rates charged for transportation over those lines and the rates made by the defendant is so very great that some of the witnesses in testifying have not hesitated to declare that defendant's charges were thereby proved to be excessive. The logic which brings the mind to this conclusion is that other roads would not accept the low rates unless they were justifiable, and, if profitable to them, rates made by defendant which are several times as high must necessarily be exorbitant. This logic, unfortunately, though at first blush it seems reasonable, does not always stand the test of examination.

It is a well known fact in transportation that the cost of carriage depends very largely upon the volume of business, the cost of carrying five tons being very much greater in proportion than the cost of carrying a thousand tons over the same line. That carrier, therefore, can give the best rates whose business is the largest and most steady; and as the through lines between the Mississippi and the seaboard are best situated for a large and steady business they can undoubtedly, as a general fact, give much better rates than the roads which intersect them; but it is equally well known that the proportionate cost is diminished with the increase of distance, and as the through lines carry the traffic mentioned a very long distance before delivering to defendant the proportion which is to go over its road they are, for this additional reason, enabled to make exceptionally low rates. These two facts are quite sufficient to render any comparison between the rates charged by the leading through lines and those made by the defendant of little or no value. The circumstances and conditions under which the traffic is carried by the through and the intersecting roads, respectively, are too great and too diverse to admit of useful comparison.

But another fact of importance is also to be borne in mind in the same connection. However reasonable may be the inference that long through lines will not accept rates that leave no margin for profit on the business, it is matter of public history that some of the through lines whose business has been very large have not been profitable to stockholders. Some of them have been quite the reverse of profitable, and after having been for some time in the hands of receivers have been sold under mortgage or reorganized on such terms that the original stock was either entirely or partially sacrificed. It cannot be safely affirmed that this has been altogether due to the low rates; but excessive competition and the ac-

ceptance of traffic for transportation at rates which were not fairly remunerative have been sufficiently common to rebut any presumption that carriers invariably refuse to accept business where there would be no profit in it. It has, moreover, been several times proved before the Commission without contradiction that much of the long haul traffic of the country is carried at rates which are little above the actual cost of movement; so that repairs, interest, rents and all fixed charges of the same roads are necessarily borne by their short haul traffic. No case under investigation, when such proof was given, concerned the roads whose low rates are in question here; but whether the like proof could be made in respect to this is not very important now. The fact is notorious, and is abundantly proved by the rate sheets now on file with the Commission, that the disparity between local and through rates is commonly very great; and when such is the case it is obvious that the local rates of one road are not proved to be excessive by testimony which shows only that they are very much above the rates which are charged upon long haul traffic by other roads. The comparison, if made at all, should be with local rates. Even then it would not be very conclusive without an inquiry into the conditions and circumstances of the traffic on the roads whose rates were compared, for freights on some roads, for a diversity of reasons which it is needless to undertake to specify here, can be carried much more cheaply than on others.

We are constrained to say, therefore, that the rates charged by the defendant, and which the petitioners complain of as excessive, are not shown by the proofs to be so. The comparison made with through rates on lines differently circumstanced is likely to be misleading, and is certainly altogether inconclusive. For the reasons given we could not base a judicial conclusion upon it. This leaves the allegation unsupported, for the other evidence on this branch of the case is slight and does not bear directly upon the point in controversy.

The complaint which in the minds of the petitioners and their witnesses seems to be the most serious is stated by them as a complaint of discrimination against Danville in denying to it through rates while according them to others. To understand what the discrimination consists in it is necessary to give some of the testimony. The witness Yarbrough, in answer to the question whether the defendant had denied to Danville the benefits of the through-rate system which has been accorded by it to other points, replied that it had. "I have asked for through rates frequently, and others have done the same in Chicago and elsewhere. I cannot state the time or times when I made such applications. The applications have always been refused."

It is to be observed that the only application here specified was one made at a great distance from defendant's line, and not stated to have been made to any agent of defendant. It is also to be observed that no points are named which are given rates in any way different from that in which are given to Danville. The witness, however, on being asked to state in what the discrimination against Dan-

ville consisted, went on to say: "It consists in according to other points, notably Richmond and Lynchburg, in the rehandling of provisions spoken of, a better rate and facilities than it accords to Danville for the same services." And he proceeds with specification as follows: "Provisions shipped from points north of the Ohio River and reshipped at Lynchburg and Richmond are carried through to points in North and South Carolina at rates considerably lower than if the same goods were shipped to Danville and reshipped from Danville to the same points South."

The witness, Samuel P. Wimbish, in answer to the question whether defendant, since the fifth of April last, had discriminated in matter of freight rates to Danville and other points and against Danville and its people, said: "To the best of my knowledge and belief it has. For example, defendant, before the fifth of April and since, had its freight charges so arranged as that said charges from Richmond and Lynchburg to Greensboro,' Charlotte, and other points were and are now far lower, relatively speaking, than between any of said towns and Danville."

Witnesses John W. Caton and B. S. Crews give similar evidence, and it seems to stand in contradistinction to that of the officers of the road, who testify positively that no advantage in rates is accorded to either Richmond or Lynchburg, and that the same charges in proportion to distance are made from them as from Danville to other towns on defendant's line. The supposed discrimination is, however, explained by tabulated statements which the witness, in support of the petition, files and from which we may see exactly what the discrimination consists in.

These tabulated statements show what the charges are which are made by defendant upon consignments of grain and of meats from Richmond and Danville, respectively, to other towns on defendant's line, and also the charges made from Richmond to Danville, the purpose being to show that, in competing for the trade of local points on defendant's road, Danville is placed at a disadvantage. The statement, so far as it relates to charges for the transportation of grain is here given.

From Richmond to Reidsville, N. C., 164 miles, charge eighteen cents per cwt.; from Richmond to Danville, 140 miles, fifteen cents; thence to Reidsville, twenty-four miles, eight cents; total, twenty-three cents.

From Richmond to Greensboro,' 218 miles, twenty cents; from Danville to Greensboro,' forty-nine miles, ten cents; added to rate to Danville, twenty-five cents.

From Richmond to Durham, 280 miles, twenty-one cents; from Danville to Durham, eighty miles, fifteen cents; added to rate to Danville, thirty cents.

From Richmond to Charlotte, 281 miles, twenty-one cents; from Danville to Charlotte, 141 miles, fifteen cents; added to rate to Danville, thirty cents.

From Richmond to Asheville, 360 miles, twenty-eight cents; from Danville to Asheville, 220 miles, twenty-seven cents; added to rate to Danville, forty-two cents.

From Richmond to Salisbury, 230 miles, twenty-one cents; from Danville to Salisbury, INTER S.

ninety miles, fifteen cents; added to rate to Danville, thirty cents.

From Richmond to High Point twenty-one cents; from Danville to High Point, seventy-eight miles, nine cents; added to rate to Danville, thirty-six cents.

The showing in respect to meats is similar. The showing in respect to meats is similar, and another statement of shipper from Chicago or other western point to Danville, respectively, where reshipments were made to the city named, result in like discrepancies. The discrimination the petitioners complain of is that defendant's rates are so made that the Danville merchant cannot deliver his goods to Reidsville, Greensboro,' and other points named at which he may sell them at as low a rate of transportation as low as are accorded to other points.

The most casual inspection of the rates, however, will make plain that the difference in rates which is shown in favor of Richmond results from the fact that from Richmond the property may be taken directly to the several points named, while the Danville shipments are from Richmond to Danville and then to the ultimate destination. The difference in rate is, therefore, a difference in rate for one transportation covering the entire distance and that for two transshipments which aggregate the same distance. The petitioners think that upon such goods as are shipped from Richmond, as they sell at Reidsville, Greensboro,' and other points named, they should be charged the same rate as if they were shipped directly to the same points. The petitioners claim that when the consignment is made directly from Richmond to the same point, the rate is lower than when the Danville shipments are made directly from Richmond to the same point, but declines to allow it where the consignment is first to Danville and then to the ultimate destination. It is the denial of the right of having the two shipments which constitute the discrimination which constitutes the discrimination complained of.

The concession here claimed by defendant is an attempt to compel the petitioners to establish the system of some parts of the country is known as "a favor in transit"—a favor in transit most often, perhaps, allowed to the producers of flour, but which is known to the industries also. In proceedings before the commission where this system has been spoken of it has been said to be its origin in the desire of carriers to receive wheat for delivery to millers in order to control the transportation of a manufactured article and keep it from the hands of competitors. It is no doubt the sole reason for the practice mentioned it only as one that has been. The control of the carriage would be given by the consignor of wheat to the miller at the rate of reception at which he expected to market his flour with the privilege of converting it to flour at an intermediate point. The grant of such a privilege to the carrier would be shown by a supposed case. It is assumed that the rate on wheat from New York is twenty-five cents per

pounds and from Chicago to Rochester eighteen cents, while from Rochester to New York on flour it is fifteen cents. If, now, the Rochester miller purchases his wheat and sends it forward on the through rate with the privilege of milling it in transit, it is evident he will have saved when it has reached New York as flour eight cents per hundred pounds; and this very large saving would give him a great advantage over millers not having a like privilege.

It is obvious, however, that the giving of this privilege under the circumstances suggested would be equivalent to a concession in rates on the part of the railroad company, since the cost of the carrier of the two shipments, first of the wheat to Rochester and then of the flour to New York, would necessarily be somewhat greater than the cost of a single shipment of a like quantity from Chicago to New York direct without unloading on the way. It is hardly to be supposed, therefore, that a railroad company will voluntarily grant such a privilege unless some compensating advantage to itself will flow from it or unless the law compels it.

When the question of granting such a privilege is under consideration a railroad company will naturally consider, not the advantages merely, but what the disadvantages to itself are or may be, and some of these have also been suggested when the subject has been referred to on our hearings. The third section of the Act to Regulate Commerce makes it unlawful for any carrier subject to its provisions to give any undue or unreasonable preference or advantage to any particular locality. The question may be raised under this section whether it would not be unlawful for a carrier to give the privilege of milling in transit to one town on its line and deny it to others; but a railroad company might have an interest in granting the privilege to a town which was a common point for other roads and no such interest in granting it elsewhere; and the mere fact that a plausible question might be raised as to the right to grant it to one point only might be thought a sufficient reason for denying it altogether.

A question may also be raised—and, indeed, we are informed, has been raised in another part of the country—under the second section, which prohibits and renders unlawful any discrimination in rates as between persons. In the supposed case the miller, under the fiction of a continuous shipment of wheat from Chicago to New York, would in reality pay a proportion of the through rate as for a shipment to New York of flour from Rochester; but unless this proportion was less than the current rate on flour from Rochester to New York the privilege would be of doubtful value; and the fact that it is less constitutes the inducement to the miller for seeking the privilege. If, therefore, while one miller procures his stock in Chicago, his neighbor in the same business, and who expects to sell in the same market, purchases his wheat in the local market, the latter finds himself, when he sends forward his flour, placed at a disadvantage in rates, and he is not unlikely to raise the question whether it is lawful to make a charge for the

transportation of his flour which is greater than what would be the just proportion from Rochester to New York of the shipment made by the other from Chicago. The shipments of flour in the two cases would begin at the same place, the service as to each would be the same, and so also would be the cost of carriage.

We mention these as being questions which are frequently suggested, and which, therefore, a carrier is apprised may possibly be raised in case such a privilege is conceded. We do not say they are serious or difficult questions; they have not been discussed before the Commission; they have never in any form been presented for decision, and we shall, of course, refrain entirely from expressing any opinion upon them; but the fact that such questions may be raised must naturally have its influence with the carrier when the question of granting the privilege is under consideration. He will be apprised that the concession may not unlikely be followed by controversies—possibly by litigation.

It is evident that the privilege desired by complainants might raise like questions to those above indicated. Complainants wish to be at liberty to purchase goods at the points of supply, and instead of paying the regular rate for the transportation thence to Danville and the local rates from Danville to the place at which they make sale they ask that the whole shall be treated as one continuous shipment and paid for accordingly. Probably if the privilege were granted, the reshipment would sometimes be made without breaking bulk; but it could hardly be expected that this would occur very generally. The privilege would be in the nature of a concession in rates made to Danville. The officers of defendant decline to grant it, and the question is whether they are violating a legal right in so doing. One reason which they assign for their action is that if they make the concession to Danville they must do the same for Reidsville, Goldsboro', Durham, and all other places on their line that may ask it, or they will be guilty of a violation of the Act to Regulate Commerce; but the concession, if thus made general, would be of little or no advantage to anyone.

It does not become necessary in this case to decide whether if the concession were thus made to one town it must be made to all others, for that question is not before us. The defendant has declined to make the concession to any town, for reasons some of which are above indicated; and the charge is that this amounts to unjust discrimination, because the effect is prejudicial to Danville and favorable to some other localities; but this effect cannot determine the question at issue. There can certainly be no discrimination as against any particular town, in action which is general and applies alike to all towns. Discrimination must consist in the doing for or allowing to one party or place what is denied to another; it cannot be predicated of action which in itself is impartial. This requires no argument; the statement itself is conclusive. A regulation that is general and uniform is the opposite of discrimination. If the result is favorable to some localities and unfavorable to

others we may regret the fact, but we cannot under any authority the law has conferred upon us interpose to change it.

The conclusion is that the Commission cannot adjudge the defendant guilty of unjust discrimination in the particular mentioned. Neither can it find upon the evidence that any advantage which is obtained by Richmond or any other locality by means of low rates given by connecting roads is chargeable as a wrong done by defendant. The naming of a through rate by the defendant to or from any distant point and the receiving of the freight moneys on a consignment do not of themselves charge the defendant with any responsibility in respect to the rates beyond its own line. There is no wrong on its part in giving to its customers information respecting such rates nor in receiving payment for both itself and its connections. On the contrary, it is a great business convenience, and any carrier which should refuse to give through bills when it could do so or to name through rates which are made up by adding its own to the rates made by its connections would be justly liable to very severe censure. Through bills are among the most important and valuable of transportation facilities, and it is not only important that the consignor should know before he forwards the goods what the charges upon them for the whole distance are to be, but it commonly saves him much trouble and avoids mistakes

if he can procure the information of the receiving agent of the receiving line being compelled to apply at a distance. The result, therefore, to keep informed over connecting lines, whether they connect or not, and if through bills when they arrange with its connections not perform its full duty it does so.

The result of our investigation may be summarized very briefly. The defendant has been guilty of charges which the parties are entitled to have refunded if not already taken place. Also, that in the spring and summer defendant made rates which its road to Danville than to Danville, but its tariffs have changed that such greater charges. No application for refunding of moneys paid on question whether there should be before us. The Commission to require the defendant to allege sought for, corresponding in transit," and the evidence that the rates of the defendant and unjust is too inconclusive finding to that effect.

SUPREME COURT OF RHODE ISLAND.

STATE of Rhode Island

v.

William FITZPATRICK.

The provision of R. I. Pub. Stat. chap. 634, of May 4, 1887, § 1, which prohibits any person from keeping any intoxicating liquors "for the purpose of sale," is not, for the reason that it may incidentally interfere with foreign or interstate commerce, obnoxious to the Federal Constitution, art. 1, § 8, which confers upon Congress exclusive power "to regulate commerce with foreign Nations and among the several States."

(Providence—Decided January 7, 1888.)

ON constitutional questions certified to the Supreme Court under R. I. Pub. Stat. chap. 220, §§ 1-9.

The case is stated in the opinion.

Mr. Clarence A. Aldrich, Asst. Atty-Gen., for the state.

Mr. Hugh J. Carroll, for defendant.

Durfee, Ch. J., delivered the opinion of the court:

This case comes before us from the District Court of the Tenth Judicial District, by certificate, on a constitutional question. It is a complaint under Public Laws R. I. chap. 596, of May 27, 1886, and chap. 634, of May 4, 1887, against the defendant, for keeping without lawful authority intoxicating liquors "for the purpose of sale," in violation of chap. 634, § 1, in amendment of chap. 596, INTER 5.

§ 1, charging the offense sui language of the statute. In the defendant made the following:

"The defendant moves that complaint be dismissed, because under § 1 of chapter 634, of utes, which attempts to prohibit for the purpose of sale, of an enumerated in said section, any distinction as to whether within or without this State that he has a right to keep for purpose of sale without the Const. art. 1, § 8."

The district court overruled, and, having found the defendant certified the question involved for decision.

Chap. 634, § 1, so far as it cites it for the purposes of the following, to wit:

"No person shall manufacture or suffer to be manufactured, or suffer to be kept, or possess, or under his charge of sale, any ale, wine, strong or malt or intoxicating which is ale, wine, rum, or malt or intoxicating liquors, after provided."

The corresponding section utes, whether license or prohibition the words "within this State" "for the purpose of sale," keeping illegal only when it

pose of selling the forbidden liquors within the State. The defendant contends that, in consequence of the alteration, the keeping is prohibited if the liquors are kept in the State for the purpose of sale, even though they are intended to be sold out of the State; and that the section is therefore repugnant to the Constitution of the United States, art. 1, § 8, which confers upon Congress a variety of powers, and, among them, power "to regulate commerce with foreign Nations and among the several States."

It will be well to determine the scope and import of the question thus raised, before we proceed to consider and decide it. First, then, when is it that liquors, which are in the possession of a person in this State, are kept by him for the purpose of sale, within the meaning of the statute? They are clearly not so kept when they are kept by him for his own use, without any intention of selling them. Suppose he has the liquors in the State in the act of transporting them through this to another State, for the purpose of selling them in the latter; are they then being kept by him for the purpose of sale, within the meaning of the statute? We think not; for though in a general sense he keeps such liquors for the purpose of sale, it is not the purpose for which he is keeping them in this State,—the purpose for which he keeps them here being not sale, but transportation. If such a person were complained of for illegal keeping, the charge would be that in some particular town he did, without lawful authority, keep the liquors for the purpose of sale, and he could truly reply that he did not keep them in that town for that purpose, and was therefore not guilty. The same construction will hold if intoxicating liquors are kept in this State for storage simply, though they are intended to be ultimately carried elsewhere and sold. But if keeping in either of these ways is not prohibited, then the operation of § 1, in so far as it can interfere with commerce with foreign Nations and among the States, is extremely limited. We do not say, however, that liquors may not be kept in this State for the purpose of sale in other States, in such way that the keeping would violate § 1. For instance: If intoxicating liquors were kept in this State to be sold on orders received or procured in other States, or to customers coming from other States, we think the keeping would be within the prohibition, even though the sales were meant not to be completed in this State. In such a case, the place of keeping would be the headquarters of the traffic, or at least the place from which, if not at which, the sales would be made. Making the sales would be the purpose for which the liquors were kept there, and we think the General Assembly must be held to have intended that no such place should be tolerated in the State. But no other way occurs to us in which liquors not intended for sale in this State can be kept here so that the keeping would be within the prohibition of § 1. The question presented, then, is whether, because such keeping is prohibited, § 1 is in conflict with the Constitution of the United States.

It will be seen that the question, as presented, assumes that the prohibition, if it be unconsti-

tutional as it applies to intoxicating liquor kept in this State for sale elsewhere, is likewise unconstitutional as it applies to such liquors kept in this State for sale within it. This is not clear to us. *State v. Amery*, 12 R. I. 64. Nor are we clear that the question presented can be properly raised by a mere motion to quash. *Mugler v. Kansas*, 123 U. S. 623 [31 L. ed. 205]. But passing these points, which have not been argued at the bar, we proceed to consider the question in the larger way in which it has been discussed.

We deem it perfectly well settled, by the decisions of the Supreme Court of the United States, that the several States have power to restrict and even to prohibit altogether the sale of intoxicating liquors for use as a beverage within their borders, and consequently, of course, to prohibit the keeping of them for sale to the same extent. *Cooley*, Const. Lim. 582, 583, and cases cited; *Mugler v. Kansas*, *supra*. The power to do this has been denominated a police power; a power not delegated to the general government, but remaining to the States, to enable them to regulate for their own welfare, as they understand their welfare, their internal or domestic concerns. The power is signally exercised in legislation designed to promote popular education; to protect the public health and morals; to punish and prevent crime; to alleviate and prevent pauperism; and, especially, to diminish and prevent the demoralization and impoverishment, and the numberless vices and miseries which are the sure concomitants and consequences of a free traffic in intoxicating liquors, by restraining or prohibiting it. The power was exhaustively discussed and considered in the Supreme Court of the United States in the *License Cases*, 46 U. S. 5 How. 504 [12 L. ed. 256], with particular reference to its exercise in legislation for the restraint of the liquor traffic; and while the justices did not fully agree in the reasons given by them for decision, they did agree in fully affirming the authority of the States within their own borders. *Chief Justice* Taney, and *Justices* Catron and Nelson, rested their judgment distinctly on the ground that the power of the States to pass restrictive laws in the matter was complete, notwithstanding the laws might indirectly interfere with interstate commerce, so long as they did not come into conflict with any law or regulation of Congress; and some of the other justices, enough to make a majority of the court, unless we misunderstand their opinions, concurred with them, though they preferred to take their stand upon a still deeper and broader ground of State rights. If this doctrine of *Chief Justice* Taney, and *Justices* Catron and Nelson, be correct, and is still adhered to by the Supreme Court of the United States, the defendant's contention of course cannot prevail, for it is not pretended that there is any federal regulation of interstate commerce with which the provisions under which he is complained of comes into conflict. But not to put too much reliance on this view, we will proceed to the broader consideration of the question:

As we have seen, there can be no doubt of the power of the States (under the decisions of the Supreme Court of the United States) to prohibit altogether the sale of intoxicating liq-

uors within their borders, and yet it is perfectly evident that such a prohibition does obstruct the freedom and lessen the extent of commerce among the States. For example: A manufacturer of intoxicating liquors of another State could not send the product of his manufactory to a prohibitory State and sell it there. He could not even receive orders for his liquors from such a State, and fill them, if a delivery in such State were necessary to a complete compliance with the orders. Nor could a person, living in another State, go into such a State and purchase intoxicating liquors there to carry home with him, though it might be very advantageous for him to do so if he were not prevented by the law. In the *License Cases*, 46 U. S. 5 How. 504 [12 L. ed. 256], a law of New Hampshire, under which a sale in that State of gin imported from Boston was punished, was held not to be void for interfering with the power of Congress to regulate commerce among the States, though the gin was sold in the cask in which it was imported. In the same case, in reply to the argument that the restrictive legislation tended to lessen importation, *Mr. Justice McLean* said that "A law of a State is not rendered unconstitutional by an incidental reduction of importation; and especially not when the State regulation has a salutary tendency on society, and is founded on the highest moral considerations." And he further remarked: "When, in the appropriate exercise of their federal and state powers, contingently and incidentally, their lines of action run into each other, if the state power be necessary to the preservation of the morals or safety of the community, it must be maintained." The doctrine of the justices who took the broader view, if we rightly understand their opinions, was that a state law, passed in good faith for the suppression of intemperance or of the traffic in intoxicating liquors, could not be condemned as unconstitutional because it might incidentally, among its effects, hamper the freedom or lessen the extent of interstate commerce. And see *State v. Peckham*, 3 R. I. 289. The question which we now propose to consider is whether this State has transcended the power thus conceded to it, by the enactment under which the defendant was complained of.

In considering this question we will, in the first place, recur to a matter to which we have already adverted, namely: that the quantity of intoxicating liquors kept in this State solely for the purpose of selling them elsewhere must, from the nature of things, be very small. For what is there to induce any person who has liquors to sell in other States to keep them in this State for that purpose? Some such per-

sons there may have been enacted under the prohibitory law into effect, but that law did keep for the purpose of sale and there was ample time to do so kept before this present law. There might be such persons selling of intoxicating liquors but manufacturing is prohibited. In its practical operation the enactment can have but interstate commerce.

In the second place, we repeat the prohibition is, it is likely to be; for if intoxicating liquors be lawfully kept in the State of sale elsewhere, the fact that they are kept is liable to be availed of as a pretext under which to cover a sale for sale in this State. The State cannot afford a favorable ground for such an evasion or circumvention. Moreover, if the traffic be allowed, it will permit itself to be the starting point of the evil shall proceed into other States, out some loss of the moral principle which it must preserve in its laws that popular homage to out which they cannot be effective. Certainly the State would have to follow its own judgment, and has done in this matter, unless it is croaches unwarrantably upon Congress; and in that regard, it is difficult to see how a law which forbids the sale of intoxicating liquors in one State in another interferes with interstate commerce any more than a law which forbids such liquors in one State, which is imported from another; and yet, a law of the latter description to be a proper exercise of the power of the States by the Supreme Court. And see *Pearson v. Ingersoll* (Iowa), 34 N. W. Rep. 1.

We see no reason for doubt that such a law was passed in perfect good faith for the purpose of carrying the prohibition into effect, or to suppose that, with foreign or interstate commerce, interference is other than a mere defect or consequence. It is our duty to maintain it as constitutional until we are convinced it is unconstitutional. We are of the opinion that the provision of our Prohibition law which the defendant has transgressed, is unconstitutional. We sustain the judgment of the lower court, and send the case back to the lower court for sentence.

Order accordingly.

THE INTERSTATE COMMERCE COMMISSION.

KENTUCKY & INDIANA BRIDGE CO.

LOUISVILLE & NASHVILLE R. R. CO.

(No. 118.)

ABSTRACT of Answer filed February 20, 1888. See Petition *ante*, 708.

Messrs. Lyttleton Cooke and Edward Baxter, for respondent:
LATER S.

Respondent admits that it operates a line of railroad and branches through Southern States, Florida and to New Orleans. It assumes it to be true that the petitioners are as stated in the petition. The petitioner's railway extends from the end of petitioner's bridge at Louisville to respondent's rail-

has a mere physical connection therewith, but denies that it consented to such connection, and states, that when petitioner first applied for permission to make said connection respondent refused to allow the same, but that, upon petitioner taking legal steps to compel respondent to allow said connection, respondent was advised by its counsel that under its charter it could not prevent the connection being made, though, after such physical connection was made by petitioner, respondent could not be compelled to make the necessary contracts for an interchange of traffic between the two companies.

Respondent states that it has four freight yards in or near the City of Louisville; that its third or South Louisville yard has a passenger platform, but no freight handling facilities except to switch in car load lots; that at its fourth or Ninth Street and Broadway yard it receives all cars destined to Louisville proper or to points north of the Ohio River and which are to cross said river at Louisville, and at this yard it receives all freight coming from the north crossing said river at Louisville, as well as all freight originating at Louisville proper, except such as is received and delivered on side tracks under special contract, and said yard is its main freight yard where ample facilities for receiving and delivering freight are provided; that said connection with petitioner's railway is between the third and fourth yards and is about one mile distant from the fourth and two miles distant from the third; that it is true respondent has certain switch engines, which at certain times of the day run between yards Nos. 3 and 4, passing such point of connection; but only in this sense can it be said that said connection is located in respondent's freight yard.

Respondent admits that at said connection cars may be switched from one railway to another, but denies that said connection affords easy and convenient means of interchanging traffic or that such interchange can be made without using respondent's terminal facilities by petitioner or its connections, and states that the mere switching of freight cars from petitioner's to respondent's track, or *vice versa*, is but the inception of the interchange of traffic, as buildings, platforms and other structures, officials and clerks are necessary to such business, and no such facilities are afforded by either petitioner or respondent at said point of connection; and also that neither, petitioner nor respondent has any land at said point upon which depots, platforms, etc., could be constructed, but that at Louisville respondent's facilities are fully adequate, have been provided at great cost, and it is unwilling to incur further expense in that regard. Respondent does not know whether petitioner is or is not a common carrier, but that it is certainly true that petitioner is distinctively known as a Bridge Company, that it has not one single freight car, and though it claims to operate a railway, respondent does not know whether it assumes any obligation for the transportation of freight, or makes charges therefor, other than certain tolls it may charge as a Bridge Company for switching cars across the Ohio River; respondent believes it to be true that petitioner transports passengers wholly by

railroad between the Cities of New Albany and Louisville, but petitioner has never offered any passengers for transportation over its road, and whether petitioner is subject to the Act to Regulate Commerce is a question respectfully referred to the Commission; respondent admits that it is a common carrier, but does not undertake for the carriage of freight or passengers beyond its lines, though it issues bills of lading and sells passenger tickets over other roads, acting as agent therefor and guarantying rates over the same, and whether respondent is subject to said Act to Regulate Commerce is a question it is not called upon to answer; but it is not true that it holds itself out to the public as subject to said Act.

Respondent denies that prior to or at the time of the filing of the petition, the petitioner was receiving large amounts or any amount of freight from the Ohio and Mississippi Railway Company or the Louisville, New Albany & Chicago Railway Company for transportation over its bridge and railway to points on beyond or *via* respondent's road, or that petitioner tendered large quantities of freight to respondent at the said connection in Louisville for transportation over respondent's road and connections to destination, on the contrary, up to the time of filing said petition the said railway companies transported their freight across the Ohio River on the Louisville Bridge and tendered it to respondent at its yard on the corner of Ninth Street and Broadway; it is true that petitioner did bring to said connection a few cars of freight and pushed them on respondent's track, which cars it may have received from certain companies or individuals at New Albany and some of respondent's agents or employees, not apprised of the impropriety thereof, received said cars and shipped them south, but the number of such cars did not exceed one hundred, and the practice was stopped as soon as known by respondent's superior officers; respondent admits that during October and November, 1887, certain persons directly or indirectly connected with petitioner caused certain shipments to be made from Birmingham and probably other points South and caused bills of lading to be marked *via* petitioner's road or bridge; but respondent's agents were unaware of the impropriety thereof—and at Louisville other subordinate agents delivered the same to petitioner without respondent's superior officers' knowledge; and it is denied that in any other sense has freight been received for transportation to Louisville and thence over petitioner's railway to destination; it is denied that the interchange of traffic between petitioner and respondent has ever been habitual or authorized, and it is untrue that such interchange would be reasonable or proper, for it would be unreasonable and improper to require respondent to go to further expense to handle the same, while it has its present facilities at its four yards to handle all the freight traffic at this point. It is true that respondent refuses to interchange traffic with petitioner at said point of connection, and it is also true that it affords facilities for such interchange of traffic passing over the Louisville Bridge Company's bridge; but it does not afford such facilities for the last named traffic at said point of connection or at

any other point within a mile of the point where petitioner has seen fit to connect with respondent's track, on the contrary, the said interchange is done in respondent's said freight yard at 9th Street and Broadway, and respondent denies any violation of law or conspiracy with said Louisville Bridge Company or railroad companies therein interested.

Respondent further says it is true that there are two bridges across the Ohio River at Louisville, that on June 5, 1873, respondent entered into a written contract with said Louisville Bridge Company, the Jeffersonville, Madison & Indianapolis Railroad Company and the Ohio & Mississippi Railroad Company, to the effect that freight from the north coming to respondent should cross said river over said Louisville Bridge; that to interchange traffic with petitioner would be a violation of said contract and of other contracts between respondent and other parties which were made in good faith and in the interest of its patrons, that compelling all freight to come over said Louisville Bridge is not alone the sole reason of respondent's refusal to interchange traffic with petitioner, but that other reasons are: 1, to maintain its contract obligations; 2, to avoid a useless and expensive transfer station at said connection; 3, to secure the construction of a Union Depot at 10th Street and Broadway for the use of all railroads at Louisville; 4, that respondent's tolls and charges over said Louisville Bridge are lower than they can be via petitioner's bridge;—and there are others not now mentioned.

Respondent therefore shows that prior to the construction of said Louisville Bridge all freights, mails and express goods had to be ferried over said river, which entailed great expense, serious damage from ice blockades in winter and great detriment and inconvenience to the public; that it was concluded to build said bridge and respondent subscribed \$300,000 of the capital stock of the Louisville Bridge Company, said bridge being built at a cost of \$3,300,000, represented by \$1,000,000 paid up capital, and \$800,000 mortgage bonds bearing 7 per cent interest, payable semi-annually; that on June 5, 1873, aforesaid a written contract was entered into between the Louisville Bridge Company of the first part, the Jeffersonville, Madison & Indianapolis Railroad Company of the second part, the Ohio & Mississippi Railroad Company of the third part, and respondent, of the fourth part, whereby it was agreed that the tolls and charges for the use of said bridge by said railroad companies should be fixed per ton or per passenger or per car engine or other means of transportation at a sum that should not exceed sufficient to pay the cost of repairs to said bridge, a 6 per cent semi-annual dividend upon said capital stock, interest upon said bonds, a sinking fund sufficient to pay said bonds at maturity, an amount sufficient to keep up the corporate organization, including taxes; and in the event of the bridge being destroyed by casualty, additional 7 per cent bonds were to be issued by said Bridge Company, and sufficient charges were to be made against said railroad companies to meet the interest and sinking fund upon such additional bonds; it was provided, also, that said tolls and charges

LEVIN B.

should be yearly reduced reduction of the interest, operation of the sinking should be the same to one and further that tolls at other railroad companies, if paid by the original cost

It will be seen that as as new decreases respondent are proportionately diminished are nearly paid off and it is during the current year they Resp before found using arrangement Com endeavor railr as to use also respondent want if petition Ohio & Mississippi Railroad other companies to withdraw from, or if it can compel re a portion of its traffic to y it will increase proportion tolls on said Louisville although petitioner's charges than those of the Louisville as respondent is obliged by t a certain annual sum to the pay, whatever petitioner's they would represent an extra upon the traffic, which respondent to pay. The said Louisville pie capacity to accommodate al said river at Louisville, and convenient to the public, and low as those of petitioner, persons may build another bridge river they have no right to co to retire from its contract with Bridge Company.

And respondent further says petitioner is its avowed enemy; and move in the direction of requ to take traffic from its ally and give it to its enemy and respondent interchanges traffic sections or with said Louisville company only in pursuance of agreement duly entered into, and th had any agreement with petitioner interchange of traffic at any that under its charter its roads by any company or person or its consent, and that petitioner any permission to use any part to transport persons or property

A true copy of said contract 1873 is attached marked Exh 11

And respondent prays to be

Ruben L. RICE et al., Partners
inson & Withrop,

WESTERN NEW YORK
VANIA R. CO. and G. C.
Receiver of the Buffalo, New
delphia R. R. Co.

(No. 110.)

A BETRACT of complaint filed
A 1880, charging unjust and

for the transportation of petroleum, and discrimination in favor of the Standard Oil Company.

Mr. M. J. Heymang, for petitioners.

I. Petitioners are co-partners doing business under the firm name and style of Rice, Robinson & Witherop, at Titusville, Pennsylvania.

II. Petitioners are now, and have been for a long time past, engaged in refining petroleum, shipping and selling the same when refined, and own extensive works at Titusville. They have an agency or branch house at Buffalo, New York, to which they ship large quantities of refined oil each month from their works in Titusville, over the Western New York & Pennsylvania Railroad, which is a line of railroad owned and operated by the Western New York & Pennsylvania Railway Company, between Oil City, Pennsylvania, and Buffalo, New York, running through Titusville.

III. The Western New York & Pennsylvania Railway Company is successor by the re-organization to the Buffalo, New York & Philadelphia Railroad Company. G. Clinton Gardner was appointed receiver of the latter corporation on or about May 20, 1885, and operated the said railroad from that time as such receiver until within a few weeks last past. Petitioners are not informed as to the precise time when the receivership of the said Gardner ceased and the property held and operated by him as such receiver was surrendered and turned over by him to the said Western New York & Pennsylvania Railway Company.

IV. From the month of February, 1883, to the day that the Act of Congress entitled "An Act to Regulate Commerce" went into effect, namely: April 5, 1887, the corporations and persons operating the said line of railroad during said period, including the said Receiver during the time he was Receiver prior to said date charged, levied and exacted from petitioners as toll or freight charges for transporting refined oils in barrels from Titusville to Buffalo, 25 cents for each barrel of oil or, if reckoned by weight, at the rate of 64 cents per hundred weight, each barrel of oil being taken and deemed to weigh 400 pounds. Under this charge petitioners were allowed to place fifty barrels of oil as the minimum number on each car, which was just sufficient to fill the bottom of the car and did not require placing one barrel upon another. The said charge for said service was an excessive one and beyond a just and reasonable one but was submitted to by petitioners because they were without redress as they believed. Upon the day that the Commerce Act went into effect, the said receiver raised the rate between Titusville and Buffalo upon refined oil from 25 cents per barrel as aforesaid to 34 cents per barrel reckoning by weight from 64 cents per 100 pounds to 84 cents per 100 pounds and required petitioners to ship in each car not less than sixty barrels filled with oil, which requires that ten barrels be placed upon and over those placed in the bottom of the car, which entails upon petitioners extra and greater expense in loading said oil, requires more time and care in loading and necessitates expense in the purchase of lumber and nails in bracing, fastening and securing

said ten barrels that are placed upon the others. Oil cannot be safely transported when there are barrels placed one upon another; there has been and doubtless will continue to be loss to petitioners from breakage and leakage as a direct result from this requirement or petty exaction. The extra work and expense above mentioned amounts to at least \$1 per car. This does not include anything for loss from leakage or breakage. Before said date of April 5, 1887, the said Receiver and the corporations operating said railroad before him while the rate was 25 cents per barrel as aforesaid received as carrying charges for and upon each car of oil shipped by petitioners from Titusville to Buffalo, \$12.50 and since said date the said Receiver and the corporation which succeeded him, received and continue to receive for the same service \$20.40 per car.

V. The conditions are the same in every respect under which the said oil was carried for 25 cents per barrel and for which petitioners are now charged 34 cents per barrel, save in the matter of the minimum number of barrels to a car as aforesaid, which is more favorable to the railroad company and is more onerous, burdensome and vexatious to petitioners.

VI. The said Receiver, during his entire receivership, and the said Western New York & Pennsylvania Railway Company since said receivership ceased, have for precisely the same service for which they have exacted and charged and do exact and charge from petitioners the rate or toll of thirty-four cents per barrel charged and received and do charge and receive when transporting oil to Perth Amboy, a shipping port on the eastern coast of New Jersey, twelve cents per barrel or, when reckoned on the weight, three cents per 100 pounds. The oil when so transported goes to Buffalo over said railroad and from thence is carried by the Lehigh Valley Railroad Company to Perth Amboy.

VII. The said charge of thirty-four cents per barrel for the said service is unjust and unreasonable and is in violation of the provisions of the said Act of Congress and unlawfully discriminates against the said City of Buffalo and the traffic of petitioners destined for Buffalo. Petitioners ship nine-tenths of all the refined oil that goes to the said City of Buffalo from the oil regions of Pennsylvania. Petitioners also say that the regulation, requirement or exaction of 60 barrels to the car as a minimum is as refers to said traffic unjust and unreasonable and in violation of the provisions of the said Act.

VIII. Petitioners believe that for the service aforesaid the rate or charge of twelve cents per barrel with 60 barrels to the car would be a just and reasonable charge. Petitioners prefer to pay 14 cents per barrel for said service with minimum at fifty barrels to the car, but if the minimum must, for any reason, be held at 60 barrels to the car, then twelve cents per barrel is all that should be charged for said service.

IX. Petitioners complained to the said Receiver and the Western New York & Pennsylvania Railway Company, his successor in the control of said railroad, about said charges, exactions and regulations and objected and protested against the same many times as un-

just and unreasonable, but without avail. They asked the general freight agent of the said railroad on October 12, 1887, if the said rate or charge for the said service was not raised from twenty five cents per barrel to thirty four cents per barrel at the request and dictation of the Standard Oil Company. The answer to said question was, in substance and effect, that the rate or charge for said service was so raised and increased at the request and dictation of the Standard Oil Company; that said Standard Oil Company was a large shipper of freight over their road and branches and that (meaning the railroad management) felt obliged to comply with the wishes of the said Standard Oil Company in these matters and obey its hints, as a failure to so comply and obey would result in a loss of business from said Standard Oil Company to said road.

X. The Standard Oil Company is a corporation engaged in the same business as petitioners and is a rival of petitioners in said business. Petitioners charge that the said Standard Oil Company has for years past and still does exert its influence with and over said railroad, its management and officials to compel them to exact unjust, unreasonable and extortionate rates and charges and conditions of shipment from petitioners, and other refiners and shippers of oil in Western Pennsylvania, in order to injure, embarrass, cripple, and if possible, ruin their business. That the efforts of the said Standard Oil Company in this direction are unceasing and have heretofore and do now prevail with said railroad management and officials as well as with the other railroad companies operating in said region. That the rate or charge of twenty five cents per barrel for said service prior to April 5, 1887, instead of twelve cents per barrel, was due to the interference and dictation of the said Standard Oil Company with a view to injure the business of petitioners, and others.

XI. Petitioners shipped from Titusville to Buffalo aforesaid over the said railroad since April 5, 1887, to the 14th day of February A. D. 1888, 12,298 barrels of refined oil in 122 cars. Owing to lack of information petitioners are unable to state when said Receivership ceased, and are therefore unable to give the precise number of barrels shipped during said receivership, and the number shipped during the time that the Western New York & Pennsylvania Railway Company has had control of said road. Petitioners request the privilege of stating the number of barrels carried by each when the information shall be furnished them.

XII. Petitioners have sustained and suffered loss and damage by reason of the unjust and unreasonable toll, rates and charges herein complained of and the unjust and unreasonable conditions of shipment imposed upon their traffic as aforesaid, and the discrimination practiced by said Receiver and the said Western New York & Pennsylvania Railway Company against the said City of Buffalo and the traffic of petitioners as aforesaid since April 5, 1887, the sum of \$2,886.46 and that the interest thereon to the 14th of February A. D. 1888, amounts to about \$74, which is also claimed. And petitioners are continuing to sustain loss and damage each time a shipment is made. Petitioners request that they be allowed to state

amount of loss and damage during the time of said receivership when the facts are known each respondent with his or

Petitioners pray that the Gardner, Receiver, and the York & Pennsylvania Railroad be required to mail a number of barrels of oil on April 5, 1887, for petitioners to Buffalo; and that the final hearing of petitioners be as early as shall be just and proper; and that the York & Pennsylvania Railroad be notified and ordered to cease the violations of said Act and the said Receiver and said Western New York & Pennsylvania Railway Company be ordered to, and further reparation as shall be proper, and that such further proceedings be had as shall be proper.

William H. HEA

GEORGIA R. R.
(No. 46.)

1. Passengers paying the same on the same railroad in white or colored, are entitled to the same equality of transportation to the character of the service they travel, and the conveniences supplied.
2. Separation of white and colored passengers paying the same fare is not unlawful, if cars and conditions equal in all respects to both, and the same care and attention of passengers observe.
3. By requiring the petitioners to pay a first class fare to a car set apart for colored passengers, with accommodations inferior to the car for white passengers in the same train who pay the same fare, and without the protection of the Georgia Railroad, the Georgia Railroad subjected him to undue and able prejudice and discrimination, a violation of the third section of the Act to Regulate Commerce.

(Heard Dec. 12, 1887; Decided

COMPLAINT based upon the fact that a colored passenger from a car was subjected to discrimination. See pleadings, ante, 498.

Messrs. J. W. Cromwell and others, for petitioner.

Mr. Joseph B. Cumming,

REPORT AND OPINION OF THE
Scheenmaker, Commissioner
The issue presented by the p

*Headnotes by COOLEY, Chairman

proceeding is whether the petitioner was subjected to undue or unreasonable prejudice or disadvantage upon the defendant's road in being required, while holding a first class ticket, to travel in a compartment of a car allotted to colored persons and inferior, in its accommodations and comforts, to the car for white persons in the same train.

The undisputed facts are in substance that the petitioner, a colored person who resides at Charleston, South Carolina, and is a minister of the African Methodist Episcopal Church, was in Ohio on business, and, wishing to return home, purchased at Cincinnati, on June 16, 1887, a first class through ticket from Cincinnati, Ohio, to Charleston, South Carolina, for \$19.55, the regular price of such tickets, upon the Cincinnati Southern, the East Tennessee, Virginia & Georgia, and the Georgia Railroads, which ticket was honored by all of those roads. The petitioner, with other colored persons, left Cincinnati on that day and reached Atlanta, Georgia, on the evening of the 17th of June and remained there until the next morning. In the journey to Atlanta over the Cincinnati Southern and the East Tennessee, Virginia & Georgia Railroads no distinction was made in respect to white and colored passengers, but both were allowed seats in the same cars. From Atlanta to Charleston the journey was over the defendant's road. On the morning of June 18 the petitioner took the first train out from Atlanta to Charleston, which consisted of two passenger cars besides the locomotive and baggage car. By the regulations of the Company the rear car was allotted exclusively to white passengers. The other car was divided by a partition at or near the center into two compartments, with an open space of about a foot in width between the top of the partition and the ceiling of the car, and there was a door in the center. The rear apartment was used as a smoker for passengers of both colors. The forward compartment was used for colored passengers of both sexes, having only one closet, and the compartment being often full of smoke. Train hands and laborers with their tools sat in this compartment, and it was not provided with iced water, the seats were not upholstered, and there was no carpet on the floor. In the white passengers' car the seats were upholstered, the floor carpeted, and there was iced water. The car in which the colored compartment is located is popularly termed a "Jim Crow car."

When the petitioner took the train at Atlanta he attempted to enter the rear car, but was prevented by the conductor and directed to go in the colored car, which he did. The compartment for colored passengers was dusty and dirty, and at times as full of smoke as the adjoining compartment, in which men were smoking. There were many colored passengers in the compartment, including about a dozen females. The petitioner remonstrated with the conductor against the condition of the car and requested permission to ride in the other car. This the conductor refused, and told him that that was the colored car and he must ride in it or walk; that he (the conductor) had to obey orders or lose his place. On the journey white men came in the compartment with

whisky and drank it from the glass used by the passengers for water, and indulged in rude and profane language. On the request of the petitioner the conductor caused these men to leave the compartment.

It appears by the testimony of the general manager of the defendant that the Georgia Railroad Company has established rules and regulations in regard to the classes of passengers and cars in which they shall travel; that white passengers must be excluded from the compartment reserved for colored passengers unless the train is so crowded that seats cannot be provided for them elsewhere, and that smoking is not allowed in the compartment provided for colored passengers. He further states that the accommodations are substantially the same for colored as for first class white passengers; that the interests of the colored as well as white passengers in Georgia are better observed by separating them, and that the colored travel on the defendant's road is limited, not sufficient to justify separate cars, and hence the plan of compartment cars; that on special occasions, when large numbers of colored persons travel, one or two cars are furnished from which white persons are excluded. These rules are made by the general manager and are only oral.

It appeared in the case that in South Carolina and some other States, where a large colored population resides, no separation of white and colored passengers is required on railroad trains, but first and second class cars are provided with lower rates of fare for the second class, and that both colors may travel in cars of either class, as they may prefer.

Upon the testimony in the case there is no room for doubt that the petitioner and those of his color who traveled with him on the train in question were subjected to undue and unjust prejudice and disadvantage, and that the discrimination was made solely on account of color.

The petitioner's conduct and bearing, so far as the testimony shows, were unexceptionable. He is a minister of the Gospel, in apparently good standing in a respectable religious organization, and is evidently a man of education and decorous behavior. His subjection, therefore, to the inferior accommodations and discomforts of the colored compartment amid fumes of tobacco smoke and whisky, while the Railroad Company had his money for a first class passage, enjoyed by white passengers but denied to him, was a palpable violation of the third section of the Act to Regulate Commerce, a clear breach of duty under the contract of carriage, and an indignity to the petitioner, for which no extenuation was shown.

The question of discrimination on the ground of color has been before the Commission upon a different state of facts in the case of *Council v. Western & Atlantic R. Co.* 1 Inters. Com. Com. Rep. 339, ante, 292, and the ruling in that case that the forcible ejection of a colored passenger who had paid a first class fare from the car in which he was seated, which in that case was designated a ladies' car, and compelling him to ride in a compartment car similar to the one in this case, where the colored passengers were con-

gregated in half a car adjoining a smoking apartment, annoyed by tobacco smoke and other improprieties, subjected him to undue and unreasonable prejudice and disadvantage under the third section of the Act to Regulate Commerce, is entirely decisive of the question here presented, and must be followed in this case.

That decision was based upon the principles of justice and equality in the transportation of persons and property embodied in the Act, and resting upon no less a foundation than the Constitution of the United States.

Equality of civil and political rights, and the equal protection of the laws, with no discrimination except for misconduct or crime, are subjects not open for discussion. They are fundamental principles of government and jurisprudence. Whoever attempts to deny these principles in their just application puts himself in antagonism to the established law of the land. Questions may arise with regard to the extent of the application of these principles, and the manner in which effect shall be given to them when considerations are involved arising out of facts that laws cannot change.

The undeniable fact of a difference in color is one for which government and law are not responsible. It exists by a fiat transcending human knowledge, and has existed through the epochs of history. It should be recognized and dealt with like other unchangeable facts, justly always, but with discretion and reason. When it becomes an element in a judicial controversy one color or race has no exclusive right to recognition nor ground for special favor over the other, but white and black alike are entitled to fair and impartial consideration; and the principle of equality of rights is to be applied with even handed justice, but without unnecessary extension beyond its legitimate purview. It is not, therefore, with sole regard to the wishes or conceptions of ideal justice of colored persons, nor only with deference to the prejudices or abstract convictions of white persons, that a practical adjustment is to be reached, but with enlightened regard to the best interests and harmonious relations of both, constrained by long past events for which none now living are responsible to make their habitations and support themselves as best they can under the same government.

The disposition of a delicate and important question of this character, weighted with embarrassments arising from antecedent legal and social conditions, should aim at a result most likely to conduce to peace and order, and to preserve the self respect and dignity of citizenship of a common country. And, while the mandate of the statute must be our paramount guide, we may be assisted by the knowledge familiar to all of past and present circumstances relating to our diverse population, and such lights of reason and experience as surround the question, in giving effect with the least amount of friction to the purposes of the law.

It being manifest upon the facts of this case that by the discrimination between white and colored passengers, and the character of accommodations furnished to colored passengers, the petitioner was subjected to unjust preju-

INTER S.

dice and disadvantage under the statute, the duty of the carrier to make such accommodations is deemed appropriate.

But the arguments which subject itself authorize, further consideration. The defendant, a public carrier of the State of Georgia, at a place where the colored population is large, that renders separation on the ground of color a safeguard against disturbance for good reasons, it is obvious that two colors should be equal in accommodations, and that each color should have no occasion to unfavorably modify their mode of travel. That of white travelers in both pay the same price for less than this will comply with the requirement of the Law. The cause not founded on malice that may be offensive or in right to separate in different cars who pay the same fare, the equality of furnishing equal accommodations and of protection from

A rule requiring separate cars invites officious interference of meddlesome persons who, by strong prejudices and rights of others, are doubtless and law observing in their reluctance than the authorized employer in the responsible discharge. If, therefore, the rule is sound it can only be done by showing protection is afforded to each against assaults and indignities in equality in separate cars is imperative.

It is not surprising that it persons as irony to be put in a car, popularly designated as of which only half is at the ability to interruptions and to call that equality of accommodations. It is said in behalf that the Company is not responsible for the designation of the less is so; but the defendant the character of the car, at which it is used. Educated colored persons, like the person therefore for complaining conditions of transportation violated the just and equal accommodation which they pay and to which under the Law.

To what extent a public carrier that renders separation in different cars does not appear. Whether or local testimony in this case show. The practice, however, the separation by assigning passengers to a segment of a car for different points, while charging the same fare, is one that violates the provisions of the law, and is

In many States where railroads and colored persons less nu-

tion or distinction is made; but passengers paying the same fare occupy the same cars in common, and questions of discrimination or disputes on the ground of color do not occur.

In South Carolina, according to the evidence and as was alleged in argument, in the States of Virginia and North Carolina, where the colored population is large, no separation is made, but two classes of cars are provided with some difference in the fare, corresponding with the quality of the car; and persons of both colors may purchase tickets for and ride in either class of car according to their inclination or ability to pay, and it is said that the method works well and is generally satisfactory. A method like this does not appear to be in violation of the Law.

The argument in behalf of the petitioner was directed largely to the obliteration of all distinctions in transportation and forcibly urged identity of white and colored passengers paying the same fare as the only absolute equality under the law. The case of *Washington etc. R. Company v. Brown*, 84 U. S. 17 Wall. 445, [21 L. ed. 675] was cited as supporting this proposition. That case arose under special Acts of Congress applying to the Alexandria & Washington Railroad Company, chartered by the State of Virginia, by which the company was authorized to extend its road into the District of Columbia and to connect with the Baltimore & Ohio Railroad. The privilege was accompanied with the provision "that no person shall be excluded from the cars on account of color."

The company provided separate cars for white and colored passengers, claimed to be equally good, and charged the same fare for either car. A refusal by the company to permit a colored passenger to ride in a car with white passengers was held by the court to be a violation of the enactment "that no person should be excluded from the cars on account of color." Assuming that provision to have been properly interpreted (although the court concedes that the words taken literally might have borne the interpretation put upon them by the railroad company), it is not decisive of the point presented under a statute materially different.

The statute governing this case declares to be unlawful and forbids undue or unreasonable preference or advantage to any person or the subjection of any person to any undue or unreasonable prejudice or disadvantage.

It by no means follows that separation into cars of equal quality and where the same protection is accorded is undue preference to one class of passengers or undue prejudice to the other class. Circumstances and conditions may exist to justify such separation, and it may be in the interest of both that it should be done.

The same section applies the same principles to the transportation of property as to persons, but no one would seriously insist that the statute requires all property of the same kind or all kinds of property to be carried in the same car. If like property receives like transportation and at like rates, the carrier's duty in that regard is performed. The number of cars used for the purpose is immaterial.

Identity, then, in the sense that all must be

admitted to the same car and that under no circumstances separation can be made, is not indispensable to give effect to the statute. Its fair meaning is complied with when transportation and accommodations equal in all respects and at like cost are furnished and the same protection enforced.

The order of the Commission, on the facts of the case, is that the Georgia Railroad Company, by requiring the petitioner to occupy a seat in a half car deficient in comforts and conveniences, subjected him to undue prejudice and disadvantage in violation of the third section of the Act to Regulate Commerce, and that the said Railroad Company cease and desist from subjecting colored passengers to such undue and unreasonable prejudice and disadvantage, and that so long as its rule separating passengers is maintained its duty is to furnish for all passengers paying the same fare, cars in all respects equal and provided with the same comforts, accommodations, and protection for travelers.

LEY CO. and ILLINOIS CENTRAL R. R.
CO.;

ILLINOIS CENTRAL R. R. CO.

(Nos. 51-53, 55-60.)

*1 When for a special traffic—*e. g.* the transportation of petroleum oils—a carrier provides rolling stock for one method, but does not provide it for another for which it publishes rates, but the shippers are expected to provide the same, the terms on which such rolling stock is to be provided should be uniform and be published with the rate sheets, and cannot lawfully be left to be the subject of bargain and of different terms in the case of different shippers.

2. It is properly the business of a carrier by railroad to supply the rolling stock for the freights he offers or proposes to carry; and if the diversities and peculiarities of traffic are such that this is not always practicable, and consignors are allowed to supply it for themselves, the carrier must not allow its own defi-

*Head notes by COOLEY, Chairman.

ciencies in this particular to be made the means of putting at unreasonable disadvantage those who make use in the same traffic of the facilities it supplies.

3. When two methods for the transportation of an article of merchandise are nominally offered by the carrier, for only one of which it offers rolling stock, and for the other of which the shipper must supply his own rolling stock at considerable expense, it cannot be said that the resort to the latter by the shipper is so far a matter of choice that he has no concern with the charges for transportation in the other mode. The man of small means being compelled to make this choice, by reason of the carrier's failure to supply rolling stock for the other mode, has a right to insist that the charges for transportation in the two modes shall be relatively just and equal.
4. When oil is transported in tanks permanently affixed to car bodies, the tank is to be considered as part of the car; and for oil transported therein the charge for transportation should be the same by the hundred pounds that the carrier charges for transportation between the same points, of barrels filled with like oil and taken in car load lots. The carrier is guilty of unjust discrimination if the shipper in barrels is charged a higher rate.
5. Neither the fact that the shipper in the one case supplies the rolling stock, nor the alleged fact—which is not found sustained—that for the tanks there is a greater probability of return loads, nor the further alleged fact that with barrel shipments there are greater risks to the carrier's property and that which it carries, can justify imposing upon the barrel shipments the greater burden.
6. Under this rule the carrier will be at liberty, and will be expected, to make to the owner of tank cars a reasonable allowance for their use.
7. When an important question is raised by the pleadings in a case, the determination of which will affect others quite as much as the parties before the Commission, but the parties give their attention almost exclusively to other questions, and neither by the evidence nor in argument supply the Commission with the information to enable it to be understandingly determined, the Commission will decline to decide it, and leave the parties to bring it forward again as they may be advised.

(Heard Nov. 21-23, 1887, Jan. 16-18, 1888; Decided Feb. 15, 1888.)

COMPLAINTS alleging unjust discriminations in favor of the Standard Oil Company and against complainant, in the transportation of petroleum oil. See pleadings *ante*, 376, 443, 478-483.

Mr. J. Randolph Tucker, for complainant:

ENTER S.

The present status of that freedom of interstate mal condition, and that directly or indirectly, although Congress has passed to it.

Robbins v. Shelby Co. U. S. 489, (30 L. ed. 694) there cited.

The constitutional dispute restraints on the free commerce necessarily attacked by it and acting *Non det qui non habet*. M corporations chartered by pair the freedom of this State can give no chartered its own powers.

But restraints on this may be imposed in many may be forbidden, or subject and rules which impair it, taxes and charges which may limit it; and such action is constitutional right, that of the clause which gives to the State the privileges and immunities in the several States.

(See dissenting opinion of case cited, *supra*.)

Tolls and freight charges reasonable and excessive may be forbidden, or subject of commerce. In other reasonable charge for use of constitutional, yet any such under color of compensation comes a regulation of commerce constitutional and void.

Railway corporations are power; they exercise public are the servants of the public plaintiff is one, coequal in right and of whom his customer with those of his competitor.

These Corporations are bound by their being to afford equal transportation to him and his competitors and their customers. Equality, is also the law for all alike, in the form and under rates, can be lawful which is able and legal equality of right freight rates is an easy cover wrong; and he relies on the tear away the cover and to effect the injustice and wrong.

It is admitted that diverser same quantity of oil in tank this is sought to be justified.

It is said the tank cars are shipper and can be carried in the carrier is the owner of is bound to furnish vehicles carrier and shipper are distinct in business, the one private and the other the vehicle for To allow one shipper to put road, which another cannot advantages to one which and in respect to instrumental utility, is to permit pooling of carrier and shipper, favors this Law and contrary to its

If it is answered that Rice could do the same, it is insufficient. A dealer with small capital has no surplus to furnish cars to carry his product; a large dealer has. If the cars which the carrier says are best for transportation are to be furnished at all, should they not be by him whose public duty requires him to do so for his business?

See *Ogdensburg etc. R. Co. v. Pratt*, 89 U. S. 22 Wall. 128 (22 L. ed. 827).

If tank cars are essential to just and equal rates, to safety and convenient transportation of oil, the railroad must permit them to all or allow them to none; or, if allowed to some, then with no advantage as to rates.

It is said there is now a return cargo in tanks, and comparatively none in cars which carry barrels of oil.

A common carrier is allowed to charge to every shipper what is just and reasonable for the service rendered, neither increasing because of incidental disadvantage nor decreasing because of incidental benefits. His rates are to be fixed on the basis of the general business he undertakes. A reasonable rate induces business; high rates drive it away.

A person has no right to demand a decrease of rate because others send by the same carriage nor has the carrier a right to increase the rate because nothing else is sent. A carrier publicly contracts to carry my goods, if none else goes, and he cannot charge me the full expense of the trip because mine only goes. He may give up his business because it does not pay, but he must perform the public duty he has undertaken as long as he is a public carrier.

Nor can he say, I will charge you for the return trip if I have no return cargo; that is the misfortune of his business, not my fault. I cannot be charged double because he has no cargo for his return trip, nor can he charge others less because he has a return cargo. There is no privity between me or the other shipper and the shipper of the return cargo which makes the charge to either of us depend on the accident of the return cargo. He must charge me and the other shipper the same price for the same service.

Messrs. W. B. Loomis and A. D. Follett also filed a brief, and *Mr. Franklin B. Gowen* made an oral argument, for complainant.

Messrs. Edward Baxter and L. H. Noble, for defendant Louisville & Nashville R. R. Co.

Messrs. John S. Blair, John F. Dillon and Wager Swayne, for defendant St. Louis Iron Mountain & Southern R. Co.

Mr. E. L. Russell, for defendant Mobile & Ohio R. R. Co.

Messrs. Edward Colston and Charles M. Cist, for defendants Cincinnati, New Orleans & Texas Pacific R. R. Co. and Alabama Great Southern R. Co.

Mr. Holmes Cummins, for defendants Newport News & Mississippi Valley Co. and Louisville New Orleans & Texas R. Co.:

The burden of proof is upon complainant to establish his charge that the rates on barreled oil are unjust and unreasonably high.

Fulton v. Chicago etc. R. Co. 1 Inters. Com. Rep. 375; *Harding v. Chicago etc. R. Co.* 1 Inters. Com. Rep. 375.

The charge made by a connecting line for

its service cannot be made a ground for complaint against another carrier *en route* whose proportion of the through rate is by itself reasonable.

Allen v. Louisville etc. R. Co. 1 Inters. Com. Rep. 586.

Defendants may demand for such service both the cost of performing it and a fair profit on the money cost of their plant; *Canada Southern R. Co. v. International Bridge Co.* 8 Fed. Rep. 190; *Louisville & N. R. Co. v. R. R. Commission*, 19 Fed. Rep. 679; to say nothing of a premium on their liability as insurers of goods as common carriers.

Angell, Carriers, § 127; *Ivatt, Carriers*, § 199; *Hutchinson, Carriers*, § 447; *Riley v. Horne*, 5 Bing. 217; *Manchester etc. R. Co. v. Brown*, L. R. 8 App. Cas. 703.

However difficult it may be for any court to pass on a question as to what is a reasonable charge by a carrier for any one article or class of freight, without at the same time having before it the entire tariff and volume of business of that line and the country tributary to it, yet where, as in the complaint under consideration, the particular rate or charge complained of is the very lowest charge made by these or other carriers for any such service, and besides, where, with far the larger part of the defendants' traffic charged at much higher rates, still no profit whatever is earned or remains to the benefit of the carrier after payment of operating expenses and interest, or rather its earnings are insufficient to meet its entire interest dues after payment of operating expenses—no court or commission can hesitate to say that the rates in themselves are not unjust nor unreasonably high.

The defendants, until grounds for suspecting misrepresentation appeared, had a right to rely upon the statement of the Standard Oil Company as to the capacity of the tanks, as true.

Dismore v. Louisville etc. R. Co. 8 Fed. Rep. 598; *Southern Express Co. v. St. Louis etc. R. Co.* 10 Fed. Rep. 869.

The facts that the Standard Oil people positively assured defendant, and induced it to believe that eighty-five barrels was a high average for the tank cars shipped by them over its road, while in fact the average capacity was 106 barrels of fifty-two gallons each, or 118 barrels of fifty gallons each, whatever they show of wrong done the defendants by the misrepresentations of the Standard Oil people, still wholly fail to sustain complainant's charge of being subjected to unjust prejudice and disadvantage for the benefit of the Standard Oil Company.

Barrel oil is charged 6 $\frac{1}{4}$ mills per ton per mile, against 5 $\frac{1}{4}$ mills per ton per mile charged on tank oil from Louisville to Vicksburg, while the former pays 4 $\frac{1}{4}$ mills per ton per mile to New Orleans, against the latter paying four mills. A difference of $\frac{1}{4}$ mills per ton per mile against barreled oil to Vicksburg, and of 4 $\frac{1}{4}$ mills per ton per mile against the same oil in New Orleans shipments.

The different circumstances and conditions about these two modes of carrying oil fully justify these differences in the rates, viz.: the carrier furnishes the car for transporting the barrel oil, while the shipper supplies car and tank for carriage of tank oil, and that as

justice as between the competitive and non-competitive points seemed, in the opinion of the Legislature, to require it.

It is evident from the testimony given by some of the witnesses that the equalization of rates by the defendant as between Danville and the smaller towns on each side of it has, in the minds of some parties, been regarded as a grievance. Thus the witness, John W. Caton, in answer to the question, "Is Danville regarded and held by the Richmond & Danville Railroad Company as a competitive point for traffic?" said, "It is not. I was informed by the general freight agent, in the presence of another high official of the road, that Danville was not a competitive point, and could not be so held by the road, and that they could not change their local freight rate as applied to Danville, for if the change was made in regard to Danville, Reidsville and Greensboro, although noncompetitive points, would be demanding the same thing; that Danville could not have through rates. These things were told me by the officials of the road when I was demanding better rates for myself and my town."

Now, to anyone who has given the Act to Regulate Commerce much attention it must be obvious that a complaint against a carrier that it gives to noncompetitive points the same rates which it gives to competitive is not a complaint that the Act is violated. On the contrary, the spirit and purpose of the Act require that when the circumstances and conditions will fairly admit of it the charges to all points for a like service should be made relatively equal. If, therefore, this defendant were to so arrange its tariffs as to give the least important station on its line rates as favorable as it allowed to the most important there would in its doing so be nothing out of harmony with the Law. The result might for a time be prejudicial to competitive points, but the carrier cannot be blamed for a consequence which the Law favors; and there can be no doubt that the Law favors Reidsville and Goldsboro' having rates as low as are given to Danville or to Richmond when the circumstances and conditions are such as to render it practicable. There is nothing, therefore, in the giving of such rates which the law will discountenance, much less punish.

But, passing from this general charge to some specific cases in which the rates which were exacted by defendant are named, we find it to be an undoubted fact that charges have been made which cannot be justified:

First. There is evidence that defendant in two instances at least charged ninety-seven cents per cwt. for the transportation of cotton baled goods from Piedmont, S. C., to Danville, when the established rate from Piedmont to Richmond, 141 miles further, was but fifty-four cents. Investigation shows that these charges were not warranted by the tariff then in force, which was forty-eight cents per cwt. to Danville instead of ninety-seven cents. This is admitted by defendant, and the overcharge is claimed to have been the error of an agent. Whether the error was intentional or unintentional, the parties who paid the charge are entitled to have the overcharge refunded. It is stated on behalf of defendant that this

refunding has already taken place, but the evidence has not been placed on file, and we cannot find that to be the fact. On the other hand, it is to be said that the parties entitled to be reimbursed have not applied to the Commission for the purpose, and we are not informed that any order on their behalf would be acceptable. The proof of the overcharge comes into the case as evidence of a general course of dealing, and not as a basis for a specific money claim; and there is consequently no occasion to speak of it further.

There is also evidence that in July, 1887, the defendant on a number of consignments of melons by the car load from Columbia, S. C., and other points to Danville charged and received from consignees a sum in excess of what were then the current rates for the transportation of like freight from Columbia and such other points to Richmond, the greater distance. In respect to these consignments, which were made after this proceeding was begun, it appears that the defendant's revised rates which were in force when the hearing was had do not admit of any higher charge being made on a consignment of any species of property to Danville from any point on defendant's road south thereof than is made on a consignment of like property to Richmond. The wrong, therefore, in so far as it consisted in making the greater charge for the shorter transportation, has been remedied for the future; and of this case, as of the last, it may be said that as the parties by whom such greater charges were paid are not now here asking for the refunding of moneys wrongfully exacted, this notice of the evidence is all that the case as it stands seems to call for.

Similar remarks may be made regarding a consignment of cattle from Newport, Tenn., to a purchaser at Danville, upon which a rate of \$14 per car is shown to have been charged in excess of what was then the current rate from Newport, through Danville, to Richmond; also regarding a charge on a consignment of cotton batting from Atlanta to Danville, on which fifty-eight cents per hundred pounds was charged in excess of the rate for the greater distance to Richmond. Neither of these transactions is explained by the defense, and whether they could be justified if the parties making payment of the sums exacted were here demanding a refunding we cannot undertake now to say. The transactions were proved in support of allegations that defendant violated the long and short haul clause of the Act, and they prove that fact unquestionably. The proof shows, however, that since that time defendant's tariffs have been changed, and at this time they will warrant no charge between the points named and Danville which is higher than the regular rate upon the like property to Richmond. The wrong done, therefore, in so far as it was continuous, has thus been brought to an end.

These, however, and one or two other transactions of a like character are minor matters as compared to the charge of discrimination against Danville, supposed to be shown in the rates charged on shipments of heavy freights, particularly grain, flour, meat, provisions, etc., made to Danville from western and north-western points, and of tobacco in the other di-

Mr. H. D. Money, for defendants Mississippi & Tennessee R. R. Co. and Illinois Central R. R. Co.

OPINION OF THE COMMISSION.

Cooley, Chairman:

The questions at issue in these cases are to some extent identical and, where not the same, are so far similar that it was deemed practicable by the parties that they should all be tried together. They have accordingly been so tried, the evidence being, by consent, taken in the case first entitled, but received and applied in each of the others, so far as it was found to be applicable. The principal grievance complained of is that the defendant companies discriminate against the complainant in their charges for the transportation of petroleum oil; but the rates for the transportation of the oil in barrels, which is the method made use of by complainant, are also alleged to be excessive, and in some cases a violation of the fourth section of the Act to Regulate Commerce is complained of. The petition in the case first entitled, after setting out the line of the defendant's road and the cities and other points reached thereby, proceeds to say:

"That one of the important duties of said Louisville & Nashville Railroad Company is the transportation of refined illuminating petroleum oil (mostly produced and manufactured in the States of Pennsylvania and Ohio) from Cincinnati, Ohio, and Louisville, Kentucky, to the aforementioned cities and other points on the said carrier's said lines of railroad in the said several States and other States into and through which said carrier's railroad lines pass.

"That such oil is an article of extensive commerce and of prime necessity to the people reached by said carrier's railroad lines, and that in the transportation of such oil by said carrier two prevailing methods are employed, one by means of box cars, carrying the oil in barrel packages, and the other by iron tank cars, generally holding 100 barrels and upwards, built and used for that express purpose.

"And said complainant further says that he is engaged at Marietta, Ohio, and in that vicinity in the business of producing, manufacturing, and dealing in such petroleum oils, and shipping the same to various markets in Southern and Western States of this country; that he has large capital invested in this business and extensive facilities therefor, and, but for the acts of said carrier hereinafter complained of, would produce and sell many thousands more barrels of such oil than now; that many of his principal markets for his said manufacture are in the territory reached and traversed by said carrier's system of railways; that it is absolutely essential to the continued existence and success of his said business that he should have rates and facilities both reasonable in themselves and equally as favorable as those accorded to his competitors for the transportation of said products to such markets, many of which can only be reached by said carrier's roads, and none of which can be reached as conveniently or cheaply by any other means, if said complainant is accorded reasonable and just rates by said carrier.

"Complainant further states that the Stand-

ard Oil Company, a corporation organized and existing in and under the Laws of the State of Kentucky, is a very extensive dealer in and shipper of such petroleum oils, and is his chief and almost sole competitor for the sale thereof in the aforesaid markets."

"And said complainant further states that said carrier has been guilty of violation of the provisions of the Act of Congress of the United States of America entitled 'An Act to Regulate Commerce,' approved February 4, 1887, and which took effect April 5, 1887, in the following particulars, to wit:

"First charge. By making charges for services to be rendered by said carrier in the transportation of such as aforesaid from Cincinnati, Ohio, and said Louisville, Kentucky, to points on the said carrier's said railroad lines in the said States other than Ohio and Kentucky which were in themselves unjust and unreasonably high.

"Under this charge the complainant makes the following specifications, each and all of which are rates per 100 pounds charged by said railroad company on May 9, 1887, and, as complainant is informed and believes and so alleges, ever since that day for services to be rendered by said company in the transportation in barrel packages in car load shipments of such oils from said Louisville, Kentucky, to the respective destinations named, each and all of which destinations are points reached by the lines of railroad owned, leased, and operated by said railroad company and each and all of which rates complainant alleges to be unreasonable and unjust.

- "1. Mobile, Ala., 80 cents.
- "2. New Orleans, La., 80 cents,
- "3. Montgomery, Ala., 45 $\frac{1}{2}$ cents.
- "4. Selma, Ala., 45 $\frac{1}{2}$ cents.
- "5. Birmingham, Ala., 45 $\frac{1}{2}$ cents.
- "6. Nashville, Tenn., 18 $\frac{1}{2}$ cents.
- "7. Memphis, Tenn., 15 cents.
- "8. Clarksville, Tenn., 16 $\frac{1}{2}$ cents.

"9. All other points reached by said lines of railroad located in States other than Kentucky, the rates of which appear in the statement of rates required by said Act of Congress and on file with said Commission, and each and all of which rates complainant alleges to be unreasonable and unjust. Complainant, under said charge, also makes the following specifications, each and all of which are the rates per 100 pounds charged by said railroad company for the transportation of such oils in barrel packages, in car load shipments from Cincinnati, Ohio, to the respective destinations named, each and all of which are points reached by the lines of the railroad owned, leased and operated by defendants, and are in States other than the State of Ohio, which rates appear on the tariff sheets of defendant, furnished by it to complainant May 9, 1887, as showing its rates then in force, and which rates complainant is informed and believes and alleges have ever since been in force, each and all of which rates complainant alleges to be unreasonably high and unjust.

- "10. Nashville, Tenn., 25 cents.
- "11. Decatur, Ala., 50 cents.
- "12. Birmingham, Ala., 59 cents.
- "13. Calera, Ala., 59 cents.

tween the circumstances under which said Rice and said company, respectively, ship their oils, justifying any difference in rate, if there be any, are small and insignificant in comparison with the differences in the rates charged them, respectively."

"Complainant is informed and believes and therefore states that—

"3. Defendant owns a number of tank cars, as hereinbefore described, and furnishes the same to the said Standard Oil Company for its use in transporting oil shipped by said company from Cincinnati, Ohio, to points reached by defendant's said lines of railroad in States other than Ohio, and from Louisville, Kentucky, to points reached by defendant's said lines of railroad in States other than Kentucky, but refuses to furnish the same to said George Rice for his use in transporting oil from said Cincinnati, Ohio, and Louisville, Kentucky, to such points in States other than Ohio and Kentucky.

"4. Defendant, in its freight rates for the transportation of such oils from Cincinnati, Ohio, to points reached by defendant's said lines of railroad in States other than Ohio, and from Louisville, Kentucky, to points reached by defendant's said lines of railroad in States other than Kentucky almost uniformly, since April 5, 1877, has charged a higher rate per 100 pounds for oil transported by it in barrel packages, in car load shipments, owner's risk, than it charged per 100 pounds for such oils transported by it at the same time between the same points contained in tank cars, owner's risk; while at no time has there been any difference between the cost, expense and convenience of transporting said oils by said two methods, or any circumstances justifying a difference of rate between said two methods of transportation which even approximated the differences in defendant's freight rates for transportation by said two methods, any differences between the cost, expense and convenience to defendant of transportation by said two methods, or any circumstances justifying a difference in rate between said two methods being slight and insignificant compared with the differences in rate between said two methods actually made by defendant. Complainant ships his oils over defendant's lines of railroad exclusively in barrel packages, while said Standard Oil Company ships its oil over defendant's lines of railroad almost exclusively in tank cars.

"5. Defendant's freight rates per 100 pounds for the transportation of such oils from Louisville, Kentucky, to the following destinations are the same whether the oil is carried in barrel packages or in tank cars:

Mobile, Ala.	Jackson, Miss.
New Orleans, La.	Jackson, Tenn.
Meridian, Miss.	Vicksburg, Miss.

"While defendant's freight rates per 100 pounds for the transportation of such oils from Louisville, Kentucky, to nearly all, if not all, the other points reached by defendant's lines of railroad in States other than Kentucky are much higher for oils carried in barrel packages than for oils carried in tank cars.

"6. Defendant's freight rates per 100 pounds for the transportation of such oils from Cin-

cinnati, Ohio, to Nashville, Tennessee, and Mobile, Alabama, are the same whether the oil is carried in barrel packages or in tank cars, while the defendant's freight rates per 100 pounds for the transportation of such oils from Cincinnati, Ohio, to nearly all, if not all, the other points reached by defendant's lines of railroad in States other than Ohio are much higher when the oils are carried in barrel packages than when the oils are carried in tank cars.

"7. Defendant has, since April 5, 1887, charged for the transportation of oils from Cincinnati, Ohio, and from Louisville, Kentucky, to Birmingham, Alabama, Calera, Alabama, Montgomery, Alabama, and Selma, Alabama, the same freight rates in all cases to each of said localities, although by defendant's line of road said Calera is thirty-three miles farther from said Cincinnati and said Louisville than said Birmingham, and said Montgomery is sixty-three miles farther from said Cincinnati and said Louisville than said Calera, and said Selma is fifty miles farther from said Cincinnati and said Louisville than said Montgomery; and oils transported by defendant from Cincinnati, Ohio, or Louisville, Kentucky, to said Selma are necessarily carried by it through said Birmingham, said Calera and said Montgomery, and the distance from said Cincinnati to said Selma over defendant's line of road is 650 miles, and the distance from said Louisville to said Selma over defendant's line of road is 540 miles.

"Fourth charge. Complainant, for a fourth charge against defendant, says that defendant has, since April 5, 1887, charged and received for the transportation by it of such oils from Cincinnati, Ohio, and Louisville, Kentucky, to points reached by defendant's said line of railroad in States other than Ohio and Kentucky a greater compensation in the aggregate for a shorter than for a longer distance over the same line in the same direction, the shorter being included within the longer distance, such oils being a like kind of property in all cases and such transportation being under substantially the same circumstances and conditions.

"Under the above charge complainant makes the following specification: the rate charged by defendant for the transportation of such oils in barrel packages in car load shipments from Cincinnati, Ohio, to and from Louisville, Kentucky, to destinations named below, with the distances of each destination from the place of shipment over defendant's said line of railroad, are as follows:

"From Cincinnati, Ohio:

Destination.	Distance.	Rate per 100 pounds.
New Orleans, La.....	821 miles.	30 cents.
Birmingham, Ala.....	504 "	29 "
Mobile, Ala.....	780 "	28 "

"From Louisville, Kentucky:

Destination.	Distance.	Rate per 100 pounds.
New Orleans, La.....	811 miles.	35 cents.
Birmingham, Ala.....	594 "	32 "
Mobile, Ala.....	780 "	28 "

"Said complainant further alleges that the aforesaid discriminations against him in rates

ville consisted, went on to say: "It consists in according to other points, notably Richmond and Lynchburg, in the rehandling of provisions spoken of, a better rate and facilities than it accords to Danville for the same services." And he proceeds with specification as follows: "Provisions shipped from points north of the Ohio River and reshipped at Lynchburg and Richmond are carried through to points in North and South Carolina at rates considerably lower than if the same goods were shipped to Danville and reshipped from Danville to the same points South."

The witness, Samuel P. Wimblish, in answer to the question whether defendant, since the fifth of April last, had discriminated in matter of freight rates to Danville and other points and against Danville and its people, said: "To the best of my knowledge and belief it has. For example, defendant, before the fifth of April and since, had its freight charges so arranged as that said charges from Richmond and Lynchburg to Greensboro,' Charlotte, and other points were and are now far lower, relatively speaking, than between any of said towns and Danville."

Witnesses John W. Caton and B. S. Crews give similar evidence, and it seems to stand in contradistinction to that of the officers of the road, who testify positively that no advantage in rates is accorded to either Richmond or Lynchburg, and that the same charges in proportion to distance are made from them as from Danville to other towns on defendant's line. The supposed discrimination is, however, explained by tabulated statements which the witness, in support of the petition, files and from which we may see exactly what the discrimination consists in.

These tabulated statements show what the charges are which are made by defendant upon consignments of grain and of meats from Richmond and Danville, respectively, to other towns on defendant's line, and also the charges made from Richmond to Danville, the purpose being to show that, in competing for the trade of local points on defendant's road, Danville is placed at a disadvantage. The statement, so far as it relates to charges for the transportation of grain is here given.

From Richmond to Reidsville, N. C., 164 miles, charge eighteen cents per cwt.; from Richmond to Danville, 140 miles, fifteen cents; thence to Reidsville, twenty-four miles, eight cents; total, twenty-three cents.

From Richmond to Greensboro,' 213 miles, twenty cents; from Danville to Greensboro,' forty-nine miles, ten cents; added to rate to Danville, twenty-five cents.

From Richmond to Durham, 280 miles, twenty-one cents; from Danville to Durham, eighty miles, fifteen cents; added to rate to Danville, thirty cents.

From Richmond to Charlotte, 281 miles, twenty-one cents; from Danville to Charlotte, 141 miles, fifteen cents; added to rate to Danville, thirty cents.

From Richmond to Asheville, 360 miles, twenty-eight cents; from Danville to Asheville, 220 miles, twenty-seven cents; added to rate to Danville, forty-two cents.

From Richmond to Salisbury, 230 miles, twenty-one cents; from Danville to Salisbury,

ninety miles, fifteen cents; added to rate to Danville, thirty cents.

From Richmond to High Point, 248 miles, twenty-one cents; from Danville to High Point, seventy-eight miles, nineteen cents; added to rate to Danville, thirty-six cents.

The showing in respect to meats is similar to this, and another statement of shipments from Chicago or other western point to Richmond and to Danville, respectively, would, when reshipments were made to the other points named, result in like discrepancies. The discrimination the petitioners complain of is that defendant's rates are so made that the Danville merchant cannot deliver his goods at Reidsville, Greensboro,' and other towns named at which he may sell them at rates for transportation as low as are accorded to Richmond.

The most casual inspection of this statement, however, will make plain to the mind that the difference in rates which it shows in favor of Richmond results from the fact that from Richmond the property is supposed to be taken directly to the several points named, while the Danville shipments are first made from Richmond to Danville and then from Danville to the ultimate destination. The difference is, therefore, a difference between the charge for one transportation covering a definite distance and that for two transportations which aggregate the same distance. The petitioners think that upon such goods bought in Richmond, as they sell at Reidsville or other points named, they should be charged in the aggregate only the rates which are charged when the consignment is directly from Richmond through to the same point. Defendant assents to this when the Danville merchant ships directly from Richmond to the place of sale, but declines to allow it when the shipment is first to Danville and then to the ultimate destination. It is the denial of this privilege of having the two shipments count as one which constitutes the discrimination complained of.

The concession here claimed bears resemblance to an attempt to compel the railroad company to establish the system which in some parts of the country is known as "milling in transit"—a favor in transportation most often, perhaps, allowed to manufacturers of flour, but which is known in other industries also. In proceedings before the Commission where this system has incidentally been spoken of it has been said to have had its origin in the desire of carriers which received wheat for delivery to millers on their line to control the transportation of the manufactured article and keep it from passing to the hands of competitors. It is not likely that this is the sole reason for the practice, and we mention it only as one that has been named. The control of the carriage would be assured by giving to the consignor of wheat a through rate from the point of reception to the point at which he expected to market his flour, but with the privilege of converting the wheat into flour at an intermediate point. The advantage of such a privilege to the consignor may be shown by a supposed case. Let it be assumed that the rate on wheat from Chicago to New York is twenty-five cents per hundred

Pensacola, Fla., forty-five cents.

Mobile, Ala., thirty-nine cents.

New Orleans, La., thirty-nine cents.

"Except that the rate furnished for shipment to Nashville, Tenn., was twenty-eight and three fourths instead of twenty-five cents; that to Pensacola was forty cents instead of forty-five cents; that to New Orleans and that to Mobile was thirty-four cents each instead of thirty-nine cents; and defendant admits that all of said points are reached by its lines of road, except Selma, and except all points between Decatur and Montgomery, Alabama, which cannot be thus reached; but defendant says it is not true and it denies that said rates or any of them are unjust or unreasonably high."

"For answer to the second charge made in complainant's bill and the specifications thereunder defendant—

"1. Denies that it has at any time since April 5, 1886, charged complainant for services to be rendered by this defendant in the transportation of such oils to points in States other than Ohio reached by its lines of railroad, or from Louisville, Kentucky, to points in States other than Kentucky reached by said lines of railroad, a greater compensation than it charged said Standard Oil Company of Kentucky for like and contemporaneous services rendered or to be rendered by this defendant for said company in the transportation of such oils for said company from said Cincinnati, Ohio, or from Louisville, Kentucky, to said points or any of them in States other than Kentucky, and denies that the shipments referred to by complainant in his said bill were made for him and for said Standard Oil Company under substantially similar circumstances or conditions.

"2. It admits that the rate per 100 pounds charged by it to complainant on May 9, 1887, and ever since for the transportation of such oil from Louisville, Kentucky, to the respective destinations named in complainant's bill is the rate given therein, to wit:

"To Montgomery, Alabama, forty-five and seven tenths cents; Selma, Alabama, forty-five and seven tenths cents; Birmingham, Alabama, forty-five and seven tenths cents; Nashville, Tennessee, eighteen and three fourth cents; Memphis, Tennessee, fifteen cents, and that on some oil shipped by it during that time for the Standard Oil Company defendant charged from Louisville to said respective points per 100 pounds the following rates, as stated in complainant's bill, to wit:

"To Montgomery, thirty cents; to Selma, thirty cents; to Birmingham, thirty cents; to Nashville, fifteen cents, and to Memphis, twelve and one half cents.

"3. It further admits that its rate to complainant on May 9, 1887, and ever since, for shipments of oil from Cincinnati, Ohio, to the following points, per 100 pounds, were the rates stated in complainant's bill, to wit:

"To Decatur, Alabama, fifty cents; to Birmingham, Alabama, fifty-nine cents; Calera, Alabama, fifty-nine cents; Montgomery, Alabama, fifty-nine cents; Selma, Alabama, fifty-nine cents; to Pensacola, Florida, forty-five cents, to Mobile, Alabama, thirty-nine cents, and to New Orleans, Louisiana, thirty-nine

cents, with the exception that the charge was and is from Cincinnati to Pensacola forty cents, instead of forty-five cents, and to Mobile and to New Orleans each thirty-four cents, instead of thirty-nine cents; and the defendant further admits that during said time it was shipping some oil for the Standard Oil Company from Cincinnati to aforesaid towns at the following rates per 100 pounds, to wit: to Decatur, forty-six cents; to Birmingham, forty-seven cents; to Calera, forty-seven cents; to Montgomery, forty-seven cents; to Selma, forty-seven cents; to Pensacola, forty cents; to Mobile, thirty-four cents; to New Orleans, thirty-four cents, except that to Birmingham, since May 11, 1887, the rates have been a little less than forty-seven cents per 100 pounds. But defendant denies that in its said rates for shipment for the Standard Oil Company and for complainant from Cincinnati and from Louisville, respectively, to aforesaid respective towns or any of them, it discriminated in favor of the Standard Oil Company or against complainant, or that by said rates, shipped under the circumstances that said oils were respectively shipped, defendant charged complainant per 100 pounds a greater compensation than it charged said Standard Oil Company.

"Defendant says that all the rates for shipments for complainant made so as aforesaid from Cincinnati and from Louisville, respectively, to aforesaid respective towns were made for shipments in barrel packages and car load shipments, and all of the rates for shipments for the Standard Oil Company so as aforesaid from Cincinnati and from Louisville, respectively, to said respective towns were made for shipments in tank cars, cost of transportation or the shipment and risk of which is much less than the cost of transportation or shipment and the risk of a like quantity of oil in barrels; that the rate paid or to be paid as aforesaid by complainant for such shipments is the same rate per 100 pounds, neither greater nor less than was and is by defendant charged to and paid by the Standard Oil Company for shipments of oil in barrel packages, car load shipments, at the same time and from and to the same points that said shipments for complainant were made; and defendant also states that at the same rates charged the Standard Oil Company for the shipments of its oil so as aforesaid in tank cars from Cincinnati and from Louisville, respectively, to said several respective towns, complainant could have shipped, as he well knew, his oil in like kind of tank cars at any time on or after the 9th day of May, 1887, and the same rates as aforesaid were offered him and published in defendant's schedules of rates furnished the honorable Interstate Commission.

"4. Defendant admits that in its shipment of oil in barrels for complainant it has charged or intended to charge him for the actual weight of such oils, and it has also charged or intended to charge in its shipments of oil in barrels for the Standard Oil Company for the actual weight of such oils, and it denies that it has in any shipment of oil in barrels made any difference in this respect between oil shipped for complainant and oil shipped for the Standard Oil Company.

"Defendant says that as to the shipment of

others we may regret the fact, but we cannot under any authority the law has conferred upon us interpose to change it.

The conclusion is that the Commission cannot adjudge the defendant guilty of unjust discrimination in the particular mentioned. Neither can it find upon the evidence that any advantage which is obtained by Richmond or any other locality by means of low rates given by connecting roads is chargeable as a wrong done by defendant. The naming of a through rate by the defendant to or from any distant point and the receiving of the freight moneys on a consignment do not of themselves charge the defendant with any responsibility in respect to the rates beyond its own line. There is no wrong on its part in giving to its customers information respecting such rates nor in receiving payment for both itself and its connections. On the contrary, it is a great business convenience, and any carrier which should refuse to give through bills when it could do so or to name through rates which are made up by adding its own to the rates made by its connections would be justly liable to very severe censure. Through bills are among the most important and valuable of transportation facilities, and it is not only important that the consignor should know before he forwards the goods what the charges upon them for the whole distance are to be, but it commonly saves him much trouble and avoids mistakes

if he can procure the information from the local agent of the receiving company instead of being compelled to apply to two or more agents at a distance. The receiving carrier ought, therefore, to keep informed respecting rates over connecting lines, whether it joins in making them or not, and it ought also to give through bills when they are desired if it can arrange with its connections to do so. It will not perform its full duty to the public unless it does so.

The result of our investigation of this case may be summarized very briefly. The defendant has been guilty of some overcharges which the parties paying them are entitled to have refunded if the refunding has not already taken place. The proofs show, also, that in the spring and summer of 1887 the defendant made rates which were greater on its road to Danville than to Richmond through Danville, but its tariffs have since been so changed that such greater rates are no longer charged. No application is made for the refunding of moneys paid on such rates, and the question whether there should be any is not before us. The Commission has no authority to require the defendant to concede the privilege sought for, corresponding to that of "milling in transit," and the evidence offered to show that the rates of the defendant are excessive and unjust is too inconclusive to justify any finding to that effect.

SUPREME COURT OF RHODE ISLAND.

STATE of Rhode Island

v.

William FITZPATRICK.

The provision of **R. I. Pub. Stat. chap. 634**, of May 4, 1887, § 1, which prohibits any person from keeping any intoxicating liquors "for the purpose of sale," is not, for the reason that it may incidentally interfere with foreign or interstate commerce, obnoxious to the Federal Constitution, art. 1, § 8, which confers upon Congress exclusive power "to regulate commerce with foreign Nations and among the several States."

(Providence—Decided January 7, 1888.)

ON constitutional questions certified to the Supreme Court under R. I. Pub. Stat. chap. 220, §§ 1-9.

The case is stated in the opinion.

Mr. Clarence A. Aldrich, Asst. Atty-Gen., for the state.

Mr. Hugh J. Carroll, for defendant.

Durfee, Ch. J., delivered the opinion of the court:

This case comes before us from the District Court of the Tenth Judicial District, by certificate, on a constitutional question. It is a complaint under Public Laws R. I. chap. 596, of May 27, 1886, and chap. 634, of May 4, 1887, against the defendant, for keeping without lawful authority intoxicating liquors "for the purpose of sale," in violation of chap. 634, § 1, in amendment of chap. 596, INTER 8.

§ 1, charging the offense substantially in the language of the statute. In the district court the defendant made the following motion, to wit:

"The defendant moves that the above entitled complaint be dismissed, because it is brought under § 1 of chapter 634, of the Public Statutes, which attempts to prohibit the keeping, for the purpose of sale, of any of the liquors enumerated in said section, without making any distinction as to whether the sale is to be within or without this State; and he claims that he has a right to keep the same for the purpose of sale without this State. U. S. Const. art. 1, § 8."

The district court overruled the motion, and, having found the defendant guilty, has certified the question involved in it to this court for decision.

Chap. 634, § 1, so far as it is necessary to recite it for the purposes of the question, is as follows, to wit:

"No person shall manufacture or sell, or suffer to be manufactured or sold, or keep, or suffer to be kept, on his premises or possessions, or under his charge for the purpose of sale, any ale, wine, rum, or other strong or malt or intoxicating liquors, a part of which is ale, wine, rum, or other strong or malt or intoxicating liquors, unless as hereinafter provided."

The corresponding sections in earlier statutes, whether license or prohibitory, contained the words "within this State" after the words "for the purpose of sale," thus making the keeping illegal only when it was for the pur-

"7. Defendant admits that since April 5, 1887, it has charged for the transportation of oils from Cincinnati and from Louisville to Birmingham, Alabama; Calera, Alabama; Montgomery, Alabama, and Selma, Alabama, the same freight rate in all cases to each of said points, and that the distance from Cincinnati and Louisville by its road is to Calera, thirty-three miles greater than to Birmingham, and to Montgomery is sixty-three miles greater than to Calera, and that oils transported over its lines of road from Cincinnati or Louisville to Montgomery, are carried through Birmingham and Calera, but not through Selma, nor is Selma on defendant's lines of railroad; but said rates were not made nor are they controlled by this defendant. The same are fixed and regulated by the competition with water ways and railroad lines over which defendant had and has no control, and are in and of themselves fair, just and reasonable."

For answer to the fourth charge made in complainant's bill and the specifications thereunder, defendant—

"1. Denies that it has, since April 5, 1887, charged or received for the transportation by it of such oils from Cincinnati or from Louisville to points reached by its lines of railroad in States other than Ohio and Kentucky, a greater compensation in the aggregate for a shorter than a longer distance on the same line in the same direction, where the shorter was included within the longer distance, and whose transportation being under substantially the same or similar circumstances and conditions.

"2. Defendant admits that the charges made by it for shipments of oil from Cincinnati and from Louisville to the various points set out in complainant's bill under this charge, and the distance to each of said points from Cincinnati and Louisville, respectively, is as given by complainant in its first and second specifications under the fourth charge in his bill, with the exception that the rate from Cincinnati to New Orleans should be thirty-four cents per 100 pounds and to Mobile the same, and the distance from Louisville to Mobile is 670 miles, and the rates should be from Louisville to New Orleans thirty cents per 100 pounds, to Birmingham 45 $\frac{1}{4}$ ¢ and to Mobile thirty cents but defendant says that said respective shipments to said several points were made under the very dissimilar circumstances and conditions as aforesaid, justifying and authorizing, as it believes, the different rates charged to the different places as aforesaid.

"3. Defendant denies that any of the alleged discriminations against complainant, or the alleged unreasonably high and unjust charges against him set out in his bill of complaint, have had any effect or were designed to affect or to give to said Standard Oil Company a monopoly of the traffic in such oils at the points or any points reached by its lines of railroad, or to exclude complainant's products from nearly all or any of aforesaid points, and it denies that such alleged discriminations or charges, or both, have been made by defendant at the dictation of the Standard Oil Company; and it denies that by reason of such alleged discriminations or such alleged unjust and unreasonably high charges, or both, complainant has been injured in his business, or

that, thereby, he has lost profits that he would otherwise have realized.

"Whether complainant in all other respects than for said transportation during all or any of the time since April 5, 1887, has had ample facilities or what facilities it has had for the transaction of a large or a profitable business in the sale of said oils in said markets, or that but for said alleged unjust and unreasonable charges and alleged unjust discriminations, complainant would have prosecuted such with profit to himself, defendant does not know and cannot state from its belief or otherwise."

All the other petitions were filed simultaneously with the one above mentioned—that is to say, July 22, 1887.

The pleadings in the other cases it is deemed sufficient to present in brief synopsis:

The petition against the St. Louis, Iron Mountain & Southern Railway charges that defendant violates the Act to Regulate Commerce—

I. By making charges for services to be rendered in the transportation of petroleum oils from St. Louis, Missouri, to points on its line in the State of Arkansas which in themselves are unreasonably high;

II. By having, ever since April 5, 1887, charged complainant for services to be rendered by defendant in the transportation of such oils for complainant from St. Louis, Missouri, to points in other States a greater compensation than it has charged the Waters Pierce Oil Company of Missouri for like and contemporaneous services;

III. By having, since April 5, 1887, in its charges for the transportation of such oils, uniformly given undue and unreasonable preferences and advantages to said Waters Pierce Oil Company of Missouri, and subjected complainant to undue and unreasonable prejudice and disadvantage.

The answer of this defendant meets the charges with full and specific denial.

In the case against the Mobile & Ohio Railroad Company the issue was so far narrowed by a stipulation of the parties hereinafter given as to render unnecessary any statement of the pleadings in this place.

In the case against the Cincinnati, New Orleans & Texas Pacific Railway Company, the charges are that defendant has violated the provisions of the Act to Regulate Commerce.

I. By making charges for services to be rendered in the transportation of petroleum oil from Cincinnati, Ohio, to points on its road in other States than Ohio, which in themselves were unjust and unreasonably high;

II. By charging complainant for services to be rendered in the transportation of petroleum oil a greater compensation than it charged the Standard Oil Company of Kentucky for like and contemporaneous services;

III. By having in its rates charged for services rendered and to be rendered for the transportation of said oils for complainant and said Standard Oil Company of Kentucky, uniformly made and given undue and unreasonable preferences and advantages to said Standard Oil Company, and subjected complainant to undue and unreasonable prejudice and disadvantage.

fendant for transporting coal oil over its line of railroad as specified and shown in the third paragraph of the answer of the defendant to the petition of the complainant, except that said specification of rates shows that the defendant charges less for the transportation of oil from Cairo, Illinois, to Mobile, Alabama, than it does to points between Mobile, Alabama, and Cairo, Illinois.

"It is further understood and agreed that the defendant admits that its rates for the transportation of oil over its lines from Cairo, Illinois, to Mobile, Alabama, are less than the rate for like transportation of oil from Cairo, Illinois, to points between Cairo, Illinois, and Mobile, Alabama.

"It is further understood and agreed that the defendant claims that the rate for the transportation of coal oil to Mobile, Alabama, is fixed by water competition in connection with the short rail haul from New Orleans, Louisiana.

"It is further understood and agreed that the defendant claims that it is authorized to make the less charge for transporting oil in cases like Mobile, Alabama, by the terms of the provisions of the fourth section in the Interstate Commerce Act."

The question which this paper undertakes to submit to our decision concerns other carriers and their customers, quite as much as it does these parties; and a decision upon it would be far reaching in its consequences. This fact of itself would be ample reason why we should proceed cautiously in any consideration we should give it, and why we should require from a party raising it a very full presentation of such facts as would have legitimate bearing upon it.

A full presentation was not made on the hearing; the matter received very little attention and the facts were very imperfectly brought out. We could not intelligently dispose of the question on the facts now in proof, and it would be unjust to parties not now before us to make any attempt to do so. Under the circumstances, therefore, we shall make no order in this case, leaving the parties to bring the subject to our attention hereafter as they may think they have occasion. This disposition of the case for the time being decides nothing and concludes no one.

What is said on this subject is equally applicable to each of the other causes in which a violation of the long and short haul rule of the fourth section of the Act was charged. In none of the cases was special attention given to this feature of the controversy on the hearing, or any such examination of the facts gone into as would assist the Commission to safe judgments. Other charges were contested sharply and persistently, but this particular charge was scarcely noticed. Under such circumstances, if we were to pass judgment upon it, it would be necessary to institute further inquiries and make investigations on our own behalf; and this we think uncalled for in this controversy at this time. If a decision upon it is deemed important it may be assumed the parties, when it suits their convenience, will renew the subject, and present the considerations which bear upon it more fully.

The other of the two cases mentioned is that

of the Mississippi & Tennessee Railroad Company, in which the only matter put in issue was whether the rates charged upon barrel oil from Memphis, Tennessee, to Grenada, Mississippi, are reasonable. The shipments made over defendant's road are very few, and have been mostly made by others than complainant. It does not appear that others are complaining. Upon the question of reasonableness the case is almost entirely without proof. Complainant relies upon the three facts that the rates are higher than generally prevail elsewhere, that they were formerly lower on this road, and that the defendant now carries the same commodity to points beyond Grenada at lower rates. The first two grounds of objection are not very conclusive. It is probable that defendant could not support a useful existence if it were compelled to measure its charges by those made by carriers whose lines command a heavier and more steady business. It is also not unlikely that this defendant at times has made rates it could not abide by permanently without bankruptcy. Most of the railroad companies of the country at some time or other have done so.

The third ground presents the same question which, in the *Case of the Mobile & Ohio Railroad Company*, we declined to decide without some showing to enable us to see how the decision would affect the railroad business of the section. We are absolutely without any such showing in this case; and we think it entirely reasonable and proper, therefore, to decline to make any order.

We now proceed to dispose of the cases of the other defendants, and in doing so it is to be understood that when the term *defendants* is made use of it applies to those only whose cases are under consideration, and does not include the Mobile & Ohio and the Mississippi & Tennessee Railroad Companies or either of them.

From the evidence it appears—and we find the fact to be—that there are two general methods for the transportation of petroleum oil and its products by rail, the one being in barrels holding an average of fifty gallons, and the other being in large iron tanks which are permanently fixed upon flat cars so as to constitute a part of the cars themselves. Some oil is carried in cans also, but that method does not come in question in these cases. The tanks vary greatly in size, some holding not more than three thousand gallons, or sixty barrels, while others hold twice that quantity. The refined oil, which is the kind that constitutes the subject of controversy in these cases, weighs six and a half pounds to the gallon; the barrels in which the oil is shipped weigh about seventy-five pounds each, and a barrel with its contents about 400 pounds. The tank cars which are sent into the territory in which the defendants operate are all either owned by the shippers themselves or are procured by them from some other source than the railroad companies, the latter never having supplied themselves with rolling stock for the purposes of this traffic. The Louisville & Nashville Railroad Company and the Cincinnati, New Orleans & Texas Pacific Railway Company are several owners of the trucks and bodies of a few tank cars, but even of these the tanks

so arranged and controlled as to prevent many of the inequalities that are now liable to operate oppressively to particular localities. When intersecting roads are separately controlled and owned it may well happen that one which is of the very highest importance to the community it serves and which deals with them fairly, shall nevertheless be powerless to prevent the rates of other roads giving to some of its towns great advantages over others, unless it consents to sacrifice its own revenues in so doing. Possibly such may be the case here.

The defendant insists and produces evidence to show that it has no voice in making rates except on its own roads; that it is enabled to name through rates only, first ascertaining what the rates charged by connecting roads are, and then adding to them its own rates; that it issues through bills over other roads and honors the through bills issued by other carriers under mutual arrangements made to facilitate business and accommodate the public, and that when it receives freight moneys for a transportation of property over the lines of other carriers it does so as the agent merely of such other carriers, and because doing so is a general convenience to the patrons of the road and not because it is in any way responsible for the making of the rates upon which the moneys are paid. This testimony stands uncontradicted in the case, and if we accept it as presenting the actual facts, as under circumstances we must, it relieves the defendant from all responsibility for injurious results to the business of Danville, consequent upon unfair or unequal through rates, and leaves it to defend only the rates which are made for transportation on its own lines.

The difference between the local and the through rates is certainly very marked and striking, and it results unfavorably to Danville because Richmond and Lynchburg, which are competing towns for the trade along the line of defendant's road, are directly upon the long through lines, while Danville is not. The latter must therefore pay local rates from or to the points of junction of defendant's road with the through lines upon all the freights sent or received over such lines; but this is an advantage which the towns first named have in their situation; they are specially fortunate because the long through lines reach them and do not reach Danville. For this good fortune the defendant is not to be thanked by the favored towns or blamed by the other, for the through lines have become established where they are without its aid or intervention. The obligation of defendant is to make rates on its own line which are fair, reasonable and undiscriminating; and if it does this the responsibility, if there is any, for inequalities as between towns on its line which result from the rates made by other carriers must rest upon those who make them.

The assumption that defendant is in some way responsible for rates made over other roads is very prominent in the complaints made in the testimony of the witnesses Wimbish and Yarbrough. Mr. R. Louis Dibrell, also, after testifying what were the rates of the defendant to Toronto, St. Louis, Mo., and Quincy, Ill., on tobacco, complained of them as excessive and also as being unstable and frequently changed. The instability may or may not be chargeable to defendant; the witness does not state the facts sufficiently to enable us to judge, and it is possible that defendant's rates may have remained unchanged while those of some other carrier in the line were unstable. In respect to the aggregate of the rates, however, the witness presents the facts sufficiently so that, if he labors under no mistake, the responsibility for any wrong that was committed can be definitely fixed. He desired to make a consignment of tobacco from Danville to St. Louis, and on applying to the agent of defendant's road at Danville he was told the charge would be sixty-five cents per cwt. This he thought excessive, and he says: "By paying a forwarding agent in Lynchburg and other points we can and did obtain rates through him much lower than those quoted and charged to me by the Richmond & Danville road." And he goes into explanations which show that the lower rates he obtained were in reduction of the rates from Lynchburg to St. Louis, no part of them being rates made by the defendant.

The most obvious comment upon this evidence is that while it fixes no responsibility upon the defendant it tends to prove a violation of law on the part of the carrier connecting with defendant at Lynchburg. It need hardly be remarked that if the law is obeyed by carriers the intervention of a broker can be of no service in obtaining better rates because they cannot be given rates which are lower than those open to the public in general. If the law is complied with, all rates will be open and public, and no carrier will be at liberty to depart from them at the solicitation of a broker or of any other person. If, as this evidence tends to show, a special rate was obtained in this case through the influence or persuasions of a broker, a penal offense was committed, and the transaction was one of a kind that the Act to Regulate Commerce was specially designed to put an end to. The Commission has, therefore, felt impelled to institute an inquiry on its own behalf in order to ascertain whether either of the roads connecting with defendant at Lynchburg was guilty of a violation of law, as the proofs tend to show. This investigation has been pursued so far as to show that, although the transaction testified to by the witness took place as stated, there is reason to believe that the intervention of the broker had nothing to do with the obtaining of low rates. It is claimed by the road over which the shipment westward from Lynchburg took place that the low rate was given by its agent inadvertently, through the use of an old special tariff which had escaped the attention of the general freight agent. Whether the giving of the rate to the broker in this case was an excusable error or an intentional violation of law it is plain that no wrong in respect to it is brought home to the defendant. It, however, appears that the sixty-five cent rate named to the witness as the charge from Danville to St. Louis was higher than it should have been. Errors of such a kind will sometimes occur when the rate is made up by adding together those made by several carriers, especially when the point of destination is one to which a shipment from the initial point is seldom made. Whether

charged, the Commission may, under the *third* section, determine whether such difference in rates 'makes or gives any undue or unreasonable preference or advantage to any particular person, company, firm, corporation or locality, or any particular description of traffic,' but I deny that the Commission has any power, under the *first* section, to declare that a rate open to all persons is not *reasonable* merely because it gives an advantage to the person who accepts it over another person who voluntarily selects a different mode of transportation for which a higher rate is charged.

"A mere difference of rates may in many cases constitute a violation of sections 2 and 3, but it can never constitute a violation of section 1 of the Act.

"It matters not how great the difference between two rates may be, it can never amount to a violation of section 1 if the higher rate is 'in and of itself, reasonable and just'—i. e., only a fair compensation for the service for which that particular rate is charged.

"The fact that sections 2 and 3 of the Act give to the Commission ample powers in regard to *differences* in rates is strongly persuasive that section 1 was intended to be confined to the reasonableness of rates."

In support of these views cases are cited, and particularly *Nicholson v. Great Western R. Co.* 5 C. B. N. S. 366, and *Great Western R. Co. v. McCarthy*, 29 Am. & Eng. R. R. Cas. 87.

The question thus presented is one of considerable importance, and it is forcibly and ingeniously argued in an elaborate brief. It is seen that it assumes at the outset "That the different modes of transportation with the corresponding rates are offered equally and impartially to all shippers alike; that it is possible for the class of persons usually engaged in that particular traffic to conform to either of the modes of transportation, and that the highest rate charged for either mode of transportation is reasonable in and of itself."

This assumption makes the resort to the one method of transportation rather than the other a matter purely of voluntary choice on the part of the shipper, and if the argument is correct in further assuming that the two methods are equally open to all who usually engage in the business, it may justly be urged with very great force that the party resorting to the one is by the choice itself precluded from raising any question of relative reasonableness by comparing the rates he chose with the lesser rates he might have chosen, but did not. It is conceded in the statement of the question that no two kinds of traffic are in question, but only one kind of traffic conducted in different ways. The merchandise in question is a single or identical article, and the purpose of the transportation is to deliver the commodity to consignees whose competition in the sale of it will be wholly unaffected by the method in which it has been brought to them. Whether it has come in barrels or in tanks is immaterial when the owner offers it in market; he can place no higher price upon it in the one case than the other. It is therefore obvious that if a heavier burden is laid upon one method of transportation than is imposed upon the other, it must, under ordinary circumstances, be impossible for those who adopt the first method

to succeed in the competition when they meet the others in the same markets. Their interest, therefore, in the charges which are made to their competitors is obvious. Unreasonably low charges to their competitors would be as fatal to their success as unreasonably high charges to themselves.

The most important question that arises upon the assumptions made as the basis for this argument is whether there are in fact two different modes of transportation which are offered, with their corresponding rates, equally and impartially to all shippers alike, and which it is possible for the class of persons usually engaged in the traffic freely to choose between. If no such offer is in fact made we have no occasion to follow the reasoning of the argument.

Unless we wholly misapprehend the real situation, when the rate sheets of these defendants are presented to the class of persons usually engaged in the traffic, the assumption that two different modes of transportation are offered to them equally and impartially is baseless. No one of these defendants offer two modes of transportation in the same sense in which it offers its facilities for transportation to shippers of other commodities. Each of them supplies rolling stock for one method only, and that one is shown to be the method on which, by their rate sheets, the heaviest burdens are imposed. No such choice is given to adopt the other mode as would be implied from the language used in stating the question; on the contrary, an applicant for that method of transportation would be told he must furnish his own rolling stock; and this means very much more than might seem to be indicated by this statement; it means, if he would make his business a success, that he shall supply himself with a very considerable number of cars, costing perhaps \$700 each, and that he shall also have stationary tanks at the points to which his shipments are to be made. The cost of the necessary terminal facilities which he must supply for himself we have no means from the evidence in these cases of comparing with the cost of making provision for the storage of barrels by one who adopts that method. It was testified that the terminal facilities of the Standard Oil Company of Kentucky at Selma, Alabama, cost about \$2,000, and at New Orleans about \$30,000. The vice president of the Waters-Pierce Oil Company estimates the average cost of putting up stationary tanks to accommodate tank shipments, including side tracks, etc., to be from \$1,000 to \$50,000, according to the requirements of the station, except at St. Louis, where he estimates it at \$250,000. It is obvious, we think, from the facts stated, that instead of the defendants offering two methods of transportation which are open to the acceptance of all, they offer only one which is so open. The other is offered on such terms that it can by possibility be accepted only by parties who can control a considerable capital, and who will supply for themselves an important part of the means of transportation, and also supply terminal facilities. The man of small means who adopts the method of transportation in barrels cannot be said to do so of choice when the failure of the carrier to supply for the other the cus-

ville consisted, went on to say: "It consists in according to other points, notably Richmond and Lynchburg, in the rehandling of provisions spoken of, a better rate and facilities than it accords to Danville for the same services." And he proceeds with specification as follows: "Provisions shipped from points north of the Ohio River and reshipped at Lynchburg and Richmond are carried through to points in North and South Carolina at rates considerably lower than if the same goods were shipped to Danville and reshipped from Danville to the same points South."

The witness, Samuel P. Wimbish, in answer to the question whether defendant, since the fifth of April last, had discriminated in matter of freight rates to Danville and other points and against Danville and its people, said: "To the best of my knowledge and belief it has. For example, defendant, before the fifth of April and since, had its freight charges so arranged as that said charges from Richmond and Lynchburg to Greensboro,' Charlotte, and other points were and are now far lower, relatively speaking, than between any of said towns and Danville."

Witnesses John W. Caton and B. S. Crews give similar evidence, and it seems to stand in contradistinction to that of the officers of the road, who testify positively that no advantage in rates is accorded to either Richmond or Lynchburg, and that the same charges in proportion to distance are made from them as from Danville to other towns on defendant's line. The supposed discrimination is, however, explained by tabulated statements which the witness, in support of the petition, files and from which we may see exactly what the discrimination consists in.

These tabulated statements show what the charges are which are made by defendant upon consignments of grain and of meats from Richmond and Danville, respectively, to other towns on defendant's line, and also the charges made from Richmond to Danville, the purpose being to show that, in competing for the trade of local points on defendant's road, Danville is placed at a disadvantage. The statement, so far as it relates to charges for the transportation of grain is here given.

From Richmond to Reidsville, N. C., 164 miles, charge eighteen cents per cwt.; from Richmond to Danville, 140 miles, fifteen cents; thence to Reidsville, twenty-four miles, eight cents; total, twenty-three cents.

From Richmond to Greensboro,' 213 miles, twenty cents; from Danville to Greensboro,' forty-nine miles, ten cents; added to rate to Danville, twenty-five cents.

From Richmond to Durham, 280 miles, twenty-one cents; from Danville to Durham, eighty miles, fifteen cents; added to rate to Danville, thirty cents.

From Richmond to Charlotte, 281 miles, twenty-one cents; from Danville to Charlotte, 141 miles, fifteen cents; added to rate to Danville, thirty cents.

From Richmond to Asheville, 360 miles, twenty-eight cents; from Danville to Asheville, 220 miles, twenty-seven cents; added to rate to Danville, forty-two cents.

From Richmond to Salisbury, 230 miles, twenty-one cents; from Danville to Salisbury,

ninety miles, fifteen cents; added to rate to Danville, thirty cents.

From Richmond to High Point, 248 miles, twenty-one cents; from Danville to High Point, seventy-eight miles, nineteen cents; added to rate to Danville, thirty-six cents.

The showing in respect to meats is similar to this, and another statement of shipments from Chicago or other western point to Richmond and to Danville, respectively, would, when reshipments were made to the other points named, result in like discrepancies. The discrimination the petitioners complain of is that defendant's rates are so made that the Danville merchant cannot deliver his goods at Reidsville, Greensboro,' and other towns named at which he may sell them at rates for transportation as low as are accorded to Richmond.

The most casual inspection of this statement, however, will make plain to the mind that the difference in rates which it shows in favor of Richmond results from the fact that from Richmond the property is supposed to be taken directly to the several points named, while the Danville shipments are first made from Richmond to Danville and then from Danville to the ultimate destination. The difference is, therefore, a difference between the charge for one transportation covering a definite distance and that for two transportations which aggregate the same distance. The petitioners think that upon such goods bought in Richmond, as they sell at Reidsville or other points named, they should be charged in the aggregate only the rates which are charged when the consignment is directly from Richmond through to the same point. Defendant assents to this when the Danville merchant ships directly from Richmond to the place of sale, but declines to allow it when the shipment is first to Danville and then to the ultimate destination. It is the denial of this privilege of having the two shipments count as one which constitutes the discrimination complained of.

The concession here claimed bears resemblance to an attempt to compel the railroad company to establish the system which in some parts of the country is known as "milling in transit"—a favor in transportation most often, perhaps, allowed to manufacturers of flour, but which is known in other industries also. In proceedings before the Commission where this system has incidentally been spoken of it has been said to have had its origin in the desire of carriers which received wheat for delivery to millers on their line to control the transportation of the manufactured article and keep it from passing to the hands of competitors. It is not likely that this is the sole reason for the practice, and we mention it only as one that has been named. The control of the carriage would be assured by giving to the consignor of wheat a through rate from the point of reception to the point at which he expected to market his flour, but with the privilege of converting the wheat into flour at an intermediate point. The advantage of such a privilege to the consignor may be shown by a supposed case. Let it be assumed that the rate on wheat from Chicago to New York is twenty-five cents per hundred

ing its general traffic into account, or without its being allowed to show how excessive competition at one point or in one traffic has forced higher rates elsewhere than might otherwise be reasonable, or how, on the other hand, good returns from one traffic which the traffic can bear without being oppressed, permit of very low rates to some other traffic which otherwise might be unprofitable. Thus the railroad practice appears to be to treat those rates as reasonable in and of themselves which, on a consideration of the whole field of operations, it is seen that the carrier can afford to accept, and which at the same time the owner of the property can afford to pay, because they are not in excess of what the service is worth to him; but in fixing upon rates it is specially important, if not absolutely necessary, to have something like uniformity in the rates upon articles which are of like kind and value and which supply the same demand since otherwise those which are made to bear the heavier rates would be driven out of the market.

This being the method whereby reasonable rates are customarily determined we have no occasion to discuss the soundness of the position taken by counsel, that if a rate is reasonable in and of itself the Commission cannot require it to be changed. We do not question the proposition of counsel that Congress has not conferred upon the Commission the authority to force a change of reasonable rates. By the Act to Regulate Commerce the Federal Legislature intended to be just to the carriers as well as to do justice to the general public; and we agree that it has not authorized their rates to be changed against their will when in themselves the rates are just and reasonable. If, therefore, it shall be found that the charges made by these defendants for the transportation of oil in barrels are in themselves just and reasonable, no order will be made by this Commission for their alteration; but in determining their reasonableness we shall consider ourselves not only at liberty but absolutely required to keep in view the disparity which is shown to exist between them and the rates which the same companies charge upon the same article of merchandise, when they receive and transport it in the cars furnished by shippers themselves. That disparity has an inevitable and very important bearing upon the question of reasonableness; *prima facie* it is unjust, because it is oppressive, and the defendants are fairly called upon to exhibit good reasons for it.

This view of the case also renders it unnecessary for us, in considering the evidence adduced in support of the complaints, to distinguish as between that which is offered to prove excessive rates on barrel shipments and that which is given to show unjust discrimination.

Whatever evidence tends to show that the rates on barrel shipments are unreasonable because too greatly in excess of the charges made on tank shipments will also in like degree tend to show that in making rates on barrel and tank shipments, respectively, the defendants were guilty of unjust discrimination. This is self evident.

On the hearing the defendants entered upon a justification of their rates, and it was

planted by them on several distinct grounds. These we may summarize as follows:

I. Those who have their property sent in tanks furnish the rolling stock for the purpose, and save the carriers the necessity and expense of supplying it.

II. This method of transportation exposes the carrier to less risk of losses by fire and of damage to other property transported by it.

III. It is more profitable to the carrier, because the probability of a return load is greater, and also because the load of a car may be greater, and the carrier neither loads nor unloads the property nor furnishes store room for it.

Each of these grounds of justification deserves and must receive some attention at our hands:

I. The fact that the owner supplies the rolling stock when his oil is shipped in tanks, in our opinion is entitled to little weight when rates are under consideration. It is properly the business of railroad companies to supply to their customers suitable vehicles of transportation; *Ogdensburg etc. R. Co. v. Pratt*, 89 U. S. 22 Wall. 128, 188 [22 L. ed. 827]; and then to offer their use to everybody impartially. If the varieties of traffic are such and their requirements of rolling stock so numerous and diversified that this becomes impracticable or burdensome, so that the aid of their customers becomes essential or convenient, the supply obtained by their assistance cannot with any justice be utilized by the carrier in such manner as to establish discriminations which would otherwise be inadmissible. The carrier has no right to hire rolling stock and then allow it to be used exclusively by one class of persons on such terms as will drive out of business those who are compelled to use its own rolling stock in a competitive traffic. This, however, is precisely what takes place in this traffic if the rates for the transportation in barrels are considerably in excess of those which are charged for the transportation in tanks. The tank cars which are furnished to the carrier by shippers, whether the use is paid for or not, ought properly to be held for the use of all; but if this is found impracticable, it is very certain and very obvious that proprietorship of the car for the use of which the carrier pays, as it generally does, can fairly entitle the owner to no special consideration in the making of rates. He has an advantage, arising from his ownership, in being able to control the use; but that circumstance can be no reason for extending to him exceptional consideration which will make the advantage specially oppressive to competitors. It is, on the other hand, a very forcible reason why the carrier should see to it that its patrons who are forced to make use of such facilities as it provides for them shall not find its own want of proper rolling stock made a ground of discrimination against them. On this point the misapprehension of the situation is very apparent in some of the arguments which have been made for the defense. The complainant, it is said, asks the railroad companies to relieve him from the consequences of his own lack of capital to carry on his business to the best advantage. He cannot choose the best method, because that method requires

others we may regret the fact, but we cannot under any authority the law has conferred upon us interpose to change it.

The conclusion is that the Commission cannot adjudge the defendant guilty of unjust discrimination in the particular mentioned. Neither can it find upon the evidence that any advantage which is obtained by Richmond or any other locality by means of low rates given by connecting roads is chargeable as a wrong done by defendant. The naming of a through rate by the defendant to or from any distant point and the receiving of the freight moneys on a consignment do not of themselves charge the defendant with any responsibility in respect to the rates beyond its own line. There is no wrong on its part in giving to its customers information respecting such rates nor in receiving payment for both itself and its connections. On the contrary, it is a great business convenience, and any carrier which should refuse to give through bills when it could do so or to name through rates which are made up by adding its own to the rates made by its connections would be justly liable to very severe censure. Through bills are among the most important and valuable of transportation facilities, and it is not only important that the consignor should know before he forwards the goods what the charges upon them for the whole distance are to be, but it commonly saves him much trouble and avoids mistakes

if he can procure the information from the local agent of the receiving company instead of being compelled to apply to two or more agents at a distance. The receiving carrier ought, therefore, to keep informed respecting rates over connecting lines, whether it joins in making them or not, and it ought also to give through bills when they are desired if it can arrange with its connections to do so. It will not perform its full duty to the public unless it does so.

The result of our investigation of this case may be summarized very briefly. The defendant has been guilty of some overcharges which the parties paying them are entitled to have refunded if the refunding has not already taken place. The proofs show, also, that in the spring and summer of 1887 the defendant made rates which were greater on its road to Danville than to Richmond through Danville, but its tariffs have since been so changed that such greater rates are no longer charged. No application is made for the refunding of moneys paid on such rates, and the question whether there should be any is not before us. The Commission has no authority to require the defendant to concede the privilege sought for, corresponding to that of "milling in transit," and the evidence offered to show that the rates of the defendant are excessive and unjust is too inconclusive to justify any finding to that effect.

SUPREME COURT OF RHODE ISLAND.

STATE of Rhode Island

v.

William FITZPATRICK.

The provision of **R. I. Pub. Stat. chap. 634**, of May 4, 1887, § 1, which prohibits any person from keeping any intoxicating liquors "for the purpose of sale," is not, for the reason that it may incidentally interfere with foreign or interstate commerce, obnoxious to the Federal Constitution, art. 1, § 8, which confers upon Congress exclusive power "to regulate commerce with foreign Nations and among the several States."

(Providence—Decided January 7, 1888.)

ON constitutional questions certified to the Supreme Court under R. I. Pub. Stat. chap. 220, §§ 1-9.

The case is stated in the opinion.

Mr. Clarence A. Aldrich, *Asst. Atty-Gen.*, for the State.

Mr. Hugh J. Carroll, for defendant.

Durfee, Ch. J., delivered the opinion of the court:

This case comes before us from the District Court of the Tenth Judicial District, by certificate, on a constitutional question. It is a complaint under Public Laws R. I. chap. 596, of May 27, 1886, and chap. 634, of May 4, 1887, against the defendant, for keeping without lawful authority intoxicating liquors "for the purpose of sale," in violation of chap. 634, § 1, in amendment of chap. 596.

INTER S.

§ 1, charging the offense substantially in the language of the statute. In the district court the defendant made the following motion, to wit:

"The defendant moves that the above entitled complaint be dismissed, because it is brought under § 1 of chapter 634, of the Public Statutes, which attempts to prohibit the keeping, for the purpose of sale, of any of the liquors enumerated in said section, without making any distinction as to whether the sale is to be within or without this State; and he claims that he has a right to keep the same for the purpose of sale without this State. U. S. Const. art. 1, § 8."

The district court overruled the motion, and, having found the defendant guilty, has certified the question involved in it to this court for decision.

Chap. 634, § 1, so far as it is necessary to recite it for the purposes of the question, is as follows, to wit:

"No person shall manufacture or sell, or suffer to be manufactured or sold, or keep, or suffer to be kept, on his premises or possessions, or under his charge for the purpose of sale, any ale, wine, rum, or other strong or malt or intoxicating liquors, a part of which is ale, wine, rum, or other strong or malt or intoxicating liquors, unless as herein after provided."

The corresponding sections in earlier statutes, whether license or prohibitory, contained the words "within this State" after the words "for the purpose of sale," thus making the keeping illegal only when it was for the pur-

the point of delivery of the petroleum oil and putting it down where the oil was received. The advantage in the latter case would be very great; in the former it might be trifling; but in all cases where cotton seed oil is the return loading the advantage would seem to be reduced to a minimum by the very low charge which is made for the transportation of that commodity. This charge, for some reason not satisfactorily explained to the Commission, is made astonishingly low when compared with the charge made upon petroleum, although the cotton seed oil is much the more valuable article. It is very manifest from the evidence that the cotton seed oil traffic in itself is not one of more profit to these defendants.

The capacity of some of the tank cars is such that a larger quantity of oil can be taken by them than in such cars as barrels are conveyed in. This, of course, is favorable to the carrier, and enables him to carry more cheaply in proportion to quantity; but a considerable proportion of the tanks are not of this great size, and the load they carry does not exceed the ordinary car load in barrels. Moreover, it has been shown that heretofore the great size of some of the tanks has been ignored by some of these defendants altogether, and they have made no distinction in charge between carrying sixty barrels in a tank and carrying twice that quantity. They may, therefore, be gainers instead of losers by the establishment of a rule which measures their compensation for the service rendered by the tonnage carried, whether it be in the one mode or in the other.

We are entirely satisfied that this ought to be the rule. Barrel shipments in car load lots, loaded by the consignor and to be unloaded by the consignee elsewhere than in the carrier's warehouse, if subjected to higher rates, would be charged more than is either just or reasonable. We also think, and so find, that the great difference in rates shown in these cases to have been generally made as between barrel and tank shipments amounted to unjust discrimination as against the former. The rule should be to consider the tank a part of the car itself, and for the load carried in it the charge ought to be the same by the hundred pounds as is made on the transportation of barrels of oil in car load lots in other cars. Even then the shipper in barrels is at some disadvantage, for he must pay freight on barrels as well as on oil; but this, as between him and the carrier, is not unjust.

We find, then, on a careful review of the testimony in this case and after full reflection, that no sufficient reason is shown to justify the defendants making a distinction in their charges as between the parties employing the two different modes of carriage. We hold that when transportation is in car load lots the same charge by the hundred pounds should be made upon all consignments from and to the same points. Particular routes might be named on which it would be just to allow the oil to be carried in tanks at a lower rate; but on other routes the transportation in barrels might be most likely to insure return loads. There neither is nor can be any rule on that subject, and the attempt to consider each road of a system and each several feeder by itself, and to discriminate for each according to the

probabilities of return loads, would be far more perplexing than useful, and would breed many vexatious controversies. The roads constituting the Southern Railway & Steamship Association submitted the subject to three arbitrators in 1886; and the arbitrators, by an award made October 27, 1886, decided as follows:

"The board decides and awards that, taking effect November 1, 1886; coal oil in barrels, in car load quantities, be put in sixth class released, the same as coal oil in tank cars."

By this award both methods of transportation were to be put, in respect to rates, on the same footing for the whole system; the arbitrators apparently deeming it impracticable to make any difference from a consideration of the probabilities of return loads. We assent to this view because we think the attempt to take these probabilities into account would not be likely to have beneficial results.

This ruling concerns a traffic in which one method of transportation has no other or different effect upon the value of the article carried than has the other. The oil, when delivered, is of no higher value because of having been conveyed in barrels; and the owner has in no respect been supplied with superior accommodations or facilities which can be made the basis for an additional charge against him. The additional charge heretofore made has necessarily been grounded on something besides additional benefit to the party subjected to it.

This ruling does not preclude such allowance for the use of tank cars as is customary, provided it be reasonable; but, on the contrary, it assumes that such allowance will be made. But it should be made on some system, by some rule of uniformity; and the authority to make it must not, carelessly or otherwise, be made a means of discrimination.

It is now to be considered how far these parties, severally, are to be deemed guilty of unlawful discrimination in what they have done during the period covered by the complaints:

Upon this subject we have to say at the outset that, in our opinion, the mere fact that they have hitherto made a difference in rates as between the shipments in barrels and the shipments in tanks ought not of itself to be considered proof of unjust discrimination. There is room for great differences in opinion as to the relative rates which can justly and properly be charged, and a considerable difference might honestly be made in framing a rate sheet. There should be further proof than this mere difference to make out the unlawful discrimination as regards consignments made prior to the time of promulgating this opinion.

In the case of the Louisville & Nashville Railroad Company this additional proof is furnished in several ways:

One of the proofs is to be found in the making of the rate by the tank car regardless of weight or quantity. When one tank holds twice as much as another there can be no valid excuse for this; it necessarily makes the rates excessively low to the shipper in large tanks and specially oppressive to the shipper in barrels, when the largest tanks are made use of,

but the wrong was emphasized in the case of this company by the public being led to suppose that when the contents of the car exceeded a certain quantity or weight an extra charge was made, when in fact this was never done. But proofs of intentional disregard of the rights of the complainant, or of such want of regard for them as is equivalent, are made very evident in the correspondence between himself and the agents of the company.

The general freight agent of the company testified that its freight rates on oil in tanks up to April 5, 1877, were made regardless of quantity; that they were then changed to rates by the hundred pounds, but on the 11th of May following the company again went back to tank car rates irrespective of quantity. Fixing the rate in tank cars by the hundred pounds does not seem, however, to have meant much, for there were some shipments within this period by the Standard Oil Company regardless of actual weight, and the witness testified that a tank would have been received as holding 20,000 pounds, although this was greatly below the average quantity carried in one. He testified further that the Southern Railway & Steamship classification as printed and as given out by this company has this note: "Coal oil or its products in tank cars must always be charged at actual weight;" but, though a member of that association, his company made only the tank car rate regardless of weight. That rate was printed on a type writer and posted in its offices. The association has inspectors to report any underweighing; and if a tank was billed at 20,000 pounds and on weighing they found it to be more they should report the fact, the witness said, but the report, so far as we can discover, would perform no valuable function whatever. The posting of a rate in the company's office was supposed by the witness to show sufficiently that the company did not accept the rule of the association as to actual weights. In this he was in error. The public would have a right to understand that his rate sheet and the note in the classification were to be construed together, and effect given to both thus construed.

The correspondence between this witness and the complainant will best show the discrimination, so far as it seems to have been personal.

May 16, 1887, the witness, in response to inquiries by the complainant, says the company has no tank cars and cannot furnish them. "Regarding charge for returning empty tank cars, we first wish to know to what points shipments of oil in tank cars would be made. Generally, however, I may say the rate returning will be one and a half cents a mile." "The rates on coal oil, car load, from Louisville to Huntsville, Ala., are, in barrels, thirty-seven cents per 100 pounds." This statement of the Huntsville rate was conceded to have been an error. The witness says the rate was twenty-nine and one half cents, but was mistakenly given by a subordinate who wrote and signed the letter in his name.

May 18 complainant replied, complaining that the rates actually made by defendant had the effect of discrimination as between tank car and barrel shipments to the extent of over

50 per cent in favor of the freight injury of his business in favor of Oil Company, and adding:

"Please state why it is that retail and bulk are made the same and 50 per cent difference to you can you thus discriminate against you give a lower rate than 5 per 100 pounds in barrels, Louisville, Alabama, and are you shippers ship their oil at a less

"What I desire to know is to prorate on an equitable basis W. & B. on my oil shipments. Please answer promptly and

May 21 the witness answers "The rate to Huntsville and which we have quoted are as present prepared to name."

Here the witness adopts and repeats what he says was a mistake, after his attention had been called to the figures. He thus notified that the rate to thirty-seven cents, though other twenty-nine and one-half cents there seem to have been shipped Standard Oil Company of Kentucky seven and one half cents, but possibly an inadvertence. He proceeds to justify the difference between tank and barrel shipments goes on to say:

"I do not see that it is any other whether we prorate with the C. C., W. & B. roads or not. You obtain through rates from them for division of revenue between companies and our roads is a matter only our respective lines and not

Here was a third mistake. I admit the business of the complainant, if he could, whether this be prorate on an equitable basis or not, road over which he desired to ship in that way obtain through rates the case shows that through rates exist, unless it be the statement that through rates could be obtained of the other roads; but such rates, there was nothing in complainant endeavoring to obtain; and his inquiry on that point not wanting in either civility or

Further the letter proceeded

"In conclusion let me repeat furnished you are just as low as anybody else; that whatever rates are furnished by the L. & N. road appears, and that all communications asking for rates of freight or directly to your shipments over meet with respectful consideration; but I have neither the time to give attention to your letter the reasons governing the policy of the Louisville & Nashville Railroad Company its rates, or suggesting basis for between its connections and its I shall not reply to any such communication in the future."

This lacks accuracy, for the rate was still thirty-seven cents to the

twenty-nine and one half cents to other persons, and it overlooks altogether the fact that "the policy" of the company, so far as it affected his shipments, was complainant's concern as well as the concern of the company, and he was entirely within the bounds of what pertained to his business as well as of right in endeavoring to bring about a change.

May 17, in answer to an inquiry from the office of the witness, complainant was given a rate of \$1.80 on oil in car load lots, Cincinnati to Nashville. This is also conceded to be an error and excess over the rate then charged to others; but the error was not corrected, as it should have been, in the subsequent correspondence.

August 29 complainant wrote the witness as follows: "Please name rate on coal oil in barrels and tank cars, Louisville to Nashville, and advise what rate per tank car you allow; also rate to Columbia, Tennessee, car load, and what classification do you now use." On the next day he wrote again: "Please name rate on tank cars, Louisville to Montgomery, Alabama," etc.

September 2, instead of answering these letters, the witness writes to ascertain by what line or lines the shipments would be forwarded from Marietta; a fact which could have no bearing on the inquiry made of him. His company was supposed to have regular and stated rates on its own lines, and he was asked to give them. He should have given them with the same promptness when the oil was to be delivered to him over another road that would be expected from him when the traffic originated at Louisville.

On the hearing the witness was asked whether he had not refused to give complainant rates on barrels to Knoxville and Nashville, and he replied:

"No, sir; not that I know of. I will add that I know of no reason why we should refuse him rates to Knoxville and Nashville, and I would say that we have not."

It nevertheless appeared that the witness, on being pressed by complainant to give rates on defendant's line, referred him to Mr. Frazer, of the Cincinnati, Washington & Baltimore road, for through rates. He was told in reply that Mr. Frazer refused to give rates, but he still continued to refer complainant back to him. The witness was asked by a member of the Commission:

"What objection could you have, no matter over what roads the oil came to Louisville, to name rates from Louisville to Nashville?"

"Ans. Nothing, except that I thought he ought to get rates from the lines he dealt with. They had our rates."

The question in substance was repeated for further answer.

Ans. Well, if Mr. Rice was prepared to or had delivered his oil directly, there would have been no objection. We would, of course, have been willing to name him tariff rates, but he was away from our line and we preferred to let him get the rates through our connections. We felt that if we furnished him a rate and that rate was advanced and we did not give him any special notice of the change, and he went along doing business basing his price

on the rate that had formerly been quoted him, that he would hold us for the overcharge.

Q. Was that the reason, so that you might be in position to advance the rates without notice?

Ans. Without special notice to him; that was the main reason. There was another reason that also influenced me in not giving him rates. I found that Mr. Rice had been asking the Cincinnati office for part of the rates and our office for part of the rates; and while the rates in our office and in the Cincinnati office are supposed to be the same, still if he got the rates partly from my office and partly from the Cincinnati office we would not know to what points they had quoted him rates, and the Cincinnati office would not know to what points we had quoted him rates.

Q. What was the objection to his being quoted rates from any other office if they were the same?

A. If he got the rates from our office and he had to be notified by special letter in case of an advance in those rates, I would not know if the Cincinnati office had quoted him any rates, and would not be able to notify him of the advance in the rates quoted by the Cincinnati office. If he had to be notified by the Cincinnati office of an advance in rates, they would not know that we had quoted him any rates. I was clearly of the opinion and still think that the proper place for him to get his rates was from the line that took his business in the first instance. With the number of people writing constantly for rates, the giving special notice to shippers of changes is very liable to be overlooked.

It will be noted that this testimony comes from the officer who would be expected under the law to have the rates on his own lines printed and posted in the offices of the company, and open to public examination. If the rates were thus printed and posted much of the correspondence would seem to have been needless; and the inference is very strong that the Law, in its spirit, at least, was not observed. The injurious consequences resulting therefrom were not relieved by answers to complainant's letters. He was not given the rates, because, as we are told, the officer supposed if that were done and the rates afterwards changed he would be under obligation to give him personal notice of the change. This hardly seems a plausible excuse. The law imposed upon defendant's officers no obligation to give special notice to shippers in case of lawful change of rates, and the giving out of the tariff sheets or the quoting of rates could no more create such an obligation than could the posting of the sheets at the company's stations, as the Law required.

The witness was further asked whether he did not persist in his refusal to quote rates after he had been notified that Frazer declined to name them. He replied: "That is likely, but I do not think I am to be blamed for Mr. Frazer's action." This is quite true; he should not be blamed for Mr. Frazer's action. It was his own illegal refusal to act that he was blamable for. Mr. Frazer was not compellable to name rates over any road but his own

ville consisted, went on to say: "It consists in according to other points, notably Richmond and Lynchburg, in the rehandling of provisions spoken of, a better rate and facilities than it accords to Danville for the same services." And he proceeds with specification as follows: "Provisions shipped from points north of the Ohio River and reshipped at Lynchburg and Richmond are carried through to points in North and South Carolina at rates considerably lower than if the same goods were shipped to Danville and reshipped from Danville to the same points South."

The witness, Samuel P. Wimbish, in answer to the question whether defendant, since the fifth of April last, had discriminated in matter of freight rates to Danville and other points and against Danville and its people, said: "To the best of my knowledge and belief it has. For example, defendant, before the fifth of April and since, had its freight charges so arranged as that said charges from Richmond and Lynchburg to Greensboro,' Charlotte, and other points were and are now far lower, relatively speaking, than between any of said towns and Danville."

Witnesses John W. Caton and B. S. Crews give similar evidence, and it seems to stand in contradistinction to that of the officers of the road, who testify positively that no advantage in rates is accorded to either Richmond or Lynchburg, and that the same charges in proportion to distance are made from them as from Danville to other towns on defendant's line. The supposed discrimination is, however, explained by tabulated statements which the witness, in support of the petition, files and from which we may see exactly what the discrimination consists in.

These tabulated statements show what the charges are which are made by defendant upon consignments of grain and of meats from Richmond and Danville, respectively, to other towns on defendant's line, and also the charges made from Richmond to Danville, the purpose being to show that, in competing for the trade of local points on defendant's road, Danville is placed at a disadvantage. The statement, so far as it relates to charges for the transportation of grain is here given.

From Richmond to Reidsville, N. C., 164 miles, charge eighteen cents per cwt.; from Richmond to Danville, 140 miles, fifteen cents; thence to Reidsville, twenty-four miles, eight cents; total, twenty-three cents.

From Richmond to Greensboro,' 213 miles, twenty cents; from Danville to Greensboro,' forty-nine miles, ten cents; added to rate to Danville, twenty-five cents.

From Richmond to Durham, 230 miles, twenty-one cents; from Danville to Durham, eighty miles, fifteen cents; added to rate to Danville, thirty cents.

From Richmond to Charlotte, 281 miles, twenty-one cents; from Danville to Charlotte, 141 miles, fifteen cents; added to rate to Danville, thirty cents.

From Richmond to Asheville, 360 miles, twenty-eight cents; from Danville to Asheville, 220 miles, twenty-seven cents; added to rate to Danville, forty-two cents.

From Richmond to Salisbury, 230 miles, twenty-one cents; from Danville to Salisbury,

ninety miles, fifteen cents; added to rate to Danville, thirty cents.

From Richmond to High Point, 218 miles, twenty-one cents; from Danville to High Point, seventy-eight miles, nineteen cents; added to rate to Danville, thirty-six cents.

The showing in respect to meats is similar to this, and another statement of shipments from Chicago or other western point to Richmond and to Danville, respectively, would, when reshipments were made to the other points named, result in like discrepancies. The discrimination the petitioners complain of is that defendant's rates are so made that the Danville merchant cannot deliver his goods at Reidsville, Greensboro,' and other towns named at which he may sell them at rates for transportation as low as are accorded to Richmond.

The most casual inspection of this statement, however, will make plain to the mind that the difference in rates which it shows in favor of Richmond results from the fact that from Richmond the property is supposed to be taken directly to the several points named, while the Danville shipments are first made from Richmond to Danville and then from Danville to the ultimate destination. The difference is, therefore, a difference between the charge for one transportation covering a definite distance and that for two transportations which aggregate the same distance. The petitioners think that upon such goods bought in Richmond, as they sell at Reidsville or other points named, they should be charged in the aggregate only the rates which are charged when the consignment is directly from Richmond through to the same point. Defendant assents to this when the Danville merchant ships directly from Richmond to the place of sale, but declines to allow it when the shipment is first to Danville and then to the ultimate destination. It is the denial of this privilege of having the two shipments count as one which constitutes the discrimination complained of.

The concession here claimed bears resemblance to an attempt to compel the railroad company to establish the system which in some parts of the country is known as "milling in transit"—a favor in transportation most often, perhaps, allowed to manufacturers of flour, but which is known in other industries also. In proceedings before the Commission where this system has incidentally been spoken of it has been said to have had its origin in the desire of carriers which received wheat for delivery to millers on their line to control the transportation of the manufactured article and keep it from passing to the hands of competitors. It is not likely that this is the sole reason for the practice, and we mention it only as one that has been named. The control of the carriage would be assured by giving to the consignor of wheat a through rate from the point of reception to the point at which he expected to market his flour, but with the privilege of converting the wheat into flour at an intermediate point. The advantage of such a privilege to the consignor may be shown by a supposed case. Let it be assumed that the rate on wheat from Chicago to New York is twenty-five cents per hundred

This last rate is corrected to forty-five cents by letter dated the next day. These letters of May 5 and May 9 are both written under the heading of Missouri Pacific Railway Company.

May 10 the commercial agent writes:

"In looking over our correspondence we note the concluding portion of your letter, which asks if Waters-Pierce Oil Company have any preference as to number of cars shipped. We answer, No, sir; you are exactly on the same level as any other oil shipper over our line. We carry all shipments at actual weight and make the usual mileage charge on return of empty tanks."

This last statement was not warranted by the facts; defendant made an allowance to the owner of the car of three fourths of a cent per mile for the use of the car.

May 11 complainant writes the assistant general freight agent:

"Do I understand that tank cars of bulk oil are taken at 10,000 pounds each? Also that 200 cases (or 60 barrels) are taken also at 20,000 pounds (per special rate No. 52 A)?"

May 16 complainant writes the commercial agent:

"Do you charge extra for return of empty tank cars; if so, how much?"

The special rate, 52 A, above referred to was put in evidence. It purports to be issued by the Missouri Pacific Railway Company and gives rates "on illuminating and lubricating oils in car loads of 300 cases or sixty barrels, or per tank car of 20,000 pounds from St. Louis, Missouri, to Vinitia, Indian Territory, \$65; McAlistar and Muscogee, Indian Territory, \$110." These points are not on defendant's road.

Also special rate 53 A, issued by the Missouri Pacific Railway Company, and taking effect at the same time, as follows: "Coal oil, car loads, from St. Louis and Carondelet, Missouri, to Newport, Arkansas, \$50 per car of 55 barrels, or per tank car; Little Rock, Arkansas, \$50 per car of fifty-five barrels, or per tank car; Texarkana, Arkansas, 45 cents per 100 pounds." The rates per tank car by this last would apparently be irrespective of actual weight.

May 19 the assistant general freight agent writes complainant:

"Replying to your communication of the 11th, I beg to advise that the rates mentioned in our special No. 52 on illuminating and lubricating oils are per tank car of 20,000 pounds, that the excess over the number of cases or barrels mentioned loaded in box cars, or the excess over 20,000 pounds contained in a tank will be taken at a proportionate rate per 100 pounds. In this connection I beg to advise you that our rate on oil in tank cars to McAlistar and Muscogee is 50 cents per 100 pounds. In other words, we do not exceed to McAlistar or Muscogee the rate which is made to Denison fifty cents per 100 pounds when in tank cars."

May 21 complainant writes the assistant general freight agent:

"Do you actually in each and every instance weigh tank cars of oil as shipped out, as well as the empty tank cars on their return, and charge full net weight thereon as thus shown, or do you estimate them, or how do you do this? Please answer promptly and to the point, and oblige."

May 25 an answer to other portions of this letter ignores the above query altogether.

Several other letters passed between the part is relating specially to the discrimination made by the published tariffs between the shipments in barrels and cans and by tank cars.

September 8 complainant writes the assistant general freight agent:

"Please inform me if you are still taking tank car oil at an estimated weight per car, or do you actually weigh each and every car, or do you take the estimate given you by the consignor? Will you give me the same net rates and weight by tank car to Austin, Dallas, Palestine, Houston, and Galveston that you may now give the Waters-Pierce Oil Company, or as low net rates as is given any shipper over your various lines? and please name me those rates to above points."

This was answered as follows:

"The charge on oil loaded on tank cars is on a basis of actual weight, minimum weight 25,000 at the established rates which are open to any shipper. This also answers your letter of the 8th to Mr. O'Connor."

The minimum car rate is stated in the evidence to have been raised on defendant's road to 25,000 pounds in July.

September 28 complainant writes the assistant general freight agent:

"You refer to my two letters of the 8th, but fail to answer the most important part of those letters, which I repeat once more in order that you may clear up the obscurity of your vision: I am desirous and will build twenty tank cars to carry bulk oil over your system of roads provided you will assure or guaranty to me the same net rates that you allow the Waters-Pierce Oil Company or as low a net rate in tank cars as is accorded to any other shipper to such general points as Austin, Dallas, Palestine, Houston, Galveston and other points reached by your vast system."

September 27 reply was made: "The rates charged by this Company are open and alike to all shippers."

September 30 the complainant writes the assistant general freight agent:

"Please inform me of the largest size or the largest capacity of tank cars you will carry over your lines and the largest capacity now used; and have you any particular requirements how they shall be built in order to conform to your general rules? Will you state to me more definitely and assure or guaranty me, in case I build tank cars, that you will give me as low net rates per car or per 100 pounds that you will give to the most favored shipper that ships in that manner over your lines, regardless of the quantity shipped? This assurance and guaranty I desire before I put my money into it, that I shall be treated exactly alike and have as low net rates in all other respects (regardless of commissions, etc.) that is accorded any other shipper, large or small. I am now in correspondence with tank car builders on this subject, and desire an early answer."

October 4 this was answered:

"We have no regulations governing the weight carried in tank cars different from the customary rules between western roads as to the weight carried in ordinary cars; nor do we

others we may regret the fact, but we cannot under any authority the law has conferred upon us interpose to change it.

The conclusion is that the Commission cannot adjudge the defendant guilty of unjust discrimination in the particular mentioned. Neither can it find upon the evidence that any advantage which is obtained by Richmond or any other locality by means of low rates given by connecting roads is chargeable as a wrong done by defendant. The naming of a through rate by the defendant to or from any distant point and the receiving of the freight moneys on a consignment do not of themselves charge the defendant with any responsibility in respect to the rates beyond its own line. There is no wrong on its part in giving to its customers information respecting such rates nor in receiving payment for both itself and its connections. On the contrary, it is a great business convenience, and any carrier which should refuse to give through bills when it could do so or to name through rates which are made up by adding its own to the rates made by its connections would be justly liable to very severe censure. Through bills are among the most important and valuable of transportation facilities, and it is not only important that the consignor should know before he forwards the goods what the charges upon them for the whole distance are to be, but it commonly saves him much trouble and avoids mistakes

if he can procure the information from the local agent of the receiving company instead of being compelled to apply to two or more agents at a distance. The receiving carrier ought, therefore, to keep informed respecting rates over connecting lines, whether it joins in making them or not, and it ought also to give through bills when they are desired if it can arrange with its connections to do so. It will not perform its full duty to the public unless it does so.

The result of our investigation of this case may be summarized very briefly. The defendant has been guilty of some overcharges which the parties paying them are entitled to have refunded if the refunding has not already taken place. The proofs show, also, that in the spring and summer of 1887 the defendant made rates which were greater on its road to Danville than to Richmond through Danville, but its tariffs have since been so changed that such greater rates are no longer charged. No application is made for the refunding of moneys paid on such rates, and the question whether there should be any is not before us. The Commission has no authority to require the defendant to concede the privilege sought for, corresponding to that of "milling in transit," and the evidence offered to show that the rates of the defendant are excessive and unjust is too inconclusive to justify any finding to that effect.

SUPREME COURT OF RHODE ISLAND.

STATE of Rhode Island

v.

William FITZPATRICK.

The provision of **R. I. Pub. Stat. chap. 634**, of May 4, 1887, § 1, which prohibits any person from **keeping any intoxicating liquors** "for the purpose of sale," is not, for the reason that it may incidentally interfere with foreign or interstate commerce, **obnoxious to the Federal Constitution**, art. 1, § 8, which confers upon Congress exclusive power "to regulate commerce with foreign Nations and among the several States."

(Providence—Decided January 7, 1888.)

ON constitutional questions certified to the Supreme Court under R. I. Pub. Stat. chap. 220, §§ 1-9.

The case is stated in the opinion.

Mr. Clarence A. Aldrich, *Asst. Atty.-Gen.*, for the state.

Mr. Hugh J. Carroll, for defendant.

Durfee, Ch. J., delivered the opinion of the court:

This case comes before us from the District Court of the Tenth Judicial District, by certificate, on a constitutional question. It is a complaint under Public Laws R. I. chap. 596, of May 27, 1886, and chap. 634, of May 4, 1887, against the defendant, for keeping without lawful authority intoxicating liquors "for the purpose of sale," in violation of chap. 634, § 1, in amendment of chap. 596, INTER S.

§ 1, charging the offense substantially in the language of the statute. In the district court the defendant made the following motion, to wit:

"The defendant moves that the above entitled complaint be dismissed, because it is brought under § 1 of chapter 634, of the Public Statutes, which attempts to prohibit the keeping, for the purpose of sale, of any of the liquors enumerated in said section, without making any distinction as to whether the sale is to be within or without this State; and he claims that he has a right to keep the same for the purpose of sale without this State. U. S. Const. art. 1, § 8."

The district court overruled the motion, and, having found the defendant guilty, has certified the question involved in it to this court for decision.

Chap. 634, § 1, so far as it is necessary to recite it for the purposes of the question, is as follows, to wit:

"No person shall manufacture or sell, or suffer to be manufactured or sold, or keep, or suffer to be kept, on his premises or possessions, or under his charge for the purpose of sale, any ale, wine, rum, or other strong or malt or intoxicating liquors, a part of which is ale, wine, rum, or other strong or malt or intoxicating liquors, unless as herein-after provided."

The corresponding sections in earlier statutes, whether license or prohibitory, contained the words "within this State" after the words "for the purpose of sale," thus making the keeping illegal only when it was for the pur-

published March 31. This basis will continue in existence until the Interstate Commission have definitely determined the question of the long and short haul clause. You are, of course, aware that the S. R'y & S. S. classification makes coal oil, car loads, sixth class."

The noticeable thing about this letter is that it refers to the classification of the Southern Railway & Steamship Association with an evident purpose to have complainant understand that this defendant recognized and accepted it. The proof shows that such was not the fact. Defendant, though it accepted it in part and circulated it with its rate sheets, repudiated it so far as concerned this traffic and some others, and its rates were materially different from what they should have been had that classification governed them. The repudiation of it, however, was only notified to the public by the making of special rate sheets which were not in conformity to it; obviously a very imperfect mode of giving the information.

May 28 complainant writes:

"Please state if oil in tank cars and barrels is under same classification, and also what rate per barrel you ask on barreled oil, also in bulk, per tank car, and how many gallons you allow to a barrel in bulk per tank car."

May 4 the general freight agent replies:

"As stated in my last communication, the classification of coal oil in barrels in car load lots is sixth class. I regret that I am not yet in position to quote through rates on coal oil in tank cars to all points reached by connecting lines, not having yet received the necessary information from them.

"I am not able to answer your inquiry as to how many gallons will be allowed to the barrel, but beg to assure you that every consignment will be waybilled upon an actual weight basis."

Here is repeated the erroneous information about the classification.

May 4 complainant writes:

"Do you take tank cars of oil at actual weight—that is to say, do you weigh each and every car? At what rate per barrel do you now take barreled oil; also bulk oil per barrel, and how many gallons of bulk oil do you allow to a barrel; also what charges for return of empty tank cars? In my letter of April 18 I asked you if you were now giving any lower rates to other parties from shipping points outside of Cincinnati on coal oil to the various points and places named to me per your letter of April 18. To this question you have not as yet answered. I would be much obliged if you would answer promptly."

This was not answered promptly, and on May 7 complainant writes complaining of the neglect, and also of discrimination between shipments in barrels and in tanks supposed to have been agreed upon at a meeting in Chicago.

May 9 the general freight agent replies:

"Rates on coal oil. Referring to your two favors of the 4th and 7th instant I regret that my frequent and enforced absences from Cincinnati have at times prevented as prompt replies being given to your communications as I would have wished.

"I beg to inform you that this company was not represented at any meeting held in Chi-

cago on March 11, and also that upon all shipments of coal oil in barrels we propose charging upon an actual weight basis.

"As you are aware, the classification of the Southern Railway & Steamship Association makes the rate on coal oil in barrels, car load lots, sixth class. You are also aware that by special authority of the National Railway Commissioners the lines of the Southern Railway & Steamship Association have renewed their former rates, and I take pleasure in forwarding you by this mail a copy of our latest tariff from Cincinnati.

"I think it hardly necessary for me to say that above rates will be charged to all shippers alike."

Here the mistake about the classification is again repeated. The reference to the National Railway Commissioners—by which this Commission was intended—was misleading, to say the least. The Commission never investigated coal oil rates, or gave "special authority" for their renewal; it never sanctioned any difference in the rates as between tank car and barrel shipments, and had never up to the date of this letter had its attention called to them in any way. What it did was to relieve the carriers represented in the association temporarily from the strict rule of the fourth section of the Act to Regulate Commerce, with a restriction that in the mean time the disparities existing under their tariffs should not be increased.

May 11 complainant writes, and what he says regarding the classification of the Southern Railroad & Steamship Association is altogether natural under the circumstances:

"Yes; I am aware that the classification of the Southern Railroad & Steamship Association makes rate on coal oil in barrels sixth class (same as tank cars), but what does such issuance of a rate amount to when not lived up to by you and other lines? Mr. Gault wrote me and called my attention particularly to a printed circular issued by Virgil Powers, Commissioner, dated November 1, 1886, in which barreled and tank car oil is both made sixth class. Your tariff sheet No. 11, dated November, 1886, just received, makes barreled oil fifth class and tank oil sixth class. How do you reconcile this? But this difference is trivial compared to other more gross outrages practiced by your lines and others in carrying tank car oil by the lump (regardless of weight) at about one fourth of that charged on barreled oil, pound for pound.

"You say that upon all shipments of coal oil in barrels we propose charging upon an actual weight basis. Does this apply to tank car shipments of bulk oil; and, if so, do you actually and without a question weigh each and every tank car of oil that goes over your line, and charge full weight thereon?

"Please name me rates on oil in tank cars and barrels to Lexington, Chattanooga, Atlanta, Birmingham, Jackson, Mississippi; Meridian and Vicksburg, Mississippi; Knoxville and Huntsville, Tennessee; Shreveport, Louisiana, and Montgomery, Alabama. I trust and hope that you will give me these rates promptly.

"Please state if any charge for return of empty tank cars. Can you not prorate with

the C. W. & B. so as to give me through rates from here to above points?"

The reply May 14 is as follows:

"In my letter of the 28th *ultimo*, which you refer to, I advised you that we had renewed rates to all points south of the Ohio and east of the Mississippi River, the same as were in effect on March 31. I have already sent you copy of our tariff No. 11, which indicates rates now in effect and which have been in effect from the time we received from the National Commissioners the exemption from the fourth clause of the Interstate Commerce Law. I note your request to be furnished with rates to Lexington, Chattanooga, Atlanta, Birmingham, Jackson, Meridian, Vicksburg, Knoxville, Huntsville, Shreveport, and Montgomery, and will endeavor to obtain the necessary information from connecting lines, and advise you further as early as possible.

"I regret that we cannot prorate with the C., W. & B. road, and our rates will consequently apply from Cincinnati."

The inquiry as to a charge for the return of the tank cars, it will be seen, is not responded to.

May 16 complainant writes to get rates and adds:

"Please inform me why you cannot prorate with the C., W. & B. on the through rate on the oil from here. You certainly must prorate with her on other business from other points, or from east and west."

The answer May 20 was that "All shipments of coal oil pay our rates from Cincinnati, and we are not prorating on this traffic from any point whatever."

Some other letters near this time are omitted, as not being important to this controversy.

May 28 the general freight agent writes:

"Referring to recent correspondence and quoting rates to the points named in your letter of the 11th instant, I beg to inform you that the following rates on coal oil are obtainable from Cincinnati to points named:

In car tanks.	Per 100 lbs. Car loads in barrels.
Lexington.....	\$ 28 00
Chattanooga.....	50 00
Atlanta.....	61 80
Birmingham.....	60 00
Meridian.....	60 00
Vicksburg.....	60 00
Knoxville.....	50 00
Huntsville.....	87 c. per 100 lbs.
Shreveport.....	118 00
Montgomery.....	118 00
	18 cents.
	88 "
	46 "
	47 "
	45 "
	84 "
	33 "
	64 "
	47 "

As bearing upon this table a list of shipments was given, some of the figures in which require notice. The rate—barrel rate—to Lexington was soon reduced to ten cents per 100 pounds, the tank rate remaining the same. The average shipment in tank cars to that point seems to have been of 31,228 pounds weight, which would make the rate on tank car shipments about 8.82 per 100 pounds, and the barrel rate about 20 per cent higher. The only shipper to this point in either mode was the Standard Oil Company of Kentucky. In contrast to these the shipments from Cincinnati to Chattanooga were in tank cars varying from 25,000 to 43,815 pounds. The barrel rate was thirty-three cents per 100 pounds. The tank rate was \$50 per car. At thirty-

three cents per 100 pounds the rate carried in the smallest car would \$82.50; on that carried in the largest have been \$144.50. On an average it would have been \$113.54. This makes the rate on barrel shipment in excess of the rate on tank instead of 20 per cent excess as at I

A similar vast discrepancy was shown rates from Cincinnati to Meridian. rate was \$80, which, if the tanks averaged 1000, would make the rate per hundred twenty-five cents; or, if they averaged twenty cents; but while this charge the rate on barrel shipments was raised six cents per 100 pounds—probably than 175 per cent excess over the rate.

May 30 complainant sent the following:

"Please name rate on oil, tank cars, car lots, to Mobile and New Orleans:
Also:

"Yours 28th, enclosing rates, final after several applications. These prohibitory on my shipments, as full well; and the device or method tank car shipment in bulk is purged against me (who ship entirely in order that I cannot compete with the Oil Company in the sale of my product.

"By these rates thus given me to different points in the South you discount against my shipments not less than cent and as high as 213 per cent, with—Huntsville, Ala.—you make the same per 100 pounds for both barrels that in tank cars. I will here show I arrive at this comparison:

"All the bulk oil carried in tank the Pennsylvania oil regions to they pay the same amount for 50 gallons as for 50 gallons (including the bare empty barrel is carried extra to cover for the return of the empty tank cars not bring back freight as against that can. I maintain and assert the cars of the Standard Oil Company by 100 barrels of 50 gallons (or 5,000 each), on an average, while some of over 6,500 gallons (or 130 barrels), fair and equitable basis I will call, and herewith give you the true amount of discrimination you dare on me in the face and eyes of the Act: (See table on next page.)

"Do you really think that under state Act you can boldly go on and criminate against my shipments, to tion of my business, which you do willing to hazard in the interest of Standard Oil Company so long as they force or compensate you for all damage accrue for such gross violations of the

"I desire to call your attention to of the Interstate Act as a further from one who wants to ship his oil over your line, and to give you not every tank car load of oil, as well as smaller lot, L. C. L., that you have since the Interstate Act has taken all such from this time forth the rates or has discriminated against

the Act to Regulate Commerce which were enacted to establish uniformity, equality and publicity.

It is proper to say on behalf of these two defendants that after the filing of the complaint their rates were revised and made much more reasonable and just. It is also proper to give them the benefit of the protest made by the general agent of the first named company against being supposed to have intentionally carried the very large tanks with knowledge of the actual capacity. If the officer was misled, as he claims to have been, the blame should fall upon the party deceiving him. We cannot say in this case that there was anything more than an honest misapprehension, and are inclined to think that such was the fact; but one of the difficulties attending cases of this nature is that while the Law imposes severe penalties on the carrier and its agents for acts on their part designed or calculated to create discrimination as between shippers, it imposes none on shippers themselves who by artifice, misrepresentation, false billing, or other deception of the carrier, secure advantages to themselves which it would be illegal and punishable for the carrier voluntarily to grant. If, therefore, the agent of the Standard Oil Company had purposely misled the defendant's officer in the matter referred to, and thereby obtained an unfair advantage, the complainant would be without redress, unless on the ground of negligence defendant could be held responsible for acting upon the false information.

The Illinois Central Railroad Company we find to have discriminated unjustly against complainant by making some of the barrel rates excessively high, as compared to those on tank car shipments, and also by shipping at car rates, irrespective of quantity, while leading complainant to understand that if the capacity exceeded a specified minimum the excess would be charged for.

From the evidence it appears that during the period in controversy tank car shipments were made over the road of defendant to New Orleans only. To points to which no tank car shipments were made this defendant did what was also done by the Louisville & Nashville Railroad Company in some cases—made the same rates by the 100 pounds, whether shipments were in tanks or barrels. If these equal rates were offered to the public in good faith, defendant ought to be compelled to give the like uniform rates to points to which tanks were sent; and if they were not offered in good faith, the defendant ought to be held estopped by its own rate sheets from disputing the justice of this uniform rule.

But in this case we find, as we have so often found in others, that parties applying for tank car rates are misled into supposing they are graded by quantity, when in fact they are uniform by the tank car.

May 3, 1887, the general freight agent of defendant wrote complainant as follows:

"Yours without date. I replied to your previous letter promptly, stating that the rate on oil from Cairo (according to the tariff sent you) when in full car loads would take fourth class, released, whether in tanks or barrels, which will give the information desired."

May 4 he wrote again:

"Yours of the 30th *ultimo*. Our rates on oil in car loads, released, 20,000 pounds and over, Cairo to Jackson, Mississippi, 50 barrels and over, \$1.65 per barrel; in tank cars, 24,000 pounds and over, forty-seven cents per 100 pounds; Cairo to New Orleans, in barrels or tank, car loads, 24,000 pounds and over, twenty-four cents per 100 pounds.

"We have no rates at present in effect from Cleveland, but would refer you to H. Coope, Ga., O. & W. Railroad, Cincinnati, Ohio, for rates from that point to N. O. and Jackson, Miss., via Odin."

What is noticeable in these letters is that the rate given is the same on shipments in the two modes, and that a minimum car load rate is mentioned. The agent explains in oral testimony before the Commission that the rates here specified were the old rates temporarily restored, and that there was a complete revision of rates afterwards.

May 31 the agent writes complainant:

"Rates on oil.—I have your much appreciated favor of the 28th instant. We charge for actual weights on oil, whether in tanks or barrels; and, as previously advised, our rates are to all shippers alike.

"Tanks which are hauled one way loaded are at present returned without extra charge in the same manner as other foreign cars are handled.

"The Mississippi Valley joint classification makes coal oil in car loads, whether in wood or in tanks, fourth class, which rates we charge to points taking Mississippi Valley joint classification."

The agent says of this letter in his oral evidence:

"That refers to oil to local stations. It does not refer to New Orleans, as Mr. Rice had been repeatedly advised what the rate was there."

To put this in plain English it is this: Defendant proposed to charge for actual weight on oil in tanks to the points *only* to which no shipments in tanks were made. The offer of equal rates to the shippers in barrels was therefore illusory.

September 30 complainant wrote the general freight agent—

"I desire and propose to build twenty tank cars immediately to run over your lines, provided you will assure or guaranty me as low net rates as you accord to any other shipper, regardless of quantity shipped; also that you will carry oil for me in tank cars from any point or station on your line to points on and beyond your lines at the same proportionate (or division of a through rate) that you receive or get out of the most favored shipper.

"Please state how large capacity of tank cars you would allow to run over your road and how large tank cars have been used on your road; please answer promptly."

The answer, November 2, is as follows:

"Rate on oil from Cairo—Upon returning to my office, after an absence of several weeks out on the line, I find your favor of September 30 and October 13.

"Coal oil or its products in barrels is now third class; if released, sixth class; actual weight to be charged for each case, but not less than 24,000 pounds per car load. I trust this heavy reduction in our local rates will enable

just and unreasonable, but without avail. They asked the general freight agent of the said railroad on October 12, 1887, if the said rate or charge for the said service was not raised from twenty-five cents per barrel to thirty-four cents per barrel at the request and dictation of the Standard Oil Company. The answer to said question was, in substance and effect, that the rate or charge for said service was so raised and increased at the request and dictation of the Standard Oil Company; that said Standard Oil Company was a large shipper of freight over their road and branches and that they (meaning the railroad management) felt obliged to comply with the wishes of the said Standard Oil Company in these matters and obey its behests, as a failure to comply and obey would, it was feared, result in a loss of business from said Standard Oil Company to said road.

X. The Standard Oil Company is a corporation engaged in the same business as petitioners and is a rival of petitioners in said business. Petitioners charge that the said Standard Oil Company has for years past and still does exert its influence with and over said railroad, its management and officials to compel them to exact unjust, unreasonable and extortionate rates and charges and conditions of shipment from petitioners, and other refiners and shippers of oil in Western Pennsylvania, in order to injure, embarrass, cripple, and if possible, ruin their business. That the efforts of the said Standard Oil Company in this direction are unceasing and have heretofore and do now prevail with said railroad management and officials as well as with the other railroad companies operating in said region. That the rate or charge of twenty-five cents per barrel for said service prior to April 5, 1887, instead of twelve cents per barrel, was due to the interference and dictation of the said Standard Oil Company with a view to injure the business of petitioners, and others.

XI. Petitioners shipped from Titusville to Buffalo aforesaid over the said railroad since April 5, 1887, to the 14th day of February A. D. 1888, 12,293 barrels of refined oil in 183 cars. Owing to lack of information petitioners are unable to state when said Receivership ceased, and are therefore unable to give the precise number of barrels shipped during said receivership, and the number shipped during the time that the Western New York & Pennsylvania Railway Company has had control of said road. Petitioners request the privilege of stating the number of barrels carried by each when the information shall be furnished them.

XII. Petitioners have sustained and suffered loss and damage by reason of the unjust and unreasonable toll, rates and charges herein complained of and the unjust and unreasonable conditions of shipment imposed upon their traffic as aforesaid, and the discrimination practiced by said Receiver and the said Western New York & Pennsylvania Railway Company against the said City of Buffalo and the traffic of petitioners as aforesaid since April 5, 1887, the sum of \$2,886.46 and that the interest thereon to the 14th of February A. D. 1888, amounts to about \$74, which is also claimed. And petitioners are continuing to sustain loss and damage each time a shipment is made. Petitioners request that they be allowed to state

amount of loss and damage sustained by them during the time of said receivership, and since, when the facts are known in order to charge each respondent with his or its proper amount.

Petitioners pray that the said G. Clinton Gardner, Receiver, and the said Western New York & Pennsylvania Railway Company, be cited to appear and answer this petition; and that they be required to make discovery of the number of barrels of oil carried by each since April 5, 1887, for petitioners between Titusville and Buffalo; and that the grievances hereinbefore set forth be investigated; and that on final hearing petitioners be awarded such damages as shall be just and proper by way of reparation; and that the said Western New York & Pennsylvania Railway Company be notified and ordered to cease and desist from the violations of said Act complained of; and the said Receiver and said last mentioned Railway Company be ordered to make such other and further reparation as shall be just and proper, and that such further orders be made and proceedings be had as shall fully protect petitioners.

William H. HEARD

v.

GEORGIA R. R. CO.

(No. 46.)

- *1. **Passengers** paying the same fare upon the same railroad train, whether white or colored, are entitled to equality of transportation, in respect to the character of the cars in which they travel, and the comforts and conveniences supplied.
2. **Separation of white and colored passengers** paying the same fare is not unlawful, if cars and accommodations equal in all respects are furnished to both, and the same care and protection of passengers observed.
3. By requiring the petitioner who had paid a first class fare to ride in a half car set apart for colored passengers, with accommodations and comforts inferior to the car for white passengers in the same train who paid the same fare, and without the protection against annoyance furnished to white passengers, the Georgia Railroad Company subjected him to undue and unreasonable prejudice and disadvantage, in violation of the third section of the Act to Regulate Commerce.

(Heard Dec. 15, 1887; Decided Feb. 15, 1888.)

COMPLAINT based upon the exclusion of a colored passenger from a first class car. See pleadings, *ante*, 493.

Messrs. J. W. Cromwell and W. C. Martin, for petitioner.

Mr. Joseph B. Cumming, for defendant.

REPORT AND OPINION OF THE COMMISSION.

Schoonmaker, Commissioner:

The issue presented by the pleadings in this

*Headnotes by COOLEY, *Chairman*.

upon barrel shipments varied from 20 per cent to two hundred or more. Neither greater risks, greater expense, competition by water transportation, or any other fact or circumstance brought forward in defense, or all combined, can account for these differences. The conclusion is irresistible that the rate sheets were not considerably made with a view to relative justice.

We have thus, with as much brevity as was practicable, in view of the great bulk of evidence, reviewed the cases and expressed our conclusions. It remains only to direct what orders shall be entered in the cases, respectively.

In the case against the Louisville & Nashville Railroad Company order will be entered that the defendant do forthwith cease and henceforward abstain from the unjust discrimination found to exist in its charges for the transportation of petroleum oils as between shipments in barrels and in tanks, and from making any higher charges by the hundred pounds for the transportation of the oils in barrels, including the barrels, than it makes or shall make, contemporaneously, for the transportation of the like weight of the oils in tanks.

It will be further ordered in the same case that the said defendant do forthwith cease and hereafter abstain from making uniform rates for the transportation of petroleum oils by the tank car instead of by weight or quantity when the capacity of the tank cars in use on the lines of road is not uniform or nearly so; the necessary effect of such uniform rates by the tank being to establish unjust discriminations and to give the shippers of oils in tanks undue and unreasonable preference and advantage.

In the case against the St. Louis, Iron Mountain & Southern Railway Company order will be entered that the defendant do forthwith cease and henceforward abstain from the unjust discrimination found to exist in its charges for transportation of petroleum oils as between shipments in barrels and in tanks, and from making any higher charges by the hundred pounds for the transportation of the oils in barrels, including the barrels, than it makes or shall make contemporaneously, for the transportation of the like weight of the oils in tanks.

In the case against the Cincinnati, New Orleans & Texas Pacific Railway Company order will be entered in the same terms as the order above directed to be entered against the Louisville & Nashville Railroad Company.

In the case against the Cincinnati, New Orleans & Texas Pacific Railway Company and the Alabama Great Southern Railroad Company order will be entered in the same terms as the order above directed to be entered against the Louisville & Nashville Railroad Company.

In the case against the Newport News & Mississippi Valley Company and the Louisville, New Orleans & Texas Railroad Company order will be entered in the same terms as the order above directed to be entered against the Louisville & Nashville Railroad Company.

In the case against the Newport News & Mississippi Valley Company and the Illinois Central Railroad Company order will be entered in the same terms as the order above directed to

be entered against the Louisville & Nashville Railroad Company.

In the case against the Illinois Central Railroad Company order will be entered in the same terms as the order above directed to be entered against the Louisville & Nashville Railroad Company.

In the case in which the Illinois Central Railroad Company is sole defendant it is unnecessary to enter any order at this time. In so far as discriminations have arisen from rates on tank shipments they will be directed by this company if the order made against it in the case last above mentioned is observed. As to the further controversy which this case presents, what is said in the cases against the Mobile & Ohio and the Mississippi & Tennessee Railroad Companies is directly in point.

In each of the cases in which an order is to be made, as above stated, a report and finding of facts and conclusions is entered herewith and is to be considered a part hereof.

BOSTON CHAMBER OF COMMERCE.

v.

LAKE SHORE & MICHIGAN SOUTHERN R. CO., New York Central & Hudson River R. Co., and Boston & Albany R. Co.

SAME

v.

LAKE SHORE & MICHIGAN SOUTHERN R. CO.

SAME

v.

NEW YORK CENTRAL & HUDSON RIVER R. CO.

(Nos. 61-63.)

1. *The relative reasonableness of rates on shipments from western points to cities on the Atlantic seaboard is to be determined by all the circumstances and conditions that affect the traffic to the respective points between which the rates are questioned, and not solely by one standard of comparison.
2. The length and character of the haul, the cost of service, the volume of business, the conditions of competition, the storage capacity and the geographical situation of the different terminal points are all elements of importance bearing upon the relative reasonableness of the respective charges for transportation.
3. The fact that the export rates through Boston, and the rates on merchandise intended for coast wise points east of Portland, and the west bound rates from Boston have been made by the carriers the same as corresponding New York rates in order to put Boston on an equality with New York and other seaboard cities wherever Boston is a competitor with those cities is not con-

* Head Notes by COOLY, Chairman.

ville consisted, went on to say: "It consists in according to other points, notably Richmond and Lynchburg, in the rehandling of provisions spoken of, a better rate and facilities than it accords to Danville for the same services." And he proceeds with specification as follows: "Provisions shipped from points north of the Ohio River and reshipped at Lynchburg and Richmond are carried through to points in North and South Carolina at rates considerably lower than if the same goods were shipped to Danville and reshipped from Danville to the same points South."

The witness, Samuel P. Wimblish, in answer to the question whether defendant, since the fifth of April last, had discriminated in matter of freight rates to Danville and other points and against Danville and its people, said: "To the best of my knowledge and belief it has. For example, defendant, before the fifth of April and since, had its freight charges so arranged as that said charges from Richmond and Lynchburg to Greensboro,' Charlotte, and other points were and are now far lower, relatively speaking, than between any of said towns and Danville."

Witnesses John W. Caton and B. S. Crews give similar evidence, and it seems to stand in contradistinction to that of the officers of the road, who testify positively that no advantage in rates is accorded to either Richmond or Lynchburg, and that the same charges in proportion to distance are made from them as from Danville to other towns on defendant's line. The supposed discrimination is, however, explained by tabulated statements which the witness, in support of the petition, files and from which we may see exactly what the discrimination consists in.

These tabulated statements show what the charges are which are made by defendant upon consignments of grain and of meats from Richmond and Danville, respectively, to other towns on defendant's line, and also the charges made from Richmond to Danville, the purpose being to show that, in competing for the trade of local points on defendant's road, Danville is placed at a disadvantage. The statement, so far as it relates to charges for the transportation of grain is here given.

From Richmond to Reidsville, N. C., 164 miles, charge eighteen cents per cwt.; from Richmond to Danville, 140 miles, fifteen cents; thence to Reidsville, twenty-four miles, eight cents; total, twenty-three cents.

From Richmond to Greensboro,' 218 miles, twenty cents; from Danville to Greensboro,' forty-nine miles, ten cents; added to rate to Danville, twenty-five cents.

From Richmond to Durham, 280 miles, twenty-one cents; from Danville to Durham, eighty miles, fifteen cents; added to rate to Danville, thirty cents.

From Richmond to Charlotte, 281 miles, twenty-one cents; from Danville to Charlotte, 141 miles, fifteen cents; added to rate to Danville, thirty cents.

From Richmond to Asheville, 360 miles, twenty-eight cents; from Danville to Asheville, 220 miles, twenty-seven cents; added to rate to Danville, forty-two cents.

From Richmond to Salisbury, 230 miles, twenty-one cents; from Danville to Salisbury,

ninety miles, fifteen cents; added to rate to Danville, thirty cents.

From Richmond to High Point, 248 miles, twenty-one cents; from Danville to High Point, seventy-eight miles, nineteen cents; added to rate to Danville, thirty-six cents.

The showing in respect to meats is similar to this, and another statement of shipments from Chicago or other western point to Richmond and to Danville, respectively, would, when reshipments were made to the other points named, result in like discrepancies. The discrimination the petitioners complain of is that defendant's rates are so made that the Danville merchant cannot deliver his goods at Reidsville, Greensboro,' and other towns named at which he may sell them at rates for transportation as low as are accorded to Richmond.

The most casual inspection of this statement, however, will make plain to the mind that the difference in rates which it shows in favor of Richmond results from the fact that from Richmond the property is supposed to be taken directly to the several points named, while the Danville shipments are first made from Richmond to Danville and then from Danville to the ultimate destination. The difference is, therefore, a difference between the charge for one transportation covering a definite distance and that for two transportations which aggregate the same distance. The petitioners think that upon such goods bought in Richmond, as they sell at Reidsville or other points named, they should be charged in the aggregate only the rates which are charged when the consignment is directly from Richmond through to the same point. Defendant assents to this when the Danville merchant ships directly from Richmond to the place of sale, but declines to allow it when the shipment is first to Danville and then to the ultimate destination. It is the denial of this privilege of having the two shipments count as one which constitutes the discrimination complained of.

The concession here claimed bears resemblance to an attempt to compel the railroad company to establish the system which in some parts of the country is known as "milling in transit"—a favor in transportation most often, perhaps, allowed to manufacturers of flour, but which is known in other industries also. In proceedings before the Commission where this system has incidentally been spoken of it has been said to have had its origin in the desire of carriers which received wheat for delivery to millers on their line to control the transportation of the manufactured article and keep it from passing to the hands of competitors. It is not likely that this is the sole reason for the practice, and we mention it only as one that has been named. The control of the carriage would be assured by giving to the consignor of wheat a through rate from the point of reception to the point at which he expected to market his flour, but with the privilege of converting the wheat into flour at an intermediate point. The advantage of such a privilege to the consignor may be shown by a supposed case. Let it be assumed that the rate on wheat from Chicago to New York is twenty-five cents per hundred

first named respondents also form a through railroad line from Chicago to New York, and the said lines, respectively, have established joint tariffs of rates, fares and charges for such continuous lines, and each of said companies operates its own road.

Before and since the Act to Regulate Commerce took effect the first two respondent railroads have been largely engaged in transporting from Chicago to New York, by continuous carriage and under a joint arrangement as to through rates, the issuance of bills of lading, and the interchange of cars, large quantities and varieties of merchandise, which have, since the Act to Regulate Commerce took effect, been divided into six different classes in the traffic tariffs.

The length of the entire haul from Chicago to New York is, for purposes of division, taken at 984 miles, made up as follows:

L. S. & M. S., Chicago to Buffalo.....	538 miles.
N. Y. C. & H. R., to New York.....	446 "
Actual distance from Chicago to N. Y.....	984 "
L. S. & M. S., Chicago to Buffalo.....	540 "
N. Y. C. & H. R., Buffalo to East Albany.....	299 "
N. Y. C. & H. R., East Albany to New York.....	143 "

The haul from Chicago to New York, via the Pennsylvania Company's line, for purposes of division, is 920 miles to Jersey City.

During the same period the three respondent railroads have also been largely engaged in transporting from Chicago to Boston, by continuous carriage and under a joint arrangement as to rates, issuance of bills of lading, and interchange of cars, the same several classes of merchandise.

The entire haul from Chicago to Boston is 1,040 miles, for purposes of division made up as follows:

L. S. & M. S., Chicago to Buffalo.....	538 miles.
N. Y. C. & H. R., Buffalo to East Albany.....	301 "
Boston & Albany, East Albany to Boston.....	201 "
Actual haul Chicago to Boston.....	1,040 "
L. S. & M. S., Chicago to Buffalo.....	540 "
N. Y. C. & H. R., Buffalo to East Albany.....	299 "
Boston & Albany, East Albany to Boston.....	201 "

In the tariff classification flour and grain in car load lots are in the sixth class; in less than car load lots in the fifth class; provisions such as salted meats, pork products, etc., in car load lots in the fifth class; in less than car load lots in the fourth class; butter and eggs in the second class, and cheese in the third class.

The joint rates and charges fixed whereby the respondents under the arrangements between them for the through transportation per hundred pounds for the several classes of merchandise from Chicago to New York and from Chicago to Boston, respectively, are as follows:

Class.	To	To
	New York.	Boston.
1st.....	75	85
2d.....	65	75
3d.....	50	55
4th.....	35	40
5th.....	30	35
6th.....	25	30

These rates when extended to car load lots of flour and grain (sixth class), averaging 80,000 pounds per car, result as follows:

Freight per car Chicago to New York.....	\$75 00
Freight per car Chicago to Boston.....	90 00

The additional transportation charged to Boston of ten cents per hundred pounds for the first two classes and of five cents per hundred pounds for the four other classes over the New York rates for like kinds of merchandise is an extra fixed charge or arbitrary which has for many years been added to the New York rate in fixing the Boston rate, irrespective of the amount of the New York rate.

The term *arbitrary* is a technical term, expressing a difference which does not change with the through rate; and similar arbitrary differences have for years prevailed at Montreal, Philadelphia, and Baltimore, of two cents at the first two cities and three cents at the last named less than the New York rate.

For west bound freight no additional charge for transportation from Boston to Chicago over the rate from New York to Chicago has for several years been made, but the rates from both cities have been the same; and since the Act to Regulate Commerce took effect the rates for west bound freight, both from Boston and New York, have been the same as the east bound rates from Chicago to New York for the different classes.

The through rates which under the agreement between the roads are charged for the transportation of the different classes of merchandise from Chicago to New York and to Boston, respectively, are collected from the shipper or consignee, as the case may be, in a lump sum; and the moneys so collected are distributed among the roads according to certain percentages or divisions fixed upon between them, based upon the distances taken for that purpose, before stated, and not upon the actual mileage of the respective roads. These percentages or divisions of the through rates are shown in detail by the testimony, but are not deemed material, and are therefore omitted from these findings.

The distances by the Pennsylvania Railroad and its connections to the points reached by it are as follows:

Chicago to Philadelphia.....	320 miles.
Chicago to New York.....	230 "
Chicago to Boston.....	1,252 "

The rates by the Pennsylvania lines to Philadelphia from Chicago are two cents less per hundred pounds, or \$6 per car load of 80,000 pounds, than to New York; and the rates by these lines to New York City and to Boston, respectively, are the same as by the respondents' lines.

The merchandise intended for New York and the merchandise intended for Boston are in their transportation from Chicago to East Albany carried over the same lines and the same distances.

Since the Act to Regulate Commerce went into effect the three respondent carriers have also, under through bills of lading from Chicago to Liverpool and other foreign ports, been largely engaged (under a joint arrangement for rates between themselves and steamship companies or vessels performing ocean carriage from Boston) in transporting the various classes of merchandise, but more especially flour and grain, over their respective roads from Chicago to East Boston, where the merchandise has been transferred to vessels or steamships.

others we may regret the fact, but we cannot under any authority the law has conferred upon us interpose to change it.

The conclusion is that the Commission cannot adjudge the defendant guilty of unjust discrimination in the particular mentioned. Neither can it find upon the evidence that any advantage which is obtained by Richmond or any other locality by means of low rates given by connecting roads is chargeable as a wrong done by defendant. The naming of a through rate by the defendant to or from any distant point and the receiving of the freight moneys on a consignment do not of themselves charge the defendant with any responsibility in respect to the rates beyond its own line. There is no wrong on its part in giving to its customers information respecting such rates nor in receiving payment for both itself and its connections. On the contrary, it is a great business convenience, and any carrier which should refuse to give through bills when it could do so or to name through rates which are made up by adding its own to the rates made by its connections would be justly liable to very severe censure. Through bills are among the most important and valuable of transportation facilities, and it is not only important that the consignor should know before he forwards the goods what the charges upon them for the whole distance are to be, but it commonly saves him much trouble and avoids mistakes

if he can procure the information from the local agent of the receiving company instead of being compelled to apply to two or more agents at a distance. The receiving carrier ought, therefore, to keep informed respecting rates over connecting lines, whether it joins in making them or not, and it ought also to give through bills when they are desired if it can arrange with its connections to do so. It will not perform its full duty to the public unless it does so.

The result of our investigation of this case may be summarized very briefly. The defendant has been guilty of some overcharges which the parties paying them are entitled to have refunded if the refunding has not already taken place. The proofs show, also, that in the spring and summer of 1887 the defendant made rates which were greater on its road to Danville than to Richmond through Danville, but its tariffs have since been so changed that such greater rates are no longer charged. No application is made for the refunding of moneys paid on such rates, and the question whether there should be any is not before us. The Commission has no authority to require the defendant to concede the privilege sought for, corresponding to that of "milling in transit," and the evidence offered to show that the rates of the defendant are excessive and unjust is too inconclusive to justify any finding to that effect.

SUPREME COURT OF RHODE ISLAND.

STATE of Rhode Island

v.

William FITZPATRICK.

The provision of **R. I. Pub. Stat. chap. 634**, of May 4, 1887, § 1, which prohibits any person from **keeping any intoxicating liquors** "for the purpose of sale," is not, for the reason that it may incidentally interfere with foreign or interstate commerce, **obnoxious to the Federal Constitution**, art. 1, § 8, which confers upon Congress exclusive power "to regulate commerce with foreign Nations and among the several States."

(Providence—Decided January 7, 1888.)

ON constitutional questions certified to the Supreme Court under R. I. Pub. Stat. chap. 220, §§ 1-9.

The case is stated in the opinion.

Mr. Clarence A. Aldrich, Asst. Atty.-Gen., for the state.

Mr. Hugh J. Carroll, for defendant.

Durfee, Ch. J., delivered the opinion of the court:

This case comes before us from the District Court of the Tenth Judicial District, by certificate, on a constitutional question. It is a complaint under Public Laws R. I. chap. 596, of May 27, 1886, and chap. 634, of May 4, 1887, against the defendant, for keeping without lawful authority intoxicating liquors "for the purpose of sale," in violation of chap. 634, § 1, in amendment of chap. 596,

INTER 5.

§ 1, charging the offense substantially in the language of the statute. In the district court the defendant made the following motion, to wit:

"The defendant moves that the above entitled complaint be dismissed, because it is brought under § 1 of chapter 634, of the Public Statutes, which attempts to prohibit the keeping, for the purpose of sale, of any of the liquors enumerated in said section, without making any distinction as to whether the sale is to be within or without this State; and he claims that he has a right to keep the same for the purpose of sale without this State. U. S. Const. art. 1, § 8."

The district court overruled the motion, and, having found the defendant guilty, has certified the question involved in it to this court for decision.

Chap. 634, § 1, so far as it is necessary to recite it for the purposes of the question, is as follows, to wit:

"No person shall manufacture or sell, or suffer to be manufactured or sold, or keep, or suffer to be kept, on his premises or possessions, or under his charge for the purpose of sale, any ale, wine, rum, or other strong or malt or intoxicating liquors, a part of which is ale, wine, rum, or other strong or malt or intoxicating liquors, unless as herein-after provided."

The corresponding sections in earlier statutes, whether license or prohibitory, contained the words "within this State" after the words "for the purpose of sale," thus making the keeping illegal only when it was for the pur-

Lake Shore, on bacon, 28,000 pounds, to New York	45 92
Lake Shore, on bacon, 28,000 pounds, to New York harbor	41 33
Lake Shore, on bacon, 28,000 pounds, to Albany, local	50 38
New York Central, on corn and flour, to New York	23 04
New York Central, on corn and flour, to New York harbor	20 28
New York Central, on corn and flour, to Albany, local	25 78
New York Central, on bacon, 28,000 pounds, to New York	25 81
New York Central, on bacon, 28,000 pounds, to New York harbor	23 23
New York Central, on bacon, 28,000 pounds, to Albany, local	28 06

The earnings of the three carriers, respondents, on shipments from Chicago to Boston in like car loads, after deducting lighterage and wharfage, are as follows:

Lake Shore, on corn to Boston	\$46 56
" " East Boston, export	36 71
" " wheat to Boston	35 02
" " East Boston, export	48 56
" " flour to Boston	36 79
" " East Boston, export	35 20
" " " " " "	48 56
" " " " " "	38 06
" " " " " "	33 92
" " " " " "	50 70
" " " " " "	42 63
" " " " " "	39 06
" " " " " "	28 06
New York Central, on corn to Boston	20 54
export	19 59
New York Central, on " " " "	26 06
export	21 30
New York Central, on flour to Boston	18 98
export	28 36
New York Central, on " " " "	23 36
export	21 87
New York Central, on bacon to East Boston	17 40
Boston and Albany, on corn to Boston	15 08
export	14 38
Boston and Albany, on corn to East Boston	17 40
export	15 11
Boston and Albany " " East Boston	14 46
export	17 40
Boston and Albany, on flour to Boston	15 64
export	18 94
Boston and Albany on flour to East Boston	18 94
export	17 51
Boston and Albany, on bacon to East Boston	16 06
export	

The difference in the divisions of the export rates through East Boston is occasioned by the difference in the charges for lighterage and wharfage, deducted before division.

The rates charged by the defendant carriers are as low as the rates by any other all rail route from Chicago to Boston.

The cost of service from Chicago to Boston exceeds the cost of service to New York more than is accounted for by the increase in distance by reason of the fact that the grades on the Boston & Albany Railroad are heavy, while there are practically no grades between Albany and New York, and the further facts that the cost of coal is greater to the Boston & Albany Railroad Company than to the New York Central & Hudson River Railroad Company; and more is consumed and more engines

and train crews are used in handling an equal number of cars. Trains destined for Boston and New England points are also broken up at Albany and hauled over the Albany bridge by a switch engine to East Albany and made up into trains on the Boston & Albany Road.

Merchandise sent by rail from Boston to Chicago and other western points mentioned in the petition is sold by merchants and manufacturers of Boston and New England in competition with similar merchandise sent from New York by merchants and manufacturers there, and with similar merchandise sent from other eastern cities, ports of entry, and States.

Chicago and the other western points aforesaid are common markets in which merchants and manufacturers of all eastern cities, ports of entry; and States engage in competition. Various lines of ocean steamers and other vessels ply between Boston and foreign ports. Boston is the second port of entry in importance in the United States, and the value of its imports for the year 1886 was \$58,430,707.

Much of the merchandise imported into the United States seeks a western market, and to accord equality of competition receives as low a rate from Boston to that market as prevails at New York.

Much of the merchandise imported consists of raw material used in the manufactures of New England and there manufactured and sent west for sale. These manufactures are some of them situated at points along the line of the Boston & Albany Railroad and its connections, many of which points are also reached by the transportation routes leading from New York.

The receipts of grain and flour at New York during a period of seven months, from April 1 to October 31, in the years 1886 and 1887, were as follows:

1886. Grain	65,958,283 bushels
" Flour	3,208,008 "
1887. Grain	65,492,255 "
" Flour	3,373,630 "

The proportions of the grain so received that came by rail and by water transportation were as follows:

1886. By rail	29,088,708 bushels
" water	36,919,555 "
1887. " rail	27,721,233 "
" water	37,772,000 "

The present rates on first and sixth class merchandise from Chicago and some other western cities to New York and Boston, and also what the rates to Boston by different routes would be if computed on the rate per mile charged by the Pennsylvania short line, are as follows:

From Chicago (distance via Pennsylvania Railroad, 920 miles to New York; 1,253 to Boston):

Present rate to New York	1st class, 75; 6th class, 35
" " Boston	85; " 30
To Boston, computed via Boston & Albany Railroad	" 85; " 30
To Boston, computed via Pennsylvania Railroad	" 102; " 34

From Cincinnati (distance via Pennsylvania Railroad, 765 miles to New York; 1,097 to Boston):

Present rate to New York, 1st class, 65; 6th class, 21 1/4	
Boston.....	75; " 20 1/4
To Boston, computed via Boston & Albany railroad.....	" 78; " 26
To Boston, computed via Pennsylvania Railroad,	" 96; " 31

From East St. Louis (distance via Pennsylvania Railroad, 1,071 miles to New York; 1,408 to Boston):

Present rate to New York...1st class, 87; 6th class, 29	
Boston.....	97; " 34
To Boston, computed via Boston & Albany Railroad	" 100; " 38
To Boston, computed via Pennsylvania Railroad.....	" 114; " 38

From Louisville (distance via Pennsylvania Railroad to New York, 875 miles; 1,038 to Boston):

Present rate to New York...1st class, 75; 6th class, 25	
Boston.....	85; " 30
To Boston, computed via Boston & Albany Railroad	" 89; " 30
To Boston, computed via Pennsylvania Railroad.....	" 104; " 35

The total receipts of grain and flour expressed in bushels received at the five Atlantic Cities of New York, Philadelphia, Baltimore, Boston and Montreal during the year 1886 were 249,062,989 bushels, the amount exported 160,888,499 bushels, and the percentages of the amounts so received and exported were as follows:

New York received 52.5; exported 47.4.	
Philadelphia " 8.7; " 6.7.	
Baltimore " 15.6; " 21.4.	
Boston " 14.4; " 10.5.	
Montreal " 8.8; " 13.7.	

The amount of grain only received at the same cities during the same time was 187,263,718 bushels, the amount exported 110,795,038 bushels, and the percentages of the respective amounts received and exported by the several cities were as follows:

New York received 55.7; exported 49.8.	
Philadelphia " 8.7; " 7.4.	
Baltimore " 16.1; " 22.2.	
Boston " 10.4; " 5.8.	
Montreal " 9.1; " 14.8.	

These percentages have not been uniform in different years, but have fluctuated somewhat during the last ten years, and have decreased more at Philadelphia than elsewhere. The number of steamers sailing monthly from New York and plying between that city and various foreign ports is 115, with a total carrying capacity of 263,200 tons, aggregating for a year 1,890 steamers and 8,178,400 tons capacity, to which it is claimed may safely be added 10 per cent of tonnage for coast lines, tramp vessels, etc. The number of steamers sailing from Boston to foreign ports for the year ending September 30, 1887, was 235, and to provincial ports 357; total, 792. The tonnage was not shown.

The rates from Chicago to New York on wheat and corn by lake and canal from May 2 to October 23, 1887, averaged on wheat about nine cents per bushel, including elevation, and on corn a little less. The rates by lake and rail were nearly uniform, at twelve cents per bushel on wheat and 11 1/2 on corn, while at the same time the rates by all rail on wheat were fifteen cents a bushel and fourteen cents on corn.

ENTER 8.

There are fourteen lines or routes of transportation from southern and western points through Chicago to New York, including one water line by way of the lakes, Erie Canal, and Hudson River. An equal number of lines or routes reach Boston, all of them rail routes east of Buffalo.

The foreign commerce of the port of New York for the fiscal year ending June 30, 1886, was \$802,535,015, and the foreign commerce of all the other ports of the United States for the same time was \$1,426,018,032.

The value of the domestic exports from the City of New York for the fiscal year ending June 30, 1886, was \$346,412,339.

The value of the domestic exports from the City of Boston for the same time was \$53,429,513.

The values of the domestic exports from all the ports of the United States, except New York, for the same time were \$371,476,307.

The tonnage of the Erie Canal, arriving at tide water, for the year 1886 was as follows:

Tonnage from Western States.....	1,525,901 tons.
Tonnage from New York State.....	924,130 "
Total by Erie Canal.....	2,450,031 "

And the estimated value of the property transported on the Erie Canal for the same year was \$163,726,849.

The through rate from Chicago to Boston is a little less than six mills per ton per mile, and all other rates to the points north and west of Boston on the main line by which they reach Boston are the same as Boston rates.

Opinion and Conclusions.

The facts recited sufficiently indicate the differences in rates between New York and Boston of which complaint is made and the reasons for the differences that have weight with the railroad carriers. Other facts also appeared in evidence to which passing reference may be made. The complaint relates solely to the east bound rates from Chicago and some other western points to Boston proper.

For export business through Boston, and for shipments to points east of Portland, and for all west bound business, the Boston rates are on an equality with New York rates; and no ground of complaint exists that Boston is discriminated against in respect to those rates. The general fact is thus apparent that for the business in which Boston is a competitor with New York, both export and west bound, the rail rates for both cities are equal; and in that respect neither city has any advantage over the other. Except in the particulars mentioned Boston is upon a substantial equality of rates with all the cities that are its competitors on the Atlantic seaboard.

Complaint is not made that the Boston export rates and the coastwise rates to points east of Portland are unlawful under the fourth section of the Act, and they are conceded on the part of the petitioners to be necessary to enable Boston to participate in the foreign and coastwise trade; but the fact of such lower rates and the lower west bound rates is pressed as a strong argument that the east bound Boston local rates are unjust and should be reduced to the export rates.

The export and coastwise rates through Boston not being assailed in this proceeding, the question of their lawfulness is not now before the Commission. The complainants in their brief disclaim any desire to disturb the export rates in these words: "The petitioner wishes, however, it distinctly understood that while it appeals to the facts connected with the Boston export trade as proving that the Boston local arbitrary is unreasonable it does not wish in any way, directly or indirectly, injuriously to affect the foreign commerce of the Port of Boston; and it therefore does not ask an order enjoining the continuance of such export rate or of the export rebate system; its only desire in this regard is that the local rate shall at all events be made as low as the export rate, as it is in all other Atlantic seaboard cities save Portland."

After such an explicit withdrawal of any question affecting the lawfulness of the export rates and rebates the Commission is not required to pass upon them in this case. It is obvious that an adjudication upon those rates requires additional parties to the record and an opportunity to be heard on the part of the various business interests likely to be affected by any determination reached. Although incidental reference is made to these rates no decision is rendered upon them and no opinion relating to them is intended to be expressed.

The sole question for determination is whether the east bound rates to Boston, which are ten cents per hundred weight higher on the first and second classes of merchandise and five cents per hundred weight higher on the third, fourth, fifth and sixth classes, are unjust and unreasonable, and therefore unjustly discriminate against Boston.

The claim of the petitioners is that the Boston local rates shall be made as low as the export rates; in other words, that they shall be on equality with the New York rates. A claim of this character, if made as matter of right and not of favor, should be founded upon a corresponding equality or substantial similarity of circumstances and conditions that control the making of rates by carriers, and to some extent their effect upon the business of localities.

If differences in the conditions of the traffic to two or more points exist which materially affect the cost or the value of the service it would scarcely be reasonable to require a carrier to disregard those differences and make good to every community disadvantages of situation or other disadvantages. As has been well said, "Different localities are more or less favored, in regard to transportation facilities either by nature or the enterprise of man. It cannot be maintained that it is the duty of the common carrier to equalize these existing inequalities at his own expense. All that is required of him is not to create them himself arbitrarily. He must treat all alike that are situated alike, but he cannot be bound to wipe out existing differences. He may be obliged to carry freight at a lower rate to some localities than to others, but this in itself does not constitute an injustice or injury to the shipper in a less favored locality, so long as the charges are reasonable in themselves and alike to all in the same situation." With the qualification indicated in the case of *The Boards of Trade Union of Farmington v. Chicago etc. R.*

Co. ante, 608, 1 *Inters. Com. Com. Rep.* 215, that rates should be relatively reasonable when the same carrier transports over different branches of its road to a common market, these principles may be accepted as correctly stated.

The contention of the petitioners for equality of rates with New York is not supported by equality of distance, of cost of service, or by other considerations, such as volume of business, competition of rail and water ways, ocean service, terminal facilities, and storage capacity—all elements of more or less importance in the determination of rates, and some of them of controlling influence.

The argument of the petitioners is based almost entirely upon the distances hauled and the assumed parity of cost of service; and elaborate calculations founded on distances by various lines have been produced showing the through rates to different seaboard cities from initial western points, the divisions of through rates among connecting carriers, the lighterage expenses at New York, and other incidental matters. It appears from these statistics that the Lake Shore & Michigan Southern Road and the New York Central to Albany receive each a slightly higher amount of the through Boston local rate than of the through rate to New York; but, as the contention is with the through rate to Boston as a unit, the divisions of that rate and the proportions received by the respective carriers forming the line are unimportant for the purposes of this case. The lighterage charges at New York are also irrelevant to the question to be determined. They are part of the rate paid by the shipper to that city, and, when necessary upon a portion of the merchandise handled there, are borne by the carriers as an element of transportation expenses. They are not separable from the aggregate rate for the purpose of any question involved in this decision. The total charge for transportation is all that concerns the shipper, and not the percentages allotted by agreement to one or more of the connecting carriers in a through line. Carriers voluntarily enter into agreements for through shipments over connecting roads, and the division of the through rate is part of their mutual agreement which the parties to the arrangement adjust for themselves, and the adjustment of which does not affect the shipper. Such adjustments may not be on the exact basis of cost of service in any case, and many other considerations may influence the parties in making them. The fact may be, therefore, that the Lake Shore Road and the New York Central Road may each receive more in amount of the through rate to Boston from Chicago than to New York for the respective hauls to Albany, although the service to that point is identical; but the through rates are charged for the entire haul to the final destination, and are not governed by the service to some intermediate point in the line or where the line diverges to different destinations.

The element of cost of service which may at one period have been recognized as controlling in fixing rates has long ceased to be regarded as the sole or the most important factor for that purpose. The value of the service with respect to the articles carried, the volume of business, and the conditions and force of compe-

the coastwise rates east of Portland and the west bound rates from Boston have been equalized with the New York rates is not controlling nor even important upon the question of the reasonableness of the Boston local rates.

The character of the east bound and the west bound traffic differs so materially that there is much force in the argument that the west bound traffic can be carried at lower rates without serious disproportion in the aggregate earnings for the carriage of the same number of tons in the two directions. The testimony shows that over 70 per cent of the east bound traffic consists of the two lower classes of merchandise upon which the lowest rates are made, viz.: thirty-five cents and thirty cents, respectively, per hundred weight. About half of the west bound traffic from Boston and New England points is of the first, second, and third classes, upon which the rates are, respectively, seventy-five cents, sixty-five cents, and fifty cents per hundred weight to Chicago, and on that basis to other western points. During the year 1887, until October 1, 85 per cent of the traffic carried west by the Boston & Albany Road was of the first class.

The export, coastwise, and west bound rates have long been conceded to Boston, by the carriers competing for east bound business, not because the conditions of transportation are equal, but, under the demands of the laws of trade, to put Boston on an equality with competitors at Baltimore, Philadelphia, New York, Montreal and Portland in reaching common markets abroad and at the West. That Boston has been very largely benefited by the concession of equality with New York in these respects cannot be doubted. The large export and import business and the heavy shipments to the West of imported merchandise from Boston and of manufacturers of various kinds from different points in New England along the line of the Boston & Albany Road, and its connections show the great advantages to Boston of these liberal arrangements.

But like concessions were not made to the Boston local rates from the West. The merchandise shipped to Boston at the higher rates is for local consumption. There is no competition in that business from other localities. It is enjoyed exclusively by the Boston merchants and traders, and there is no reason to believe that the consumption would be larger or the prices to consumers materially less if the rates were on a par with those to New York. It was said in argument, and some testimony was given to support it, that the sales by Boston merchants to certain points north of Boston on the Massachusetts coast had fallen off to a considerable extent since the Act to Regulate Commerce took effect, and that grain from New York is carried to those points by water and sold at less than the Boston dealer can afford after paying local rates from Boston to those localities.

This is the only evidence in the case tending to show that Boston is in any way injured by the existing rates, and, as there was opposing evidence that the shipments of flour and wheat to Boston from the first of April to the last of October, 1887, was in excess of the like shipments during the corresponding months in 1886, the inference that the falling off in ship-

ments of corn and oats is due to the rates is scarcely warranted; and a doubtful inference, without evidence of a more positive character, is not sufficient to justify a finding of prejudice to Boston in comparison with New York justly attributable to the rates. This testimony, therefore, does not establish the unreasonableness of the rates to Boston.

The refusal of the Boston & Maine Railroad to join in shipments from Boston to those places on the basis of the Boston rate makes necessary an additional local charge over that road, and the grain carried to those towns by water from New York is presumably grain borne at low rates over the Erie Canal, for which the rail carriers are in no way responsible.

The average earnings of the line of the defendant carriers per ton per mile from Chicago to Boston for merchandise of the sixth class at the Boston local rate of thirty cents per hundred weight, is 5½ mills. This is as low as the rate of any other rail carrier between the same points and as low as has ever been charged in the absence of rate wars. The average per ton per mile earnings of the line of the Lake Shore and New York Central Roads for the same class of merchandise from Chicago to New York at the rate of twenty-five cents per hundred weight is 5.11½ mills, being the difference of about $\frac{1}{16}$ of a mill. In view of the difference in the circumstances and conditions of the traffic to the two cities, this discrepancy does not appear to be unreasonable or unjust.

The point is made that the differences in the New York and Boston rates are fixed sums—usually called arbitraries—of ten cents per hundred weight for the first two classes and five cents per hundred weight for the four other classes, and that these are not founded on an exact mathematical basis and do not change in amount if rates rise or fall. It is not perceived that there is any importance in this circumstance. The term "arbitrary" applied to rates in railroad phraseology implies no alarming significance. It is used to designate some rate not founded on a combination of other rates or upon a percentage theory of some general rate. It may be and frequently is lower than a rate established on a different basis. It is quite as likely, therefore, to indicate a favorable as an unfavorable rate. Mathematical precision in the adjustment of rates is not always attainable nor necessary, and if the differences are not in fact unreasonable it cannot be material whether they are arrived at by one mode or another, and while the custom of arbitraries or fixed differences may not be an ideal method, it is simpler than fluctuating percentages, and so long as it is fair and equitable it is amenable to no valid objection. The differences between New York and other competing cities are also fixed sums or arbitraries: at Philadelphia and Montreal two cents per hundred weight lower on all classes, and at Baltimore three cents per hundred weight lower on all classes. The fact of a fixed difference in rates to the seaboard cities is not peculiar, therefore, to New York and Boston.

The existence of two depots for the Boston & Albany Road at its eastern terminus, one for Boston local business and the other for export business at East Boston, with a haul six miles

longer than to the local depot, is not entitled to prominence upon the questions under consideration. Both are for the same road and for the same city, and for the better accommodation of the business for which they are designed, like the three or four depots of the New York Central Road at New York City, some of which are nearly as far apart as those at Boston. As the East Boston depot is reached by a branch from the main stem of the road, it may be regarded in some respects as a different line; or, in view of the haul from Chicago and the circumstances of the case, it may with reason fall under the maxim "*De minimis non curat lex.*"

The existing rates from Chicago and other western points to the seaboard cities have not been established capriciously nor reached by gentle and harmonious methods. They are the result of many years of contention and struggle, involving ruinous rate wars between the different lines and repeated and protracted negotiations, in which concessions were necessary to arrive at an adjustment, finally culminating in the creation of a board or tribunal in which all the lines were represented for the settlement of disputes and the maintenance of peace and stability. The history of these contentions and their effects upon the roads and upon business is one of the most interesting chapters in the record of railroad development in this country. Beginning with eager rivalry and each line making rates independently, and always with the view of securing the largest possible amount of business for itself, the differences to Baltimore and Philadelphia against New York were so great that wars were inevitable; and after most serious losses had been sustained and transportation demoralized, self-preservation, as well as the general public interests, required that destructive hostilities should cease and agreements be brought about on some basis of common justice and comparative equity. After several unsuccessful experiments the present basis of rates to the seaboard cities was established.

While by these adjustments the rate from Chicago to New York forms the basis with relation to which the whole system is arranged, that rate is in fact the one accepted by the shortest line, which is the line by the Pennsylvania Road and its connections, and the other lines must conform to it in order to share in the business. It thus results that all the lines to New York carry at the same rates; and by an extension of the same principle all lines to Boston carry at the same Boston rates. The seaboard rates are, therefore, all parts of a large and complicated system; and their relations and interrelations are such that any material change in one rate involves numberless other changes. It was stated in the testimony that a reduction of the east bound Boston local rate to the level of the New York tariff would require corresponding changes at several thousand other points in New England and at the West, and that the New England towns not on the direct line of the Boston & Albany Road, but reached by its connections and now sharing the Boston rates might lose their present advantages. The necessity for other changes in respect to related rates is not in itself an adequate reason for declining to correct any specific

rate if it is in fact wrong; but changes would follow which are serious to other localities they are considered with reference to the that might be produced by the process, especially when a reasonable doubt exists.

In 1883, when substantial differences in rates to the seaboard were in force and shortly after a disinterested commission gentlemen was chosen by the different lines to consider and arbitrate the differences at the principal seaboard points. Much testimony and giving attention to the subject the commission elaborated a report, discussing at length different principles urged as found differentials, viz.: distance or service, and competition, concluding that the principle of distance must be regarded as the only equitable principle on which the differences should be fairly adjusted and that no reason existed for changing the differences then existing.

It is proper to say that Boston was not represented upon the hearings before the commission, and the Boston differential, therefore, directly involved, although principles discussed applied equally to the other points.

The preceding discussion has been limited to the relation of the rates to transportation in question. The interests of the carriers and the shippers have not been heard; but a question of rate has broader aspects than the duties of the railroad carriers. The interests of the City of New York, to fair consideration, and those of the State, should not be disregarded in passing upon questions in which that city is so deeply concerned.

The geographical situation of New York, with its unrivaled harbor, with many miles of water front and wharves, its position and variety of business, its superior ocean service, its location as a center of water transportation from all parts of the world, and the fact that it has many great competing railroads, its capacity for storage and its terminal facilities, acknowledged commercial pre-eminence, and its undoubted advantages to that city, are all partly the result of State expenditure, to which it is equitably entitled and which it is indefensible wrong to attempt to neutralize.

No invidious comparison with other cities is intended, but undeniable facts are ignored when a question of rights of competing localities is under consideration.

In view of the relative situation of the transportation facilities, and the commercial advantages of the two cities, it seems unnatural and repugnant that the carriers delivering property to New York, respectively, should be compelled to charge both an equality of rates.

The conclusion of the Commission is that the petitioners have not, upon the grounds of rate making, maintained a valid claim for equality of rates with

east bound local shipments to Boston, and that the existing rates, of which complaint is made, have not been shown to be unjust or unreasonable in themselves or relatively, and the petitioners have not shown unjust discrimination against Boston and in favor of New York by reason of those rates.

The several complaints must, therefore, be dismissed.

Walker & Morrison, Commissioners:

Agreeing in general with the foregoing opinion and concurring in the result, we are unwilling to be considered as assenting to the views above expressed in respect to the use of an "arbitrary" in fixing the Boston rate.

It appears from the agreed statement of facts that "the extra charge of ten cents per hundred pounds in the case of the first two classes and of five cents per hundred in the other classes of merchandise for transportation from Chicago to Boston over the charges for the transportation of the same merchandise from Chicago to New York is an extra fixed charge or 'arbitrary' which has for many years been added to the New York rate in fixing the Boston rate without reference to what the rate to New York might be; so that, for illustration, when in past times the through rate for the transportation of flour and grain from Chicago to New York was fifty cents, and, again, when it was only fifteen cents, the through rate to Boston for the same class of goods at the same time was in each case just five cents more—i. e., fifty-five cents and twenty cents, respectively."

An arbitrary of five cents per hundred is 10 per cent of a fifty cent rate and 20 per cent of a twenty-five cent rate. The same proof which might show that this arbitrary was just when the New York sixth class rate was fifty cents would demonstrate that it is unjust now. No facts have been shown which would justify a doubled disparity at one time as compared with another.

It further appears that the Chicago arbitrages of ten cents on the two upper classes and five cents upon the remainder are enforced on business consigned to Boston from all points west of Buffalo, while at Buffalo the amount of the addition is summarily reduced one half.

The propriety of somewhat higher rates from the West to Boston than to New York cannot properly be questioned, but the method pursued by the carriers in ascertaining the amount of difference is crude and unsatisfactory. The result is well named an "arbitrary."

The difference originally established seems to have been, at the time, an advance of about 10 per cent in the rates to Boston over the rates to New York, both from Chicago and from Buffalo. The facts fairly warranted a difference represented by that relative proportion, and it is hard to find substantial reasons for any greater distinction than that. No subsequent events have occurred which are claimed to have changed the situation to the prejudice of Boston. The proofs, however, fail to show the precise class rates which were in force at the time when the arbitrary was adopted.

An attempt was then made to ascertain a just measure of disparity from natural or other causes, and to apply the same to rates which were expected to fluctuate in the future. A percentage basis would have been and would

now be a much more satisfactory and trustworthy method, than the one which was adopted. Such a basis is easy of calculation; it could be applied without difficulty and with apparent justice at Chicago and all other trunk line western points, from which the rate to New York is now a stated percentage of the rate from Chicago to New York; and it would in great measure efface the elements of injustice which the complainants perceive in the workings of the present system.

W. B. FARRAR & CO.

v.

EAST TENNESSEE, VIRGINIA & GEORGIA R. CO., and Norfolk & Western R. R. Co.
(No. 84.)

- *1. The local rates from Dalton to Knoxville, Johnson City and Bristol on lumber are not shown to be unreasonable.
2. The joint rates on lumber from Dalton to Roanoke and Lynchburgh are shown to be unreasonable, upon the grounds and for the reasons set forth in the report and opinion of the Commission.
3. As a rule in the transportation of freight by railroads while the aggregate charge is continually increasing the further the freight is carried, the rate per ton per mile is constantly growing less all the time, making the aggregate charge less in proportion every hundred miles after the first, arising out of the character and nature of the service performed and the cost of the service; and thus staple commodities and merchandise are enabled to bear the charges of this mode of transportation from and to the most distant portions of the country. The Act to Regulate Commerce so far from throwing hampering restrictions or obstacles in the way of the operation of this salutary rule, gives it all the aid of its sanction and safeguards by providing that the carrier shall be entitled to receive a reasonable compensation for the service performed upon open published rates, against which no competitor can take advantage by allowing shippers secret rebates and drawbacks in order to get the business.
4. In the nature of things joint rates on long hauls usually are, and as a rule should be, lower in proportion to distance than local rates on short hauls of the same commodity.

(Heard Jan. 11, Decided Feb. 15, 1888.)

COMPLAINT in relation to rates on lumber.

No counsel appeared for petitioners.

Mr. W. M. Baxter, for defendants.

REPORT AND OPINION OF THE COMMISSION.

Bragg, Commissioner:

The complaint in this proceeding is against

*Head notes by COOLEY, Chairman.

the reasonableness and justice of the lumber rates of the East Tennessee, Virginia & Georgia Railway Company from Dalton, in the State of Georgia, to Knoxville, in the State of Tennessee, and from Dalton to Johnson City and Bristol, which last two named points are in the State of Tennessee, and from Dalton to Roanoke and Lynchburg, which last two named points are in the State of Virginia.

The complaint avers that petitioners reside at Dalton and are largely interested in the lumber and building business, and have been for the last twenty years, and are obliged to use the East Tennessee, Virginia & Georgia Railway and the Norfolk & Western Railroad to market their products. The complaint states that the rates now charged by these railroads for transporting the lumber of petitioners from Dalton to Knoxville, Bristol, Roanoke and Lynchburg are as follows:

To Knoxville, 7 cents per 100 pounds.
To Bristol, 11 cents per 100 pounds.
To Roanoke, 22 cents per 100 pounds.
To Lynchburg, 22 cents per 100 pounds.

The complaint states, in effect, that prior to the enactment of the Act to Regulate Commerce, approved February 4, 1887, these rates were as follows from Dalton:

To Knoxville, 6 cents per 100 pounds.
To Johnson City, 11½ cents per 100 pounds.
To Bristol, 11 cents per 100 pounds.
To Roanoke, 18 cents per 100 pounds.
To Lynchburg, 18 cents per 100 pounds.

The complaint alleges that the rates now charged them on lumber, as above set forth, are unreasonable, excessive and unjust, and have the effect of driving them out of these markets and greatly injuring their business.

The answer of the East Tennessee, Virginia & Georgia Railway Company to the complaint states that prior to the passage of the Act to Regulate Commerce its rates were as follows:

From Dalton, Georgia, to Knoxville, Tenn., per 100 pounds, seven (7) cents local, six (6) cents special.

From Dalton, Ga., to Bristol, Tenn., per 100 pounds, eleven (11) cents local, ten (10) cents special.

From Dalton, Ga., to Roanoke, Va., per 100 pounds, twenty-two (22) cents.

From Dalton, Ga., to Lynchburg, Va., per 100 pounds, seventeen (17) cents.

That since the passage of the Act to regulate commerce its rates have been as follows:

From Dalton, Ga., to Knoxville, Tenn., per 100 pounds, seven (7) cents.

From Dalton, Ga., to Bristol, Tenn., per 100 pounds, eleven (11) cents.

From Dalton, Ga., to Roanoke, Va., per 100 pounds, twenty-two (22) cents.

From Dalton, Ga., to Lynchburg, Va., per 100 pounds, twenty-two (22) cents.

That both prior to the enactment of the Act to Regulate Commerce and since its enactment the rates from Dalton, Ga., to Roanoke and Lynchburg, Va., have been joint rates between the East Tennessee, Virginia & Georgia Railway Company and the Norfolk & Western Railroad Company; that the only changes the respondent has made in its rates since the enactment of the Act to Regulate Commerce have been that it has abolished the special rates that

were given from Dalton, Ga., to K. Bristol, Tenn., and that so far as the between respondent and the Norfolk & Western Railroad are concerned it has perburg, Va., upon the same basis Va., the rate now being 22 cents pounds on lumber to each of these Dalton, Ga.; that as the former joint Dalton, Ga., to Lynchburg, Va., with the provisions of the Act to Regulate Commerce respondent, in obedience to the provisions of that Law, together with the Western Railroad, increased the rate from Dalton, Ga., to Lynchburg, Va., so that it not be less than the rate from Dalton, Ga., to Roanoke, Va., that prior to the enactment of the Act to Regulate Commerce Lynchburg, Va., was forced upon the Norfolk & Western Railroad to allow its patrons to compete in the lumber market with lumber coming from sections of Virginia and North Carolina and the rate to Lynchburg from Dalton, Ga., made with a view of developing the lumber product along the line of respondent that the Act to Regulate Commerce made any such purpose unlawful, and in obedience to the provisions of the Act respondent drew said rate of seventeen cents pounds on lumber from Dalton, Ga., to Lynchburg, Va., that its own rates and the rates between the Norfolk & Western Railroad and itself are reasonable and just, as petitioners have no just ground of complaint in none of its rates, either separate or joint, larger for the shorter than for the longer distance over the same line, the shorter distance being included in the longer distance; and these statements, the respondent denies any other material allegation in the petition which has not hereinbefore stated.

The answer of the Norfolk & Western Railroad Company states that the freight rates from Dalton, Ga., to points on and beyond the Norfolk & Western Railroad are by agreement between the East Tennessee, Virginia & Georgia Railway and the Norfolk & Western Railroad made, are quoted by and under the authority of the East Tennessee, Virginia & Georgia Railway Company as the initial line at interest in regard for the requirements of the Act to Regulate Commerce with the Act to Regulate Commerce necessitated a revision of rates for stations on the East Tennessee, Virginia & Georgia Railway in the vicinity of Chattanooga, of which Dalton is one, immediately after the Law became a part and in said revisions advances in rates to Virginia points became a part among which rates those on lumber from Dalton, Ga., to Lynchburg or Roanoke are low Dalton is in some cases true; but the Norfolk & Western Railroad or and not the maker of the rates are in no case greater for the shorter than the longer haul over the same line direction, because the business done is on its line, and it is a fact that

coming from North Carolina points moves over the Norfolk & Western Railroad in different directions from that coming from Dalton and under dissimilar conditions, and that the competition of markets to which your complainant objects is a commercial condition not within the province of the Norfolk & Western Railroad to judge of or to remedy, being the delivering line at interest in the transportation, and concerning itself primarily in the matter of the rates employed by either of the initial lines at interest to see that, as the traffic is interstate business, conformity is had with the Law, which it respectfully submits and hereby certifies to, is to its knowledge and belief fully done.

Upon due notice thereof to the respective parties this case was set down to be heard by the Commission on the 11th day of January, 1888, at its office, in the City of Washington. On that day the defendant railroad companies appeared before the Commission by their counsel, William M. Baxter, Esq., of Knoxville, and Augustus Pope, Esq., General Freight Agent of the Norfolk & Western Railroad Company; but the petitioners failed to appear, either by themselves or counsel, while still insisting on their complaint.

The controversy being one relating to the reasonableness and justice of the rates charged upon a standard article of freight of general and necessary consumption in all parts of the country arising upon the face of the tariffs of the defendant railroad companies, after the examination of these it occurred to the Commission that, with the aid obtained from an informal conference with the counsel and general freight agent then present, this contention might at that time be disposed of without further delay and expense to the parties. Accordingly this informal conference was then had, and after hearing and considering all the statements, suggestions and arguments of counsel and the general freight agent, the Commission suggested to them that in its opinion the rate upon lumber to Roanoke, Va., from Dalton, Ga., over the line of the East Tennessee, Virginia & Georgia Railway and the Norfolk & Western Railroad ought not to exceed eighteen cents per hundred pounds.

The Commission was then requested by the said counsel and general freight agent to suspend any further action and announcement in this matter for a period of two weeks, until T. S. Davant, General Freight Agent of the East Tennessee, Virginia & Georgia Railway Company at Knoxville, Tenn., could prepare and furnish to the Commission a statement of facts and figures in opposition to the complaint. A month having elapsed without hearing from Mr. Davant, the Commission deems it proper to now dispose of this case without further delay.

The Commission finds the material facts involved in this controversy, from the petition and answers and the tariffs and joint contracts of said railroad companies on file with us, to be in substance as follows:

The East Tennessee, Virginia & Georgia Railway Company embraces in its system several valuable and important railroad lines in the States of Tennessee, Georgia, and Alabama, with its chief terminal points at Bristol,

Tenn., Memphis, Tenn., Meridian, Miss., and Brunswick, Ga., Dalton, Ga., Knoxville, Johnson City, and Bristol, each in Tennessee, are situated upon its line. Roanoke and Lynchburg, each in Virginia, are situated on the line of the Norfolk & Western Railroad.

The present local tariff rates of the East Tennessee, Virginia & Georgia Railway Company in force on lumber from Dalton to Knoxville, a distance of 110 miles, are 7 cents per hundred pounds; from Dalton to Johnson City, 216 miles, are 10½ cents per hundred pounds, and from Dalton to Bristol, 241 miles, are 11 cents per hundred pounds. From Dalton to Roanoke, a distance of 391½ miles, the joint rates of the East Tennessee, Virginia & Georgia Railway and the Norfolk & Western Railroad are 22 cents per hundred pounds, and from Dalton to Lynchburg, 445 miles, the joint rates are 22 cents per hundred pounds.

Prior to the enactment of the Act to Regulate Commerce the rates of the East Tennessee, Virginia & Georgia Railway Company on lumber from Dalton to Knoxville were 7 cents local and 6 cents per hundred pounds special, and from Dalton to Bristol per hundred pounds were 10 cents special and 11 cents local. The joint rates of the East Tennessee, Virginia & Georgia Railway Company and the Norfolk & Western Railroad Company on lumber from Dalton to Roanoke were 22 cents per hundred pounds, and from Dalton to Lynchburg were 17 cents per hundred pounds.

The changes made in the lumber rates of these two railroads since the enactment of the Act to Regulate Commerce consist in abolishing the above special rates and in increasing the rate from Dalton to Lynchburg from 17 cents to 22 cents per hundred pounds, in order that it might not be less for the greater distance, and thus violate the statute. The previous rate of 17 cents per hundred pounds on lumber from Dalton to Lynchburg had been given with a view of developing the lumber products along the line of the East Tennessee, Virginia & Georgia Railway, and was also forced by the competition of lumber coming by other lines of railroad into the Lynchburg market from North Carolina and Virginia. Lynchburg and even Roanoke are nearer to the lumber producing region of North Carolina than is Dalton.

The East Tennessee, Virginia & Georgia Railway and the Norfolk & Western Railroad are operated under joint contracts, dated September 27, 1881, and March 16, 1885, which are on file with us pursuant to law and which provide for close running arrangements and joint rates over these lines. Under these the Norfolk & Western Railroad does not make the rates on lumber from Dalton to Roanoke and Lynchburg, but these rates are made by the East Tennessee, Virginia & Georgia Railway Company; and the Norfolk & Western Railroad Company only accepts its share of the joint rate.

A careful examination and consideration of all the matters involved in this complaint have brought us to the conclusions hereinafter stated.

The rates now in force on lumber from Dalton to Knoxville, Johnson City, and Bristol by the East Tennessee, Virginia & Georgia Rail-

oil in tanks for the Standard Oil Company and everybody else the same is not and never has been weighed, but the quantity contained in the tanks is estimated at a certain number of pounds, and it may be true that in some shipments for the Standard Oil Company that estimates were below the actual weight, but the same quantity of oil could have been shipped in the same manner at the same price by complainant.

"5. Defendant denies that about May 1, 1887, it transported or contracted to transport a car load containing 66 barrels of oil and weighing 24,750 pounds, or any other weight, from Louisville, Kentucky, to Huntsville, Alabama, for the Standard Oil Company, for \$68.07, or twenty-seven and one half cents per 100 pounds; at least no record of such shipment can be found on defendant's books."

For answer to the third charge made in complainant's bill and the specifications thereunder, defendant—

"1. Denies that in its rates charged by it for services rendered or to be rendered by it for the transportation of said oils for complainant and the said Standard Oil Company from Cincinnati, Ohio, to points or any point reached by defendant's line of railroads in States other than Ohio and Kentucky it has, since April 5, 1887, uniformly or at all made or given undue or unreasonable preferences or advantages to said Standard Oil Company or to certain or any localities on its lines of railroad; nor has it subjected complainant or certain or any localities on its lines of railroad to undue or unreasonable prejudices or disadvantages.

"2. Defendant says, in reference to the difference in rates to complainant and Standard Oil company, respectively, appearing in specifications No. 1 and No. 2, under the second charge in complainant's bill of complaint, it denies that said differences are not measured, but avers that they are, by the differences in circumstances surrounding these shipments, respectively; and defendant denies that the difference to it in the cost and expense and convenience of transportation of such oils for complainant and the Standard Oil Company, respectively, or that the difference between the circumstances under which complainant and said company, respectively, ship their oils do not, but it avers that they do, justify the difference in rates made to said parties, respectively, and it denies that they are either small or insignificant in comparison with the differences in the rates so charged; and defendant says that said rates so made for the shipment of the oils for the Standard Oil Company were made for shipment of oil to be made in large and regular shipments in iron tank cars, which tank cars were to be furnished and the cars kept in repair by said Standard Oil Company free of expense to defendant, which oil was never on defendant's premises and there at its risk, and by which cars defendant was furnished with return loads, while the rates thus made to complainant were made in reference to the shipment of oil in barrel packages, in small quantities and irregular shipment, to be received and loaded by defendant at its expense, and held at its risk while on its premises, and the cars used for

barrel shipments were thus greatly injured and rendered of less value to defendant for general purposes and were returned usually empty, so that, as this defendant believes and charges, the circumstances and conditions under which the shipments of oil for the Standard Oil Company were made so dissimilar from the circumstances and conditions under which the oil for complainant was shipped as to justify and authorize the difference in rates to said Standard Oil Company and to complainant made so as aforesaid.

"3. Defendant says it is not true and it denies that it owns or ever did own any tank cars, or that it ever furnished to said Standard Oil Company such cars, or that it refuses or ever refused to furnish such cars to complainant, or that he ever applied for such; but defendant says if complainant had applied for such cars he would have been refused for the reason that defendant did not and does not own or have such cars.

"4. Defendant admits that it has, since April 5, 1887, in its freight rates charged a higher rate per 100 pounds for transportation of oil in barrels than for oil in tanks, except when the competition with water lines and railroads or competition between markets or products has forced a reduction in rates on oil in barrels to the same or nearly the same rates charged upon oil in tank cars; but it is not true and defendant denies that the difference between the cost, expense and convenience of transportation of oil by the two methods, has been out of proportion to the difference between the rates by the two methods, and denies that said difference in expense, cost and convenience is slight or insignificant, but, on the contrary, defendant avers that they were so great as to justify, as it believes, the difference in rates charged.

"5. Defendant admits that complainant ships in barrels all the oils he ships over this defendant's lines of railroad; but it is not true and it denies that the Standard Oil Company ships in tank cars almost all the oil which it ships over defendant's lines of railroad. Defendant says that said Standard Oil Company, since April 5, 1887, has shipped over its lines of railroad in barrel packages, car load shipments, a much greater quantity of oil than complainant has, and at the same prices from and to the same points; and it has shipped over its lines of railroad during that period about twice as much oil in barrels as it has shipped in tank cars.

"6. Defendant admits that the rate of transportation of oil from Louisville to the following destinations are the same whether the oil is carried in barrel packages or in tank cars, to wit: Mobile, Alabama; Meridian, Mississippi; Jackson, Tennessee; New Orleans, Louisiana; Jackson, Mississippi; Vicksburg, Mississippi, and that the rates are the same for shipments from Cincinnati to Nashville, Tennessee, and Mobile, Alabama, and such is true, not as a matter of choice of this defendant, but because the competition with water lines, directly and indirectly, at said points, or competition with railroad lines or between markets or products reduced the rates for shipment of oil to those points to the regular rates of shipment of oil in tank cars.

- (a) That pearline being competitive with common soap, the relative difference between the class rate of pearline and this "special rate" on common soap is too great, and that **pearline must be placed in fifth class freight** on shipments from New York to Atlanta by the defendant company, with a rate of sixty cents per hundred pounds, and also in the fifth class in the classification of the Southern Railway & Steamship Association; and further, that the relative difference in the rates on pearline and common soap in such shipments must not exceed the difference of sixty cents per hundred pounds on pearline and thirty-three cents on common soap.
- (b) *Held further*, that on shipments of **pearline and common soap**, all rail, in the territory to which the classifications of the Southern Railway & Steamship Association applies, the following **rates of this Association** must be maintained by the defendant company, namely:

Per 100 lbs.	Soap Powder.	Common Soap.
100 miles.....	32 cents.	20 cents.
500 ".....	49 "	38 "

- (c) *Held*, that the **discrimination** made by the "special rate" of the Southern Railway & Steamship Association between pearline and common soap, to the extent now existing on the shipments to which it refers, is **unjust and must be discontinued**; and while common soap is in its sixth class, pearline must be placed in its fifth class.
2. A statement of the **grounds of differences in the classification of articles of freight** by railroad companies, and a discussion of those by which the conclusions of the Commission are reached in the classification of pearline when transported all rail on the one hand, or on the other partly by water and partly by rail, as compared with the transportation of common soap by either mode.

(Heard Dec. 8, 1887; Decided Feb. 15, 1888.)

COMPLAINT charging improper classification of "pearline." See abstract of complaint, *ante*, 600.

REPORT AND OPINION OF THE COMMISSION.

Bragg, Commissioner:

The complaint in this proceeding involves the justice and reasonableness of the freight rate classification made by the East Tennessee, Virginia & Georgia Railway Company upon a certain powder manufactured by the plaintiffs, commonly known as "pearline."

It is claimed in the complaint that this article is ruled to come under the head of "powders and washing compounds," etc., in the classification of freight of this railway company to all points and cities from which the classification of freight as made by the Southern Railway & Steamship Association is held

to apply, and that it is rated by this company as "soap powder" in the classification of freight to all other points reached by the line of that railway, but which are not situated within the territory in which the classification of the Southern Railway & Steamship Association is held to apply. An example stated in the complaint is, to Knoxville, Tennessee, Atlanta, Georgia, Chattanooga, Tennessee, as being points to which the Southern Railway & Steamship Association's classifications apply; and to trans-Mississippi points, such as Shreveport, Louisiana, Dallas, Texas, Little Rock, Arkansas, to which the rate classification of the Southern Railway & Steamship Association does not apply.

The complaint alleges that by putting this article under the rating "powders and washing compounds," etc., this company thereby charges a freight rate of over 100 per cent (exact, 121.81 per cent) more than it charges for a similar article, so far as freight purposes are concerned, namely: common soap, to the points above named. To Knoxville, Tennessee, Atlanta, Georgia, and Chattanooga, Tennessee, the averment of the complaint is that the rate is seventy-three cents per hundred pounds, while that on common soap is thirty-three cents per hundred pounds. The complaint claims that this article should be granted the same freight rate as common soap upon the following stated grounds, namely: "It is not an article of different character, only differing in being in powder form. It is of similar bulk, packed in boxes similar to soap. It is no more liable to damage or injury and no more trouble to handle or forward. It is used for the very same purpose in the laundry and for house cleaning, not in connection with soap, but in place of soap, and so competitive with soap; that, being competitive with common soap, it must be and is sold at a price that will admit of its use, and soap powders approximate very closely in the average price to that of common soaps of the same character. The same freight rate as that given common soap is granted our goods—(i. e., pearline) by every railroad and their connections, so far as we have any knowledge, and our knowledge extends to every part of our country, excepting only those that adhere to the tariff of the Southern Railway & Steamship Association in their own prescribed territory. The East Tennessee, Virginia & Georgia Railway itself and others freely grant us the same freight rate as common soap to all points outside of the territory put under the classification of the Southern Railway & Steamship Association—for instance, under the head of soap, to the points named above, namely: Shreveport, Louisiana, Dallas, Texas, Little Rock, Arkansas, and Fort Smith, Arkansas." The complaint claims that this is an unjust and undue discrimination, under the guise of a different classification, and forbidden by the Act to Regulate Commerce.

The answer of the defendant railway company to this complaint states that common soap is classed by it as sixth class, and is worth on an average about five cents a pound. It avers that "soap powders and washing compounds," which cover plaintiff's article, are classed as fourth class in the tariffs of the

The answer meets the charges with a full and specific denial.

The petition against the Cincinnati, New Orleans & Texas Pacific Railway Company, joined with the Alabama Great Southern Railroad Company, charges a violation of the said Act to Regulate Commerce:

I. By making charges for services to be rendered in the transportation of petroleum oil in themselves unjust and unreasonably high.

II. By having in the rates charged for services rendered and to be rendered in the transportation of petroleum oil for complainant and the Standard Oil Company of Kentucky, respectively, uniformly made and given undue and unreasonable preference and advantage to said Standard Oil Company and subjected complainant to undue and unreasonable prejudice and disadvantage.

III. By having charged for the transportation of petroleum oil from Cincinnati to points reached by defendants' roads a greater compensation in the aggregate for a shorter than for a longer distance over the same line in the same direction, the shorter being included in the longer distance, and the transportation being under substantially the same circumstances and conditions.

Defendants meet the first and second charges by denial, and they also deny that since the expiration of the order of relief made on their behalf on the 19th of April, 1887, they have made the greater charge for the shorter haul of the same property in the same direction, the shorter being included in the greater distance.

The petition against the Mississippi & Tennessee Railroad Company charges violation of the Act to Regulate Commerce by making charges for the transportation of petroleum oils from Memphis, Tennessee, to Grenada, Mississippi, which are in themselves unreasonably high.

The answer justifies the charges.

The petition against the Newport News & Mississippi Valley Company and the Louisville, New Orleans & Texas Railway Company charges violation of the Act to Regulate Commerce:

I. In making charges for services rendered and to be rendered by defendants in the transportation of petroleum oils from Louisville Kentucky, to Vicksburg, New Orleans, and other points which in themselves are unjust and unreasonably high.

II. By having uniformly, since April 5, 1887, made and given undue and unreasonable preference and advantage to the Standard Oil Company of Kentucky, and subjected complainant to undue and unreasonable preference and disadvantage.

The defendants answer separately with specific denial.

The petition against the Newport News & Mississippi Valley Company and the Illinois Central Railroad Company charges a violation of the Act to Regulate Commerce:

I. By making charges for services rendered and to be rendered by defendants in the transportation of petroleum oil from Louisville, Kentucky, and points on their lines in other States, which were in themselves unjust and unreasonably high.

II. By having in the rates charged by them for services rendered and to be rendered for complainant and for the Standard Oil Company of Kentucky uniformly made and given undue and unreasonable preference and advantage to said Standard Oil Company and subjected the complainant to undue and unreasonable prejudice and disadvantage.

The charges are fully met and denied by the answers.

The petition against the Illinois Central Railroad Company charges a violation of said Act to Regulate Commerce:

I. By making charges for services to be rendered in the transportation of petroleum oils from Cairo, in the State of Illinois, to points on its line of railroad in other States, which were in themselves unjust and unreasonably high.

II. By having, since July 9, 1887, charged and received for the transportation of petroleum oils from Cairo, Illinois, to points reached by defendant's line of railroad in other States a greater compensation in the aggregate for a shorter than for a longer distance over the same line in the same direction, the shorter being included in the longer distance, and the transportation being under substantially the same circumstances and conditions.

The answer denies the first charge, and denies that the greater charges made for shorter than for longer hauls over the same line in the same direction are made under substantially similar circumstances and conditions.

Such were the issues made in the several cases.

The testimony upon which the cases have been submitted was taken in the main on oral examination of witnesses at the public sessions of the Commission, and the fullest opportunity was given for bringing out all the facts. The officers of the defendant companies connected with the freight departments of their roads, respectively, were examined, and the workings of the roads, so far as concerns this particular article of traffic, were fully gone into, with the purpose on the part of the Commission to ascertain, if possible, not only whether any of the defendants had been guilty of unlawful discrimination against the complainant in the particulars charged, but also whether the general course of the defendants in respect to the transportation of oil was relatively fair and just as between different shippers, and also as between the defendants and the general public.

The case of two of the defendants was, however, so different as to make them stand altogether apart from the main contest which was made by the others and to which the evidence was directed. It will, therefore, be most convenient to say, in respect to them, in this place all that we think there is occasion to say at this time, and afterwards to dispose of the others together.

In the case of the Mobile & Ohio Railroad Company counsel for the respective parties have signed and filed the following paper:

"It is hereby understood and agreed by and between George Rice, complainant, and the Mobile & Ohio Railroad Company, defendant, in the above entitled cause, that the complainant makes no objection to the rates of the de-

Soap powder and Common Soap per 100 pounds.

	L. C. L.	C. L.
To Memphis via Louisville	50 cents.	44 cents.
Little Rock via St. Louis	75 " "	60 " "
Fort Smith " "	90 " "	79 " "

The rates on soap powder and articles of the same class under the Trunk Line Association's classification are as follows, per 100 pounds:

	L. C. L.	C. L.
For 100 miles.....	16 cents.	15 cents.
500 "	25 " "	21 " "
600 "	27 " "	23 " "

The rates and classification via the Sunset route (Southern Pacific) are as follows:

From New York to Little Rock, to which the trunk line classification applies, the same as that classification, viz.: per 100 pounds.

Common soap and soap powder, rate, L. C. L. 60 cts.
C. L. 45 "

To Dallas, Texas, and Shreveport, Louisiana, the Texas classification applies, viz.: by which pearline, common soap, and soap powder are shown to be in the same class, viz.: L. C. L., 4th, C. L. A., and the rates from New York are per 100 pounds:

To Shreveport, L. C. L.....	70 cents.
" C. L.....	64 "
Dallas, L. C. L.....	102 "
" C. L.....	93 "

The rates for distances of 100 and 500 miles in the territory to which the Texas classification applies are for common soap and pearline per 100 pounds:

100 miles, L. C. L.....	47 cents.
" C. L.....	43 "
500 " L. C. L.....	69 "
" C. L.....	62 "

The rates for distances of 100 miles and 500 miles, in the territory to which the Southern Railway & Steamship Association's classification applies, in any quantity, are as follows:

	Soap Powder.	Common Soap.
100 miles	32 cents.	20 cents.
500 "	49 " "	38 " "

A computation of the number of articles and number of classification of articles as found in the different classes, and then the number of classes in each of the different systems, shows the following results:

Classification.	No. of articles.	No. of classifications.	No. of classes.
Trunk Line	1,614	4,364	6
So. R'y & S. S. Ass'n	874	1,602	13
Texas	891	1,591	9

The method by which the results stated in the table last above mentioned is arrived at is as follows: by counting the different articles mentioned and then to count the different classifications of such articles; for example, acids are classed in nine different ways, according to how shipped. In the count of articles acid is counted as one article, and in the number of classifications as nine.

No complaint has ever been made by any other manufacturer of soap powders and

washing compounds against the classification or rates of the Southern Railway & Steamship Association, as the evidence adduced on the part of the railway company in this case shows, except the manufacturers of pearline, and this has been true for the last thirteen years. No evidence was offered of any instance in which any company which has adopted the classifications and rates of the Southern Railway & Steamship Association has ever sustained any loss on account of pearline or soap powders by accident, collision, or otherwise.

Upon this state of facts we perform the duty of stating our conclusions:

The method of classification, which consists of grouping a large number of articles into each of several different classes with different rates for the transportation of each class, has long existed in the operation of railroads. In making up a class by this method articles of the same kind are usually grouped together in the same class as far as this can be done; but as the articles in each class are so very numerous there is a very great diversity of such articles, and it results that there are generally but few things of the same kind that can be placed in one class. This is unavoidable, because the articles are so numerous while the classes are but few. All articles embraced in a class are usually charged the rate of that class, whatever it may be. To carrier and shipper alike it indicates the amount of the rate charged.

One of the many embarrassments connected with the transportation of freight by railroads consists in the fact that there is such a lack of uniformity in the classifications of freight found in the different portions of the country. The three associations mentioned in evidence in this case are not all that there are of this description in the United States; yet each of them has different classifications, and, having different classifications, in this way charge different rates for what in many cases is a substantially similar service. The Trunk Line Association, for instance, with 1,614 articles and 4,364 classifications, has all these grouped into six different classes. The Texas Association, with 891 different articles, classified under 1,591 different names, has these all grouped into nine different classes. The Southern Railway & Steamship Association, with 847 articles and 1,602 classifications of these articles, has them all grouped into thirteen different classes.

This mode of making rate by classification is intended to be for the convenience of the railroad company and also for the accommodation of the shippers, and long experience has shown that it is the best and most practical way yet devised for dealing with the subject. To demonstrate that there are occasional inequalities of rate upon some of the articles thus grouped together in one class as compared with others in that class is not to prove that the whole system is wrong, but simply that there is or may be some slight or occasional difference in the rate charged upon some one article in proportion to its value, bulk, or weight, when compared with another, that inflicts no substantial wrong upon anyone, and is one of the mere incidents of the service by this method of

are owned by the Standard Oil Company of Kentucky, so that they are not offered for use to shippers in general.

In the rate sheets which are published by the defendant, rates are named for the transportation of oil in barrels and oil in tanks; the latter, however, not to all points, but in general only to the points at which preparations have been made by a shipper to receive and store the oil shipped by that method. In some cases rates are named to points where no such preparations are made, the reason for which, if there is any, has not been very clearly explained to us. Generally, the rate when the transportation is in tanks is by the car; but where it is in barrels it is by the barrel, in car load lots, or by the hundred pounds. None of the rate sheets of the defendant which were put in evidence notified the shipper that the carrier was not prepared to furnish rolling stock for transporting the oil in either mode; a reasonable inference from the rate sheet not otherwise explained would be that it was. Thus the Newport News & Mississippi Valley Company, by tariff D 377, gives rates as follows: Louisville, Kentucky, to Memphis, Tennessee, coal oil, car load, in barrels, forty-five cents; coal oil in tanks, per tank car, \$25.

If, however, the owner of oil at Louisville should desire to send a consignment of oil in tanks to Memphis, and should apply to have cars furnished him for the purpose, he would be told at once that the company did not supply tank cars to its customers; that if they desire to avail themselves of that method of transportation they must not only pay the rate prescribed, but they must also furnish the company with the cars. This is obviously a most important qualification of the rate itself; and if the shipper must furnish the car at his own expense, the actual cost to him of the transportation will very much exceed the published rate. This, however, does not seem to be generally expected; on the contrary, there seems to be a general, although not a universal, understanding among railroad companies in the southwest, including the defendants, that the party furnishing a tank car shall be paid trackage for its use at the rate customary among railroad companies, namely: three fourths of a cent a mile going and returning, with the privilege on the part of the railroad company of loading the car with return freight when any is offered, or is procurable.

One difficulty with this understanding is that it does not appear in the rate sheets. The sixth section of the Act to Regulate Commerce provides "That every common carrier subject to the provisions of this Act shall print and keep for public inspection schedules showing the rates and fares and charges for the transportation of passengers and property which any such common carrier has established, and which are in force at the time upon its railroad, as defined by the first section of this Act. The schedules printed as aforesaid by any such common carrier shall plainly state the places upon its railroad between which property and passengers will be carried, and shall contain the classification of freight in force upon such railroad, and shall also state separately the terminal charges, and any rules or regulations which in any wise change, affect, or determine

INTER 8.

any part or the aggregate of such aforesaid rates and fares and charges."

The purpose of this provision is very manifest and is well understood. It intends that every person desiring to avail himself of the facilities afforded by the railroads of the country should be enabled to tell for himself, without being under the necessity of calling in the aid of any railroad agent or other person, what charges he must pay for the transportation of his person or his property, and also have in the published rate sheets an accurate test of the correctness of any exaction. The rate sheets introduced by the defendants in these cases can hardly be said to give this information. They omit to give a rule, regulation or understanding which has a very important bearing on the rates, and they wholly omit to notify the owner of oil that the carriers making them do not furnish him with cars for one of the methods of transportation which in terms they offer to him. The rate sheets, therefore, require to be supplemented by other information; and it is from this fact that some part of the controversy between these parties have arisen.

It was said on the argument that the railroad companies were under obligation to furnish tanks no more than they were to furnish barrels; that tanks and barrels were only different kinds of caskets for holding the property which was to be conveyed, and it was matter of course that the shipper should furnish them for himself. This might be quite true if the tank, like the barrel, was received from the consignor and taken for delivery to the consignee, as packages usually are; but it is not. It is, on the other hand, a part of the car itself, as much as are the sides to an ordinary box car; it is provided only to hold the oil for transportation, while the barrel holds it both before and after shipment, as an article of merchandise, and is bought and sold with it. The shipper in barrels, it is quite true, is expected to deliver his merchandise in that form of package, and the rate bill informs him what he must pay upon it. The party proposing to ship in tanks does not receive from the rate sheets equivalent information; and if outside the rate sheets he learns that he must furnish the tank cars, he is still unapprised upon what terms this is to be done, and must seek the information from the officers or agents of the carrier.

But when he seeks this information he learns immediately that the matter is or may be the subject of private negotiation, and perhaps of different terms in different cases. Thus the evils at which this provision of the Statute was aimed make their appearance immediately. He is not informed by the rate sheets what he will be charged for the service to be rendered him, and when he seeks the information he finds the terms are to be the subject of bargain; but a bargain implies a difference in terms in different cases. We are not to be understood as finding or as intimating an opinion that all of these defendants have made different terms in different cases. The evidence as to the most of them has no tendency to establish against them such a charge. We say only that as they have not by their rate sheets bound themselves to any particular terms, the

tion and relatively with other rates. The mere method of arriving at what is a reasonable rate is a matter of far less consequence than that the rate itself should be reasonable and relatively just.

We have carefully considered the classifications and rates of the other associations in evidence for the purpose of comparison. The trunk line classification makes no difference whatever between soap powder and common soap, and this is true of the Texas classification, the classification of the Sunset route, and the western classification. But while this is deserving of much consideration, and such it has received at our hands, yet it does not satisfy us, upon the grounds above stated, as shown in the evidence in this case, that there is not such a difference between the two that warrants the rate we have named. We have had occasion to observe heretofore, and again repeat, that the conditions of transportation are in some respects very different in different parts of the country. According to the evidence this freight reaching Atlanta from the seaboard is transported from New York by far the greater portion of the distance by sea, and while this is to that extent a cheaper route from New York to Savannah or from New York to Charleston, yet the liability of a powder like pearline to injury on that part of the route from exposure to water or damp in case of accident might well be greater than if the transportation was by all rail. Besides, there is more of extra handling and additional risk from that cause. To cover that kind of transportation the classification and freight rates of the Southern Railway & Steamship Association from New York to Savannah are largely made. We are obliged to know, and do know, that most of the freight from New York transported over the East Tennessee, Virginia & Georgia Railway comes by way of the ocean to Norfolk, and is taken from there south and west by rail; so that as to this the same considerations could well apply which we have named in the case of the Southern Railway & Steamship Association. This is true also of transportation from New York by the Sunset or Southern Pacific route, which is by sea to New Orleans. In the transportation covered by these classifications there is as to a powder, like pearline, united in greater degree the risks incident to collision, water and dampness, and extra handling than if the transportation was all rail. On the other hand, the transportation of the trunk lines proper is all rail. The transportation of the Western Association is also all rail. These involve different conditions of transportation, and when comparison is attempted to be made of these respective classifications and rates these different conditions cannot be ignored. By the trunk line classification the rate is lower on soap and pearline than it is by the classification of the Southern Railway & Steamship Association; while the rate by the Texas classification is considerably higher than either. These results are defined and explained by the defendant as arising upon the different circumstances under which the service is rendered, being in the case of the trunk lines through a much more populous territory and having a greater volume of freight as accounting for the cheaper

rates, and through a more sparsely settled country and having less volume of business, in the case of the Southern Railway & Steamship Association, and the Texas classification as accounting for their higher rates. Without now going into an extended examination of these differences of conditions as they exist in the case of these different associations, which is unnecessary, in the view we take of this case, we recognize that there is quite a sufficient difference in their conditions to make any attempted comparison between their rates of very little value in this particular case upon the grounds we have named. If the transportation from New York to Atlanta was all rail, then we should say that the relative difference between the rate on pearline and common soap ought not to be more than about 50 per cent, as we have above shown is the case by the classifications of the Southern Railway & Steamship Association on distances of from 1 to 500 miles, which evidently refers to shipments by all rail, but the extra risks and handling to pearline of its coming a great portion of the way by sea may, we think, justify the increased relative difference in rate.

The defendant relies upon the fact that it has been sustained in its classifications as to pearline and common soap by the honorable railroad commissions of Georgia and Alabama. We have given a very high and respectful consideration to the action of these honorable and respected tribunals when offered in evidence before us; but, as in the case of Reed and Evans against the Oregon Railway & Navigation Company, in manuscript, where a recommendation of the honorable railroad commission of Oregon was relied upon by the petitioners as sustaining their view of the case, we said that we did not know what was the evidence before that tribunal which induced it to arrive at the result it did, and were constrained to be governed by the evidence before us, under the statute, in a matter relating to interstate commerce. So also we have to be influenced by the same considerations in the case now before us; besides, we feel satisfied from the evidence before us that the difference between this "special rate" and the class rates was not before either of those tribunals. At least, the evidence does not show that it was.

The defendant is not responsible for the rates made at Shreveport, Little Rock and Fort Smith; for, as we have already shown, each of these points is beyond its terminus, and the rates made there are made by the Trunk Line Association, the Texas Association, and the Western Association.

The order of the Commission is that the defendant must cease to charge a rate of seventy-three cents per hundred pounds on pearline from New York to Atlanta, and that said rate must not exceed sixty cents per hundred pounds for said service, and that the difference in the rate upon pearline and common soap must not exceed the difference between the relative amounts of sixty cents per hundred pounds for pearline and thirty-three cents per hundred pounds for common soap when transported over its line, coming from New York and going to Atlanta. As to these articles when transported over its line as and

between other points involving interstate traffic, and at points where the classifications of the Southern Railway & Steamship Association apply, the relative differences between the rates upon them as above stated for distances of from 100 to 500 miles by the classification of the Southern Railway & Steamship Association, all rail, must be maintained, namely: per 100 pounds:

	Soap powder.	Common soap.
100 miles.....	32 cents.	20 cents.
500 ".....	49 "	35 "

The discrimination made by "the special rate" of the Southern Railway & Steamship Association between pearlins and common soap to the extent herein indicated is unjust and must be discontinued; and, while common soap is in its sixth class, pearlins must be placed in its fifth class.

RIDDLE, DEAN & CO.

PITTSBURGH & LAKE ERIE R. R. CO.

(No. 88.)

***1. Rule stated in reference to applications for rehearings:**

(a) The Commission will promptly and carefully examine an application for a rehearing with a view to the immediate correction of any error of law or fact found to exist, but will not direct a rehearing involving the expense to parties of appearing before the Commission for a reargument, unless satisfied that such reargument might have the effect of changing the result of what the Commission has already done.

(b) The statute is construed as dealing with the substance of things, and as contemplating, as far as this is possible, methods of procedure that are speedy and which come at once to the very right of questions arising in the transportation of persons and freight.

2. Where the relation of any carrier to the matter complained of is such that it is in whole, or in part, materially responsible for the alleged grievance, and has direct interest in any investigation of the subject matter involved, and the merits of the controversy cannot be investigated and determined in the absence of such carrier as a party, then that carrier should be made a party to the proceeding, and if not a party, no relief can be had against it.

3. The report and findings of the Commission upon the evidence relate only to the ascertainment and presentation of all the material facts necessary to fairly and justly present the merits of the controversy, and the Commission does not report evidence which is only cumulative, or which is immaterial or irrelevant, or mere details of evidence already embraced in substantial facts stated, upon which the findings and conclusions of the Commission are made.

(Decided February 15, 1888.)

*Head notes by COOLEY, Chairman.

INTER S.

APPPLICATION by counsel for petitioners filed February 1, 1888, for a rehearing of case decided January 17, 1888, and reported ante, 688. *Denied.*

Mr. James L. Black, for petitioners, for the motion.

REPORT AND OPINION OF THE COMMISSION

The Commission:

We have carefully considered the application made in the brief of petitioners' counsel for a rehearing in this proceeding, and are constrained to deny it, on the ground that no argument of counsel upon the evidence could change the result announced in our previous report and opinion by which the petition was dismissed. We feel it to be due to candor as well as justice to say that a reargument by the counsel of the parties upon a rehearing would be a mere waste of time in addition to the unnecessary expense it would cause the parties and the useless labor it would entail upon their counsel. If, upon the whole evidence, we could see it was possible that any argument of counsel could change the result, we would unhesitatingly grant the application for a rehearing.

The main, controlling and general grounds upon which we decided to dismiss the petition as set forth in our report and opinion, are not controverted or questioned in the application for a rehearing, nor, indeed, do we see how they could be; but several particulars are mentioned in which it is claimed we were mistaken in our findings upon the evidence. Two of these we notice briefly, the others having been disposed of in our previous report and opinion in accordance with the weight of the evidence.

No coke, it is claimed, was shipped in vessels from Cleveland or Ashtabula; and this we think, is true upon a re-examination of the evidence. We were led to a contrary conclusion in our report and opinion by the following language of John Newell, President of the Pittsburgh & Lake Erie Railroad Company, on page 10 of his oral examination, before us: "There has been a large demand for coke for the Lake Superior region." Taking this language in connection with all else that was said on this subject by the same witness, and the other evidence in the proceedings, we are satisfied that in using it he really meant by it that there was a larger demand for coke for smelting ore, which was the product of the Lake Superior mines; but that is wholly immaterial. The important fact was the unusual demand for coke and its shipment over the line of the railroad, and this remained the same whether it was taken by vessels at Cleveland and Ashtabula to the Lake Superior mines or not. The evidence shows that this coke was required in greater quantities than ever before for smelting ore produced in the Lake Superior mines and that for this purpose it went not only to the mills and furnaces south, but also west of Cleveland, as well as at Cleveland itself; while the shipments of coal during the same period were quite as large, if not larger, than those of coke, and coal was shipped in immense quantities from Cleveland and Ashtabula in vessels.

In the second place, it is claimed in the ap

plication for rehearing that other shippers of coal besides petitioners were demanding cars for coal to Buffalo during the period of which they complain. All the evidence, when considered together, upon this point evidently refers to the cars of the Lake Shore & Michigan Southern Railway Company; and it shows that a few such were furnished at intervals, of which petitioners admit in their petition they received "forty cars," and this is more than the evidence shows that any other shippers received of these coal cars to Buffalo during that period. So that, upon the evidence, there was no unjust discrimination against petitioners in this respect, even by the Lake Shore & Michigan Southern Railway Company; but, as we have already stated, that company is not a party to this proceeding. The complaint is against the Pittsburgh & Lake Erie Railroad Company, and there is no evidence that its cars were going to Buffalo or were expected by shippers to go to Buffalo with coal during the period complained of. The evidence shows also that the owners of these mines were quite willing for their coal to go to Cleveland instead of Buffalo, and that they were satisfied when they could get their proportion of cars to Cleveland, and were not disposed to make any issue about not receiving cars to Buffalo. This is, therefore, wholly immaterial to the result we have reached in dismissing the petition, except so far as it tends to further show that petitioners are entitled to no relief upon the evidence before us.

A peculiarity of this case has been that while the complaint is made against the Pittsburgh & Lake Erie Railroad Company the evidence in support of it is mainly directed at the Lake Shore & Michigan Southern Railway Company in the use of its cars over the line of the Pittsburgh & Lake Erie Railroad. Regarding this it is unnecessary to repeat here what we have already said elsewhere; but it may not be improper for us to state that where a complaint is expected to be prosecuted against any carrier that carrier should be made a party to the complaint and thus have an opportunity to be heard in its defense. It is, however, sufficient for us to say that the evidence makes no case for relief against the Pittsburgh & Lake Erie Railroad Company.

As this is the first application we have had for a rehearing, it may also not be improper for us to state in this connection, as every one of our reports and opinions will show upon its face, that in every case before us our findings upon the evidence relate only to the ascertainment of all the material facts necessary to fairly and justly present the merits of the controversy, and that to such facts as arise from immaterial or irrelevant evidence we give them no place in our reports and opinions. To do otherwise would be to make a book out of a case like the present, which contains more than three hundred pages of printed evidence and equally as much of written manuscript, and would accomplish no useful or just purpose whatever.

Where the delinquency charged is in the nature of a fraud, as in the present case, under the rules of law a wide range is allowed in the evidence, that the complainants may, if they can, show the existence of the fraud, barri-

caded as it may be by devices, inventions, subterfuges or pretenses; and it is indispensable to truth and justice that such latitude should be allowed. The party accused must in fairness and justice be allowed a correspondingly wide latitude in the evidence to show innocence of the fraud imputed to him. A great mass of evidence is the result. Some of it is merely circumstantial; some of it is unavoidably cumulative; other portions of it would be wholly irrelevant if not inseparably connected with some fact that is relevant; much of it is immaterial; large portions of it are explanatory, and thus it is presented in oral examinations, depositions and documentary evidence.

Under such circumstances, when we have patiently and laboriously sifted out all the material facts necessary to fairly and justly present the merits of the controversy, with our conclusions thereon, we have done all that the statute authorizes or requires us to do. The statute deals with the substance of things, and contemplates, as far as this is possible, methods of procedure that are speedy and which come at once to the very right of questions arising in the transportation of persons and freight; and while in its administration we will always cheerfully and carefully examine and consider all applications for rehearings by a party to any proceeding decided by us who will point out any errors he may think we may have committed, either of law or fact, with a view to their prompt correction, if found to exist, yet we will not in any proceeding direct a rehearing involving the expense to parties of appearing before us for a reargument of the case and the further consumption of time on our part, which belongs to the public unless satisfied that such reargument might have the effect of changing the result of what we have already done.

The application of petitioners for a rehearing is denied.

MILWAUKEE CHAMBER OF COMMERCE

FLINT & PERE MARQUETTE R.R. Co. and
Detroit, Grand Haven & Milwaukee R. Co.

ABSTRACT of complaint filed February 21, 1888, charging unjust discrimination against Milwaukee in rates on flour, etc.

Defendants on or about February 1, 1888, reduced the rate on flour, grain and mill stuffs 2½ cents per 100 lbs. from Milwaukee to eastern markets, the same to apply on such freight shipped from Minneapolis. Defendants have refused such reduction on Milwaukee shipments. Said property is shipped from Minneapolis to Milwaukee as prepaid transit freight and thence at the reduction complained of. The rates being 28 and 28 cents per 100 lbs. to New York and Boston, respectively, on Minneapolis shipments, and 25½ and 30½ cents per 100 lbs. on same class of property shipped from Milwaukee to points named.

Defendants have no joint tariff from Minneapolis to Milwaukee, but the rate is a local one, not a percentage of a through rate; and property delivered at Milwaukee from Minne-

tomary means of transportation compels him to do so.

It was said on the argument that this compulsion was not the fault of the carriers, since it resulted from the man's own circumstances; and it was very justly remarked that it is not the business of carriers to relieve against inequalities in the pecuniary condition of those who give them business. This is perfectly true. If one man can pay the extra charge which is made for being transported in a palace car, and chooses to do so, the fact constitutes no ground for complaint on the part of another man who, by reason of want of means to pay for the like accommodation, is compelled to ride in the common car. When the carrier provides accommodations for all and offers them impartially, he stands blameless as to those whose circumstances preclude acceptance; but that is not the case we have before us. The carriers do not provide accommodations for the two methods of transportation; they provide them for one method only, and in doing so they fall short of what, in respect to all other kinds of traffic, is practically the universal custom. It is from this fact that the oppression complained of in these cases springs. The carriers offer no choice to their customers; they fail to provide for the general use of all who may desire it the rolling stock for transporting. In the way which they say is most profitable to themselves, this is very large traffic, but they give to the dealers who will perform this duty for them rates so favorable as to put those who adopt the only method the carriers provide at such disadvantage as to preclude successful competition.

It does not seem to us either just or plausible to say under such circumstances that the person whose oil is carried in barrels has voluntarily chosen that method, and has no concern with the charges imposed on his competitor who adopted the other. He is, on the contrary, vitally concerned with those charges; and, if his own are not to be gauged in some degree by them, he may be ruined in his business without redress, even though the charges he pays, when considered by themselves, may seem not unreasonable.

But it is further seen that the whole argument on this branch of the case is rested by counsel on the proposition that the charges made on transportation of oil in barrels are reasonable in and of themselves; if they are found not to be, the jurisdictional difficulty which is suggested need not further occupy our attention.

It is to be regretted that we are not more clearly shown in the argument presented on this point how we may determine when rates are, and when they are not, in and of themselves reasonable. When a limitation of power depends upon facts there ought to be no question what facts are to be considered, since otherwise the limitation is likely to be the subject of continual dispute, and may possibly be exceeded, even when the intention is to observe it with due care; and, especially when such a limitation depends upon a pecuniary charge being reasonable or the reverse, the tests of what is reasonable ought to be such as not only can be easily applied, but in themselves be open to no controversy.

INTER S.

Counsel has defined the expression "reasonable in and of itself" to mean "a reasonable compensation for transporting the traffic in the mode for which the rate is charged;" but the definition throws little or no light upon the question how this reasonable compensation is to be measured and determined.

It is sometimes contended, although not by the carriers themselves, that we may measure the reasonableness of charges by the cost of transportation. These defendants will not contend that that is a proper test, for their whole practice is against measuring their charges by the cost. It may cost no more to carry a box of silk weighing 100 pounds than a ball of refuse rags of like weight; but the charge will, perhaps, be several times as great, and the carrier justifies the discrimination by showing that equal rates on both would put transportation of the less valuable article out of the question. Like discriminations are made everywhere; property is classified with a purpose, among other things, to make the most valuable kinds pay most largely for the service performed. This is a wise, if not a necessary, policy; and as the railroads adopt it universally they are fairly estopped from claiming that from cost alone it can be determined whether charges are in and of themselves reasonable.

A better test, it is sometimes said, may be found in the value of the service to the owner of the property carried. Some articles must be carried at low rates because the traffic will bear no higher, and therefore the low rates are all the service is worth. Other articles, though it may cost no more to carry them, may justly be charged much higher rates. The effect of transportation upon market value is taken into account by carriers in making rates, and it is insisted on their behalf that this is neither unreasonable nor unjust; but it is very obvious that if rates as to their reasonableness are to be measured by the standard of what the service is worth to the owner of the property, it is impossible, when considering the value of the service in transporting a particular kind of property by one method, to leave out of view the charges imposed for transporting the like property by another method, which for any reason is limited to a part only of the carrier's customers. Whether the service to the owner in carrying by one method shall be worth much, or be of no value whatever, may depend altogether on the charges which are made to others for carrying by the other method.

But the proposition that we may determine absolutely what rates are in and of themselves reasonable on a consideration exclusively of the particular traffic by itself, is antagonistic to the whole railroad practice of the country, and would not for a moment be accepted and acted upon by any committee of rate makers. Rates are never made in that way; but instead thereof property is classified, and the whole field is surveyed with a view to the establishment of such charges as shall be relatively proper and just as near as circumstances will admit of their being made so. There is not a railroad company in the country with a business of any considerable magnitude that could justify each of its rates by itself without tak-

of the Commission to entertain the complaint.

The other defendants, the Richmond & Danville Railroad Company and the Richmond & West Point Terminal & Warehouse Company, each for itself, make a general denial of all that is alleged against them or either of them in the complaint which on the hearing is, by consent of parties, dismissed as to the two defendants last named.

From the testimony of witnesses and the uncontroverted statements made in the complaint and answers thereto, the facts are found to be as follows:

The complainants, under the firm name of Heck & Petree, were, from January 1, 1886, to April 15, 1887, engaged in mining and selling coal in the Coal Creek field in Anderson and Campbell Counties, in the State of Tennessee, and in shipping coal from said coal field over the roads of defendants to markets and customers in North Carolina and other States. On and after April 15, 1887, said railroad companies refused to take or ship over their roads any coal of said firm.

The mine of said firm is one of several mines located on the line of the Coal Creek & New River Railroad Company's Road, and coal shipped from the mine of said firm to market, must be carried over said last named road to the Knoxville & Ohio Road, over it to its junction at Knoxville with the East Tennessee, Virginia & Georgia Road, over said last named road and its connections to the place of destination. The only outlet or means of reaching markets for coal mined in said Coal Creek coal field is over the line of the Knoxville & Ohio Railroad.

The Coal Creek & New River Railroad Company is a corporation chartered by the State of Tennessee. It owns a road or track three miles long but never owned cars or other rolling stock nor operated its road. The rolling stock used on its road was and is owned by the Knoxville & Ohio Railroad Company, which has done all the carrying done on said Coal Creek & New River Road from the time it was built in 1880-81 up to April 15, 1887, when carrying on it was refused for complainants but continued for other shippers.

A formal order was issued by the Knoxville & Ohio River Railroad Company discontinuing and forbidding further operations on the Coal Creek & New River Railroad on and after April 15, 1887; operations by said Knoxville & Ohio Railroad Company were soon thereafter renewed on that part of said road extending to the Excelsior coal mine and within one fourth of a mile of complainants' mine, and occasional transfers were made over the entire road; but all transportation was refused to complainants, who had orders for large quantities of coal, which they offered for shipment over defendants' roads.

The East Tennessee, Virginia & Georgia Railway Company and the Knoxville & Ohio Railroad Company are separate corporations, but their roads are part of the same system and are under substantially the same management. The former owns more than half of the capital stock of the latter and the latter owns nearly one half the capital stock, and (together with parties interested in its own road) owns a controlling interest in the capital

stock of the Coal Creek & New River Railroad Company. The three Companies were and are in accord and have acted in concert in the refusal to carry complainants' coal on the 15th day of April, 1887, and from then until now.

The Knoxville & Ohio Road extends from its junction with the East Tennessee, Virginia & Georgia Road at Knoxville northwardly to the Kentucky state line, and reaches said coal field at Coal Creek Station from which a "Y" shaped switch extends into said coal field and connects with said Coal Creek & New River Road. Said coal field is about eight miles in extent along the face of Cumberland mountain fronting to the southeast. A large and considerable tract in the northeast part of said coal field is and was, before said Coal Creek & New River Railroad was built, owned by John M. Heck, lessor of complainants, while another large tract further to the northeast was owned by said John M. Heck and the Knoxville & Ohio Railroad Company jointly. The southwest part of said coal field is owned by other proprietors, among them some of the officers and persons interested in the defendants' roads.

The "Y" switch from Coal Creek Station did not and does not so extend into said coal field as to reach the part owned by said John M. Heck, and the said Coal Creek & New River Road was built by the Knoxville & Ohio Railroad Company and said Heck from said switch to and along that part of said coal field owned by said John M. Heck; thence to and along the part owned jointly by him and the Knoxville & Ohio Railroad Company.

John M. Heck was president of the Coal Creek & New River Railroad Company from the time its road was built up to October, 1886, when he was succeeded by E. R. Chapman.

When Heck had been superseded it was claimed by the stockholders and others interested in the defendant companies that during his presidency he had used said road and allowed his lessees to use it without paying or causing to be paid anything to said company for such use of its road. The action taken by the defendants in respect of the refusal to transport the coal of said firm was taken to force said John M. Heck to a settlement with said company by hindering his lessees in their mining operations.

On these ascertained facts it is insisted on behalf of the Coal Creek & New River Railroad Company that it is not a common carrier and that its road is not any part of a line for continuous carriage from one State or Territory to another State or Territory.

This view is apparently based on the fact that the road of this company is wholly in the State of Tennessee, from which the Company derives its corporate existence; that it owns no engine or cars, has not operated and does not of itself operate its road.

It is true that coal taken over its road has been drawn by the engines and carried in the cars of the other defendants; but for all practical purposes the road of this defendant is as much a part of the continuous line over which coal from plaintiffs' mine goes to market as is the "Y" switch which connects this road with the roads of the other defendant companies. In the history of its construction and of its use

a large outlay in capital. His competitor in business can choose it, and it is for that reason that complainant is driven out of the market. He must blame his want of capital, it is said, and not the railroad companies, for his failure.

A statement of the situation differing a little from this will more nearly present the actual facts. The railroad company not having supplied itself with the necessary rolling stock to enable one branch of its traffic to be carried on in the way most advantageous to those who engage in it, suffers parties who have the capital which will enable them to supply the defect to put cars of their own upon the road, for the use of which it pays, and at the same time gives to such parties the exclusive use of what they supply, and also such preferential rates on the merchandise carried for them as will put successful competition quite out of the question. It is not the lack of capital to carry on the business that then proves fatal, but it is the lack of capital, in addition to what is needed in the business, to supply rolling stock to the railroad company for his use. It would be the height of injustice for the carrier to make such a lack a ground for discrimination in rates, and then to say that the party suffering from it has no reason for complaint since the rates which are named are offered to all. The offer is exclusive in fact, whatever it may be in terms or in theory.

If a carrier of passengers were to make a uniform rate of three cents a mile to all who rode in the cars it provided, but, being deficient in rolling stock, were to allow owners of private cars to fill them with passengers at two cents a mile and be paid for the use of the cars in addition, we should not expect any one to attempt a defense of the discrimination based upon the ground that the rates were equally open to all, and that if one, by reason of lack of capital to supply himself with a private car, was unable to take the benefit of the most favorable rate, he should blame his fortune for it, not the common carrier. The wrong in such a case would be as plain as it would be gross; but such a discrimination in the carriage of persons would be far less injurious than a similar discrimination in the transportation of property; the one would involve a small sum of money only; the other might be destructive to a business. We hold, therefore, that the fact that one consignor furnishes a car for hire to the railroad company for the transportation of his oil is no ground whatever for a discrimination in rates in his favor as against another consignor who must ship in the cars the carrier supplies. It may be a reason for limiting to himself the use of the car he furnishes, but the discrimination cannot justly or lawfully go any further.

II. The fact that transportation in barrels exposes the carrier to more risks than does transportation in tanks seems to be most relied upon to support the discrimination made in rates, and it was very strongly urged on the argument. The risks are, *first*, of accidental fires in consequence of leakage from barrels, and, *second*, of injury to other property arising from its being affected by petroleum odors. Considerable evidence was given to show that leakage from barrels was constant and in warm weather very great, and that trains and ware-

houses were specially exposed to accidental fires in consequence. On the other hand, there was evidence that the risks are greatest when the oil is transported in tanks; the greatest risk being from collisions, which might break up and empty the tanks and expose the whole vicinity, while barrels might for the most part or altogether escape breakage. Persons entitled to speak as experts differed very widely in their testimony on this point, but Mr. Brundred, the manager of the tank line which is operated on the Pennsylvania roads, and who testified to having kept careful statistics covering a considerable period of time, showed by these that the risks from either mode of transportation were small, but were least when the transportation was in barrels. Possibly his experience may have been somewhat exceptional; but we are not satisfied from the evidence that there is any such greater risk from fires when the oil is conveyed in barrels as can justify a difference in rates. The risk from injury to other property is something, but not serious. Oil in barrels is transported in cars which when not used for that purpose are employed in the transportation of live stock, lumber, iron ore, or other articles not subject to injury from the odors, and when taken in car load lots is loaded and unloaded by the shipper elsewhere than in the company's warehouses. With proper care, therefore, injury to other property ought very seldom to happen.

III. The greater probability of finding return loads for the tanks is much relied on. The return loads are either turpentine or cottonseed oil. The turpentine region is reached by some of the roads, but not by all; but on those same roads are lumber, iron, and other heavy articles to be transported in the direction opposite to that in which the oil is taken, and which would constitute very suitable loading for the cars in which oil in barrels is carried southward. It is a very pregnant fact as bearing on relative rates in this region that Mr. Virgil Powers, the Commissioner of the Southern Railway & Steamship Association, and Mr. Charles A. Sindall, the Secretary, both of whom have had long experience in those or similar capacities, agree in opinion that oil in barrels ought to be transported as cheaply as the same quantity in tanks. This opinion would not have been given without good reason; and without doubt the probability of return loads for the tanks was taken into account. In the southwest cotton seed oil mills may or may not be found at the points to which oil in tanks is taken. If they are not the tank must return empty or it must be sent elsewhere for a load. But we do not learn from any evidence given before us that the railroad company has any right, under its implied contract for the transportation of the petroleum oil, to send the tank car to any other point for a load when it does not find one at the place of delivery. If there is any such right it must arise from some special contract or arrangement; and if any such exists the terms and particular privileges given are not disclosed in these cases; but when thus sent elsewhere it may or may not be the case that there is any considerable advantage in it, such as would be derived from taking up a load at

NICKEL PLATE LINE, Traders' Dispatch, Indiana, Bloomington & Western R. Co. and Philadelphia & Reading R. R. Co.

(Nos. 122-125.)

A BSTRACT of complaints filed February 25, 1888, alleging unjust discrimination by means of "underbilling."

Messrs. John R. Read and Silas W. Pettit, for complainant:

The complainants in the above entitled cases are of the same general tenor, and they allege that the defendants, the Union Line, the Erie Dispatch, the White Line, the Nickel Plate Line and the Trader's Dispatch are unincorporated bodies in the nature of partnership, generally known as Fast Freight Lines, having and controlling cars contributed proportionately by the railroad corporations over whose lines they are intended to be run and operated for the joint profit and convenience of the several railroad companies therein interested respectively. That said fast freight lines and railroad companies owning and managing the same by changing the duly published joint tariff rates upon a less number of pounds of grain, feed or other freight than was actually transported from points in the States of Ohio, Indiana and Illinois to the City of Philadelphia did charge, demand, collect and receive from the persons paying the same a less compensation for the transportation thereof than was in said published tariffs or schedule of rates and charges specified, and that the same was so done for the purpose and with the intent to give undue and unreasonable preference and advantage to the particular persons trading in that grain or feed, and to subject all other persons trading in those commodities at Philadelphia and points adjacent thereto to undue and unreasonable prejudice and disadvantages, in violation of the Act to Regulate Commerce; and that such inequality of charges and discrimination has been largely practiced by defendants, and is well known to persons engaged in the grain and feed business at Philadelphia and points adjacent thereto under the name of "underbilling."

RIDDLE, DEAN & CO.

v.

BALTIMORE & OHIO R. R. Co.

(No. 87.)

*1. A statement of the evidence, from which it appears that it was the duty of the Yough Slope Mine, its owners and agents, to have inquired of the station agent of the railroad company near by the mine on the 30th day of August, 1887, and on the next day, by which they would have learned that the mine could have obtained cars for the shipment of coal to Arthur & Boylan at Cleveland, Ohio, and they having failed to do this, in consequence of which the Youghiogheny and Ashtabula Mines received nearly all these cars for this purpose, without any partiality or preference on the part of the railroad company. *Held*, upon these facts that a complaint of unjust discrimination against the Yough Slope Mine, and in favor of the Youghiogheny and Ashtabula Mines can not be sustained.

2. Where a complaint is made by a shipper that an unjust discrimination was perpetrated by a railroad company against him at a particular time named, in a case like the present, to rebut the inference arising from the circumstances, calling for explanation, among other evidence, the carrier may show that during a long course of business neither it nor any of its agents have ever shown any unfriendly spirit whatever toward the shipper; and that on the contrary its agents, immediately before the matter complained of, made extra exertions in good faith to serve the shipper in obtaining cars for him from the connecting line to whom the shipper had to look for such cars.

3. In the absence of some custom and rule of business placing such duty upon the carrier to notify the shipper, without inquiry on the part of the latter, of the fact that he can there obtain cars for the movement of his freight, it is the duty of the shipper, by reasonable inquiry made to the proper agent of the railroad company, to obtain this information for himself; but in a case like the present, if the carrier took upon itself the duty of actually notifying the Youghiogheny and Ashtabula Mines on the 30th of August, 1887, without waiting for any inquiry on their part, that they could get cars, then, in like manner, it was its duty to have notified the Yough Slope Mine at the same time that it could get cars. *Held*, that, tested by these rules, no case of preference or unjust discrimination is made out by the evidence in favor of the Youghiogheny and Ashtabula Mines, and against the Yough Slope Mine.

(Heard Feb. 1; Decided Feb. 24, 1888.)

*Head notes by COOLEY, Chairman.

COMPLAINT charging unjust discrimination in furnishing coal cars. *Dismissed.*
See decision on motion to amend complaint, ante, 701.

Mr. J. L. Black, for petitioner.

Messrs. John K. Cowen and H. L. Bond, for defendant.

REPORT AND OPINION OF THE COMMISSION.

Bragg, Commissioner:

The complaint in this proceeding charges that the Baltimore & Ohio Railroad Company does not give the mines represented by petitioners their proportion of cars each day, and that this Company unjustly discriminates against them in furnishing cars to others.

The complainants are sales agents of the Yough Slope Mine, situated near West Newton, on the Baltimore & Ohio Railroad. These unjust discriminations are charged to have been committed during the month of August and the early part of September, 1887, namely: commencing with the 10th of August and ending with the third day of September following, on cars that should have been furnished for shipments of coal from said mine to Arthur & Boylan at Cleveland, Ohio. Various exhibits are attached to the petition in the shape of correspondence relating to these alleged discriminations, and also lists of cars which it is claimed were furnished to the Yough Slope Mine and to other adjacent mines during the period to which the complaint refers.

The answer of the Baltimore & Ohio Railroad Company neither admits nor denies that the complainants were sales agents for the Yough Slope Mine or that on August 10, 1887, they received an order to ship five cars per day to Arthur & Boylan, of Cleveland, Ohio. It admits the receipt of memorandum, copy of which is filed with complaint, marked Exhibit No. 2, but states that in the distribution of coal cars to the mines along the line of its road it has necessarily to deal directly with the mines, and cannot recognize or notice the orders of third parties, the practice being that each mine makes out a daily requisition for such cars as it needs on blanks furnished by the Railroad Company for the purpose. It states that all the cars used for shipments of coal from mines on the lines of its road over the Pittsburgh & Western Railroad to Cleveland are owned by the Pittsburgh & Western Railroad Company or its leased lines, and that the Baltimore & Ohio Railroad Company in distributing those cars to the mines acts only as the agent of the Pittsburgh & Western Railroad Company and under its direction; that the route for coal from mines on the respondent's road to Cleveland for Pittsburgh & Western cars is by way of the respondent's road to Pittsburgh, the Pittsburgh Junction Road to Allegheny City, the Pittsburgh & Western Road to Akron, and the Valley Railway to Cleveland.

There is, however, direct delivery by the Baltimore & Ohio Railroad to the Pittsburgh & Western Railroad on the line of the Junction Road. The Pittsburgh & Western Railroad and the Valley Railway are distinct and independent roads, and in no way controlled by the Baltimore & Ohio Railroad Company. It states

INTER 8.

that on the 10th of August, 1887, it received an order, then in the Pittsburgh & Western Railroad, to allow no cars belonging to the Western Railroad Company to be loaded with coal for Cleveland; that on the 19th at the instance of the Yough Slope Mine, C. Bachelor, train master of the respondent, endeavored to have the standing order revoked as to the Yough Slope Mine for that purpose sent to J. T. Superintendent of the Pittsburgh & Western Railroad, a telegram in the following words:

"Can coal for Presley & Arthur & Boylan, Cleveland, go to Yough Slope? Answer quick."

To which telegram the following was received from Superintendent Johnson: "No, sir; I cannot take coal to Yough Slope. Arthur & Boylan unders. Do not allow any of our cars loaded with coal or slack unless immediate shipment for it."

That all of the respondent's disregard to the business between the road and Cleveland were carried on with the Pittsburgh & Western Railroad. It has no direct dealings with the Yough Slope Mine in regard to shipments of coal to Cleveland above made by the Pittsburgh & Western Railroad on its own motion or whether directed by the Valley Railway; and believes that such orders at least in part dictated by the Western Railroad Company. The order of August 10, 1887, in the telegram last quoted was revoked until August 30, when C. Bachelor received the following telegram from Superintendent Johnson:

"Please send along Arthur & Boylan will receive it."

It denies that it in any way intended to discriminate against the Yough Slope Mine in the distribution of shipments of coal to Arthur & Boylan or other consignees in Cleveland; but on the contrary, it did not discriminate to any mines on its road for making Cleveland shipments, and do so against the orders of the Western Railroad Company, the owner of the cars; that in regard to the comparison made in the petition between the cars furnished the Yough Slope Mine and those furnished the Yough Slope and Ashtabula Mines the respondent's comparison is unjust and made in the petition; that, as a petition itself, the Yough Slope Mine orders for but five cars a day to be the Pittsburgh & Western Railroad five cars were for Cleveland shipments to Yough Slope and Ashtabula. On the other hand, was a large shipment to Cleveland, where its consignees, Arthur & Boylan and Presley & Arthur to Fairport, a point on the Pittsburgh & Western Railroad system. Its orders for shipments to Pittsburgh & Western Railroad twenty-five cars a day or five times

Yough Slope Mine. The shipments made by the Youghiogheny and Ashtabula Mines as well as those by the Yough Slope Mines, consigned to Arthur & Boylan at Cleveland between August 20 and August 30, inclusive, were made despite the orders to the contrary issued by the respondent under the instructions issued by the Pittsburgh & Western Company. The cars so loaded were furnished with instructions that they should not be loaded for Cleveland, but both mines in question did load coal from their mines for Cleveland as shown by Exhibit No. 12, filed with the petition. The respondent took the cars so loaded and delivered them to the Pittsburgh & Western Railroad; but whether they were transported by that road respondent is unable to say. It admits that Exhibit No. 12, filed with the petition, is a correct statement of the number of cars shipped by the different mines consigned to Arthur & Boylan at Cleveland, with the exception that the number of cars loaded on September 3 for the Yough Slope Mine should be five instead of one. The number of Pittsburgh & Western route cars shipped by the Yough Slope Mine from August 20 to September 3 was twenty-three instead of sixteen, as appears by Exhibit No. 12.

It avers that the owners of the Yough Slope Mine do not have or claim to have any complaint or grievance against this respondent, in regard to the distribution of cars to that mine, and that said owners have no interest in nor do they approve of the present proceeding, as will appear by letter dated October 31, 1887, from R. H. Latimore, General Manager of the Yough Slope Mine, addressed to Mr. J. V. Patton, Superintendent of the Baltimore & Ohio Railroad, Pittsburgh, Pennsylvania, a copy of which is attached to respondent's answer as an exhibit.

It alleges that on the 10th of October, before the filing of this petition, the order of Arthur & Boylan for five cars per day referred to in the petition was revoked. The respondent therefore alleges that, having satisfied the owners of the Yough Slope Mine that there was and is no discrimination or intention to discriminate, as appears by the letter referred to, the present petition should be dismissed by this Commission and the petitioners be relegated to their remedy by suit at law, if any they have.

At the hearing it was agreed between the counsel of the parties that the grievances complained of should be confined to the period between the 30th of August and the 4th of September, 1887. This, of course, greatly narrowed the investigation. Evidence was permitted to be introduced as to the dealings of the parties from the middle of June, 1887, relating to the furnishing of cars by the respondent to the Yough Slope Mine and other mines along its line for whatever light, if any, this might throw upon what occurred during the period complained of. By the agreement of counsel above mentioned it was conceded that the respondent had satisfactorily explained to the petitioners all the alleged grievances mentioned in the complaint, except those averred to have occurred between the 30th of August and the 4th of September, 1887.

From the evidence before us we find the ma-

terial facts to be that the Yough Slope Mine is in the State of Pennsylvania, and is situated on the Pittsburgh Division of the Baltimore & Ohio Railroad, near West Newton, about thirty-three miles south of Pittsburgh. The Pittsburgh Division of the Baltimore & Ohio Railroad extends from Cumberland, in the State of Maryland, to Pittsburgh, in the State of Pennsylvania, a distance of 150 miles. Near the Yough Slope Mine are the Youghiogheny and Ashtabula Mines and numerous other mines situated upon the Pittsburgh Division of the Baltimore & Ohio Railroad, in the State of Pennsylvania.

The route by which coal is carried over respondent's railroad to Cleveland, in the State of Ohio, is by the Baltimore & Ohio Railroad to Pittsburgh, a distance of about thirty-three miles; by the Pittsburgh Junction Railroad to Allegheny City, a distance of 4.47 miles; by the Pittsburgh & Western Railroad from Allegheny City to Akron, Ohio, a distance of 135.3 miles, and by the Valley Railroad from Akron to Cleveland, a distance of thirty-five miles. The Pittsburgh Junction Railroad is a mere link of connection between the Baltimore & Ohio Railroad and the Pittsburgh & Western Railroad, and they pay to it \$2 for each loaded freight car received by or delivered to them over its line, which rate, it is provided by the contract, may be less if the earnings of the Pittsburgh Junction Railroad exceed a certain amount named in the contract. The Pittsburgh & Western Railroad Company and the Valley Railroad Company are each separate, distinct, and independent corporations. The Pittsburgh & Western Railroad extends from Allegheny City, in the State of Pennsylvania, to Orville, in the State of Ohio, a distance of 160 miles, and it has what it calls its Lake Division, extending from Niles, in Pennsylvania, to Painesville, in the State of Ohio—virtually at Fairport, on Lake Erie—a distance of fifty-one miles. The distance from Allegheny City to Niles on the Pittsburgh & Western Railroad is 85½ miles. The Pittsburgh & Western Railroad also has what is called its Northern Division, extending from Callery Junction, in Pennsylvania, to Mount Jewett, in the State of Pennsylvania. The Valley Railroad extends from Cleveland, Ohio, to Valley Junction, in the same State, a distance of seventy-five miles, and crosses the Pittsburgh & Western Railroad at Akron.

We find on file in our office the Baltimore & Ohio Railroad Company's through coal tariff No. 1, taking effect April 1, 1887, which embraces through rates on coal from the mines mentioned to Cleveland, Fairport, Cuyahoga Falls, Girard, Monroe Falls and a large number of other points east and west of these mines. We also find on file in our office a supplement No. 3 of the Baltimore & Ohio Railroad Company to the above through coal tariff No. 1, published April 25, 1887. These tariffs are still in force. We find no joint coal tariffs existing between the Baltimore & Ohio Railroad Company, the Pittsburgh & Western Railroad Company, or between either of these and the Valley Railroad Company; nor do we find joint tariffs or joint agreements of any kind between any of these three last named railroads, and the evidence shows

nothing of the kind, and although it may be probable that some arrangements of this character exists between them, yet, in the absence of evidence on the subject, we are not authorized to find such to be the fact.

This, however, was not the only route by which the mines mentioned in the complaint might have shipped coal to Cleveland during August and the early part of September, 1887, for they might have shipped by the Baltimore & Ohio and the Pittsburgh & Lake Erie Railroad and the New York, Pennsylvania & Ohio Railroad; but this would have involved extra switching charges.

The petitioners, Riddle, Dean & Co., reside at Pittsburgh, and during the summer and fall of 1887 were sales agents of the Yough Slope Mine in finding markets and purchasers for its coal. Through their efforts and negotiations, about the middle of June five car loads of coal from this mine were shipped to Arthur & Boylan, large coal dealers in Cleveland, as a sample lot. Under a contract or arrangement to this effect subsequent lots of coal from this mine were shipped to Arthur & Boylan, at Cleveland, at intervals during the period intervening between the first shipment and the 19th of August. On the 19th of August and for a short period prior thereto there had been a direct order in force to the Baltimore & Ohio Railroad from J. T. Johnson, Superintendent of the Pittsburgh & Western Railroad, not to allow any coal cars to go forward to Cleveland until further notice.

On the 19th of August D. C. Bachelor, train master of the Baltimore & Ohio Railroad Company, telegraphed J. T. Johnson, Superintendent of the Pittsburgh & Western Railroad Company:

"Can coal for Presley & Arthur and Arthur & Boylan, Cleveland, go forward from Yough Slope? Answer quick."

To this telegram on the same day Superintendent Johnson replied by telegram:

"No sir; I cannot take coal for Presley & Arthur or Arthur & Boylan until further notice. Do not allow any of our cars to be loaded with coal or slack unless you have immediate shipment for it."

Again, on the same day, a telegram was sent from the office of the Superintendent of the Pittsburgh & Western Railroad Company to Bachelor:

"Presley & Arthur and Arthur & Boylan have on hand at this writing twenty-seven cars of B. & O. coal; do not think it advisable to receive shipments for a few days; will advise you."

Under those orders and instructions coal did not go forward from the mines along the Baltimore & Ohio Railroad (the Yough Mine included) until the 31st of August.

On the 23d of August, 1887, petitioners wrote a letter to Arthur & Boylan, Cleveland, Ohio, in which they say:

"Owing to the B. & O. R. R. and Valley Railway refusing to receive any more coal for you we will ship you about twenty cars via N. Y., P. & O. route. We will pay switching on same. What is wrong? Are you blocked?"

To this Arthur & Boylan, by letter of date August 25, 1887, replies:

"Yours of the 23d received, and in reply

would say the Valley R. R. say they have not stopped any of our coal. Do not ship us any coal via N. Y., P. & O."

On the 30th of August a telegram was sent by Superintendent Johnson, of the Pittsburgh & Western Railroad Company, to D. C. Bachelor, Train Master of the Pittsburgh Division of the Baltimore & Ohio Railroad:

"Please send along Arthur & Boylan coal; Valley will receive it."

During the afternoon of the 30th of August the following telegram was sent by Bachelor to all the depot agents for all the mines along the Pittsburgh Division of the Baltimore & Ohio Railroad:

"Coal for Arthur & Boylan can now come forward."

Under date of August 30, 1887, at Allegheny, Superintendent Johnson wrote petitioners the following note:

"I received a message this A. M. from Superintendent Smith, of the Valley, after departure of your representative, saying they would receive coal for Arthur & Boylan, and immediately notified the Baltimore & Ohio to let it come forward."

This note was received that day by petitioners, and was immediately forwarded by them to R. H. Lattimore, general manager of the Yough Slope Mine, at West Newton, Pennsylvania.

Hearing of no coal shipped, as they would in the ordinary course of business, if any had been forwarded, at noon on the second of September, W. H. Riddle, of the firm of Riddle, Dean & Company, took a train from Pittsburgh to the Yough Slope Mine, which is only a short distance, and went there. After conferring with Lattimore and finding that the Yough Slope Mine had received no cars the two went together to the Youghiogheny and Ashtabula Mines, which are near by, and there found the sidings of the Youghiogheny and Ashtabula Mines filled with cars. At that time the Yough Slope Mine had only one car of the Pittsburgh & Western Railroad. The next day Riddle went to the way master's books, from which he obtained a statement of the cars shipped from the Yough Slope, Youghiogheny, and Ashtabula Mines, respectively, during the period between the 30th of August and the third of September. From this statement, which is in evidence before us, it appears that during that time the Yough Slope Mine, while ordering eighty five cars, received only six cars, and the Youghiogheny and Ashtabula Mines, ordering eighty western cars, received forty-eight.

The manner in which mine owners are furnished cars for the shipment of coal by the Pittsburgh Division of the Baltimore & Ohio Railroad is shown by the evidence. Each agent and each mine owner is furnished blanks, and at four o'clock each afternoon they fill in the blanks—the number of cars on hand loaded and ready for forwarding, the amount on hand for the morrow's haul, and how many cars they require. This information is telegraphed to the superintendent of the railroad, and the original order follows by mail to confirm the telegraphic request. This is condensed by the car distributor, and during the night the empty cars are distributed to the various mines, according to instructions.

It is an event of frequent occurrence for the mines to alternate in receiving cars during the season—that is, one mine for two or three days will have no cars and then the next succeeding several days it will have abundance of cars; and this method is said to be more economical for the miners and to be preferred by them. Another phase of this business is that mine owners frequently, when cars are scarce, call for twice as many cars as they really need in order, as they say, that they may be sure to get enough; and this was done often by the Yough Slope Mine during the month of August, 1887, as its general manager, Lattimore, who is also owner of a one fourth interest in the Yough Slope Mine, admits as a witness on the stand. He admits that while the Yough Slope Mine was calling on the Baltimore & Ohio Railroad Company for twenty and twenty-five cars a day from the 15th of August to the last of that month this mine did not really need and could not use more than one half that number. He also admits that he occasionally preferred not to have cars for two days at a time, because it was more economical for him to do so, and that this was so understood and agreed on between him and the authorities of the Baltimore & Ohio Railroad Company. While admitting all his fault-finding complaints to his agents, the petitioners, against the Baltimore & Ohio Railroad Company, as shown in evidence, he now says, as a witness on the stand, "that, take the season through we received as many cars as our neighbors," and again, "During the whole season we were treated very well. There is no complaint to make." Referring to what occurred between the 30th of August and the 4th of September this witness testifies:

"I do not consider we were discriminated against. I consider it an oversight that the agent did not notify me until the fourth morning the embargo was raised."

During the summer of 1887 the capacity of the Youghiogheny and Ashtabula Mines was about twice as great of that of the Yough Slope Mine. In the same period the shipments of coal from the Yough Slope Mine were largely to Cleveland, over a route in which there was very frequent trouble to obtain cars, while the shipments of coal from the Youghiogheny and Ashtabula Mines were chiefly to Fairport, over a route in which there was no trouble about a sufficiency of cars. The General Manager of the Yough Slope Mine, Lattimore, testifies that for this reason, Mr. Day, whom we suppose from the connection in which his name occurs was an officer connected with the Baltimore & Ohio Railroad Company, advised the witness to ship his coal to Fairport, where he could get plenty of cars and have no trouble; but Lattimore testifies that he was anxious to introduce his coal in the Cleveland trade.

To negative the idea of unjust discrimination during the period complained of, between the 30th of August and the 4th of September, as far as this might, if at all, the Baltimore & Ohio Railroad Company introduced in evidence statements of the cars it furnished during the period from the 15th of August to the third day of September, 1887, to these respective mines on east and west bound shipments.

From these it appears that of the total cars furnished during this last period the Youghiogheny and Ashtabula received 208 cars, and the Yough Slope Mine received 146, divided as follows:

West Bound Shipments.

Youghiogheny and Ashtabula.....	163 cars.
Yough Slope.....	57 "

East Bound Shipments.

Youghiogheny and Ashtabula.....	40 cars.
Yough Slope.....	39 "

On shipments of coal to Cleveland during this same period last referred to the cars furnished the mines were as follows:

Youghiogheny and Ashtabula.....	36 cars.
Yough Slope.....	33 "
Republic.....	40 "
West Newton.....	15 "
Amirville.....	8 "
Oseola.....	26 "
Eureka.....	1 "

To further negative any inference of unjust discrimination upon the facts, as far as this might do, if at all, the Baltimore & Ohio Railroad Company shows by the evidence that, during the month of August, 1887, and the period to which this complaint relates, owing to the amount of business it had to do upon its own line and the amount of its car equipment in use for that purpose on its Pittsburgh Division, it could not and did not permit its cars to go away from its own line to carry coal for any shippers, and that during that time coal from these mines to Cleveland had to be transported in the cars of the Pittsburgh & Western Railroad Company, which were used for that purpose, and that in distributing these cars among the mines along its Pittsburgh Division the respondent did so as the agent of the Pittsburgh & Western Railroad Company, and in making this distribution divided these cars among the mines ratably, fairly and without preference to any one mine over another. The cars of the Valley Railroad Company do not appear to have been used in this business during last season, though prior to that time they had been.

The question to which our conclusions must be directed upon this evidence is whether, in violation of the Act to Regulate Commerce, the Baltimore & Ohio Railroad Company was guilty of unjust discrimination in failing to furnish cars to the Yough Slope Mine between the 30th of August and the 4th of September, 1887, for shipments of coal to Arthur & Boylan, at Cleveland, Ohio, and during that period unjustly discriminated in favor of the Youghiogheny and Ashtabula Mines by furnishing cars to them. This is the only issue in the proceeding.

The cars to be furnished were the cars of the Pittsburgh & Western Railroad Company; and they were to be distributed to these mines by the Baltimore & Ohio Railroad Company. An embargo, as it is called by the witnesses, had been existing from August 19 to August 30, during which time no cars were furnished by the Pittsburgh & Western Railroad Company to the respondent for the shipment of coal from these mines to Cleveland, Ohio. The embargo itself is not now made a subject of complaint in this proceeding, and the agree-

would have been business like, and as clearly a matter of duty they owed the owners of the mines; but nothing of this kind appears to have been done. While carefully guarding their rights in all matters to which it relates, the Act to Regulate Commerce does not proceed upon the theory that shippers are absolved from all duty in looking after the delivery of their freight to railroads for carriage. It would require more credulity than discrimination to believe, upon the evidence before us, that the Yough Slope Mine was suffering for the want of cars during the period elapsing between the 30th of August and the 4th of September, 1887.

It is manifest from the evidence that neither the Pittsburgh & Western Railroad Company nor the respondent attempted to conceal from the Yough Slope Mine the fact that the embargo was raised; but, on the contrary, Johnson, the Superintendent of the Pittsburgh & Western, informed the petitioners, who were the agents of that mine, of the fact on the 30th of August; and on the same day it was telegraphed by Bachelor to all the station agents of the Pittsburgh Division of the Baltimore & Ohio Railroad Company along its line. Other facts in evidence tend to negative the idea of any unjust discrimination. On the 19th of August, Bachelor, the Master of Trains of the Pittsburgh Division of the Baltimore & Ohio Railroad Company, sent an urgent telegram to Johnson, the Superintendent of the Pittsburgh & Western, to know if coal from the Yough Slope Mine could not go forward to Arthur & Boylan, at Cleveland, Ohio. Taking the period from the 15th of August to the 4th of September, 1887, when the greatest trouble for cars existed, and it shows that the Yough Slope Mine received considerably more

cars in proportion to its need for them than did the Youghiogheny and Ashtabula Mines, and this, too, while the shipments of the latter were chiefly to Fairport, upon a line where there was no trouble about a sufficiency of cars, and the former was shipping in large part to Cleveland, Girard, Monroe Falls and Cuyahoga Falls, over a line where there was great trouble about a sufficiency of cars. Not a single instance is shown by the evidence where the respondent or any of its officers or agents have ever manifested any unfriendly spirit toward the Yough Slope Mine, in its business or otherwise. The General Manager of the Yough Slope Mine, who owns a one fourth interest in that mine, while admitting as a witness on the stand that he had frequently been dissatisfied and had complained during last August because he did not get all the cars he needed at all times, yet stated that during the entire season his mine had been treated as well in the matter of cars as any of its neighbors, and utterly repudiated the idea that there had been any unjust or unfair discrimination by the respondent against the Yough Slope Mine.

After a careful consideration of all the evidence adduced by the parties in this proceeding we are of the opinion and so find that it fails to show that the Baltimore & Ohio Railroad Company was guilty of unjust discrimination under the Act to Regulate Commerce in failing to furnish cars to the Yough Slope Mine for shipment of coal to Arthur & Boylan, at Cleveland, Ohio, between the 30th of August and the 4th of September, in the year 1887.

The order of the Commission is that this petition be, and the same is hereby, dismissed.

SUPREME COURT OF PENNSYLVANIA.

G. B. LIST, *Plff. in Err.*,

v.

COMMONWEALTH of Pennsylvania.

(From the Central Reporter.)

1. The Legislature of the State has power to prescribe the conditions under which a foreign corporation shall transact business in the State, and the manner in which its agents shall be qualified before entering on their duties.
2. The issuing of a policy of insurance is not a transaction of commerce within the meaning of article I, section 8, clause 4, of the Constitution of the United States, even though the parties are domiciled in different States, but is a simple contract of indemnity against loss.

(Argued Nov. 2, 1887, Decided Jan. 3, 1888.)

OCTOBER Term, 1887, No. 166, W. D., before Gordon, Ch. J., Paxson, Sterrett, Green and Williams, JJ.

Error to the Quarter Sessions of Allegheny County, to review a judgment on an indictment for violating the insurance laws of the Commonwealth. *Affirmed.*

G. B. List was indicted for "unlawfully transacting business within this Common-

wealth, as the agent of an insurance company of another State, to wit: as the agent of the Mutual Fire Insurance Company of Baltimore in the State of Maryland, without having first procured a certificate of authority so to act from the Insurance Commissioner of the Commonwealth, contrary to the form of the Act" of April 4, 1873, * and of May 1, 1876.

Defendant demurred to the indictment. The demurrer was overruled. [1]

A motion to quash the indictment was subsequently made, and was refused by the court. [2]

The jury rendered a verdict of guilty, and found specially the following facts:

"G. B. List, the defendant, is and was at the time of the alleged offense a citizen and resident of Baltimore, Maryland, and was engaged in representing the Mutual Fire Insurance Company of Baltimore, Md., in the capacity of

* The Act of April 4, 1873, provided:
Section 10. "No person shall act as agent or solicitor in this State, or of any insurance company of another State, or foreign government, in any manner whatever relating to risks, until the provisions of this Act have been complied with, on the part of the company or association, and there has been granted to said company or association, by the commissioner, a certificate of authority, showing that the company or association is authorized to transact business in this State; and it shall be the duty

know what the rates were; and anyone who was contemplating even the possibility of making use of them had special right to ask for them. Complainant had a *legal right* to know whether, when the charge was to be made by the 100 pounds, it would be on an actual weighing or on an estimate.

He had an equal right to be informed that instead of being charged for the return of the empty car he would be paid for its use.

The published rate sheets, so far as they related to rates on the lines of these defendants, ought to have given the information on both these points; and if they were blind or ambiguous it should have been supplied on request.

The Newport News & Mississippi Valley Company, and the Louisville, New Orleans and Texas Railroad Company, we find to have been guilty of discrimination against complainant in taking tank cars irrespective of capacity, on an assumption that the average capacity was eighty-five barrels, and charging therefor a rate which, as compared with the rate on barrel shipments, would have been relatively too low had the capacity been as was assumed, and which was relatively very much too low in view of the actual capacity.

On the hearing it was insisted, on behalf of the first named of these two defendants, that the assumption on which its rate was estimated was made in good faith, and upon information given by an agent of the Standard Oil Company of Kentucky, which was believed to be correct, but which proved not to be so. The agent who gave the information was before the Commission and admitted giving it, but insisted that it was given after the shipments in question were made, and that, as he understood the question put to him, it related to another line of cars, and not to the line in use on defendant's road. It is, perhaps, not very important now whether defendant's officer was or was not in fact misled. The mischief, so far as concerned the business of complainant, was done by giving tank car rates instead of rates by the weight or quantity; and this wrong, which was one of policy on the part of this defendant, was made more prominent and perhaps damaging by a misstatement in the correspondence.

Complainant had expressed a purpose to obtain tank cars for his own business, and was desirous to know whether he was to be charged by the car irrespective of the capacity. This, we have seen, was the practice on the road of this defendant; but in reply he was told that the tank car was estimated at 20,000 pounds, and if the weight was more, the excess would be charged for. To make sure on this point he wrote the general freight agent, and the reply June 1, 1887, was: "A tank car is supposed to weigh 20,000 pounds; if it weighs more, then we will charge for it." In point of fact the assumption was that the weight was very much greater: 85 barrels at 325 pounds each would be 27,625 pounds, and defendant did not make any additional charge when the weight reached 35,000 pounds, as it sometimes did. If this statement was made in good faith, it is difficult to account for it, and it is not accounted for. If it was the result of mere carelessness, it was not the less misleading to complainant. The necessary tendency was to discourage him from

entering into competition in this mode of shipment if he had a purpose to do so, as he professed to have. Had he provided himself with cars for tank shipments and been charged as he was told he would be, the discrimination against him would have put success in the traffic out of question.

It appears that this company had no rule or settled practice as to paying trackage for the use of tank cars, and considered itself at liberty to deal with that subject by special contract. The facts were brought out by questions put by members of the Commission as follows:

Q. Do you pay car service on the tank cars?

A. On some cars only. We have an arrangement by which we do not pay.

Q. On which do you not pay?

A. We have an arrangement with M. K. Fairbanks & Co. I do not think we pay anything on those cars, but we haul them empty free.

Q. Well, on the other cars do you pay car service the same way?

A. We are compelled to pay the same as our competitors, or we could not get the cars to handle that business. It is three fourths of a cent a mile.

Q. What do you mean by 'that so far as this company is concerned we do not pay mileage in either direction or haul any empty cars free?'

A. That letter was written in April. At that time the matter was being discussed between the lines that refused to pay mileage on any cars, and because they spoke of its being abrogated by all lines.

Q. Then your statement there that you do not pay mileage was based on the belief that the conference resulted in their refusing to pay?

A. Yes sir; refusing to pay mileage on all empty cars. But I told Mr. Rice, in person, that we would allow him the same as anybody else.

Q. Is your tank car mileage the same as it is on any other cars?

A. Yes sir; three fourths of a cent.

Q. That is the regular mileage paid on cars?

A. Yes sir.

Q. Can you specify the shippers to whom you pay mileage and those you do not?

A. That is an account not kept in my office, but I know that with some we have an arrangement not to pay mileage.

Q. You have no uniform rule on that subject?

A. That depends on the kind of agreement made on the business.

Q. As far as you know, M. K. Fairbanks & Co. is the only concern to which you do not pay mileage; is that it?

A. I cannot say that.

Q. You have stated that it is the only concern you know of?

A. No sir; I am not prepared to say it is. I do not know it to be so, because I think possibly others are not paid mileage by us.

Q. How is it with reference to the Union Tank Line cars?

A. I think it very possible, but we do not keep that account in my office.

Here it is obvious as or may be present all the mischiefs that attend the giving of special rates and rebates. The railroad manager who supposes this to be admissible has not fully grasped the significance of those features of

method of transportation being by boat down the Ohio River. In 1887 the water in the river was low for an unusual period, so that the transportation of coal by that method was interrupted from June to about January 1, 1888. The supply of coal at Cincinnati became short, and the price at that point rose until it became an object to make shipments by rail. Such a condition of affairs has previously occurred, but not often.

About November first the complainants obtained an order from Cincinnati for a considerable amount of coal and placed it with the owners of the Federal Springs Mines. These mines are situated upon the Pittsburgh, Chartiers & Youghiogheny Railroad, a short line which connects with the Pittsburgh & Lake Erie Railroad at Chartiers, about six miles northwest from Pittsburgh. From Chartiers the Pittsburgh & Lake Erie Railroad further extends in a northwesterly direction about sixty-two miles to Youngstown, Ohio, at which point it connects with the New York, Pennsylvania & Ohio Railroad, which is operated by the New York, Lake Erie & Western Railroad Company as lessee. The New York, Pennsylvania & Ohio Railroad extends from Salamanca, New York, to Dayton, Ohio, with various branches, one of which crosses said main line at Leavittsburg and forms a direct line from Youngstown to Cleveland, Ohio. At Dayton said New York, Pennsylvania & Ohio Railroad connects with the road of the Cleveland, Columbus, Cincinnati & Indianapolis Railway Company, (hereinafter called the Columbus Company), over which it reaches Cincinnati fifty-six miles beyond Dayton.

By an agreement in writing, dated September 15, 1885, a copy of which is on file with the Commission, the terms upon which business from the New York, Lake Erie & Western Railroad (hereinafter called the Erie Company) is taken to Cincinnati are very precisely regulated. Said agreement is referred to as part of this statement of facts and need not be recited here further than to say that it places the Erie Company substantially on an equal footing with the Columbus Company for the transaction of business at Cincinnati. Under said agreement the Erie Company is considered an initial road at Cincinnati, with the right to make rates on its own responsibility. The "joint depot master" at Cincinnati represents both companies without preference to either, and the Erie Company, as to all business to and from points beyond Dayton, including Cincinnati, is guaranteed uniform facilities in every respect with the Columbus Company, the owner of the road. Under this agreement the locomotives and train hands of the Erie Company do not run beyond Dayton.

There is also an agreement in writing, a copy of which is on file with the Commission, and which is likewise referred to, bearing date October 20, 1877, which regulates the interchange of business at Youngstown between the Pittsburgh & Lake Erie Railroad Company (hereinafter called the Pittsburgh Company) and the aforesaid Erie Company. This agreement gives the latter company control over the rates upon business to and from its line over the line of the Pittsburgh Company, and has been treated by both companies as entitling the

Erie Company to designate the points for which its cars shall be loaded when on the line of the Pittsburgh Company and the character of business in which they shall be used.

On March 25, 1887, the Erie Company, as lessee of the New York, Pennsylvania & Ohio Railroad, notified the Pittsburgh Company by letter that all existing rates to points off its line were withdrawn, excepting as follows:

"Points on the New York, Lake Erie & Western Railway proper, east of Salamanca, will be considered as on our own line, as will also the points on the Cleveland, Cincinnati, Columbus & Indianapolis Railway, between Dayton and Cincinnati, including the latter point."

On April 1, 1887, the Erie Company, as such lessee, issued its freight tariff No. 1, from Youngstown to all points on its line and on the Cleveland, Cincinnati, Columbus & Indianapolis Railway between Dayton and Cincinnati, including Cincinnati, which provided that in the absence of a special tariff coal would take the sixth class tariff rate. The matter of a special coal tariff from points in the vicinity of Pittsburgh to points on the line of the Erie Company, lessee as aforesaid, was made the subject of considerable correspondence during the summer of 1887, particularly with reference to the divisions of the aggregate rates which would be allowed for bringing the coal upon the line of the Pittsburgh Company at various points. This resulted in the issuing of a joint coal tariff by the Pittsburgh and Erie Companies, taking effect September 26, 1887, from mines on various roads, including the Pittsburgh, Chartiers & Youghiogheny Railroad, "to points on the New York, Lake Erie & Western Railroad, lessee of the New York, Pennsylvania & Ohio Railroad," including Cincinnati, to which point the rate was fixed at \$1.70 per ton of 2,000 pounds.

The equipment of the New York, Pennsylvania & Ohio Railroad Company, leased by the Erie Company as aforesaid, included at this time 8,445 gondola coal cars, which were very largely used between Pittsburgh and Cleveland, carrying coal towards Cleveland and ore towards Pittsburgh. In this traffic said cars were loaded in both directions, the ore being distributed to the furnaces in the vicinity of Pittsburgh and the cars then moved to the various coal mines in that region, where return loads were obtained for points on the line of the Erie Company, and especially for Cleveland. In October and November, 1887, this traffic was exceedingly active and demanded more cars than said Company was able to put into the service. Said gondola cars were also used to some extent for other business, such as limestone, iron pipe, etc., under instructions from the Erie Company regulating the extent of such use.

There was practically no coal traffic by rail from Pittsburgh to Cincinnati, for the reason above stated, and very little to points on the Erie Road west of Akron, Ohio, except occasional shipments for gas purposes to Urbana, Springfield, Dayton, etc. Anthracite coal was taken in box cars over the Erie Road to Cincinnati from points in Eastern Pennsylvania.

The mines on the line of the Pittsburgh,

Chartiers & Youghiogheny Railroad were supplied with cars by the Pittsburgh Company upon requisitions made by the dispatcher of the former road at Chartiers, who was accustomed to ascertain the number of cars needed on his line daily and order them in bulk from the Pittsburgh Company, the destination of the cars not being known by the latter Company until they were received loaded at Chartiers.

Said joint tariff, naming a rate of \$1.70 per ton on coal from points on the line of the Pittsburgh, Chartiers & Youghiogheny Railroad to Cincinnati, was in force on November 8, 1887, at which time one of the complainant firm, together with the owner of said Federal Springs Mines, called on the General Freight Agent of said Pittsburgh Company, at Pittsburgh, for the purpose of making arrangements for the transportation of said coal which they had arranged to sell at Cincinnati. They inquired if coal could be shipped from said mines to Cincinnati, and he replied that he had no instructions to the contrary and knew of nothing in the way. They thereupon ordered cars for said purpose from the dispatcher of the Pittsburgh, Chartiers & Youghiogheny Railroad, and several cars were furnished, loaded, and sent forward, consigned to Cincinnati. Ten of these cars went through and the freight at the tariff rate was paid at Cincinnati by the consignees.

About this time other shippers also desired to forward coal to Cincinnati and applied for cars for that purpose. Their application was referred to the Erie Company, which, on November 4, replied, declining to allow cars to be loaded with coal for Cincinnati. At this time all other classes of merchandise were going forward from Pittsburgh to Cincinnati over this route as tendered. The Erie Company presently became aware of the coal shipments passing over its line from the Federal Springs Mines to Cincinnati, and at once issued orders to stop all cars so consigned, wherever they might be upon the route, and to load no more cars with coal for Cincinnati. Several cars so loaded and on the way were stopped at various points under this order, and not allowed to go through, the coal upon them being otherwise disposed of.

On November 8, complainants, by letter, applied to the Erie Company for cars, stating that the Pittsburgh Company had refused to load cars for Cincinnati, and requested ten cars a day. To this the Erie Company, on the 10th, replied that it had referred the matter to the General Freight Agent of the Pittsburgh Road. Meanwhile, on the 9th, the same officer of the Erie Company had telegraphed the General Freight Agent of the Pittsburgh Company as follows:

"The Cleveland, Cincinnati, Columbus & Indianapolis being blocked with bulk freight and that for delivery in Cincinnati yard they have declined receiving any more from us. Please see that no coal or other freight for yard delivery in Cincinnati is taken until notice;"

which was followed, on November 10, by the following telegram to the same officer:

"Please give the necessary ten days' notice

INTER 8.

at once withdrawing all rates or on our line west of Akron."

This request was repeated by afternoon and more urgently; and on the same day a print issued by the Pittsburgh Company effected that on and after November rates on coal to all points on or Erie Company west of Akron joint coal tariff would be withdrawn; same day complainants exhibited of the Pittsburgh Company a consignee at Cincinnati containing the following:

"We have our own switches over our stock from our own tracks; over fifty cars. I have seen Cincinnati, Columbus & Indians and have arranged with them to consign to us come forward. We will unload cars promptly; you can ship at present; will we shut off as soon as the water comes."

Complainants also continued officers of both companies for 11th complainants, observing that withdrawing said coal tariff to Akron did not take effect until tendered coal for shipment until the ten days should expire; however, were furnished for the no further shipments were in member 11 the General Freight Erie Company wrote the Pittsburgh as follows:

"Referring to my notice to 3 days' notice and withdraw all effect to points west of Akron after this time we will not accept present sixth class per hundred of which I enclose you, from the points west of Akron on our you are at liberty, if you see fit tariff upon this basis; but this construed as giving you the privilege our cars for these points; but made for shipments based upon we will take up the question of box cars can be furnished; but circumstances could we furnish goods."

On November 12 he notified Road by telegraph as follows:

"Shipments of bulk freight Cincinnati yard delivery can now but this must not be construed you can forward coal in gondola Cincinnati delivery."

Complainants afterwards a Pittsburgh Company for information what rate would be charged on Cincinnati. Inquiry made by said Erie Company was answered on by the following telegram from Erie Company:

"I see no necessity for your regard to the rate on coal for Cincinnati have full advice as to just what this business."

Whereupon the Pittsburgh notified the Federal Springs Mines, 17, as follows:

"Best rate I can procure from

posed \$2.70 rate, and that his refusal to recognize his tariff was causing considerable pecuniary loss to the complainants, who were thus deprived of an unexpected opportunity of profit to be made by the delivery of coal at an unusual market during the period of low water in the river. He went so far as to stop freight in transit which had been regularly billed and accepted for transportation over his line. He criticised his associates in the Pittsburgh Company for letting the coal go out at all under their joint tariff, and at the same time he referred complainants for information to the same parties. He seems to have regarded the joint tariff as established for ornamental purposes only. The very proper effort of the Pittsburgh Company to carry the traffic during the period limited for the termination of the rate was repudiated. The block in the yard at Cincinnati from November 9 to 12 was no more an excuse for refusing coal shipments than for refusing shipments of other merchandise after the difficulty had been removed. The Erie Company has no right to refuse transportation of coal from the Pittsburgh region to one part of its line, while encouraging the same traffic in every way from the same region to another part of its line. In like manner it has no right to accept and solicit traffic of every other nature from Pittsburgh to Cincinnati and at the same time refuse to carry coal between the same points.

The conduct of the Erie Company in this matter operated directly to give an undue and unreasonable preference to the shippers whose coal was carried during the period in question, and to subject the complainants at the same time to undue and unreasonable prejudice and disadvantage, in contravention of the provisions of section 8 of the Act to Regulate Commerce.

It is obvious that an unremunerative and undesirable traffic can be put an end to by announcing a prohibitory rate as effectually as by refusing to accept the business.

It is also obvious that, by reason of distance, proximity of other producers of the same article, necessary expense of transportation, available competing water routes, or other causes, it may often be true that a perfectly just and reasonable rate will be too high to permit the profitable movement of a commodity over a given railroad line; and therefore the fact that the article cannot be shipped at the rate named is by no means conclusive evidence that the rate is unreasonable.

As the opportunity for shipping coal to Cincinnati has passed, no useful order can now be made in respect to the future. No examination has been entered upon concerning the reasonableness of the tariff now in force and no opinion is expressed upon that question.

The Commission has repeatedly held that it can make no award of damages in a case like the present, for the reason that the defendants are entitled to have the amount assessed by a jury.

An order will be entered declaring and adjudging that the defendants have violated the provisions of the Act to Regulate Commerce in refusing to furnish complainants a fair proportion of cars and to transport the coal tend-

ered for carriage from the Federal Springs Mines to Cincinnati, at the tariff rate of \$1.70 per ton up to November 20, 1887.

Reuben L. RICE *et al.*, Partners as Rice, Robinson & Witherop,

v.

WESTERN NEW YORK & PENNSYLVANIA R. CO., *et al.*

(No. 119.)

A BSTRACT of additional complaint filed March 10, 1888, alleging further unjust discrimination on the part of defendants. See original complaint, *ante*, 717.

Complainants allege that since the filing of their original complaint defendant has in retaliation raised the rate on petroleum oil in car loads from Titusville, Pennsylvania, to Buffalo, New York, two cents per barrel, or, by weight, one half cent per 100 pounds; that defendant excuses such action by saying that oil in car loads is now in its fifth class, and this class of freight has been raised one half cent per 100 pounds; that defendant in its through traffic does not put oil in car loads in said fifth class but transports it under a "special oil tariff." On this statement complainants aver that defendant makes an unlawful and oppressive discrimination between shipments of oil destined for Buffalo, New York, and those for points more distant. Complainants also state that they have been threatened by defendant's officers and agents that through rates to Perth Amboy, New Jersey, will be raised, cars will be denied them, and in other particulars, if they do not withdraw their complaint herein.

MILWAUKEE CHAMBER OF COMMERCE

v.

FLINT & PERE MARQUETTE R. R. CO. and Detroit, Grand Haven & Milwaukee R. Co.

(No. 120.)

A BSTRACT of Joint Answer filed March 15, 1888. See complaint, *ante*, 774.

Messrs. W. L. Webber and E. W. Meddaugh, attorneys for defendants.

Defendants deny that they reduced the rates on flour, grain and mill stuff 2½ cents per 100 pounds from Milwaukee to eastern markets, to apply on property shipped from Minneapolis, and say that twenty-three cents to New York and twenty-eight cents to Boston from Milwaukee were accepted by them and their eastern connections as their proportion of the through rates from Minneapolis; that said through rates were made by roads between Minneapolis and Milwaukee; that while it is true that the local Milwaukee eastern rate is 2½ cents higher than said proportionate rates, as defendants did not make said rates of twenty-three and twenty-eight cents to New York and Boston respectively, they are not guilty of any violation of the Interstate Commerce Act.

trolling in determining the reasonableness of east bound local rates in a traffic in which there is no competition by other cities.

4. In view of the longer haul to **Boston** than to **New York**, the greater cost of transportation to Boston, the very much greater volume of business to and from New York, the competition by water transportation by the Lakes, Erie Canal and Hudson River, and also by several rival railroad lines, and the geographical and commercial advantages of New York, the differentials on **Boston local rates** of ten cents per hundred pounds on the first and second classes of merchandise and of five cents per hundred pounds on the four other classes between New York and Boston on traffic originating west of Buffalo have not been shown to be unjust and unreasonable or to constitute **unjust discrimination against Boston**.

(Heard Oct. 27, 28, Nov. 1, 17, 1887; Briefs submitted Dec. 1887; Decided Feb. 15, 1888.)

COMPLAINT charging discrimination against Boston and in favor of New York, in rates from Chicago. See petition, *ante*, 391.

Messrs. William Gaston, and C. L. B. Whitney for petitioners.

Mr. George C. Greene, for Lake Shore & Michigan Southern R. R. Co.

Mr. Frank Loomis, for New York Central & Hudson River R. R. Co.

Mr. Samuel Hoar, for Boston & Albany R. R. Co.

REPORT AND OPINION OF THE COMMISSION.

Schoonmaker, Commissioner:

These three cases, although against separate carriers, involve one ground of complaint relating to joint through rates; and the petitions and answers being substantially alike the issues are properly disposed of in a single trial and decision.

The general complaint presented by the petitions is that the joint through rates of the defendant carriers from Chicago and some other western points to Boston are disproportionately higher than the joint through rates of the two first named carriers to New York City, and higher than the export rates made by the three carriers over the same line to East Boston, and that by reason of such higher Boston rates the defendants have violated the first, second and third sections of the Act to Regulate Commerce.

The specific complaint is that the rates from Chicago from Elkhart, Indiana, from Toledo, Cleveland, Painesville, and Ashtabula, Ohio, and from Girard, Penn., on the first and second classes of merchandise to Boston are ten cents a hundred pounds higher than to New York; and on the third, fourth, fifth, and sixth classes of merchandise are five cents a hundred pounds higher from the same points to Boston than to New York; and that the export rates through East Boston and the coastwise rates to points east of Portland, Maine, are also less than the Boston rates, being the

same as New York rates. The petitions charge that these differences in rates are not founded upon nor warranted by the difference in distance nor the actual cost of transportation, and are, therefore, unreasonable and unjust, and are an unjust discrimination against Boston and give undue preference and advantage to New York.

The answers do not contest the differences in the rates specified, but controvert the allegations that the Boston rates are unreasonable and unjust or that they unjustly discriminate against Boston or give undue preference and advantage to New York, and justify the differences on the ground of competition with water carriers and other carriers at New York, by which rates are fixed to which the defendants must conform, and allege that these rates as well as the export rates through East Boston and the coastwise rates to points east of Portland are for the transportation of merchandise under circumstances and conditions dissimilar to the transportation terminating at Boston.

The testimony adduced, a large part of which consists of agreed statements and illustrations, has taken a wide range, showing the various competing carriers from Chicago to points on the Atlantic coast and to Boston and their rates, the division of through rates among the defendants, the business of Boston and New York, respectively, and the circumstances that are claimed to affect the rates of transportation.

The facts proven and admitted are too voluminous to be set forth in full, but those deemed material for a disposition of the questions involved are as follows:

Facts Found.

The petitioner is one of several societies in the City of Boston, having a membership of about 829 merchants, engaged in the flour, grain, provision, and other business in that city. The Society has authority to bring this proceeding and its members are interested in the business which is the subject matter of the controversy.

The Lake Shore & Michigan Southern Railway Company owns and operates a line of road extending from its western terminus, at Chicago, through the States of Illinois, Indiana, Michigan, Ohio, Pennsylvania and New York, to Buffalo, its eastern terminus. The New York Central & Hudson River Railroad Company owns and operates a line of road which runs from Buffalo, its western terminus, where it connects with the road of the first named company, to Albany, on the Hudson River, and thence by way of East Albany, on the opposite side of the river, and connected with Albany by a bridge over which the line is operated, southerly along the Hudson River to its southern terminus, at the City of New York.

The Boston & Albany Railroad Company owns and operates a line of road which runs through New York and Massachusetts from its western terminus at East Albany, where it connects with the road of the last above named company, to its eastern terminus, at Boston.

The three respondent railroads thus form by connection with each other a through railroad line from Chicago to Boston, and the two

City of Chicago a distance of sixty to eighty miles; that they are connected with the City of Chicago by the Chicago & Alton, the Chicago, Santa Fe & California, the Chicago & Rock Island, and the Chicago, Burlington & Quincy Railroad Companies; that most of the carriage from such coal fields to the City of Chicago has been done by the Chicago & Alton Railroad Company; that the Wilmington coal fields include the Cities or Villages of Braceville, Braidwood, Coal City, Gardner and others.

Your petitioner further represents that there are other coal fields than those herein mentioned at Spring Valley, in the County of LaSalle, which are connected with the main line of the Chicago & Northwestern Railway, which runs in Illinois from Chicago to the Mississippi River, and said mines at Spring Valley are owned or controlled by corporations, the stock in which is owned or controlled by the persons who are large stockholders or interested in the Chicago & Northwestern Railway Company.

Your petitioner further represents that prior to February 1, 1888, the Chicago & Northwestern Railway Company caused to be issued and put in force to take effect on the first day of February, 1888, two tariffs on soft coal in car loads from Chicago, which are hereto attached and marked respectively Exhibits A and B; that Exhibit A purports to be the tariff for coal in car loads from Chicago, Milwaukee, Racine, Kenosha, Spring Valley and other points to points in the States of Iowa, and Minnesota and the Territory of Dakota; and Exhibit B purports to be the tariff of the Chicago & Northwestern Railway Company and the Chicago & Alton Railroad Company from Braceville, Braidwood and Coal City, Illinois, to many of the same stations on the Chicago & Northwestern Railway as those mentioned in Exhibit A in the States and Territory last named; that an examination and comparison of the said tariffs, which are made a part hereof, will show, and your petitioner charges, that the rates to the several points which are identical upon said tariffs, are the same from Chicago as from Braceville, Braidwood and Coal City.

Your petitioner further charges upon information and belief that prior to the issuance of said tariffs, it was agreed between the Chicago & Northwestern Railway Company and the said Chicago & Alton Railroad Company that said latter company should receive for the carriage from the mines at Braceville, Braidwood or Coal City to Chicago out of the rates collected under said tariffs, the sum or price of forty cents per ton, and that such rate of forty cents per ton has been allowed and paid to said Chicago & Alton Railroad Company upon all coal which has been so carried to points on said Chicago & Northwestern Railway Company from Braceville, Braidwood or Coal City since said tariffs went into effect.

Your petitioner further represents that prior to said February 1, 1888, said Chicago & Northwestern Railway Company, in co-operation with the Chicago, St. Paul, Minneapolis & Omaha Railway Company, issued and put in force another tariff called "Joint tariff on soft coal in car loads from Chicago, Milwaukee,

Racine, Racine Junction, Kenosha, or Spring Valley, Illinois, to stations on the Chicago, St. Paul, Minneapolis & Omaha Railway," purporting to establish rates from said points to various places in the States of Minnesota, Iowa and Wisconsin and the Territory of Dakota; that at or about the same time said Chicago & Northwestern Railway Company, acting in conjunction with said Chicago, St. Paul, Minneapolis & Omaha Railway Company and the Chicago & Alton Railroad Company, issued and put in force another so called "Joint tariff on soft coal in car loads from Braceville, Braidwood, Gardner and Coal City to St. Paul, Minneapolis, Braceville and stations on the Chicago, St. Paul, Minneapolis & Omaha Railway" and purporting to establish rates from Braceville, Braidwood, Gardner and Coal City to the same points as in said last mentioned tariff in Minnesota, Iowa and Wisconsin and the Territory of Dakota; that said last mentioned tariffs are hereto annexed, marked Exhibits C and D and made a part hereof and that an inspection of the same will show that the rates so established are the same from Chicago as from Braceville, Braidwood, Gardner and Coal City.

Your petitioner charges upon information and belief that before the issuance of said tariffs called Exhibits C and D said Chicago & Northwestern Railway Company entered into an agreement with the Chicago & Alton Railroad Company by which the latter was to receive for the carriage of coal from Braceville, Braidwood, Gardner or Coal City to Chicago which should be shipped under said tariffs to points on the Chicago & Northwestern Railway forty cents per ton, and that said rate has since the first day of February, 1888, been paid on all coal so shipped.

Your petitioner further represents that all of the tariffs, aforesaid, called Exhibits A, B, C, and D have been since the first day of February, 1888, and are now in force; that by reason of the operation of the same the cost of carriage from Chicago to points on said Chicago & Northwestern Railway of soft coal in car loads which has been brought to Chicago from other points than so called Wilmington Coal Fields, is forty cents greater than the coal brought as aforesaid from said Wilmington Coal Fields; that thereby a discrimination has been made and is being made in favor of coal mined and shipped from said Wilmington Coal Fields and over said Chicago & Alton Railroad, which discrimination is contrary to and in derogation of the Act to Regulate Commerce, commonly styled the Interstate Commerce Law; that said tariffs and the action of said Chicago & Northwestern Railway Company thereunder have operated, and unless modified will continue to operate to the great injury of your petitioner, in that your petitioner has been placed at a disadvantage in shipping coal to points on the Chicago & Northwestern Railway north and west of Chicago as related to the owners of mines in said Wilmington Coal Fields, and rendered unable to compete with the same except at serious loss, and that if said tariff shall continue for a moderate length of time, it will operate to drive your petitioner from the market reached by lines of railroad of said Chicago and Northwestern Railway Company.

Your petitioner charges upon information and belief that the rates fixed by said tariffs have been so established in order to place the coal of said mines in said Wilmington Coal Fields and the coal mined at the mines at or near Spring Valley upon the same basis of prices in the market reached by said Chicago & Northwestern Railway and for the purpose of excluding from such market coal from mines east of Chicago.

Your petitioner therefore prays that your honorable board will take cognizance of this, his petition, and that the said Chicago and Northwestern Railway Company may be notified to appear in accordance with the rules of this board, and to answer the same, and that it may be directed to adjust and modify its said tariffs in accordance with right and to cease from such violation of law, and that your petitioner may have such relief as the nature of the case shall require, and your petitioner will ever pray.

(Signed and verified.)

MILWAUKEE CHAMBER OF COMMERCE

v.

CHICAGO, MILWAUKEE, & ST. PAUL R. CO. and Chicago & North Western R. Co.
(No. 121.)

A BSTRACT of Pleadings in case based upon a refusal to accept shipments of grain for Milwaukee, unless billed to elevators, and of a regulation compelling transfers of grain at Milwaukee to be made through elevators.

Complainant alleges that defendants issued orders to their agents in the Northwest to discontinue receiving bulk grain for shipment to Milwaukee, unless the same has been billed to elevators. That complainant appealed to defendants to remove said restrictions but its request was refused, except as to the lowest grade of wheat and coarse grains, and this latter concession was refused by the Chicago & North Western Railway Company. That said restrictions still exist, although the reasons for their adoption have long since ceased to exist, namely: the expeditious unloading of cars.

That defendants have also refused to afford equal facilities with Chicago for the transfer of grain for eastward shipment by cars, although charging the same rates for transportation from nearly all points on their lines to Milwaukee as to Chicago, and receiving additional transportation charges from Milwaukee to Chicago, on all eastern Milwaukee shipments. Such grain is transferred on track at Chicago from western cars to eastern cars without charge; but at Milwaukee the transfer is required through elevators, and is subjected to a charge of one half cent per bushel for such elevator service.

And petitioner prays for such relief as the law provides.

Answer of the defendant, the Chicago, Milwaukee & St. Paul R. Co. filed March 10, 1888. (Mr. John W. Cary, solicitor.)

The defendant, the Chicago, Milwaukee & St. Paul Railway Company, answering the

complaint herein, says that during the seven months, commencing August 1, 1887, and ending March 1, 1888, the amount of bulk grain delivered at Milwaukee was 19,669 cars, and at Chicago 18,268 cars; that defendant's track facilities at Chicago amount to 11,871 feet or over two miles, and at Milwaukee to about 19,592 feet or nearly four miles, and those at Milwaukee exceed the track facilities of any other railway at any station in the Northwest; that of the consignments of bulk grains received at Chicago during said period a comparatively small number were for track delivery, and defendant was able to receive the same without unreasonable detention of its cars without blocking its road, and for that reason it continued to receive the same without restriction, but at Milwaukee during said time a very large proportion of the consignments of grain were for track delivery, so great that though its track facilities at Milwaukee are nearly double those at Chicago, it was found impossible to make such delivery without unreasonable detention of cars or blocking the road; that after consultation with a committee of complainant it was agreed that track delivery of the better grades of wheat could be prohibited with least injury to the business interests of Milwaukee, and thereafter it was determined to be necessary to issue the order complained of; that the elevator and storage room and facilities for unloading were ample, and no greater expense was entailed thereby than for the same facilities at Chicago; that the number of cars of bulk grain unloaded on track at Milwaukee during said months was far greater than were unloaded on track at Chicago during the same time; and that defendant is ready and willing to receive bulk grain for track delivery at Milwaukee whenever its facilities will admit.

Defendant admits that grain for eastern shipment is transferred on track at Chicago, but that the same is done by the eastern roads to avoid paying millage on western cars, but to compel it to haul eastern cars to Milwaukee, paying millage thereon Chicago to Milwaukee and return, and make the transfer at its own expense as an eastern road, defendant avers is unreasonable, and the expense so incurred would be more than its proportion of the through eastern rates.

Answer of the defendant, the Chicago & Northwestern Railway Company (Mr. W. C. Gandy, solicitor) shows that it has rescinded the order complained of and is ready to receive all bulk grain offered for track or elevator delivery at Milwaukee.

Reuben L. RICE et al., Partners as Rice, Robinson & Witherop,

v.

WESTERN NEW YORK & PENNSYLVANIA R. CO. and G. Clinton Gardner, Receiver of the Buffalo, New York & Philadelphia R. R. Co.

(No. 119.)

A NSWERS filed March 22, 1888. See original complaint, ante, 717, and additional complaint, ante, 722.

The separate answer of the Western New York & Pennsylvania Railroad Company, called in the petition herein Western New York & Pennsylvania Railway Company, to the complaint and petition of the above named petitioners, by George Zabriskie, its attorney, respectfully shows:

First: This respondent admits that petitioners are copartners in business under the firm name and style of Rice, Robinson & Witherop, and reside at Titusville, Crawford County, Pennsylvania, and are engaged in the business of refining, shipping and selling petroleum, and have an agency, or branch house, at Buffalo, New York; and that they ship refined oil from time to time from Titusville over this respondent's railroad; but this respondent has no knowledge or information sufficient to form a belief as to the extent of the business carried on by the petitioners, or the amount of capital therein invested.

Second: This respondent admits that it is a corporation, and that it owns and operates a railroad formerly belonging to the Buffalo, New York & Philadelphia Railroad Company, which extends from Newcastle, Pennsylvania, to Buffalo, New York, and runs through Oil City and Titusville; besides other lines of railroad in New York and Pennsylvania; but this respondent denies that it is in any other sense a successor to that company; and it admits that G. Clinton Gardner was appointed receiver of the last named company's property, May 20, 1885, and that he operated the said company's railroad until December 1, 1887.

Third: This respondent admits that it charges the petitioners, and has charged them since it began to operate its railroad, viz.: since December 1, 1887, thirty-four cents per barrel for transportation of refined oil in barrels in car load lots from Titusville to Buffalo or about $8\frac{1}{2}$ cents per 100 pounds.

This respondent does not, and has not required petitioners to ship in each car not less than sixty barrels filled with oil, but the rate aforesaid is based upon shipments in car load lots, and a car load lot of oil in barrels is 24,000 pounds, which is about sixty barrels. It is true that in loading sixty barrels on a car, ten barrels are sometimes placed on the top of the other fifty, which rest on the bottom of the car.

This respondent has no knowledge or information sufficient to form a belief whether that method of loading entails upon petitioners any extra or greater expense, or requires more time or care, or the purchase of lumber or nails, or whether there has been, or will be, loss to petitioners from breakage or leakage as a direct or other result from such method of loading, or whether the alleged extra expense amounts to \$1 per car.

This respondent denies that oil cannot be safely transported when barrels are placed one upon the other.

This respondent is a stranger to all matters alleged in the fourth and fifth and other paragraphs of the petition to have been done by the corporation or persons owning, or operating, the said railroad prior to December 1, 1887, and so far as they are material prays that the petitioners be required to make such proof thereof as they may be advised.

Fourth: This respondent has no knowledge or information sufficient to form a belief as to the allegations contained in the sixth article of the petition relating to the said G. Clinton Gardner, Receiver.

It denies all the other allegations in the said paragraph.

Fifth: This respondent has no knowledge or information sufficient to form a belief whether or not the petitioners ship nine tenths of all the refined oil that goes to Buffalo from the oil regions of Pennsylvania. It denies all the other allegations of the seventh paragraph of the petition, and denies that for the service referred to in paragraph 8 of the petition the rate of twelve cents per barrel, with sixty barrels to the car, would be a just or reasonable charge, or that it is so treated, or has been so treated by this respondent in the case of shipments from Titusville to Perth Amboy or otherwise. Such charge would not afford reasonable or adequate compensation to the carrier.

Sixth: This respondent admits that the petitioners have complained and objected against the rates charged by it on oil from Titusville to Buffalo, but this respondent is a stranger to all the matters alleged in the ninth paragraph of the petition stated to have taken place prior to December 1, 1887, and has no other knowledge or information in regard thereto than the allegations in the petition, and prays that the petitioners make such proof thereof, if material, as they may be advised.

Seventh: This respondent has no knowledge or information sufficient to form a belief whether the Standard Oil Company is a rival of petitioners in their business. It denies that the Standard Oil Company exerts, or ever has exerted, over this respondent, its management or officials, any influence to compel them to exact unjust, unreasonable, or extortionate rates or charges, or conditions of shipment from petitioners or other refiners or shippers of oil in Western Pennsylvania or elsewhere, to injure, embarrass, cripple or ruin their business, or for any other purpose or by any means. As to any efforts of the Standard Oil Company in the direction alleged in the petition this respondent has no knowledge or information sufficient to form a belief; but no such efforts have come to the knowledge of this respondent, or have ever prevailed, or do now prevail, with this respondent, or its management, or officials. Whether or not the alleged rate or charge of twenty-five cents per barrel prior to April 5, 1887, for the service referred to in the tenth paragraph of the petition was due to the interference or dictation of the Standard Oil Company with a view to injure the business of petitioners or others, this respondent has no knowledge or information other than the allegations of the petition, and prays that the petitioners be held to make such proof thereof, if material, as they may be advised.

This respondent denies that the petitioners have sustained or suffered the loss or damage stated in the twelfth paragraph of the petition.

Eighth: Further answering said petition this respondent respectfully shows, that it was organized and became incorporated on or about November 23, 1887, under the laws of the

States of New York and Pennsylvania by the consolidation of the Western New York & Pennsylvania Railway Company of New York, with the Western New York & Pennsylvania Railway Company of Pennsylvania, and that those two corporations were organized under the laws of the States of New York and Pennsylvania respectively, September 15, 1887, by the purchasers of the franchises and property of the Buffalo, New York & Philadelphia Railroad Company, under sales made pursuant to decrees of foreclosure of mortgages; and that this respondent took possession and began to operate the said property and franchises, December 1, 1887.

This respondent has, since December 1, 1887, established and maintained a local rate of thirty-four cents per barrel on oil in barrels shipped in car load lots at Titusville, Pennsylvania, for Buffalo, New York; and during the same time on some occasions oil in barrels has been shipped by the petitioners at Titusville for Perth Amboy, New Jersey, by way of Buffalo, and such oil has been carried over this respondent's road to Buffalo, and thence by the Lehigh Valley Railroad to Perth Amboy, New Jersey; and the through rate on such oil has been, and is, fifty-two cents per barrel from Titusville to Perth Amboy, which has been divided between the several carriers in such proportions that this respondent has received twelve cents per barrel, the Lehigh Valley Railroad Company forty cents per barrel, and such traffic has been and is carried almost entirely in cars furnished by the Lehigh Valley Railroad Company, and not in the cars of this respondent; and this respondent denies that the said rate, or that the proportion thereof received by this respondent, affords a sufficient or reasonable compensation for the transportation of such oil from Titusville to Perth Amboy, and alleges that such rate has been accepted by the several carriers because it is the highest rate they could get.

Perth Amboy is situated on New York Harbor; the Standard Oil Company referred to in the petition controls or operates a continuous line of pipes from the oil regions of Western Pennsylvania, in which Titusville is situated, to the Harbor of New York, and carries its oil in such pipes at a cost of about forty cents per barrel—and the oil of the petitioners and other producers or refiners would be entirely shut out from the New York market, unless the railroad companies fixed such rates as would enable them to compete with the Standard Oil Company.

From Titusville, or other points in Western Pennsylvania, the only means of transportation is by railroad; and there is no line of water transportation. Beside this respondent, the Dunkirk, Alleghany Valley & Pittsburgh Railroad Company, the Lake Shore & Michigan Southern Railway Company, the New York, Lake Erie & Western Railway Company, are engaged in the transportation of oil from the said oil regions to Buffalo; and their respective rates are, as this respondent is informed and believes, substantially the same as this respondent's rates. Said rates are based upon the freight classification adopted by and in force, among all railroads east of the Mississippi and north of the Ohio, in which

INTER 8.

classification refined petroleum is fifth class freight; and such class far as the shipper is concerned, is just, although in this respondent too low to afford adequate remuneration to the carrier. The said rate on oil from Titusville to Buffalo is just, and does not discriminate against petitioners or any other refiners nor in favor of the Standard Oil Company or any other refiners or producers of New York or other seaboard, Buffalo or other interior points, the railroad no more than, but contrary, less than, a fair compensation for service performed.

The answer of the defendant Gardner, Receiver of the Buffalo & Philadelphia R. R. Co., filed March 10, 1888, admits his appointment as such Receiver, and that he operated at that capacity up to December 1, 1887, which time the Western New York & Pennsylvania R. R. Co. has been in possession, and says that from that date to all the allegations in said complaint relating to matters subsequent to that date, and as to matters prior to that date, the Commission is without authority to entertain the same. The only matters contained in the defendant's answer which are substantially embraced in the foregoing of the W. N. Y. & P. R. R. Co.

MICHIGAN CONGRESS WATER CO.

CHICAGO & GRAND TRUNK RAILWAY CO.

(No. 128.)

ABSTRACT of Complaint filed March 10, 1888, charging the imposit
just and exorbitant rate upon mineral water in tank cars, and an improper classification of mineral water.

Mr. William S. Edwards,
complainant:

Complainant is a corporation organized seven years last past in bottling Americanus, or Michigan Congress Mineral Water, from the great artesian wells of Lansing, Michigan, and shipping in iron tanks in bulk, bottles and jars, barrels, cases and hampers, from Lansing to points on the eastern coast: New York, Philadelphia, Washington, New Orleans, and New York, St. Louis, Cincinnati, and other cities east and west from said point of origin.

Defendant is a common carrier of mineral water in the transportation of property to said points; and complainant to time has given, and is giving, defendant its said mineral water in tank cars for loading and unloading thereto, and at its own expense is siding along defendant's track at said points for loading and unloading the labor necessary therefor, and is shipped at complainant's risk, age and without special risk, la

to defendant in the transportation thereof. The tank cars so provided by complainant are lined with a suitable composition to preserve said water as pure as when taken from the well, while shipment of the same in wood gives to it an unpleasant taste from the wood. The said mineral water is of advantage in quenching fires occurring in railroad trains and is not a source of risk to the carrier while in transportation, as petroleum oils are known to be. Heretofore when shipments of said water were made otherwise than in tanks great loss and damage frequently resulted to complainant by reason of breakage and theft by railroad employees and cartmen, and claims for loss and damage frequently made to defendant and other carriers were evaded, to such an extent that further statements of the same were discontinued; and though thousands of barrels and bottles of said water have been shipped during the past five years and many losses sustained, no claim for loss or damage has been paid to complainant during said period.

Complainant has endeavored since July, 1887, to have its grievances adjusted satisfactorily; and once at a meeting with defendant's Assistant Traffic Manager and the General Freight Agent of the Grand Trunk Railway favorable terms were accorded to it, but since then the said traffic manager has assigned as the reason for not carrying the said terms into effect that Chairman Blanchard objected thereto. On February 2, a copy of this petition was submitted to defendant's general agent, and was thereafter informed that the matter would be considered on the 6th inst at Chicago; but no reply has been received.

Since the Act to Regulate Commerce went into effect defendant has demanded thirty-three cents per 100 pounds for the carriage of said mineral water in tank car loads, minimum weight 24,000 pounds, from Lansing to New York. Previous to July 15, 1887, no rate was published in the usual schedules designating the rates on "mineral water in tank cars;" but said schedules did show that twenty-six cents per 100 pounds was charged for same mineral water in barrels in car loads, and prior to said date complainant had been charged on the same car load \$57, to New York, for which, in June last, defendant demanded and received \$89.20, paid under protest.

Complainant has repeatedly applied for fair and equitable rates on tank cars of mineral water over said lines of defendant and connections without success. Your complainant last summer received orders for 100 case lots, covering 5,000 quart bottles, but owing to the prevailing unreasonable rates the same could not

be filled; and upon application to the classification committee of the Trunk Lines no good reason was assigned for such exorbitant charges, and complainant believes that defendant would establish a much less rate on said water, but that it is prevented by reason of the combination of other railroads.

A car load has since been forwarded from Lansing to New York, on which defendant demands \$89.20 as the charge for 24,000 pounds; being the same weight and car used prior to April 5, when the charge was \$57. Fifty-three dollars has been repeatedly paid for transportation of a car load to Philadelphia, \$25 to Chicago, \$30 to Cincinnati; but the shipment to Cincinnati was made in petitioner's tank *via* the Lake Shore & Michigan Southern Railroad, which furnished its own flat car.

Complainant rents its tank car at the rate of \$14 per month, and as soon as reasonable rates can be obtained it will require the use of more. Under the classification of said committee the rate on mineral water in tank cars is minimum weight, 24,000 pounds, no mileage allowed, class 4, while the rate on pine oil is class 6, except mileage, and petroleum, April 1, 1877, was in class 6, but is since published as "special," mileage not mentioned. The rate from Milwaukee to New York is twenty-five cents for sixth class, and from Lansing twenty-four cents per 100 pounds, yet said distance is over 800 miles greater.

Complainant has no knowledge of any occasion where said water destroyed other property in transit or at station, but petroleum oil frequently does, yet petroleum oil is shipped at lower rates than said mineral water. The cost of transportation is less from Europe to eastern cities than from Lansing to said points, and complainant has practiced the greatest economy in order to supply its water at a rate competitive with foreign waters of like nature.

It is therefore prayed that said mineral water be put in the sixth class, with a reasonable allowance for the use of tank cars, and that shipments of the same in smaller packages than in tanks may be classified in accordance with the service performed and risk assumed, as compared with other shipments. Also that in the meantime it may be allowed to pay the rate on its tank car detained in Jersey City for payment of freight as was paid prior to the taking effect of the Interstate Commerce Law; and that the overcharge of \$32.20 heretofore paid defendant in excess of its printed tariff rate may be allowed to complainant on said settlement of the regular rate and release of said car so detained, and for such further relief as may be deemed proper.

SUPREME COURT OF INDIANA.

State of INDIANA, *ex rel.* Bruce CARR,
Auditor of State, *Appt.*,

v.

WOODRUFF SLEEPING & PARLOR
COACH CO.

(From 18 Western Reporter.)

1. The State has no power to levy a tax upon the earnings of a sleeping-car company engaged in the business of

transporting passengers from one State to another. The matter of interstate commerce is a national matter with which no State can in any wise interfere. The jurisdiction of the Federal Government absolutely excludes the State from directly or indirectly hampering or taxing the commerce between States. The statute attempting to authorize it is itself without force. That it restricts the amount of the tax to be

paid by the corporation to the distance which passengers are carried through this State does not relieve it of the objection; for the tax it assumes to levy is upon interstate commerce, and not upon the internal commerce of the State. The tax cannot be sustained upon the ground that the carrier can be compelled to pay a tax upon its gross earnings for the privilege of doing a local business in the State.

2. A State has power to prescribe the terms upon which a foreign corporation may do business within its territory, unless the corporation is engaged in the business of interstate commerce. If it is not engaged in transacting business of that kind, the State may levy a tax upon its receipts within the State, and enforce collection.

(Decided March 9, 1883.)

APPEAL from a judgment of the Marion Circuit Court, Ayres, J., against the plaintiff in a suit against a sleeping-car company for failure to comply with the statute requiring it to return a statement of its earnings for taxation. *Affirmed.*

The facts are stated in the opinion.

Meers, Louis T. Michener, Atty. Gen., and John H. Gillett, for the State:

Everything to which the legislative power extends may be the subject of taxation, whether it be person or property, or possession, franchise or privilege, or occupation or right. Nothing but express constitutional limitation upon legislative authority can exclude anything, to which the authority extends, from the grasp of the taxing power, if the Legislature, in its discretion, shall at any time select it for revenue purposes.

Cooley, Tax. p. 5; Desty, Tax. § 24.

While the State, in the exercise of this inherent and necessary function, must yield to the limitations imposed by the Federal Constitution, yet it is to be remembered that, beyond the scope of these constitutional restrictions, and the implied exemption of the instruments of the Federal government, the State has absolute power to tax anything and everything within its limits.

In the case of *Wheeling, P. & O. Transp. Co. v. Wheeling*, 99 U. S. 273 (25 L. ed. 414), the court says: "Power to tax for the support of the State governments exists in the States independently of the National government; and it may well be assumed that where there is no cession of contradictory or inconsistent jurisdiction in the United States, nor any restraining compact in the Constitution, the power in the States to tax for the support of the State authority reaches all the property within the state which is not properly regarded as the instruments or means of the Federal government."

Osborne v. Mobile, 88 U. S. 16 Wall. 479, 481 (21 L. ed. 473).

The Legislature has power to prescribe not only the property to be taxed, but the mode and agencies by which the tax may be ascertained and enforced; and it is no objection that the methods prescribed are different for different classes of property.

INTER S.

Wagoner v. Loomis, 87 Ohio St. The mode of taxing corporations with the Legislature.

Porter v. Rockford, R. I. & St. Ill. 561. See *Anderson v. Kerns* 14 Ind. 199; *Louisville & N. A. R.* 25 Ind. 177; *Bright v. McCullough Cooley, Tax. p. 378 et seq.*

"Nothing can be more certain in than that the privileges and franchise corporation, and all trades and by which the citizens acquire a liberty be taxed by a State for the support government. Authority to that in the State, independent of the Federal government, and is wholly unaffected by the corporation or individual has made investment in federal security *Society for Savings v. Coite*, 73 594 (18 L. ed. 897).

The State may exclude foreign entirely; it may restrict them to localities, or exact such security for the performance of their contracts as will be in the public interest. The whole matter is left to the discretion.

Paul v. Virginia, 75 U. S. 8 W. ed. 857.

Upon the proposition that it is the State to tax the occupation of a corporation doing a local as well as business, by requiring it to pay a cent of its gross receipts, not on business, but upon business originating out of, or originating terminating within, the State, the *Western Union Tel. Co. v. Mayor*, 28 C. ed. exactly in point.

See also *Western Union Tel. Co.* 26 Gratt. 1; *Western Union Tel. Co. Tex.* 814.

Rev. Stat. § 6355, does not amount to interference with interstate commerce.

See *Delaware R. Tax*, 85 U. S. (21 L. ed. 896); *Erie R. Co. v. Per* U. S. 21 Wall. 492 (22 L. ed. *Union Tel. Co. v. Richmond*, 26 *Western Union Tel. Co. v. Mayor*, 28 *Western Union Tel. Co. v. State* *Wheeling, P. & O. Transp. Co. v. Va.* 170; *State v. Philadelphia*, 45 Md. 361.

The vehicles of commerce may be taxed. See cases cited in note to *State Palace Car Co.* 16 Fed. Rep. 201.

The inability of a State to tax from other and express prohibition in the Federal Constitution; but in case the capital stock of the company the ship may be taxed.

Hayes v. Pacific Mail S. S. Co. How. 596 (15 L. ed. 254); *State Cases*, 79 U. S. 12 Wall. 204 (2 *Wheeling, P. & O. Transp. Co. v. U. S.* 273 (25 L. ed. 412).

Can this defendant claim an exemption from taxation on the privilege of carrying between the same points, merely doing an interstate business as a position will be taken, for not so the authorities are against it.

Thomson v. Pacific R. Co. 76 U. S. 531 (19 L. ed. 792); *Louisville Nat.*

tucky, 76 U. S. 9 Wall. 853 (19 L. ed. 701); *Western Union Tel. Co. v. State*, 55 Tex. 314; *Western Union Tel. Co. v. Richmond*, 28 Gratt. 1.

The State insists that defendant shall pay a tax, as a State carrier would have to do, for its local occupation; and the measure of the amount demanded is a certain per cent of the gross receipts derived by the company for the proportionate amount of travel in this State. As the Ohio Supreme Court says in *Western Union Tel. Co. v. Mayer*, *supra*: "The burden is the price paid for transacting their business within the State."

The tax is upon the local occupation.

Western Union Tel. Co. v. Mayer, *supra*; *State v. Philadelphia, W. & B. R. Co.* 45 Md. 361; *Delaware R. Tax*, 85 U. S. 18 Wall. 206 (21 L. ed. 888); *Philadelphia Contributionship for Ins. v. Com.* 98 Pa. 48; *Portland Bank v. Apthorp*, 12 Mass. 252; *Provident Inst. for Sav. v. Massachusetts*, 73 U. S. 6 Wall. 611 (18 L. ed. 907); *Com. v. People's Sav. Bank*, 5 Allen, 428; *Com. v. Lancaster Sav. Bank*, 123 Mass. 493; *Coite v. Society for Savings*, 32 Conn. 173; 73 U. S. 6 Wall. 594 (18 L. ed. 897); *Jones v. Winthrop Sav. Bank*, 66 Me. 242; *Exempt Firemens Fund v. Roome*, 93 N. Y. 318; *Manufacturers Ins. Co. v. Loud*, 99 Mass. 146; *Com. v. Lowell G. L. Co.* 12 Allen, 75; *Com. v. Hamilton Mfg. Co.* Id. 298; 73 U. S. 6 Wall. 632 (18 L. ed. 904); *Com. v. Cary Imp. Co.* 98 Mass. 19; *Connecticut Mut. L. Ins. Co. v. Com.* 133 Mass. 161; *Coite v. Connecticut Mut. L. Ins. Co.* 36 Conn. 513; *Belo v. Foreyth Co.* 32 N. C. 415; *Carbon Iron Co. v. Carbon Co.* 39 Pa. 251; *Kittanning Coal Co. v. Com.* 79 Pa. 100; *State v. Maine Cent. R. Co.* 74 Me. 376; *State v. Philadelphia, W. & B. R. Co. supra*; *Atty-Gen. v. Bay State Min. Co.* 99 Mass. 148, 152, 153.

We have but a suggestion to offer as to that portion of the second paragraph of answer by which the defendant seeks to set up an estoppel (for the claim must be, if anything, that the facts pleaded create an equitable estoppel) and that is, that the State cannot estop itself by the acts of its officers.

McCaslin v. State, 99 Ind. 428; *State v. Portsmouth Sav. Bank*, 4 West. Rep. 526, 106 Ind. 460; *Union School Trup. v. Crawfordville Nat. Bank*, 1 West. Rep. 107, 102 Ind. 465, 476; *Furish v. Coon*, 40 Cal. 38; *State v. Brewer*, 64 Ala. 287; *People v. Dulaney*, 96 Ill. 508; *Carr v. United States*, 98 U. S. 483 (25 L. ed. 209); *Alexander v. State*, 56 Ga. 478.

Messrs. Addison C. Harris, William H. Calkins, and Oliver T. Morton, for appellee:

Rev. Stat. § 6855, has been held invalid for two reasons.

See *Indiana v. Pullman Palace Car Co.* 11 Biss. 561.

It is elementary that an internal tax for revenue only is ultimately paid by the person using the commodity. Thus, a tax on merchandise is paid by the consumer. A tax on the business or occupation of a physician or lawyer is paid by the clients. A tax on railroad or sleeping-car fares necessarily raises the rate the full amount of the tax. A tax on fares is a tax on the passengers.

Gibbons v. Ogden, 22 U. S. 9 Wheat. 1 (6 L. ed. 23); *Passenger Cases*, 48 U. S. 7 How. 458 (12 L. ed. 776); *Orandall v. Nevada*, 78 U. S. 6 Wall.

35 (18 L. ed. 745); *State Freight Tax*, 32 U. S. 15 Wall. 232 (21 L. ed. 146); *Brown v. Maryland*, 25 U. S. 12 Wheat. 419 (6 L. ed. 678); *Erie R. Co. v. State*, 31 N. J. L. 531; *Central R. Co. v. State*, 48 N. J. L. 1, 2 Cent. Rep. 715; *Welton v. Missouri*, 91 U. S. 278 (23 L. ed. 347).

If a statute is illegal in any of its provisions, it must fall *in toto*, unless, after expunging all the unlawful parts, enough remains to leave a whole and consistent law.

Baldwin v. Franks, 120 U. S. 685 (30 L. ed. 768); *Cooley*, Const. Lim. p. 177 *et seq.*; *Allen County v. Silvers*, 22 Ind. 491; *Allen v. Louisiana*, 103 U. S. 80; (26 L. ed. 318); *Warren v. Charlestown*, 2 Gray, 84; *United States v. Reese*, 92 U. S. 214 (23 L. ed. 563); *Indiana v. American Exp. Co.* 7 Biss. 227.

The appellee maintains that the statute is void for the reasons following:

1. It violates that provision of the Federal Constitution which gives Congress exclusive power "to regulate commerce among the several States."

Art. 1, § 8.

2. It violates that provision of the same instrument which declares that "the citizens of each State shall be entitled to all privileges and immunities of citizens in the several States."

Art. 4, § 2.

3. It violates that provision of the Constitution of this State which declares that "the General Assembly shall not pass special laws for the assessment and collection of taxes for State purposes."

Art. 4, § 22.

4. It violates that provision of the same instrument which declares that the rate of taxation shall be "uniform and equal."

Art. 10, § 1.

5. The statute is an attempt to exercise the taxing power upon money beyond this State.

Any tax or burden laid on national commerce by a State is void.

Gibbons v. Ogden, 22 U. S. 9 Wheat. 1 (6 L. ed. 23); *Passenger Cases*, 48 U. S. 7 How. 283 (12 L. ed. 702); *Brown v. Maryland*, 25 U. S. 12 Wheat. 446 (6 L. ed. 688); *United States v. Holliday*, 70 U. S. 3 Wall. 407 (18 L. ed. 182); *Orandall v. Nevada*, 78 U. S. 6 Wall. 35 (18 L. ed. 745); *Southern S. S. Co. v. Port Wardens*, 78 U. S. 6 Wall. 81 (18 L. ed. 749); "The Daniel Ball," 77 U. S. 10 Wall. 557 (19 L. ed. 1001); *Philadelphia & R. R. Co. v. Pennsylvania*, 32 U. S. 15 Wall. 282-284 (21 L. ed. 146); *Baltimore & O. R. Co. v. Maryland*, 38 U. S. 21 Wall. 456 (23 L. ed. 678); *Welton v. Missouri*, 91 U. S. 275 (23 L. ed. 347); *Henderson v. Mayor of N. Y.* 92 U. S. 259 (23 L. ed. 543); *Chy Lung v. Freeman*, 92 U. S. 275 (23 L. ed. 550); *United States v. 43 Gallons of Whiskey*, 98 U. S. 188 (23 L. ed. 846); *Foster v. Port Wardens*, 94 U. S. 246 (24 L. ed. 123); *Hannibal & St. J. R. Co. v. Huse*, 95 U. S. 622 (29 L. ed. 257); *Walling v. Michi*

you to do a large business over our line. As regards our guarantying you as low net rates as other shippers are charged, I have repeatedly assured you that our rates are the same to all shippers; and I do not know that I can do any more than already stated in this matter.

"I believe the largest tank cars we have hauled over our line contained about 40,000 pounds and as low as 20,000 pounds.

"I trust these new rates will enable you to ship over our line not only to the strictly local stations, but to Jackson, Tennessee, Holly Springs, Grenada, and Jackson, Mississippi, as well, at all of which points there is a good trade.

"We would also like to handle business for you to Aberdeen, West Point, and Starkville, Mississippi, which points we can reach via Durant and C., A. & N. Railroad."

This answer was as polite as it was misleading. The party writing desires us to understand that it had no reference to shipments to New Orleans, though nothing in it or in the letter to which it was an answer would restrict it in any such way; and how this officer could reconcile it to his duty to his own company or to the public to allow shipments of 40,000 pound tanks to New Orleans at the rates charged on tanks of 20,000 pounds he fails entirely to explain, as he does also to explain or excuse his discrimination in this regard between the shipments to New Orleans and those complainant might make to other points to which the other shippers over defendant's line were not sending tank cars.

Here, again, the question of paying for the use of the tank cars comes in question. It has been seen that on May 31 the general freight agent wrote: "Tanks which are hauled one way loaded are at present returned without extra charge, *in the same manner as other foreign cars are handled.*" What is meant by this we do not know. All the evidence adduced before us tends to show the rule to be that foreign cars are not merely returned without charge, but that their use is paid for.

This officer being on the stand, the following proceedings took place:

Q. What milage do you pay for the use of tank cars?

A. I have nothing to do with milage.

Q. Have you no knowledge as to the amount of milage paid?

A. If there is any paid it is three fourths of a cent, the same as other cars. We make no discrimination in that matter.

Q. You treat one car the same as you do the other?

A. That is my understanding.

If the general freight agent of the defendant did not know what the rule was on this important subject, it may be safely assumed that the defendant made no publication which gave the information to the general public. So long as that was the case a protest that the defendant makes no discrimination is not very assuring. The public was entitled to information given in an authoritative way as a part of the rate sheet itself, and should not have been left to suppose or imagine that it was or might be the subject of private arrangement.

Nothing in these cases more distinctly challenges attention than the fact that several of

the defendants, while giving tank rates regardless of the quantity carried, informed complainant, when interrogated by him on the subject, that if the quantity exceeded a certain specified weight, a charge would be made for the excess. The published rate sheets ought to have given clear and reliable information on the subject; and it was only because they were silent or ambiguous that the inquiries became necessary. The remarkable thing about the matter is that so many of these defendants should make the same mistake; a mistake, too, that it was antecedently so improbable any one of them would make. The Louisville & Nashville, the Cincinnati, New Orleans & Texas Pacific, the Newport News & Mississippi Valley, and the Illinois Central Companies are all found giving out the same erroneous information, and no one of them can tell how or why it happened to be done, much less how so many could contemporaneously, in dealing with the same subject, fall into so strange an error. It is to be noted, too, that it is not a subordinate agent or servant who makes the mistake in any instance, but it is the man at the head of the traffic department, and whose knowledge on the subject any inquirer would have a right to assume must be accurate. In no case is the error excused, and if it be conceded that there was no purpose to mislead, the case is not relieved of unpleasant features, for gross negligence, when it is damaging, may be equally culpable with wrongs of intent.

In our review of these cases two facts have been constantly pressing upon attention, as constituting cogent if not conclusive proof that the several defendants operating lines east of the Mississippi were not endeavoring by their tariff sheets to adjust their rates on grounds of relative justice, as between themselves and their patrons, and also between the two classes of patrons, and that the considerations which they say in their answers and testimony entitled them to make the higher charge on barrel shipments were not controlling in the fixing of rates.

One of these facts is that they made tank car rates, regardless of quantity. It cannot be said that this was done in ignorance of the great differences which existed. It clearly appears that it was generally known that the differences were very great. If it had not been known it should have been. The evidence shows that the weight and capacity of the tank cars of the Standard Oil Company of Kentucky were not stenciled upon them, as was the case with the like cars of some other lines, but the difference in size must have been very obvious to the eye, and defendants, it is to be presumed, had the means at any of their important stations to weigh or gauge them.

The other fact is that the discriminations were made on no principle, and could not possibly have been measured from a consideration of the circumstances which defendants say entitled them to impose the heavier charges on the traffic carried on barrels. Sometimes the rates were made the same, and when that was the case no reason has been assigned therefor which would embrace all the cases and distinguish them from other cases in which the discriminations were very great; but when discriminations were made the excess in charge

It is said that gross receipts of railway companies doing a like business are not taxed, and therefore the tax in question creates an invidious classification. But, even within a class taxed, there may be rules of distinction perfectly admissible, provided they are general rules and are observed.

Cooley, Tax. p. 170.

The right of classification cannot be disputed.

State Const. art. 10, § 1, declares that the Legislature "shall prescribe such regulations as shall secure a just valuation for taxation of all property."

The Constitution of Kentucky does not require taxes to be levied by a uniform method upon all descriptions of property; and there is nothing to forbid the classification of property for purposes of taxation, and the valuation of different classes by different methods.

Kentucky R. R. Tax Cases, 115 U. S. 321 (29 L. ed. 414).

The power to tax, and the power of apportionment and classification, are identical and inseparable; and the legislative determination as to the just proportion to be borne by the public, and the classification of subjects to be taxed, is conclusive, subject only to the constitutional principle that all of the same class shall bear equal burdens, and that the principle of uniformity be preserved.

Desty, Tax. pp. 98, 94.

To the same effect, see—

Louisville & N. A. R. Co. v. McCarty, 25 Ind. 177.

In New Jersey, with a constitutional provision like our own, it was held that the provision did not require all property to be taxed, and that the legislative power to select subjects for taxation was untrammelled.

State v. Bunyon, 41 N. J. L. 98; Cooley, Tax. 198.

A requirement that taxation shall be uniform permits insurance companies to be classified by themselves.

Germania L. Ins. Co. v. Pennsylvania, 85 Pa. 518.

The Constitution of Louisiana, requiring taxation to be equal and uniform, permits classification of the objects of taxation, and one tax to be levied on foreign, and another on domestic, insurance companies.

State v. Lathrop, 10 La. Ann. 398. See also *Ducat v. Chicago*, 48 Ill. 172.

In *Maine v. Western Union Tel. Co.* 78 Me. 518, it was held—although the Constitution required all taxes to be proportioned and assessed equally, and according to the true value thereof; and the tax of 2½ per cent on all property of telegraph companies used in the State was special and at a higher rate—that the tax should be sustained: (1) because the defendant, being a foreign corporation, was subject to any tax the Legislature saw fit to impose; (2) because, the court being bound to give the Act a construction which would render it constitutional, if possible, it must hold that the tax was an excise, and not a property, tax.

In the case at bar, the statute imposes a license fee; the Constitution has reference to the general levy only.

Thomasson v. State, 15 Ind. 449; *Mitchell v. Williams*, 27 Ind. 62.

This is so although the money derived therefrom goes into the treasury to swell the general fund.

Leavenworth v. Booth, 15 Kan. 627, 635.

The constitutional provision that taxation shall be equal and uniform applies only to property, and not to business or occupation.

Western Union Tel. Co. v. Mayer, 28 Ohio St. 521; *Glasgow v. Rouse*, 48 Mo. 479; *Sacramento v. Crocker*, 16 Cal. 119; *Home Ins. Co. v. Augusta*, 50 Ga. 543; *Adams v. Somerville*, 2 Head, 863; Cooley, Tax. pp. 169–171.

The general right to make exemptions is involved in the right to apportion taxes, and must be understood to exist whenever it is not forbidden. It is a question of policy, not power.

Cooley, Tax. 145; *Wells v. Central Vermont R. Co.* 14 Blatchf. 426. See *State v. Indianapolis*, 69 Ind. 875; *Boody v. Watson*, 1 New Eng. Rep. 2, 63 N. H. 320; *Nassau G. L. Co. v. Brooklyn*, 89 N. Y. 409.

As to the claim that the statute under consideration is violative of the "privileges and immunities" clauses of the Constitution of the United States: it is doubtful if those clauses apply to corporations.

See *Slaughter House Cases*, 83 U. S. 16 Wall. 86 (21 L. ed. 894); *Strauder v. West Virginia*, 100 U. S. 306 (25 L. ed. 665); *Elk v. Wilkins*, 112 U. S. 94 (28 L. ed. 648); *Insurance Co. v. New Orleans*, 1 Woods, 87.

But, assuming their application, upon the inference from *Santa Clara County v. Southern Pac. R. Co.* 118 U. S. 396 (30 L. ed. 118), yet those privileges and immunities must be of common right to citizens of the several States; not special privileges and immunities enjoyed by citizens in their own State, nor the exercise of corporate functions in a foreign State.

Paul v. Virginia, 75 U. S. 8 Wall. 180 (19 L. ed. 360); *Bank of Augusta v. Earle*, 38 U. S. 18 Pet. 584 (10 L. ed. 805); *Lafayette Ins. Co. v. French*, 59 U. S. 18 How. 406 (15 L. ed. 340); *Doyle v. Continental Ins. Co.* 94 U. S. 535 (24 L. ed. 148).

Elliot, J., delivered the opinion of the court:

The relator, as Auditor of State, avers in his complaint that the defendant is a corporation organized under the laws of another State; that for more than two years past it has been engaged in the business "of conveying to, from, and through the State of Indiana, passengers for hire, in sleeping-cars, under contracts with railway companies for the transportation of its cars; that during the year immediately preceding the 1st day of April, 1887, it earned and collected for the transportation of passengers in its cars in this State, and by the transportation of passengers by continuous passage, for an entire consideration, from other States into and across this State and other States, a large sum of money, to wit, \$1,000,000; of which sum \$200,000 represented, and was, the proportion which the distance traveled in this State bore to the whole distance paid for; that, notwithstanding the receipt of such money, the defendant has wholly failed to report to plaintiff a relator its receipts or any part thereof, and has wholly failed to file any report whatever.

The complaint is based upon the following statute: "Every joint-stock association, com-

pany, or corporation, incorporated under the laws of any other State, and conveying to, from, and through this State, or any part thereof, passengers and travelers in palace cars, drawing-room cars, sleeping-cars, or chair cars, on contract with any railroad company or the manager, lessee, agent, or receiver thereof, shall be held and deemed to be a sleeping-car company. Every such sleeping-car company doing business in this State shall annually, between the 1st day of April and the 1st day of June, report to the auditor of state, under the oath of an officer or agent of such corporation, the gross amount of all its receipts within or without the State, for fares earned or business done by such company within this State, for the year then next preceding the 1st day of April of the current year; and in computing such gross receipts the same shall be in the proportion that the distance traversed in this State bears to the whole distance paid for. At the time of making such report, such company shall pay into the treasury of the State the sum of \$2 on every \$100 of such receipts. Every sleeping-car company failing or refusing, for more than thirty days after the 1st day of June, to render an accurate account of such gross receipts, as above provided, and to pay the required tax thereon, shall forfeit \$25 for each additional day such report and payment shall be delayed, to be recovered in an action in the name of the State of Indiana, on the relation of the auditor of state, in any court of competent jurisdiction; and the attorney-general shall conduct such prosecution; and such sleeping-car company so failing or refusing shall be prohibited from carrying on such business until such payment is made. All railroad companies in this State, or the persons managing or operating the same, are prohibited from hauling any cars of any sleeping-car company while so in default, and for each violation of this prohibition shall be liable to pay to the State of Indiana the sum of \$100, to be recovered in the proper action by the State; and it shall be the duty of the attorney-general, at the request of the auditor of state, to prosecute all such suits."

It is firmly established that a State has power to prescribe the terms upon which a foreign corporation may do business within its territory, unless the corporation is engaged in the business of interstate commerce. If it is not engaged in transacting business of that kind, the State may levy a tax upon its receipts within this State and enforce collection. *Phenix Ins. Co. v. Burdett*, 11 West. Rep. 289, 112 Ind. 204; *Doyle v. Continental Ins. Co.* 94 U. S. 585 (24 L. ed. 148); *Ducat v. Chicago*, 77 U. S. 10 Wall. 410 (19 L. ed. 972); *La Fayette Ins. Co. v. French*, 59 U. S. 18 How. 404 (15 L. ed. 840); *Goldsmith v. Home Ins. Co.* 62 Ga. 379; *Phenix Ins. Co. v. Welch*, 29 Kan. 672; *People v. Fire Assn.* 92 N. Y. 311; *S. C.* 44 Am. Rep. 380.

In the cases referred to, this principle is explicitly and strongly asserted; and in many cases it has been assumed without discussion and applied as a settled rule of law. *North America Ins. Co. v. Brim*, 9 West. Rep. 830, 111 Ind. 281; *Granite State Mut. Aid Assn. v. Porter*, 58 Vt. 581; *Ohio v. Moore*, 39 Ohio St. 486; *State v. New York L. Ins. Co.* 81 Mo. 89; *State v. Farmers & M. Mut. Ben. Assn.* 18 Neb. 276; *S. C.* 15 Ins.

L. J. 821; *Ehrman v. Teutonia Crary*, 126; *Mutual Benefit L.* 192 Pa. 352.

We cannot, therefore, assertment of counsel which assume may not classify and regulate tions, even though they are not affairs of interstate commerce.

We do affirm, however, that commerce between the States, Federal government is exclusive. The later decisions of the Supreme Court of the United States close the question to all State courts; for it is a Federal question and on such questions the decisions of the Supreme Court are final. Its earlier decisions are not harmonious,—there was much more of confusion; but they have carried the doctrine to the present. These decisions have much rest to them; they have not completely annihilated the power of the States where interstate commerce is involved, and they have away all State lines. In a very recent case, *Mr. Justice Bradley*, said, that, "in a word, it makes the matter of interstate commerce between the States but one country, and is subject to one system of law; not to a multitude of systems." *Shelby County*, 120 U. S. 489 (30 L. ed. 114).

Although the chief justice associates justices, in a vigorous opinion, the decision is to us as law. Other decisions of that court are going so far as the decision which we have quoted, go quite as far as to decide that the State may levy a tax upon the earnings of a sleeping-car company engaged in the business of transporting passengers from one State to another. *Philadelphia & S. S. Co. v. P.* 120 U. S. 826 (30 L. ed. 1200); *Wester v. Pendleton*, 123 U. S. 347 (30 L. ed. 114); *St. L. & P. R. Co. v. Illin.* (30 L. ed. 244); *Gloucester Ferry v. Pennsylvania*, 114 U. S. 196 (29 L. ed. 114); *Burg & O. R. Transp. Co. v. Ill.* 120 U. S. 691 (27 L. ed. 584); *West Co. v. Texas*, 105 U. S. 480 (30 L. ed. 114); *Pensacola Tel. Co. v. Western* 96 U. S. 1 (24 L. ed. 708); *Welch v. State*, 91 U. S. 275 (23 L. ed. 347).

In the case first cited, one of the justices decided in the case of *State v. Fre* 82 U. S. 15 Wall. 282 (21 L. ed. 114), declared to be wrongly decided, that "a tax upon freights and a tax upon the transportation of goods by the State can levy." The rule by the recent decisions, which we have cited, is thus stated in *Robbins v. State* *supra*. "As before said, the fact that the tax is upon the State's own internal commerce, but that it is any right to tax interstate commerce."

The attorney-general ably argues that the statute is valid, and that the State is competent for the State to "take possession of appellant by the measure of receipts for the proportionate share in this State." But this argument, without plausibility, is radical. Under the law as authoritative

court of last resort, no tax, in any form or for any purpose, can be laid upon interstate commerce. The matter of interstate commerce is a national matter, with which States can in no wise interfere. The jurisdiction of the Federal government absolutely excludes the States from directly or indirectly hampering or taxing the commerce between the States.

The claim of the State is also put upon the ground that the appellee can be compelled to pay a tax upon its gross earnings for the privilege of doing a local business in Indiana. This position is untenable. In no event can a corporation engaged in the business of interstate commerce be taxed for the privilege of doing business in this or any other State. This principle early found a place in our jurisprudence. Much as the highest court of the nation has wavered upon kindred questions, from this principle it has never departed. Indeed, one of the great causes which led to the adoption of our Federal Constitution was the evil produced by the levying of tribute, in the form of taxes, upon the commerce between the States, by some of the States, under the Articles of Confederation. It is evident that to permit each State to levy taxes upon the earnings of common carriers whose lines of railroad traverse its territory would lead to deplorable results; for, once the power is conceded, then the method of its exercise, the amount of the tax, and like matters, would be within the exclusive control of the Legisla-

ture of each State, as neither the Federal nor the State courts could supervise or control their discretion.

The complaint does not aver that passengers were carried from point to point within the State. On the contrary, the theory of that pleading is that the State may levy a tax upon the gross earnings of the corporation, in the proportion that the distance traveled through this State bears to the entire distance for which fares were received. That theory is unsound and the complaint bad. It is, however, not the fault of the pleader that the complaint fails, for it is constructed upon the statute as well as a complaint can be constructed. The statute itself is without force. The statute is invalid because it assumes to tax interstate commerce. It is true that it restricts the amount of the tax to be paid by the corporation to the distance passengers are carried through this State; but that does not relieve it of the objection we have stated, for the tax it assumes to levy is upon interstate commerce, and not upon the internal commerce of the State. A man on his way to the seaboard, who travels through Indiana, is carried in the course of the interstate commerce, and not in the course of domestic commerce, and a fare received from him is received in the matter of interstate commerce. A fare thus received no State can tax.

The complaint is bad and the judgment is affirmed.

UNITED STATES SUPREME COURT.

Joseph J. SMITH, *Plff. in Err.*,

v.

State of ALABAMA.

(From Lawyers' ed. U. S. Reports, Bk. 31.)

1. **The Statute of Alabama requiring locomotive engineers to be examined and licensed is not a regulation of interstate commerce, and does not therefore contravene the Constitution of the United States, and is valid.**
2. **Such statute is properly an Act of legislation, within the power reserved to the State to regulate the relative rights and duties of persons within its territory, intended to secure for the public safety of person and property.**
3. **Such statute, so far as it affects transactions of commerce among the States, does so indirectly, incidentally and remotely, and not so as to burden or impede them; and in the particulars in which it touches those transactions at all it is not in conflict with any enactment of Congress on the subject, nor contrary to any intention of Congress to be presumed from its silence.**
4. **Any legislation of a State, although in pursuance of an acknowledged power reserved to it, which conflicts with the actual exercise of the power of Congress over the subject of commerce, must give way before the supremacy of the national authority.**
5. **The fee to be paid by an applicant for his examination is not a provision for**

raising revenue, but is only an equivalent for the service rendered, and is not a tax or burden upon transportation.

(Argued Jan. 4, 1888. Decided Jan. 30, 1888.)

IN ERROR to the Supreme Court of the State of Alabama, to review a judgment of that court affirming a judgment of the City Court of Mobile, in proceedings upon a writ of *habeas corpus* brought to discharge plaintiff from a commitment. *Judgment affirmed.*

Statement by Mr. Justice Matthews:

This is a writ of error bringing into review a judgment of the Supreme Court of the State of Alabama, affirming a judgment of the City Court of Mobile. The proceeding in the latter court was upon a writ of *habeas corpus* sued out by the plaintiff in error, seeking his discharge from the custody of the Sheriff of Mobile County, in that State, under a commitment by a justice of the peace upon the charge of handling, engineering, driving and operating an engine pulling a passenger train upon the Mobile and Ohio Railroad used in transporting passengers within the County of Mobile, and State of Alabama, without having obtained a license from the board of examiners appointed by the Governor of said State, in accordance with the provisions of an Act entitled "An Act to Require Locomotive Engineers in this State to be Examined and Licensed by a Board to be Appointed by the Governor for That Purpose," approved February 28, 1887, and after more than three months had elapsed from the date of appointment and qualification of said board. The plaintiff in error, upon complaint, was com-

mitted by the examining magistrate to the custody of the sheriff to answer an indictment for that alleged offense. The ground of the application for discharge upon the writ of *habeas corpus* in the City Court of Mobile was that the Act of the General Assembly of the State of Alabama, for the violation of which he was held, was in contravention of that clause of the Constitution of the United States which confers upon Congress power to regulate commerce among the States.

The facts, as they appeared upon the hearing upon the return of the writ, are as follows: the petitioner at the time of his arrest on July 16, 1887, within the County of Mobile, was a locomotive engineer in the service of the Mobile and Ohio Railroad Company, a corporation owning and operating a line of railroad forming a continuous and unbroken line of railway from Mobile, in the State of Alabama, to St. Louis, in the State of Missouri, and as such was then engaged in handling, operating, and driving a locomotive engine, attached to a regular passenger train on the Mobile and Ohio Railroad, within the county and State, consisting of a postal car carrying the United States mail to all parts of the Union, a southern express car containing perishable freight, money packages, and other valuable merchandise destined to Mississippi, Tennessee, Kentucky, and other States, passenger coaches, and a Pullman palace sleeping car occupied by passengers to be transported by said train to the States of Mississippi, Tennessee, and Kentucky. The petitioner's run, as a locomotive engineer in the service of the Mobile and Ohio Railroad Company, was regularly from the City of Mobile, in the State of Alabama to Corinth, in the State of Mississippi, sixty miles of which run was in the State of Alabama, and two hundred and sixty-five miles in the State of Mississippi; and he never handled and operated an engine pulling a train of cars whose destination was a point within the State of Alabama when said engine and train of cars started from a point within that State. His train started at Mobile, and ran through without change of coaches or cars on one continuous trip. His employment as locomotive engineer in the service of said company also required him to take charge of and handle, drive, and operate an engine drawing a passenger train which started from St. Louis, in the State of Missouri, destined to the City of Mobile, in the State of Alabama, said train being loaded with merchandise and occupied by passengers destined to Alabama and other States; this engine and train he took charge of at Corinth, in Mississippi, and handled, drove and operated the same along and over the Mobile and Ohio Railroad through the States of Mississippi and Alabama to the City of Mobile. It frequently happened that he was ordered by the proper officers of the said company to handle, drive and operate an engine drawing a passenger train loaded with merchandise, carrying the United States mail, and occupied by passengers from the City of Mobile, in Alabama, to the City of St. Louis, in Missouri, being allowed two lay-overs; said train passing through the States of Alabama, Mississippi, Tennessee, Illinois, and into the State of Missouri.

It was admitted that the petitioner had not obtained the license required by the Act of the INTER S.

General Assembly of the State of Alabama, February 28, 1887, and had no board of examiners, or any of such license, and that more than had elapsed since the appointment of said board of examiners having been duly appointed by the State under the provisions of the Statute of Alabama, which is thus drawn in question by the Constitution of the State and the validity of which has the judgment of the Supreme Court of Alabama now in review, is as follows:

"AN ACT to Require Locomotive Engineers in this State to be Examined and Licensed by a Board to be Appointed by the Governor for That Purpose.

"Section 1. *Be it enacted by the Legislature of Alabama*, That it shall be the duty of any railroad to employ an engineer or engine upon the main line of any railroad in this State which is used for the transportation of persons, passengers or freight, without first undergoing an examination and obtaining a license as hereinafter provided.

"Sec. 2. *Be it further enacted*, That any locomotive engineer shall be required to obtain an engine upon the main line of any railroad in this State used for the transportation of persons or freight, before he can be employed by the board of examiners hereinafter provided for in this Act, and be examined by two or more members of the board of examiners, and concerning the competency of operating a locomotive engine as an engineer.

"Sec. 3. *Be it further enacted*, That the examination of any engineer as required by this Act, if the applicant is found to be incompetent, shall, upon payment of five dollars, be repeated, and a license, which shall be signed by the board, and which shall be a condition of the fact that the said engineer has been examined as required by law and is competent to engage as an engineer on an engine in this State.

"Sec. 4. *Be it further enacted*, That the board of examiners to the examination provided for in this Act, it shall be the duty of the board of examiners, before issuing the license, to inquire into the habits of all engineers applying for a license, and in no case shall a license be issued to any person who is found to be of reckless habits.

"Sec. 5. *Be it further enacted*, That any engineer who, after procuring a license, shall be found guilty of an act of recklessness, carelessness or negligence while running an engine, by which the life of persons or property is endangered, or he is engaged in running an engine while under the influence of intoxication, shall forfeit all the rights and privileges of an engineer, and the board may determine after the expiration of the license to appear before the board and be heard into his act or conduct, and the duty of the board to determine

engineer is unfit or incompetent by reason of any act or habit unknown at the time of his examination, or acquired or formed subsequent to it; and if it is made to appear that he is unfit or incompetent from any cause, the board shall revoke or cancel his license, and shall notify every railroad in this State of the action of the board.

"Sec. 6. *Be it further enacted*, That it shall be the duty of the Governor, as soon after the approval of this Act as practicable, to appoint and commission five skilled mechanics, one of whom shall reside in Birmingham, one in Montgomery, one in Mobile, one in Selma, and one in Eufaula, who shall constitute a board of examiners for locomotive engineers. It shall be the duty of said board to examine locomotive engineers, issue licenses, hear causes of complaint, revoke or cancel licenses, and perform such duties as are provided in this Act; *Provided*, That any one of said board shall have authority to examine applicants for licenses, and if the applicant is found competent, to issue license to him; *Provided further*, That for every examination provided in this Act, the board or member thereof making the examination shall be entitled to five dollars, to be paid by the applicant.

"Sec. 7. *Be it further enacted*, That all engineers now employed in running or operating engines upon railroads in this State shall have three months after the appointment of the board herein provided within which to be examined and to obtain a license.

"Sec. 8. *Be it further enacted*, That any engineer violating the provisions of this Act shall be guilty of a misdemeanor, and, upon conviction, shall be fined not less than fifty nor more than five hundred dollars, and may also be sentenced to hard labor for the county for not more than six months."

Messrs. E. L. Russell and B. B. Boone,
for plaintiff in error:

The power to regulate commerce with foreign Nations, and among the several States, is exclusively vested in Congress.

Gibbons v. Ogden, 22 U. S. 9 Wheat. 1 (6: 23); *Passenger Cases*, 48 U. S. 7 How. 283 (12: 702); *Mobile County v. Kimball*, 102 U. S. 691 (26: 288); *Gloucester Ferry Co. v. Pennsylvania*, 114 U. S. 196 (29: 158); *Fargo v. Michigan*, 121 U. S. 281 (30: 890); *W. U. Tel. Co. v. Pendleton*, 122 U. S. 347 (30: 1187).

The transportation of passengers and freight from one State to another is interstate commerce.

Gloucester Ferry Co. v. Pennsylvania, *supra*.

The nonexercise of the power in respect to the regulation of commerce between the States is equivalent to a declaration that such commerce shall be free and untrammelled.

Welton v. Missouri, 91 U. S. 275 (23: 847); *Brown v. Houston*, 114 U. S. 622 (29: 257); *Gloucester Ferry Co. v. Pennsylvania*, *supra*; *Pickard v. Pullman St. Car Co.* 117 U. S. 84 (29: 785); *Wabash, St. L. & P. R. Co. v. Illinois*, 118 U. S. 557 (30: 244); *Walling v. Michigan*, 116 U. S. 446 (29: 691); *Corson v. Maryland*, 120 U. S. 503 (30: 699); *Hall v. DeCuir*, 95 U. S. 485 (24: 547); *Hannibal & St. J. R. R. Co. v. Husen*, 95 U. S. 465 (24: 527).

Interstate commerce must be open and free to

all persons, unless restricted by congressional legislation.

Webber v. Virginia, 103 U. S. 844 (26: 565); *Henderson v. Mayor of N. Y.*, 92 U. S. 259 (23: 543); *People v. Compagnie Générale Transatlantique*, 107 U. S. 59 (27: 883).

A State will not be permitted to impose conditions which will amount to a regulation of interstate commerce.

Pensacola Tel. Co. v. W. U. Tel. Co. 96 U. S. 1 (24: 708); *Cooper Mfg. Co. v. Ferguson*, 118 U. S. 727 (28: 1137); *Case of State Freight Tax*, 82 U. S. 15 Wall. 232 (21: 146); *The Montello*, 78 U. S. 11 Wall. 411 (20: 191); *Passenger Cases*, *supra*; *Robbins v. Shelby County Taxing Dist.*, 120 U. S. 489 (30: 694); *Fargo v. Michigan*, 121 U. S. 247 (30: 895).

The Act of the State of Alabama requiring locomotive engineers, engaged solely in interstate transportation, to pay for and take out a license before engaging in the business of interstate commerce is unconstitutional and void.

LaFayette Ins. Co. v. French, 59 U. S. 18 How. 404 (15: 451); *Ducat v. Chicago*, 77 U. S. 10 Wall. 410-415 (19: 972, 973); *Home Ins. Co. v. Morse*, 87 U. S. 20 Wall. 445-456 (22: 365-369); *St. Clair v. Cox*, 106 U. S. 350-356 (27: 222-225); *Philadelphia Fire Asso. v. New York*, 119 U. S. 110-120 (30: 842-347); *Barron v. Burnside*, 121 U. S. 200 (30: 919); *Welton v. Missouri*, *supra*; *Cook v. Pennsylvania*, 97 U. S. 566 (24: 1015); *Gloucester Ferry Co. v. Pennsylvania*, 114 U. S. 196 (29: 158); *Fargo v. Michigan*, 121 U. S. 244 (30: 894); *Robbins v. Shelby County Taxing Dist.*, *Pickard v. Pullman St. Car Co.* and *Cooper Mfg. Co. v. Ferguson*, *supra*; *W. U. Tel. Co. v. Texas*, 105 U. S. 480 (26: 1067); *W. U. Tel. Co. v. Pendleton*, 122 U. S. 347 (30: 1187).

Mr. T. N. McClellan, for defendant in error:

The State is entrusted with the duty of creating and maintaining all those internal regulations which are necessary for the preservation of, and the prevention of injury to, the rights of others.

Tiedeman, Lim. Police Powers, § 201; *Mayor of N. Y. v. Miln*, 86 U. S. 11 Pet. 103 (9: 646); *Ohylung v. Freeman*, 92 U. S. 280 (23: 553).

A State may exercise its police power, even though in doing so it may incidentally operate upon commerce.

Munn v. Illinois, 94 U. S. 185 (24: 87); *Hannibal & St. J. R. R. Co. v. Husen*, 95 U. S. 478 (24: 531); *Patterson v. Kentucky*, 97 U. S. 504 (24: 1116); *Mobile County v. Kimball*, 102 U. S. 698 (26: 240); *Morgan's La. & T. R. R. & S. Co. v. Louisiana Health Bd.* 118 U. S. 455 (30: 237).

If there is no field for the exercise of police power, the state legislation will be held inoperative and void.

Patterson v. Kentucky and *Ohylung v. Freeman*, *supra*; *Hannibal & St. J. R. R. Co. v. Husen*, 95 U. S. 465 (24: 527).

The States, in the absence of congressional legislation, may enact laws to prevent the landing in their ports of the pauper and criminal classes.

Mayor of N. Y. v. Miln, 86 U. S. 11 Pet. 103 (9: 646); *Henderson v. Mayor of N. Y.* 92 U. S. 259 (23: 543); *People v. Compagnie Générale Transatlantique*, 107 U. S. 59 (27: 883).

Police regulations of this nature, incidentally

ing commerce, have been sustained by the courts.

McDonald v. State, 81 Ala. 283; *Chicago & N. W. R. Co. v. Fuller*, 84 U.S. 17 Wall. 560 (21: 710); *Mobile & O. R. R. Co. v. State*, 51 Miss. 187; *Commonwealth v. Eastern R. R. Co.* 103 Mass. 254; *People v. Boston & A. R. R. Co.* 70 N. Y. 569; *R. R. Comrs. v. Portland & O. Cent. R. R. Co.* 68 Me. 269; *Davidson v. State*, 4 Tex. App. 545; *Tiedeman, Lim. Police Powers*, § 194; *Cooley, Const. Lim.* 5th ed. 579, *et seq.*

State quarantine laws do not derive their validity from their adoption by Congress.

Mobile County v. Kimball, supra; *Cooley v. Board of Wardens*, 53 U.S. 12 How. 299 (18: 996); *Morgan's La. & T. R. R. & S. S. Co. v. Louisiana Health Bd. supra*.

This law is to be tested by its terms as they are, and not by what it might have contained.

Yick Wo. v. Hopkins, 118 U.S. 371 (80: 226).

Mr. Justice Matthews delivered the opinion of the court:

The grant of power to Congress in the Constitution to regulate commerce with foreign Nations and among the several States, it is conceded, is paramount over all legislative powers which, in consequence of not having been granted to Congress, are reserved to the States. It follows that any legislation of a State, although in pursuance of an acknowledged power reserved to it, which conflicts with the actual exercise of the power of Congress over the subject of commerce, must give way before the supremacy of the national authority. As the regulation of commerce may consist in abstaining from prescribing positive rules for its conduct, it cannot always be said that the power to regulate is dormant because not affirmatively exercised. And when it is manifest that Congress intends to leave that commerce, which is subject to its jurisdiction, free and unfettered by any positive regulations, such intention would be contravened by state laws operating as regulations of commerce as much as though these had been expressly forbidden. In such cases, the existence of the power to regulate commerce in Congress has been construed to be not only paramount but exclusive, so as to withdraw the subject as the basis of legislation altogether from the States.

There are many cases, however, where the acknowledged powers of a State may be exerted and applied in such a manner as to affect foreign or interstate commerce without being intended to operate as commercial regulations. If their operation and application in such cases regulate such commerce, so as to conflict with the regulation of the same subject by Congress, either as expressed in positive laws or implied from the absence of legislation, such legislation on the part of the State, to the extent of that conflict, must be regarded as annulled. To draw the line of interference between the two fields of jurisdiction, and to define and declare the instances of unconstitutional encroachment, is a judicial question often of much difficulty, the solution of which, perhaps, is not to be found in any single and exact rule of decision. Some general lines of discrimination, however, have been drawn in varied and numerous decisions of this court. It has been uniformly held, for example, that the States cannot by legislation

INTER S.

place burdens upon comm Nations or among the sev upon an examination of the were rendered," as was said king, 98 U. S. 99, 102 [23:819 found that the legislation ad posed a tax upon some instr commerce, or exacted a licer engaged in commercial pur impediment to the free n public waters, or prescribed cordance with which comm articles or between particul quired to be conducted. In legislation condemned oper commerce, either by way of ness, license upon its pur channels, or conditions for c that case it was held that a giving a right of action to sentatives of the deceased, w caused by the wrongful a another, was applicable to tl life occasioned by a collisi boats navigating the Ohio R interstate commerce, and did regulation of commerce in Constitution of the United point the court said, p. 108 legislation of this kind, pre ities or duties of citizens o distinction as to pursuit or c to any valid objection bec persons engaged in foreign merce. Objection might, ety, be urged against legislat form in which contracts shal or property descend or be death of its owner, becau contracts or estates of perso commerce. In conferring regulation of commerce, it v to cut the States off from leg jects relating to the health their citizens, though the le directly affect the commerc Legislation, in a great var affect commerce and pers without constituting a regu the meaning of the Constitut may be said, generally, that State, not directed against c its regulations, but relating t and liabilities of citizens, a and remotely affecting the merce, is of obligatory fo within its territorial jurisdi land or water, or engaged in or interstate, or in any other case it was admitted, in tl court, that Congress might l power to regulate commerce, ity of parties for marine tor death of the persons inju the absence of such legislati statute of the State, giving st constituted no encroachmei merical power of Congress, also said, p. 103 [820], "I commercial power conferr tion is one without limitat legislation with respect to

foreign and interstate commerce, the persons engaged in it, and the instruments by which it is carried on."

The Statute of Indiana held to be valid in that case was an addition to and an amendment of the general body of the law previously existing, and in force, regulating the relative rights and duties of persons within the jurisdiction of the State, and operating upon them, even when engaged in the business of interstate commerce. This general system of law, subject to be modified by state legislation, whether consisting in that customary law which prevails as the common law of the land in each State, or as a code of positive provisions expressly enacted, is nevertheless the law of the State in which it is administered, and derives all its force and effect from the actual or presumed exercise of its legislative power. It does not emanate from the authority of the national government, nor flow from the exercise of any legislative powers conferred upon Congress by the Constitution of the United States; nor can it be implied as existing by force of any other legislative authority than that of the several States in which it is enforced. It has never been doubted but that this entire body and system of law, regulating in general the relative rights and duties of persons within the territorial jurisdiction of the State, without regard to their pursuits, is subject to change at the will of the Legislature of each State, except as that will may be restrained by the Constitution of the United States. It is to this law that persons within the scope of its operation look for the definition of their rights and for the redress of wrongs committed upon them. It is the source of all those relative obligations and duties enforceable by law, the observance of which the State undertakes to enforce as its public policy. And it was in contemplation of the continued existence of this separate system of law in each State that the Constitution of the United States was framed and ordained with such legislative powers as are therein granted expressly or by reasonable implication.

It is among these laws of the States, therefore, that we find provisions concerning the rights and duties of common carriers of persons and merchandise, whether by land or by water, and the means authorized by which injuries resulting from the failure properly to perform their obligations may be either prevented or redressed. A carrier exercising his calling within a particular State, although engaged in the business of interstate commerce, is answerable according to the laws of the State for acts of nonfeasance or misfeasance committed within its limits. If he fail to deliver goods to the proper consignee at the right time or place, he is liable in an action for damages under the laws of the State in its courts; or if by negligence in transportation he inflicts injury upon the person of a passenger brought from another State, a right of action for the consequent damage is given by the local law. In neither case would it be a defense that the law giving the right to redress was void as being an unconstitutional regulation of commerce by the State. This, indeed, was the very point decided in *Sherlock v. Alling*, above cited. If it is competent for the State thus to administer justice according to its own laws

for wrongs done and injuries suffered, when committed and inflicted by defendants while engaged in the business of interstate or foreign commerce, notwithstanding the power over those subjects conferred upon Congress by the Constitution, what is there to forbid the State, in the further exercise of the same jurisdiction, to prescribe the precautions and safeguards foreseen to be necessary and proper to prevent by anticipation those wrongs and injuries which, after they have been inflicted, it is admitted the State has power to redress and punish? If the State has power to secure to passengers conveyed by common carriers in their vehicles of transportation a right of action for the recovery of damages occasioned by the negligence of the carrier in not providing safe and suitable vehicles, or employés of sufficient skill and knowledge, or in not properly conducting and managing the act of transportation, why may not the State also impose, on behalf of the public, as additional means of prevention, penalties for the nonobservance of these precautions? Why may it not define and declare what particular things shall be done and observed by such a carrier, in order to insure the safety of the persons and things he carries, or of the persons and property of others liable to be affected by them?

It is that law which defines who are or may be common carriers, and prescribes the means they shall adopt for the safety of that which is committed to their charge, and the rules according to which, under varying conditions, their conduct shall be measured and judged, which declares that the common carrier owes the duty of care, and what shall constitute that negligence for which he shall be responsible.

But for the provisions on the subject found in the local law of each State, there would be no legal obligation on the part of the carrier, whether *ex contractu* or *ex delicto*, to those who employ him; or if the local law is held not to apply where the carrier is engaged in foreign or interstate commerce, then, in the absence of laws passed by Congress or presumed to be adopted by it, there can be no rule of decision based upon rights and duties supposed to grow out of the relation of such carriers to the public or to individuals. In other words, if the law of the particular State does not govern that relation, and prescribe the rights and duties which it implies, then there is and can be no law that does until Congress expressly supplies it, or is held by implication to have supplied it, in cases within its jurisdiction over foreign and interstate commerce. The failure of Congress to legislate can be construed only as an intention not to disturb what already exists, and is the mode by which it adopts, for cases within the scope of its power, the rule of the state law, which until displaced covers the subject.

There is no common law of the United States, in the sense of a national customary law, distinct from the common law of England as adopted by the several States each for itself, applied as its local law, and subject to such alteration as may be provided by its own statutes. *Wheaton v. Peters*, 83 U. S. 8 Pet. 591 [8:1055]. A determination in a given case of what that law is may be different in a court of the United States from that which prevails in affect-

the judicial tribunals of a particular State. This arises from the circumstance that the Courts of the United States, in cases within their jurisdiction, where they are called upon to administer the law of the State in which they sit or by which the transaction is governed, exercise an independent though concurrent jurisdiction, and are required to ascertain and declare the law according to their own judgment. This is illustrated by the case of *N. Y. Cent. E. R. Co. v. Lockwood*, 84 U. S. 17 Wall. 357 [21:627] where the common law prevailing in the State of New York, in reference to the liability of common carriers for negligence, received a different interpretation from that placed upon it by the judicial tribunals of the State; but the law as applied was none the less the law of that State.

In cases, also, arising under the *lex mercatoria*, or law merchant, by reason of its international character, this court has held itself less bound by the decisions of the state courts than in other cases. *Swift v. Tyson*, 41 U. S. 16 Pet. 1 [108: 65]; *Carpenter v. Providence Washington Ins. Co.* 41 U. S. 16 Pet. 495 [10:1044]; *Oates v. First Nat. Bank*, 100 U. S. 289 [25: 580]; *Brooklyn, C. & N. R. R. Co. v. National Bank of the Republic*, 102 U. S. 14 [26:61].

There is, however, one clear exception to the statement that there is no national common law. The interpretation of the Constitution of the United States is necessarily influenced by the fact that its provisions are framed in the language of the English common law, and are to be read in the light of its history. The code of constitutional and statutory construction which, therefore, is gradually formed by the judgments of this court, in the application of the Constitution and the laws and treaties made in pursuance thereof, has for its basis so much of the common law as may be implied in the subject, and constitutes a common law resting on national authority. *Moore v. U. S.* 91 U. S. 270 [23:346].

The Statute of Alabama, the validity of which is drawn in question in this case, does not fall within this exception. It would, indeed, be competent for Congress to legislate upon its subject matter, and to prescribe the qualifications of locomotive engineers for employment by carriers engaged in foreign or interstate commerce. It has legislated upon a similar subject by prescribing the qualifications for pilots and engineers of steam vessels engaged in the coasting trade and navigating the inland waters of the United States while engaged in commerce among the States (Rev. Stat. tit. 53, §§ 4399-4500); and such legislation undoubtedly is justified, on the ground that it is incident to the power to regulate interstate commerce.

In *Sinnot v. Davenport*, 63 U. S. 22 How. 227 [16:243], this court adjudged a law of the State of Alabama to be unconstitutional—so far as it applied to vessels engaged in interstate commerce—which prohibited any steamboat from navigating any of the waters of the State without complying with certain prescribed conditions, inconsistent with the Act of Congress of February 17, 1793, in reference to the enrollment and licensing of vessels engaged in the coasting trade. In that case it was said, p. 243 [247]: "The whole commercial marine

of the country is placed by under the regulation of Congress, passed by that body in the regulation and trade, whether for is therefore but the exercise power. When, therefore, a State prescribes a subject repugnant to and in regulation of Congress, the way, and this without regard power whence the State Legislature enactment."

The power might with exercised in prescribing the locomotive engineers employed companies engaged in the transportation of passengers and goods among that case would supersede all provisions on the same subject authority.

But the provisions on the in the Statute of Alabama are not regulations of interest is a misnomer to call them in themselves, they are part the local law which, as we properly governs the relation of passengers and merchant who employ them, which until they come in conflict with the provisions of Congress in the exercise of commerce, and which, according to the evident intention, remain as the law governing the charge of their obligations in the purely internal commerce in commerce among the States.

No objection to the statement to the free transaction of the States, can be found in provisions. It requires that an engineer shall have a license limit the number of persons licensed nor prescribe any as to the grant. The fee of \$ applicant for his examination for raising revenue, but is equivalent for the service rendered be considered in the light of on transportation. The applicant before obtaining his license, of examiners in reference to practical mechanics, his skill in locomotive engine, and his grade as an engineer; and the basis the license is required to inquire into character and habits, and to which he be found to be reckless or

Certainly it is the duty of an engineer engaged in the domestic State or in interstate commerce to furnish itself with locomotive precise description, competent, skilled and sober; and if lessness in the selection of a qualified, injury or loss is of no matter in what business possible according to the local law in such cases, in the national legislation.

The statute in question furnishes any engineer licensed under his license if at any time found

of examiners, of an act of recklessness, carelessness or negligence, while running an engine, by which damage to person or property is done, or who shall immediately preceding or during the time he is engaged in running an engine be in a state of intoxication; and the board is authorized to revoke and cancel the license whenever they shall be satisfied of the unfitness or incompetency of the engineer by reason of any act or habit unknown at the time of his examination, or acquired or formed subsequent to it. The eighth section of the Act declares that any engineer violating its provisions shall be guilty of a misdemeanor, and upon conviction inflicts upon him the punishment of a fine not less than \$50 nor more than \$500, and also that he may be sentenced to hard labor for the county for not more than six months.

If a locomotive engineer, running an engine, as was the petitioner in this case, in the business of transporting passengers and goods between Alabama and other States, should, while in that State, by mere negligence and recklessness in operating his engine, cause the death of one or more passengers carried, he might certainly be held to answer to the criminal laws of the State if they declare the offense in such a case to be manslaughter. The power to punish for the offense after it is committed certainly includes the power to provide penalties directed, as are those in the statute in question, against those acts of omission which, if performed, would prevent the commission of the larger offense.

It is to be remembered that railroads are not natural highways of trade and commerce. They are artificial creations; they are constructed within the territorial limits of a State, and by the authority of its laws, and ordinarily by means of corporations exercising their franchises by limited grants from the State. The places where they may be located, and the plans according to which they must be constructed, are prescribed by the legislation of the State. Their operation requires the use of instruments and agencies attended with special risks and dangers, the proper management of which involves peculiar knowledge, training, skill, and care. The safety of the public in person and property demands the use of specific guards and

precautions. The width of the gauge, the character of the grades, the mode of crossing streams by culverts and bridges, the kind of cuts and tunnels, the mode of crossing other highways, the placing of watchmen and signals at points of special danger, the rate of speed at stations and through villages, towns, and cities, are all matters naturally and peculiarly within the provisions of that law from the authority of which these modern highways of commerce derive their existence. The rules prescribed for their construction and for their management and operation, designed to protect persons and property, otherwise endangered by their use, are strictly within the limits of the local law. They are not *per se* regulations of commerce; it is only when they operate as such in the circumstances of their application, and conflict with the expressed or presumed will of Congress exerted on the same subject, that they can be required to give way to the supreme authority of the Constitution.

In conclusion we find, therefore: first, that the Statute of Alabama, the validity of which is under consideration, is not, considered in its own nature, a regulation of interstate commerce, even when applied as in the case under consideration; secondly, that it is properly an act of legislation within the scope of the admitted power reserved to the States to regulate the relative rights and duties of persons being and acting within its territorial jurisdiction, intended to operate so as to secure for the public safety of person and property; and, thirdly, that, so far as it affects transactions of commerce among the States, it does so only indirectly, incidentally, and remotely, and not so as to burden or impede them; and, in the particulars in which it touches those transactions at all, it is not in conflict with any express enactment of Congress on the subject, nor contrary to any intention of Congress to be presumed from its silence.

For these reasons, we hold this statute, so far as it is alleged to contravene the Constitution of the United States, to be a valid law.

The judgment of the Supreme Court of Alabama is, therefore, affirmed.

Mr. Justice Bradley dissented.

THE INTERSTATE COMMERCE COMMISSION.

John Henry NICOLAI, Trading as the Eagle Oil Works,

v.

PENNSYLVANIA R. R. CO., Pennsylvania Co., and Pittsburgh, Cincinnati & St. Louis R. Co.

(No. 100.)

John W. S. BRADY and George T. Parkhurst, Copartners under the Firm Name of J. Parkhurst, Jr. & Co.,

v.

SAME.

(No. 101.)

THE original complaints in these actions, alleging excessive rates on crude petroleum oil, filed November 28, 1887 (see *ante*, 649), were against the Pennsylvania Railroad Com-

pany only, and the cases were heard and submitted on January 28, 1888.

On February 18, 1888, the Commission issued an order giving leave to the respective complainants to amend the complaints by making the Pennsylvania Company a party defendant. On February 21, 1888, a like order was issued, giving leave to amend the complaints by making the Pittsburgh, Cincinnati & St. Louis Railway Company a party defendant.

Amended complaints, containing such additional parties, were filed March 17, 1888, and the new defendants served with copies thereof.

On April 3, 1888, the new defendants filed answers, of which an abstract is now given.

Mr. John Henry Keene, for complainants.

Mr. James A. Logan, for defendant the Pennsylvania Railroad Company.

Mr. J. T. Brooks, for defendants the Pennsylvania Company and the Pittsburgh, Cincinnati & St. Louis Railway Company.

ABSTRACT OF ANSWERS.

The Pennsylvania Company denies each and every averment in said complaints contained so far as relates to it.

The Pittsburgh, Cincinnati & St. Louis Railway Company denies generally the allegations of the complaints, and says that during the period specified it transported no oil whatever in the direction of Baltimore from Washington, or made any engagement to carry such oil, other than to carry the same upon the Charters Railway, controlled by it, between Washington, Pennsylvania, and Mansfield, Pennsylvania, and on its own line between Mansfield and Pittsburgh, Pennsylvania; that all it had to do with such transportations was to carry such oil from Washington to Pittsburgh; that its uniform rate on all so transported by it from Washington to Pittsburgh was fifteen cents per barrel to all parties, whether the same was delivered to owners at Pittsburgh or to common carriers for transportation eastward of Pittsburgh; and that said rate of fifteen cents so charged was and is a reasonable rate for such service.

Reuben L. **RICE et al.**, Partners as Rice, Robinson & Witherop,

WESTERN NEW YORK & PENNSYLVANIA R. CO. and **G. Clinton Gardner**, Receiver of the Buffalo, New York & Philadelphia R. Co.

(No 119.)

ABSTRACT of answers to additional complaint filed April 3, 1888. See original complaint *ante*, 717; additional complaint, *ante*, 792; answers to original, complaint *ante*, 795.

Mr. George Zabriskie, for defendants.

The defendant, The Western New York & Pennsylvania Railroad Company, answering the additional complaint filed herein, says that the same is not filed by authority of law or by permission of the Commission, that it is irregular and the Commission has no jurisdiction to entertain said additional complaint.

Further answering and saving all objection, the defendant denies that it, by way of retaliation or revenge, raised the rate of March 1, 1888, for carrying oil in car loads from Titusville, Pennsylvania, to Buffalo, New York, from thirty-four to thirty-six cents per barrel, but admits that before the petition herein was filed or served the rates on its road on fourth, fifth, and sixth classes were raised and that refined petroleum is in its fifth class, and as such was included in such advance, and defendant denies that such advance was intended to discriminate between oil shipments for Buffalo and those for points more distant or against petitioners, or against Buffalo.

Defendant denies the allegation in paragraph 8 of said additional complaint.

The defendant, G. Clinton Gardner, Receiver of the Buffalo, New York & Philadelphia Railroad Company, denies the jurisdiction.

tion of the Commission to hear said additional complaint and says he is a stranger to all the matters and things alleged therein.

WORCESTER EXCURSION CAR CO.

PENNSYLVANIA R. CO.

(No. 129.)

COMPLAINT filed April 3, 1888, charging unjust discrimination in hauling cars of the Pullman Palace Car Company and in refusing to haul cars belonging to the complainant company.

1. The complainant is a corporation legally organized under the laws of the Commonwealth of Massachusetts "For the purpose of building, constructing, furnishing, and keeping in repair cars to be run upon railroads for the use and pleasure of hunting parties and excursions." It has its office in the City of Worcester, in said Commonwealth of Massachusetts.

2. The defendant is a railroad corporation engaged in the transportation of passengers and property by railroad from one State to another owning or operating railroads or lines of railroads from one State to another, and subject to the provisions of chapter 104 of the Acts of Congress for the year 1887, entitled, "An Act to Regulate Commerce," and known as the Interstate Commerce Act.

3. It operates, among others, lines of railroad between Chicago, in the State of Illinois, and Philadelphia, in the State of Pennsylvania, and New York, in the State of New York, and between Pittsburgh, in the State of Pennsylvania, and New York, in the State of New York.

4. The complainant owns cars constructed and fitted up as set forth in its charter aforesaid, for which there is a constant use and demand. Said cars are of proper construction to be hauled over the defendant's lines of railroad safely and conveniently, and the complainant has always been ready and willing, and has offered to pay all regular and proper charges for such service.

5. The complainant has requested the defendant to draw the complainant's cars over the defendant's railroads from Chicago, aforesaid, to Philadelphia, aforesaid, and New York City, aforesaid, and from Pittsburgh, aforesaid, to New York City, and has offered to pay the regular and proper charge for said service, but the defendant refused to haul the complainant's cars as above requested, to the great inconvenience and damage of the complainant.

6. Other corporations own and operate cars for purposes of passenger and property transportation from State to State, which, like the complainant, do not own and operate railroads, but whose cars are hauled by railroad corporations. Among said corporations is the Pullman Palace Car Company.

7. The complainant says that the defendant hauls the cars of the Pullman Palace Car Company, similar to the complainant's cars, over its railroads for the same purposes for which the complainant requested it to draw its cars and upon terms with which the complainant was willing and offered to comply, and the de-

fendant refused to haul the complainant's cars for the reason that it was under contract with the Pullman Palace Car Company to haul its cars exclusively for the purposes for which the complainant owns and operates its cars.

8. The complainant says that the defendant has given an undue and unreasonable discrimination and advantage in favor of the said Pullman Palace Car Company, and has subjected the complainant to an undue and unreasonable prejudice and disadvantage, to its great damage and loss.

The complainant prays:

1. That it might be relieved from the unjust discrimination above set forth;

2. That the Pennsylvania Railroad Company may be enjoined and restrained from receiving and hauling the cars of the Pullman Palace Car Company or any other company exclusively, or upon more favorable terms than it will receive and haul the cars of the complainant;

3. That the Pennsylvania Railroad Company may be ordered to receive and haul the cars of the complainant upon the same terms and conditions as it receives and hauls the cars of the Pullman Palace Car Company or of any other similar company;

4. And for such other and further relief as to your honorable board shall seem just and proper.

Worcester Excursion Car Company,
By Rice, King & Rice, its attorneys

William P. REND

v.

CHICAGO & NORTHWESTERN R. Co.

(No. 127.)

A BSTRACT of Answer filed April 9, 1888.
See complaint, *ante*, 798.

Mr. W. C. Goudy, attorney for defendant.

The defendant admits, substantially, the introductory allegations of the complaint and says that there are coal mines in addition to those at Wilmington and Spring Valley at Streator, Minonk, Lacon, Wyoming, Peoria, Farmington, Canton, Vermont, Monmouth and Burlington and other points north of a line drawn through said points; that the coal mined at such places is carried to the north and northwest upon difficult lines of road, to points in Wisconsin, Minnesota and Dakota, without shipment through Chicago, except the so-called Wilmington mines, from which the most direct route is through the City of Chicago.

That the railways carrying said coal agreed upon the rates to be charged from said points, making the same in a group and describing the territory as follows: "On and north or west of the line drawn along the Chicago & Alton Railroad from Chicago to Dwight; thence to Streator, thence to Lacon, and north and west of the line from Lacon to Peoria by the Chicago, Rock Island & Pacific; thence along the Central Iowa Railway from Peoria to Farmington; and thence by the Chicago, Burlington & Quincy Railroad through Canton, Vermont, Bushnell and Monmouth, Illinois, to Burlington, Iowa, including points in

such boundary line, and also including on and north of the line of the Toledo, Peoria & Western from Canton, Illinois, through Bushnell to Iowa Junction, and also including Minonk on the Illinois Central Railroad and it was agreed that the tariff from each of said points should be the same to the several points of destination. Defendant says that the establishment of said group is proper, under the Law, and the rates are entirely reasonable.

Defendant also says it has made no joint tariffs with railways running east from Chicago into Ohio and Pennsylvania.

OHIO COAL EXCHANGE

v.

WISCONSIN CENTRAL R. CO.

(No. 126.)

A BSTRACT of Answer filed April 6, 1888.
See complaint, *ante*, 798.

Defendant says it has not made, or knowingly been a party to, any through rates or divisions with the Chicago & Eastern Illinois R. Co. on Indiana block coal, and that its only rates on said coal are the full local tariff rates from Chicago.

J. W. SLAPPEY *et al.* (The Marshallville
Cider & Vinegar Co.)

v.

CENTRAL R. R. OF GEORGIA, Brunswick
& Western R. R. Co., Savannah, Florida &
Western R. R. Co., and South Florida R.
R. Co.

(No. 104.)

A BSTRACT of Answers to complaint given
ante, 675.

Messrs. Lawton & Cunningham, for defendants.

The answer of the Central Railroad of Georgia, filed March 16, 1888, admits that the rate from Marshallville, Georgia, to Tampa, Florida, on said class of freight was \$1 per 100 pounds, but that the same, without reference to the petition herein, was reduced to eighty-six cents per 100 pounds, by reason of the action of the Florida Railroad Commission, and denies that the rate from Macon, Georgia, to Tampa was ever fifty-two cents per 100 pounds on said class of freight, while the above rate of \$1 per 100 pounds from Marshallville was in force, but that the same was \$1 per 100 pounds, and when the above reduction was made the same rate of eighty-six cents per 100 pounds went into effect from Macon, Georgia.

The answer of the Brunswick & Western R. R. Co. filed March 30, 1888, disclaims any knowledge of the transportation of the property in question and denies any participation therein.

The answer of the Savannah, Florida & Western R. R. Co. filed April 5, 1888, says that the Central Railroad of Georgia is the initial road in the transportation of said freight; that it did not make the rate of \$1 per 100 pounds complained of; that when notice of said rate was received by it the same was referred back to the initial company and the rate corrected to eighty-six cents per 100 pounds was there-

apolis is just as free of transportation charges as is property delivered to defendants by Milwaukee shippers.

Complainant is notified that said discrimination will be discontinued February 22, 1888; but it is continued in the mean time, and complainant therefore petitions that defendants be adjudged guilty of unjust discrimination against Milwaukee in violation of the Act to Regulate Commerce.

John D. HECK and L. J. A. Petree, composing firm of Heck & Petree,

v.

EAST TENNESSEE, VIRGINIA & GEORGIA R. Co.; Knoxville & Ohio R. R. Co.; Richmond & Danville R. R. Co.; Richmond & West Point Terminal & Warehouse Co.; Coal Creek & New River R. R. Co.

(No. 78.)

*A railroad chartered by the State of Tennessee owns a short road wholly in that State, but never owned any rolling stock nor operated its road. The road was used and operated as a means of conducting interstate traffic in coal by companies owning connecting interstate roads. *Held,*

1. That the short road is one of the facilities and instrumentalities of interstate commerce, and, as such, is subject to the provisions of the Act to Regulate Commerce.
2. In respect to such traffic the duties of such a road to the public are the same, without respect to ownership, corporate control, the authority or means of its construction.
3. As one of the "instrumentalities of shipment or carriage" it must be accessible to all interstate shippers on equal and reasonable terms. The public cannot be deprived of this right by the separate or joint action of defendants.
4. The traffic in question is interstate traffic. The companies conducting it use this short road as a facility to such traffic. They cannot be permitted to use it for purposes of discrimination between mine owners on its line.
5. The claim for pecuniary damages presents a case at common law, in which defendants are entitled to a jury trial.

(Heard Dec. 9, 1887; Decided Feb. 15, 1888.)

COMPLAINT alleging discrimination in furnishing cars for transportation of coal, and demanding pecuniary damages. See complaint, ante, 498.

Messrs. Webb & McClung, and S. F. Phillips, for petitioner.

Messrs. W. M. Baxter and E. M. Johnson, for defendants, East Tennessee, Virginia & Georgia R. Co., and Knoxville & Ohio R. R. Co.

Mr. J. T. Worthington, for defendants, Richmond & Danville R. R. Co., and Rich-

mond & West Point Terminal & Warehouse Co.

Mr. E. R. Chapman, for defendant, Coal Creek & New River R. R. Co.

REPORT AND OPINION OF THE COMMISSION.

Morrison, Commissioner:

The complaint against the defendants is that on April 15, 1887, and continually since then, they refused to transport coal which up to that time they had transported for the complainants from their mine in the Coal Creek coal field, in the State of Tennessee, to their customers in North Carolina and other States; that while so refusing to carry complainants' coal, the defendants carried and continued to carry coal from said coal field since April 15, 1887, as they did before, for other miners and shippers; that in respect of the traffic in coal the defendants unjustly discriminate against the complainants and refuse to afford them the reasonable and equal advantages for forwarding coal afforded to others. Complainants ask that their rights as shippers of coal may be secured to them by order of this Commission, and that large pecuniary damages may be awarded to them which they claim for their alleged losses by nonshipment of their coal.

The Coal Creek & New River Railroad Company, answering separately, denies that it discriminates unjustly or at all against the complainants, denies that it refused to afford them any facilities afforded to other shippers of coal on the line of defendant's road; and denies that it refused the use of its track to the plaintiffs by the stoppage of the running thereon of engines and cars of other companies, except by general refusal which applied to any and all use of its road or track. It alleges that any use of said track subsequent to such general refusal has been under an arrangement open alike to all shippers, and that no application has been made by complainants for any arrangement.

The East Tennessee, Virginia & Georgia Railway Company and the Knoxville & Ohio Railroad Company, two of the defendant companies, jointly answering, deny the existence of any facts which gives the right to or makes it the duty of said last named company to operate the road of said Coal Creek & New River Company as against its consent and express orders; deny that they or either of them have ever managed or controlled said Coal Creek & New River Road or run cars or engines over it at any time, except by its acquiescence and authority. They aver that subject to such acquiescence the Knoxville & Ohio Railroad Company heretofore ran its engines and cars, and engines and cars under its control, over the line of said Coal Creek & New River Road to accommodate coal miners on the line thereof, for which service a switching charge was made; that such service was discontinued on all of its road by order of said Coal Creek & New River Company and with its authority and acquiescence restored on so much of its road as extends to the mine of the Excelsior Coal Company, and within one fourth mile of complainants' mine. And except as above stated these defendants deny every other allegation of complainants and deny jurisdiction

*Head notes by COOLLEY, *Chairman*.

INTER S.

have been accustomed to stop and consider these questions. If presented, they have been brushed aside, in the race for business which absorbs the entire community. A common carrier should be as sensitive to suspicion of unfairness as a register of deeds, clerk of a court, or any other public servant. The purchase of his services at a stated price, equal to all, should be a matter of course with every shipper, without any more thought of obtaining personal advantage in the transaction than of counterfeiting the coin that pays the bill.

The re-establishment of a correct public sentiment upon this most important matter must be effected by the enactment and enforcement of just laws. In the Act to Regulate Commerce the country is brought face to face with certain principles governing transportation by common carriers which had been almost totally overlooked. One is that their service is a public service, and that common carriers have no right to conduct their business as private enterprises are sometimes conducted, giving favors for the hope of gain and seeking to control business by discounts and concessions. Such methods, possibly legitimate in the counting room of the merchant or the manufacturer, must be rigidly excluded from the office of the common carrier. The very name "common" carrier implies equality; it signifies common to all; the servant of the public. The adoption of the vocation carries with it the assurance imposed by one of the elementary principles of the common law, that every customer shall be served alike; and it is rewarded with privileges and securities which many other vocations do not possess.

On the other hand the common carrier is at least entitled to the same fair dealing and honesty on the part of its customers which are expected between man and man in the ordinary commercial transactions of life; and should not be called upon for the exercise of an extraordinary degree of suspicion or required personally to revise every representation made by shippers. The business of the world is founded upon mutual trust and confidence. When once the true relations of the common carrier to the public are generally recognized, and their importance appreciated, the same honorable course of dealing which American merchants and manufacturers are justly expected to pursue between themselves and with strangers will be applied unhesitatingly in respect to the subject of transportation.

The prohibitions of the Act to Regulate Commerce are fortunately not limited to the methods of unjust discrimination by special rate, rebate, or drawback, but contain the added words "or other device." The attention of the Commission has been recently attracted in various ways by allegations that the device known as "underbilling" is being largely employed by shippers and carriers as a method by which a less compensation is paid by one person than by another for "a like and contemporaneous service." It became the duty of the Commission to investigate the subject, and such an investigation has accordingly been had. Time was not available for such a full examination of the question in all parts of the country as might have been desired, but the taking of testimony and the collection of facts

was carried sufficiently far to lay open the subject as it is found to exist in certain important localities, from which generalizations can be safely made. A statement of the matters thus disclosed, in respect to a part only of the traffic concerning which detailed evidence is in the hands of the Commission, is given below, with some explanation of the difficulties that surround the situation and some suggestions for the correction of the evils that exist.

There is no doubt whatever, and the Commission finds the fact to be, that an immense amount of traffic has been carried by the railroads of the country during the last six months, and to some extent during the entire period since the passage of the Act to Regulate Commerce, the tonnage or weight of which was underbilled. The shipper in such cases pays freight upon a less quantity than is actually carried, the result of which is that upon the gross amount he pays a reduced rate; in other words, a less sum than is charged to other shippers for a like service.

This has not been confined to any particular road or group of roads, but has been very generally prevalent in various parts of the United States, and even upon lines which at the same time were protesting most emphatically their absolute conformity to the requirements of the law. The practice is unequivocally condemned by every railroad official and traffic manager whom the Commission has approached upon the subject; and they have been very many, including the officers of most of the leading lines in the Central and Western States; but at the same time the fact cannot be denied that the same lines have admitted traffic upon which the billing was short, and that usually they have known, or easily might have known, that such was the case.

It should, however, be added that measures have been voluntarily adopted by many of the carriers, designed to prevent future underbilling; inspection of freight has been greatly extended; methods of receiving freight in some cases have been changed, and although the practice is by no means at an end, considerable progress has already been made in the direction of putting it down.

A difficulty in dealing with this device under the existing provisions of law is found in the fact that in each particular case the carriers assert that they did not know of its existence; that they were imposed upon by the shipper or were unwittingly led into error by the fraud or ignorance of an agent; so that while these irregular shipments may have been overlooked or winked at, and in many cases, perhaps, suggested, by the responsible officers of the companies, yet proof of this, to the satisfaction of a jury in any given case, might be difficult to make. Nevertheless, in every case a degree of negligence is apparent which is not easily explainable. Various excuses are also offered: the appliances and assistants necessary for ascertaining weights and quantities are deficient in many places; the exaction of just tonnage by one road might send business to a less scrupulous competitor; the traffic is received from connections where means or disposition to be exact may not exist. The general fact is apparent that railroad managers are reluctant to move individually in putting an end to dis-

it was always treated as a part of the continuous line, and one of the instrumentalities by which the coal from this mine in Tennessee was expected to reach and did reach the markets in the other States.

If this road is one of the means by which commerce in coal is carried on between Tennessee and other States as an instrumentality of interstate commerce, its duties to the public under the Act to Regulate Commerce in respect to such traffic are the same, without respect to its ownership, corporate control, the authority or means of its construction.

By the first section of the Act to Regulate Commerce the term "railroad" is made to include "all the road in use by any corporation operating a railroad, whether owned or operated under a contract, agreement, or lease;" and the term transportation is made to include "all instrumentalities of shipment or carriage."

This road has been operated by the Knoxville & Ohio Company from the time it was built. This has been done, as alleged in defendants' answer, by agreement or contract, since April 14, 1887. Presumably it was so done *before*. This would seem to bring this road within the reason of the provisions of the Act to Regulate Commerce relating to lines for continuous carriage from one State or Territory to another State or Territory, and make it, in connection with the roads of the other defendants, a part of such a line.

Yet, in the view we take of this case, the relief asked by complainants is not dependent upon this Coal Creek & New River Company being a common carrier, or upon its road being a part of a line for continuous carriage to other States.

Whatever else this road may or may not be, it is one of the means and facilities for shipment to and over lines from complainants' and other mines in Tennessee to market in other States. It is one of the "instrumentalities of shipment or carriage" included in the term transportation, to which the Act to Regulate Commerce applies. As such it must be open and accessible alike to all shippers, and on equal and reasonable terms. This is a right belonging to the public, of which it cannot be deprived by the separate act or control of any one of the defendants, nor by the act of any or all of them combined.

The other defendant companies insist that they have no control over the Coal Creek & New River Company, and deny that they have any legal right to operate or owe any duty to the public which require them, or either of them, to operate its road without the consent and against the express orders of said Coal Creek & New River Company. Neither denying nor admitting their legal obligation to do so they aver readiness to carry coal over said road with the acquiescence of the said New River Company, which acquiescence they claim to have had in all the carrying done over its road. This road is included in the term "railroad" or the term "transportation," or both, as defined in the Act to Regulate Commerce; when the defendants are permitted to make use of and to control it for their own purposes they have no legal right in doing so

to refuse impartial accommodation. That such refusal would subject it to responsibility to the state laws is not questioned, and whether the company as owner of the road would be subject to the jurisdiction of this Commission is therefore not important. The East Tennessee, Virginia & Georgia Company operating its own line and the line of the Knoxville & Ohio Company, is an interstate road, and the traffic in question is interstate traffic; this short road is made use of by the other roads as a mere facility to such traffic. They cannot be permitted to make use of it, or any part of it, for the purposes of discrimination, as between the mine owners upon it. The attempt to shelter themselves behind the action of the owners of the short road is but a pretense. The interstate roads control the other, and they cannot be allowed to abuse that control to oppress the public or any part of it.

The "Y" switch to the coal field did not and does not extend as far up as the mine of complainants on the coal lands owned by the lessor, separately or jointly, with the defendants, Knoxville & Ohio Company. To reach these lands their owners, Heck and the Knoxville & Ohio Railroad Company, built the New River Road. Previous to October, 1886, Heck was President of the New River Company. The Knoxville & Ohio Company operated the Coal Creek & New River Company's Road until April 15, 1887, for all shippers, and since then for all except complainants. Since it was built, new mines have been opened and investments made for the development of mines, in view of the transportation which this road afforded and of which it is a necessary part. It is neither good faith nor legally right to deny its use to the sole purpose of its construction.

The misunderstanding and disagreement between Heck and the stockholders or others interested in the defendants' roads has furnished a pretext for, but does not justify the illegal acts of defendants in refusing to transport the coal of complainants, which was done to bring Heck to terms. The public, of which the complaining firm is a part, cannot wait for its rights while stockholders or persons interested in the defendant companies adjust their accounts or settle their differences.

The complainants and other miners on the line of said Coal Creek & New River Road are entitled to have their coal carried over it to its connecting road and thence to destination.

The claim for pecuniary damages made by complainants was not entertained on the hearing, because it presents a case at common law in which the defendants are entitled to a jury trial.

It is, therefore, found that the conduct of the defendants in failing and refusing to receive coal for interstate transportation when tendered by complainants, was in contravention of the provisions of the Act to Regulate Commerce; and it is ordered that said defendants and each of them forthwith cease and desist from such failure and refusal, and henceforward receive and forward coal when so offered for transportation on any part of the line of said Coal Creek & New River Railroad upon just, reasonable, and equal terms.

In examining the schedules in detail a large number of grain shipments from Toledo were observed, of which only a few are given above. In all some fifty car loads of grain were shipped from Toledo to various points, of which the average underbilling was over 12,000 pounds per car, considerably more than 25 per cent of the actual weight being thrown off. At first it seemed incredible that such a series of transactions could have occurred without the connivance of the responsible officers of the railroad company. Investigation showed that it is not impossible that the carrier was wholly innocent, as it stoutly claims to be. The shipments, or many of them, were made by Messrs. Southworth, Paddock & Company, of Toledo, from an elevator known as the Narrow Gauge Elevator, situated at the junction of the Toledo, St. Louis & Kansas City Railroad with the Canada Southern. The business of this firm was solicited by the agent of the Michigan Central (operating the Canada Southern). The margin under which grain could be profitably handled by the Toledo operators was very close. Shipments were presently begun in which the cars were loaded from the elevator, and closed; the weights furnished by the shipper were accepted by the carrier as correct for billing purposes. The elevator in question was not a "public" or "regular" elevator, in the strict sense, signifying responsible supervision and exactitude officially ascertained, but it has long been customary for carriers to accept its weight, which had been previously believed to be accurate. When the underbilling was discovered by the inspectors at Buffalo a demand was made upon the shippers, who paid the amount required as freight upon the total weights reported. The agent of the railroad company asseverates that he made no suggestion that the grain might be underbilled, and had no suspicion that such was the case. The shippers, however, seem in some way to have obtained an impression that the weights given by them would be accepted without correction.

The above facts have been stated as an example of the way which in such business can be done on a large scale with a possibility of ignorance on the part of the carrier. It should be further stated that after the disclosure of the facts was made, the Michigan Central commenced at once to weigh all car load lots originating at Toledo upon its own track scales; and also that indications point strongly to the fact that the parties above named were not the only Toledo shippers who have habitually underbilled grain, nor was the above named line the only carrier which accepted such underbilling.

It is apparent that the party which directly reaps the benefit of a fraud like that above described is the shipper. The grain is sold at a certain price "laid down." The purchaser pays for the total grain shipped, as per invoice, deducting the freight actually paid, as per way bill. The carrier is not benefited by the transaction, except perhaps indirectly in receiving a consignment of freight which might have sought some other route or which the party in question might have been unable to profitably handle at all at the tariff rates applied to honest billing.

West bound freight from eastern cities is received by the carriers under circumstances

which afford opportunity for fraud in a manner apparently unavoidable. For example, at New York City the various trunk lines have receiving stations upon the wharves in the lower part of the city and in the city itself. Merchandise is delivered at these stations in an almost constant stream throughout the day. The space available is necessarily somewhat contracted and the accumulation of freight must be prevented. The employees of the carriers receive the contents of each dray delivered to them in packages securely boxed and hooped, and at once truck the boxes and bales to the weighing apparatus, from which it is immediately distributed, according to destination, among the cars in waiting on the tracks or floats. No complaint has appeared in respect to the weights of this class of merchandise, but the classification is made according to the contents as marked upon the packages or the information furnished by the shipper or the drayman. In the rush of business an examination of the packages to ascertain contents is obviously impossible; nevertheless, a misstatement thereof may cause a reduced classification of the goods by which the shipper or the consignee will be materially benefited and the carrier defrauded to the same extent, while other dealers who represent contents truthfully are correspondingly prejudiced by the unjust discrimination. A person who sells an article to another person representing it to be what it is not is liable to punishment for the fraud; a willful misrepresentation to a carrier for the purposes of reduced freight charges is not different in principle.

The method of receiving miscellaneous freight as above described is substantially followed at other large cities and distributing points. The cars so loaded follow the various lines of road to their several destinations. It is impossible for the carriers to inspect their contents without stopping them *en route*, unloading them entirely, and opening each package; a single car load often containing goods from a large number of shippers.

Shipments in car load lots originating in the east are occasionally received from a shipper at a public station, but more frequently are loaded by the shippers themselves upon side tracks placed for their convenience at the various factories, mills, iron works, refineries and other manufacturing establishments found not only in the large cities in the East but throughout the Eastern States, and the Central, Western and Southern States as well. In respect to such shipments the character of the goods offered is generally known, although there are opportunities for fraud in representing the contents of car loads. The weights also may be verified by the carriers, who have track scales at different points for the purpose. It has been quite generally customary, however, for shippers of car load lots to furnish the billing agents with a slip containing the description and weight of the contents of each car, from which the way bills are made out without question, the cars going through to destination without being opened for inspection and without any verification of the weights. It is obvious that this course of business affords great opportunity for obtaining preference and advantage, although the same standard of com-

COMPLAINT charging unjust discrimination in furnishing coal cars. *Dismissed.*
See decision on motion to amend complaint, *ante*, 701.

Mr. J. L. Black, for petitioner.

Messrs. John K. Cowen and H. L. Bond, for defendant.

REPORT AND OPINION OF THE COMMISSION.

Bragg, Commissioner:

The complaint in this proceeding charges that the Baltimore & Ohio Railroad Company does not give the mines represented by petitioners their proportion of cars each day, and that this Company unjustly discriminates against them in furnishing cars to others.

The complainants are sales agents of the Yough Slope Mine, situated near West Newton, on the Baltimore & Ohio Railroad. These unjust discriminations are charged to have been committed during the month of August and the early part of September, 1887, namely: commencing with the 10th of August and ending with the third day of September following, on cars that should have been furnished for shipments of coal from said mine to Arthur & Boylan at Cleveland, Ohio. Various exhibits are attached to the petition in the shape of correspondence relating to these alleged discriminations, and also lists of cars which it is claimed were furnished to the Yough Slope Mine and to other adjacent mines during the period to which the complaint refers.

The answer of the Baltimore & Ohio Railroad Company neither admits nor denies that the complainants were sales agents for the Yough Slope Mine or that on August 10, 1887, they received an order to ship five cars per day to Arthur & Boylan, of Cleveland, Ohio. It admits the receipt of memorandum, copy of which is filed with complaint, marked Exhibit No. 2, but states that in the distribution of coal cars to the mines along the line of its road, it has necessarily to deal directly with the mines, and cannot recognize or notice the orders of third parties, the practice being that each mine makes out a daily requisition for such cars as it needs on blanks furnished by the Railroad Company for the purpose. It states that all the cars used for shipments of coal from mines on the lines of its road over the Pittsburgh & Western Railroad to Cleveland are owned by the Pittsburgh & Western Railroad Company or its leased lines, and that the Baltimore & Ohio Railroad Company in distributing those cars to the mines acts only as the agent of the Pittsburgh & Western Railroad Company and under its direction; that the route for coal from mines on the respondent's road to Cleveland for Pittsburgh & Western cars is by way of the respondent's road to Pittsburgh, the Pittsburgh Junction Road to Allegheny City, the Pittsburgh & Western Road to Akron, and the Valley Railway to Cleveland.

There is, however, direct delivery by the Baltimore & Ohio Railroad to the Pittsburgh & Western Railroad on the line of the Junction Road. The Pittsburgh & Western Railroad and the Valley Railway are distinct and independent roads, and in no way controlled by the Baltimore & Ohio Railroad Company. It states

INTER S.

that on the 10th of August, 1887, it had previously received an order, then in force, from the Pittsburgh & Western Railroad Company to allow no cars belonging to the Pittsburgh & Western Railroad Company to be loaded with coal for Cleveland; that on the 19th of August, at the instance of the Yough Slope Mine, D. C. Bachelor, train master of the respondent, endeavored to have the standing order referred to revoked as to the Yough Slope Mine, and for that purpose sent to J. T. Johnson, the superintendent of the Pittsburgh & Western Railroad, a telegram in the following words:

"Can coal for Presley & Arthur and Arthur & Boylan, Cleveland, go forward from Yough Slope? Answer quick."

To which telegram the following answer was received from Superintendent Johnson:

"No, sir; I cannot take coal for Presley & Arthur or Arthur & Boylan until further orders. Do not allow any of our cars to be loaded with coal or slack unless you have immediate shipment for it."

That all of the respondent's dealings in regard to the business between the mines on its road and Cleveland were carried on directly with the Pittsburgh & Western Company; that it has no direct dealings with the Valley Railway Company in regard to such business. The respondent cannot, therefore, state with certainty whether the orders as to the shipments of coal to Cleveland above stated were made by the Pittsburgh & Western Company on its own motion or whether they were directed by the Valley Railway; but it is informed and believes that such orders were at least in part dictated by the Valley Railway Company. The order of August 19, 1887, contained in the telegram last quoted, was not revoked until August 30, when Train Master Bachelor received the following telegram from Superintendent Johnson:

"Please send along Arthur & Boylan coal. Valley will receive it."

It denies that it in any way discriminated or intended to discriminate against the Yough Slope Mine in the distribution of cars for the shipment of coal to Arthur & Boylan and other consignees in Cleveland; but alleges that, on the contrary, it did not distribute any cars to any mines on its road for the purpose of making Cleveland shipments, and it could not do so against the orders of the Pittsburgh & Western Railroad Company, which was the owner of the cars; that in regard to the comparison made in the petition filed in this matter between the cars furnished the Yough Slope Mine and those furnished the Youghiogheny and Ashtabula Mines the respondent says that such a comparison is unjust and misleading as made in the petition; that, as appears by the petition itself, the Yough Slope Mine had orders for but five cars a day to be shipped over the Pittsburgh & Western Railroad, and those five cars were for Cleveland shipments. The Youghiogheny and Ashtabula Mines, on the other hand, was a large shipper, not only to Cleveland, where its consignees were, Arthur & Boylan and Presley & Arthur, but also to Fairport, a point on the Pittsburgh & Western system. Its orders for shipments over the Pittsburgh & Western Railroad were some twenty-five cars a day or five times that of the

which may be contrived between unscrupulous shippers and weak or unreliable employees are enormous.

One of the chief difficulties encountered in dealing with a subject like that of underbilling springs from the fact that the carrier must necessarily entrust its business to a great number of agents, and that, being itself a corporation, there often is not on the part of these agents the personal fidelity and loyalty which are likely to exist between employer and employee when the employer is a natural person. In very many cases it is not unlikely that, as between a carrier and one of its patrons, the inclination of the agent would be to prefer the interest of the latter and to sacrifice the interest of his employer to it. If his disloyal conduct affected injuriously third parties, as it commonly would, under the Law as it now stands, there would be no remedy except the criminal remedy, and none at all unless criminal intent on the part of the agent could be established; but the wrong in such a case is more likely to be accomplished through the failure of the agent to exercise due vigilance than through any overt act of dishonesty on his part; and when it is borne in mind that at times a general feeling of discontent may prevail among the employees of a carrier it is not difficult to understand that there may be serious and numerous wrongs, amounting in result to violations of law, of which the managing officers may be wholly ignorant, and which are accomplished not through dishonest connivance, but only because employees do not exercise the care which is necessary to prevent them.

The effect upon the legitimate business of other shippers which is produced by opportunities for underbilling taken advantage of by competitors can be briefly illustrated by facts disclosed in the course of the investigation at Chicago. The public elevator system there is recognized as accurate, and weights furnished therefrom are universally accepted without challenge; small discrepancies of fifteen, twenty or thirty bushels to the car were the utmost irregularities spoken of. In Chicago and its suburbs a large number of so called private elevators are also found from which the returns of weights have been heretofore accepted in like manner by the carriers as *bona fide* and correct.

The price paid for grain by a purchaser is frequently of itself sufficient evidence of the existence of some concession or advantage in the rates of freight. A dealer who observes his competitor purchasing cereals at prices which he cannot afford to pay, in view of the market at the point of delivery and the expense of transportation, immediately infers that the rates are being manipulated, and the inference is strengthened if the fact is observed that such shipments usually follow some particular line. An effort immediately follows on the part of other dealers to participate in like advantages, and no stone is left unturned to accomplish this result.

Upon the breaking down of a car loaded from a private warehouse and shipped on the Grand Trunk Line it was discovered that the car was carrying 15,000 pounds of grain in excess of the weight which had been furnished

for billing. A general system of weighing of cars from private elevators was entered upon by that company. A few instances of the results are given, as follows:

Car number.	Billing weight.	Actual weight.
2737, N. D.	30,000	38,200
3033, M. C.	34,000	43,150
2777, G. T.	28,000	36,350
9791, N. D.	28,000	36,200
9700, C. Ex.	28,000	36,250
9720, C. Ex.	28,000	36,350
10353, G. T.	30,000	36,050
2140, N. D.	26,000	33,200
3743, N. D.	34,000	40,250

The Chicago & Grand Trunk Railway Company has recently organized a new system for the transfer of grain to its cars at Chicago and vicinity, embracing an accurate weighing of the grain, for which the board of trade has formally expressed its thanks to the company on behalf of the grain interests of that city.

The cars weighed as above stated were consigned to Lynn, Charleston, South Framingham, Lawrence, Lowell, Methuen and other local points in Massachusetts, Rhode Island, New Hampshire and Connecticut. Car load consignments of grain to interior points in the Eastern States are not subject to any examination or correction as to weight at the point of delivery. Grain shipments to New York, Boston and other seaports are usually delivered at elevators, where the contents of the cars are separately weighed; but facilities for weighing are not found and could not reasonably be provided at the smaller cities and towns, where a vast amount of this grain naturally goes. The shipments as originally billed are delivered without examination or correction. The grain is usually sold at a named price, delivered, and drafts are drawn for the actual amount, deducting the freight upon the tonnage as way billed. In this way the shipper gets the benefit of the underbilling, which may amount to fifty or sixty dollars per car.

Another course of dealing, in which underbilling has been largely resorted to, is shown in the following illustration: the contents of car No. 10704 (containing middlings) from the Wisconsin Division of the Chicago & Northwestern Railroad were sold on the floor of the Chicago Board of Trade in February last. This car had been billed as containing 21,600 pounds, freight prepaid. When the middlings were transferred for shipment east to a Nickel Plate car and reweighed it was found that the car contained 45,500 pounds. This car was weighed a second time with the same result. It had been underbilled 23,900 pounds. In that transaction the miller saved 7½ cents per cwt. freight on 28,900 pounds to Chicago. If the middlings had been loaded into a "line" car and gone through without transfer he would have saved \$84 freight on the car load.

The evidence shows that during the past season a large amount of grain has been loaded at interior points in the Western States and gone through various junction points south and west of Chicago, without transfer, to the East.

The shipments are made from small country stations, where no facilities for weighing the grain exist, but where local buyers have store houses or country elevators, and their weights have been accepted by the carriers in reliance upon their good faith. It is a custom among railroads to seal cars for long distance shipments, keeping a record at junction points of the condition of the seals—a road upon which a seal is unbroken not being regarded as liable on damage claims, unless the seal remains intact throughout the trip, in which case the loss is apportioned. In many cases of underbilling the initial railroad company has no doubt been cognizant of the fact that the weights were not full; soliciting agents of the through lines have very likely been in part responsible; while other cases no doubt exist in which the carrier was entirely innocent of all complicity in the transaction. In many instances, however, carelessness at least on the part of the local agent must have existed; and negligence on the part of the carriers in failing to weigh at the first track scale may also be claimed.

The result of all this has been exceedingly disastrous to dealers endeavoring to do a like business in a legitimate way. Not only the Chicago Board of Trade, but similar organizations in several other cities have asked for the passage of a law which should make the fraudulent shipper criminally responsible for his conduct.

Other methods of evasion of the Law have also been attempted. A highly reputable merchant testified that he had been approached with a suggestion that one of his employees might be taken upon the salary list of a carrier if his firm would give its business to the road. A letter was produced, written by a shipper to another carrier, asking to be placed in some such position, saying, "I will give to you the monopoly of all business controlled by me. I believe you have a right to employ anyone to work for you, on such terms as you see fit. I would not want to be known as your agent publicly;" and suggesting that about 24 cents per cwt. would be a reasonable compensation. In these cases no bargain was made; but indications point strongly to the fact that secret inducements of that character have been resorted to. Of course every such transaction is a violation of the Act to Regulate Commerce. The pretense of an employment or agency would not for a moment protect the carrier. There is reason for the belief that a critical inspection of pay rolls, vouchers and subvouchers by the responsible officials of many roads would disclose to them a startling recklessness on the part of their subordinates.

The same may be said of an intimation which one witness stated had been made to him—that while no rebates could be given upon shipments after April 5, 1887, yet if he would furnish a list of 100 cars shipped prior to that time they could be taken up for rebating, upon new freight being received of like amount. Such a transaction, if carried into effect, would have resulted in a clear violation of the Law. Other devices and evasions have been suggested as possible, and perhaps actual. It is enough at present to say that while a certain class of men who are found among shippers as well as among representatives of the carriers find it

INTER S.

extremely difficult to deal honorably and justly with the subject of transportation, yet the enactment of the statutory prohibition of unjust discriminations has resulted in very great progress in the direction of their extermination; and in every case of such illegal favoritism in interstate commerce any party having knowledge or information of the facts is permitted to submit the matter to the consideration of the Commission or of the Federal Courts.

Recurring again to the subject of underbilling, it is found that it has not been confined to shipments of grain. Another industry which has been quite disastrously affected is the packing business. A gentleman whose observation convinced him that discrimination existed which was seriously prejudicial to the pork packers of Chicago, for the purpose of developing the facts purchased a car load of lard from an Omaha packing company. The price agreed upon was seven dollars and thirty-five cents, delivered in Chicago. It was shipped on February 18, 1888. The lard weighed 40,074 pounds. Freight was collected at twelve cents per 100 on 80,000 pounds only. The invoice to the purchaser showed the whole transaction, charging him with 40,074 pounds of lard at the agreed price, less the freight on 80,000 pounds, and the balance was drawn for at sight.

Further investigation disclosed facts as follows: at South Omaha, Nebraska, are situated several very extensive packing establishments. Their output is some 800 cars per day, distributed among the Chicago, Burlington & Quincy, Chicago & Northwestern, Chicago, Milwaukee & St. Paul, Chicago, Rock Island & Pacific, Wabash, and Missouri Pacific Railroads. Their shipments consist of dressed hogs and dressed beef, packing house products of various kinds, and everything that is produced from slaughtered animals, including fertilizers made from the offal. It has been the custom of carriers receiving carload shipments upon side tracks entering all of said establishments to accept the weights given by the shippers, without any examination or verification. The natural result of that custom is seen in the lard shipment mentioned above. The same methods have been general upon all kinds of shipments by all of said concerns upon all of said roads. The manufacturers load the cars and give to the agent of the carrier a slip, from which the way bills are made out. The carriers individually, for reasons in part indicated above, have hesitated to take any measures to revise the weights.

A peculiar difficulty in this instance is found in the fact that large quantities of ice accompany the shipments, which is required for the preservation of the property and for which no freight is charged, but which is constantly wasting and is at times replenished in transit, so that the carload weight of loaded refrigerator cars cannot be accurately taken. It further appears that in some cases cars have been sent from South Omaha directly to the Chicago warehouses of the shippers, where they were unloaded upon private side tracks and returned billed as empty; an accidental examination disclosed that they were in fact loaded with nails, lumber, salt and other supplies needed at the packing houses. In the case of lard or grease

feed or other freight, than was actually transported; and it denies that it has ever, since the publication of said schedule of rates, charged, demanded, collected or received from the persons owning the same a less compensation for the transportation of grain or feed than was specified in the said published schedule of rates or charges then in force; and it denies that it has ever given preferences to any shipper, or class of shippers, or has ever discriminated in favor of any person or persons whatever, or that it has ever done any act or thing in violation of the true intent and spirit of the said Act of Congress, approved the 4th day of February, 1887, entitled An Act to Regulate Commerce, and this defendant denies each and every allegation in said petition contained, charging or tending to charge this defendant with "underbilling," or with any variation from the established tariffs of rates in said petition mentioned.

Defendant further answering says that if "underbilling" has ever been admitted by the officers of any of the roads represented by the Erie Despatch, the admission has always been, as this defendant is informed and believes, in the form of a statement, that "underbilling" has been practiced by shippers, such statement being accompanied with the claim that the transportation companies were not parties to, but were rather the victims of the practice of "underbilling;" and this defendant denies the allegation contained in said petition that the fast freight lines and the railroads transporting grain and merchandise so "underbilled," are parties to any such practice, or have been parties to any transaction of the kind, and this defendant also denies that there was any difficulty in the way of complainant ascertaining from the Erie Despatch, and through that Association from the various companies represented in said Erie Despatch, a full history of every car ever dispatched by the said Association, over the lines of the Philadelphia & Reading Railroad, as to which there was the least suspicion of "underbilling."

And defendant avers that the practice of "underbilling" on the part of the shippers is one that the Erie Despatch has taken every reasonable precaution, in protection of the interest of the carriers, to prevent; that there being no law directly prohibiting such a practice by shippers, and the keeping of weighing facilities at all shipping stations being impracticable, it has been and is very difficult to wholly prevent it; but the Erie Despatch has, as is well known by the complainant, been ever ready and willing to investigate every case of "underbilling" brought to its knowledge, and to join with honest merchants and shippers to put down a practice which is quite as injurious to the Erie Despatch as to the honest shippers themselves, and this defendant insists that if complainant would discipline its members for such unmercantile conduct, and had been willing to join their efforts to those of the Erie Despatch to prevent such practices, this prac-

Further answering to the allegation in the petition that the complainant has been unable to give a large specification of cars, which were "underbilled" because the transportation companies were parties to such "underbilling," and, therefore, interested to keep such "underbilling" a secret, the Erie Despatch avers that the conduct of the Erie Despatch in relation to such investigations was directly the reverse of said allegations, as was well known to said complainant before the filing of the petition herein setting out correspondence on the subject. Defendant, desirous of a thorough investigation, has at great labor and expense attempted to locate the specified cars, and with the result of such investigation answers to the specifications of said petition as follows, on information and belief (setting out the cars by number respectively and the facts connected with the billing thereof):

Defendant denies complainant's charge that the weight upon the bill of lading for ascertainment of the freight charges was in any of the above specified cases willfully and knowingly false, and that said underbilling was so done for the purpose and with the intent to charge, demand, collect and receive from the persons paying the same a less compensation for the transportation thereof than was specified in the then established and published schedule of rates and charges, contrary to the true intent and meaning, and in violation of the Act to Regulate Commerce; and further denies that it was done for the purpose and with the intent to give an undue and unreasonable preference and advantage to the particular persons trading in that grain or feed.

This defendant avers that the underbilling in the cases above mentioned was the result of shippers furnishing incorrect weights and of consignees paying the carriers on weights which they knew were not correct, thus defrauding the carrier out of its correct freight charges, and that the defendant was willing and anxious to investigate and make all corrections in its power as to all of said cases or any others brought to its attention; but said complainant refused to furnish any specific information. Defendant also avers that the magnitude of its business is such that it is impracticable to weigh car load freight at all points where it is received and delivered, and must, to a considerable extent, rely upon the representations of, and accept the weights furnished by, many shippers if it has no reason to doubt them, and the defendant denies that the amount claimed to have been underbilled on any of the cars in question was in anyway the result of any understanding or agreement between this defendant or any of the members of said Erie Despatch and either shippers or consignees, or with any party or parties, interested directly or indirectly in said shipments, and avers that all such underbilling was without defendant's knowledge.

(The other defendants set up the same general defense.)

UNITED STATES SUPREME COURT.

George A. BOWMAN *et al.*, *Piffs. in Err.*,
v.

CHICAGO AND NORTHWESTERN RAIL-
WAY COMPANY.

(From Lawyers' ed. U. S. Reports, Bk. 31.)

1. Section 1553 of the Iowa Code, as amended by the Act of April 5, 1886, forbidding any common carrier to bring within that State any intoxicating liquors, from any other State or Territory, without first having the certificate therein required, is a regulation of commerce among the States and is void, as repugnant to the Constitution of the United States.
2. Such statute is not an inspection law, nor a quarantine or sanitary law, and is not a legitimate exercise of police power by the State.
3. Such statute constitutes no defense to an action brought against a railroad company for refusing to carry beer into the State of Iowa from another State.

Submitted Jan. 10, 1887. Decided March 19, 1888.

IN ERROR to the Circuit Court of the United States for the Northern District of Illinois, to review a judgment against the plaintiffs, in an action brought for a refusal to receive for transportation at Chicago and to carry certain barrels of beer into the State of Iowa. *Reversed.*

Statement by *Mr. Justice Matthews*:

This action was begun in the Circuit Court of the United States for the Northern District of Illinois, June 15, 1886, on which day the plaintiffs filed their declaration, as follows:

"George A. Bowman, a citizen of the State of Nebraska, and Fred. W. Bowman, a citizen of the State of Iowa, copartners, doing business under the name, firm and style of Bowman Bros., at the City of Marshalltown, State of Iowa, plaintiffs in this suit, by Blum & Blum, their attorneys, complain of the Chicago & Northwestern Railway Company, a citizen of the northern district of the State of Illinois, having its principal office at the City of Chicago, in said State, defendant in this suit, of a plea of trespass on the case.

"For that whereas the defendant, on May 20, 1886, and for a long time previous thereto and thereafter, was possessed of and using and operating a certain railway, and was a common carrier of goods and chattels thereon for hire, to wit, from the City of Chicago, in the State of Illinois, to the City of Council Bluffs, in the State of Iowa.

"That said defendant was at said time and is now a corporation existing under and by virtue of the laws of the State of Illinois, and that it was and is the duty of said defendant to carry from and to all stations upon its line of railway all freight tendered it for shipment.

INTER S.

"That upon May 20, 1886, defendant for said defendant for a line of railway, and directed Marshalltown, Iowa, five thousand barrels of beer, which they had procured from Chicago, to be shipped from the City of Marshalltown, in the State of Iowa, which is a station lying on defendant's line of railroad between the City of Chicago and Council Bluffs, Iowa, and there refused to receive or any part thereof, for shipment of the plaintiffs of ten thousand barrels and therefore they bring this action.

"And for that the plaintiffs, Fred. W. Bowman, is a hotel keeper, a keeper of a house, grocery, or confectionery, on the first day of July, 1884, and upon the first day thereafter, presented to the board of Marshall County, Iowa, signed by a majority of the board, a resolution, Marshall County Court stated that said Fred. W. Bowman was a good moral character, an elector, and believe said plaintiffs to be of good moral character, and each of them to be qualified to buy and sell intoxicating liquors for the purposes named in section 1553 of the Iowa Code; that at said time and on several occasions thereafter they and the said plaintiffs, filed a bond in the sum of five thousand dollars with two sureties, which was approved by the auditor of the State of Iowa, as is provided by section 1552 of the Iowa Code; that thereupon said board refused to grant such permission to the said plaintiffs, or to them jointly, to buy and sell intoxicating liquors for the purposes named in section 1553 of the Iowa Code.

"And for that whereas the defendant, on May 20, 1886, and for a long time previous thereto and thereafter, was possessed of and using and operating a certain railway and was a common carrier of goods and chattels thereon for hire, to wit, from the City of Chicago, in the State of Illinois, to the City of Council Bluffs, in the State of Iowa.

"That said defendant is a corporation existing under and by virtue of the laws of the State of Illinois; that it was the duty of said defendant to carry from and to all stations upon its line of railway all freight tendered it for shipment, and that it was the duty of said defendant to transport from the City of Chicago to said City of Council Bluffs, Iowa, five thousand barrels of beer, which hereinafter mentioned, which was requested it so to transport; that on the first day of May, 1886, the defendant, at the City of Chicago, refused to receive or any part thereof, for shipment of the plaintiffs of ten thousand barrels and therefore they bring this action.

the State of Iowa, and requested said defendant to ship said beer over its road, with which request the defendant refused to comply, and declined to ship or receive said beer or any part thereof for shipment as aforesaid, the said defendant, by its duly authorized agent, then and there stating that the said defendant Company declined to receive said goods for shipment and would continue to decline to receive said goods or any goods of like character for shipment into the State of Iowa; that on said day, to wit, May 20, 1886, and for a long time theretofore and since, the plaintiffs were unable to purchase beer in the State of Iowa; that said plaintiffs, at said time, could procure no other means of transportation for said beer than said defendant, and that, by reason of the defendant's refusal to transport said beer, plaintiffs were compelled to sell said beer in the City of Chicago at \$6.50 per barrel.

"That by reason of said refusal of said defendant to ship said beer plaintiffs have been damaged in the sum of ten thousand dollars, and therefore they bring their suit," etc.

To this declaration the defendant filed the following plea:

"Now comes the said defendant, by W. C. Goudy, its attorney, and defends the wrong and injury, when, etc., and says *actio non*, etc., because it says that the beer in said five thousand barrels in the plaintiffs' declaration and in each count thereof mentioned was, at the several times in said declaration mentioned, and still is, intoxicating liquor, within the meaning of the Statute of Iowa hereinafter set forth; that the City of Marshalltown in said declaration mentioned is within the limits of the State of Iowa; that the said City of Chicago in the said declaration mentioned is in the State of Illinois; that the said beer in said declaration mentioned was offered to this defendant to be transported from the State of Illinois to the State of Iowa.

"That heretofore, to wit, on the 5th day of April, A. D. 1886, the General Assembly of the State of Iowa passed an Act entitled 'An Act Amendatory of Chapter 143 of the Acts of the Twentieth General Assembly Relating to Intoxicating Liquors and Providing for the More Effectual Suppression of the Illegal Sale and Transportation of Intoxicating Liquors and Abatement of Nuisances,' which Act is chapter 66 of the laws of Iowa, passed at the Twenty First General Assembly of said State, and which is printed and published in the laws of Iowa for the year 1886, at page—; to which Act this defendant hereby refers and makes the same a part of this plea.

"That in and by the tenth section of said Act it was and is provided as follows, to wit:

"That section 1553 of the Code, as amended and substituted by chapter 143 of the Acts of the Twentieth General Assembly, be, and the same is hereby, repealed, and the following enacted in lieu thereof:

"Sec. 1553. If any express company, railway company, or any agent or person in the employ of any express company or railway company, or if any common carrier or any person in the employ of any common carrier, or any person, knowingly bring within this State for any person or persons or corporation, or shall knowingly transport or convey be-

tween points or from one place to another in this State for any other person or persons or corporations, any intoxicating liquors without first having been furnished a certificate from and under the seal of the county auditor of the county to which said liquor is to be transported or is consigned for transportation, or within which it is to be conveyed from place to place, certifying that the consignee or person to whom said liquor is to be transported, conveyed, or delivered is authorized to sell such intoxicating liquors in such county, such company, corporation or person so offending, and each of them, and any agent of such company, corporation or person so offending, shall, upon conviction thereof, be fined in the sum of one hundred dollars for each offense, and pay costs of prosecution; and the costs shall include a reasonable attorney fee, to be assessed by the court, which shall be paid into the county fund, and stand committed to the county jail until such fine and costs of prosecution are paid. The offense herein defined shall be held to be complete, and shall be held to have been committed in any county of the State through or to which said intoxicating liquors are transported, or in which the same is unloaded for transportation, or in which said liquors are conveyed from place to place or delivered. It shall be the duty of the several county auditors of this State to issue the certificate herein contemplated to any person having such permit; and the certificate so issued shall be truly dated when issued, and shall specify the date at which the permit expires, as shown by the county records."

"And the defendant avers that at the several times mentioned in said declaration, and each of them, the aforesaid section was the law of the State of Iowa in full force and wholly unrepealed, and that the said plaintiffs did not at any time furnish this defendant with a certificate from and under the seal of the county auditor of the County of Marshall, the same being the county in which said City of Marshalltown is located, and the county to which said beer was offered to be transported, certifying that the person for or to whom the said beer was to be transported was authorized to sell intoxicating liquors in said County of Marshall; nor was this defendant furnished with any such certificate by any person whatsoever.

"And the defendant avers that it could not receive said beer for transportation in the manner named and specified in the plaintiffs' declaration without violating the law of the State of Iowa above specified, and without subjecting itself to the penalties provided in said Act, and that this defendant assigned at the time the said beer was offered to it for transportation as aforesaid, as a reason why it could not receive the same, the aforesaid Statute of Iowa, which prohibited this defendant from receiving said beer to be transported into the State of Iowa or from transporting the said beer into the State of Iowa.

"And this the said defendant is ready to verify. Wherefore it prays judgment," etc.

To this plea the plaintiffs filed a general demurrer, and for cause of demurrer assigned that the Statute of Iowa referred to and set out in the plea was unconstitutional and void. The demurrer was overruled, and judgment

inspector—his compensation and expenses being paid by said company. Said company was a foreign fire insurance company, incorporated in and by the State of Maryland, and not licensed, and having no authority from the insurance commissioner to do business in Pennsylvania, and had not complied with the laws of Pennsylvania relating to foreign insurance companies.

"On the 19th day of February, 1887, said defendant visited the City of Pittsburgh and delivered to business men in said city his card, announcing himself as inspector, together with said company's form of premium note and its financial statement to December 31, 1886, and also a list of its official directors and committee, which card and statement lists are hereto attached and made a part of this statement of facts. He afterward visited C. F. Wells, in the City of Pittsburgh, and inquired when his policies of insurance would expire in companies in which said Wells was already insured, and requested permission to inspect the premises of said Wells, and this for the purpose of enabling said Mutual Fire Insurance Company of Baltimore, Md., to place a policy or policies of insurance thereon. Prior to the visit of defendant to the City of Pittsburgh, Messrs. Reed and Edwards received a letter from the secretary of the company, dated February 8, 1887, which letter is hereto attached and made a part of this statement of facts. Defendant was sent to the City of Pittsburgh by the said company for the purpose of inspecting buildings, ascertaining their exposures, and making diagrams of the same, with respect to their desirability as insurance risks for acceptance by said Mutual Fire Insurance Company of Baltimore, Maryland, and that he went to the said Wells and others in the City of Pittsburgh for said purpose.

"It is further admitted that on the day and year last aforesaid the defendant inspected the Franklin Glue Works, a building in the County of Allegheny, in the State of Pennsylvania, for the purpose aforesaid; that he promptly thereafter transmitted a report of said inspection to said company, which company immediately thereafter, for a premium paid to it, placed upon the said glue works said company's policy

of insurance against loss by fire; that in pursuance of said employment as inspector, on the day and year last aforesaid, defendant was engaged in the City of Pittsburgh in inspecting risks for the purpose aforesaid, and transmitted reports of his inspection to said company in Baltimore. It is further admitted that his actions were confined entirely to the said business of inspection, and that he did not negotiate or solicit within this State any contract of insurance, or pretend to effect the same, or receive or transmit any offer or offers of insurance, or receive or deliver a policy, or in any manner aid in the business of placing insurance, except as hereinbefore set forth in this statement of facts."

The following points were presented by the defendant to the court, *COLLIER, J.*:

1. "That if they find from all the evidence in this case that the only business transacted by defendant, G. B. List, for an insurance company of another State consisted in making an examination and inspection of buildings, with reference to their desirability as risks, and reporting the facts, there can be no conviction under the law, and it is their duty to acquit the defendant."

Refused. [3]

2. "That if the jury find from all the evidence in the case that the defendant did not quote rates, or solicit insurance, or receive premiums, or forward the same, or perform any of the duties of an insurance agent, but that defendant's action was confined wholly to inspecting and examining the physical and material condition of buildings, such action was not the 'aiding in the placing of insurance' prohibited by the law, and there can be no conviction."

Refused. [4]

3. "That there can be no conviction in this case, for the reason that the Act of Assembly under which the indictment is framed is obnoxious to the Constitution of the United States, being an attempt on the part of the State to regulate commerce among the several States, which is in conflict with article 1, § 8, declaring that 'Congress shall have power to regulate commerce among the several States,' also with article 4, § 2, declaring that 'Citizens of each State shall be entitled to all the privi-

of every such company or association authorized to transact business in this State, to make report to the commissioner in the month of January of each year, under oath of the president or secretary thereof, showing the entire amount of premiums of every character and description received by said company or association in this State, during the year or fraction of a year, ending with the 31st day of December preceding, whether said premiums were received in money, or in the form of notes, credits or any substitute for money, and pay into the state treasury a tax of 2 per centum upon said premiums; and the commissioner shall not have power to grant a renewal of the certificate of said company or association until the tax aforesaid is paid into the state treasury.

"Section 11. Companies to which certificates of authority are issued, as provided in the preceding section, shall from time to time certify to the commissioner the names of the agents appointed by them to solicit risks in this State; and no such agent shall transact business until he has procured from the commissioner a certificate showing that the company has complied with the requirements of this Act, and that the person named in said certificate has been duly appointed its agent."

"Section 14. That any person or persons or corporation receiving premiums or forwarding applications, or in any other way transacting business

States may exclude pestilence either to the body or mind.

Helmes v. Jennison, 39 U. S. 14 Pet. 565, (10: 393); *Gibbons v. Ogden*, and *Mayor of N. Y. v. Miln*, *supra*.

Mr. Justice Matthews delivered the opinion of the court:

It is not denied that the declaration sets out a good cause of action. It alleges that the defendant was possessed of and operated a certain railway, by means of which it became and was a common carrier of goods and chattels thereon for hire, from the City of Chicago, in the State of Illinois, to the City of Council Bluffs, in the State of Iowa, and that, as such, it was its duty to carry from and to all stations upon its line of railway all goods and merchandise that might be entrusted to it for that purpose. This general duty was imposed upon it by the common law as adopted and prevailing in the States of Illinois and Iowa. The single question, therefore, presented upon the record, is whether the statute of the State of Iowa, set out in the plea, constitutes a defense to the action.

The section of the statute referred to, being section 1553 of the Iowa Code as amended by the Act of April 5, 1886, forbids any common carrier to bring within the State of Iowa, for any person or persons or corporation, any intoxicating liquors from any other State or Territory of the United States, without first having been furnished with a certificate, under the seal of the county auditor of the county to which said liquor is to be transported or is consigned for transportation, certifying that the consignee or person to whom said liquor is to be transported, conveyed, or delivered is authorized to sell intoxicating liquors in such county.

This statutory provision does not stand alone, and must be considered with reference to the system of legislation of which it forms a part. The Act of April 5, 1886, in which it is contained, relates to the sale of intoxicating liquors within the State of Iowa, and is amendatory of chapter 143 of the Acts of the Twentieth General Assembly of that State "relating to intoxicating liquors and providing for the more effectual suppression of the illegal sale and transportation of intoxicating liquors and abatement of nuisances." The original section 1553 of the Iowa Code contains a similar provision in respect to common carriers. By

section 1533 of the Code, the manufacture and sale of intoxicating liquors, except as thereafter provided, is made unlawful; and the keeping of intoxicating liquor with intent to sell the same within the State, contrary to the provisions of the Act, is prohibited; and the intoxicating liquor so kept, together with the vessels in which it is contained, is declared to be a nuisance, to be forfeited and dealt with as thereafter provided. Section 1534 excepts from the operation of the law sales by the importer thereof of foreign intoxicating liquor, imported under the authority of the laws of the United States regarding the importation of such liquors and in accordance with such laws; provided that the said liquor at the time of said sale by said importer remains in the original casks or packages in which it was by him imported, and in quantities of not less than the quantities in which the laws of the United States require such liquors to be imported, and is sold by him in said original casks or packages and in said quantities only. The law also permits the manufacture, in the State, of liquors for the purpose of being sold, according to the provisions of the statute, to be used for mechanical, medicinal, culinary or sacramental purposes; and for these purposes only any citizen of the State, except hotel keepers, keepers of saloons, eating houses, grocery keepers, and confectioners, is permitted within the county of his residence to buy and sell intoxicating liquors, provided he shall first obtain permission from the board of supervisors of the county in which such business is conducted. It also declares the building or erection of whatever kind, or the ground itself in or upon which intoxicating liquor is manufactured or sold, or kept with intent to sell, contrary to law, to be a nuisance, and that it may be abated as such. The original provisions of the Code (section 1555) excluded from the definition of intoxicating liquors, beer, cider from apples, and wine from grapes, currants and other fruits grown in the State; but by an amendment that section was made to include alcohol, ale, wine, beer, spirituous, vinous and malt liquors, and all intoxicating liquors whatever. It thus appears that the provisions of the statute set out in the plea, prohibiting the transportation by a common carrier of intoxicating liquor from a point within any other State for delivery at a place within the State of Iowa, is intended to more effectually carry out the general policy of the law of that State with respect to the suppression of the illegal manufacture and sale of intoxicating liquor within the State as a nuisance. It may, therefore, fairly be said that the provision in question has been adopted by the State of Iowa, not expressly for the purpose of regulating commerce between its citizens and those of other States, but as subservient to the general design of protecting the health and morals of its people, and the peace and good order of the State, against the physical and moral evils resulting from the unrestricted manufacture and sale within the State of intoxicating liquors.

We have had recent occasion to consider state legislation of this character in its relation to the Constitution of the United States. In the case of *Mugler v. Kansas*, 123 U. S. 623 (31: 205), it was said: "That legislation by a

States under their Constitution and laws, by virtue of their being citizens. Special privileges enjoyed by citizens in their own State are not secured by it in other States.

"The issuing of a policy of insurance is not a transaction of commerce within the meaning of the latter of the two clauses, even though the parties be domiciled in different States, but is a simple contract of indemnity against loss."

In the case of *Ducat v. Chicago*, 77 U. S. 10 Wall. 410 [19 L. ed. 972], the foregoing case was reaffirmed and followed, and the court in the opinion said: "The power of the State to discriminate between her own domestic corporations and those of other States desirous of transacting business within her jurisdiction, is clearly established in the case we have referred to [*Paul v. Virginia*], as it also had been in the previous case of *Bank of Augusta v. Earle*, 38 U. S. 18 Pet. 519 [10 L. ed. 274]."

The opinion in the case of *Paul v. Virginia* is so conclusive and exhaustive that it is only necessary to refer to it; no other opinion could be anything more than a repetition of it.

In this court in the case of *Thorne v. Travelers Ins. Co.* 80 Pa. 28, the same doctrine was announced. We there said: "There can be no doubt of the constitutional power of the Legislature to prescribe the conditions under which a foreign corporation shall transact business in this State and the manner in which its agents shall be qualified before entering on their duties." See also, to the same effect *Germania Life Ins. Co. v. Commonwealth*, 85 Pa. 513.

It cannot be doubted that the plaintiff in error brought himself within the words as well as the spirit of the Act of 1873, although he called himself an inspector. He was certainly an agent of his company, and he certainly did take action relating to risks; and these are the words which define the prohibited acts and subject the party to the penalties of the law in question. We do not consider it necessary to prolong the discussion.

Judgment affirmed.

THE INTERSTATE COMMERCE COMMISSION.

RIDDLE, DEAN & CO.

v.

NEW YORK, LAKE ERIE & WESTERN
R. R. CO. and Pittsburgh & Lake Erie R.
R. Co.

(No. 99.)

1. In view of the fact that by an agreement between the N. Y., L. E. & W. R. R. Co., extending (over the leased line of the N. Y., P. & O. R. R. Co.) to Dayton, Ohio, and the C., C., C. & I. R. Co. extending from Dayton to Cincinnati, the N. Y., L. E. & W. Co. is considered an initial road at Cincinnati, with the right to make rates thereto and therefrom on its own responsibility, held, that Cincinnati must be treated as a point upon the line by the N. Y., L. E. & W. Co., for the purposes of a proceeding against that Company under the Act to Regulate Commerce, for unjust discrimination in furnishing coal cars.
2. It is the duty of a common carrier to provide adequate equipment for the business of its line; if in time of special pressure some one must wait, the annoyance must be distributed with all possible equality, and in this respect regular customers are not entitled to preference over occasional customers.
3. It is not necessary for a shipper to make a special contract with a common carrier, in order to entitle himself to transportation for his goods.
4. Common carriers have no right, by issuing a prohibitory tariff or otherwise, to withdraw from the transportation of any articles not dangerous to handle and which are ordinarily the subject of transportation by them; less desirable traffic must be accepted upon reasonable terms, as well as that which is more desirable.
5. When the equipment of a carrier usu-

ally applied to the transportation of a particular article (here, gondola cars for the transportation of coal) is not equal to the demand made upon it, it is its duty to appropriate other cars to such service or to obtain cars elsewhere.

6. A carrier is not justified in refusing to furnish any cars for the transportation of coal to a certain point on its line, by the fact that it could at the time make more money by using its regular coal cars on another portion of its line, where return loads were obtainable and more frequent trips could be made, thus enabling it to serve a larger number of customers with a smaller number of cars.
7. The mere fact that at a given time an article cannot be profitably shipped at the existing tariff rate is by no means conclusive evidence that such rate is unreasonable.
8. The Commission will not make an award of damages in a case where the defendant is entitled to have the amount of damages assessed by a jury.

(Heard Jan. 31, Decided Feb. 24, 1888.)

COMPLAINT charging unjust discrimination in the matter of furnishing coal cars.

Mr. J. L. Black, for complainants.

Mr. James A. Buchanan, for New York, Lake Erie & Western R. R. Co.

Mr. J. H. Reed, for Pittsburgh & Lake Erie R. R. Co.

REPORT AND OPINION OF THE COMMISSION.

Walker, Commissioner:

Riddle, Dean & Company, the complainants, of Pittsburgh, Pennsylvania, are a firm who act as sales agents for various mines, and are engaged in selling coal upon commission. Coal mined in the vicinity of Pittsburgh is sold at Cincinnati, in the State of Ohio, the usual

plan of regulations, but by as many as the legislative discretion of the several States should deem applicable to the local peculiarities of the ports within their limits; and to this it may be added that it was a subject imperatively demanding positive regulation. The absence of legislation on the subject, therefore, by Congress, was evidence of its opinion that the matter might be best regulated by local authority, and proof of its intention that local regulations might be made.

It may be argued, however, that, aside from such regulations as these, which are purely local, the inference to be drawn from the absence of legislation by Congress on the subject excludes state legislation affecting commerce with foreign Nations more strongly than that affecting commerce among the States. Laws which concern the exterior relations of the United States with other Nations and governments are general in their nature, and should proceed exclusively from the legislative authority of the Nation. The organization of our state and federal system of government is such that the people of the several States can have no relations with foreign powers in respect to commerce or any other subject, except through the Government of the United States and its laws and treaties. *Henderson v. Mayor of N. Y.* 92 U. S. 259, 273 [23: 548, 549].

The same necessity perhaps does not exist equally in reference to commerce among the States. The power conferred upon Congress to regulate commerce among the States is indeed contained in the same clause of the Constitution which confers upon it power to regulate commerce with foreign Nations. The grant is conceived in the same terms, and the two powers are undoubtedly of the same class and character and equally extensive. The actual exercise of its power over either subject is equally and necessarily exclusive of that of the States, and paramount over all the powers of the States; so that state legislation, however legitimate in its origin or object, when it conflicts with the positive legislation of Congress, or its intention reasonably implied from its silence, in respect to the subject of commerce of both kinds, must fail. And yet in respect to commerce among the States, it may be for the reason already assigned that the same inference is not always to be drawn from the absence of congressional legislation as might be in the case of commerce with foreign Nations. The question, therefore, may be still considered in each case as it arises, whether the fact that Congress has failed in the particular instance to provide by law a regulation of commerce among the States is conclusive of its intention that the subject shall be free from all positive regulation, or that, until it positively interferes, such commerce may be left to be freely dealt with by the respective States.

We have seen that in the case of the *State Freight Tax*, 82 U. S. 15 Wall. 232 [21: 146], a tax imposed by one State upon freight transported to or from another State was held to be void as a regulation of commerce among the States, on the ground that the transportation of passengers or merchandise through a State, or from one State to another, was in its nature

national, so that it should be uniform system or plan of the control of one regulating case the tax was not imposed of regulating interstate commerce to raise a revenue, and was legitimate exercise of an administrative State if it had not been exercised as a regulation of interstate commerce. Any other regulation of interstate commerce applied as the tax was in that equally within the rule of its State has not power to tax freighters passing through it, or to or into another State, much less the power directly to regulate interstate commerce, or to forbid it altogether. In the case of the law of Iowa operating on the sale of foreign merchandise sought to be brought into its limits, there could be no doubt that it would be a regulation of interstate commerce among the States and repugnant to the Constitution of the United States. However, it applies only to one of a particular kind, and its production into the State upon interstate commerce. It remains for us to consider the grounds are sufficient to justify the rule from the rule which would otherwise exist.

It may be material also to mention that Congress had in the general subject of interstate commerce means of railroads prior to the transaction on which the present case is based. Section 5358 of the Revised Statutes provides that "Every railroad in the United States whose road is owned by its successors and assigns, is authorized to carry upon and over its bridges, and ferries, all passenger and government supplies, mails, freight on their way from any one State, and to receive compensation for and to connect with roads of other States as to form continuous lines for the transportation of the same to the place of destination." In the case of *Railroad Company v. United States*, 86 U. S. 19 Wall. 584, [22: 1] then constituting a part of the Act of June 15, 1866, was considered in this Act and the Act of July 1, 1866, authorizing the construction of the Mississippi River, the court said that the Act was passed under the power of Congress to regulate commerce among the States, and were designed to regulate interstate commerce upon transportation between the States which had previously existed as a creation of such trammels and to facilitate railway transportation of the construction of bridgeable waters of the Mississippi intended to reach trammel state enactments or by existing laws. * * * The power to regulate among the several States was exercised in order to secure equal in commercial intercourse and to regulate state legislation."

Congress had also legislated on the transportation of passenger and freight in chapter 6, title 4

Statutes; sections 4252 to 4289, inclusive, having reference, however, mainly to transportation in vessels by water. But sections 4278 and 4279 relate also to the transportation of nitro-glycerine and other similar explosive substances by land or water, and either as a matter of commerce with foreign countries or among the several States. Section 4280 provides that "The two preceding sections shall now be so construed as to prevent any State, Territory, district, city or town within the United States from regulating or from prohibiting the traffic in or transportation of those substances between persons or places lying or being within their respective territorial limits, or from prohibiting the introduction thereof into such limits for sale, use or consumption therein."

So far as these regulations made by Congress extend they are certainly indications of its intention that the transportation of commodities between the States shall be free, except where it is positively restricted by Congress itself, or by the States in particular cases by the express permission of Congress. On this point the language of this court in the case of *Mobile County v. Kimball*, 102 U. S. 691, 697 [26: 238, 289], is applicable. Repeating and expanding the idea expressed in the opinion in the case of *Cooley v. Port Wardens*, 53 U. S. 12 How. 299 [13: 996], this court said: "The subjects, indeed, upon which Congress can act under this power are of infinite variety, requiring for their successful management different plans or modes of treatment. Some of them are national in their character, and admit and require uniformity of regulation, affecting alike all the States; others are local, or are mere aids to commerce, and can only be properly regulated by provisions adapted to their special circumstances and localities. In the former class may be mentioned all that portion of commerce with foreign countries or between the States which consists in the transportation, purchase, sale and exchange of commodities. Here there can of necessity be only one system or plan of regulations, and that Congress alone can prescribe. Its non-action in such cases with respect to any particular commodity or mode of transportation is a declaration of its purpose that the commerce in that commodity, or by that means of transportation, shall be free. There would, otherwise, be no security against conflicting regulations of different States, each discriminating in favor of its own products and against the products of citizens of other States. And it is a matter of public history that the object of vesting in Congress the power to regulate commerce with foreign Nations and among the States was to insure uniformity of regulation against conflicting and discriminating state legislation." Also 102 U. S. 702 [26: 241]: "Commerce with foreign countries and among the States, strictly considered, consists in intercourse and traffic, including in these terms navigation and the transportation and transit of persons and property, as well as the purchase, sale and exchange of commodities. For the regulation of commerce as thus defined, there can be only one system of rules, applicable alike to the whole country; and the authority which can

act for the whole country can alone adopt such a system. Action upon it by separate States is not, therefore, permissible."

The principle thus announced has a more obvious application to the circumstances of such a case as the present, when it is considered that the law of the State of Iowa under consideration, while it professes to regulate the conduct of carriers engaged in transportation within the limits of that State, nevertheless materially affects, if allowed to operate, the conduct of such carriers, both as respects their rights and obligations, in every other State into or through which they pass in the prosecution of their business of interstate transportation. In the present case, the defendant is sued as a common carrier in the State of Illinois, and the breach of duty alleged against it is a violation of the law of that State in refusing to receive and transport goods which, as a common carrier, by that law, it was bound to accept and carry. It interposes as a defense a law of the State of Iowa, which forbids the delivery of such goods within that State. Has the law of Iowa any extraterritorial force which does not belong to the law of the State of Illinois? If the law of Iowa forbids the delivery, and the law of Illinois requires the transportation, which of the two shall prevail? How can the former make void the latter? In view of this necessary operation of the law of Iowa, if it be valid, the language of this court in the case of *Hall v. DeCuir*, 95 U. S. 485, 488 [24: 547, 548], is exactly in point. It was there said: "But we think it may safely be said that state legislation, which seeks to impose a direct burden upon interstate commerce, or to interfere directly with its freedom, does encroach upon the exclusive power of Congress. The statute now under consideration, in our opinion, occupies that position. It does not act upon the business through the local instruments to be employed after coming within the State, but directly upon the business as it comes into the State from without or goes out from within. While it purports only to control the carrier when engaged within the State, it must necessarily influence his conduct to some extent in the management of his business throughout his entire voyage. His disposition of passengers taken up and put down within the State, or taken up within to be carried without, cannot but affect in a greater or less degree those taken up without and brought within, and sometimes those taken up within and put down without. A passenger in the cabin set apart for the use of whites without the State must, when the boat comes within, share the accommodations of that cabin with such colored persons as may come on board afterwards, if the law is enforced. It was to meet just such a case that the commercial clause in the Constitution was adopted. The River Mississippi passes through or along the borders of ten different States, and its tributaries reach many more. The commerce upon these waters is immense, and its regulation clearly a matter of national concern. If each State was at liberty to regulate the conduct of carriers while within its jurisdiction, the confusion likely to follow could not but be productive of great inconvenience and unnecessary hardship.

Each State could provide for its own passengers and regulate the transportation of its own freight, regardless of the interests of others. Nay, more, it could prescribe rules by which the carrier must be governed within the State, in respect to passengers and property brought from without. On one side, of the river or its tributaries he might be required to observe one set of rules, and on the other another. Commerce cannot flourish in the midst of such embarrassments. No carrier of passengers can conduct his business with satisfaction to himself, or comfort to those employing him, if on one side of a state line his passengers, both white and colored, must be permitted to occupy the same cabin, and on the other be kept separate. Uniformity in the regulations by which he is to be governed from one end to the other of his route is a necessity in his business, and to secure it Congress, which is untrammelled by state lines, has been vested with the exclusive legislative power of determining what such regulations shall be."

It is impossible to justify this Statute of Iowa by classifying it as an inspection law. The right of the States to pass inspection laws is expressly recognized in article I, § 10, of the Constitution, in the clause declaring that "No State shall, without the consent of Congress, lay any imposts or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws. * * * And all such laws shall be subject to the revision and control of the Congress." The nature and character of the inspection laws of the States, contemplated by this provision of the Constitution, were very fully exhibited in the case of *Turner v. Maryland*, 107 U. S. 38 [27:370]. "The object of inspection laws," said Chief Justice Marshall in *Gibbons v. Ogden*, 23 U. S. 9 Wheat. 1, 208 [6: 23, 71], "is to improve the quality of articles produced by the labor of a country; to fit them for exportation or, it may be, for domestic use. They act upon the subject, before it becomes an article of foreign commerce, or of commerce among the States, and prepare it for that purpose." They are confined to such particulars as, in the estimation of the Legislature and according to the customs of trade, are deemed necessary to fit the inspected article for the market, by giving to the purchaser public assurance that the article is in that condition, and of that quality, which makes it merchantable and fit for use or consumption. They are not founded on the idea that the things, in respect to which inspection is required, are dangerous or noxious in themselves. As was said in *Turner v. Maryland*, 107 U. S. 38, 55 [27: 370, 376]. "Recognized elements of inspection laws have always been quality of the article, form, capacity, dimensions, and weight of package, mode of putting up, and marking and branding of various kinds, all these matters being supervised by a public officer having authority to pass or not pass the article as lawful merchandise, as it did or did not answer the prescribed requirements. It has never been regarded as necessary, and it is manifestly not necessary, that all of these elements should coexist in order to make a valid inspection law. Quality alone may be the subject of inspection, without other requirement, or the inspection may

be made to extend to all of the above matters." It has never been regarded as within the legitimate scope of inspection laws to forbid trade in respect to any known article of commerce, irrespective of its condition and quality, merely on account of its intrinsic nature and the injurious consequences of its use or abuse.

For similar reasons the Statute of Iowa under consideration cannot be regarded as a regulation of quarantine or a sanitary provision for the purpose of protecting the physical health of the community, or a law to prevent the introduction into the State of disease, contagious, infectious or otherwise. Doubtless the States have power to provide by law suitable measures to prevent the introduction into the States of articles of trade, which, on account of their existing condition, would bring in and spread disease, pestilence, and death, such as rags or other substances infected with the germs of yellow fever or the virus of small-pox, or cattle or meat or other provisions that are diseased or decayed, or otherwise, from their condition and quality, unfit for human use or consumption. Such articles are not merchantable; they are not legitimate subjects of trade and commerce. They may be rightly outlawed as intrinsically and directly the immediate sources and causes of destruction to human health and life. The self protecting power of each State, therefore, may be rightfully exerted against their introduction, and such exercises of power cannot be considered regulations of commerce prohibited by the Constitution. Upon this point, the observations of Mr. Justice Catron in *the License Cases*, 46 U. S. 5 How. 504, 599 [12: 256, 299] are very much to the point. Speaking of the police power, as reserved to the States, and its relation to the power granted to Congress over commerce, he said: "The assumption is that the police power was not touched by the Constitution, but left to the States, as the Constitution found it. This is admitted; and whenever a thing, from character or condition, is of a description to be regulated by that power in the State, then the regulation may be made by the State, and Congress cannot interfere. But this must always depend on facts subject to legal ascertainment, so that the injured may have redress. And the fact must find its support in this: whether the prohibited article belongs to, and is subject to be regulated as a part of, foreign commerce, or of commerce among the States. If, from its nature, it does not belong to commerce, or if its condition, from putrescence or other cause, is such, when it is about to enter the State, that it no longer belongs to commerce, or in other words is not a commercial article, then the state power may exclude its introduction. And as an incident to this power, a State may use means to ascertain the fact. And here is the limit between the sovereign power of the State and the federal power. That is to say, that which does not belong to commerce is within the jurisdiction of the police power of the State; and that which does belong to commerce is within the jurisdiction of the United States. And to this limit must all the general views come, as I suppose, that were suggested in the reasoning of this court in the cases of *Gibbons v. Ogden*, *Brown v. Maryland*,

and *New York v. Miln*. What, then, is the assumption of the state court? Undoubtedly, in effect, that the State had the power to declare what should be an article of lawful commerce in the particular State; and having declared that ardent spirits and wines were deleterious to morals and health, they ceased to be commercial commodities there, and that then the police power attached, and consequently the powers of Congress could not interfere. The exclusive state power is made to rest, not on the fact of the state or condition of the article, nor that it is properly usually passing by sale from hand to hand, but on the declaration found in the state laws, and asserted as the state policy, that it shall be excluded from commerce. And by this means the sovereign jurisdiction in the State is attempted to be created in a case where it did not previously exist. If this be the true construction of the constitutional provision, then the paramount power of Congress to regulate commerce is subject to a very material limitation: for it takes from Congress, and leaves with the States, the power to determine the commodities, or articles of property, which are the subjects of lawful commerce. Congress may regulate, but the States determine what shall or shall not be regulated. Upon this theory the power to regulate commerce, instead of being paramount over the subject, would become subordinate to the state police power; for it is obvious that the power to determine the articles which may be the subjects of commerce, and thus to circumscribe its scope and operation, is, in effect, the controlling one. The police power would not only be a formidable rival, but, in a struggle, must necessarily triumph over the commercial power, as the power to regulate is dependent upon the power to fix and determine upon the subjects to be regulated. The same process of legislation and reasoning adopted by the State and its courts could bring within the police power any article of consumption that a State might wish to exclude, whether it belonged to that which was drank, or to food and clothing; and with nearly equal claims to propriety, as malt liquors and the produce of fruits other than grapes stand on no higher ground than the light wines of this and other countries, excluded, in effect, by the law as it now stands. And it would only be another step to regulate real or supposed extravagance in food and clothing."

This question was considered in the case of *Railroad Company v. Husen*, 95 U. S. 465 [24: 527], in which this court declared an Act of the Legislature of Missouri, which prohibited driving or conveying any Texas, Mexican or Indian cattle into the State, between the first day of March and the first day of November in each year, to be in conflict with the constitutional provision investing Congress with power to regulate commerce among the several States, holding that such a statute was more than a quarantine regulation, and not a legitimate exercise of the police power of the State. In that case it was said, p. 472 [530]. "While we unhesitatingly admit that a State may pass sanitary laws, and laws for the protection of life, liberty, health, or property within its borders; while it may prevent persons and animals suffering under

contagious or infectious diseases, or convicts, etc., from entering the State; while for the purpose of self protection it may establish quarantine and reasonable inspection laws, it may not interfere with transportation into or through the State, beyond what is absolutely necessary for its self protection. It may not, under the cover of exerting its police powers, substantially prohibit or burden either foreign or interstate commerce. * * * The reach of the statute was far beyond its professed object, and far into the realm which is within the exclusive jurisdiction of Congress. * * * The police power of a State cannot obstruct foreign commerce or interstate commerce beyond the necessity for its exercise; and, under color of it, objects not within its scope cannot be secured at the expense of the protection afforded by the Federal Constitution. And as its range sometimes comes very near to the field committed by the Constitution to Congress, it is the duty of the courts to guard vigilantly against any needless intrusion."

The same principles were declared in *Henderson v. Mayor of New York*, 92 U. S. 259 [23: 543], and *Chy Lung v. Freeman*, 92 U. S. 275 [23: 550]. In the latter case, speaking of the right of the State to protect itself from the introduction of paupers and convicted criminals from abroad, the court said: "Such a right can only arise from a vital necessity for its exercise, and cannot be carried beyond the scope of that necessity." "It may also be admitted," as was said in the case of *Railroad Company v. Husen*, 95 U. S. 465, 471 [24: 527, 530], "that the police power of a State justifies the adoption of precautionary measures against social evils. Under it a State may legislate to prevent the spread of crime or pauperism, or disturbance of the peace. It may exclude from its limits convicts, paupers, idiots, and lunatics, and persons likely to become a public charge, as well as persons afflicted by contagious or infectious diseases; a right founded, as intimated in the *Passenger Cases*, 48 U. S. 7 How. 283 [12: 703], by Mr. Justice Grier, in the sacred law of self-defense. Vide, 8 Sawy. 144. The same principle, it may also be conceded, would justify the exclusion of property dangerous to the property of citizens of the State; for example, animals having contagious or infectious diseases. All these exertions of power are in immediate connection with the protection of persons and property against noxious acts of other persons, or such a use of property as is injurious to the property of others. They are self defensive. But whatever may be the nature and reach of the police power of a State, it cannot be exercised over a subject confided exclusively to congress by the Federal Constitution. It cannot invade the domain of the National Government. * * * Neither the unlimited powers of a State to tax, nor any of its large police powers, can be exercised to such an extent as to work a practical assumption of the powers properly conferred upon Congress by the Constitution."

It is conceded, as we have already shown, that for the purposes of its policy a State has legislative control, exclusive of Congress, within its territory of all persons, things, and transactions of strictly internal concern. For the

purpose of protecting its people against the evils of intemperance it has the right to prohibit the manufacture within its limits of intoxicating liquors; it may also prohibit all domestic commerce in them between its own inhabitants, whether the articles are introduced from other States or from foreign countries; it may punish those who sell them in violation of its laws; it may adopt any measures tending, even indirectly and remotely, to make the policy effective until it passes the line of power delegated to Congress under the Constitution. It cannot, without the consent of Congress, expressed or implied, regulate commerce between its people and those of the other States of the Union in order to effect its end, however desirable such a regulation might be.

The Statute of Iowa under consideration falls within this prohibition. It is not an inspection law; it is not a quarantine or sanitary law. It is essentially a regulation of commerce among the States within any definition heretofore given to that term, or which can be given; and although its motive and purpose are to perfect the policy of the State of Iowa in protecting its citizens against the evils of intemperance, it is none the less on that account a regulation of commerce. If it had extended its provisions so as to prohibit the introduction into the State from foreign countries of all importations of intoxicating liquors produced abroad, no one would doubt the nature of the provision as a regulation of foreign commerce. Its nature is not changed by its application to commerce among the States.

Can it be supposed that by omitting any express declarations on the subject, Congress has intended to submit to the several States the decision of the question in each locality of what shall and what shall not be articles of traffic in the interstate commerce of the country? If so, it has left to each State, according to its own caprice and arbitrary will, to discriminate for or against every article grown, produced, manufactured, or sold in any State and sought to be introduced as an article of commerce into any other. If the State of Iowa may prohibit the importation of intoxicating liquors from all other States, it may also include tobacco, or any other article, the use or abuse of which it may deem deleterious. It may not choose, even, to be governed by considerations growing out of the health, comfort, or peace of the community. Its policy may be directed to other ends. It may choose to establish a system directed to the promotion and benefit of its own agriculture, manufactures or arts of any description, and prevent the introduction and sale within its limits of any or of all articles that it may select as coming into competition with those which it seeks to protect. The police power of the State would extend to such cases, as well as to those in which it was sought to legislate in behalf of the health, peace, and morals of the people. In view of the commercial anarchy and confusion that would result from the diverse exertions of power by the several States of the Union, it cannot be supposed that the Constitution or Congress have intended to limit the freedom of commercial intercourse among the people of the several States. "It cannot be too strongly insisted upon," said this court in *Wabash*,

INTER 8.

St. L. & P. R. Co. v. Illinois, 118 U. S. 557, 573 [30: 244, 249]. "that the right of continuous transportation from one end of the country to the other is essential in modern times to that freedom of commerce from the restraints which the States might choose to impose upon it, that the commerce clause was intended to secure. This clause, giving to Congress the power to regulate commerce among the States and with foreign nations, as this court has said before, was among the most important of the subjects which prompted the formation of the Constitution. *Cook v. Pa.* 37 U. S. 566, 574 [24: 1015, 1018]; *Brown v. Md.* 25 U. S. 12 Wheat. 419, 446 [6: 678, 688]. And it would be a very feeble and almost useless provision, but poorly adapted to secure the entire freedom of commerce among the States, which was deemed essential to a more perfect union by the framers of the Constitution, if, at every stage of the transportation of goods and chattels through the country, the State, within whose limits a part of the transportation must be done, could impose regulations concerning the price, compensation, or taxation, or any other restrictive regulation interfering with and seriously embarrassing this commerce."

In *Brown v. Houston*, 114 U. S. 623, 630 [29: 257, 260], it was declared that the power of Congress over commerce among the States "is certainly so far exclusive that no State has power to make any law or regulation which will affect the free and unrestrained intercourse and trade between the States, as Congress has left it, or which will impose any discriminating burden or tax upon the citizens or products of other States, coming or brought within its jurisdiction. All laws and regulations are restrictive of natural freedom to some extent; and, where no regulation is imposed by the government which has the exclusive power to regulate, it is an indication of its will that the matter shall be left free. So long as Congress does not pass any law to regulate commerce among the several States, it thereby indicates its will that that commerce shall be free and untrammelled; and any regulation of the subject by the States is repugnant to such freedom. This has frequently been laid down as law in the judgments of this court."

The present case is concluded, we think, by the judgment of this court in *Walling v. Michigan*, 116 U. S. 446 [29: 691]. In that case an Act of the Legislature of the State of Michigan, which imposed a tax upon persons who, not residing or having their principal place of business within the State, engaged there in the business of selling or soliciting the sale of intoxicating liquors to be shipped into the State from places without it, but did not impose a similar tax upon persons selling or soliciting the sale of intoxicating liquors manufactured in the State, was declared to be void on the ground that it was a regulation in restraint of commerce repugnant to the Constitution of the United States. In that case it was said, p. 459 [695]: "It is suggested by the learned judge, who delivered the opinion of the Supreme Court of Michigan in this case, that the tax imposed by the Act of 1875 is an exercise, by the Legislature of Michigan, of the police power of the State for the discouragement of the use of intoxicating liquors, and the preser-

vation of the health and morals of the people. This would be a perfect justification of the Act, if it did not discriminate against the citizens and products of other States as a matter of commerce between the States, and thus usurp one of the prerogatives of the National Legislature. The police power cannot be set up to control the inhibitions of the Federal Constitution, or the powers of the United States Government created thereby."

It would be error to lay any stress on the fact that the statute passed upon in that case made a discrimination between citizens and products of other States in favor of those of the State of Michigan, notwithstanding the intimation on that point in the foregoing extract from the opinion. This appears plainly from what was decided in the case of *Robbins v. Shelby County Taxing District*, 120 U. S. 489 [30: 694]. It was there said, p. 497 [697]: "It is strongly urged, as if it were a material point in the case, that no discrimination is made between domestic and foreign drummers—those of Tennessee and those of other States; that all are taxed alike. But that does not meet the difficulty. Interstate commerce cannot be taxed at all, even though the same amount of tax should be laid on domestic commerce, or that which is carried on solely within the State. This was decided in the case of the *State Freight Tax*, 82 U. S. 15 Wall. 282 [21: 146.]"

In answer to another suggestion in the opinion of the Supreme Court of Michigan, that the regulation contained in the Act did not amount to a prohibition, this court said: "We are unable to adopt the views of that learned tribunal as here expressed. It is the power to regulate commerce among the several States which the Constitution in terms confers upon Congress; and this power, as we have seen, is exclusive in cases like the present, where the subject of regulation is one that admits and requires uniformity, and where any regulation affects the freedom of traffic among the States."

The relation of the police powers of the State to the powers granted to Congress by the Constitution over foreign and interstate commerce, was stated by this court in the opinion in the case of *Robbins v. Shelby Taxing District*, 120 U. S. 489, 493 [30: 694, 696], as follows: "It is also an established principle, as already indicated, that the only way in which commerce between the States can be legitimately affected by state laws is when, by virtue of its police power, and its jurisdiction over persons and property within its limits, a State provides for the security of the lives, limbs, health and comfort of persons, and the protection of property; or when it does those things which may otherwise incidentally affect commerce, such as the establishment and regulation of highways, canals, railroads, wharves, ferries and other commercial facilities; the passage of inspection laws to secure the due quality and measure of products and commodities; the passage of laws to regulate or restrict the sale of articles deemed injurious to the health or morals of the community; the imposition of taxes upon persons residing within the State or belonging to its population, and upon avocations and employments pursued therein, not directly connected with foreign or interstate commerce, or with some other employment or business

exercised under authority of the Constitution and laws of the United States; and the imposition of taxes upon all property within the State mingled with and forming part of the great mass of property therein. But in making such internal regulations the State cannot impose taxes upon persons passing through the State, or coming into it merely for a temporary purpose, especially if connected with interstate or foreign commerce; nor can it impose such taxes upon property imported into the State from abroad or from another State, and not yet become a part of the common mass of property therein; and no discrimination can be made by any such regulations adversely to the persons or property of other States; and no regulations can be made directly affecting interstate commerce. Any taxation or regulation of the latter character would be an unauthorized interference with the power given to Congress over the subject. * * * In a word, it may be said that in the matter of interstate commerce the United States are but one country, and are and must be subject to one system of regulations, and not to a multitude of systems. The doctrine of the freedom of that commerce, except as regulated by Congress, is so firmly established that it is unnecessary to enlarge further upon this subject."

The section of the Statute of Iowa, the validity of which is drawn in question in this case, does not fall within this enumeration of legitimate exertions of the police power. It is not an exercise of the jurisdiction of the State over persons and property within its limits. On the contrary, it is an attempt to exert that jurisdiction over persons and property within the limits of other States. It seeks to prohibit and stop their passage and importation into its own limits, and is designed as a regulation for the conduct of commerce before the merchandise is brought to its border. It is not one of those local regulations designed to aid and facilitate commerce; it is not an inspection law to secure the due quality and measure of a commodity; it is not a law to regulate or restrict the sale of an article deemed injurious to the health and morals of the community; it is not a regulation confined to the purely internal and domestic commerce of the State; it is not a restriction which only operates upon property after it has become mingled with and forms part of the mass of the property within the State. It is, on the other hand, a regulation directly affecting interstate commerce in an essential and vital point. If authorized, in the present instance, upon the grounds and motives of the policy which have dictated it, the same reason would justify any and every other state regulation of interstate commerce upon any grounds and reasons which might prompt in particular cases their adoption. It is, therefore, a regulation of that character which constitutes an unauthorized interference with the power given to Congress over the subject. If not in contravention of any positive legislation by Congress, it is nevertheless a breach and interruption of that liberty of trade which Congress ordains as the national policy, by willing that it shall be free from restrictive regulations.

It may be said, however, that the right of the State to restrict or prohibit sales of intori-

inspector—his compensation and expense being paid by said company. Said company was a foreign fire insurance company, incorporated in and by the State of Maryland, and not licensed, and having no authority from the insurance commissioner to do business in Pennsylvania, and had not complied with the laws of Pennsylvania relating to foreign insurance companies.

"On the 13th day of February, 1897, said defendant visited the City of Pittsburgh and delivered to business men in said city his card, announcing himself as inspector, together with said company's form of premium note and its financial statement to December 31, 1896, and also a list of its official directors and committee, which card and statement lists are hereto attached and made a part of this statement of facts. He afterward visited C. F. Wells, in the City of Pittsburgh, and inquired when his policies of insurance would expire in companies in which said Wells was already insured, and requested permission to inspect the premises of said Wells, and this for the purpose of enabling said Mutual Fire Insurance Company of Baltimore, Md., to place a policy or policies of insurance thereon. Prior to the visit of defendant to the City of Pittsburgh, Messrs. Reed and Edwards received a letter from the secretary of the company, dated February 8, 1897, which letter is hereto attached and made a part of this statement of facts. Defendant was sent to the City of Pittsburgh by the said company for the purpose of inspecting buildings, ascertaining their exposures, and making diagrams of the same, with respect to their desirability as insurance risks for acceptance by said Mutual Fire Insurance Company of Baltimore, Maryland, and that he went to the said Wells and others in the City of Pittsburgh for said purpose.

"It is further admitted that on the day and year last aforesaid the defendant inspected the Franklin Glue Works, a building in the County of Allegheny, in the State of Pennsylvania, for the purpose aforesaid; that he promptly thereafter transmitted a report of said inspection to said company, which company immediately thereafter, for a premium paid to it, placed upon the said glue works said company's policy

of insurance against loss by fire; that in pursuance of said employment as inspector, on the day and year last aforesaid, defendant was engaged in the City of Pittsburgh in inspecting risks for the purpose aforesaid, and transmitted reports of his inspection to said company in Baltimore. It is further admitted that his actions were confined entirely to the said business of inspection, and that he did not negotiate or solicit within this State any contract of insurance, or pretend to effect the same, or receive or transmit any offer or offers of insurance, or receive or deliver a policy, or in any manner aid in the business of placing insurance, except as hereinbefore set forth in this statement of facts."

The following points were presented by the defendant to the court, COLLIER, J.:

1. "That if they find from all the evidence in this case that the only business transacted by defendant, G. B. List, for an insurance company of another State consisted in making an examination and inspection of buildings, with reference to their desirability as risks, and reporting the facts, there can be no conviction under the law, and it is their duty to acquit the defendant."

Refused. [3]

2. "That if the jury find from all the evidence in the case that the defendant did not quote rates, or solicit insurance, or receive premiums, or forward the same, or perform any of the duties of an insurance agent, but that defendant's action was confined wholly to inspecting and examining the physical and material condition of buildings, such action was not the 'aiding in the placing of insurance' prohibited by the law, and there can be no conviction."

Refused. [4]

3. "That there can be no conviction in this case, for the reason that the Act of Assembly under which the indictment is framed is obnoxious to the Constitution of the United States, being an attempt on the part of the State to regulate commerce among the several States, which is in conflict with article 1, § 8, declaring that 'Congress shall have power to regulate commerce among the several States,' also with article 4, § 2, declaring that 'Citizens of each State shall be entitled to all the privi-

of every such company or association authorized to transact business in this State, to make report to the commissioner in the month of January of each year, under oath of the president or secretary thereof, showing the entire amount of premiums of every character and description received by said company or association in this State, during the year or fraction of a year, ending with the 31st day of December preceding, whether said premiums were received in money, or in the form of notes, credits or any substitute for money, and pay into the state treasury a tax of 3 per centum upon said premiums; and the commissioner shall not have power to grant a renewal of the certificate of said company or association until the tax aforesaid is paid into the state treasury.

"Section 11. Companies to which certificates of authority are issued, as provided in the preceding section, shall from time to time certify to the commissioner the names of the agents appointed by them to solicit risks in this State; and no such agent shall transact business until he has procured from the commissioner a certificate showing that the company has complied with the requirements of this Act, and that the person named in said certificate has been duly appointed its agent."

"Section 14. That any person or persons or corporation receiving premiums or forwarding applications, or in any other way transacting business

[20: 600]— run upon the acknowledged right of the States of the Union to control their purely internal affairs, and, in so doing, to protect the health, morals and safety of their people by regulations that do not interfere with the execution of the powers of the General Government, or violate rights secured by the Constitution. The power to establish such regulations, as was said in *Gibbons v. Ogden*, 22 U. S. 9 Wheat. 1, 208 [6: 39, 71], reaches everything within the territory of a State not surrendered to the National Government." 120 U. S. 659 [31: 310] Referring to the suggestion that no government could lawfully prohibit a citizen from manufacturing for his own use, or for export or storage, any article of food or drink, not endangering or affecting the rights of others, the court said: "But by whom, or by what authority, is it to be determined whether the manufacture of particular articles of drink, either for general use or for the personal use of the maker, will injuriously affect the public? Power to determine such questions, so as to bind all, must exist somewhere, else society will be at the mercy of the few, who, regarding only their own appetites or passions, may be willing to imperil the peace and security of the many, provided only they are permitted to do as they please. Under our system that power is lodged with the legislative branch of the government. It belongs to that department to exert what are known as the police powers of the State, and to determine, primarily, what measures are appropriate or needful for the protection of the public morals, the public health, or the public safety." 120 U. S. 660, 661 [31: 310].

But it is contended that a statute forbidding the introduction of intoxicating liquors from other States does infringe rights secured by the Constitution, of the United States, and that view is sustained by the opinion and judgment in this case. The decision is placed upon the broad ground that intoxicating liquors are merchantable commodities, or known articles of commerce, and that, consequently, the Constitution, by the mere grant to Congress of the power to regulate commerce operates, in the absence of legislation, to establish unrestricted trade, among the States of the Union, in such commodities or articles. To this view we cannot assent. In *Mugler's Case* (*supra*) the court said that it could not "shut out of view the fact, within the knowledge of all, that the public health, the public morals, and the public safety may be endangered by the general use of intoxicating drinks; nor the fact, established by statistics accessible to every one, that the idleness, disorder, pauperism, and crime existing in the country are, in some degree at least, traceable to this evil." The court also said, that "If, in the judgment of the legislature [of a State] the manufacture of intoxicating liquors for the maker's own use, as a beverage, would tend to cripple, if not defeat, the effort to guard the community against the evils attending the excessive use of such liquors, it is not for the courts, upon their view as to what is best and safest for the community, to disregard the legislative deter-

mine anyone's constitutional rights or property, when it determines that the manufacture and sale of intoxicating drinks for general or individual use, as a beverage, are or may become hurtful to society, and constitute, therefore, a business in which no one may lawfully engage." 120 U. S. 662, 663 [31: 311].

In *Gibbons v. Ogden*, 22 U. S. 9 Wheat. 308, 305 [6: 71, 73], Chief Justice Marshall said that "inspection laws, quarantine laws, and health laws of every description" were component parts of that mass of legislation "not surrendered to the General Government," which "can be most advantageously exercised by the States themselves;" that such laws "are considered as flowing from the acknowledged power of a State to provide for the health of its citizens." To this doctrine the court has steadily adhered. In *Gilman v. Philadelphia*, 70 U. S. 3 Wall. 730 [18: 101], after observing that a state law, requiring an importer to pay for and take out a license before he should be permitted to sell a bale of goods imported from a foreign country, is void—*Brown v. Maryland*, 25 U. S. 19 Wheat. 419 [6: 677],—and that a state law which requiring the master of a vessel, engaged in foreign commerce, to pay a certain sum to a state officer on account of each passenger brought from a foreign country, is also void—*Passenger Cases*, 49 U. S. 7 How 288 [13: 709],—the court said: "But a State, in the exercise of its police power, may forbid spirituous liquor, imported from abroad or from another State, to be sold by retail or to be sold at all without a license; and it may visit the violation of the prohibition with such punishment as it may deem proper. Under quarantine laws, a vessel registered, or enrolled and licensed, may be stopped before entering her port of destination, or be afterwards removed and detained elsewhere for an indefinite period; and a bale of goods, upon which the duties have or have not been paid, laden with infection, may be seized under 'health laws,' and, if it cannot be purged of its poison, may be committed to the flames." In *American v. Aling*, 98 U. S. 90, 108 [20: 619, 620], it was said that "In conferring upon Congress the regulation of commerce, it was never intended to cut the States off from legislating on all subjects relating to the health, life, and safety of their citizens, though the legislation might indirectly affect the commerce of the country." In *Headral & St. J. Railroad Company v. Huss*, 95 U. S. 465, 471 [24: 537, 538], the court adjudged that a Statute of Missouri, prohibiting the introduction into that State of all Texas, Mexican or Indian cattle between May 1 and November 1 of each year, whether diseased or not, and which imposed burdensome conditions upon their transportation through the State, was void because a regulation of interstate commerce. But it was distinctly declared that the delegation to Congress of the power to regulate commerce with foreign Nations and among the States "was not a surrender of that which may properly be denominated police power," which included, the court said, the power in each State, to adopt "precautionary,

States under their Constitution and laws, by virtue of their being citizens. Special privileges enjoyed by citizens in their own State are not secured by it in other States.

"The issuing of a policy of insurance is not a transaction of commerce within the meaning of the latter of the two clauses, even though the parties be domiciled in different States, but is a simple contract of indemnity against loss."

In the case of *Ducat v. Chicago*, 77 U. S. 10 Wall. 410 [19 L. ed. 972], the foregoing case was reaffirmed and followed, and the court in the opinion said: "The power of the State to discriminate between her own domestic corporations and those of other States desirous of transacting business within her jurisdiction, is clearly established in the case we have referred to [*Paul v. Virginia*], as it also had been in the previous case of *Bank of Augusta v. Earle*, 38 U. S. 13 Pet. 519 [10 L. ed. 274]."

The opinion in the case of *Paul v. Virginia* is so conclusive and exhaustive that it is only necessary to refer to it; no other opinion could be anything more than a repetition of it.

In this court in the case of *Thorne v. Travelers Ins. Co.* 80 Pa. 28, the same doctrine was announced. We there said: "There can be no doubt of the constitutional power of the Legislature to prescribe the conditions under which a foreign corporation shall transact business in this State and the manner in which its agents shall be qualified before entering on their duties." See also, to the same effect *Germania Life Ins. Co. v. Commonwealth*, 85 Pa. 513.

It cannot be doubted that the plaintiff in error brought himself within the words as well as the spirit of the Act of 1873, although he called himself an inspector. He was certainly an agent of his company, and he certainly did take action relating to risks; and these are the words which define the prohibited acts and subject the party to the penalties of the law in question. We do not consider it necessary to prolong the discussion.

Judgment affirmed.

THE INTERSTATE COMMERCE COMMISSION.

RIDDLE, DEAN & CO.

v.

NEW YORK, LAKE ERIE & WESTERN R. R. CO. and Pittsburgh & Lake Erie R. Co.

(No. 99.)

1. In view of the fact that by an agreement between the N. Y., L. E. & W. R. R. Co., extending (over the leased line of the N. Y., P. & O. R. R. Co.) to Dayton, Ohio, and the C., C., C. & I. R. Co. extending from Dayton to Cincinnati, the N. Y., L. E. & W. Co. is considered an initial road at Cincinnati, with the right to make rates thereto and therefrom on its own responsibility, held, that Cincinnati must be treated as a point upon the line by the N. Y., L. E. & W. Co., for the purposes of a proceeding against that Company under the Act to Regulate Commerce, for unjust discrimination in furnishing coal cars.
2. It is the duty of a common carrier to provide adequate equipment for the business of its line; if in time of special pressure some one must wait, the annoyance must be distributed with all possible equality, and in this respect regular customers are not entitled to preference over occasional customers.
3. It is not necessary for a shipper to make a special contract with a common carrier, in order to entitle himself to transportation for his goods.
4. Common carriers have no right, by issuing a prohibitory tariff or otherwise, to withdraw from the transportation of any articles not dangerous to handle and which are ordinarily the subject of transportation by them; less desirable traffic must be accepted upon reasonable terms, as well as that which is more desirable.
5. When the equipment of a carrier usu-

ally applied to the transportation of a particular article (here, gondola cars for the transportation of coal) is not equal to the demand made upon it, it is its duty to appropriate other cars to such service or to obtain cars elsewhere.

6. A carrier is not justified in refusing to furnish any cars for the transportation of coal to a certain point on its line, by the fact that it could at the time make more money by using its regular coal cars on another portion of its line, where return loads were obtainable and more frequent trips could be made, thus enabling it to serve a larger number of customers with a smaller number of cars.
7. The mere fact that at a given time an article cannot be profitably shipped at the existing tariff rate is by no means conclusive evidence that such rate is unreasonable.
8. The Commission will not make an award of damages in a case where the defendant is entitled to have the amount of damages assessed by a jury.

(Heard Jan. 31, Decided Feb. 24, 1888.)

COMPLAINT charging unjust discrimination in the matter of furnishing coal cars.
Mr. J. L. Black, for complainants.
Mr. James A. Buchanan, for New York, Lake Erie & Western R. R. Co.
Mr. J. H. Reed, for Pittsburgh & Lake Erie R. R. Co.

REPORT AND OPINION OF THE COMMISSION.

Walker, Commissioner:

Riddle, Dean & Company, the complainants, of Pittsburgh, Pennsylvania, are a firm who act as sales agents for various mines, and are engaged in selling coal upon commission. Coal mined in the vicinity of Pittsburgh is sold at Cincinnati, in the State of Ohio, the usual

be, as it often is, made in reference to powers that all concede to be vital to the public safety. But it does not disprove their existence. This court said that the judicial tribunals were not to be misled by mere pretenses, and were under a solemn duty to look at the substance of things whenever it became necessary to inquire whether the Legislature had transcended the limits of its authority, and that "If, therefore, a statute purporting to have been enacted to protect the public health, the public morals, or the public safety has no real or substantial relation to those objects, or is a palpable invasion of rights secured by the fundamental law, it is the duty of the courts to so adjudge, and thereby give effect to the Constitution." 123 U. S. 661 [81: 210]. In view of these principles, the court said it was difficult to perceive any ground for the judiciary to declare that the prohibition by a State of the manufacture or sale, within her limits, of intoxicating liquors for general use there as a beverage, is not fairly adapted to the end of protecting the community against the evils which confessedly result from the excessive use of ardent spirits. *Id.* 669 [210]. In the same case the court sustained, without qualification, the authority of Kansas to declare, not only that places where such liquors were manufactured, sold, bartered or given away, or were kept for sale, barter or delivery, in violation of her statutes, should be deemed common nuisances, but to provide for the forfeiture, without compensation, of the intoxicating liquors found in such places and the property used in maintaining said nuisances.

Now, can it be possible that the framers of the Constitution intended—whether Congress chose or not to act upon the subject—to withhold from a State authority to prevent the introduction into her midst of articles or commodities, the manufacture of which, within her limits, she could prohibit, without impairing the constitutional rights of her own people? If a State may declare a place where intoxicating liquors are sold for use as a beverage to be a common nuisance, subjecting the person maintaining the same to fine and imprisonment, can her people be compelled to submit to the sale of such liquors, when brought there from another State for that purpose? This court has often declared that the most important function of government was to preserve the public health, morals, and safety; that it could not divest itself of that power, nor, by contract, limit its exercise; and that even the constitutional prohibition upon laws impairing the obligation of contracts does not restrict the power of the State to protect the health, the morals, or the safety of the community, as the one or the other may be involved in the execution of such contract. *Stone v. Miss.* 101 U. S. 814, 816 [25: 1079], *Butchers Union Co. v. Crescent City Co.* 111 U. S. 746, 751 [28: 566, 567], *N. O. Gas Co. v. La. Light Co.* 118 U. S. 650, 679 [20: 516, 521], *Mugler v. Kansas*, 123 U. S. 664 [81: 211]. Does the mere grant of the power to regulate commerce among the States invest individuals of one State with the right, even without the express sanction of Congressional legislation, to introduce among the people of another State articles which, by statute, they have declared to be deleterious to their health

and dangerous to their safety? In our opinion, these questions should be answered in the negative. It is inconceivable that the well being of any State is at the mercy of the liquor manufacturers of other States.

These views are sustained by *Walling v. Michigan*, 116 U. S. 446 [29: 691]. It was there held that a Statute of Michigan which imposed a tax upon persons who, not residing or having their principal place of business in that State, engaged there in the business of selling or soliciting the sale of intoxicating liquors to be shipped into Michigan from other States, but which did not impose a similar tax upon persons selling or soliciting the sale of intoxicating liquors manufactured in that State, was a discrimination against the products of other States, and void as a regulation in restraint of commerce. In reference to the suggestion by the state court that the statute was an exercise by the Legislature of the police power for the discouragement of the use of intoxicating liquors, and the preservation of the health and morals of the people, this court said: "This would be a perfect justification of the Act if it did not discriminate against the citizens and products of other States in a matter of commerce between the States, and thus usurp one of the prerogatives of the National Legislature." The clear implication from this language is that the state law would have been sustained if it had applied the same rule to the products of Michigan which it attempted to apply to the products of other States.

At the argument it was insisted that the contention of the plaintiffs was supported by *Brown v. Maryland*, 25 U. S. 12 Wheat. 419, 426 [8: 678, 684], where the question was whether the Legislature of a State could constitutionally require an importer of foreign articles or commodities to take out a license from the State before he should be permitted to sell a bale or package so imported. The indictment in that case charged Brown with having sold one package of foreign "dry goods" without having such a license. The court held the State regulation to be repugnant to that clause of the Constitution declaring that no State shall, without the consent of Congress, lay any imposts or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws, as well as to that clause which clothes Congress with power to regulate commerce with foreign Nations, and among the several States, and with the Indian Tribes. Among other things, it said that the right to sell articles imported from foreign countries is connected with the law permitting importation, as an inseparable incident; observing, at the close of the opinion that it supposed the principle laid down to apply equally to importations from a sister State. It is however, clear from the whole opinion that the court in that observation had reference to commerce in articles having no connection whatever with the health, morals, or safety of the people, and that it had no purpose to withdraw or qualify the explicit declaration, in *Gibbons v. Ogden*, 22 U. S. 9 Wheat. 1 [6: 20], that the health laws of the States were a component part of that mass of legislation, the power to enact which remained with the States, because never surrendered to the General Government.

In behalf of Maryland it was insisted that the constitutional prohibition of state imposts or duties upon imports ceased the instant the goods entered the country; otherwise, it was argued, the importer "may introduce articles, as gunpowder, which endanger a city, into the midst of its population; he may introduce articles which endanger the public health, and the power of self preservation is denied." To this argument *Chief Justice Marshall* replied: "The power to direct the removal of gunpowder is a branch of the police power, which unquestionably remains, and ought to remain, with the States. If the possessor stores it himself out of town, the removal cannot be a duty on imports, because it contributes nothing to the revenue. If he prefers placing it in a public magazine, it is because he stores it there, in his own opinion, more advantageously than elsewhere. We are not sure that this may not be classed among inspection laws. The removal or destruction of infectious or unsound articles is undoubtedly an exercise of that power, and forms an express exception to the prohibition we are considering. Indeed, the laws of the United States expressly recognize the health laws of a State." This, we understand to have been a distinct adjudication that the police power, so far as it involves the public health, the public morals, or the public safety, remains with the States, and is not overridden by the National Constitution.

In *Gibbons v. Ogden*, 23 U. S. 9 Wheat. 211 [6: 78], it was said by counsel that the Constitution does not confer the right of intercourse between State and State, and that such right has its source in those laws whose authority is acknowledged by civilized man throughout the world. *Chief Justice Marshall* said: "This is true. The Constitution found it an existing right, and gave to Congress the power to regulate it." In the same case he said that this power is "the power to regulate; that is, to prescribe the rule by which commerce is to be governed." p. 196 [70]. It may be said, generally, that free commercial intercourse exists among the several States, by force of the Constitution. But as, by the express terms of that instrument, the powers not delegated to the United States, nor prohibited to the States, are reserved to the States respectively, or to the people; and as, by the repeated adjudications of this court, the States have not surrendered, but have reserved, the power to protect by police regulations, the health, morals and safety of their people, Congress may not prescribe any rule to govern commerce among the States which prevents the proper and reasonable exercise of this reserved power. Even if Congress, under the power to regulate commerce, had authority to declare what shall or what shall not be subjects of commerce among the States, that power would not fairly imply authority to compel a State to admit within her limits that which, in fact is, or which, upon reasonable grounds, she may declare to be destructive of the health, morals and peace of her people. The purpose of committing to Congress the regulation of commerce was to insure equality of commercial facilities, by preventing one State from building up her own trade at the expense of sister States. But that purpose is not defeated when a State employs

appropriate means to prevent into her limits of what she and her own people from Maryland was not meant to give citizens greater rights in Iowa than have.

But if this be not a violation of the Constitution, liquors are entitled to the same treatment as the National Government's merchandise entering into commerce with the States; if Congress, under the power to regulate commerce, may, in its discretion, prohibit commerce among the States, or prohibit commerce among the States in the sale of intoxicating liquors; and if, in the exercise of that power, as the health, morals and safety of the people may be involved, Congress may, in its discretion, prohibit commerce among the States, can be overborne by the States. The former declaration would seem to show that the States are valid, even when their commercial intercourse among the States is displaced by federal legislation. Such was the doctrine in *Wilson v. Blackbird Creek*, 12 Pet. 250 [7: 414]. That the validity of an Act of the Legislature, authorizing a dam to be built across a navigable stream, in which the water flowed, and in which there was a public way in the nature of a river, was not a ground for objection, speaking by *Chief Justice Marshall*, "The Act of Assembly, by which the Legislature were authorized to construct a dam across the Delaware, up which the water flows, at some distance. The value of the land on its banks must be enhanced by the water from the marsh, and inhabitants probably imputed to produce these they do not come into collision with the powers of the General Government within those which a State. But the measure a State stops a navigable creek, and thus it is argued, posed to abridge the rights of the State, which has been accustomed to use it." The court insisted that the statute was within the power of Congress to regulate commerce with foreign Nations and among the several States, the court said that it had passed any Act which interfered with the power of Congress to regulate commerce, the object of which was to regulate state legislation over small streams into which the tide flows, and throughout the Middle and Western States we should not feel much doubt that a state law coming in conflict with the Act would be void. But Congress has no such Act. The repugnance of the Act to the Constitution on its repugnance to the power of Congress to regulate commerce with foreign Nations and among the several States; a power which has been exercised as to affect the question of principle is announced in *Gilman v. Philadelphia*, 70 U. S. 96; *Esanaba Co. v. Chicago*, 107 U. S. 27; *Cardwell v. An*

INTER 8.

INTERSTATE COMMERCE REPORTS.

VOL. I. APPENDIX I.

RULES OF PRACTICE ADOPTED BY THE COMMISSION.

The Interstate Commerce Commission adopted the following rules of practice in cases and proceedings before it:

1. When at Washington the Commission will hold its general sessions at 11 o'clock A. M., daily, except Saturdays and Sundays, for the reception and hearing of petitions and complaints and for the transaction of such other business as may be brought before it. The sessions will be held at the office of the Commission in *The Sun* building, No. 1815 F. Street, northwest. When special sessions are held at other places such regulations as may be necessary will be made by the Commission. Daily sessions at Washington.

2. Applications under the fourth section of the Act for authority to charge less for longer than for shorter distances for the transportation of passengers or property must be made by petition addressed to the Commission by the carrier or carriers desiring relief. The petition must state with particularity the extent of the relief desired and the points at and between which authority is asked to charge less for longer distances; the reasons for the relief sought must also be set forth, and the facts upon which the application is founded. The petition must be verified by some officer or agent of the carrier in whose behalf it is presented, to the effect that the allegations of the petition are true to the knowledge or belief of the affiant. Notice must be published by a petitioner in not less than two newspapers along the line of the road having general circulation, for at least ten days prior to the presentation of a petition, stating briefly the nature of the relief intended to be applied for and the time when the application will be presented, and proof of each publication must be filed with the petition. Applications under section 4; petition; verification; notice.

3. Upon the presentation of a petition for relief an investigation will be made by the Commission at a time and place to be designated, when testimony will be received for and against the prayer of the petition. After investigation the Commission will make such order as may appear to be just and appropriate upon the facts and circumstances of the case. Investigation by Commission.

4. Complaints, under section 13 of the Act, of anything done or omitted to be done by any common carrier subject to the provisions of the Act, in contravention of the provisions thereof, must be made by petition, which must briefly state the facts which are claimed to constitute a violation of the Act, and must be verified by the petitioner, or by some officer or agent of the corporation, society, or other body or organization making the complaint, to the effect that the allegations of the petition are true to the knowledge or belief of the affiant. Complaints under section 13.

The complainant must furnish as many written or printed copies of the complaint or petition as there may be parties complained against to be served. Copies of complaint.

When a complaint is made, the name of the carrier complained against must be set forth in full, and the address of the petitioner and the name and address of his attorney or counsel, if any, must be indorsed upon the complaint. Names and addresses to be set forth.

The Commission will cause a copy of the complaint to be served upon each common carrier complained against, by mail or personally, in its discretion, with notice to the carrier or carriers to satisfy the complaint or to answer the same in writing within the time specified. Service of copies.

5. A carrier complained against must answer the complaint made within twenty days from date of notice, unless the Commission shall in particular cases prescribe a shorter time for the answer to be served, and in such cases the answer must be made within the time prescribed. The original answer must be filed Answers within twenty days; filing; verification.

with the Commission at its office in Washington, and a copy thereof must at the same time be served upon the complainant by the party answering, personally or by mail. The answer must admit or deny the material allegations of fact contained in the complaint, and may set forth any additional facts claimed to be material to the issue. The answer must be verified in the same manner as the complaint. If a carrier complained against shall make satisfaction before answering, a written acknowledgment of satisfaction must be filed with the Commission, and in that case the fact of satisfaction without other matter may be set forth in the answer filed and served on the complainant. If satisfaction be made after the filing and service of an answer, a supplemental answer, setting forth the fact of satisfaction, may be filed and served.

Hearing on complaint without answer.

6. If a carrier complained against shall deem the complaint insufficient to show a breach of legal duty, it may, instead of filing an answer, serve on the complainant notice for a hearing of the case on the complaint; and in case of the service of such notice the facts stated in the complaint will be taken as admitted. The filing of an answer will not be deemed an admission of the sufficiency of the complaint, but a motion to dismiss for insufficiency may be made at the hearing.

Adjournment and extension of time.

7. Adjournments and extensions of time may be granted upon the application of parties in the discretion of the Commission.

Hearing on issue joined.

8. Upon issue being joined by the service of answer, the Commission, upon request of either party, will assign a time and place for hearing the same, which will be at its office in Washington, unless otherwise ordered. Witnesses will be examined orally before the Commission, except in cases when special orders are made for the taking of testimony otherwise. The petitioner or complainant must in all cases prove the existence of the facts alleged to constitute a violation of the Act, unless the carrier complained of shall admit the same or shall fail to answer the complaint. Facts alleged in the answer must also be proved by the carrier, unless admitted by the petitioner on the hearing.

Failure to answer.

In cases of failure to answer, the Commission will take such proof of the charge as may be deemed reasonable and proper, and make such order thereon as the circumstances of the case appear to require.

Subpenas.

9. Subpenas requiring the attendance of witnesses will be issued by any member of the Commission in all cases and proceedings before it, and witnesses will be required to obey the subpenas served upon them requiring their attendance, or the production of any books, papers, tariffs, contracts, agreements, or documents relating to any matter under investigation or pending before the Commission.

Depositions.

Upon application to the Commission authority may be given, in the discretion of the Commission, to any party to take the deposition of any witnesses who may be shown for some sufficient reason to be unable to attend in person.

Amendments.

10. Upon application by any petitioner or party, amendments may be allowed by the Commission, in its discretion, to any petition, answer or other pleading, in any proceeding before the Commission.

Copies.

11. Copies of any petition, complaint or answer in any matter or proceeding before the Commission, or of any order, decision or opinion, by the Commission, will be furnished upon application by any person or carrier desiring the same, upon payment of the expense thereof.

Affidavits, before whom taken.

12. Affidavits to a petition, complaint or answer may be taken before any officer of the United States, or of any State or Territory, authorized to administer oaths.

Promulgated May 25, 1887

also be lawful for the said attorney-general, or lord advocate, to apply in like manner to any such court or judge; and in either of such cases it shall be lawful for such court or judge to hear and determine the matter of such complaint; and for that purpose, if such court or judge shall think fit, to direct and prosecute, in such mode and by such engineers, barristers, or other persons, as they shall think proper, all such inquiries as may be deemed necessary to enable such court or judge to form a just judgment on the matter of such complaint; and if it be made to appear to such court or judge on such hearing, or on the report of any such person, that anything has been done or omission made in violation or contravention of this Act by such company or companies, it shall be lawful for such court or judge to issue a writ of injunction or interdict, restraining such company or companies from further continuing such violation or contravention of this Act, and enjoining obedience to the same; and in case of disobedience of any such writ of injunction or interdict, it shall be lawful for such court or judge to order that a writ or writs of attachment, or any other process of such court, incident or applicable to writs of injunction or interdict, shall issue against any one or more of the directors of any company, or against any owner, lessee, contractor, or other person, failing to obey such writ of injunction or interdict; and such court or judge may also, if they or he shall think fit, make an order directing the payment by any one or more of such companies of such sum of money as such court or judge shall determine, not exceeding for each company the sum of £200 for every day, after a day to be named in the order, that such company or companies shall fail to obey such injunction or interdict; and such moneys shall be payable as the court or judge may direct, either to the party complaining, or into court to abide the ultimate decision of the court, or to Her Majesty; and payment thereof may, without prejudice to any other mode of recovering the same, be enforced by attachment or order in the nature of a writ of execution, in like manner as if the same had been recovered by decree or judgment in any superior court at Westminster or Dublin, in England or Ireland, and in Scotland by such diligence as is competent on an extracted decree of the court of session; and in any such proceeding as aforesaid, such court or judge may order and determine that all or any costs thereof or thereon incurred shall and may be paid by or to the one party or the other, as such court or judge shall think fit; and it shall be lawful for any such engineer, barrister, or other person, if directed so to do by such court or judge, to receive evidence on oath relating to the matter of any such inquiry, and to administer such oath.

4. It shall be lawful for the said court of common pleas at Westminster, or any three of the judges thereof, of whom the Chief Justice shall be one, and it shall be lawful for the said courts in Dublin, or any nine of the judges thereof, of whom the Lord Chancellor, the Master of the Rolls, the Lords Chief Justice of the Queen's Bench and Common Pleas, and the Lord Chief Baron of the Exchequer, shall be five, from time to time to make all such

general rules and orders as to the forms of proceedings and process, and all other matters and things touching the practice and otherwise in carrying this Act into execution before such courts and judges as they may think fit, in England or Ireland; and in Scotland it shall be lawful for the court of session to make such acts of *cederunt* for the like purpose as they shall think fit.

5. Upon the application of any party aggrieved by the order made upon any such motion or summons as aforesaid, it shall be lawful for the court or judge, by whom such order was made, to direct, if they think fit so to do, such motion or application on summons to be reheard before such court or judge, and upon such rehearing to rescind or vary such order.

6. No proceeding shall be taken for any violation or contravention of the above enactments, except in the manner herein provided; but nothing herein contained shall take away or diminish any rights, remedies, or privileges of any person or company against any railway or canal or railway and canal company, under the existing law.

7. Every such company as aforesaid shall be liable for the loss of, or for any injury done to any horses, cattle, or other animals, or to any articles, goods, or things, in the receiving, forwarding, or delivering thereof, occasioned by the neglect or default of such company or its servants, notwithstanding any notice, condition, or declaration made and given by such company contrary thereto or in any wise limiting such liability; every such notice, condition or declaration being hereby declared to be null and void; *Provided always*, That nothing herein contained shall be construed to prevent the said companies from making such condition with respect to receiving, forwarding, and delivering of any of the said animals, articles, goods, or things as shall be adjudged by the court or judge before whom any question relating thereto shall be tried, to be just and reasonable; *Provided always*, That no greater damages shall be recovered for the loss of, or for any injury done to, any of such animals beyond the sums hereinafter mentioned (that is to say): for any horse, £50; for any neat cattle, per head, £15; for any sheep or pigs, per head, £3; unless the person sending or delivering the same to such company shall, at the time of such delivery, have declared them to be respectively of higher value than as above mentioned, in which case it shall be lawful for such company to demand and receive, by way of compensation for the increased risk and care thereby occasioned, a reasonable percentage upon the excess of the value so declared above the respective sums so limited as aforesaid, and which shall be paid in addition to the ordinary rate of charge; and such percentage or increased rate of charge shall be notified in the manner prescribed in the Statute 11 Geo. 4, and 1 Wm. 4, c. 68, and shall be binding upon such company in the manner therein mentioned; *Provided, also*, That the proof of the value of such animals, articles, goods, and things, and the amount of the injury done thereto, shall in all cases lie upon the person claiming compensation for such loss or injury; *Provided, also*, That no special contract between such company and any other

mails, articles, goods or things respectively for carriage. *Provided, also,* That nothing herein contained shall alter or affect the rights, privileges or liabilities of any such company under the said Act of the 11 Geo. 4 & 1 Wm. 4, c. 68, with respect to articles of the description mentioned in the said Act.

8. This Act may be cited for all purposes as the "Railway and Canal Traffic Act, 1854."

THE REGULATION OF RAILWAYS ACT, 1858.

(11 & 12 Vict. c. 119.)

Interpretation of Terms.

Sec. 2. In this Act the term "railway" means the whole or any portion of a railway or tramway, whether worked by steam or otherwise.

The term "company" means a company incorporated either before or after the passing of this Act for the purpose of constructing, maintaining, or working a railway in the United Kingdom (either alone or in conjunction with any other purpose), and includes, except when otherwise expressed, any individual or individuals not incorporated who are owners or lessees of a railway in the United Kingdom, or parties to an agreement for working a railway in the United Kingdom.

The term "person" includes a body corporate.

Provision for Securing Equality of Treatment where Railway Company Works Steam Vessels.

Sec. 16. Where a company is authorized to build, or buy, or hire, and to use, maintain, and work, or to enter into arrangements for using, maintaining, or working, steam vessels for the purpose of carrying on a communication between any towns or ports, and to take tolls in respect of such steam vessels, then and in every such case tolls shall be at all times charged to all persons equally and after the same rate in respect of passengers conveyed in a like vessel passing between the same places under like circumstances; and no reduction or advance in the tolls shall be made in favor of or against any person using the steam vessels in consequence of his having traveled or being about to travel on the whole or any part of the company's railway, or not having traveled or not being about to travel on any part thereof, or in favor of or against any person using the railway in consequence of his having used or being about to use, or his not having used or not being about to use, the steam vessels, and where an aggregate sum is charged by the company for conveyance of a passenger by a steam vessel and on the railway, the ticket shall have the amount of toll charged for conveyance by the steam vessel distinguished from the amount charged for conveyance on the railway.

The provisions of the Railway and Canal Traffic Act, 1854, so far as the same are applicable, shall extend to the steam vessels and to the traffic carried on thereby.

ing into effect the Railway and Canal Traffic Act, 1854, and for other purposes connected therewith. (31st July, 1878.)

Be it enacted as follows:

Preliminary.

1. This Act may be cited as the Regulation of Railways Act, 1878.

2. This Act shall, except as herein is otherwise expressly provided, come into operation on the first day of September, 1878, which date is in this Act referred to as the commencement of this Act.

3. In this Act the term "railway company" includes any person being the owner or lessee of or working any railway in the United Kingdom constructed or carried on under the powers of any Act of Parliament.

The term "canal company" includes any person being the owner or lessee of, or working, or entitled to charge tolls for the use of any canal in the United Kingdom constructed or carried on under the powers of any Act of Parliament.

The term "person" includes a body of persons corporate or unincorporate.

The term "railway" includes every station, siding, wharf, or dock of or belonging to such railway and used for the purposes of public traffic.

The term "canal" includes any navigation which has been made under or upon which tolls may be levied by authority of Parliament, and also the wharves and landing places of and belonging to such canal or navigation, and used for the purposes of public traffic.

The term "traffic" includes not only passengers and their luggage, goods, animals, and other things conveyed by any railway company or canal company, but also carriages, wagons, trucks, boats, and vehicles of every description adapted for running or passing on the railway or canal of any such company.

The term "mails" includes mail bags and post letter bags.

The term "special act" means a local or local and personal act, or an act of a local and personal nature, and includes a provisional order of the board of trade confirmed by Act of Parliament, and a certificate granted by the board of trade under the Railways Construction Facilities Act, 1864.

The term "the treasury" means the commissioners of Her Majesty's treasury for the time being.

The term "superior court" means in England any of Her Majesty's courts at Westminster; in Ireland, any of Her Majesty's superior courts at Dublin, and in Scotland, the court of session.

Appointment and Duties of Railway Commissioners.

4. For the purpose of carrying into effect the provisions of the Railway and Canal Traffic Act, 1854, and of this Act, it shall be lawful for Her Majesty, at any time after the passing of this Act, by warrant under the royal sign

States of New York and Pennsylvania by the consolidation of the Western New York & Pennsylvania Railway Company of New York, with the Western New York & Pennsylvania Railway Company of Pennsylvania, and that those two corporations were organized under the laws of the States of New York and Pennsylvania respectively, September 15, 1887, by the purchasers of the franchises and property of the Buffalo, New York & Philadelphia Railroad Company, under sales made pursuant to decrees of foreclosure of mortgages; and that this respondent took possession and began to operate the said property and franchises, December 1, 1887.

This respondent has, since December 1, 1887, established and maintained a local rate of thirty-four cents per barrel on oil in barrels shipped in car load lots at Titusville, Pennsylvania, for Buffalo, New York; and during the same time on some occasions oil in barrels has been shipped by the petitioners at Titusville for Perth Amboy, New Jersey, by way of Buffalo, and such oil has been carried over this respondent's road to Buffalo, and thence by the Lehigh Valley Railroad to Perth Amboy, New Jersey; and the through rate on such oil has been, and is, fifty-two cents per barrel from Titusville to Perth Amboy, which has been divided between the several carriers in such proportions that this respondent has received twelve cents per barrel, the Lehigh Valley Railroad Company forty cents per barrel, and such traffic has been and is carried almost entirely in cars furnished by the Lehigh Valley Railroad Company, and not in the cars of this respondent; and this respondent denies that the said rate, or that the proportion thereof received by this respondent, affords a sufficient or reasonable compensation for the transportation of such oil from Titusville to Perth Amboy, and alleges that such rate has been accepted by the several carriers because it is the highest rate they could get.

Perth Amboy is situated on New York Harbor; the Standard Oil Company referred to in the petition controls or operates a continuous line of pipes from the oil regions of Western Pennsylvania, in which Titusville is situated, to the Harbor of New York, and carries its oil in such pipes at a cost of about forty cents per barrel—and the oil of the petitioners and other producers or refiners would be entirely shut out from the New York market, unless the railroad companies fixed such rates as would enable them to compete with the Standard Oil Company.

From Titusville, or other points in Western Pennsylvania, the only means of transportation is by railroad; and there is no line of water transportation. Beside this respondent, the Dunkirk, Alleghany Valley & Pittsburgh Railroad Company, the Lake Shore & Michigan Southern Railway Company, the New York, Lake Erie & Western Railway Company, are engaged in the transportation of oil from the said oil regions to Buffalo; and their respective rates are, as this respondent is informed and believes, substantially the same as this respondent's rates. Said rates are based upon the freight classification adopted by and in force, among all railroads east of the Mississippi and north of the Ohio, in which

classification refined petroleum is reckoned as fifth class freight; and such classification is, so far as the shipper is concerned, reasonable and just, although in this respondent's judgment, too low to afford adequate remuneration to the carrier. The said rate on local shipments from Titusville to Buffalo is just and reasonable, and does not discriminate against the petitioners or any other refiners or producers, nor in favor of the Standard Oil Company or any other refiners or producers, nor in favor of New York or other seaboard points, against Buffalo or other interior points, and affords to the railroad no more than, but, on the contrary, less than, a fair compensation for the service performed.

The answer of the defendant, G. Clinton Gardner, Receiver of the Buffalo, New York & Philadelphia R. R. Co., filed March 23, 1888, admits his appointment as such Receiver, May 20, 1885, and that he operated said railroad in that capacity up to December 1, 1887, since which time the Western New York & Pennsylvania R. R. Co. has been in possession of the same, and says that from that date he is a stranger to all the allegations in said complaint contained relating to matters subsequent to said date, and as to matters prior thereto, submits that the Commission is without jurisdiction to entertain the same. The other statements contained in the defendant's answer are substantially embraced in the foregoing answer of the W. N. Y. & P. R. R. Co.

MICHIGAN CONGRESS WATER CO.

v.

CHICAGO & GRAND TRUNK R. CO.

(No. 128.)

ABSTRACT of Complaint filed March 26, 1888, charging the imposition of an unjust and exorbitant rate upon mineral water in tank cars, and an improper classification of mineral water.

Mr. William S. Edwards, attorney for complainant:

Complainant is a corporation engaged for seven years last past in bottling and barreling Americanus, or Michigan Congress Natural Mineral Water, from the great artesian well in Lansing, Michigan, and shipping the same in iron tanks in bulk, bottles and jugs packed in barrels, cases and hampers, from said City of Lansing to points on the eastern seaboard, to wit: New York, Philadelphia, Baltimore, Washington, New Orleans, and west to Chicago, St. Louis, Cincinnati, and to other points east and west from said point of shipment.

Defendant is a common carrier engaged with other common carriers in the transportation of property to said points; and complainant from time to time has given, and is now giving, to defendant its said mineral water for shipment thereto, and at its own expense has provided a siding along defendant's track at Lansing, iron tank cars for loading on such siding, an annex tank for loading and unloading cars, and all the labor necessary therefor, and that the same is shipped at complainant's risk of loss or damage and without special risk, labor or expense

ively, and for the return of carriages, trucks, boats, and other vehicles, and that no such company shall make or give any undue or unreasonable preference or advantage to or in favor of any particular person or company, or any particular description of traffic, in any respect whatsoever, or shall subject any particular person or company, or any particular description of traffic, to any undue or unreasonable prejudice or disadvantage in any respect whatsoever, and that every railway company and canal company and railway and canal company having or working railways or canals which form part of a continuous line of railway, or canal, or railway and canal communication, or which have the terminus, station, or wharf of the one, near the terminus, station, or wharf of the other, shall afford all due and reasonable facilities for receiving and forwarding by one of such railways or canals all the traffic arriving by the other, without any unreasonable delay, and without any such preference or advantage or prejudice or disadvantage, as aforesaid, and so that no obstruction may be offered to the public desirous of using such railways or canals, or railways and canals as a continuous line of communication, and so that all reasonable accommodation may by means of the railways and canals and of the several companies be at all times afforded to the public in that behalf:

And, whereas, it is expedient to explain and amend the said enactment, *Be it therefore enacted, that—*

Subject as hereinafter mentioned, the said facilities to be so afforded are hereby declared to and shall include the due and reasonable receiving, forwarding, and delivering by every railway company and canal company and railway and canal company, at the request of any other such company, of through traffic to and from the railway or canal of any other such company at through rates, tolls, or fares (in this Act referred to as through rates).

Provided as follows:

(1.) The company requiring the traffic to be forwarded shall give written notice of the proposed through rate to each forwarding company, stating both its amount and its apportionment, and the route by which the traffic is proposed to be forwarded.

(2.) Each forwarding company shall, within the prescribed period after the receipt of such notice, by written notice, inform the company requiring the traffic to be forwarded whether they agree to the rate and route; and, if they object to either, the grounds of the objection.

(3.) If at the expiration of the prescribed period no such objection has been sent by any forwarding company, the rate shall come into operation at such expiration.

(4.) If any objection to the rate or route has been sent within the prescribed period, the matter shall be referred to the commissioners for their decision.

(5.) If an objection be made to the granting of the rate or to the route, the commissioners shall consider whether the granting of the rate is a due and reasonable facility, in the interest of the public, and whether, having regard to the circumstances, the route proposed is a reasonable route, and shall allow or refuse the rate accordingly.

(6.) If the objection be only to the apportionment of the rate, the rate shall come into operation at the expiration of the prescribed period, but the decision of the commissioners as to its apportionment shall be retrospective; in any other case the operation of the rate shall be suspended until the decision is given.

(7.) The commissioners, in apportioning the through rate, shall take into consideration all the circumstances of the case, including any special expenses incurred in respect of the construction, maintenance or working of the route, or any part of the route, as well as any special charges which any company may have been entitled to make in respect thereof.

(8.) It shall not be lawful for the commissioners in any case to compel any company to accept lower mileage rates than the mileage rates which such company may for the time being legally be charging for like traffic carried by a like mode of transit on any other line of communication between the same points, being the points of departure and arrival of the through route.

(9.) The prescribed period mentioned in this section shall be ten days, or such longer period as the commissioners may from time to time, by general order, prescribe.

Where a railway company or canal company use, maintain, or work, or are party to an arrangement for using, maintaining, or working steam vessels for the purpose of carrying on a communication between any towns or ports, the provisions of this section shall extend to such steam vessels and to the traffic carried thereby.

12. Subject to the provisions in the last preceding section contained, the commissioners shall have full power to decide that any proposed through rate is due and reasonable, notwithstanding that a less amount may be allotted to any forwarding company out of such through rate than the maximum rate such company is entitled to charge, and to allow and apportion such through rate accordingly.

13. A complaint of a contravention of section 2 of the Railway and Canal Traffic Act, 1854, as amended by this Act, may be made to the commissioners by a municipal or other public corporation, local or harbor board, without proof that the complainants are aggrieved by the contravention. *Provided*, That a complaint shall not be entertained by the commissioners in pursuance of this section unless such complaint is accompanied by a certificate of the board of trade to the effect that in their opinion the case, in respect of which the complaint is made, is a proper one to be submitted for adjudication to the commissioners by such municipal or other public corporation, local or harbor board.

14. Every railway company and canal company shall keep at each of their stations and wharves a book or books showing every rate for the time being charged for the carriage of traffic other than passengers and their luggage, from that station or wharf to any place to which they book, including any rates charged under any special contract, and stating the distance from that station or wharf of every station, wharf, siding, or place to which any such rate is charged.

Every such book shall, during all reasonable

paid by the corporation to the distance which passengers are carried through this State does not relieve it of the objection; for the tax it assumes to levy is upon interstate commerce, and not upon the internal commerce of the State. The tax cannot be sustained upon the ground that the carrier can be compelled to pay a tax upon its gross earnings for the privilege of doing a local business in the State.

2. A State has power to prescribe the terms upon which a foreign corporation may do business within its territory, unless the corporation is engaged in the business of interstate commerce. If it is not engaged in transacting business of that kind, the State may levy a tax upon its receipts within the State, and enforce collection.

(Decided March 2, 1883.)

A PPEAL from a judgment of the Marion Circuit Court, Ayres, J., against the plaintiff in a suit against a sleeping-car company for failure to comply with the statute requiring it to return a statement of its earnings for taxation. *Affirmed.*

The facts are stated in the opinion.

Messrs. Louis T. Michener, Atty. Gen., and John H. Gillett, for the State:

Everything to which the legislative power extends may be the subject of taxation, whether it be person or property, or possession, franchise or privilege, or occupation or right. Nothing but express constitutional limitation upon legislative authority can exclude anything, to which the authority extends, from the grasp of the taxing power, if the Legislature, in its discretion, shall at any time select it for revenue purposes.

Cooley, Tax. p. 5; Desty, Tax. § 24.

While the State, in the exercise of this inherent and necessary function, must yield to the limitations imposed by the Federal Constitution, yet it is to be remembered that, beyond the scope of these constitutional restrictions, and the implied exemption of the instruments of the Federal government, the State has absolute power to tax anything and everything within its limits.

In the case of *Wheeling, P. & C. Transp. Co. v. Wheeling*, 99 U. S. 273 (25 L. ed. 414), the court says: "Power to tax for the support of the State governments exists in the States independently of the National government; and it may well be assumed that where there is no cessation of contradictory or inconsistent jurisdiction in the United States, nor any restraining compact in the Constitution, the power in the States to tax for the support of the State authority reaches all the property within the state which is not properly regarded as the instruments or means of the Federal government."

Osborne v. Mobile, 83 U. S. 16 Wall. 479, 481 (21 L. ed. 478).

The Legislature has power to prescribe not only the property to be taxed, but the mode and agencies by which the tax may be ascertained and enforced; and it is no objection that the methods prescribed are different for different classes of property.

INTER S.

Wagoner v. Loomis, 37 Ohio St. 571.

The mode of taxing corporations is discretionary with the Legislature.

Porter v. Rockford, R. I. & St. L. R. Co. 76 Ill. 561. See *Anderson v. Kerns Draining Co.* 14 Ind. 199; *Louisville & N. A. R. Co. v. State*, 25 Ind. 177; *Bright v. McCullough*, 27 Ind. 223; *Cooley, Tax. p. 378 et seq.*

"Nothing can be more certain in legal decision than that the privileges and franchises of a private corporation, and all trades and avocations by which the citizens acquire a livelihood, may be taxed by a State for the support of the State government. Authority to that effect resides in the State, independent of the Federal government, and is wholly unaffected by the fact that the corporation or individual has or has not made investment in federal securities."

Society for Savings v. Coite, 73 U. S. 6 Wall. 594 (18 L. ed. 897).

The State may exclude foreign corporations entirely; it may restrict them to particular localities, or exact such security for the performance of their contracts as will best promote the public interest. The whole matter rests in its discretion.

Paul v. Virginia, 75 U. S. 8 Wall. 168 (19 L. ed. 357).

Upon the proposition that it is competent for the State to tax the occupation or privilege of a corporation doing a local as well as interstate business, by requiring it to pay a certain per cent of its gross receipts, not only upon local business, but upon business originating in and terminating out of, or originating out of and terminating within, the State, the case of *Western Union Tel. Co. v. Mayer*, 28 Ohio St. 521, is exactly in point.

See also *Western Union Tel. Co. v. Richmond*, 26 Gratt. 1; *Western Union Tel. Co. v. State*, 55 Tex. 814.

Rev. Stat. § 6355, does not amount to an interference with interstate commerce.

See *Delaware R. Tax*, 85 U. S. 18 Wall. 281 (21 L. ed. 896); *Erie R. Co. v. Pennsylvania*, 88 U. S. 21 Wall. 492 (22 L. ed. 595); *Western Union Tel. Co. v. Richmond*, 26 Gratt. 1; *Western Union Tel. Co. v. Mayer*, 28 Ohio St. 521; *Western Union Tel. Co. v. State*, 55 Tex. 814; *Wheeling, P. & C. Transp. Co. v. Wheeling*, 9 W. Va. 170; *State v. Philadelphia, W. & B. R. Co.* 45 Md. 861.

The vehicles of commerce may be taxed.

See cases cited in note to *State v. Pullman Palace Car Co.* 16 Fed. Rep. 201.

The inability of a State to tax a ship arises from other and express prohibitions contained in the Federal Constitution; but even in this case the capital stock of the company owning the ship may be taxed.

Hayes v. Pacific Mail S. S. Co. 58 U. S. 17 How. 596 (15 L. ed. 254); *State Tonnage Tax Cases*, 79 U. S. 13 Wall. 204 (20 L. ed. 870); *Wheeling, P. & C. Transp. Co. v. Wheeling*, 99 U. S. 273 (25 L. ed. 412).

Can this defendant claim an exemption from taxation on the privilege of carrying passengers between the same points, merely because it is doing an interstate business as well? No such position will be taken, for not only reason but the authorities are against it.

Thomson v. Pacific R. Co. 76 U. S. 9 Wall. 579, 521 (19 L. ed. 792); *Louisville Nat. Bank v. Ken-*

APPENDIX IV.

NOTE ON DECISIONS AFFECTING THE ACT TO REGULATE APPROVED FEBRUARY 4, 1887; AND REFERENCES TO CONSTRUCTIONS OF THE ENGLISH UPON THE SUBJECT OF COMMERCE.

CONSTITUTIONALITY; POWER OF CONGRESS.

The United States Constitution provides: "

"The Congress shall have power * * * to regulate commerce with foreign Nations and among the States and with the Indian Tribes."

Art. 1, § 8, cl. 8.

"Congress shall have power * * * to make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested in this Constitution in the Government of the United States, or in any department or office thereof."

Art. 1, § 8, cl. 18.

"No tax or duty shall be laid on articles exported from any State."

Art. 1, § 9, cl. 5.

"No preference shall be given by any regulation of commerce, or revenue to the ports of one State over those of another; nor shall vessels bound to or from one State be obliged to enter, clear or pay duties in another."

Art. 1, § 9, cl. 6.

"No State shall, without the consent of Congress, lay any imposts or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws; and the net produce of all duties and imposts, laid by any State on imports or exports, shall be for

INTER 8.

the use of the Treasury or and all such laws shall be on and control of the Cor Art. 1, § 10, cl. 8.

The previous Acts of commerce are:

The Act of March 8, 1839, regulating the trade in stock, held constitutional

U. S. v. Boston & A. R. Co. 1840; U. S. v. Louisville & N. R. Co. 1840; U. S. v. East Tenn V. R. Co. 1842.

The Act of June 15, 1834, providing that railroads may be used for transportation is constitutional in:

Dubuque & S. C. R. Co. v. U. S. 19 Wall. 534 (23 1 Bluffs v. Kansas City, St. Louis, 1883; Hardy v. Atch. Co. 32 Kan. 698.

In the report of the Secretary on interstate commerce, 18, 1836, pp. 28-33, the Act is predicated upon the following provisions:

Cooley v. Board of Wardens, 13 L. ed. 996; Hall, 102 U. S. 691 (26 L.

Ferry Co. v. Pa. 114 U. S. 196 (30 L. ed. 158); 1 Intern. Com. Rep. 399; *Brown v. Houston*, 114 U. S. 692 (30 L. ed. 257); *Gibbons v. Ogden*, 22 U. S. 9 Wheat. 1 (6 L. ed. 25); *Pa. v. Wheeling & B. Bridge Co.* 54 U. S. 18 How. 518 (14 L. ed. 949).

Marshall, C. J., in *Gibbons v. Ogden*, 22 U. S. 9 Wheat. 196, 197 (6 L. ed. 70) says:

"It is the power to regulate, that is, to prescribe the rule by which commerce is to be governed. This power, like all others vested in Congress, is complete in itself, may be exercised to its utmost extent, and acknowledges no limitations other than are prescribed in the Constitution * * * If, as has always been understood, the sovereignty of Congress, though limited to specified objects, is plenary as to those objects, the power over commerce with foreign Nations, and among the several States, is vested in Congress as absolutely as it would be in a single government, having in its Constitution the same restrictions on the exercise of the power as are found in the Constitution of the United States."

The power of Congress to regulate commerce is not confined to the instrumentalities of commerce known or in use when the Constitution was adopted, but keeps pace with the progress of the country and adapts itself to new developments of time and circumstances.

Pensacola Tel. Co. v. W. U. Tel. Co. 98 U. S. 1 (34 L. ed. 706); *W. U. Tel. Co. v. Texas*, 106 U. S. 460 (36 L. ed. 1067).

The constitutional power is necessarily exclusive whenever the subjects are national in character, and admit only of one uniform system or plan of regulation.

Robbins v. Taxing Dist. of Shelby Co. 120 U. S. 469 (30 L. ed. 694); 1 Intern. Com. Rep. 45; *Phila. & S. M. Steamship Co. v. Pa.* 123 U. S. 326 (30 L. ed. 1900); 1 Intern. Com. Rep. 308; *Wabash, St. L. & P. R. Co. v. Ill.* 116 U. S. 557 (30 L. ed. 244); 1 Intern. Com. Rep. 81; *Gloucester Ferry Co. v. Pa.* 114 U. S. 196, 203 (30 L. ed. 158, 161); *Mobile Co. v. Kimball*, 103 U. S. 691, 697 (36 L. ed. 238, 239); *The Case of the State Freight Tax*, 83 U. S. 15 Wall. 299 (31 L. ed. 146); *Henderson v. Mayor of N. Y.* 83 U. S. 260 (30 L. ed. 843).

The nonexercise of the power in respect to the regulation of commerce between the States is equivalent to a declaration that such commerce shall be free and untrammelled except in matters of local concern.

Walton v. Mo. 91 U. S. 375 (30 L. ed. 347); *Brown v. Houston*, 114 U. S. 692 (30 L. ed. 257); *Pickard v. Pullman B. Car Co.* 117 U. S. 34 (30 L. ed. 785); *Wabash, St. L. & P. R. Co. v. Ill.* 116 U. S. 557 (30 L. ed. 244); 1 Intern. Com. Rep. 81; *Walling v. Mich.* 116 U. S. 446 (30 L. ed. 691); *Corsun v. Md.* 120 U. S. 509 (30 L. ed. 699); 1 Intern. Com. Rep. 60; *Hall v. DeCuir*, 95 U. S. 435 (34 L. ed. 547); *Hannibal & St. J. R. Co. v. Hueso*, 95 U. S. 465 (34 L. ed. 537); *Robbins v. Shelby Co. Taxing Dist.* 120 U. S. 469 (30 L. ed. 694); 1 Intern. Com. Rep. 45; *Gloucester Ferry Co. v. Pa.* 114 U. S. 196 (30 L. ed. 158); 1 Intern. Com. Rep. 382; *Phila. & S. M. Steamship Co. v. Pa.* 123 U. S. 326 (30 L. ed. 1900); 1 Intern. Com. Rep. 308; *State R. Comra. v. R. Co.* 29 S. C. 220.

The regulation of fares and freights receivable for transportation of persons and goods

between different States, and between the States and foreign countries, is within the power of Congress equally with the regulation of transportation itself.

Phila. & S. M. Steamship Co. v. Pa. 123 U. S. 326 (30 L. ed. 1900); 1 Intern. Com. Rep. 308.

The power to regulate interstate and foreign commerce vested in Congress is the power to prescribe the rules by which it shall be governed—that is, the conditions upon which it shall be conducted; to determine when it shall be free from, and when subject to, duties or other exactions.

Gloucester Ferry Co. v. Pa. 114 U. S. 196 (30 L. ed. 158); 1 Intern. Com. Rep. 382.

Freedom of transportation implies exemption from charges other than such as are imposed by way of compensation for the use of the property employed, or for facilities afforded for its use, or as ordinary taxes upon the value of the property within the jurisdiction of the State. *Id.*

Power of Congress over bridges and navigable rivers.

Pa. v. Wheeling & B. Bridge Co. 59 U. S. 18 How. 429 (15 L. ed. 436); *The Clinton Bridge*, 77 U. S. 10 Wall. 454 (19 L. ed. 969); *Miller v. Mayor of N. Y.* 10 Fed. Rep. 518; *S. C.* 100 U. S. 385 (27 L. ed. 971); *Newport & C. Bridge Co. v. U. S.* 105 U. S. 470 (36 L. ed. 1143); *Canada B. R. Co. v. Internat. Bridge Co.* 8 Fed. Rep. 190; *S. C. v. Ga.* 95 U. S. 4 (36 L. ed. 789); *Stockton v. Balt. & N. Y. R. Co. (U. S. C. C.)* 1 Intern. Com. Rep. 411.

The Act of Congress, approved June 16, 1880, entitled "An Act to Authorize the construction of a Bridge across the Staten Island Sound, Known as Arthur Kill," etc., is valid and constitutional under the power of Congress to regulate commerce among the States.

Stockton v. Balt. & N. Y. R. Co. (U. S. C. C.); 1 Intern. Com. Rep. 411; *Decker v. Sams*, 1 Intern. Com. Rep. 434. (See full reports of briefs of counsel in these cases.)

Said Act is not permissive merely, but gives authority and power to build such bridge, without reference to any authority or consent from the State on whose land under navigable water the bridge is to rest, and without compensation to the State.

Stockton v. Balt. & N. Y. R. Co. (U. S. C. C.) 1 Intern. Com. Rep. 411.

When the United States does not seek to acquire exclusive jurisdiction over land within a State, it may condemn such land for its purposes without the consent of the State. *Id.*

Congress has the power to fix the maximum compensation for transportation between States and foreign countries.

Canada B. R. Co. v. Internat. Bridge Co. 8 Fed. Rep. 190; *Louisville & N. R. Co. v. Tennessee R. Commission*, 19 Fed. Rep. 679.

The power of Congress to regulate commerce with the Indian Tribes is exclusive.

Worcester v. Ga. 31 U. S. 6 Pat. 515 (3 L. ed. 453); *U. S. v. Holliday*, 70 U. S. 3 Wall. 407 (18 L. ed. 182); *U. S. v. 43 Gallons of Whiskey*, 98 U. S. 189 (33 L. ed. 846).

It may also extend its regulations to Territories in proximity to that occupied by Indians.

U. S. v. 43 Gallons of Whisky, 98 U. S. 189 (33 L. ed. 846).

pany, or corporation, incorporated under the laws of any other State, and conveying to, from, and through this State, or any part thereof, passengers and travelers in palace cars, drawing-room cars, sleeping-cars, or chair cars, on contract with any railroad company or the manager, lessee, agent, or receiver thereof, shall be held and deemed to be a sleeping-car company. Every such sleeping-car company doing business in this State shall annually, between the 1st day of April and the 1st day of June, report to the auditor of state, under the oath of an officer or agent of such corporation, the gross amount of all its receipts within or without the State, for fares earned or business done by such company within this State, for the year then next preceding the 1st day of April of the current year; and in computing such gross receipts the same shall be in the proportion that the distance traversed in this State bears to the whole distance paid for. At the time of making such report, such company shall pay into the treasury of the State the sum of \$2 on every \$100 of such receipts. Every sleeping-car company failing or refusing, for more than thirty days after the 1st day of June, to render an accurate account of such gross receipts, as above provided, and to pay the required tax thereon, shall forfeit \$25 for each additional day such report and payment shall be delayed, to be recovered in an action in the name of the State of Indiana, on the relation of the auditor of state, in any court of competent jurisdiction; and the attorney-general shall conduct such prosecution; and such sleeping-car company so failing or refusing shall be prohibited from carrying on such business until such payment is made. All railroad companies in this State, or the persons managing or operating the same, are prohibited from hauling any cars of any sleeping-car company while so in default, and for each violation of this prohibition shall be liable to pay to the State of Indiana the sum of \$100, to be recovered in the proper action by the State; and it shall be the duty of the attorney-general, at the request of the auditor of state, to prosecute all such suits."

It is firmly established that a State has power to prescribe the terms upon which a foreign corporation may do business within its territory, unless the corporation is engaged in the business of interstate commerce. If it is not engaged in transacting business of that kind, the State may levy a tax upon its receipts within this State and enforce collection. *Phania Ins. Co. v. Burdett*, 11 West. Rep. 259, 112 Ind. 204; *Doyle v. Continental Ins. Co.* 94 U. S. 535 (24 L. ed. 148); *Ducat v. Chicago*, 77 U. S. 10 Wall. 410 (19 L. ed. 972); *La Fayette Ins. Co. v. French*, 59 U. S. 18 How. 404 (15 L. ed. 840); *Goldsmith v. Home Ins. Co.* 62 Ga. 379; *Phania Ins. Co. v. Welch*, 29 Kan. 672; *People v. Fire Assn.* 93 N. Y. 311; *S. C. 44 Am. Rep.* 380.

In the cases referred to, this principle is explicitly and strongly asserted; and in many cases it has been assumed without discussion and applied as a settled rule of law. *North America Ins. Co. v. Brim*, 9 West. Rep. 330, 111 Ind. 281; *Granite State Mut. Assn. v. Porter*, 58 Vt. 581; *Ohio v. Moore*, 39 Ohio St. 486; *State v. New York L. Ins. Co.* 81 Mo. 89; *State v. Farmers & M. Mut. Ben. Assn.* 18 Neb. 276; *S. C.* 15 Ins.

L. J. 321; *Ehrman v. Teutonia Ins. Co.* 1 McCrary, 126; *Mutual Benefit L. Ins. Co. v. Bales*, 92 Pa. 352.

We cannot, therefore, assent to the argument of counsel which assumes that a State may not classify and regulate foreign corporations, even though they are not engaged in the affairs of interstate commerce.

We do affirm, however, that in matters of commerce between the States, the power of the Federal government is exclusive and supreme. The later decisions of the Supreme Court of the United States close the question to us and to all State courts; for it is a Federal question, and on such questions the decisions of that high tribunal are final. Its earlier decisions were not harmonious,—there was much of conflict and more of confusion; but the later cases have carried the doctrine to the utmost length. These decisions have much restricted, if, indeed, they have not completely annulled, the police power of the States where interstate questions are involved, and they have in effect swept away all State lines. In a very late case it was said by *Mr. Justice Bradley*, speaking for the court, that, "in a word, it may be said that in the matter of interstate commerce the United States are but one country, and are and must be subject to one system of regulations, and not to a multitude of systems." *Robbins v. Shelby County*, 120 U. S. 489 (30 L. ed. 694).

Although the chief justice and two of the associate justices, in a vigorous opinion, dissented, the decision is to us as law. But there are other decisions of that court which, while not going so far as the decision in the case from which we have quoted, go quite far enough to require us to decide that the State has no power to levy a tax upon the earnings of a sleeping-car company engaged in the business of transporting passengers from one State to another. *Philadelphia & S. S. Co. v. Pennsylvania*, 123 U. S. 326 (30 L. ed. 1200); *Western Union Tel. Co. v. Pendleton*, 123 U. S. 347 (30 L. ed. 1187); *Wabash, St. L. & P. R. Co. v. Illinois*, 118 U. S. 557 (30 L. ed. 244); *Gloucester Ferry Co. v. Pennsylvania*, 114 U. S. 196 (29 L. ed. 158); *Parkersburg & O. R. Transp. Co. v. Parkersburg*, 107 U. S. 691 (27 L. ed. 584); *Western Union Tel. Co. v. Texas*, 105 U. S. 460 (26 L. ed. 1067); *Pensacola Tel. Co. v. Western Union Tel. Co.* 96 U. S. 1 (24 L. ed. 708); *Welton v. Missouri*, 91 U. S. 375 (23 L. ed. 347).

In the case first cited, one of the points decided in the case of *State Freight Tax Cases*, 82 U. S. 15 Wall. 282 (21 L. ed. 164), was declared to be wrongly decided, and it was held that "a tax upon freights and fares is virtually a tax upon the transportation itself," and this tax no State can levy. The rule as established by the recent decisions, which stand as law to us, is thus stated in *Robbins v. Shelby County*, *supra*. "As before said, the State may tax its own internal commerce, but that does not give it any right to tax interstate commerce."

The attorney-general ably and ingeniously argues that the statute is valid because it is competent for the State to "tax the local occupation of appellant by the measure of its gross receipts for the proportionate amount of travel in this State." But this argument, while not without plausibility, is radically unsound. Under the law as authoritatively declared by the

mitted by the examining magistrate to the custody of the sheriff to answer an indictment for that alleged offense. The ground of the application for discharge upon the writ of *habeas corpus* in the City Court of Mobile was that the Act of the General Assembly of the State of Alabama, for the violation of which he was held, was in contravention of that clause of the Constitution of the United States which confers upon Congress power to regulate commerce among the States.

The facts, as they appeared upon the hearing upon the return of the writ, are as follows: the petitioner at the time of his arrest on July 16, 1887, within the County of Mobile, was a locomotive engineer in the service of the Mobile and Ohio Railroad Company, a corporation owning and operating a line of railroad forming a continuous and unbroken line of railway from Mobile, in the State of Alabama, to St. Louis, in the State of Missouri, and as such was then engaged in handling, operating, and driving a locomotive engine, attached to a regular passenger train on the Mobile and Ohio Railroad, within the county and State, consisting of a postal car carrying the United States mail to all parts of the Union, a southern express car containing perishable freight, money packages, and other valuable merchandise destined to Mississippi, Tennessee, Kentucky, and other States, passenger coaches, and a Pullman palace sleeping car occupied by passengers to be transported by said train to the States of Mississippi, Tennessee, and Kentucky. The petitioner's run, as a locomotive engineer in the service of the Mobile and Ohio Railroad Company, was regularly from the City of Mobile, in the State of Alabama to Corinth, in the State of Mississippi, sixty miles of which run was in the State of Alabama, and two hundred and sixty-five miles in the State of Mississippi; and he never handled and operated an engine pulling a train of cars whose destination was a point within the State of Alabama when said engine and train of cars started from a point within that State. His train started at Mobile, and ran through without change of coaches or cars on one continuous trip. His employment as locomotive engineer in the service of said company also required him to take charge of and handle, drive, and operate an engine drawing a passenger train which started from St. Louis, in the State of Missouri, destined to the City of Mobile, in the State of Alabama, said train being loaded with merchandise and occupied by passengers destined to Alabama and other States; this engine and train he took charge of at Corinth, in Mississippi, and handled, drove and operated the same along and over the Mobile and Ohio Railroad through the States of Mississippi and Alabama to the City of Mobile. It frequently happened that he was ordered by the proper officers of the said company to handle, drive and operate an engine drawing a passenger train loaded with merchandise, carrying the United States mail, and occupied by passengers from the City of Mobile, in Alabama, to the City of St. Louis, in Missouri, being allowed two lay-overs; said train passing through the States of Alabama, Mississippi, Tennessee, Illinois, and into the State of Missouri.

It was admitted that the petitioner had not obtained the license required by the Act of the

General Assembly of the State of Alabama of February 28, 1887, and had not applied to the board of examiners, or any of its members, for such license, and that more than three months had elapsed since the appointment and qualification of said board of examiners, the same having been duly appointed by the Governor of the State under the provisions of said Act.

The Statute of Alabama, the validity of which is thus drawn in question, as being contrary to the Constitution of the United States, and the validity of which has been affirmed by the judgment of the Supreme Court of Alabama now in review, is as follows:

"AN ACT to Require Locomotive Engineers in this State to be Examined and Licensed by a Board to be Appointed by the Governor for That Purpose.

"Section 1. *Be it enacted by the General Assembly of Alabama*, That it shall be unlawful for the engineer of any railroad train in this State to drive or operate or engineer any train of cars or engine upon the main line or roadbed of any railroad in this State which is used for the transportation of persons, passengers, or freight, without first undergoing an examination and obtaining a license as hereinafter provided.

"Sec. 2. *Be it further enacted*, That before any locomotive engineer shall operate or drive an engine upon the main line or roadbed of any railroad in this State used for the transportation of persons or freight, he shall apply to the board of examiners hereinafter provided for in this Act, and be examined by said board or by two or more members thereof, in practical mechanics, and concerning his knowledge of operating a locomotive engine and his competency as an engineer.

"Sec. 3. *Be it further enacted*, That upon the examination of any engineer as provided in this Act, if the applicant is found competent, he shall, upon payment of five dollars, receive a license, which shall be signed by each member of the board, and which shall set forth the fact that the said engineer has been duly examined as required by law and is authorized to engage as an engineer on any of the railroads in this State.

"Sec. 4. *Be it further enacted*, That in addition to the examination provided for in section two (2), it shall be the duty of said board of examiners, before issuing the license provided for in this Act, to inquire into the character and habits of all engineers applying for license; and in no case shall a license be issued if the applicant is found to be of reckless or intemperate habits.

"Sec. 5. *Be it further enacted*, That any engineer who, after procuring a license as provided in this Act, shall at any time be guilty of any act of recklessness, carelessness, or negligence while running an engine, by which any damage to persons or property is done, or who shall within six hours before, or during the time he is engaged in running an engine, be in a state of intoxication, shall forfeit his license, with all the rights and privileges acquired by it, indefinitely or for a stated period, as the board may determine after notifying such engineer to appear before the board, and inquiring into his act or conduct. It shall be the duty of the board to determine whether the

Fire Assn.* 93 N. Y. 311; 44 Am. Rep. 380, *Indiana v. Woodruff & P. Coach Co.* 1 Intern. Com. Rep. 798; but cannot exclude foreign corporations, engaged in interstate commerce.

Ind. v. Pullman Palace Car Co. 16 Fed. Rep. 198; *Cooper Mfg. Co. v. Ferguson*, 118 U. S. 727 (36 L. ed. 1137); *Paul v. Va.* 76 U. S. 8 Wall. 163 (19 L. ed. 357).

A local corporation which contributes only its own local right of traffic to a system of through traffic by means of contract engagements cannot be permitted to exercise its corporate franchise within a foreign jurisdiction, free of such burdens as may be imposed by such foreign jurisdiction upon the theory that it is engaged in interstate commerce.

Norfolk & W. R. Co. v. Com. (Pa.) 5 Cent. Rep. 240.

The provision of article 936 of the Louisiana Constitution, which provides that no foreign corporation shall do business in that State without having one or more places of business, and an authorized agent or agents in the State upon whom process may be served is null and void, as being an attempt on the part of the State to interpose a restriction on navigation, and therefore in conflict with the Act of Congress approved February 18, 1793, 1 Stat. at L. 505.

N. O. & M. Packet Co. v. James, Planters Transp. Co. v. Same, and Greenville & N. O. Packet Co. v. Same (U. S. C. C.) 1 Intern. Com. Rep. 599.

State regulations upon commerce between States by fixing railroad fares and rates or imposing other restrictions are void.

Wabash, St. L. & P. R. Co. v. Ill. 118 U. S. 557 (30 L. ed. 244); *State R. Comr. v. R. Co.* 23 S. C. 220, *Ill. Cent. R. Co. v. Stone*, 20 Fed. Rep. 468; *Chicago & N. W. R. Co. v. Fuller*, 94 U. S. 17 Wall. 560 (21 L. ed. 710); *Rae v. Grand Trunk R. Co.* 14 Fed. Rep. 401; *Wabash, St. L. & P. R. Co. v. Ill.* 118 U. S. 557 (30 L. ed. 244).

A State may limit the amount of charges made by railroad companies, unless restrained by charter.

Munn v. Ill. 94 U. S. 113 (24 L. ed. 77); *Chicago, B. & Q. R. Co. v. Iowa*, 94 U. S. 155 (24 L. ed. 94), *Peik v. Chicago & N. W. R. Co.* 94 U. S. 164 (24 L. ed. 97); *Helserman v. Burlington, C. R. & N. R. Co.* 63 Iowa, 732; *Ruggles v. People*, 91 Ill. 256, 8 C. 108 U. S. 536 (27 L. ed. 613); *Stone v. Farmers L. & T. Co.* 116 U. S. 307 (29 L. ed. 636), *Killmer v. N. Y. C. & H. R. R. Co. (N. Y.)* 1 Cent. Rep. 537; *Little Rock & F. S. R. Co. v. Hanniford (S. C. of Ark.)* 1 Intern. Com. Rep. 580; *Providence Coal Co. v. Providence & W. R. Co. (R. I.)* 2 New Eng. Rep. 505.

But such statutes cannot in any way extend to interstate commerce.

Wabash, St. L. & P. R. Co. v. Ill. 118 U. S. 557 (30 L. ed. 244).

A State has no authority to regulate the charges which a railway company may make for carrying goods from a point without the State to a point within, or vice versa; and an order of the railroad commissioners of the State designed to regulate such charges is void, as being in conflict with article 1, § 8, U. S. Const.

State v. Chicago & N. W. R. Co. 70 Iowa, 169; *McGwigan v. Wilmington & W. R. Co.* 95 N. C. 428, *McLean v. Charlotte, C. & A. R. Co.* 96 N. C. 1.

A state board of railroad commissioners has no power to regulate the transportation of persons or merchandise between ports in that State and any other States.

Pacific Coast S. S. Co. v. R. Comr. 13 Fed. Rep. 10.

The Statute of Indiana, which attempts to regulate the mode in which messages sent by telegraphic companies doing business in said State shall be delivered in other States, is void, and an interference with the freedom of interstate commerce.

W. U. Tel. Co. v. Pendleton, 123 U. S. 847 (30 L. ed. 1167), 1 Intern. Com. Rep. 306.

The power of Congress to regulate navigation does not interfere with the power of the States to protect and regulate the fisheries within their limits.

McCready v. Va. 94 U. S. 591 (24 L. ed. 246); *Smith v. Md.* 59 U. S. 18 How. 71 (15 L. ed. 269); *Green v. The Helen*, 1 Fed. Rep. 916.

It is stated in the Report of the Senate Select Committee on Interstate Commerce, submitted January 18, 1896, page 65, that of the forty-six States and Territories, twenty-five have railroad commissions; five legislative regulations; and the remaining sixteen have "no regulation in force or practically very little." On the same page is given a list of States having railroad commissions, showing when established, the names of the commissioners and secretaries, the location of their offices and the salaries paid. The operation of some of the commissions is discussed by Mr. Hadley, in his *Railroad Transportation, its History and its Laws*, pp. 135-140. The various decisions upon state legislation are referred to therein.

State lien laws for supplies furnished to vessels are valid.

The Lottawanna, 66 U. S. 21 Wall. 538 (23 L. ed. 654).

Congress cannot exercise police powers for the protection of the inhabitants of a State. This is a domestic matter to be governed and regulated by state laws. A State is not prohibited from enacting police regulations which operate upon instrumentalities of commerce, provided no discriminations are made against classes, and no restriction placed on commercial intercourse.

Brechtell v. Randall (Ind.) 2 West. Rep. 781.

A State may pass laws for the inspection of vessels, quarantine, health laws of every description as well as laws for regulating the internal commerce of a State.

Gibbons v. Ogden, 23 U. S. 9 Wheat. 1 (6 L. ed. 23); *Southern Steamship Co. v. Port Wardens*, 78 U. S. 6 Wall. 31 (15 L. ed. 749); *Chicago & N. W. R. Co. v. Fuller*, 94 U. S. 17 Wall.

580 (21 L. ed. 710); *Morgan's L. & T. R. Co. v. La. Board of Health*, 118 U. S. 455 (30 L. ed. 287); *Hannibal & St. J. R. Co. v. Husen*, 95 U. S. 465 (24 L. ed. 527); *Turuer v. Md.* 107 U. S. 88 (27 L. ed. 870); *Mayor of N. Y. v. Miln*, 86 U. S. 11 Pet. 102 (9 L. ed. 648); *Henderson v. Mayor of N. Y.* 92 U. S. 259 (23 L. ed. 543); *Chy Lung v. Freeman*, 92 U. S. 275 (23 L. ed. 550).

A charge to a vessel for officers' service in examining her sanitary condition is not invalid as a tonnage tax, but is a proper part of a quarantine system.

Morgan's L. & T. R. Co. v. La. Board of Health, 118 U. S. 455 (30 L. ed. 287).

But a statute requiring the payment of a fee to port wardens, whether called upon to perform any service or not, is void.

Southern Steamship Co. v. Port Wardens, 78 U. S. 6 Wall. 81 (18 L. ed. 749).

Prohibition of sale of and the authorizing of seizures of intoxicating liquors during transportation may be justified under state statutes.

State v. O'Neil (Vt.) 1 New Eng. Rep. 775.

The Georgia local option law, which exempts from its provisions domestic wines, but prohibits the sale of spirituous liquors including wines, *held*, an unlawful discrimination between wines made in Georgia and the wines of other States and foreign wines.

Weil v. Calhoun, 25 Fed. Rep. 865.

It has been held in Rhode Island that the provision of R. I. Pub. Stat. chap. 634, of May 4, 1887, § 1, which prohibits any person from keeping any intoxicating liquors "for sale," is not, for the reason that it may incidentally interfere with foreign or interstate commerce, obnoxious to the Federal Constitution.

State v. Fitzpatrick (R. I.) 5 New Eng. Rep. 673; 1 Inters. Com. Rep. 718.

Iowa Statute forbidding any common carrier to bring within that State any intoxicating liquors from any other State or Territory, without first having the certificate therein required is a regulation of commerce among the States and void.

Bowman v. Chicago & N. W. R. Co. 124 U. S. (31 L. ed. —); 1 Inters. Com. Rep. 823.

The Statute of Alabama requiring locomotive engineers to be examined and licensed is not a regulation of interstate commerce.

Smith v. Ala. (U. S. S. C.) 1 Inters. Com. Rep. 804; *McDonald v. State*, 81 Ala. 279.

COMMON CARRIERS.

A common or public carrier is one who undertakes as a business to carry from one place to another the goods of all persons who may apply for such carriage, provided the goods are of the kind which he professes to carry, and the persons so applying will agree to have them carried upon the terms prescribed by the carrier, and who, if he refuses to carry such goods for those who are willing to comply with his terms, becomes liable to an action by the party aggrieved by such refusal.

The weight of American authority is that the common law requires that the charges must be equal to all for the same services under like circumstances.

St. Louis, A. & T. H. R. Co. v. Hill, 14 Bradw. (Ill. App.) 570; Messenger v. Pa. R. Co. 66 N. J. L. 407; S. C. 37 N. J. L. 531; Shipper v. Pa. R. Co. 47 Pa. 338; Audenried v. Phila. & R. R. Co. 66 Pa. 370; Chicago B. & Q. R. Co. v. Parks, 18 Ill. 460-464; Chicago & A. R. Co. v. People, 67 Ill. 11; Scofield v. Lake Shore & M. S. R. Co. 1 West. Rep. 813, 43 Ohio St. 571; New England Express Co. v. Maine Cent. R. Co. 57 Maine, 186; Hays v. Pa. Co. 13 Fed. Rep. 300; State, Webster, v. Nebraska Telephone Co. 17 Neb. 126; State, Mattoon, v. Republican Valley R. Co. 17 Neb. 647; Atchison, T. & S. F. R. Co. v. Denver & N. O. R. Co. 110 U. S. 667 (98 L. ed. 301); Munhall v. Pa. R. Co. 93 Pa. 150.

At common law discriminations based solely upon the amounts of freight shipped without reference to the actual cost of transportation are not sanctioned.

Hays v. Pa. Co. 13 Fed. Rep. 300; Scofield v. Lake Shore & M. S. R. Co. 1 West. Rep. 813, 43 Ohio St. 571; Mo. Pac. R. Co. v. Texas & P. R. Co. 30 Fed. Rep. 2.

Railroads are bound at common law to receive and haul cars of other roads.

Mackin v. Boston & A. R. Co. 185 Mass. 301; Peoria & P. U. R. Co. v. Chicago, R. I. & P. R. Co. 109 Ill. 186, Note, 10 Cent. L. J. 111, Note, 18 Am. & Eng. R. R. Cas. 508.

LINE WHOLLY WITHIN A STATE; "COMMON CONTROL, MANAGEMENT OR ARRANGEMENT FOR CONTINUOUS CARRIAGE;" INTERSTATE COMMERCE ACT, § 1; ENGLISH RAILWAYS REGULATION, ACT 1873, § 11.

Provisions of section 11, of the Regulation of Railways Act, 1873, apply whenever there is an arrangement with the proprietors of steam vessels for the conveyance of passengers or goods to and from any port or town with which there is railway communication, provided the railway company party to the arrangement owned or worked or was otherwise immediately interested in some portion or other of the line of railway communication.

Caledonian R. Co. v. Greenock & W. B. R. Co. 4 R. & Can. Traf. Cas. 185; Greenock & W. B. R. Co. v. Caledonian R. Co. 3 Nev. & Mac. R. Cas. 337.

An agreement between a steamboat company and railway company that the vessels of the former shall be run at certain times, regard being had to the convenience of the railway company and to the times of the arrival and departure of its trains, as an arrangement within the meaning of section 11 of the Regulation of Railways Act, 1873.

Belfast etc. R. Co. v. G. N. R. Co. 4 R. & Can. Traf. Cas. 379.

But the mere existence of through bookings is not such an arrangement as that contemplated by section 11.

Ayr Harbour Trustees v. Glasgow R. Co. 4 R. & Can. Traf. Cas. 81.

The Interstate Commerce Act does not include or apply to all carriers engaged in interstate commerce, but only to such as use a railway, or a railway and water craft "under common control, management or arrangement for a continuous carriage or shipment" of property from one State to another; nor does it apply to the carriage of property by rail wholly within the State, although shipped from or destined to a place without the State, so that such place is not in a foreign country.

Ex parte Koehler (U. S. C. C.) 1 Intern. Com. Rep. 28; Mo. & I. R. T. & Lumber Co. v. Cape Girardeau & S. W. R. Co. 1 Intern. Com. Rep. 607.

The knowledge of a carrier whose line is wholly within one State that the ultimate destination of freight is without the State will not make it subject to the Interstate Commerce Act.

Mo. & I. R. T. & Lumber Co. v. Cape Girardeau & S. W. R. Co. 1 Intern. Com. Rep. 607.

In Ex parte Koehler, 1 Intern. Com. Rep. 28, Dundy, J., says: "The mere fact that a railway wholly within a State, and a vessel running between said State and another, meet at a point within the railway State, and thus form a continuous line of transportation between the two States, by the one taking up the goods delivered by the other at its terminus, and carrying them thence to their destination, does not bring the carriers who so use the rail-

way and steamer within the Act. So long as the railway and steamer are each operated under a separate and distinct control, making its own rates, and only liable for the carriage and safe delivery of the goods at the end of its own route, the Act does not apply to the transaction. To make these carriers subject to the Act, the railway and vessel must, as therein provided, be operated or used under a 'common control'—a control to which each is alike subject, and by which rates are prescribed and bills of lading given for the carriage of goods over both routes as one."

Where a railway company made a contract applicable to all routes which it might thereafter control, and acquired the majority of stock of another railway company and the same persons were elected respectively president and vice president of both companies, *held*, that the contracting company had not acquired "control" of the other railway within the meaning of the terms of the contract.

Pullman Palace Car Co. v. Mo. P. R. Co. 11 Fed. Rep. 634.

A railroad wholly within one State, used as a means of conducting interstate traffic in coal by companies owning connecting interstate roads, is subject to the provisions of the Act to Regulate Commerce; and it must be accessible to all interstate shippers on equal and reasonable terms.

Heck v. East Tenn. V. & G. R. Co. 1 Inters. Com. Rep. 775.

A carrier is not responsible for rates made by a connecting road because of its giving them in connection with its own rates to parties desiring to make through shipments.

Crews v. Richmond & D. R. Co. 1 Inters. Com. Rep. 703.

So far as a railroad company, whose line is entirely within one State, issues through bills of lading over its connecting lines to points in other States, and makes through rates, it falls under the Interstate Commerce Act.

Re Annapolis, W. & B. R. Co. 1 Inters. Com. Rep. 815.

Several railroad companies uniting in an arrangement under which a fast freight line violates the Interstate Commerce Act are responsible therefor.

Boston & A. R. Co. v. Boston & L. R. Co. 1 Inters. Com. Rep. 571.

The Illinois Statute regulating the transportation of goods under one contract to points beyond the State is unconstitutional.

Wabash, St. L. & P. R. Co. v. Ill. 118 U. S. 557 (30 L. ed. 244); 1 Inters. Com. Rep. 31.

A statute regulating the transmission of telegraph messages beyond the State is void.

W. U. Tel. Co. v. Pendleton, 123 U. S. 347 (30 L. ed. 1187); 1 Inters. Com. Rep. 306.

DISCRIMINATION.

Statutory Provisions. Section 3, par. 1, of the Interstate Commerce Act is an almost literal copy of a portion of section 2 of the English Railway and Canal Traffic Act of 1854.

The object of section 3 is to apply to cases not within section 2, since section 2 is limited to cases of "a like and contemporaneous service in the transportation of a like kind of traffic under substantially similar circumstances."

Section 3, par. 2, of the Act of Congress, is also a copy of a portion of section 2 of the English Railway & Canal Traffic Act of 1854; the changes in the Act of Congress are shown by the words between brackets in italics as follows: "Every railway company, canal company, and railway and canal company [every common carrier subject to the provisions of this Act] shall, according to their respective powers, afford all reasonable [proper and equal] facilities for the [interchange of traffic between their respective lines and for the] receiving and ["and" omitted] forwarding and delivering of (English Statute: "Traffic upon and from the several railways and canals belonging to or worked by such companies respectively," American Act: "Passengers and property to and from their several lines and those connecting therewith.")"

Section 7 of the American Act contains provisions similar to section 2 of the Railway & Canal Traffic Act of 1854.

General Rules.

To constitute an unreasonable preference, there must be inequality in the charge for traveling over the same line, or the same portion of the line.

Caterham R. Co. v. London, B. & S. C. R. Co. 1 C. B. (N. S.) 410; 1 Nev. & Mac. 32; *Finnie v. Glasgow & S. W. R. Co.* 2 Macq. 177; *S. C.* 26 L. T. 14.

The relative reasonableness of rates on shipments from western points to cities on the Atlantic seaboard is to be determined by all the circumstances and conditions that affect the traffic to the respective points between which the rates are questioned, and not solely by one standard of comparison.

Boston Chamber of Commerce v. Lake Shore & M. S. R. Co. 1 Inters. Com. Rep. 754.

What amounts to an undue preference is a question of fact and not of law.

Diphwys etc. Co. v. Festiniog R. Co. 2 Nev. & Mac. 73; *Watkinson v. Wrexham etc. R. Co.* 3 Nev. & Mac. R. Cas. 5; *Denaby Main Colliery Co. v. Manchester etc. R. Co.* 3 Nev. & Mac. 441.

The burden of proof is on petitioner charging unreasonable rates.

Harding v. Chicago, St. P. M. & O. R. Co. 1 Inters. Com. Rep. 375.

The burden is on the carrier to justify any departure from the rules prescribed by the statute.

Re Southern R. & Steamship Asso., and Re Louisville & Nashville R. Co. 1 Inters. Com. Rep. 278.

As to sufficiency of evidence to establish charge of excessive rates, see:

Great Western R. Co. v. Sutton, L. R. 4 Eng. & Irish App. H. L. 226; *Ransome v. Eastern Counties R. Co.* 1 C. B. N. S. 437; *S. C.* 26 L. J. C. P. 91; 1 Nev. & Mac. 63; *Baxendale v. Great Western R. Co.* 5 C. B. N. S. 336; *S. C.* 28 L. J. C. P. 81; *Nicholson v. Great Western R. Co.* 5 C. B. N. S. 366; *S. C.* 28 L. J. C. P. 89; 1 Nev. & Mac. 121.

As to the manner of determining what are reasonable charges, see:

Louisville & N. R. Co. v. Tennessee R. Com-

mission, 19 Fed. Rep. 679; Canada S. R. Co. v. Internat. Bridge Co. 8 Fed. Rep. 190; Internat. Bridge Co. v. Canada S. R. Co. L. R. 8 App. Cas. 723; Riley v. Horne, 5 Bing. 217; Manchester, S. & L. R. Co. v. Brown, L. R. 8 App. Cas. 703; Chicago & A. R. R. Co. v. People, 67 Ill. 11; Stone v. Farmers L. & T. Co. 116 U. S. 307-336 (29 L. ed. 636-646); Baxendale v. Eastern Counties R. Co. 4 C. B. (N. S.) 68.

A charter right to make such charges as the company might see fit is not contravened by the statute requiring charges to all persons to be equal.

Great Western R. Co. v. Sutton, L. R. 4 Eng. & Irish App. H. L. 226; Baxendale v. Great Western R. Co. 14 C. B. N. S. 1; *S. C.* 16 C. B. N. S. 187; Crouch v. Great Northern R. Co. 9 Exch. 557.

For a Complete Digest of English Decisions and Index thereto see Appendix to Am. & Eng. R. Cases, Vol. 27, by Adelbert Hamilton, Esq.

Against Localities.

Preferences to localities in furnishing facilities or rates for the shipment of goods are prohibited.

Hozier v. Caledonian R. Co. 17 Scas. 702; *S. C.* 24 L. T. 839; 1 Nev. & Mac. 27; Jones v. Eastern Counties R. Co. 8 C. B. N. S. 718; 1 Nev. & Mac. 45; Nicholson v. Great Western R. Co. 5 C. B. N. S. 866; Richardson v. Midland R. Co. 4 R. & Can. Traf. Cas. 1; Girardot v. Midland R. Co. 4 R. & Can. Traf. Cas. 291.

A railway company must give equal facilities and similar rates to all persons in receiving and delivering goods.

Cooper v. London & S. W. R. Co. 4 C. B. N. S. 788; *S. C.* 27 L. J. C. P. 324; 1 Nev. & Mac. 185; Bell v. London etc. R. Co. 2 Nev. & Mac. 185.

It is not ground of complaint against a railroad that it equalizes its rates as between small and large towns, even though the effect may be prejudicial to the large towns which before had been specially favored.

Crews v. Richmond & D. R. Co. 1 Inters. Com. Rep. 703.

and Boston, on traffic originating west of Buffalo, have not been shown to be unjust and unreasonable or to constitute unjust discrimination against Boston.

Boston Chamber of Commerce v. Lake Shore & M. S. R. Co. 1 Inters. Com. Rep. 754.

The fact that the export rates through Boston, and the rates on merchandise intended for coastwise points east of Portland, and the west bound rates from Boston have been made by the carriers the same as corresponding New York rates in order to put Boston on an equality with New York and other seaboard cities wherever Boston is a competitor with those cities, is not controlling in determining the reasonableness of the east bound local rates in a traffic in which there is no competition by other cities. *Id.*

A manufactory of plaintiff was situated twelve miles from the seaport of Swansea, and on the defendant's railway from the seaport to Liverpool. The defendant charged the plaintiff 12s 6d per ton for the carriage of iron and tin plates over its line from his manufactory to Liverpool, while other manufacturers of iron and tin plates whose works were situated within a radius of six miles of the seaport of Swansea, and therefore further from Liverpool than the plaintiff's works, were charged by the defendant, for the carriage of their plates from Swansea to Liverpool, 11s 4d per ton only. There is a communication by sea from Swansea to Liverpool, and the rate of 11s 4d was fixed by the defendant as the charge for the carriage of the goods of these manufacturers within the six miles' radius in order to enable the defendant to compete with the sea carriage; and by reason of the lesser charge, those manufacturers who were thus favored were enabled to sell their plates at a lower price per ton, delivered at Liverpool, than the plaintiff. *Held*, that the charging of a lower rate to the manufacturers within the six miles' radius, for the carriage of their goods a longer distance than the plaintiff's was an undue and unreasonable preference and advantage granted to them by the defendant, and was in contravention of section 2 of the Railway & Canal Traffic Act of 1844.

Lloyd v. Northampton etc. R. Co. 3 Nev. & Mac. 259.

Grouping rates for collieries working the same bed of coal, where the coal field extends twenty miles, may result in an unreasonable preference.

Denaby Main Colliery Co. v. Manchester, S. & L. R. Co. 3 Nev. & Mac. 426; 4 R. & Can. Traf. Cas. 23, 450; Broughton etc. Coal Co. v. G. W. R. Co. 4 R. & Can. Traf. Cas. 191.

Where a petition complained of discrimination against the Town of Opelika, Ala., but the order which was prayed would, if granted, increase the discriminations against other local points, leave was given to amend the petition so as to set out the effects with reference to other local points and to afford opportunity of notice to them.

Harwell v. Columbus & W. R. Co. 1 Inters. Com. Rep. 631.

Where on evidence, the Commission found that cotton offered for shipment at Opelika for New Orleans was unjustly and unreasonably refused by the defendant company, in violation of the third section of the statute, while taken by it at other points similarly situated, and that connecting lines were ready and willing to unite in a reasonable adjustment of rates—an order was made requiring the defendant to cease such discrimination within ten days. *Id.*

A petition charging unjust discrimination in rates between Waterville and Mankato, and that such rates were higher than rates between Chicago and Waterville, disposed of by report of Commission that the respondent company has conceded the relief sought and had made and published a tariff of the rates in accordance with the prayer of the petition.

Manufacturer's & Jobbers Union v. Minneapolis & St. L. R. Co. 1 Inters. Com. Rep. 630.

An index of all proceedings and decisions by the Interstate Commerce Commission relating to discrimination against localities will be found in the index to this volume, under title "Charges and Discrimination."

Against Specific Articles.

Under Railways Clauses Act, 1845, § 90, 8 & 9 Vict., the charge must be the same to all for the same services performed in the same manner for carrying goods for the same distance, and for similar services rendered in any other way.

London & N. W. R. Co. v. Evershed, L. R. 3 App. Cas. 1020; S. C. 39 L. T. N. S. 806.

Under the Illinois Statute a charge of two cents more per 100 pounds for carrying grain than charged to others, held unjust discrimination.

St. Louis, A. & T. H. R. Co. v. Hill, 14 Bradw. 579.

Rates are so related to each other that the instances are very frequent where a change of rate upon one important article of commerce involves a consideration of the relative rates on other articles; it appearing that the defendant company has made a change and general reduction on lines of freight, and it appearing that during the next season it is intended to make a further reduction, and that rates on wheat from Walla Walla, Washington Terri-

tory, to Portland, Oregon, were charged at a higher relative rate than was just, it was ordered that the defendant cease to charge more than 23½ cents per 100 pounds or \$4.70 per ton on wheat thus transported.

Evans v. Oregon R. & Nav. Co. and Reed v. Oregon R. & Nav. Co. 1 Inters. Com. Rep. 641.

The relative difference in rates on pearline, and special rates on common soap on shipments from New York to Atlanta adjusted, so that the relative difference in the rates shall not exceed the difference of sixty cents per 100 pounds on pearline and thirty-three cents on common soap.

Pyle v. East Tenn. V. & G. R. Co. 1 Inters. Com. Rep. 767.

The classification of railroad ties in a different class from other lumber, thus imposing a higher rate upon ties than upon other lumber, held to be an unjust discrimination.

Reynolds v. Western N. Y. & P. R. Co. 1 Inters. Com. Rep. 685.

Classification of coals as gas coal and common coal held, under the facts, improper.

Nitschill etc. Coal Co. v. Caledonian R. Co. 2 Nev. & Mac. 39.

Rates established for the purpose of keeping up a line of road material (as railroad ties) for which the road itself has use, or to keep the price thereof low for its own advantage, cannot be justified.

Reynolds v. Western N. Y. & P. R. Co. 1 Inters. Com. Rep. 685.

Whether a special privilege, granted by railroad companies to manufacturers in a single line of trade, but not to manufacturers in general, is consistent with the rule of equity and justice which the Interstate Law undertakes to establish, is a question upon which an opinion ought to be expressed only after the most careful consideration; and the Commission ought clearly to see that duty requires an answer, before it proceeds to give one on *ex parte* application.

Re Iowa Barb Steel Wire Co. 1 Inters. Com. Rep. 605.

An index of all proceedings and decisions by the Interstate Commerce Commission relating to discriminations against specific articles will be found in the index to this volume, under title "Charges and Discrimination."

Character, Quantity, Value of Goods; Classification; Underbilling.

Making of freight rates may be affected by a variety of practical considerations, as: the sparsely settled character of the country; the articles of freight upon which the railroad must depend as compared with other roads transporting similar commodities through more populous communities; the relation of local and through freights; the mode of shipping and delivering, as wheat from elevators, and wheat in sacks; and expenses of hauling empty cars.

Evans v. Oregon R. & Nav. Co. and Reed v. Oregon R. & Nav. Co. 1 Inters. Com. Rep. 641; Hays v. Pa. Co. 12 Fed. Rep. 309; Scofield v. Lake Shore & M. S. R. Co. 1 West. Rep. 812, 43 Ohio St. 571; Mo. Pac. R. Co. v. Texas & P. R. Co. 80 Fed. Rep. 2; Girardot v. Midland

R. Co. 4 R. & Can. Traf. Cas. 301; Greenock v. S. E. R. Co. 3 Nev. & Mac. 319; Concord & P. R. R. Co. v. Forreth, 59 N. H. 123.

The length and character of the haul, the cost of service, the volume of business, the conditions of competition, the storage capacity and the geographical situation of the different terminal points are all elements of importance bearing upon the relative reasonableness of the respective charges for transportation.

Boston Chamber of Commerce v. Lake Shore & M. S. R. Co. 1 Intern. Com. Rep. 754.

Under the Railway Clauses Consolidation Act of 1845, mere inequality in the rate of charge, when unequal distances are traversed, does not constitute a preference.

Denaby Main Colliery Co. v. Manchester S. & L. R. Co. L. R. 11 App. Cas. 97.

A difference in the cost of service will justify a carrier in making a reasonable difference in its rates.

Chicago & A. R. Co. v. People, 67 Ill. 11-34; Denaby Main Colliery Co. v. Manchester, S. & L. R. Co. 26 Am. & Eng. R. R. Cas. 308; Nicholson v. Great Western R. Co. 5 C. B. N. S. 386; Ransome v. Eastern Counties R. Co. 3 Nev. & Mac. 303; Girardot v. R. Co. 4 R. & Can. Traf. Cas. 301; Denaby Main Colliery Co. v. Manchester, S. & L. R. Co. L. R. 11 App. Cas. 101, 103; Ransome v. Eastern Counties R. Co. 1 Nev. & Mac. 68; S. C. 1 C. B. N. S. 437, 26 L. J. C. P. 91; Foreman v. Great Western R. Co. 3 Nev. & Mac. 302; Nithill etc. Coal Co. v. Caledonian R. Co. 3 Nev. & Mac. 30; Belladyke Coal Co. v. North British R. Co. 3 Nev. & Mac. 105; Bell v. London etc. R. Co. 2 Nev. & Mac. 165; Holland etc. R. Co. v. Festiniog R. Co. 3 Nev. & Mac. 287; Lotspeich v. Cent. R. & Bkg. Co. 73 Ala. 306; S. C. 18 Am. & Eng. R. R. Cas. 490; Burton Stock Car Co. v. Chicago, B. & Q. R. Co. 1 Intern. Com. Rep. 320; Providence Coal Co. v. Providence & W. R. Co. 1 Intern. Com. Rep. 353.

A railway company is justified in carrying goods for one person at a less rate than that at which it carries goods for another, only where there are circumstances which make the cost of carrying the former less than the cost of carrying the latter.

Garton v. Bristol & E. R. Co. 5 C. B. N. S. 689; S. C. 26 L. J. C. P. 306; 1 Nev. & Mac. 218; Oxlade v. North Eastern R. Co. 1 C. B. N. S. 454; S. C. 26 L. J. C. P. 120; 1 Nev. & Mac. 72; Nithill etc. Coal Co. v. Caledonian R. Co. 3 Nev. & Mac. 30.

The difference in rates must bear some proportion to the difference of the cost to carriers.

Harris v. Cockermouth etc. R. Co. 1 Nev. & Mac. 97-102, 3 C. B. N. S. 606; Garton v. Bristol etc. R. Co. 1 Nev. & Mac. 237; 5 C. B. N. S. 639-656; Nicholson v. G. W. R. Co. 1 Nev. & Mac. 165; Denaby Main Colliery Co. v. Manchester, S. & L. R. Co. L. R. 11 App. Cas. 123; Baxendale v. R. Co. 1 Nev. & Mac. 303; Ransome v. Eastern Counties R. Co. 1 Nev. & Mac. 69.

A difference in bulk will justify difference in rates.

Lotspeich v. Cent. R. & Bkg. Co. 73 Ala. 306. Or when return loads could not be had.

Chicago & A. R. Co. v. People, 67 Ill. 24; Girardot v. Midland R. Co. 4 R. & Can. Traf. Cas. 301.

Or difference in expense of loading and unloading.

Chicago & A. R. Co. v. People, 67 Ill. 26.

Different rates may be charged where shippers own private side tracks and return cars more promptly.

Denaby Main Colliery Co. v. Manchester, S. & L. R. Co. L. R. 11 App. Cas. 103.

Less rates may be charged for furnishing freight in fully loaded trains at regular intervals.

Nicholson v. Great Western R. Co. 5 C. B. N. S. 386.

A difference in charge is justified where the transportation is over steep grades.

Belladyke Coal Co. v. North British R. Co. 3 Nev. & Mac. 105; Nithill Coal Co. v. Caledonian R. Co. 3 Nev. & Mac. 30.

"Goods of like description" and "goods of same description" refer not to the contents of the parcels, but to the parcels themselves, that is, like or different for the purpose of carriage.

Great Western L. Co. v. Sutton, L. R. 4 Eng. & Irish App. H. L. 226; Nithill etc. Coal Co. v. Caledonian R. Co. 3 Nev. & Mac. 30; Merry v. Glasgow R. Co. 4 R. & Can. Traf. Cas. 363.

Less desirable traffic must be accepted upon reasonable terms, as well as that which is more desirable.

Riddle v. New York, L. E. & W. R. Co. 1 Intern. Com. Rep. 787.

The N. W. Railway Company carried goods for the complainants who were brewers at B. by their railway, they charged the complainants, and the public generally, 1s per ton for the carriage of goods to and from their B. station, and 9d per ton for terminal services there. T. & Co. and C. & Co., who were also brewers at B., had breweries connected with the M. Railway Company's station at that place by continuous railway communication; the goods which they sent or received by the M. line were loaded and unloaded on their own premises by their servants, and they were consequently not charged by the M. Railway Company any rate for cartage or terminal services. The N. W. Railway Company, in order to compete with the M. Railway Company for the carriage of the goods of T. & Co. and C. & Co., exempted them from the above mentioned rates of 1s 9d respectively, carting and loading their goods gratuitously. There being nothing to show that there was a saving of cost to the company by reason of the quantity of goods carried for T. & Co. and C. & Co., to compensate for the loss of 1s, 9d per ton, and T. & Co. and C. & Co. being the only firms to whom the reduced rates were applicable, held, that there was not sufficient ground for the arrangements made in their favor, and that an injunction should issue against the N. W. Railway Company, under the third section of the Railway & Canal Traffic Act, 1854; in order to justify a difference being made by a railway company in favor of one or more individual members of its general class of customers, there must be an adequate consideration to the railway company lessening the cost to it of the services rendered to such individual members of the general class; and it is not sufficient that the railway company merely de

mitted by the examining magistrate to the custody of the sheriff to answer an indictment for that alleged offense. The ground of the application for discharge upon the writ of *habeas corpus* in the City Court of Mobile was that the Act of the General Assembly of the State of Alabama, for the violation of which he was held, was in contravention of that clause of the Constitution of the United States which confers upon Congress power to regulate commerce among the States.

The facts, as they appeared upon the hearing upon the return of the writ, are as follows: the petitioner at the time of his arrest on July 16, 1887, within the County of Mobile, was a locomotive engineer in the service of the Mobile and Ohio Railroad Company, a corporation owning and operating a line of railroad forming a continuous and unbroken line of railway from Mobile, in the State of Alabama, to St. Louis, in the State of Missouri, and as such was then engaged in handling, operating, and driving a locomotive engine, attached to a regular passenger train on the Mobile and Ohio Railroad, within the county and State, consisting of a postal car carrying the United States mail to all parts of the Union, a southern express car containing perishable freight, money packages, and other valuable merchandise destined to Mississippi, Tennessee, Kentucky, and other States, passenger coaches, and a Pullman palace sleeping car occupied by passengers to be transported by said train to the States of Mississippi, Tennessee, and Kentucky. The petitioner's run, as a locomotive engineer in the service of the Mobile and Ohio Railroad Company, was regularly from the City of Mobile, in the State of Alabama to Corinth, in the State of Mississippi, sixty miles of which run was in the State of Alabama, and two hundred and sixty-five miles in the State of Mississippi; and he never handled and operated an engine pulling a train of cars whose destination was a point within the State of Alabama when said engine and train of cars started from a point within that State. His train started at Mobile, and ran through without change of coaches or cars on one continuous trip. His employment as locomotive engineer in the service of said company also required him to take charge of and handle, drive, and operate an engine drawing a passenger train which started from St. Louis, in the State of Missouri, destined to the City of Mobile, in the State of Alabama, said train being loaded with merchandise and occupied by passengers destined to Alabama and other States; this engine and train he took charge of at Corinth, in Mississippi, and handled, drove and operated the same along and over the Mobile and Ohio Railroad through the States of Mississippi and Alabama to the City of Mobile. It frequently happened that he was ordered by the proper officers of the said company to handle, drive and operate an engine drawing a passenger train loaded with merchandise, carrying the United States mail, and occupied by passengers from the City of Mobile, in Alabama, to the City of St. Louis, in Missouri, being allowed two lay-overs; said train passing through the States of Alabama, Mississippi, Tennessee, Illinois, and into the State of Missouri.

It was admitted that the petitioner had not obtained the license required by the Act of the INTER S.

General Assembly of the State of Alabama of February 28, 1887, and had not applied to the board of examiners, or any of its members, for such license, and that more than three months had elapsed since the appointment and qualification of said board of examiners, the same having been duly appointed by the Governor of the State under the provisions of said Act.

The Statute of Alabama, the validity of which is thus drawn in question, as being contrary to the Constitution of the United States, and the validity of which has been affirmed by the judgment of the Supreme Court of Alabama now in review, is as follows:

"AN ACT to Require Locomotive Engineers in this State to be Examined and Licensed by a Board to be Appointed by the Governor for That Purpose.

"Section 1. *Be it enacted by the General Assembly of Alabama*, That it shall be unlawful for the engineer of any railroad train in this State to drive or operate or engineer any train of cars or engine upon the main line or roadbed of any railroad in this State which is used for the transportation of persons, passengers, or freight, without first undergoing an examination and obtaining a license as hereinafter provided.

"Sec. 2. *Be it further enacted*, That before any locomotive engineer shall operate or drive an engine upon the main line or roadbed of any railroad in this State used for the transportation of persons or freight, he shall apply to the board of examiners hereinafter provided for in this Act, and be examined by said board or by two or more members thereof, in practical mechanics, and concerning his knowledge of operating a locomotive engine and his competency as an engineer.

"Sec. 3. *Be it further enacted*, That upon the examination of any engineer as provided in this Act, if the applicant is found competent, he shall, upon payment of five dollars, receive a license, which shall be signed by each member of the board, and which shall set forth the fact that the said engineer has been duly examined as required by law and is authorized to engage as an engineer on any of the railroads in this State.

"Sec. 4. *Be it further enacted*, That in addition to the examination provided for in section two (2), it shall be the duty of said board of examiners, before issuing the license provided for in this Act, to inquire into the character and habits of all engineers applying for license; and in no case shall a license be issued if the applicant is found to be of reckless or intemperate habits.

"Sec. 5. *Be it further enacted*, That any engineer who, after procuring a license as provided in this Act, shall at any time be guilty of any act of recklessness, carelessness, or negligence while running an engine, by which any damage to persons or property is done, or who shall within six hours before, or during the time he is engaged in running an engine, be in a state of intoxication, shall forfeit his license, with all the rights and privileges acquired by it, indefinitely or for a stated period, as the board may determine after notifying such engineer to appear before the board, and inquiring into his act or conduct. It shall be the duty of the board to determine whether the

fer; and, therefore, it cannot be supported on that ground;

(b) That even if "quick dispatch" were made a condition of the discount, such offer would have neither justice nor reason to support it, as its limitation to consignees receiving a specified number of tons would be an unjust discrimination;

(c) That the offer of discount cannot be supported on the consideration of quantity, on the analogy of the distinction usually made in ordinary business transactions, between wholesale and retail dealers.

Providence Coal Co. v. Providence & W. R. Co. 1 *Inters. Com. Rep.* 363.

The expense of hauling Burton live stock cars in one direction unloaded (for the reason that by their construction they are not suited to carrying general freight) as compared with the greater ability to load back the ordinary railroad cattle cars, and the fact that a large percentage of the ordinary cattle cars are so back loaded upon the long hauls of western roads, are considerations which justify a difference in charge against shippers who prefer to hire the improved stock cars.

Burton Stock Car Co. v. Chicago, B. & Q. R. Co. 1 *Inters. Com. Rep.* 329.

Doubted (but not decided) whether the extra charges made to shippers of live stock in special cars (including the Burton cars) over thirty feet in length, according to the revised classification of the Western Railroad Classification Committee, put in force April 7, 1887, are not unreasonable. *Id.*

The permitting by common carriers, of the practice of underbilling the weight of freight or giving it a false classification, whereby less compensation is paid by one person than by another for "a like and contemporaneous service," is within the inhibition of the Act to Regulate Commerce.

Re Underbilling, 1 *Inters. Com. Rep.* 813.

Competition.

The fact that one shipper can go by another route and will probably do so if charged as much as the charge made to the complaining party, is not a circumstance justifying an unequal charge; nor will the fact that those charged a less rate are seeking to develop a new trade.

London & N. W. R. Co. v. Evershed, L. R. 8 App. Cas. 1029; *Denaby Main Colliery Co. v. Manchester, S. & L. R. Co.* L. R. 11 App. Cas. 97.

The lowering of rates for the purpose of developing business is an undue preference.

Oxlade v. North Eastern R. Co. 1 C. B. N. S. 454; *S. C.* 26 L. J. C. P. 129; 1 Nev. & Mac. 73.

Or making a lower rate in consequence of a threat from the owner of a colliery to construct another railway, by which traffic would be diverted.

Harris v. Cockermouth & W. R. Co. 3 C. B. N. S. 693; *S. C.* 27 L. J. C. P. 162; 1 Nev. & Mac. 97; *Diphwys Casson Slate Co. v. Festiniog R. Co.* 2 Nev. & Mac. 73.

An exceptional rebate and gratuitous cartage of goods of one customer not allowed to others, for the purpose of competing with another line, held to be undue preference.

London & M. W. R. Co. v. Evershed, L. R. 8 App. Cas. 1029.

A company made an agreement with A to carry for him coals for three years, from Petersburg to various places on its line of railway, at certain rates. B, a coal merchant at Ipswich, sent coals (which had been brought to that port by sea) to various places on the same lines of railway, and the company charged him a much larger sum in proportion to the distance over which his coals were carried than the company charged to A—the professed object of the difference being to enable A (whose coal came to Petersburg by railway) to compete in the coal trade of the district with B, who had the advantage of having had his coals brought to Ipswich by sea. *Held*, that this was giving an undue preference to A, and the company was required to carry coals for B on equal terms with A, due regard being had to any circumstance rendering the cost of carrying for one less than for the other.

Ransome v. Eastern Counties R. Co. 1 C. B. N. S. 437; *S. C.* 3 Jur. N. S. 217; 26 L. R. C. P. 91; 1 Nev. & Mac. 63.

That "Railroads have water competition and are compelled to meet it," without more, is not sufficient to justify a lesser charge for the greater distance. Dissimilar "circumstances and conditions" are made out by the existence of actual competition which is the controlling force.

Harwell v. Columbus & W. R. Co. 1 *Inters. Com. Rep.* 631; *Ex parte Koehler*, 23 Fed. Rep. 529.

In *Boston Chamber of Commerce v. Lake Shore & M. S. R. Co.* 1 *Inters. Com. Rep.* 754, the rule is stated to be: the length and character of the haul, the cost of service, the volume of business, the conditions of competition, the storage capacity and the geographical situation of the different terminal points, are all elements of importance bearing upon the relative reasonableness of the respective charges for transportation.

The subject of competition is further considered under the title "Long and Short Haul and Operation and Suspension of Fourth Section of the Interstate Commerce Act."

Furnishing Cars.

A railway company is bound to furnish sufficient locomotive power, and to desist from unduly detaining empty or unloaded wagons; *Watkinson etc. Copper Co. v. Wrexham etc. R. Co.* 3 Nev. & Mac. 446; and to furnish sufficient cars for its traffic.

Watkinson etc. Copper Co. v. Wrexham etc. R. Co. 3 Nev. & Mac. 164; *Tharsis etc. v. London etc. R. Co.* 3 Nev. & Mac. 455; *Caterham R. Co. v. London, B. & S. C. R. Co.* 1 C. B. N. S. 410; *S. C.* 26 L. J. C. P. 161; 1 Nev. & Mac. 32; *Barrett v. Gt. North. R. Co.* 1 Nev. & Mac. 38; *Toomer v. London etc. R. Co.* 3 Nev. & Mac. 79; *Dublin etc. R. Co. v. Midland R. Co.* 3 Nev. & Mac. 379; *Riddle v. N. Y. etc. R. Co.* 1 *Inters. Com. Rep.* 787.

The character and condition of goods and the orderly prosecution of business will determine the order of shipment and the furnishing of facilities for transportation.

Galena & C. U. R. Co. v. Rae, 13 Ill. 483;

Great Western R. Co. v. Burns, 60 Ill. 284; Peet v. Chicago & N. W. R. Co. 20 Wis. 594. See note, 16 Am. L. Rev. 882.

It is properly the business of a carrier by railroad to supply the rolling stock for the freight it offers or proposes to carry; and if the diversities and peculiarities of traffic are such that this is not always practicable, and consignors are allowed to supply it for themselves, the carrier must not allow its own deficiencies in this particular to be made the means of putting at an unreasonable advantage those who make use in the same traffic of the facilities it supplies.

Rice v. Louisville & N. R. Co. 1 Inters. Com. Rep. 722.

When for a special traffic—*e. g.*, the transportation of petroleum oils—a carrier provides rolling stock for one method, but does not provide it for another for which it publishes rates, but the shippers are expected to provide the same, the terms on which such rolling stock is to be provided should be uniform and should be published with the rate sheets, and cannot lawfully be left to be the subject of bargain and of different terms in the case of different shippers. *Id.*

A railroad is not justified in refusing to furnish cars for the transportation of coal, by the fact that it could at that time make more money by using its coal cars upon other portions of its line.

Riddle v. N. Y. etc. R. Co. 1 Inters. Com. Rep. 787.

During the summer and fall of 1887, owing to high rates on lake vessels, there was an accumulation of coal and other freights along the line of defendant company. *Held*, that the proof did not sustain the charge that the company gave a preference in furnishing cars for the transportation of coke over the coal trade, or gave a preference to shippers in not requiring them to load or unload cars.

Riddle v. Pittsburgh & L. E. R. Co. 1 Inters. Com. Rep. 638.

In the absence of a custom or rule of business placing the duty upon the carrier to notify a shipper of the arrival of cars for his use, it is the duty of the shipper to make inquiry of the proper agent of the railroad company; but if the carrier undertakes to notify, it must perform its duty in this respect.

Riddle v. Balt. & O. R. Co. 1 Inters. Com. Rep. 778.

The proceedings and decisions of the Interstate Commerce Commission relating to refusal to furnish cars are referred to in the index to this volume, under title "Charges and Discrimination."

Connecting Lines; Express Companies.

At common law a railway company is bound to transport or haul upon its road the cars of any other railway company.

Vt. & M. R. Co. v. Fitchburg R. Co. 14 Allen, 462; Mackin v. Boston & A. R. Co. 185 Mass. 201.

A railroad company is bound to supply suitable vehicles of transportation and to offer their use to everybody impartially.

Ogdensburg & L. C. R. Co. v. Pratt, 89 U. S. 23 Wall. 123-133 (23 L. ed. 827-831).

In absence of a statute, a railroad is not

bound to stop its trains and exchange traffic at the junction of another road.

Atchison, T. & S. F. R. Co. v. Denver & N. O. R. Co. 110 U. S. 667 (28 L. ed. 291); and its liability terminates with its delivery to the connecting carrier.

Myrick v. Mich. Cent. R. Co. 107 U. S. 102 (27 L. ed. 325).

The use of cars upon other lines is a service incidental to the receiving, forwarding and delivering of traffic, and is within the provisions of the English Act.

Diphwys Casson Slate Co. v. Festiniog R. Co. 2 Nev. & Mac. 73; S. C. 52 L. T. (N. S.) 271.

Under the English Act it must appear that public convenience requires continuous carriage.

Barret v. Great Northern R. Co. 1 C. B. N. S. 423; S. C. 26 L. J. C. P. 83; 1 Nev. & Mac. 28; Caterham R. Co. v. London, B. & S. C. R. Co. 1 C. B. N. S. 410; S. C. 26 L. J. C. P. 161; 1 Nev. & Mac. 32; Parkinson v. Great Western R. Co. 40 L. J. C. P. 222; S. C. 24 L. T. N. S. 830; 1 Nev. & Mac. 280; Fishbourne v. Gt. S. & W. R. Co. 2 Nev. & Mac. 224; Wannan v. Scottish Cent. R. Co. 2 Sess. Cas. 1873; 1 Nev. & Mac. 237; Pickford v. Caledonian R. Co. 1 Nev. & Mac. 252; Local Board etc. v. London etc. R. Co. & S. E. R. Co. 2 Nev. & Mac. 214; Toomer v. London etc. R. Co. 3 Nev. & Mac. 79; Victoria etc. Co. v. Neath etc. R. Co. 3 Nev. & Mac. 87; James etc. v. Taff. Vale etc. R. Co. 3 Nev. & Mac. 540; Swindon etc. R. Co. v. Great Western R. Co. 4 Nev. & Mac. 849.

Where cars are dissimilar in character a railway company may refuse to forward, upon reasonable requirements.

Caledonian R. Co. v. North British R. Co. 3 Nev. & Mac. 56.

The mileage rate of three fourths of a cent per mile run, which is customary, among railroads, for freight cars of other railroad companies used upon the paying company's line, and which payment is, by the interchange of cars, practically equalized among the different roads, is not to be taken as the measure of payment for the use of cars belonging to persons other than railroad companies.

Burton Stock Car Co. v. Chicago, B. & Q. R. Co. 1 Inters. Com. Rep. 829.

The Burton Stock Car Company, which furnishes special improved live stock cars owned by it, to shippers over railroads, does not exchange with or use cars belonging to others, and is in no sense a "connecting line," entitled to equal facilities for interchange of traffic, under paragraph 2 of section 3 of the Act to Regulate Commerce. *Id.*

The Burton Stock Car Company is not entitled to claim that it is unjustly discriminated against, by a refusal on the part of railroad companies to pay it the same rate of mileage which carriers adopt as the basis in adjusting their car service accounts with each other. *Id.*

A railway company cannot make a distinction in its rates dependent upon whether the traffic is booked no further than it goes by railway or is booked to a destination beyond the limits subject to the traffic statute.

Ayr Harbour Trustees v. Glasgow R. Co. 4 R. & Can. Traf. Cas. 81.

Where one railway company works the rail

way of another company, it must give equal facilities as to through booking by the worked line as by its own and must not prefer its own route in the matter of rates.

Clonmel Traders v. Waterford R. Co. 4 R. & Can. Traf. Cas. 92.

A railway company is not bound to extend to other steamboats the same facilities as to through rates, etc., as it extends to the steamboat it selects to transact its business.

Napier v. Glasgow etc. R. Co. 1 Nev. & Mac. 292; *contra*, under the Act to Regulate Commerce. *Re* Petition of Mallory (U. S. C. C. Fla.), 1 Inters. Com. Rep. 294.

Under the charter of the Texas & Pacific Railroad Company no discrimination against connecting roads is allowed in charging for freight or passengers.

Mo. Pac. R. Co. v. Texas & P. R. Co. 30 Fed. Rep. 2.

Railway companies are not obliged, in the absence of a statute, to furnish to all independent express companies equal facilities for doing express business upon their fast trains.

Express Cases, 117 U. S. 1 (29 L. ed. 791); 28 Am. & Eng. R. R. Cas. 545, *Note*. See also New England Express Co. v. Maine Cent. R. Co. 5 Maine, 188; McDuffee v. Portland & R. R. Co. 52 N. H. 430; Sandford v. Catawissa, W. & E. R. Co. 24 Pa. 378.

The Massachusetts Statute does not render it unlawful for a railroad to carry on the express business itself, and to refuse to allow similar privileges to other parties.

Sargent v. Boston & L. R. Corp. 115 Mass. 416.

Under the Pennsylvania Statute requiring "That equal and impartial justice shall be done to all owners of property," a contract giving to one express company the exclusive right of transportation in passenger trains is unlawful and void.

Sandford v. Catawissa, W. & E. R. Co. 24 Pa. 378; Audenried v. Philadelphia & R. R. Co. 68 Pa. 370.

The English commissioners have no power to make an order on two railway companies to act jointly in doing what neither company has power to do separately.

Toomer etc. v. London etc. R. Co. 3 Nev. & Mac. 79.

Stations; Yards; Terminal Facilities.

A railway company may be required to furnish proper station facilities, and prevented from abandoning stations already established.

State v. New Haven & N. R. Co. 37 Conn. 153; 42 Conn. 56; New Haven & N. Co. v. Hammersley, 104 U. S. 1 (26 L. ed. 629); R. Comrs. v. Portland & O. C. R. Co. 63 Maine, 269; Com. v. Eastern R. Co. 103 Mass. 254; State, Moore, v. Chicago, St. P. M. & O. R. Co. 19 Neb. 476; Cincinnati Stock Yards Co. v. U. R. Stock Yards Co. 7 Cin. Week. L. Bul. 895.

A railway company is bound to establish new stations and siding accommodations for passengers and traffic, reasonably sufficient for the business.

Local Board etc. v. N. E. R. Co. 3 Nev. & Mac. 306; Harris v. London etc. R. Co. 3 Nev. & Mac. 331; Caterham R. Co. v. London, B. & S. C. R. Co. 1 C. B. N. S. 410; S. C. 26 L.

J. C. P. 161; 1 Nev. & Mac. 81; Hastings Town Council v. South Eastern R. Co. 3 Nev. & Mac. 179; South Eastern R. Co. v. Railway Comrs. L. R. 6 Q. B. Div. 586; 50 L. J. Q. B. D. 201; 3 Nev. & Mac. 464; London etc. R. Co. v. Staines etc. R. Co. 3 Nev. & Mac. 48.

A railway company may be required to provide a waiting room for passengers and to have platforms extended for the accommodation of traffic, and siding accommodations for the reception and delivery of goods without delay.

London etc. R. Co. v. Staines etc. R. Co. 3 Nev. & Mac. 48; Holyhead Local Board v. London R. Co. 4 R. & Can. Traf. Cas. 37.

But the commissioners cannot order accommodation to be provided which will require the company to take additional land which it has no immediate power to take.

Harris etc. v. London etc. R. Co. 3 Nev. & Mac. 331.

In the case of Hastings Town Council v. London etc. R. Co. (Hastings Town Council v. S. E. R. Co. 3 Nev. & Mac. 179; South Eastern R. Co. v. Railway Comrs. L. R. 6 Q. B. Div. 586; 50 L. J. Q. B. 201; 3 Nev. & Mac. 464); it was held that the commissioners had jurisdiction to require a railway company to afford cattle accommodations and better facilities for the delivery of tickets at the booking office; but that other orders, relating to the construction of platforms and the erection of a bridge and the providing of a refreshment room, were erroneous.

A railroad unjustly discriminates against a town by placing its depot a mile and one half distant at its junction with another road.

State, Mattoon, v. Republican Valley R. Co. 17 Neb. 647; State, Moore, v. Chicago, St. P. M. & O. R. Co. 19 Neb. 476.

A company has no right to afford to one coal merchant superior facilities for storing coal.

West v. London & N. W. R. Co. L. R. 5 C. P. 622; S. C. 39 L. J. C. P. 282; 23 L. T. N. S. 371; 1 Nev. & Mac. 166.

A railway company cannot bind itself to deliver to a particular stock yard all the live stock going over its line to a certain point, but is bound to transport and deliver to all stock yards on equal terms; and the performance of this duty may be compelled by injunction at the suit of the proprietor of the stock yard discriminated against.

McCoy v. Cincinnati I. St. L. & C. R. Co. 13 Fed. Rep. 8; Cincinnati Stock Yards Co. v. U. R. Stock Yards etc. Co. 7 Cin. Week. L. Bul.; Coe v. Louisville & N. R. Co. 3 Fed. Rep. 775; Keith v. Ky. Cent. R. Co. 1 Inters. Com. Rep. 601.

When a railway company has fixed its rates for the transportation of grain from a given station on its line to Chicago, it cannot charge different rates for delivery to different warehouses in Chicago, on the line of its tracks.

Vincent v. Chicago & A. R. Co. 49 Ill. 38.

Undue delay in delivering traffic is ground of complaint.

Cent. Wales R. Co. v. G. W. R. Co. 2 Nev. & Mac. 191.

An exclusive privilege or unequal rights to omnibus, cab or fly proprietors are prohibited.

Marriott v. London & S. W. R. Co. 1 C. B. N. S. 499; S. C. 26 L. J. C. P. 154; 1 Nev.

& Mac. 47; *Beadell v. Eastern Counties R. Co.* 26 L. J. C. P. 250; 1 Nev. & Mac. 56; *Painter v. London, B. & S. O. R. Co.* 2 C. B. N. S. 703; 1 Nev. & Mac. 58; *Ilfracombe etc. Co. v. London etc. R. Co.* 1 Nev. & Mac. 61.

A railway company admitting its own vans, used for the carriage of goods, to the railway station after 6:30 P. M., but excluding the vans of others, thereby gives an unreasonable preference to its own traffic.

Palmer v. London, B. & S. C. R. Co. 1 Nev. & Mac. 271; *S. C.* 40 L. J. C. P. 133; 24 L. T. N. S. 135; *Garton v. Bristol & E. R. Co.* 6 C. B. N. S. 639; *S. C.* 28 L. J. C. P. 306; 1 Nev. & Mac. 218; *Baxendale v. London & S. W. R. Co.* 12 C. B. N. S. 758; 1 Nev. & Mac. 281.

Carriage of Passengers.

A common carrier cannot refuse to carry nonunion laborers because liable to assaults of union men.

Chicago & A. R. Co. v. Pillsbury (Ill.) 6 West. Rep. 790.

Discrimination is permitted against passengers who do not purchase tickets; equal facilities being afforded to all to purchase.

Forsee v. Alabama G. S. R. Co. 63 Miss. 67. Under the Massachusetts Statute (the general Railroad Act, 1874, chap. 372), § 138, requiring equal terms for the transportation of all persons or property, *held*, that a student who had paid the regular price of a season ticket was not entitled to recover the difference between the price paid and that which the company made to students upon special application.

Spofford v. Boston & M. R. Co. 128 Mass. 326.

The Interstate Commerce Law does not permit the sale of tickets to any class of people at rates different from those established for the general public. The fact that it is very desirable for the defendant to make sale of its lands is not a reason for discriminating in favor of explorers or settlers.

Smith v. Northern P. R. Co. 1 Inters. Com. Rep. 611.

The petition alleged that the defendant railroads had, prior to the time when the Interstate Commerce Act went into effect, entered into an arrangement with petitioner to allow 150 pounds of extra free baggage to passengers presenting the "baggage indemnity certificate" issued by petitioner, and that the defendants now refuse to make such allowance of extra free baggage, *held*:

(a) That there is nothing in the facts disclosed by the evidence which involves any question of unjust discrimination or extortion, or any other matter over which the Commission has jurisdiction;

(b) That the power to enforce contracts has not been confided to the Commission; nor has it any general power or authority to manage the business of carriers, but only a limited power, expressly defined by the Act, to interfere to prevent wrong and oppression in specified cases.

Traders & Travelers Union v. Phila. & R. R. Co. 1 Inters. Com. Rep. 371.

The defendant companies, in prohibiting their agents from receiving commissions and in

refusing to sell through tickets over the roads of complainants while the latter insists on paying commissions to defendant's agents, have not contravened the provisions of the third section of the Act, which require that railroad companies shall "afford all reasonable, proper and equal facilities" to connecting lines, etc. *Morrison, C.*, dissents.

Chicago & A. R. Co. v. Pa. Co. 1 Inters. Com. Rep. 357.

In the absence of statutory authority one railroad company can sell tickets and check baggage over the road of another company only by agreement; and the Act to Regulate Commerce does not in terms require one railroad company to sell through tickets over the road of another company. *Id.*

Held, that upon the evidence offered, the Commission cannot find that \$25 per 1000 miles is an unreasonable rate for mileage tickets. *Id.*

The Commission declines, in the absence of an actual case, to pass upon the question of the propriety of railroads continuing the issuance of free passes to the United States Fish Commission and the National Museum, to enable their employees to carry on their official duty at less expense to the United States. *Id.*

Commercial travelers are not entitled to mileage tickets at lower prices than they are sold to the public generally. *Id.*

Where a railroad ticket broker, having no apparent interest in the transaction, presented a complaint alleging unjust discrimination on the part of a railroad company in permitting a certain person to transfer to another the return portion of a passage ticket, while it refused to grant the same privilege to a third person holding a ticket alleged to be similar (but which was not so in fact) *held*, that the person aggrieved, should complain in his own name, and that the complaint by the ticket broker would not be entertained.

Ottinger v. Southern P. R. Co. 1 Inters. Com. Rep. 607.

A colored passenger having purchased a first class ticket is entitled to passage in a first class car; unjust preference, under section 8 of the Interstate Commerce Act, would not result from separating white and colored passengers, by providing cars equally safe and comfortable.

Councill v. Western & A. R. Co. 1 Inters. Com. Rep. 683; *Heard v. Georgia R. Co.* 1 Inters. Com. Rep. 719.

Upon complaint to recover pecuniary damage for the ejection of a colored passenger from a first class car, the Commission has no power to award damages, since, under the amendment of the Constitution, the defendant is entitled to a trial by jury, in which case the plaintiff may recover attorney's fees under section 8 of the Act to Regulate Commerce, "to be fixed by the court."

Councill v. Western & A. R. Co. 1 Inters. Com. Rep. 688.

Railroads have a right to grant special privileges to religious teachers.

Re Religious Teachers, 1 Inters. Com. Rep. 21.

The proviso in section 22 of the Interstate Commerce Act "That nothing in this Act shall apply to * * * the issuance of mileage * * *

passenger tickets," applies only to the act of issuing or giving out such tickets; the terms, conditions and circumstances upon which the sale of such tickets is made are subject to and must be in accordance with the Act in its general provision.

Larrison v. Chicago & G. T. R. Co. 1 Inters. Com. Rep. 369.

A sale of mileage tickets to commercial travelers at a certain rate, and a refusal to sell to other passengers except at a higher rate, is an unjust discrimination, within the meaning of the Act. *Id.*

A release of liability by commercial travelers to the railroad company does not constitute a good and sufficient consideration for such discrimination; nor does the fact that they may influence business in favor of the road, etc. *Id.*

Common carriers may continue the issuance of mileage passenger tickets, the charges for which must be reasonable and just, and free from unjust discrimination or unreasonable preference. *Id.*

Persons belonging to the class known as commercial travelers are not privileged to ride over railroads at lower rates than other persons, and to make a difference in this respect is unjust discrimination; this is true whether tickets issued are mileage tickets or in some other form. *Id.*

Neglect on the part of a railroad company to publish rates for mileage tickets is a violation of the Act. *Id.*

The fact that excursion or commutation tickets are put on sale at a given rate, does not entitle the purchaser of a mileage ticket (each class of tickets being issued for distinct purposes and the form of contract in each case being different) to complain of unjust discrimination if charged a higher rate.

Associated Grocers of St. Louis v. Mo. P. R. Co. 1 Inters. Com. Rep. 393.

As the United States Commission of Fish and Fisheries is one of the agencies of the government, and the distribution of fish and eggs by that Commission is by authority of the government, the transportation of fish and eggs so distributed falls within the exception of section 22 of the Act.

Re U. S. Commission of Fish and Fisheries, 1 Inters. Com. Rep. 606.

Long and Short Haul; Fourth Section.

There is no counterpart of the fourth section of the Act of Congress in English legislation; but statutes of similar character are to be found in Illinois. (Act of May 2, 1873, § 3; R. S. 183, p. 884, § 125; Starr & Curt. Stat. § 147); Massachusetts (General Railroad Act, 1874, chap. 372, § 140); and Oregon (Act of February 28, 1885, § 4; Laws of 1885, p. 38.)

But a larger charge for a shorter haul is an undue preference under the English Statutes.

Budd v. London & N. W. R. Co. 4 R. & Can. Traf. Cas. 393; *S. C.* 86 L. T. N. S. 802; and the same charge for a shorter haul; *Denaby Main Colliery Co. v. Manchester, S. & L. R. Co.* 3 Nev. & Mac. 426.

But reductions in fare in favor of longer distances are proper.

Hozier v. Caledonian R. Co. 24 L. T. 339; 1 Nev. & Mac. 27; *Jones v. Eastern Counties*

R. Co. 3 C. B. N. S. 718; 1 Nev. & Mac. 45; *Ransome v. Eastern Counties R. Co.* 1 Nev. & Mac. 117.

"Circumstances and conditions" of transportation are not changed by any of the following considerations:—Developing a new trade.

Denaby Main Colliery Co. v. Manchester, S. & L. R. Co. L. R. 11 App. Cas. 97;

Or to secure traffic that would otherwise go by other lines;

London & N. W. R. Co. v. Evershed, L. R. 3 App. Cas. 1029; *Oxlade v. North Eastern R. Co.* 1 C. B. N. S. 454; 1 Nev. & Mac. 72;

Competing with sea transportation;

Budd v. London & N. W. R. Co. 86 L. T. N. S. 802; 4 R. & Can. Traf. Cas. 393;

The place from which goods are shipped;

Ransome v. Eastern Counties R. Co. 4 C. B. N. S. 185; 1 Nev. & Mac. 109;

Place of destination;

Denaby Main Colliery Co. v. Manchester, S. & L. R. Co. *supra*.

Of the character of the shipper, as whether a rival.

Great Western R. Co. v. Sutton, L. R. 4 Eng. & Irish App. H. L. 226.

Pooling arrangements are contrary to common law, and to public policy and have been the subject of several statutory prohibitions.

State v. Vanderbilt, 37 Ohio St. 590; *Mo.*

Note on Railway Pools, 15 Fed. Rep. 667;

Central R. R. Co. v. Collins, 40 Ga. 582.

Cost of service constitutes a real difference in "circumstances."

Denaby Main Colliery Co. v. Manchester, S.

& L. R. Co. L. R. 11 App. Cas. 97; *Chicago &*

A. R. Co. v. People, 67 Ill. 11; *Ransome v.*

Eastern Counties R. Co. 1 Nev. & Mac. 117.

Constructions upon the English Statutes as

to the manner of making schedule of rates:

Colman v. G. E. R. Co. 4 R. & Can. Traf.

Cas. 108; *Watkinson etc. v. Wrexham etc. R.*

Co. 3 Nev. & Mac. 374; *Diphwys Casson Slate*

Co. v. Festiniog R. Co. 2 Nev. & Mac. 78;

Cairnes v. N. E. R. Co. 4 R. & Can. Traf. Cas.

221; *Clonmel Traders v. Waterford etc. R. Co.*

4 R. & Can. Traf. Cas. 92; *Jones v. N. E. R.*

Co. 2 Nev. & Mac. 108.

It is provided by the Illinois Statute of 1873,

§ 3, Starr & Curt. Stat. 1885, § 147, that "It

shall not be deemed a sufficient excuse or justification of such discriminations (same or

greater charge for short haul), on the part of

such railroad corporation, that the railway station

or point at which it shall charge or receive

the same or less rates of toll or compensation

for the transportation of such passenger or

freight, or for the use and transportation of

such railroad car the greater distance, than for

the shorter distance, is a railway station or

point at which there exists competition with

any other railroad or means of transportation."

The same principle is settled by the English decisions.

London & N. W. R. Co. v. Evershed, L. R. 3 App. Cas. 1029; *Budd v. London & N. W. R. Co.* 36 L. T. N. S. 802; 4 R. & Can. Traf. Cas. 398; *Thompson v. London etc. R. Co.* 2 Nev. & Mac. 115; *Greenoch v. S. E. R. Co.* 2 Nev. & Mac. 819; *Note*, 16 Am. L. Rev. 833.

In a case arising under the Oregon Act of February 20, 1885, the court directed the receiver to charge "No more for the carriage of goods for a shorter haul than a longer one in the same direction, except to and from points where the rate attainable is affected by water transportation, in which case he may carry at as low a rate as the water craft do, without reference to the length of the haul."

Ex parte Koehler, 23 Fed. Rep. 529; *S. O.* 25 Fed. Rep. 73; 21 Am. & Eng. R. R. Cas. 52-53.

As to construction of Illinois Statutes, see: *Chicago & A. R. Co. v. People*, 67 Ill. 11; *St. Louis, A. & T. H. R. Co. v. Hill*, 14 Bradw. (Ill. App.) 579; *Wabash etc. R. Co. v. People* (80 L. ed. 244); 1 Inters. Com. Rep. 81.

As to Massachusetts Statutes, see: *Com. v. Worcester & N. R. Co.* 124 Mass. 561.

The Statute of North Carolina (Code-§ 1966), which imposes a penalty on any railroad company which shall charge for transportation of any freight over its road a greater amount than shall be charged at the same time by it for an equal quantity of the same class of freight, transported in the same direction over any portion of the same railroad, of equal distance, is to be construed to mean that the compensation charged shippers for carrying an equal quantity of the same class of freight, going in the same direction, must be equal in amount for equal distances, no matter on what part of the road, at any time while its list of charges for carrying freight remains unchanged.

Hines v. Wilmington & W. R. Co. 95 N. C. 434.

A lower rate should not be made for the transportation of goods intended for export trade.

Twells v. Pa. R. Co. 3 Am. L. Reg. N. S. 728; *Mo. Pac. R. Co. v. Texas & P. R. Co.* 30 Fed. Rep. 2; *Denaby Main Colliery Co. v. Manchester, S. & L. R. Co.* L. R. 11 App. Cas. 97.

Carrying local passengers from one point on its line is not an identical service with that of carrying a through passenger from the same distance.

Union Pac. R. Co. v. U. S. 117 U. S. 355 (29 L. ed. 920). See also *Missouri Pac. R. Co. v. Texas & P. R. Co.* 30 Fed. Rep. 2.

A Statute of Illinois enacts that if any railroad company shall, within that State, charge or receive for transporting passengers or freight of the same class, the same or a greater sum for any distance than it does for a longer distance, it shall be liable to a penalty for unjust discrimination. The defendant in this case made such discrimination in regard to goods transported over the same road or roads, from Peoria in Illinois and from Gilman in Illinois

to New York; charging more for the same class of goods carried from Gilman than from Peoria, the former being eighty-six miles nearer to New York than the latter, this difference being in the length of the line within the State of Illinois.

Wabash, St. L. & P. R. Co. v. Ill. 118 U. S. 557 (30 L. ed. 244); 1 Inters. Com. Rep. 81.

The Supreme Court of the United States follows the Supreme Court of Illinois in holding that the Statute of Illinois must be construed to include a transportation of goods under one contract and by one voyage from the interior of the State of Illinois to New York. *Id.*

And it held further that such a transportation is "commerce among the States," even as to that part of the voyage which lies within the State of Illinois, while it is not denied that there may be transportation of goods which is begun and ended within its limits and disconnected with any carriage outside of the State, which is not commerce among the States. *Id.*

The latter is subject to regulation by the State, and the Statute of Illinois is valid as applied to it. But the former is national in its character, and its regulation is confided to Congress exclusively, by that clause of the Constitution which empowers it to regulate commerce among the States. *Id.*

Notwithstanding what is said in *Munn v. Illinois*, and *Pelk v. Chicago & N. W. R. Co.*, in 94 U. S. 118, 164 (34 L. ed. 77, 97), the United States Supreme Court holds now, and has never consciously held otherwise, that a statute of a State, intended to regulate or to tax, or to impose any other restriction upon the transmission of persons or property or telegraphic messages from one State to another, is not within that class of legislation which the States may enact in the absence of legislation by Congress; and that such statutes are void even as to that part of such transmission which may be within the State. *Id.*

It follows that the Statute of Illinois, as construed by the Supreme Court of the State, and as applied to the transaction under consideration, is forbidden by the Constitution of the United States. *Id.*

The Commission has not been given a general dispensing power to relieve hardships under the Law, but its power in that regard is strictly limited.

Re Iowa Barb Steel Wire Co. 1 Inters. Com. Rep. 605.

The Interstate Commerce Law contemplates that the cases in which the Commission is authorized to make orders for suspension of its operation are exceptional cases, and that where only general reasons operate, the general law shall be left to its general course, however serious the consequences in particular cases.

Jurisdiction of the Commission, 1 Inters. Com. Rep. 73.

The mere probability that injury will result from the operation of the Act will not authorize the Commission to direct a suspension. *Id.*

Incidental injuries under the Act must be borne for the public good until the Legislature provides a remedy. *Id.*

The prohibition in the fourth section of the Interstate Commerce Act against a greater charge for a shorter than for a longer distance

over the same line, in the same direction, the shorter being included within the longer distance, as qualified therein, is limited to cases in which the circumstances and conditions are substantially similar.

Re Southern R. & Steamship Asso. 1 Inters. Com. Rep. 278.

The phrase "under substantially similar circumstances," in the fourth section, is used in the same sense as in the second section; and under the qualified form of the prohibition in the fourth section carriers are required to judge in the first instance with regard to the similarity or dissimilarity of the circumstances and conditions that forbid or permit a greater charge for a shorter distance. *Id.*

The judgment of carriers in respect to the circumstances and conditions is not final, but is subject to the authority of the Commission and of the courts to decide whether error has been committed or whether the statute has been violated. And in case of complaint for violating the fourth section of the Act, the burden of proof is on the carrier to justify any departure from the general rule prescribed by the statute by showing that the circumstances and conditions are substantially dissimilar. *Id.*

The provisions of section 1, requiring charges to be reasonable and just, and of section 2, forbidding unjust discrimination, apply when exceptional charges are made under section 4, as they do in other cases.

Re Southern R. & Steamship Asso. 1 Inters. Com. Rep. 278.

The existence of actual competition, which is of controlling force in respect to traffic important in amount, may make out the dissimilar circumstances and conditions, entitling the carrier to charge less for the longer than for the shorter haul over the same line in the same direction, the shorter being included in the longer, in the following cases:

(a) When the competition is with carriers by water which are not subject to the provisions of the statute;

(b) When the competition is with foreign or other railroads which are not subject to the provisions of the statute;

(c) In rare and peculiar cases of competition between railroads which are subject to the statute, when a strict application of the general rule of the statute would be destructive of legitimate competition. *Id.*

When the greater charge in the aggregate is made for the transportation of passengers or the like kind of property for a shorter than for a longer distance over the same line in the same direction, the shorter being included in the longer distance, it is not sufficient justification therefor that the traffic which is subjected to such greater charge is way or local traffic, and that which is given the more favorable rates is not.

(a) Nor is it sufficient justification for such greater charge that the short haul traffic is more expensive to the carrier, unless when the circumstances are such as to make it exceptionally expensive, or the long haul traffic exceptionally inexpensive, the difference being extraordinary and susceptible of definite proof;

(b) Nor that the lesser charge on the longer haul has for its motive the encouragement of

manufactures or some other branch of industry;

(c) Nor that it is designed to build up business or trade centers;

(d) Nor that the lesser charge on the longer haul is merely a continuation of the favorable rates under which trade centers or industrial establishments have been built up;

(e) The fact that long haul traffic will only bear certain rates is no reason for carrying it for less than cost at the expense of other traffic. *Id.*

The fact that there is competition in the carriage of persons or property to or from a particular place is a circumstance that justifies a common carrier under section 4 of the Interstate Commerce Act to charge less for a long haul to or from said place than a short one included therein.

Ex parte Koehler (U. S. C. C.) 1 Inters. Com. Rep. 317.

Passes to families of employees. Section 2 of the Interstate Commerce Act in effect prohibits the giving of passes or free carriage to particular persons; and the exception allowed in section 22, in favor of officers and employees of the road, does not include the families of such persons. *Id.*

Defendant railway company has two lines of nearly equal length, one starting from Providence and the other from East Providence, which unite at Valley Falls, whence the main line runs into Massachusetts. The rate charged by defendant on coal shipped at Providence is the same as on coal shipped at East Providence as far as Valley Falls and the next station; but beyond that point the rate on coal from Providence is ten cents per gross ton more than on coal from East Providence. *Held:*

(a) That this is an unjust discrimination; that if it is fair and reasonable for the defendant to make the charge to Valley Falls from the two termini the same, there can be no justification for making different rates to stations beyond, based upon the fact that the coal comes from one terminus rather than from the other;

(b) That the evidence fails to support the contention of defendant that the extra rate upon coal received at Providence is only a fair equivalent for the additional cost of handling it there;

(c) That under all the circumstances it is not admissible for defendant to impose upon its patrons at Providence, whose investments were made before the East Providence line was constructed, an additional charge because of the inconvenience attending the transaction of its business at that station, and for which they are in no way responsible.

Providence Coal Co. v. Providence & W. R. Co. 1 Inters. Com. Rep. 868.

The defendant railway company had for some time paid the cost of hauling coal which was shipped by complainant, from complainant's wharf to defendant's freight station in Providence, without any contract obligation to that effect, but now refuses so to do. *Held*, that defendant cannot be compelled to continue paying for such hauling; that what defendant did for a time as a favor or by way of encouragement, it might discontinue at pleasure, and that there is nothing in the nature of a binding usage about it. *Id.*

Under the Interstate Commerce Act all charges made by the receiver of a railroad, in respect to such business as falls under the head of interstate commerce, for any service in the transportation of passengers or property, or for receiving, delivering, storing or handling property, must be reasonable and just; and such receiver may not discriminate in his rates, charges and facilities for or against either of two connecting steamship lines, but should give to both equal rates and facilities for trade and travel, for equal service, from all points.

Re Petition of Mallory, 1 Inters. Com. Rep. 294.

The complaint, in effect, asks from the Commission an order that shall require the defendant roads to receive freights at Schenectady for transportation at Boston, at rates less than are now charged by the same roads for the transportation of like freights to Boston from stations nearer Boston, under substantially similar circumstances and conditions.

Such order, if issued, would require the roads to depart from the general rule laid down in the fourth section of the Act.

While the Act authorizes the Commission to permit exceptions, it does not authorize it to require exceptions.

The Commission has not power to make rates generally, but only to determine whether rates imposed by the railroads are in conflict with the statute.

The question whether the rates now charged complainant are excessive is not raised by the complaint.

Thatcher v. Fitchburg R. Co. 1 Inters. Com. Rep. 356.

By the word "line" in the Act, a physical line is meant, not a business arrangement; and one line of road may be part of several lines.

Boston & A. R. Co. v. Boston & L. R. Co. 1 Inters. Com. Rep. 571.

Where, in a proceeding against several connecting railroad companies for charging more for a short than for a long haul, one of the companies claims that its only participation in the alleged offense consisted in its sharing in the low charges on the long haul, which were not in themselves alleged to be illegal, the complaint should not be dismissed as against such company, where its interest and the liability of the low rates on long haul traffic to be affected by changes made in the higher rates on short haul traffic is so great that in case such company had not been made a party, and should ask to be made a party, it would be proper to so order.

Boston & A. R. Co. v. Boston & L. R. Co. 1 Inters. Com. Rep. 571.

Where, in a proceeding by one railroad company against other companies, for charging more for a short than for the long haul, it appears that the rates alleged to be illegal are local rates; that the petitioner does not pay or participate in paying them; that they are not competitive rates to those imposed on the petitioner's road; and there is no allegation that such rates are excessive or unjust, and the sole grievance of the petitioner is that the defendant companies accept through traffic at lower rates than are made by the petitioner and its

connections—such petitioner has no standing to maintain the proceeding. *Id.*

The right to make greater charges for short than for long hauls is exceptional and depends in every case upon the peculiar circumstances and conditions; and a ruling in reference thereto in the case of one carrier would not be applicable to another carrier differently circumstanced. *Id.*

If several railroad companies join in making the joint tariff which constitutes the lesser charge on the longer haul, while one or more of their number makes the greater charge on the shorter haul, the case is within the fourth section of the Act; and those who make such greater charge are called upon to justify it. *Id.*

Through business over the defendant companies' roads was done by the National Despatch Line (a fast freight line, neither a corporation nor an association of persons, but a name under which business was done), the several roads paying mileage for the cars used, furnished to such line by a car company, and the earnings of such line being divided among the roads in agreed proportions. The tariff for the long haul traffic in question was made by the manager of the Despatch Line, who was the agent for all the roads over which it did business, and was acquiesced in by them. Held, that the defendant companies were responsible for the long haul rates. *Id.*

Held, that such peculiar facts are not found to exist as will justify the greater charge over the shorter line by the Central Vermont Roads. *Id.*

Facts examined, and held:

That defendant receives a greater compensation for its haul from Indianapolis to Michigan City than it does for its haul from Frankfort to South Watah, and consequently does not on its own line charge more for the shorter haul;

That defendant does not, and cannot, control the fixing of rates by the crossing and intersecting lines, and has no option but to accept those rates which are fixed, and prorate upon them, or to cease to take grain altogether;

If it is desired to test the reasonableness of the through rate from Frankfort to New York, all the roads responsible for it should be made defendants. It is not enough to make the initial road defendant, unless that road has authority to make the rate for them all.

Allen v. Louisville N. A. & C. R. Co. 1 Inters. Com. Rep. 621.

Evidence examined, and held: the difference in the rates at Mazeppa, compared with the rates at Red Wing and Lake City should neither exceed 2½ cents on 100 pounds, nor one third part of the rates made in the adjustment of charges from competing towns.

Raymond v. Chicago M. & St. P. R. Co. 1 Inters. Com. Rep. 627.

On complaint of millers and others on the Iowa and Minnesota Division, of unjust discrimination; held:

(a) That the complaint is well founded; that the rate on wheat on that division is relatively too high; that while a reasonable differential may be allowed on that division, on account of greater distance and probable larger expense

of transportation and the greater stringency of the competitive forces on the River Division, the difference above the present rate on the River Division should not exceed $2\frac{1}{2}$ cents a hundred;

(b) That it is not a sufficient compliance with the Law that rates are reasonable in themselves; but they should be so relatively reasonable as to protect communities and business against unjust discrimination;

(c) That when the same carrier operates parallel lines, and for any cause accepts low rates on one line, it should furnish sufficient corresponding advantages to the patrons of the other lines to prevent undue prejudice and disadvantage, and to preserve the substantial equality contemplated by the statute.

Boards of Trade Union v. Chicago, M. & St. P. R. Co. 1 Inters. Com. Rep. 608.

The operation of section 4 of the Act suspended, for ninety days, as to the traffic of the petitioner between certain points.

Re Detroit, G. H. & M. R. Co. 1 Inters. Com. Rep. 17.

Petitioning railroad company relieved temporarily from the operation of the fourth section, on certain conditions.

Re Atchison, T. & S. F. R. Co. 1 Inters. Com. Rep. 58.

The operation of the fourth section of the Act suspended, in its application to certain railroads and connecting steamship lines, for a period not greater than ninety days, until the Commission can make a complete examination of the matters alleged in the petition.

Re Southern R. & Steamship Asso. 1 Inters. Com. Rep. 15.

The circumstances and conditions touching the transportation of passengers and freight to and from the Republic of Mexico through El Paso, Texas, by the Texas & Pacific R. Co. are (within the meaning of section 4 of the Interstate Commerce Act) so substantially different from those surrounding transportation to other points on said railway as to justify said company in establishing lower rates at El Paso on freight transported for export into and received from Mexico and for delivery at El Paso than is charged at points between that city and the points where the freights originate and where the distance and haul are shorter.

Re Tex. & Pac. R. Co. (U. S. C. C. E. D. of La.) 1 Inters. Com. Rep. 80.

For proceedings of the Commission relating to complaints for violation of the Fourth Section, applications for suspension, and orders suspending its operation, see Index *infra*, under title "Long and Short Haul."

RULES OF CONSTRUCTION.

Where English Statutes have been adopted, the settled construction of those statutes is incorporated in the Acts adopting them.

McDonald v. Hovey, 110 U. S. 619 (28 L. ed. 269); Cathcart v. Robinson, 30 U. S. 5 Pet. 265 (8 L. ed. 120); Pennock v. Dialogue, 27 U. S. 2 Pet. 1 (7 L. ed. 327); McCool v. Smith, 66 U. S. 1 Black, 459 (17 L. ed. 218); The Abbotsford, 98 U. S. 440 (25 L. ed. 168).

See Address by Senator Cullom, 1 Inters. Com. Rep. 300.

Transportation in a foreign country is not affected by the English Acts.

Branley v. South Eastern R. Co. 12 C. B. N. S. 63; Zunz v. South Eastern R. Co. L. R. 4 Q. B. 539; S. C. 38 L. J. Q. B. 209.

The Commission has no authority to call a railroad company to account for any wrong of which such company may have been guilty prior to April, 1887, when the Interstate Commerce Act went into operation.

Holbrook v. St. Paul, M. & M. R. Co. 1 Inters. Com. Rep. 323; Ottinger v. Southern P. R. Co. 1 Inters. Com. Rep. 607.

Where no overt acts of misconduct on the part of a defendant railroad company, which could support any judgment of the Commission or any mandatory order, are made to appear, the Commission has no discretion but to dismiss the complaint.

Holbrook v. St. Paul, M. & M. R. Co. 1 Inters. Com. Rep. 323.

RULES OF PRACTICE.

Rules of practice adopted by the Commission. Appendix I.

Sec. 1. Daily sessions at Washington.

" 2. Applications under section 4; petition; verification; notice.

" 3. Investigation by Commission.

" 4. Complaints under section 13; copies of complaint; names and addresses to be set forth; service of copies.

" 5. Answer within twenty days; filing; verification.

" 6. Hearing on complaint without answer.

" 7. Adjournment and extension of time.

" 8. Hearing on issue joined; failure to answer.

" 9. Subpenas; depositions. (See amendment, Appendix II.)

" 10. Amendments.

" 11. Copies.

" 12. Affidavits, before whom taken.

Applications to the Commission for special exception under the Act will be granted only after investigation of the facts, upon a verified petition formally presenting a case.

Re Southern P. R. Co. 1 Inters. Com. Rep. 16; Re Petition of R. Conductors, 1 Inters. Com. Rep. 18.

The Commission cannot make an order or give an opinion in advance of an actual complaint and hearing.

Re Inmates of Nat. Homes, 1 Inters. Com. Rep. 75; Re Petition of R. Conductors, and Re Theatrical Rates, 1 Inters. Com. Rep. 18.

A desire to obtain a construction of the Interstate Commerce Act is not sufficient to support a proceeding before the Commission.

Boston & A. R. Co. v. Boston & L. R. Co. 1 Inters. Com. Rep. 571.

But it is not held that a complainant must necessarily have a pecuniary interest in order to entitle him to be heard; and it seems, under the provisions of the Act, that when an infraction of the Act would constitute a public grievance, it may be the duty of the Commission to investigate it, when brought to its attention by a responsible party in a duly authenticated form. *Id.*

Held, that the persons composing the Vermont State Grange of the Patrons of Husbandry had such an interest that it was proper that they, as an association, should raise a question

as to the justice of the high rates complained of by them, and that the proceeding was maintainable upon their petition. *Id.*

When an important question is raised by the pleading in the case, the determination of which will affect others quite as much as the parties before the Commission, but the parties give their attention almost exclusively to the other questions, and neither by the evidence nor in argument supply the Commission with the information to enable it to be understandingly determined, the Commission will decline to decide it, and leave the parties to bring it forward again as they may be advised.

Rice v. Louisville & N. R. Co. 1 Inters. Com. Rep. 722.

An amendment to a complaint seeking to introduce new grievances and charges will not be allowed.

Riddle v. Balt. & O. R. R. Co. 1 Inters. Com. Rep. 701.

Where complaint was served on receiver of defendant company, naming him as its president and alleging that the prior receivership had determined, upon answer that the receivership still existed, leave was given to amend the complaint to show the existence of the receivership.

Reynolds v. Western, N. Y. & P. R. Co. 1 Inters. Com. Rep. 685.

A motion to dismiss a complaint denied, because: 1, no notice of motion had been given; and 2, because the object of the motion was to reach the merits of the case and have them passed upon summarily, instead of at the customary final hearing.

Associated Grocers of St. Louis v. Mo. P. R. Co. 1 Inters. Com. Rep. 321.

It is the desire of the Commission that the practice and proceedings shall be as simple as possible, and that final hearings be had forthwith, without the interposition of dilatory motions, etc. *Id.*

Complaint dismissed, where complainant failed to appear at the hearing after notice thereof.

Jackson v. St. Louis, A. & T. R. Co. 1 Inters. Com. Rep. 599.

On a petition charging the exaction of unreasonable rates, the burden of proof is on the petitioner to sustain the charges by evidence which shows with reasonable certainty that they are in substance true.

Harding v. Chicago, St. P. M. & O. R. Co. 1 Inters. Com. Rep. 375.

Hence, petition charging that the rates on twine for harvesters, from Chicago to Hudson, was unreasonable, dismissed without prejudice, where the answer denied that the rate was unreasonable, and showed that it had been reduced, and neither party offered any evidence. *Id.*

The complaint charged unjust discrimination in exacting an extra rate for transporting cattle in a Burton stock car; the answer denied the fact of unjust discrimination, and no proof was given by either side. *Held*, that it is impossible for the Commission to say that if all the facts were before it, the greater charge could not be justified; and hence, as it is not suggested that further proceedings are desired, the case must stand dismissed, but without prejudice.

INTER 8.

Leonard v. Union P. R. Co. 1 Inters. Com. Rep. 627.

The Interstate Commerce Act contemplates that when a complaint is made against a carrier, on the ground of exorbitant rates, the carrier may change its rates before a hearing is had, so as to remedy the matter complained of, if it shall see proper so to do.

Fulton v. Chicago, St. P. M. & O. R. Co. 1 Inters. Com. Rep. 375.

Hence, petition dismissed without prejudice, where it appeared from a reply filed by the complainant to the defendant's answer, that the rates originally complained of had been reduced, and no complaint was made against such reduced rates. *Id.*

If, at a hearing before the Commission, of a complaint against a railroad company, the defendant avows a purpose to comply with the Law, the Commission must not only assume that the company will do so but must act upon that assumption until it has evidence that the purpose is not lived up to.

Holbrook v. St. Paul, M. & M. R. Co. 1 Inters. Com. Rep. 323.

Under the English Act, where the company admitted having made an undue preference, but asserted that the cause of complaint had been removed before the application for an injunction had been filed, so that it was not necessary that an injunction should issue, *held*, that the complainant was entitled to an injunction for the future.

Macfarlane v. N. B. R. Co. 4 R. & Can. Traf. Cas. 269.

But an attachment for disobedience to a writ of injunction was refused where it appeared by affidavits of the company that it was endeavoring to conform to the order of the court, although it appeared that the reformed scale of charges still operated in some respects injuriously to the interests of the complainants and advantageously to the other parties.

Ransome v. Eastern Counties R. Co. 4 C. B. N. S. 159; 1 Nev. & Mac. 116.

While the Commission will grant an application for rehearing for the correction of an error of law or fact, it will not direct a rehearing involving an expense to parties, unless satisfied that reargument may have the effect of changing the result. Where the relation of any carrier to the matter complained of is such that it is, in whole or in part, materially responsible for the alleged grievance, and has direct interest in any investigation of the subject matter involved, and the merits of the controversy cannot be investigated and determined in the absence of such carrier as a party, then that carrier should be made a party to the proceeding, and if not a party, no relief can be had against it.

Riddle v. Pittsburgh & L. E. R. Co. 1 Inters. Com. Rep. 778.

The Commission will not express an opinion where neither by complaint nor by application for relief is a case stated which will come within its jurisdiction.

Re Iowa Barb Steel Wire Co. 1 Inters. Com. Rep. 605.

The Commission has no power to construe, interpret or apply the Interstate Commerce Act in advance of an actual act or omission on the

part of a common carrier in contravention of the provisions of the Act.

Re Petition of R. Conductors, 1 Inters. Com. Rep. 18; Jurisdiction of the Commission, 1 Inters. Com. Rep. 73.

Upon petitions by railroad companies praying the Commission to "authorize the trunk lines to bill export freight to Boston at New York rates" etc., *held*, that as any legal ground for affirmative action on the part of the Commission was precluded by the fact that the parties bringing the practice to the attention of the Commission did so with explanations of its propriety and insisting upon its lawfulness, no order should be made on the petitions, but leave should be given to withdraw them.

Re Export Trade of Boston, 1 Inters. Com. Rep. 25.

The report and findings of the Commission upon the evidence relate only to the ascertainment and presentation of all the material facts necessary to fairly and justly present the merits of the controversy; and the Commission

does not report evidence which is only cumulative, or which is immaterial or irrelevant, or mere details of evidence already embraced in substantial facts stated, upon which the findings and conclusions of the Commission are made.

Riddle v. Pittsburgh & L. E. R. Co. 1 Inters. Com. Rep. 773.

Where the pleadings present issues of fact which cannot be disposed of by a decision which shall reach the merits without some evidence, and no evidence is presented, the case must be dismissed.

Leonard v. Union P. R. Co. 1 Inters. Com. Rep. 627.

The Commission will not make an award of damages where the defendant is entitled to have the amount assessed by a jury.

Riddle v. New York, L. E. & W. R. Co. 1 Inters. Com. Rep. 787; Heck v. E. Tenn. V. & G. R. Co. 1 Inters. Com. Rep. 775; Council v. Western & A. R. Co. 1 Inters. Com. Rep. 638; Heard v. Ga. R. Co. 1 Inters. Com. 719.

INDEX.

ACT TO REGULATE COMMERCE. (INTERSTATE COMMERCE ACT.)

1. Mere desire for construction of Act is not sufficient to support proceeding charging violation of section 4. *Boston & A. R. R. Co. v. Boston & L. R. R. Co.* 571.

2. The Commission can not construe the Act before violation thereof. *Re Theatrical Rates*, 18; *Re Order of Railway Conductors*, 18.

3. Explanation of design of Act as bearing upon its construction. *Address by Senator Cullom*, 300.

4. While the Act authorizes the Commission to permit exceptions, it does not authorize it to require exceptions. *Thatcher v. Fitchburg R. R. Co.* 356.

BRIEFS AND NOTES.

Rules of construction. *Note*, 872.

ADJOURNMENT. See CONTINUANCE AND ADJOURNMENT.

AFFIDAVITS.

May be taken before any officer authorized to administer oath. *Rule 12, Appendix I*, 842.

AGENTS AND BROKERS. See COMMERCE, II, b; COMMERCIAL TRAVELERS.

1. Companies may forbid their agents to receive commissions for sale of tickets over other company's roads. *Chicago etc. R. R. Co. v. Pennsylvania Co.* 357.

2. The practice of paying commissions for such sales is not proper. *Id.*

3. A complaint by ticket broker, having no apparent interest in the transaction, will not be entertained. *Ottinger v. Southern Pac. R. R. Co.* 607.

AMENDMENT. See PLEADING AND PRACTICE, III.

ANIMALS. See COMMERCE, 41; LIVE STOCK.

ANSWER. See PLEADING AND PRACTICE, II.

APPEAL AND ERROR.

In cases arising under the law merchant, the Supreme Court of the United States has held itself less bound by the decisions of the state courts than in other cases. Cited in *Smith v. Alabama* (U. S. L. ed. 508) 809.

APPLICATIONS. See LONG AND SHORT HAUL, III; RULES, 2, 3.

BAGGAGE.

1. The Commission will not make rules
INTER 8.

as to free baggage until violation of Act is charged. *Re Order of Railway Conductors*, 18, 62, 815, 871; *Traders & Travelers Union v. Phila. & Reading R. Co. Id.*

2. The Commission has no jurisdiction in a case presented involving agreement between Traders & Travelers Union and certain carriers, for allowance of extra free baggage to passengers presenting "baggage indemnity certificate" issued by such Union, under arrangement made prior to time when Act went into effect. *Id.*

BICYCLERS.

Communication that bridge company discriminates against bicyclers. *Re Kenton Wheel Club of Covington*, 23.

BILL OF LADING. See COMMERCE, 52.

Where a bill of lading specifies the rate per 100 pounds to be paid for goods carried but does not state their weight, which was readily ascertainable, the sum to be paid is sufficiently specified to accomplish the object of the Act. *Little Rock & F. S. R. Co. v. Hanniford* (Sup. Ct. Ark.) 530.

BRIDGES. See BICYCLERS.

1. Power to regulate commerce between States extends to erection of piers, bridges and all other instrumentalities of commerce which, in the judgment of Congress, may be necessary or expedient. *Stockton v. Baltimore etc. R. R. Co.* (U. S. C. Ct. N. J.) 411.

2. Act of Congress of June 16, 1886, authorizing construction of bridge across Staten Island Sound, known as Arthur Kill, is valid under power of Congress to regulate interstate commerce. *Id.*; *Decker v. Baltimore etc. R. R. Co.* (U. S. C. Ct. N. Y.) 434.

BRIEFS AND NOTES.

Power of Congress to authorize foreign corporation to build bridge. (U. S. C. Ct. N. J.) 414, 426, 435.

IV. REFUSAL TO FURNISH CARS.

V. REFUSAL TO AFFORD FACILITIES TO CONNECTING LINES.

VI. CARRIAGE OF PASSENGERS.

BRIEFS AND NOTES.

See LONG AND SHORT HAUL; RATES; TICKETS.

I. IN GENERAL.

1. **Powers and procedure of the Commission.** 408, 446.

2. Section 1 requiring charges to be reasonable, and section 2, forbidding unjust discrimination, apply when **exceptional charges** are made under section 4, as they do in other cases. *Re Southern R. & S. Asso. (Re Louisville & Nashville R. Co.)* 278.

3. A variety of practical considerations must enter into making of **freight rates** and determine to a great extent whether rates are reasonable. *Evans v. Oregon Railway & Navigation Co.* 641.

4. Railroad companies cannot be required to make **freight rates upon mere conjectures.** *Id.*

5. The **burden of proving** the exaction of **unreasonable rates** is on petitioner. *Harding v. Chicago etc. R. R. Co.* 375.

II. DISCRIMINATION AGAINST LOCALITIES.

a. Rules as to Rates.

6. The **relative reasonableness** of rates from western points to Atlantic seaboard is **governed by circumstances** and conditions affecting traffic to points between which rates are given. *Boston Chamber of Commerce v. Lake Shore & M. S. R. Co.* 754.

7. The length and character of the haul, the cost of the service, the volume of the business, and the conditions of competition, etc., are **elements bearing upon such charges.** *Id.*

8. Rates should be so **relatively reasonable** as to protect communities and business against unjust discrimination. *Boards of Trade Union v. Chicago, M. & St. P. R. Co.* 608.

9. A carrier operating parallel lines and accepting **lower rates on one line** should make corresponding charges on other line. *Id.*

10. When a railroad company in establishing its charges on the different branches of its road so adjusted them as to divert trade and business to one locality, such **unreasonable preference for one place is not excused** by the fact that the rates are the result of **competition** with other carriers. *Raymond v. Chicago, M. & St. P. R. Co.* 627.

11. An **advantage given to a competing town** on a main line must not be unreasonable. *Id.*

12. It is not ground of complaint that railroad company **equalizes its rates as between**

small and large towns, although the effect may be prejudicial to the latter. *Crews v. Richmond & D. R. Co.* 703.

13. The purpose of the Interstate Commerce Act requires that when circumstances will fairly admit of it, **charges** to all points for like service should be made **relatively equal.** *Id.*

14. When the reasonableness of rates is in question, charges on long **through lines** cannot offer a just basis for comparison with **local rates** for relatively short distances. *Id.*

15. A **carrier is not responsible for rates** made by **connecting road** merely because of its giving them in connection with its own rates to parties making through shipments. *Id.*

16. That a **refusal to give a through rate** as for one shipment operates prejudicially to the town desiring privilege, does not make the refusal an unjust discrimination, when the carrier **applies the same rule to all towns.** *Id.*

17. **Discrimination** must consist of allowing one party what is denied another. *Id.*

18. **Carrier need not give** the merchants of towns on its line the **privilege** of shipping their goods from the point of purchase to their own locality and from there to the place of sale of the goods, at the same rate as would have been charged from the point of purchase to the point of ultimate delivery. *Id.*

b. Particular Localities.

19. Beatrice, Neb.—*Beatrice Board of Trade v. Union Pacific R. Co. et al.* 701.

20. Biloxi in favor of New Orleans—*Dunbar v. Louisville & Nashville R. Co.* 592.

21. Boston—*Boston Chamber of Commerce v. Boston & Albany R. Co. et al.* 854, 891, 462, 604.

22. There is no unjust discrimination in charging more to Boston than to New York in rates from Chicago. *Id.* 754. *Export Trade of Boston, Re*, 18, 23, 25; *Fitchburg R. Co.* 26.

23. Carriage by indirect route—*Ketron v. Norfolk & Western R. Co.* 483, 588.

24. Delaware—Fruits and vegetables—*Delaware State Grange v. New York, Phila. & Norfolk R. Co. et al.* 649.

25. Detroit, Mich.—*Detroit Board of Trade v. Grand Trunk R. Co.* 698, 701.

26. Hartford, Conn.—Water Commerce—*Hartford & N. Y. Trans. Co. v. New York & New England R. Co.* 814.

27. Hartwell, Ga.—*McMullan v. Richmond & Danville R. Co.* 483.

28. Hot Springs, N. C.—*Hot Springs v. Western N. C. R. Co.* 816.

29. Hudson, Minn.—*Fulton v. Chicago, St. Paul, M. & O. R. Co.* 375; *Harding v. Same*, 375.

30. Lincoln, Neb.—*Lincoln Board of Trade v. Chicago, B. & Q. R. Co. et al.* 647; *Lincoln Board of Trade v. Southern Pacific R. Co.* 647, 702; *Lincoln Board of Trade v. Union Pacific R. Co.* 702; *Plummer v. Union Pacific R. Co. et al.* 648.

31. Marshallville, Ga.—*Slappey v. Central R. Co. of Ga. et al.* 675, 812.

32. Milwaukee, Wis.—*Milwaukee Chamber of Commerce v. Flint & Pere Marquette R. Co. et al.* 774, 792.

33. Minneapolis, Minn.—*St. Louis Millers' Assn. R.* 22.

34. New Orleans, La.—Cotton—*New Orleans Cotton Exchange v. New Orleans, Cincinnati & Texas Pac. R. Co.* 648.

35. Opelika, Ala., in favor of Montgomery and Columbus—*Columbus & Western R. Co.* 314, 494; *Harwell v. Columbus & Western R. Co.* 494, 631; *Re Opelika Board of Trade*, 314, 494, 631.

36. Phillipstown and Brady's Bend—Coal—*Allegheny River Coal Producers Assn. v. Allegheny Valley R. Co.* 604.

37. Providence and East Providence, R. I.—A higher rate on coal from Providence than from East Providence is an unjust discrimination, and under the circumstances it is not permissible to make an additional charge because of inconvenience attending transaction of business at East Providence. *Providence Coal Co. v. Providence & Worcester R. Co.* 316, 363.

38. Walla Walla, W. T.—The Oregon Railway & Navigation Company is ordered to cease charging more than 23½ cents per 100 pounds or \$4.70 per ton on wheat transported by it on its lines from Walla Walla, Washington Territory, to Portland, Oregon, during the present grain season. *Evans v. Oregon Railway & Navigation Co.* 314, 326, 641; *Reed v. Same*, 314, 328, 641.

III. TRANSPORTATION OF SPECIFIC ARTICLES.

39. The Commission should clearly see that duty requires an answer to the question, on *ex parte* application, whether special privileges by a railroad to manufacturers in a single line of trade, and not to manufacturers generally, is consistent with the law, before it does so. *Re Iowa Barb Steel Wire Co.* 605.

40. Beer from Milwaukee—*Stahl v. Oregon R. & Nav. Co.* 314.

41. Car load classifications—*Leggett v. Baltimore & O. R. Co.* 396; *Thurber v. New York Central & H. R. R. Co. et al.* 397, 684.

42. Cattle in Burton stock cars—*Leonard v. Union Pac. R. Co.* 472, 627.

43. The expense of hauling the Burton cars in one direction unloaded, since by their construction they are not suited to carry general freight, and the fact that a large percentage of ordinary cattle cars are back loaded upon long hauls of western roads, are considerations which justify difference in charge against shippers who prefer to hire improved stock cars. *Burton Stock Car Co. v. Chicago, Burlington & Quincy R. R. Co.* 329.

44. Classification of freights and underbilling—*Commercial Exchange of Phila. v. Erie Dispatch*, 778, 821; *Re Underbilling*, 778, 813, 821; *Walker v. Baltimore & O. R. Co. et al.* 649.

45. Underbilling weights of freight, whereby one person pays less compensation for like services than another is written inhibition of Act. *Re Underbilling*, 813.

46. Every carrier is held liable for correctness of weight and classification of freight received so far as same can be practically ascertained. *Id.*

47. Devices for evasion of Act commented on. *Id.*

48. Recommendations by Commission for regulations for detecting underbilling and of legislative action imposing penalty upon shippers guilty of underbilling. *Id.*

49. Coal rates—*Ohio Coal Exchange v. Wisconsin Cent. R. Co.* 793, 812; *Rend v. Chicago & N. W. R. Co.* 793, 812.

50. A discount allowed by a railroad company where consignments of coal in one year shall amount to 30,000 tons or upward is an unjust discrimination. *Providence Coal Co. v. Providence & Worcester R. Co.* 363.

51. Differences in rates per car load and less quantities—*Ayres v. Union Pacific R. Co.* 397; *Classification of Railroad Freights*, 317, 355.

52. Grain and flour from Schenectady, N. Y.—*Thatcher v. Fitchburg R. Co.* 356.

53. Live stock from Covington, Ky.—Carriers cannot make the yards of a certain company their exclusive stock depot at a certain place, there being other stock yards near by charging lower rates. *Keith v. Kentucky Central R. Co. et al.* 316, 601.

54. Lumber—Railroad Ties—Classification of railroad ties in different class from other lumber is an unjust discrimination. *Reynolds v. Western New York & P. R. Co.* 600, 685; *Reynolds v. New York & Phila. R. Co.* *Id.*

55. Rates of carrier under desire to keep upon its line a material for which it has use or to keep the price low for its own advantage cannot be justified. *Id.*

56. Lumber—Differences in rates between hewn and sawed lumber—*Jackson v. St. Louis, Arkansas & Texas R. Co.* 476, 599.

57. Lumber from Dalton, Ga.—*Farrar v. East Tennessee, Va. & Ga. R. Co. et al.* 600, 784.

58. Lumber from Fair Haven, Vt.—*Griffith v. Delaware & Hudson Canal Co.* 396, 433.

59. Meat products from Chicago—"Dressed Meat Cases," 294, 303, 314, 464.

60. Milk from Orange Co. N. Y.—*Howell v. New York, L. E. & W. R. Co.* 467; *Re Milk Traffic*, 24, 292, 315, 467.

61. Mineral water from Lansing, Mich.—*Michigan Congress Water Co. v. Chicago & G. T. R. Co.* 797.

62. Pearline, classification—*Pyle v. Southern Railway & Steamship Assn.* 486.

63. Pearline must be placed in fifth class freight in classification of Southern Railway & Steamship Association, and relative difference in rates on pearline and common soap must not exceed difference of sixty cents per 100 pounds on pearline and thirty-three cents on common soap. *Pyle v. East Tennessee, Va. & Ga. R. Co.* 600, 767.

64. Rates for carrying pearline and common soap to be maintained by Southern Railway & Steamship Association, stated. *Id.*

65. Statement of grounds of difference of classification of freight by railroad companies given. *Id.*

66. Petroleum oil—*Brady v. Pa. R. Co.* 649, 810; *Nicola v. Pa. R. Co.* 649, 810; *Rice v. Western N. Y. & P. R. Co.* 717, 792, 795, 811; *Rice v. Louisville & Nashville R. Co. et al.* 854, 876, 443, 478-482, 722.

67. Terms for rolling stock for transportation of petroleum oil should be uniform and published with rate sheets. *Rice v. Louisville & Nashville R. Co.* 722.

68. If from peculiarity of traffic, carrier cannot supply such stock, and consignors supply it for themselves carriers must not allow its deficiencies in this particular to be made means of putting at advantage those who make use in same traffic of facilities it supplies. *Id.*

69. Charge of transportation of oil in tank cars should be same as charged for transportation of barrel shipments of oil. *Id.*

70. That there are greater risks to carrier's property from such shipments does not justify greater charges therefor. *Id.*

71. Allowance can be made to owners of tank cars for their use. *Id.*

72. United States supplies—A carrier may make special rates with individuals to enable the latter to make proposals to the Interior Department for transportation of Indian supplies, such transportation being for the United States. *Re Indian Supplies*, 22.

73. Wheat from Colfax, W. T.—*McClaine v. Oregon R. & Nav. Co.* 895.

74. Wheat from Mazeppa, Minn.—*Raymond v. Chicago, Milwaukee & St. P. R. Co.* 474, 627.

75. Wheat from Minnesota towns—*Boards of Trade Union v. Chicago, Milwaukee & St. P. R. Co.* 608.

IV. REFUSAL TO FURNISH CARS.

76. *Rice v. Louisville & Nashville R. Co.* 722.

77. Refusing to furnish cars for transportation, when all cars are needed for transportation of freight which has accumulated along the line is not violation of Act. *Riddle v. Pittsburgh & L. E. R. Co.* 601, 688.

78. It is duty of carrier to furnish cars **ratably** to shippers along its line until the emergency is passed. *Id.*

79. A charge of preference of cars to one trade over another, and of a preference to shippers in not requiring them to load or unload its cars promptly was not sustained by the evidence. *Id.*

80. At times of special pressure, regular customers are not entitled to preference over occasional ones. *Riddle v. New York, L. E. & W. R. Co.* 787.

81. Shipper need not make special contract with carrier to be entitled to transportation for goods. *Id.*

82. Less desirable freight must be accepted upon reasonable terms, as well as that which is more desirable. *Id.*

83. When equipment of carrier usually applied to transportation of particular article is not equal to demand, carrier must appropriate other cars to such service. *Id.*

84. Carrier is not justified in refusing cars for transportation of coal at certain point by

fact that it could make more money by using its regular coal cars on another portion of its line. *Id.*

85. That at certain time article can not be profitably shipped at existing tariff rate is not conclusive evidence that that rate is unreasonable. *Id.*

86. The N. Y., L. E. & W. R. Co., extending to Dayton, Ohio, by agreement being considered with C., C. & I. R. Co., extending from Dayton to Cincinnati, an initial road at Cincinnati, with the right to make rates to that place, Cincinnati must be treated as point upon line for the purpose of proceeding against the company for unjust discrimination in furnishing coal cars. *Id.*

87. Carrier, charged with unjust discrimination, may show that it made extra exertions in good faith to obtain cars for shipper from connecting line to whom shipper had to look for such cars. *Riddle v. Baltimore & O. R. Co.* 701, 778.

88. In absence of custom, carrier need not notify shipper that it can not obtain cars for his freight; it is the duty of the shipper to obtain this information for himself. *Id.*

89. Refusal to carry coal—*Heck v. East Tennessee, Va. & Ga. R. Co. et al.* 498, 775.

90. Transportation of lumber—*Missouri & Ill. Tie & Lumber Co. v. Cape Girardeau & Southwestern R. Co.* 292.

91. Dakota wheat—*Holbrook v. St. Paul, Minneapolis & Manitoba R. Co.* 315, 323.

92. Manitoba wheat—*Derby v. St. Paul, Minneapolis & Manitoba R. Co.* 315.

V. REFUSAL TO AFFORD FACILITIES TO CONNECTING LINES.

93. Interchange of traffic—*Western & Atlantic R. Co. v. East Tenn., Va. & Ga. R. Co.* 488; *Worcester Excursion Car Co. v. Pennsylvania R. Co.* 811.

94. Burton Stock Car Company, which furnishes stock cars to shippers over railroad, does not exchange with or use cars belonging to others, and is not a connecting line entitled to equal facilities for interchange of traffic under section 8, par. 2, of Act. *Burton Stock Car Co. v. Chicago etc. R. R. Co.* 829.

95. Such company is not unjustly discriminated against by refusal of railroad companies to pay same rate of mileage for its cars as for ordinary freight cars. *Id.*

96. Customary mileage rate for freight cars of other railway companies used upon paying company's line, and which payment is, by interchange of cars, practically equalized among different roads, is not the measure of payment for the use of cars belonging to other persons than railroad companies. *Id.*

97. Charges by receiver of railroad in relation to interstate commerce business must be reasonable and just; and there can be no discrimination as to rates, charges or facilities for or against two connecting steamship lines. *Re Mallory* (U. S. C. Ct. Fla.) 294.

98. Refusal to interchange freight—*Crowe v. Richmond & Danville R. Co.* 490, 492, 703;

Kentucky & Ind. Bridge Co. v. Louisville & Nashville R. Co. 708, 715.

99. Refusal to accept shipments of wheat unless billed to elevators—*Milwaukee Chamber of Commerce v. Chicago, M. & St. P. R. Co.* 795.

VI. CARRIAGE OF PASSENGERS.

100. It is an unjust discrimination to remove a **colored passenger** holding a first class ticket from a first class car, to a second class car, less clean and comfortable. *Heard v. Georgia R. Co.* 814, 719; *Council v. Western & Atlantic R. Co.* 292, 855, 688.

101. The separation of white and colored passengers is lawful if the accommodations are equal in all respects. *Id.*

102. The Commission declines to proceed on the plaintiff's claim for damages, for injuries done in his violent removal from car, leaving him his remedy in the courts. *Id.* 688.

108. Twenty-five dollars per 1,000 miles is not unreasonable rate for **milage ticket**. *Associated Wholesale Grocers v. Missouri Pac. R. Co.* 321, 898.

104. **Rate at which excursion or commutation tickets** are sold does not entitle **milage ticket purchaser** to complain of unjust discrimination if charged a higher rate. *Id.*

105. A sale of milage tickets to **commercial travelers** at lower prices than they are sold to public generally, is an unjust discrimination. *Id.*; *Larrison v. Chicago etc. R. R. Co.* 869.

106. A **release of liability** by commercial travelers is not a good consideration for such discrimination. *Id.* 869.

107. Section 2 of Act prohibits giving of **passes** to particular persons, and the exception allowed in section 22 in favor of officers and employees of road does not include the families of such persons. *Ex parte Koehler* (U. S. C. Ct.) 817.

108. In the absence of an actual case, the Commission will not pass upon the question of passes to the United States Fish Commission. *Re U. S. Commission of Fish and Fisheries*, 606.

109. Use of by Territorial Judge of Dakota. *Tuttle v. Northern Pacific R. Co.* 488, 588.

110. Complaint. *Dexter v. Chicago, B. & Q. R. Co.* 598.

111. **Land explorers** and settlers are not entitled to lower rates than the general public. *Smith v. Northern Pac. R. Co.* 611.

112. Rates may be reduced for **religious teachers** and as act of charity. *Re Religious Teachers*, 21.

113. **Emigrants** from Castle Garden, New York City. *Savery v. New York Central & H. R. R. Co.* 695; *Savery v. Trunk Lines*, 488.

114. **Fares**. Half rate. *Re Inmates of Nat. Homes*, 75.

115. Passenger rates between Hot Springs and Arika, N. C. *Hot Springs v. Western North Carolina R. Co.* 816.

116. **Tickets**. Through passenger. *Chicago & Alton R. Co. v. Pa. R. Co.* 291, 298, 357.

INTER S.

117. Complaint by ticket broker, having no apparent interest in transaction, alleging discrimination in allowing transfers of return portions of tickets, will not be entertained. *Otinger v. Southern Pac. R. Co.* 607.

118. The Commission will not make rules as to **free baggage** until violation of Act is charged. *Re Order of Railway Conductors*, 18; *Traders & Travelers Union v. Phila. & Reading R. Co.* 18, 62, 815, 871.

119. The Commission has no jurisdiction in a case presented involving agreement between Traders & Travelers Union and certain carriers, for allowance of extra free baggage to passengers presenting "baggage indemnity certificate" issued by such Union under arrangement made prior to time when Act went into effect. *Id.* 871.

BRIEFS AND NOTES.

Discrimination; general rule; against localities; against specific article; character, quantity, value of **goods**; classification; underbilling; competition; furnishing cars; connecting lines; express companies; stations; yards; terminal facilities. *Note*, 859-867.

Difference in cost of service so as to justify reasonable difference in rates. 725.

Complainant has burden of proof. 724.

Carriage of **passengers**. *Note*, 867.

CLASSIFICATION OF FREIGHT.

See CHARGES AND DISCRIMINATION, 44-48.

COLORED PERSONS.

1. It is an unjust discrimination to **remove** a colored passenger holding a first class car ticket from **first class car** to a second class car, less clean and comfortable. *Heard v. Georgia R. Co.* 814, 719; *Council v. Western & Atlantic R. Co.* 292, 855, 688.

2. The **separation of white and colored passengers** is not unlawful if the accommodations are equal in all respects. *Id.*

3. The Commission declined to proceed on plaintiff's claim for **damages**, for injuries done in his violent removal from car, leaving him his **remedy** in the courts. *Id.* 688.

COMBINATIONS.

1. Any **one member** of a joint combination may **file** copies of joint **tariff** for all the members. *Re Filing Copies of Joint Tariff*, 76.

2. Complaint against Trunk Lines alleging combinations to **exclude** emigrant company from **interviewing emigrants** at Castle Garden, New York City. *Savery v. Trunk Lines*, 488.

COMMERCE.

I. POWER OF CONGRESS.

II. STATE POWERS AND RESTRICTIONS.

- Interstate Commerce Generally.*
- License Tax upon Nonresidents.*
- Police Regulations.*
- Foreign Corporations.*

III. LINES WHOLLY WITHIN STATE; CONNECTING LINES; OTHER SUBJECTS OF INTERSTATE COMMERCE ACT.

BRIEFS AND NOTES.

I. POWER OF CONGRESS.

1. Power to regulate interstate commerce vested in Congress is the power to prescribe the **rules** by which it shall be governed. *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 882.

2. The power of Congress is **supreme** over interstate commerce, unembarrassed by state laws. *Id.*; *Stockton v. Baltimore etc. R. R. Co.* (U. S. C. Ct., N. J.) 411. S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 838.

3. The **failure** of Congress to **make express regulations** indicates that the subject shall be free. *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 882; *Phila. etc. Steamship Co. v. Pennsylvania* (U. S. Sup. Ct.) 808; *Robbins v. Tazewell District of Shelby Co.* (U. S. Sup. Ct.) 45; S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 829.

4. The **control of navigable waters** constituting channels of communication between States and foreign countries is within commercial power of Congress. Cited in *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 888; S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 840.

5. Power to regulate commerce between States extends to the **erection of piers, bridges** and all other instrumentalities of commerce which, in judgment of Congress, may be necessary or expedient. *Stockton v. Baltimore etc. R. R. Co.* (U. S. C. Ct. N. J.) 411.

6. Act of Congress of June 16, 1886, authorizing construction of **bridge across Staten Island Sound**, known as Arthur Kill, is valid under power of Congress to regulate interstate commerce. *Id.*; *Decker v. Baltimore & O. R. Co.* (U. S. C. Ct. N. Y.) 434.

7. **Regulation of fares and freights for transportation between different States** is within power of Congress. *Phila. etc. Steamship Co. v. Pennsylvania* (U. S. Sup. Ct.) 808.

II. STATE POWERS AND RESTRICTIONS.

a. Interstate Commerce Generally.

8. Interstate commerce **consists of** intercourse and traffic between citizens of different States, and includes the transportation of property and the navigation of public waters for that purpose, as well as the purchase, sale and exchange of commodities. *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 882. S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 830.

9. Transportation of property from one State to another is interstate commerce, whether carriers engaged in moving it or vehicles on which it is borne, cross line of State or not. *Ex parte Koehler* (U. S. C. Ct. Or.) 28.

10. A transportation of goods under one contract and by one voyage from the interior of Illinois to New York is interstate commerce. *Wabash etc. R. Co. v. People* (U. S. Sup. Ct.) 81.

11. In absence of interference by Congress a State may **carry on works of a local character**, although they necessarily more or

less affect interstate commerce. *Ouachita etc. Packet Co. v. Aiken* (U. S. Sup. Ct.) 379; *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 852.

12. A State can **not regulate** interstate commerce. *Wabash etc. R. Co. v. People* (U. S. Sup. Ct.) 81; *Western U. Tel. Co. v. Pendleton* (U. S. Sup. Ct.) 806.

13. A state **tax** upon interstate commerce is **void**. *Re Hennick* (Sup. Ct. D. C.) 68. S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 880.

14. A state law imposing such tax is not cured by including in its provisions subjects within jurisdiction of State. *Phila. etc. Steamship Co. v. Pennsylvania* (U. S. Sup. Ct.) 808; *Re Hennick* (Sup. Ct. D. C.) 70. S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 884.

15. No State can impose a tax upon that portion of interstate commerce which is involved in the **transportation of persons and property**, whatever be the instrumentality by which it is carried on. Cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 829. S. P. in *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 882.

16. The only state **interference** with the landing and receiving of passengers and freight which is permissible is **confined** to such measures as will prevent confusion among vessels and collision between them, and insure their **safety and convenience** and facilitate the discharge and receipt of **passengers and freight**. *Id.* 882.

17. State law requiring **master of vessel** engaged in foreign commerce to **pay** certain sum to state officer on account of each **passenger** brought from a foreign country is void. Cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 836.

18. **Wharfage** is subject to local state laws, Congress having passed no Act to regulate it. *Ouachita etc. Packet Co. v. Aiken* (U. S. Sup. Ct.) 379.

19. Charges for **wharfage graduated by tonnage of vessels** using wharf are not open to objection that they are duties on tonnage within meaning of Constitution. *Id.*

20. Where wharfage charges are reasonable it in no way concerns those who pay them what **application** is made of the **proceeds**. *Id.*

21. The **appropriation of wharfage charges** to maintain, extend, light and police the **wharves** is unobjectionable, although profits may be realized by lessees from the city which owns them. *Id.*

22. **Goods brought into a State for sale**, although they become thereby a part of the mass of its property, cannot be taxed by reason of their introduction into the State or because they are products of another State. Cited in *Phila. etc. Steamship Co. v. Pennsylvania* (U. S. Sup. Ct.) 811.

23. Illinois Act **regulating transportation** of goods under one contract to points **beyond the State** is unconstitutional. *Wabash, St. L. & P. R. Co. v. People* (U. S. Sup. Ct.) 81.

24. State **tax upon gross receipts of**

railroads for carriage of freight or passengers into, out of or through State, is void. *Fargo v. Stevens* (U. S. Sup. Ct.) 51.

25. **State tax upon earnings of sleeping car company** engaged in transporting passengers from one State to another is void. *Indiana v. Woodruff Sleeping & Parlor Coach Co.* (Sup. Ct. Ind.) 798. S. P. cited in *Wabash, St. Louis & P. R. Co. v. People* (U. S. Sup. Ct.) 37.

26. **A state tax upon a steamship company** upon gross receipts from transportation between different States, and to and from foreign countries, is unconstitutional. *Phila. etc. Steamship Co. v. Pennsylvania* (U. S. Sup. Ct.) 308.

27. **The capital stock of a foreign ferry company** engaged in interstate traffic is not taxable by State. *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 382.

28. **A State may regulate the charges of public warehouses.** Cited in Dis. Op. *Wabash etc. R. Co. v. People* (U. S. Sup. Ct.) 44.

29. **Indiana Statute regulating mode in which messages sent by telegraph companies,** doing business in that State, shall be delivered in other States is void. *Western U. Tel. Co. v. Pendleton* (U. S. Sup. Ct.) 806. S. P. cited in *Wabash etc. R. Co. v. People* (U. S. Sup. Ct.) 37.

30. **Issuing policy of insurance is not interstate commerce.** *List v. Pennsylvania* (Pa. Sup. Ct.) 784.

b. License Tax upon Nonresidents.

31. **A license tax upon nonresident merchants, drummers or agents is invalid.** *Robbins v. Tazewell District of Shelby Co.* (U. S. Sup. Ct.) 45; *Corson v. Maryland* (U. S. Sup. Ct.) 50; *Re Hennick* (D. C. Sup. Ct.) 66; *State v. Pratt* (Vt. Sup. Ct.) 299. S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 884.

c. Police Regulations.

32. **Arkansas Act, 1885, February 27, prohibiting greater charge than specified in bill of lading,** and imposing a penalty for refusal to deliver on payment or tender of charges as shown in such bill, is within police power of State. *Little Rock & F. S. R. Co. v. Hanniford* (Sup. Ct. Ark.) 580.

33. **Police power of State defined and illustrated.** Cited in *Id.* 581.

34. **State cannot under cover of exerting its police powers substantially prohibit or burden interstate commerce.** Cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 882.

35. **State statute requiring locomotive engineers to be licensed** is not regulation of interstate commerce. Cited in *Id.* 840. S. P. in *Smith v. Alabama* (U. S. Sup. Ct.) 804.

36. **Fee to be paid by applicant for examination** is not provision for raising revenue and is not tax upon transportation. *Id.* 804.

37. **State statute which conflicts with common-law exercise of powers of Congress**

over commerce must give way to supremacy of national authority. *Id.*

38. **Rhode Island, Public Statute, chap. 684, § 1, prohibiting the keeping of intoxicating liquors for sale** is not obnoxious to Federal Constitution conferring exclusive power to regulate commerce upon Congress. *State v. Filpatrick* (Sup. Ct. R. I.) 718. S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 885.

39. **Iowa Code, § 1553, forbidding carrier to bring into State intoxicating liquors** without first having certificate therein required is regulation of commerce and void. *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 823.

40. **It is not legitimate exercise of police power.** *Id.*

41. **Prohibiting driving or conveying of certain cattle into State** between certain days in each year is void as regulation of commerce, and is not legitimate exercise of police power. Cited in *Id.* 832.

42. **Under police power, State may prohibit spread of crime or pauperism or disturbance of the peace;** it may exclude from its limits convicts, paupers, idiots and lunatics, as well as persons afflicted with contagious diseases. Cited in *Id.*

d. Foreign Corporations.

43. **State Legislature may prescribe conditions upon which foreign corporation may do business,** unless engaged in interstate commerce. *List v. Pennsylvania* (Pa. Sup. Ct.) 784; *Indiana v. Woodruff Sleeping & Parlor Coach Co.* (Sup. Ct. Ind.) 798; *Stockton v. Baltimore etc. R. Co.* (U. S. C. Ct. N. J.) 411. Cited in *Barron v. Burnside* (U. S. Sup. Ct.) 295.

44. **Congress can confer upon a state corporation powers not contained in its original charter.** *Stockton v. Baltimore etc. R. Co.* (U. S. C. Ct. N. J.) 411.

45. **Louisiana Constitution, § 236, providing that a foreign corporation shall have a place of business and an agent upon whom service may be made within the State,** is void as a restriction on navigation. *New Orleans & M. Packet Co. v. James* (U. S. C. Ct. La.) 599.

46. **Iowa Act of April 16, 1886, seeking to make the right of foreign corporations to transact business in that State dependent upon surrender of right to remove causes to federal courts,** is invalid. *Barron v. Burnside* (U. S. Sup. Ct.) 295.

47. **A corporation is a citizen of the State by which created,** so far as its right to sue and be sued in the federal courts is concerned. *Id.*

III. LINES WHOLLY WITHIN STATE; CONNECTING LINES; OTHER SUBJECTS OF INTERSTATE COMMERCE ACT.

48. **The word "line" in the Act to Regulate Commerce means a physical line,** not a business arrangement. *Boston & A. R. Co. v. Boston & L. R. Co.* 571.

49. **Short road used as means of conducting interstate traffic in coal by companies owning connecting interstate roads** is sub-

ject to Act to Regulate Commerce. *Heck v. East Tennessee, V. & G. R. Co.* 775.

50. Such road must be accessible to interstate shippers on equal and reasonable terms, and cannot be used to discriminate between mine owners on its line. *Id.*

51. Knowledge of carrier, whose line is wholly within State, that the ultimate destination of freight is without State will not make it subject to Interstate Commerce Act. *Missouri etc. Lumber Co. v. Cape Girardeau & S. R. Co.* 607.

52. Bills of lading over connecting lines to points beyond the State, issued by a railroad whose line is entirely within one State, are subjects of interstate commerce. *Re Annapolis, W. & B. R. Co.* 315.

53. Interstate Commerce Act does not apply to carriage wholly within a State of property shipped from or destined to a point without, not in a foreign country. *Ex parte Koehler* (U. S. C. C. Or.) 28.

54. Express business conducted by a railroad company is within the Interstate Commerce Act; *aliter* as to independent express companies. *Re Express Companies*, 22, 317, 363, 448, 451, 456, 677.

55. Communication that bridge company discriminates against bicyclers. *Re Kenton Wheel Club of Covington*, 23.

BRIEFS AND NOTES.

Power of Congress; how far exclusive. *Notes*, 309, 851; 31, 788, 825; (U. S. Sup. Ct.) 45-53, 307, 382; (U. S. C. Ct.) 411, 427; (Sup. Ct. D. C.) 66-69.

Power of Congress to regulate navigation. (U. S. C. Ct. N. Y.) 421, 435.

State powers and restrictions. *Note*, 853. State tax upon interstate commerce is void. (U. S. Sup. Ct.) 45-53, 307, 382; 779, 800; (Sup. Ct. D. C.) 63-69.

It makes no difference whether such commerce is carried on by individuals or corporations. 801.

Tax on fares is tax on passengers. 800.

State quarantine laws do not derive validity from their adoption by Congress. 807.

State police powers. *Note*, 853.

State possesses power to adopt police regulations. 825.

State laws prohibiting manufacture of intoxicating liquors are valid police regulations. 825.

State may exercise its police power, even when it incidentally operates upon commerce. 806.

What is interstate commerce. *Note*, 853.

Transportation of passengers from one State to another is. 806.

Business of ferrriage between different States. (U. S. Sup. Ct.) 384.

Telegraphing from one State to another is. (U. S. Sup. Ct.) 307.

Foreign corporations; rights and privileges. (U. S. Sup. Ct.) 295.

INTER S.

State law impairing right of removal to federal court, as condition of doing business, is void. *Id.*

Lines within Act—Lines wholly within State; "common control, management or arrangement for continuous carriage;" Interstate Commerce Act, § 1; English Regulation of Railways Act of 1873, § 11. *Note*, 858.

COMMERCIAL TRAVELERS. See COMMERCE, II, b.

1. A sale of mileage tickets to commercial travelers at a rate lower than to other passengers is an unjust discrimination. *Associated Wholesale Grocers v. Missouri Pacific R. Co.* 321, 393; *Larrison v. Chicago etc. R. R. Co.* 369.

2. A release of liability by commercial travelers is not a good consideration for such discrimination. *Id.* 369.

COMMISSION. (THE INTERSTATE COMMERCE.) See RULES; RULINGS.

1. Commission has no jurisdiction in a case presented involving agreement between Traders & Travelers Union and certain carriers, for allowance of extra free baggage to passengers presenting "baggage indemnity certificate" issued by such Union, under arrangement made prior to time when Act went into effect. *Traders & Travelers Union v. Phila. etc. R. R. Co.* 371.

2. The Commission has no authority to call a railroad company to account for a wrong committed prior to time when Act went into effect. *Holbrook v. St. Paul, M. & M. R. Co.* 323.

3. The Commission can not construe the Act before violation thereof charged. *Re Order of Railway Conductors*, 18; *Re Theatrical Rates*, 18; *Re Inmates of Nat. Homes*, 73, 75.

4. In the absence of an actual case, the Commission will not pass upon the question of passes to the United States Fish Commission. *Re United States Commission of Fish and Fisheries*, 606.

5. The Commission has no power to make rates generally, but only to determine whether rates imposed by railroads are in conflict with statute. *Thatcher v. Fitchburg R. R. Co.* 365.

6. The Commission has no power to enforce contracts, nor has it any general power to manage business of carriers. *Traders & Travelers Union v. Phila. etc. R. R. Co.* 371.

7. The Commission has only a limited power, expressly defined by the Act, to interfere to prevent wrong and oppression in specified cases. *Id.*; *Re Iowa Barb Steel Wire Co.* 605.

8. While the Act authorizes the Commission to permit exceptions, it does not authorize it to require exceptions. *Thatcher v. Fitchburg R. R. Co.* 356.

9. Where the complaint does not state a case within its jurisdiction, the Commission will not express an opinion. *Re Iowa Barb Steel Wire Co.* 605.

10. The Commission will not make any ruling where petitioner alleges legal

ty of practice sought to be authorized. *Re Export Trade of Boston*, 25.

11. The Commission does not report cumulative evidence or mere details of evidence already embraced in substantial facts stated, upon which its findings are made. *Riddle v. Pittsburgh & L. E. R. Co.* 778.

COMMON LAW.

There is no common law of the United States distinct from the common law of England as adopted by the several States, each for itself, applied as its local law, and subject to such alteration as may be provided by its own statutes. Cited in *Smith v. Alabama* (U. S. Sup. Ct.) 808.

COMMUTATION TICKET. See TICKETS, 6.

COMPETITION.

That there is competition in carriage of persons or property to or from a particular place, is a circumstance that justifies a carrier, under section 4, to charge less for a long haul to or from such place, than a short one included therein. *Ex parte Koehler* (U. S. C. Ct. Or.) 817; *Re Southern R. & S. Assn.* 278.

COMPLAINT. See PLEADING AND PRACTICE, I.

CONDEMNATION PROCEEDINGS. See EMINENT DOMAIN.

CONNECTING LINES. See CHARGES AND DISCRIMINATION, V.

1. The Interstate Commerce Act only applies to such carriers as use a railway or a railway and water craft under common control or management for a continuous carriage or shipment of property from one State to another. *Ex parte Koehler* (U. S. C. Ct. Or.) 28.

2. The Act does not apply to railroad wholly within State, joining with connecting steamers in independent although concurrent reduction of rates, unless goods are going to or from a foreign country. *Id.*

3. Burton Stock Car Company, which furnishes stock cars to shippers over railroad, does not exchange with or use cars belonging to others, and is not a connecting line entitled to equal facilities for interchange of traffic under section 8, par. 2, of Act. *Burton Stock Car Co. v. Chicago etc. R. R. Co.* 329.

4. Such company is not unjustly discriminated against by refusal of railroad companies to pay same rate of millage for its cars as for ordinary freight cars. *Id.*

5. A carrier is not liable for rates made by a connecting road. *Allen v. Louisville, N. A. & C. R. Co.* 621; *Crows v. Richmond & D. R. Co.* 708.

6. Where in a proceeding against several connecting roads for violation of section 4, one claims that its only participation consisted in sharing in low charges on long haul, complaint should not be dismissed as against it. *Boston & A. R. R. Co. v. Boston & L. R. R. Co.* 571.

INTER S.

7. In absence of statutory authority, one railroad company can sell tickets over road of another company only by agreement. *Chicago & A. R. R. Co. v. Pennsylvania Co.* 357.

8. The Act does not require one company to sell through tickets over road of another. *Id.*

9. Railroad companies may forbid their agents to receive commissions for sale of tickets over other companies' roads. *Id.*

10. The practice of one company's paying the agents of another company a commission for selling tickets over former's road is not reasonable or proper. *Id.*

CONSTITUTIONAL LAW. See COMMERCE.

1. Arkansas Act, 1885, February 27, prohibiting greater charge by a carrier for transportation of freight than specified in bill of lading, and imposing a penalty for refusal to deliver on payment or tender of charges as shown in such bill, is not special legislation, nor a regulation of interstate commerce, but within police power of State. *Little Rock & F. S. R. Co. v. Hanniford* (Sup. Ct. Ark.) 580.

2. An Act being general and uniform in its operation, upon all persons coming within the class to which it belongs, is not special. Cited in *Id.* 581.

BRIEFS AND NOTES.

Constitutionality of part of Act. (U. S. Sup. Ct.) 296.

CONSTRUCTION. See ACT TO REGULATE COMMERCE.

CONTINUANCE AND ADJOURNMENT.

Adjournment and extension of time is within discretion of Commission. *Rule 7, Appendix I*, 843.

CONTINUOUS CARRIAGE.

Complaint alleging interruption of continuous carriage in violation of section 7. *Plummer v. Union Pac. R. Co.* 596; *Raymond v. Chicago, B. & Q. R. R. Co.* 592.

CONTRACTS.

The Commission has no power to enforce contracts. *Traders & Travelers Union v. Phila. etc. R. Co.* 871.

CORPORATIONS. See COMMERCE, II, d.

COURTS. See APPEAL AND ERROR.

1. The jurisdiction of federal courts cannot be affected by state legislation. *Barron v. Burnside* (U. S. Sup. Ct.) 295.

2. A corporation is a citizen of the State by which created, so far as its right to sue and be sued in the federal courts is concerned. *Id.*

CUSTOM AND USAGE.

That a railway company for some time paid cost of hauling coal from complainant's wharf to station is not ground for compelling such payment by the company. *Providence Coal Co. v. Providence & W. R. Co.* 863.

DAMAGES.

A claim for pecuniary damages entitles the defendant to a jury trial, and the Interstate Commerce Commission will not consider it. *Peck v. East Tennessee, V. & G. R. Co.* 775; *Council v. Western & A. R. Co.* 292, 355, 638; *Riddle v. New York, L. E. & W. R. Co.* 787.

DEFINITIONS. See CHARGES AND DISCRIMINATION, 17; COMMERCE, 8, 88.

Interstate commerce. *Ex parte Koehler* (U. S. C. Ct. Or.) 28; *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 382. S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 880.

BRIEFS AND NOTES.

Interstate commerce; what is. *Note*, 858; (U. S. C. Ct. N. J.) 420.

Power to regulate. (U. S. C. Ct. N. J.) 420.

DEPARTMENT OF STATISTICS.

Creation of, by Commission; auditor appointed. 354.

DEPOSITIONS.

Depositions may be taken as provided by U. S. R. S., §§ 863, 864, without application to Commission. *Rule 9* as amended. *Appendix II*, 843, 410.

DEPOTS.

Carriers cannot make the yards of a certain company their exclusive stock depot at a certain place, there being other stock yards near by charging lower rates. *Keith v. Kentucky Cent. R. R. Co.* 601.

DISCOUNT. See REBATE.

DISCRIMINATION. See CHARGES AND DISCRIMINATION.

DISMISSAL AND DISCONTINUANCE.

1. Motion for, may be made at hearing. *Rule 6, Appendix I*, 843.

2. Leave should be granted to withdraw petition when petitioner alleges legality of practice sought to be authorized. *Re Report Trade of Boston*, 25.

3. Where no overt acts of misconduct on part of defendant railroad appears, the Commission has no discretion but to dismiss complaint. *Holbrook v. St. Paul, M. & M. R. Co.* 323.

4. Petition charging exorbitant rates will be dismissed where rates are reduced before hearing. *Fullon v. Chicago etc. R. R. Co.* 876; *Harding v. Chicago etc. R. R. Co.* 875.

5. The pleadings presenting issues of fact and no evidence being presented, the case will be dismissed. *Leonard v. Union Pac. R. Co.* 627.

6. Upon failure of complainant to appear at hearing, complaint will be dismissed. *Jackson v. St. Louis, A. & T. R. Co.* 599.

7. Complaint for over charge withdrawn where complainants receipt in full settlement for over charges was shown by respondent. *Stahl v. Oregon R. & Nav. Co.* 314.

INTER 8.

DRUMMERS. See COMMERCE, II, b; COMMERCIAL TRAVELERS.

EMIGRANTS. See CHARGES AND DISCRIMINATION, 118.

EMINENT DOMAIN.

United States may condemn land within State without consent of State. *Stockton v. Baltimore etc. R. Co.* (U. S. C. Ct. N. J.) 411.

BRIEFS AND NOTES.

Exercise of right of, by United States, without consent of State. (U. S. C. Ct. N. J.) 426.

Right to compensation. (U. S. C. Ct. N. J.) 414.

EMPLOYEES.

Section 2 of the Act prohibits giving of passes to particular persons; and the exception allowed in section 22 in favor of officers and employees of road does not include the families of such persons. *Ex parte Koehler* (U. S. C. Ct.) 317.

ERROR. See APPEAL AND ERROR.

EVIDENCE. See DEPOSITIONS; TESTIMONY.

1. The burden of proof is on petitioner charging exaction of unreasonable rates. *Harding v. Chicago etc. R. Co.* 375.

2. In case of complaint for violation of section 4 of Act, the burden of proof is on the carrier to justify any departure from the general rule prescribed by statute, by showing that circumstances and conditions are dissimilar. *Re Southern R. & S. Assn.* 278.

EXCURSION TICKETS.

Rate at which excursion tickets are sold does not entitle mileage ticket purchaser to complain of unjust discrimination if charged a higher rate. *Assn. Wholesale Grocers v. Missouri Pacific R. Co.* 393.

EXPRESS COMPANIES.

1. Express business conducted by a railroad company is within the Interstate Commerce Act; *aliter* as to independent express companies. *Re Express Companies*, 22, 877.

2. Pleadings, etc. 317, 363, 443, 451, 456.

FARES. See RATES.

FEDERAL COURTS. See COURTS.

FERRIES. See COMMERCE, 27.

A ferry is a means of commercial intercourse between States, bordering upon dividing waters, and it must be conducted without imposition by States of taxes upon the commerce between them. *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 383.

FISH AND FISHERIES.

The transportation of fish and eggs, distributed by the United States Commission of Fish and Fisheries, is within the exception of section 22 of the Act. *Re United States Commission of Fish and Fisheries*, 609.

FOREIGN CORPORATIONS. See COMMERCE, II, d.

FOURTH SECTION. See LONG AND SHORT HAUL.

FREE PASSES. See PASSEES.

HEARING. See CONTINUANCE AND ADJOURNMENT; REHEARING; RULES, 4, 10.

1. Carrier deeming complaint insufficient may serve notice for hearing on complaint without answer, and facts stated are admitted. Motion to dismiss for insufficiency may be made at hearing. *Rule 6, Appendix I, 842.*

2. Final hearings shall be had forthwith without dilatory motions, etc. *Associated Wholesale Grocers v. Missouri Pac. R. Co. 321*

8. Upon failure of complainant to appear at hearing, complaint will be dismissed. *Jackson v. St. Louis, A. & T. R. Co. 599.*

IMMIGRATION. See COMMERCE, 42.

INSURANCE. See COMMERCE, 30.

INTERCHANGE OF TRAFFIC. See CHARGES AND DISCRIMINATION, V.

INTERSTATE COMMERCE. See COMMERCE.

INTERSTATE COMMERCE ACT. See ACT TO REGULATE COMMERCE.

INTERSTATE COMMERCE COMMISSION. See COMMISSION.

INTOXICATING LIQUORS. See COMMERCE, 38-40.

JOINT TARIFF.

1. Joint tariffs to be printed in ordinary type, and copies kept at every depot or station upon the line of the carriers uniting therein. *Order as to Publication of Joint Tariffs, 598.*

2. Any one member of a joint combination may file copies of joint tariff for all the members. *Re Filing Copies of Joint Tariff, 76.*

JURISDICTION. See CHARGES AND DISCRIMINATION, 119; COMMISSION; CONTRACTS; COURTS; DAMAGES.

JURY.

A claim for pecuniary damages entitles the plaintiff to a jury trial and the Interstate Commerce Commission will not consider it. *Peck v. East Tennessee, V. & G. R. Co. 775; Council v. Western & A. R. Co. 638; Riddle v. New York, L. E. & W. R. Co. 787.*

LAND EXPLORERS.

Land explorers and settlers are not entitled to lower rates than the general public. *Smith v. Northern Pac. R. R. Co. 611.*

LICENSE. See COMMERCE, II, b; 35, 36.

LIVE STOCK.

1. Carriers cannot make the yards of a certain company their exclusive stock depot at a certain place, there being other stock yards near by charging lower rates. *Keith v. Kentucky Cent. R. Co. 816, 801.*

2. Conveyed in Burton stock cars, rates for INTER 8.

Burton Stock Car Co. v. Chicago, B. & Q. R. Co. 329.

LONG AND SHORT HAUL.

I. GENERAL RULES; CIRCUMSTANCES JUSTIFYING GREATER CHARGE FOR LESSER HAUL; COMPLAINTS FOR VIOLATION OF SECTION 4.

II. SUSPENSION OF FOURTH SECTION.

III. APPLICATIONS FOR SUSPENSION. BRIEFS AND NOTES.

I. GENERAL RULES; CIRCUMSTANCES JUSTIFYING GREATER CHARGE FOR LESSER HAUL; COMPLAINTS FOR VIOLATION OF SECTION 4.

1. Circular as to short haul rates. 601.

2. The joint rates on long hauls usually are, and should be, proportionately lower than local rates on short hauls. *Narrar v. East Tennessee, V. & G. R. Co. 764.*

3. The Act to Regulate Commerce aids the rule making the aggregate charge of transportation of freight less in proportion every hundred miles after the first. *Id.*

4. The prohibition in section 4 of the Interstate Commerce Act is limited to cases in which circumstances and conditions are substantially similar. *Re Southern R. & S. Assn. 278.*

5. Carriers are required to judge in the first instance with regard to the similarity or dissimilarity of the circumstances or conditions that forbid or permit a greater charge for a shorter distance. *Id.*

6. Judgment of carriers in respect to circumstances and conditions is not final and is subject to authority of the Commission and of the courts to decide whether error has been committed or statute violated. *Id.*

7. In case of complaint for violation of section 4, the burden of proof is on the carrier to justify any departure from the general rule prescribed by statute, by showing that circumstances and conditions are dissimilar. *Id.*

8. Section 1, requiring charges to be reasonable, and section 2, forbidding unjust discrimination, apply when exceptional charges are made under section 4, as they do in other cases. *Id.*

9. The existence of actual competition which is of controlling force may, in certain cases, make out the dissimilar conditions entitling the carrier to charge less for longer than for shorter haul. *Id.; Ex parte Koehler, (U. S. C. Ct. Or.) 817; Harwell v. Columbus & W. R. Co. 631.*

10. That railroads have water competition, and are obliged to meet it, is not in itself sufficient to justify the lesser charge for the greater distance. *Id. 631.*

11. It is not a justification for charging more for a shorter than for a longer distance that the traffic which is subjected to such greater charge is way or local traffic; nor that the shorter haul traffic is more expensive to the carrier; nor that the lesser charge has for its motive the encouragement of manufactures or some other branch of industry; nor that it is designed to build up trade

centers; nor that the lesser charge for the longer haul is merely a continuation of favorable rates under which trade centers or industries have been built up. *Re Southern R. & Steamship Assn.* 278.

12. The fact that long haul traffic will only bear certain rates is not reason for carrying it for less than cost at expense of other traffic. *Id.*

13. The "circumstances and conditions" touching transportation to and from Mexico through El Paso, Texas, by Texas & Pacific R. Co., are so substantially different from those surrounding transportation to other points as to justify the establishment of lower rates than charged at points where the distance and haul are shorter. *Re Texas etc. R. Co.* (U. S. C. Ct. La.) 80.

14. Where in proceeding against several connecting roads for violation of section 4, one claims that its only participation consisted in sharing in low charges on long haul, complaint should not be dismissed against it. *Boston & A. R. R. Co. v. Boston & L. R. R. Co.* 571.

15. The sole grievance of petitioning road in such case being that defendant company accepted through traffic at lower rates than itself, the petitioner has no standing to maintain the proceeding. *Id.*

16. The desire to have the Act construed will not support such proceedings. *Id.*

17. The right to make greater charges for short than for long haul depends upon peculiar circumstances and conditions in each case. *Id.*

18. Complainant must not necessarily have pecuniary interest to be entitled to be heard. *Id.*

19. The Vermont State Grange has such interest that it may raise the question and the proceeding is maintainable upon its petition. *Id.*

20. Where several companies join in joint tariff, those making greater charges must justify it. *Id.*

21. Defendant companies permitting through business to be done over their tracks, by the National Despatch Line, are responsible for long haul rates. *Id.*

22. A complaint, in effect asking from the Commission an order requiring defendant roads to receive freight at Schenectady for transportation to Boston, for rates less than are now charged by some roads for transportation of like freights to Boston from stations nearer Boston, under substantially similar circumstances and conditions must be dismissed. *Thatcher v. Fitchburg R. Co.* 356.

23. Complaints for violation. *Allen v. Louisville, New Albany & O. R. Co.* 586, 621; *Boston & Albany R. Co. v. Boston & Lowell R. Co.* 291, 400, 500, 557, 571; *Business Assn. of Minnesota v. Chicago, & N. W. R. Co.* 488; *Same v. Chicago, St. P. M. & O. R. Co.* 488, 591; *Farrar v. East Tennessee, Va. & Ga. R. Co. et al.* 754; *Friend v. Southern Pacific R. Co. et al.* 58, *Koehler Re*, 817; *Raymond v. Chicago, B. & Q. R. Co.* 592.

INTER S.

II. SUSPENSION OF FOURTH SECTION.

24. Order for suspension must be based upon investigation. *Jurisdiction of Commission*, 78.

25. The cases in which the Commission is authorized to make orders for suspension of operation of Act are exceptional. *Id.*

26. Mere probability that injury will result will not authorize Commission to direct suspension. *Id.*

27. The Act does not authorize the Commission to require exceptions. *Thatcher v. Fitchburg R. Co.* 356.

28. The Commission will not grant a general suspension of section 4 of Act, but will give relief only as to traffic between specified points. *Re Richmond etc. R. R. Co.* 22.

As to Particular Roads.

29. Atchison, Topeka & Santa Fé R. Co. 1, 27, 58; Cape Fear & Yadkin Valley R. Co. 21; Cincinnati, N. O. & T. P. R. Co. 23; Detroit, Grand Haven & Milwaukee R. Co. 17; Illinois Central R. Co. 21; Louisville & Nashville R. Co. 278; Louisville, N. O. & T. R. Co. 21; Newport News & Miss. Valley R. Co. 21; New York, Phila. & Norfolk R. Co. 21; Norfolk & Western R. Co. 21; Norfolk Southern R. Co. 28; Northern Pacific R. Co. 27; Richmond, Fredericksburg & Potomac R. Co. 21; St. Louis & Cairo Short Line R. Co. 21; St. Louis & San Francisco R. Co. 27; Southern Pacific R. Co. 16, 27; Southern R. & Steamship Assn. 15, 17, 21; Tennessee & Ohio R. Co. 21; Texas & Pacific R. Co. 23, 30.

III. APPLICATIONS FOR SUSPENSION.

30. Applications must be made by petition, stating relief desired and points between which authority is asked to charge less; and verified by officer or agent of petitioner. *Rule 2, Appendix I*, 841.

31. Application for exceptions under Act will only be granted after investigation upon verified petition. *Re Southern Pac. R. R. Co.* 16.

32. Notice must be published by petitioner in not less than two newspapers along the line for at least ten days prior to presentation of petition, stating nature of relief applied for and time of presentation of application; proof of each publication must be filed with petition. *Id.*; *Rule 2, Appendix I*, 841.

MISSIONARIES.

Missionaries may have reduced rates. *Re Religious Teachers*, 21.

NAVIGABLE WATERS.

1. Navigable waters of the United States are those which form by themselves or by uniting with others a continuous highway for commerce with other States. Cited in *Decker v. Baltimore etc. R. R. Co.* (U. S. C. Ct. N. Y.) 441.

2. The control of navigable waters constituting channels of communication between States and foreign countries, is within the commercial power of Congress. Cited in *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 388.

3. Congress may authorize a private corporation to occupy the navigable waters within a State and appropriate soil under them, for purposes of interstate commerce, without consent of State. *Stockton v. Baltimore etc. R. R. Co.* (U. S. C. Ct. N. J.) 411; *Decker v. Baltimore etc. R. R. Co.* (U. S. C. Ct. N. Y.) 434.

4. Act of Congress of June 16, 1886, authorizing construction of bridge across Staten Island Sound, known as Arthur Kill, etc., is valid. *Id.*

5. Fifth Amendment of Federal Constitution does not apply in such case. *Id.*

6. The shores of navigable waters and the soil under them were not granted by the Constitution to the United States but were reserved to the States respectively. Cited in *Id.* 441.

OATH. See AFFIDAVITS.

OFFICE AND OFFICER. See AFFIDAVITS.

INTER S.

OVERCHARGE.

1. Hearing of complaint of people of Hot Springs, N. C., against the Western, North Carolina Railroad Company for overcharge in passenger rates; upon company's promise to refund excess, the case was permitted to remain open for a few days to see if company fulfilled promise. *Hot Springs v. Western N. C. R. R. Co.* 316.

2. Complaint for overcharges withdrawn where complainant's receipt in full settlement for overcharges was shown by respondent. *Stahl v. Oregon R. & Nav. Co.* 314.

PARALLEL LINES. See CHARGES AND DISCRIMINATION, 9.

PARTIES. See PLEADING AND PRACTICE, 1.

PASSENGERS. See BAGGAGE; CHARGES AND DISCRIMINATION, VI.

1. It is unjust discrimination to remove a colored passenger holding a first class ticket from a first class car to a second class car, less clean and comfortable. *Heard v. Georgia R. Co.* 493, 719. *Council v. Western & A. R. Co.* 292, 355, 638.

2. The separation of white and colored passengers is not unlawful if the accommodations are equal in all respects. *Id.*

3. The Commission declines to proceed on the plaintiff's claim for damages, for injuries done in his violent removal from car, leaving him his remedy in the courts. *Id.* 638.

PASSES.

1. Section 2 of Act prohibits giving of passes to particular persons; and the exception allowed in section 23 in favor of officers and employees of road does not include the families of such persons. *Ex parte Koehler* (U. S. C. Ct. Or.) 817.

2. Complaint charging use of free pass by Territorial Judge of Dakota. *Tuttle v. Northern Pac. R. R. Co.* 483, 588.

3. In the absence of an actual case, the Commission will not pass upon the question of passes to the United States Fish Commission. *Re United States Commission of Fish and Fisheries*, 606.

PETITION. See PLEADING AND PRACTICE, I.

PILOTAGE.

Pilotage regulations are susceptible of state regulation. Authorities cited in Dis. Op. *Wabash etc. R. Co. v. People* (U. S. Sup. Ct.) 41.

II. ANSWERS.

III. AMENDMENT.

IV. PRACTICE.

BRIEFS AND NOTES.

See AFFIDAVITS; COMMISSION; DEPOSITIONS; DISMISSAL AND DISCONTINUANCE; HEARING; JURY; REHEARING; RULES.

FOR PLEADINGS under various sections of Act, See various TITLES.

I. COMPLAINT; PARTIES.

1. **Complaint under section 13** must be by petition, stating facts claimed to be a violation of the Act, and verified; as many written or printed copies of the complaint must be presented as there may be respondents; **names and addresses** must be set forth and indorsed upon the writ; and a copy is to be served upon each respondent by mail or personally with notice, to satisfy the complaint or answer within time specified. *Rule 4, Appendix I, 841.*

2. Application for exception under Act will only be granted after investigation upon **verified petition**. 15; *Re Southern Pac. R. R. Co.* 16.

3. Carrier must be made a **party** where merit of controversy cannot be determined without it. *Riddle v. Pittsburgh & L. E. R. Co.* 773.

4. To test the reasonableness of a through rate, all the roads responsible for it should be made defendants. *Allen v. Louisville, N. A. & C. R. Co.* 621.

5. The person aggrieved should complain in his own name; a complaint by a ticket broker having no interest in the transaction will not be entertained. *Ottinger v. Southern Pac. R. R. Co.* 607.

II. ANSWERS.

6. Answers, **verified**, must be filed with the Commission **within twenty days** from notice, unless a shorter time is prescribed, and a copy served upon complainant. *Rule 5, Appendix I, 841.*

7. If respondent makes **satisfaction** before answering, the written acknowledgment thereof must be filed and may be **set forth** in answer; if made after service of answer, a supplemental answer may be filed. *Id.* 842.

8. Upon **failure to answer**, the Commission will take proof and make order. *Rule 8, Id.* 842.

III. AMENDMENT.

9. Pleadings may be amended in **discretion** of Commission. *Rule 10, Appendix I, 842.*

10. Practice of the Commission in allowing amendments is to be limited under rules of law; amendments to complaint, introducing **new charges, not allowed**. *Riddle v. Baltimore & O. R. R. Co.* 701.

11. Complaint against railroad company stating that it had been previously in the hands of a receiver who was now president, was **allowed** to be amended so as to show existence of **receivership** which it appeared on hearing was still in existence. *Reynolds v. Western New York & P. R. Co.* 685.

IV. PRACTICE.

12. Powers and proceedings of Commission. *Letter of Chairman Cooley*, 408.

13. Practice and proceedings shall be as **simple as possible**. *Associated Wholesale Grocers v. Missouri P. R. Co.* 321.

14. Letter of *Chairman Cooley* in response to communication expressing desire that Com-

mission would go to certain State and there hear testimony in certain cases then pending at issue, and such other cases as may have arisen in that State; suggestion in letter that **facts be put in writing** and that counsel make diligent effort to bring within smallest possible compass the necessity for oral evidence. 446.

15. **Orders for suspension** must be based upon investigation. *Jurisdiction of Commission*, 78.

16. Leave should be granted to **withdraw petition when petitioner alleges legality of practice** sought to be authorized. *Re Export Trade of Boston*, 25.

17. If, at hearing, defendant company **avows purpose to comply with law**, the Commission must act upon the assumption that defendant will do so, until it has evidence that the purpose is not lived up to. *Holbrook v. St. Paul, M. & M. R. Co.* 823.

18. A **motion to dismiss** a complaint **denied** because **no notice** of motion had been given and the object of the motion was to reach the merits of the case and to have them passed upon summarily instead of at final hearing. *Associated Wholesale Grocers v. Missouri P. R. Co.* 321.

19. Where after the examination of the evidence upon a complaint charging unjust discrimination and unlawful preference in tariff of rates, but before the announcement of the opinion, the **respondent conceded the relief** sought and published a tariff of rates in accordance with the complaint, the **Commission only made a report to complete the record** of the case. *Manufacturers & Jobbers Union v. Minneapolis & St. L. R. Co.* 680.

20. When an important **question** is raised by the pleadings, but the parties **neither by evidence nor by argument** supply the Commission with information as to it, it will not be decided. *Rice v. Louisville & N. R. Co.* 722.

BRIEFS AND NOTES.

Rules of practice. *Note*, 872.

POLICE REGULATIONS. See **COMMERCE**, II, c.

PRACTICE. See **PLEADING AND PRACTICE**, IV.

RAILROAD COMPANIES. See **AGENTS AND BROKERS; BAGGAGE; BILL OF LADING; CHARGES AND DISCRIMINATION; COMMERCE; CONNECTING LINES; LONG AND SHORT HAUL; PASSENGERS; RATES.**

RATES. See **CHARGES AND DISCRIMINATION; SCHEDULES.**

1. The **Commission has no power to make rates generally**, but only to determine whether rates imposed by railroads are in conflict with statute. *Thatcher v. Fitchburg R. R. Co.* 356; *Re Theatrical Rates*, 18.

2. But the Commission has power to **regulate fares and freights** for transportation between different States. *Phila. etc. Steamship Co. v. Pennsylvania* (U. S. Sup. Ct.), 808.

3. A **state statute cannot regulate rates**

for interstate commerce. *Wabash etc. R. Co. v. People* (U. S. Sup. Ct.) 81.

4. Rates should be so **relatively reasonable** as to protect communities and business against unjust discrimination. *Boards of Trade Union v. Chicago, M. & St. P. R. Co.* 608.

5. A carrier operating **parallel lines**, and accepting lower rates on one line, should make corresponding charges on other line. *Id.*

6. Rates are not to be lower for **commercial travelers** than for general public. *Associated Wholesale Grocers v. Missouri Pacific R. Co.* 321, 393; *Larrison v. Chicago & Grand Trunk R. Co.* 369.

7. Nor for **land explorers** and settlers. *Smith v. Northern Pac. R. Co.* 611.

8. But may be reduced for **religious teachers** and as act of charity. *Re Religious Teachers*, 21.

9. A carrier may make **special rates** with individuals, to enable the latter to make proposals to the Interior Department for transportation of Indian supplies, such **transportation** being for the **United States**. *Re Indian Supplies*, 22.

10. Twenty-five dollars for 1,000 miles is not unreasonable for a **mileage ticket**. *Associated Wholesale Grocers v. Missouri Pacific R. Co.* 321, 393.

11. Carriers charged with exorbitant rates may **change rates before hearing**. *Pulton v. Chicago etc. R. Co.* 375.

REBATE.

A discount allowed by a railroad company where consignments of coal in one year shall amount to 30,000 tons or upwards is an **unjust discrimination**. *Providence Coal Co. v. Providence etc. R. R. Co.* 363.

REFUSAL TO FURNISH CARS. See CHARGES AND DISCRIMINATION, IV.

REHEARING.

The Commission will **not** order a rehearing involving expenses to parties, **unless** satisfied that the **result** might be **changed**. *Riddle v. Pittsburgh & L. E. R. Co.* 773.

RELIGIOUS TEACHERS.

Religious teachers may have reduced **rates**. *Re Religious Teachers*, 21.

REMOVAL OF CAUSES.

Iowa Act of April 6, 1886, seeking to make right of **foreign corporations** to transact business in that State dependent upon surrender of right to remove causes to federal courts, is invalid. *Barron v. Burnside* (U. S. Sup. Ct.) 295.

RIVERS. See NAVIGABLE WATERS.

RULES.

1. **Sessions of Commission** held at Washington No. 1315 F. St. northwest, at 11 o'clock, daily, except Saturdays and Sundays. When special sessions are held elsewhere, necessary regulations will be made. *Rule 1, Appendix I*, 841.

INTER 8.

2. **Applications under section 4** (Long and Short Haul section), to be made by verified **petition**, stating extent of relief desired and points between which authority is asked to charge less. *Rule 2, Id.*

3. **Notice** to be published by petitioner in two newspapers along line for ten days prior to presentation of petition, stating nature of relief applied for and time of presentation of application; proof of each publication to be filed with petition. *Id.*

4. **Investigation** will be made by **Commission** at time and place designated, where testimony will be received. *Rule 3, Id.*

5. **Complaint under section 13** must be by verified petition, stating facts claimed to be violation of Act; as many **copies** of complaint must be presented as there are respondents; **names and addresses of parties** must be set forth and indorsed upon writ; and copy is to be **served** upon each respondent, with notice to satisfy complaint or answer within time specified. *Rule 4, Id.*

6. **Answers**, verified, must be **filed** with Commission within twenty days from notice, unless shorter time is prescribed; and copy served upon complainant. *Rule 5, Id.*

7. If respondent makes satisfaction before answering, written acknowledgment thereof must be filed and may be set forth in answer; if made after service of answer, **supplemental answer** may be filed. *Id.* 842.

8. Carrier deeming complaint insufficient may serve notice for **hearing** on it **without answer**; facts stated are admitted. Motion to dismiss for insufficiency may be made at hearing. *Rule 6, Id.*

9. **Adjournment** and extension of time is within discretion of Commission. *Rule 7, Id.*

10. Upon **issue** being **joined**, time and place of **hearing** will be assigned; witnesses examined orally before Commission, except where otherwise ordered; petitioner has burden of proof. *Rule 8, Id.*

11. Upon **failure to answer**, the Commission will take proof and make order. *Id.*

12. **Subpenas** will be issued by any commissioner and will be required to be obeyed. *Rule 9, Id.*

13. **Depositions** may be taken as printed by U. S. R. S., §§ 863, 864 without application to Commission. *Rule 9, as amended; Appendix II*, 848; 410.

14. **Amendments** of pleadings are in discretion of Commission. *Rule 10, Appendix I*, 842.

15. **Copies** of petition, opinion, etc., will be furnished upon payment of expense thereof. *Rule 11, Id.*

16. **Affidavits** may be taken before any officer authorized to administer oath. *Rule 12, Id.*

BRIEFS AND NOTES.

Rules of practice. *Note*, 873.

RULINGS.

1. The Commission will **not** make any ruling where petitioner alleges **legality**

of practice sought to be authorized. *Re Export Trade of Boston*, 25.

2. The Commission can **not** construe the Act before violation thereof charged. *Re Order of Railway Conductors*, 18; *Re Theatrical Rates*, 18; *Re Inmates of Nat. Homes*, 73, 75.

SCHEDULES.

1. When purposes of Act seem to be fully accomplished by rate sheets as printed, and no one complains, Commission may not feel inclined to interfere on its own motion where sheets are printed in smaller type than prescribed by Act. *Re Rate Sheets*, 316.

2. Any one member of a joint combination may file copies of joint tariff for all the members. 76.

3. Neglect to publish rates for mileage tickets is violation of Act. *Larrison v. Chicago etc. R. R. Co.* 369.

4. Complaint alleging violation of section 6. *Plummer v. Union Pac. R. Co.* 596.

SERVANTS. See EMPLOYEES.

SESSIONS. See RULES OF COURT, 1.

SETTLERS.

SUSPENSION OF LONG AND SHORT HAUL SECTION (§ 4).
See LONG AND SHORT HAUL.

TARIFFS. See SCHEDULES, 2; JOINT TARIFFS.

TAXES. See COMMERCE, II.

TELEGRAPH COMPANIES.

1. Intercourse by telegraph between INTER 8.

States is interstate commerce, and State has no authority to regulate same. *Western Union Tel. Co. v. Pendleton* (U. S. Sup. Ct.) 306. S. P. cited in *Wabash etc. R. Co. v. People* (U. S. Sup. Ct.) 37.

2. Indiana Statute regulating mode in which messages sent by telegraph companies, doing business in that State, shall be delivered in other States, is void, as an interference with interstate commerce. *Western U. Tel. Co. v. Pendleton* (U. S. Sup. Ct.) 306.

TESTIMONY.

1. In matter of various petitions for suspension of section 4 in proceedings at Atlanta, Georgia. 76.

2. In proceedings at Mobile, 136; at New Orleans, 179; at Memphis, 213.

3. In *Boston & Albany R. R. Co. v. Boston & Lowell R. R. Co.* 500.

4. On application charging discrimination in favor of New York, in rates to Chicago, as against Boston. *Re Export Trade of Boston*, 18, 23.

5. In proceeding against Providence & Worcester Railroad Company for discrimination. *Providence Coal Co. v. Providence etc. R. R. Co.* 316.

6. In proceeding against Pennsylvania Railroad Company for unlawful preference in interchange of passengers at Chicago. *Chicago & Alton R. R. Co. v. Pennsylvania R. R. Co.* 293.

7. On petition charging refusal to furnish cars. *Re Thatcher*, 317.

8. On complaint against Western & Atlantic Railroad Company for damages for forcible ejectment from first class car of colored man holding first class ticket. *Council v. Western etc. R. R. Co.* 855.

THEATRICAL RATES.

The Commission will not say in advance of violation of Act what rates company shall make for any class or organization of persons. *Re Theatrical Rates*, 18.

TICKETS.

1. Carriers may continue issuance of mileage passenger tickets at reasonable prices, free from discrimination. *Larrison v. Chicago etc. R. Co.* 369.

2. Neglect to publish rates for mileage tickets is violation of Act. *Id.*

3. Twenty-five dollars per 1,000 miles is not an unreasonable rate for mileage ticket. *Associated Wholesale Grocers v. Missouri Pac. R. R. Co.* 393.

4. A sale of mileage tickets to commercial travelers at a lower rate than to other passengers is an unjust discrimination. *Id.*; *Larrison v. Chicago etc. R. R. Co.* 369.

5. A release of liability by commercial travelers is not a good consideration for such discrimination. *Id.*

6. Rate at which excursion or commutation tickets are sold does not entitle mileage ticket purchaser to complain of unjust discrimination if charged a higher rate. *Associated Wholesale Grocers v. Missouri Pac. R. R. Co.* 393.

7. The Act does not require **one company** to **sell** through **tickets over road of another**. *Chicago etc. R. R. Co. v. Pennsylvania Co.* 857.

UNDERBILLING. See CHARGES AND DISCRIMINATION, 44-48.

UNITED STATES.

1. United States may **condemn land within State** without consent of State. *Stockton v. Baltimore etc. R. R. Co.* (U. S. C. Ct. N. J.) 411.

2. Fish and eggs, distributed by the **United States Commission of Fish and Fisheries**, are entitled to **free transportation**. *Re United States Commission of Fish and Fisheries*, 606.

8. In the absence of an actual case, the Commission will not pass upon the question of **passes** to the United States Fish Commission. *Id.*

INTER 8.

4. A carrier may make **special rates** with individuals to enable the latter to make proposals to the Interior Department for transportation of Indian supplies, such **transportation** being for the United States. *Re Indian Supplies*, 22.

END OF VOLUME I.

parties respecting the receiving, forwarding or delivering of any animals, articles, goods or things, as aforesaid shall be binding upon or affect any such party unless the same be signed by him or by the person delivering such animals, articles, goods or things respectively for carriage; *Provided, also*, That nothing herein contained shall alter or affect the rights, privileges or liabilities of any such company under the said Act of the 11 Geo. 4 & 1 Wm. 4, c. 68, with respect to articles of the description mentioned in the said Act.

8. This Act may be cited for all purposes as the "Railway and Canal Traffic Act, 1854."

THE REGULATION OF RAILWAYS ACT, 1868.

(31 & 32 Vict. c. 119.)

Interpretation of Terms.

Sec. 2. In this Act the term "railway" means the whole or any portion of a railway or tramway, whether worked by steam or otherwise.

The term "company" means a company incorporated either before or after the passing of this Act for the purpose of constructing, maintaining, or working a railway in the United Kingdom (either alone or in conjunction with any other purpose), and includes, except when otherwise expressed, any individual or individuals not incorporated who are owners or lessees of a railway in the United Kingdom, or parties to an agreement for working a railway in the United Kingdom.

The term "person" includes a body corporate.

Provision for Securing Equality of Treatment where Railway Company Works Steam Vessels.

Sec. 16. Where a company is authorized to build, or buy, or hire, and to use, maintain, and work, or to enter into arrangements for using, maintaining, or working, steam vessels for the purpose of carrying on a communication between any towns or ports, and to take tolls in respect of such steam vessels, then and in every such case tolls shall be at all times charged to all persons equally and after the same rate in respect of passengers conveyed in a like vessel passing between the same places under like circumstances; and no reduction or advance in the tolls shall be made in favor of or against any person using the steam vessels in consequence of his having traveled or being about to travel on the whole or any part of the company's railway, or not having traveled or not being about to travel on any part thereof, or in favor of or against any person using the railway in consequence of his having used or being about to use, or his not having used or not being about to use, the steam vessels, and where an aggregate sum is charged by the company for conveyance of a passenger by a steam vessel and on the railway, the ticket shall have the amount of toll charged for conveyance by the steam vessel distinguished from the amount charged for conveyance on the railway.

The provisions of the Railway and Canal Traffic Act, 1854, so far as the same are applicable, shall extend to the steam vessels and to the traffic carried on thereby.

THE REGULATION OF RAILWAYS ACT, 1873.

(36 & 37 Vict. c. 48.)

An Act to make better provision for carrying into effect the Railway and Canal Traffic Act, 1854, and for other purposes connected therewith. (21st July, 1873.)

Be it enacted as follows:

Preliminary.

1. This Act may be cited as the Regulation of Railways Act, 1873.

2. This Act shall, except as herein is otherwise expressly provided, come into operation on the first day of September, 1873, which date is in this Act referred to as the commencement of this Act.

3. In this Act the term "railway company" includes any person being the owner or lessee of or working any railway in the United Kingdom constructed or carried on under the powers of any Act of Parliament.

The term "canal company" includes any person being the owner or lessee of, or working, or entitled to charge tolls for the use of any canal in the United Kingdom constructed or carried on under the powers of any Act of Parliament.

The term "person" includes a body of persons corporate or unincorporate.

The term "railway" includes every station, siding, wharf, or dock of or belonging to such railway and used for the purposes of public traffic.

The term "canal" includes any navigation which has been made under or upon which tolls may be levied by authority of Parliament, and also the wharves and landing places of and belonging to such canal or navigation, and used for the purposes of public traffic.

The term "traffic" includes not only passengers and their luggage, goods, animals, and other things conveyed by any railway company or canal company, but also carriages, wagons, trucks, boats, and vehicles of every description adapted for running or passing on the railway or canal of any such company.

The term "mails" includes mail bags and post letter bags.

The term "special act" means a local or local and personal act, or an act of a local and personal nature, and includes a provisional order of the board of trade confirmed by Act of Parliament, and a certificate granted by the board of trade under the Railways Construction Facilities Act, 1864.

The term "the treasury" means the commissioners of Her Majesty's treasury for the time being.

The term "superior court" means in England any of Her Majesty's courts at Westminster; in Ireland, any of Her Majesty's superior courts at Dublin, and in Scotland, the court of session.

Appointment and Duties of Railway Commissioners.

4. For the purpose of carrying into effect the provisions of the Railway and Canal Traffic Act, 1854, and of this Act, it shall be lawful for Her Majesty, at any time after the passing of this Act, by warrant under the royal sign

manual, to appoint not more than three commissioners, of whom one shall be of experience in the law and one of experience in railway business, and not more than two assistant commissioners; and upon the occurrence of any vacancy in the office of any such commissioner or assistant commissioner from time to time in like manner to appoint some fit person to fill the vacancy. It shall be lawful for the lord chancellor, if he think fit, to remove for inability or misbehavior any commissioner appointed in pursuance of this Act.

The three commissioners appointed under this Act (and in this Act referred to as the commissioners), shall be styled the railway commissioners, and shall have an official seal, which shall be judicially noticed. They may act notwithstanding any vacancy in their number. The said assistant commissioners shall hold office during the pleasure of Her Majesty.

5. Any person appointed a commissioner under this Act shall, within three calendar months after his appointment, absolutely sell and dispose of any stock, share, debenture stock, debenture bond, or other security of any railway or canal company in the United Kingdom which he shall at the time of his appointment own or be interested in for his own benefit; it shall not be lawful for any person appointed a commissioner under this Act, so long as he shall hold office as such commissioner, to purchase, take, or become interested in for his own benefit, any such stock, share, debenture stock, debenture bond, or other security, and if any such stock, share, debenture stock, debenture bond or other security, or any interest therein, shall come to or vest in such commissioner by will or succession, for his own benefit, he shall, within three calendar months after the same shall so come to or vest in him, absolutely sell or dispose of the same or his interest therein.

It shall not be lawful for the commissioners, except by consent of the parties to the proceedings, to exercise any jurisdiction by this Act conferred upon them in any case in which they shall be directly or indirectly interested in the matter in question. The commissioners shall devote the whole of their time to the performance of their duties under this Act, and shall not accept or hold any office or employment inconsistent with this provision.

6. Any person complaining of anything done or of any omission made in violation or contravention of section 2 of the Railway and Canal Traffic Act, 1854, or of section 16 of the Regulation of Railways Act, 1868, or of this Act, or of any enactment amending or applying the said enactments respectively, may apply to the commissioners, and upon the certificate of the board of trade alleging any such violation or contravention, any person appointed by the board of trade in that behalf may in like manner apply to the commissioners; and for the purpose of enabling the commissioners to hear and determine the matter of any such complaint, they shall have and may exercise all the jurisdiction conferred by section 8 of the Railway and Canal Traffic Act, 1854, on the several courts and judges empowered to hear and determine complaints under that Act; and may make orders of like nature with the writs and orders authorized to be is-

sued and made by the said courts and judges; and the said courts and judges shall, except for the purpose of enforcing any decision or order of the commissioners, cease to exercise the jurisdiction conferred on them by that section.

7. Where the commissioners have received any complaint alleging the infringement by a railway company or a canal company of the provisions of any enactment in respect of which the commissioners have jurisdiction, they may, if they think fit, before requiring or permitting any formal proceedings to be taken on such complaint, communicate the same to the company against whom it is made, so as to afford them an opportunity of making such observations thereon as they may think fit.

8. Where any difference between railway companies, or between canal companies, or between a railway company and a canal company, is, under the provisions of any general or special Act, passed either before or after the passing of this Act, required or authorized to be referred to arbitration, such difference shall, at the instance of any company, party to the difference, and with the consent of the commissioners, be referred to the commissioners for their decision in lieu of being referred to arbitration; *Provided*, That the power of compelling a reference to the commissioners in this section contained shall not apply to any case in which any arbitrator has in any general or special Act been designated by his name, or by the name of his office, or in which a standing arbitrator having been appointed under any special or general Act, the commissioners are of opinion that the difference in question may more conveniently be referred to him.

9. Any difference to which a railway company or canal company is a party, may, on the application of the parties to the difference, and with the assent of the commissioners, be referred to them for their decision.

10. The following powers and duties of the board of trade shall be transferred to the commissioners, namely:

(1.) The powers of the board of trade under part III of the Railway Clauses Act, 1863, or under any special Act, with respect to the approval of working agreements between railway companies; and,

(2.) The powers and duties of the board of trade under section 35 of the Railway Clauses Act, 1863, with respect to the exercise by railway companies of their powers in relation to steam vessels.

And the provisions of the said Acts conferring such powers or imposing such duties, or otherwise referring to such powers or duties, shall, so far as is consistent with the tenor thereof, be read as if the commissioners were therein named instead of the board of trade.

Explanation and Amendment of Law.

11. *Whereas*, by section 2 of the Railway and Canal Traffic Act, 1854, it is enacted that every railway company and canal company and railway and canal company shall, according to their respective powers, afford all reasonable facilities for the receiving, and forwarding and delivering of traffic upon and from the several railways and canals belonging to or worked by such companies respect-

ively, and for the return of carriages, trucks, boats, and other vehicles; and that no such company shall make or give any undue or unreasonable preference or advantage to or in favor of any particular person or company, or any particular description of traffic, in any respect whatsoever, or shall subject any particular person or company, or any particular description of traffic, to any undue or unreasonable prejudice or disadvantage in any respect whatsoever; and that every railway company and canal company and railway and canal company having or working railways or canals which form part of a continuous line of railway, or canal, or railway and canal communication, or which have the terminus, station, or wharf of the one, near the terminus, station, or wharf of the other, shall afford all due and reasonable facilities for receiving and forwarding by one of such railways or canals all the traffic arriving by the other, without any unreasonable delay, and without any such preference or advantage or prejudice or disadvantage, as aforesaid, and so that no obstruction may be offered to the public desirous of using such railways or canals, or railways and canals as a continuous line of communication, and so that all reasonable accommodation may by means of the railways and canals and of the several companies be at all times afforded to the public in that behalf:

And, *whereas*, it is expedient to explain and amend the said enactment, *Be it therefore enacted*, that—

Subject as hereinafter mentioned, the said facilities to be so afforded are hereby declared to and shall include the due and reasonable receiving, forwarding, and delivering by every railway company and canal company and railway and canal company, at the request of any other such company, of through traffic to and from the railway or canal of any other such company at through rates, tolls, or fares (in this Act referred to as through rates).

Provided as follows:

(1.) The company requiring the traffic to be forwarded shall give written notice of the proposed through rate to each forwarding company, stating both its amount and its apportionment, and the route by which the traffic is proposed to be forwarded.

(2.) Each forwarding company shall, within the prescribed period after the receipt of such notice, by written notice, inform the company requiring the traffic to be forwarded whether they agree to the rate and route; and, if they object to either, the grounds of the objection.

(3.) If at the expiration of the prescribed period no such objection has been sent by any forwarding company, the rate shall come into operation at such expiration.

(4.) If any objection to the rate or route has been sent within the prescribed period, the matter shall be referred to the commissioners for their decision.

(5.) If an objection be made to the granting of the rate or to the route, the commissioners shall consider whether the granting of the rate is a due and reasonable facility, in the interest of the public, and whether, having regard to the circumstances, the route proposed is a reasonable route, and shall allow or refuse the rate accordingly.

(6.) If the objection be only to the apportionment of the rate, the rate shall come into operation at the expiration of the prescribed period, but the decision of the commissioners as to its apportionment shall be retrospective, in any other case the operation of the rate shall be suspended until the decision is given.

(7.) The commissioners, in apportioning the through rate, shall take into consideration all the circumstances of the case, including any special expense incurred in respect of the construction, maintenance or working of the route, or any part of the route, as well as any special charges which any company may have been entitled to make in respect thereof.

(8.) It shall not be lawful for the commissioners in any case to compel any company to accept lower mileage rates than the mileage rates which such company may for the time being legally be charging for like traffic carried by a like mode of transit on any other line of communication between the same points, being the points of departure and arrival of the through route.

(9.) The prescribed period mentioned in this section shall be ten days, or such longer period as the commissioners may from time to time, by general order, prescribe.

Where a railway company or canal company use, maintain, or work, or are party to an arrangement for using, maintaining, or working steam vessels for the purpose of carrying on a communication between any towns or ports, the provisions of this section shall extend to such steam vessels and to the traffic carried thereby.

12. Subject to the provisions in the last preceding section contained, the commissioners shall have full power to decide that any proposed through rate is due and reasonable, notwithstanding that a less amount may be allotted to any forwarding company out of such through rate than the maximum rate such company is entitled to charge, and to allow and apportion such through rate accordingly.

13. A complaint of a contravention of section 2 of the Railway and Canal Traffic Act, 1854, as amended by this Act, may be made to the commissioners by a municipal or other public corporation, local or harbor board, without proof that the complainants are aggrieved by the contravention; *Provided*, That a complaint shall not be entertained by the commissioners in pursuance of this section unless such complaint is accompanied by a certificate of the board of trade to the effect that in their opinion the case, in respect of which the complaint is made, is a proper one to be submitted for adjudication to the commissioners by such municipal or other public corporation, local or harbor board.

14. Every railway company and canal company shall keep at each of their stations and wharves a book or books showing every rate for the time being charged for the carriage of traffic other than passengers and their luggage, from that station or wharf to any place to which they book, including any rates charged under any special contract, and stating the distance from that station or wharf of every station, wharf, siding, or place to which any such rate is charged.

Every such book shall, during all reasonable

hours, be open to the inspection of any person without the payment of any fee.

The commissioners may from time to time, on the application of any person interested, make orders with respect to any particular description of traffic requiring a railway company or canal company to distinguish in such book how much of each rate is for the conveyance of the traffic on the railway or canal, including therein tolls for the use of the railway or canal, for the use of carriages or vessels, or for locomotive power, and how much is for other expenses, specifying the nature and detail of such other expenses.

Any company failing to comply with the provisions of this selection shall, for each offense, and in the case of a continuing offense, for every day during which the offense continues, be liable to a penalty not exceeding £5, and such penalty shall be recovered and applied in the same manner as penalties imposed by the Railways Clauses Consolidation Act, 1845, and the Railways Clauses Consolidation (Scotland) Act, 1845 (as the case may require) are for the time being recoverable and applicable.

15. The commissioners shall have power to hear and determine any question or dispute which may arise with respect to the terminal charges of any railway company, where such charges have not been fixed by any Act of Parliament, and to decide what is a reasonable sum to be paid to any company for loading and unloading, covering collection, delivery, and other services of a like nature; any decision of the commissioners under this section shall be binding on all courts and in all legal proceedings whatsoever.

16. No railway company or canal company, unless expressly authorized thereto by any Act passed before the passing of this Act, shall, without the sanction of the commissioners, to be signified in such manner as they may by general order or otherwise direct, enter into any agreement whereby any control over or right to interfere in or concerning the traffic carried or rates or tolls levied on any part of a canal is given to the railway company, or any persons managing or connected with the management of any railway; and any such agreement made after the commencement of this Act without such sanction shall be void.

The commissioners shall withhold their sanction from any such agreement which is in their opinion prejudicial to the interests of the public.

Not less than one month before any such agreement is so sanctioned, copies of the intended agreement certified under the hand of the secretary of the railway company or one of the railway companies party or parties thereto, shall be deposited for public inspection at the office of the commissioners, and also at the office of the clerk of the peace of the county, riding, or division in England or Ireland, in which the head office of any canal company party to the agreement is situate, and at the office of the principal sheriff clerk of every such county in Scotland, and notice of the intended agreement, setting forth the parties between whom or on whose behalf the same is intended to be made, and such further particulars with respect thereto as the commis-

sioners may require, shall be given by advertisement in the London, Edinburgh or Dublin Gazette, according as the head office of any canal company party to the agreement is situate in England, Scotland, or Ireland, and shall be sent to the secretary or principal officer of every canal company any of whose canals communicates with the canal of any company party to the agreement; and shall be published in such other way, if any, as the commissioners for the purpose of giving notice to all parties interested therein by order direct.

17. Every railway company owning or having the management of any canal or part of a canal shall at all times keep and maintain such canal or part, and all the reservoirs, works, and conveniences thereto belonging, thoroughly repaired and dredged and in good working condition, and shall preserve the supplies of water to the same, so that the whole of such canal or part may be at all times kept open and navigable for the use of all persons desirous to use and navigate the same without any unnecessary hindrance, interruption, or delay.

(Sections 18, 19 and 20 relate to the *Conveyance of Mails*.)

Regulations as to Commerce.

Section 21 prescribes the duties of "assistant commissioners," and section 22 the salaries of the commissioners and their assistants; while sections 23 and 24 provide for the appointment of assessors and subordinate officers and clerks.

25. For the purposes of this Act the commissioners shall, subject as in this Act mentioned, have full power to decide all questions, whether of law or of fact, and shall also have the following powers; that is to say:

(a.) They may, by themselves or by any persons appointed by them to prosecute an inquiry, enter and inspect any place or building being the property or under the control of any railway or canal company, the entry or inspection of which appears to them requisite;

(b.) They may require the attendance of all such persons as they think fit to call before them and examine, and may require answers or returns to such inquiries as they think fit to make;

(c.) They may require the production of all books, papers, and documents relating to the matters before them;

(d.) They may administer an oath;

(e.) They may, when sitting in open court, punish for contempt in like manner as if they were a court of record.

Every person required by the commissioners to attend as a witness shall be allowed such expenses as would be allowed to a witness attending on subpoena before a court of record; and in case of dispute as to the amount to be allowed, the same shall be referred to a master of one of the superior courts, who, on request, under the hands of the commissioners, shall ascertain and certify the proper amount of such expenses.

26. Any decision or any order made by the commissioners for the purpose of carrying into effect any of the provisions of this Act may be made a rule or order of any superior court, and shall be enforced either in the manner directed by section 8 of the Railway and Canal

Traffic Act, 1854, as to the writs and orders therein mentioned, or in like manner as any rule or order of such court.

For the purpose of carrying into effect this section, general rules and orders may be made by any superior court in the same manner as general rules and orders may be made with respect to any other proceedings in such court.

The commissioners may review and rescind or vary any decision or order previously made by them; or any of them.

The commissioners shall, in all proceedings before them under sections 6, 11, 12 and 13 of this Act, and may, if they think fit, in all other proceedings before them under this Act, at the instance of any party to the proceedings before them, and upon such security being given by the appellant as the commissioners may direct, state a case in writing for the opinion of any superior court determined by the commissioners upon any question which, in the opinion of the commissioners, is a question of law.

The court to which the case is transmitted shall hear and determine the question or questions of law arising thereon, and shall thereupon reverse, affirm, or amend the determination in respect of which the case has been stated, or remit the matter to the commissioners with the opinion of the court thereon, or may make such other order in relation to the matter, and may make such order as to costs as to the court may seem fit; and all such orders shall be final and conclusive on all parties; *Provided*, That the commissioners shall not be liable to any costs in respect or by reason of any such appeal.

The operation of any decision or order made by the commissioners shall not be stayed pending the decision of any such appeal, unless the commissioners shall otherwise order. Save as aforesaid, every decision and order of the commissioners shall be final.

27. The commissioners shall sit at such times and in such places and conduct their proceedings in such manner as may seem to them most convenient for the speedy dispatch of business; they may, subject as in this Act mentioned, sit together or separately, and either in private or in open court; but any complaint made to them shall, on the application of any party to the complaint, be heard and determined in open court.

28. The costs of and incidental to any proceeding before the commissioners shall be in the discretion of the commissioners.

29. The commissioners may at any time after the passing of this Act, and from time to time, make such general orders as may be requisite for the regulation of proceedings before them, including applications for and the stating of cases for appeal, and also for prescribing, di-

recting or regulating any matter which they are authorized by this Act to prescribe, direct, or regulate by general order, and also for enabling the commissioners in cases to be specified in such general orders to exercise their jurisdiction by any one or two of their number; *Provided*, That any person aggrieved by any decision or order made in any case so specified may require a rehearing by all the commissioners. They may further make regulations for enabling them to carry into effect the provisions of this Act, and may from time to time revoke and alter any general orders or regulations made in pursuance of this Act. Every general order, and every alteration in a general order, made in pursuance of this section, shall be submitted to the lord chancellor for approval, and shall not come into force until it shall be approved by him.

Every general order purporting to be made in pursuance of this Act shall, immediately after the making thereof, be laid before both Houses of Parliament, if Parliament be then sitting, or if Parliament be not then sitting, within seven days after the then next meeting of Parliament; and if either House of Parliament, by a resolution passed within two months after such general order has been so laid before the said House, resolve that the whole or any part of such general order ought not to continue in force, the same shall, after the date of such resolution, cease to be of any force, without prejudice, nevertheless, to the making of any other general order in its place, or to anything done in pursuance of this general order before the date of such resolution; but, subject as aforesaid, every general order purporting to be made in pursuance of this Act shall be deemed to have been duly made and within the powers of this Act, and shall have effect as if it had been enacted in this Act.

30. Every document purporting to be signed by the commissioners, or any one of them, shall be received in evidence without proof of such signature, and until the contrary is proved shall be deemed to have been so signed and to have been duly executed or issued by the commissioners.

31. The commissioners shall, once in every year, make a report to Her Majesty of their proceedings under this Act during the past year; and such report shall be laid before both Houses of Parliament within fourteen days after the making thereof if Parliament is then sitting, and if not, then within fourteen days after the next meeting of Parliament.

(Sections 32-37 provide for fees, notices, etc.)
(The Rules and Forms of Procedure under this Act are printed in 2 Nev. & Mac. R. R. Cas. 2-14.)

APPENDIX IV.

NOTE ON DECISIONS AFFECTING THE ACT TO REGULATE COMMERCE, APPROVED FEBRUARY 4, 1887; AND REFERENCES TO CONSTRUCTIONS OF THE ENGLISH STATUTES UPON THE SUBJECT OF COMMERCE.

CONSTITUTIONALITY; POWER OF CONGRESS.

The United States Constitution provides: *

"The Congress shall have power * * * to regulate commerce with foreign Nations and among the States and with the Indian Tribes."

Art. 1, § 8, cl. 3.

"Congress shall have power * * * to make all laws which shall be necessary and proper for carrying into execution the foregoing powers, and all other powers vested in this Constitution in the Government of the United States, or in any department or office thereof."

Art. 1, § 8, cl. 18.

"No tax or duty shall be laid on articles exported from any State."

Art. 1, § 9, cl. 5.

"No preference shall be given by any regulation of commerce, or revenue to the ports of one State over those of another; nor shall vessels bound to or from one State be obliged to enter, clear or pay duties in another."

Art. 1, § 9, cl. 6.

"No State shall, without the consent of Congress, lay any imposts or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws; and the net produce of all duties and imposts, laid by any State on imports or exports, shall be for
INTER 8.

the use of the Treasury of the United States; and all such laws shall be subject to the revision and control of the Congress."

Art. 1, § 10, cl. 3.

The previous Acts of Congress regulating commerce are:

The Act of March 8, 1873, R. S. §§ 4386-4390, regulating the transportation of live stock, held constitutional in:

U. S. v. Boston & A. R. Co. 15 Fed. Rep. 209; U. S. v. Louisville & N. R. Co. 18 Fed. Rep. 480; U. S. v. East Tenn V. & G. R. Co. 13 Fed. Rep. 642.

The Act of June 15, 1856, R. S. § 5258, providing that railroads may form continuous lines for transportation between States held constitutional in:

Dubuque & S. C. R. Co. v. Richmond, 86 U. S. 19 Wall. 584 (22 L. ed. 173); Council Bluffs v. Kansas City, St. J. & C. B. R. Co. 45 Iowa, 338; Hardy v. Atchison, T. & S. F. R. Co. 32 Kan. 698.

In the report of the Senate select committee on interstate commerce, submitted January 18, 1886, pp. 28-33, the constitutionality of the Act is predicated upon the following decisions:

Cooley v. Board of Wardens, 53 U. S. 12 How. 299 (13 L. ed. 996); Mobile Co. v. Kimball, 102 U. S. 691 (26 L. ed. 238); Gloucester

Ferry Co. v. Pa. 114 U. S. 196 (29 L. ed. 158); 1 Inters. Com. Rep. 382; Brown v. Houston, 114 U. S. 622 (29 L. ed. 257); Gibbons v. Ogden, 22 U. S. 9 Wheat. 1 (6 L. ed. 28); Pa. v. Wheeling & B. Bridge Co. 54 U. S. 18 How. 518 (14 L. ed. 249).

Marshall, C. J., in Gibbons v. Ogden, 22 U. S. 9 Wheat. 196, 197 (6 L. ed. 70) says:

"It is the power to regulate; that is, to prescribe the rule by which commerce is to be governed. This power, like all others vested in Congress, is complete in itself, may be exercised to its utmost extent, and acknowledges no limitations other than are prescribed in the Constitution. * * * If, as has always been understood, the sovereignty of Congress, though limited to specified objects, is plenary as to those objects, the power over commerce with foreign Nations, and among the several States, is vested in Congress as absolutely as it would be in a single government, having in its Constitution the same restrictions on the exercise of the power as are found in the Constitution of the United States."

The power of Congress to regulate commerce is not confined to the instrumentalities of commerce known or in use when the Constitution was adopted, but keeps pace with the progress of the country and adapts itself to new developments of time and circumstances.

Pensacola Tel. Co. v. W. U. Tel. Co. 96 U. S. 1 (24 L. ed. 708); W. U. Tel. Co. v. Texas, 105 U. S. 460 (26 L. ed. 1067).

The constitutional power is necessarily exclusive whenever the subjects are national in character, and admit only of one uniform system or plan of regulation.

Robbins v. Taxing Dist. of Shelby Co. 120 U. S. 489 (30 L. ed. 694); 1 Inters. Com. Rep. 45; Phila. & S. M. Steamship Co. v. Pa. 123 U. S. 326 (30 L. ed. 1200); 1 Inters. Com. Rep. 308; Wabash, St. L. & P. R. Co. v. Ill. 118 U. S. 557 (30 L. ed. 244); 1 Inters. Com. Rep. 31; Gloucester Ferry Co. v. Pa. 114 U. S. 196, 203 (29 L. ed. 158, 161); Mobile Co. v. Kimball, 102 U. S. 691, 697 (26 L. ed. 238, 239); The Case of the State Freight Tax, 82 U. S. 15 Wall. 282 (21 L. ed. 146); Henderson v. Mayor of N. Y. 92 U. S. 260 (23 L. ed. 848).

The nonexercise of the power in respect to the regulation of commerce between the States is equivalent to a declaration that such commerce shall be free and untrammelled except in matters of local concern.

Welton v. Mo. 91 U. S. 275 (23 L. ed. 347); Brown v. Houston, 114 U. S. 622 (29 L. ed. 257); Pickard v. Pullman S. Car Co. 117 U. S. 84 (29 L. ed. 785); Wabash, St. L. & P. R. Co. v. Ill. 118 U. S. 557 (30 L. ed. 244); 1 Inters. Com. Rep. 31; Walling v. Mich. 116 U. S. 446 (29 L. ed. 691); Corson v. Md. 120 U. S. 502 (30 L. ed. 699); 1 Inters. Com. Rep. 50; Hall v. DeCuir, 95 U. S. 485 (24 L. ed. 547); Hannibal & St. J. R. Co. v. Husen, 95 U. S. 465 (24 L. ed. 527); Robbins v. Shelby Co. Taxing Dist. 120 U. S. 489 (30 L. ed. 694); 1 Inters. Com. Rep. 45; Gloucester Ferry Co. v. Pa. 114 U. S. 196 (29 L. ed. 158); 1 Inters. Com. Rep. 382; Phila. & S. M. Steamship Co. v. Pa. 123 U. S. 326 (30 L. ed. 1200); 1 Inters. Com. Rep. 308; State R. Comrs. v. R. Co. 23 S. C. 220.

The regulation of fares and freights receivable for transportation of persons and goods

between different States, and between the States and foreign countries, is within the power of Congress equally with the regulation of transportation itself.

Phila. & S. M. Steamship Co. v. Pa. 123 U. S. 326 (30 L. ed. 1200); 1 Inters. Com. Rep. 308.

The power to regulate interstate and foreign commerce vested in Congress is the power to prescribe the rules by which it shall be governed—that is, the conditions upon which it shall be conducted; to determine when it shall be free from, and when subject to, duties or other exactions.

Gloucester Ferry Co. v. Pa. 114 U. S. 196 (29 L. ed. 158); 1 Inters. Com. Rep. 382.

Freedom of transportation implies exemption from charges other than such as are imposed by way of compensation for the use of the property employed, or for facilities afforded for its use, or as ordinary taxes upon the value of the property within the jurisdiction of the State. *Id.*

Power of Congress over bridges and navigable rivers.

Pa. v. Wheeling & B. Bridge Co. 59 U. S. 18 How. 429 (15 L. ed. 436); The Clinton Bridge, 77 U. S. 10 Wall. 454 (19 L. ed. 969); Miller v. Mayor of N. Y. 10 Fed. Rep. 513; S. C. 109 U. S. 385 (27 L. ed. 971); Newport & C. Bridge Co. v. U. S. 105 U. S. 470 (26 L. ed. 1143); Canada S. R. Co. v. Internat. Bridge Co. 8 Fed. Rep. 190; S. C. v. Ga. 98 U. S. 4 (23 L. ed. 782); Stockton v. Balt. & N. Y. R. Co. (U. S. C. C.) 1 Inters. Com. Rep. 411.

The Act of Congress, approved June 16, 1886, entitled "An Act to Authorize the construction of a Bridge across the Staten Island Sound, Known as Arthur Kill," etc., is valid and constitutional under the power of Congress to regulate commerce among the States.

Stockton v. Balt. & N. Y. R. Co. (U. S. C. C.); 1 Inters. Com. Rep. 411; Decker v. Same, 1 Inters. Com. Rep. 484. (See full reports of briefs of counsel in these cases.)

Said Act is not permissive merely, but gives authority and power to build such bridge, without reference to any authority or consent from the State on whose land under navigable water the bridge is to rest, and without compensation to the State.

Stockton v. Balt. & N. Y. R. Co. (U. S. C. C.) 1 Inters. Com. Rep. 411.

When the United States does not seek to acquire exclusive jurisdiction over land within a State, it may condemn such land for its purposes without the consent of the State. *Id.*

Congress has the power to fix the maximum compensation for transportation between States and foreign countries.

Canada S. R. Co. v. Internat. Bridge Co. 8 Fed. Rep. 190; Louisville & N. R. Co. v. Tennessee R. Commission, 19 Fed. Rep. 679.

The power of Congress to regulate commerce with the Indian Tribes is exclusive.

Worcester v. Ga. 31 U. S. 6 Pet. 515 (8 L. ed. 483); U. S. v. Holliday, 70 U. S. 8 Wall. 407 (18 L. ed. 182); U. S. v. 43 Gallons of Whiskey, 98 U. S. 188 (23 L. ed. 846).

It may also extend its regulations to Territories in proximity to that occupied by Indians.

U. S. v. 43 Gallons of Whisky, 98 U. S. 188 (23 L. ed. 846).

See also Harper, *Interstate Commerce*, pp. 19-29; Note 1, *Inters. Com. Rep.* 882; Dos Passos, *Interstate Commerce Act*.

WHAT IS INTERSTATE COMMERCE.

"Commerce is a term of the largest import, * * * The power to regulate it embraces all the instruments by which such commerce may be conducted."

Welton v. Mo. 91 U. S. 275, 278 (23 L. ed. 347, 349).

It consists in intercourse and traffic, including in these terms navigation, and the transportation and transit of persons and property, as well as the purchase, sale and exchange of commodities.

Gibbons v. Ogden, 22 U. S. 9 *Wheat.* 1, 189 (6 L. ed. 23, 68); *Brown v. Md.* 25 U. S. 12 *Wheat.* 446 (6 L. ed. 688); *Gloucester Ferry Co. v. Pa.* 114 U. S. 196 (29 L. ed. 158); *Henderson v. Mayor of N. Y.*, 92 U. S. 259 (23 L. ed. 548); *Mobile Co. v. Kimball*, 102 U. S. 691 (26 L. ed. 238); *Wabash, St. L. & P. R. Co. v. Ill.* 118 U. S. 557 (30 L. ed. 244); *Pacific Coast S. S. Co. v. Railroad Comrs.* 9 *Sawyer*, 253; *S. C.* 18 Fed. Rep. 10.

It includes the transportation of persons and property, and the navigation of public waters for that purpose, as well as the purchase, sale and exchange of commodities.

Gloucester Ferry Co. v. Pa. 114 U. S. 196 (29 L. ed. 158); 1 *Inters. Com. Rep.* 382.

Whenever a commodity has begun to move as an article of trade from one State to another, commerce in that commodity between States has commenced. The fact that several different and independent agencies are employed in transferring the commodity, some acting entirely within one State, and some acting through two or more States, does not in any respect affect the character of the transaction. To the extent which each agency acts in that transportation, it is subject to the regulation of commerce.

The Daniel Ball, 77 U. S. 10 *Wall.* 557 (19 L. ed. 999); *Coe v. Errol*, 116 U. S. 517 (29 L. ed. 715); *U. S. v. Coombs*, 37 U. S. 12 *Pet.* 72 (9 L. ed. 1004); *Sherlock v. Alling*, 93 U. S. 99 (23 L. ed. 819).

In *Hardy v. Atchison, T. & S. F. R. Co.* 32 *Kan.* 717, *Horton, C. J.*, says "That each railroad company in the case before us issued its own way bill to and from the connecting point with the defendant, and that each company was liable for the loss and damage occurring on its own road only, does not affect the question of interstate commerce. From the time the goods began to be moved from St. Louis, Mo., until they were delivered at Hutchinson, in this State, they were the subject of commerce among States, and therefore interstate commerce."

The transportation of property from one State to another is interstate commerce, whether the carriers engaged in moving it, or the vehicles on which it is borne, cross the line of the State or not.

Ex parte Koehler (U. S. C. C.); 1 *Inters. Com. Rep.* 28.

The power to regulate commerce between the States extends not only to the control of the navigable waters of the country and the lands under them for the purpose of navigation, but for the purpose of erecting piers, bridges, and all other instrumentalities of commerce which in the judgment of Congress may be necessary or expedient.

Stockton v. Balt. & N. Y. R. Co. (U. S. C. C.); 1 *Inters. Com. Rep.* 411.

The negotiation of sales of goods which are in another State for the purpose of introducing them into the State where the negotiation is made, is interstate commerce, and cannot be taxed or restricted by the State.

Robbins v. Shelby Co. Taxing Dist. and Corson v. Md. 120 U. S. 489, 502 (30 L. ed. 694, 699).

Foreign corporations have the same right as individuals to conduct everywhere the business of interstate transportation.

Paul v. Va. 75 U. S. 8 *Wall.* 168 (19 L. ed. 357); *Pensacola Tel. Co. v. W. U. Tel. Co.* 96 U. S. 12 (24 L. ed. 711); *Doyle v. Continental Ins. Co.* 94 U. S. 544 (24 L. ed. 152); *W. U. Tel. Co. v. Texas*, 105 U. S. 460 (26 L. ed. 1067); *N. O. & M. Packet Co. v. James*, 1 *Inters. Com. Rep.* 599.

But a State may prescribe the terms upon which a foreign insurance company may do business within its borders.

List v. Pa. 1 *Inters. Com. Rep.* 784; *Paul v. Va.* 75 U. S. 8 *Wall.* 169 (19 L. ed. 357); *Liverpool Ins. Co. v. Mass.* 77 U. S. 10 *Wall.* 566 (19 L. ed. 1029); *Phila. Fire Assn. v. N. Y.* 119 U. S. 110 (30 L. ed. 342).

Intercourse by telegraph between the States is interstate commerce.

W. U. Tel. Co. v. Pendleton, 122 U. S. 347 (30 L. ed. 1187); 1 *Inters. Com. Rep.* 306; *W. U. Tel. Co. v. Texas*, 105 U. S. 460 (26 L. ed. 1067); *Pensacola Tel. Co. v. W. U. Tel. Co.* 96 U. S. 1 (24 L. ed. 708). See *W. U. Tel. Co. v. Ferris (Ind.)* 1 *West. Rep.* 211.

Express business when conducted by a railroad company is within the provisions of the Interstate Commerce Act, but independent Express Companies are not subject to the Act, not being included in the common carriers declared to be so subject.

Re Express Companies, 1 *Inters. Com. Rep.* 677.

POWER OF STATES; POLICE POWER.

The police power of a State extends to all regulations affecting the health, good order, morals, peace and safety of society; and under it all sorts of restrictions and burdens are imposed; and when these are not in conflict with any constitutional prohibition or fundamental principles they cannot be successfully assailed in a judicial tribunal.

Bartemeyer v. Iowa, 85 U. S. 18 *Wall.* 129 (21 L. ed. 929); *Slaughter-House Cases*, 83 U. S. 16 *Wall.* 36 (21 L. ed. 894); *Butchers Union Co. v. Crescent City Co.* 111 U. S. 8 *Wall.* 28 (28 L. ed. 585); *Barbier v. Connolly*, 113 U. S. 27 (28 L. ed. 923); *Boston Beer Co. v. Mass.* 97 U. S. 25 (24 L. ed. 989); *Patterson v. Ky.* 97 U. S. 489 (30 L. ed. 694); *Fargo v. Mich.* 112 U. S. 230 (30 L. ed. 888); *Phila. & S. Steamship Co. v. Pa.* 123 U. S. 326 (30 L. ed. 1200); *Pullman S. Car Co. v. Nolan*, 22 Fed. Rep. 276.

A state license or tax discriminating against products of other States is void.

Welton v. Mo. 91 U. S. 275 (23 L. ed. 347); *Webber v. Va.* 103 U. S. 344 (26 L. ed. 565); *Walling v. Mich.* 116 U. S. 446 (29 L. ed. 691); *State v. Furbush*, 73 Maine, 498; *Higgins v. 200 Casks Lime*, 180 Mass. 1; *State v. North*, 27 Mo. 464; *Re Watson*, 15 Fed. Rep. 511.

A state law requiring a license to sell im

ported goods in the original package is void.

Cook v. Pa. 97 U. S. 566 (24 L. ed. 1016); *Brown v. Md.* 25 U. S. 12 Wheat. 419 (6 L. ed. 678).

A State cannot levy a license tax or impose any other restriction upon the citizens or inhabitants of other States for selling or seeking to sell their goods in such State before they are introduced therein.

Corson v. State, 120 U. S. 502 (30 L. ed. 699); 1 Inters. Com. Rep. 50; *Robbins v. Shelby Co. Taxing Dist.* 120 U. S. 489 (30 L. ed. 694); 1 Inters. Com. Rep. 45; *Re Hennick (D. C.)* 1 Inters. Com. Rep. 66; *Rash v. Halloway*, 82 Ky. 674; *Grafty v. Rushville (Ind.)* 5 West. Rep. 858; *State v. Pratt (Vt.)* 4 New Eng. Rep. 357; 1 Inters. Com. Rep. 299.

But it was held in *State v. Long*, 95 N. C. 582, that the license tax imposed upon drummers by section 28, chap. 175, Revenue Act N. C. Laws 1885, does not conflict with the Constitution of the United States. The rebate allowed from the drummers' license tax to merchants paying a purchase tax, by section 25 of said Act, does not discriminate against nonresidents, since all persons, irrespective of their residence, engaged in the business therein designated, are entitled to its benefits.

A statute requiring the inspection of tobacco and prescribing the charges therefor is not a regulation of commerce.

Turner v. Md. 107 U. S. 38 (27 L. ed. 370).

The right to make, use and vend a patented article is subject to the power of the State to regulate.

Authorities cited. *Hockett v. State (Ind.)* 2 West. Rep. 770; *New v. Walker (Ind.)* 6 West. Rep. 869; *Brechbill v. Randall (Ind.)* 2 West. Rep. 731.

Whether a statute discriminating against patented articles would be valid, questioned.

A State may prescribe the terms upon which foreign corporations may do business within its borders; *Paul v. Va.* 75 U. S. 8 Wall. 168 (19

ively, and for the return of carriages, trucks, boats, and other vehicles; and that no such company shall make or give any undue or unreasonable preference or advantage to or in favor of any particular person or company, or any particular description of traffic, in any respect whatsoever, or shall subject any particular person or company, or any particular description of traffic, to any undue or unreasonable prejudice or disadvantage in any respect whatsoever; and that every railway company and canal company and railway and canal company having or working railways or canals which form part of a continuous line of railway, or canal, or railway and canal communication, or which have the terminus, station, or wharf of the one, near the terminus, station, or wharf of the other, shall afford all due and reasonable facilities for receiving and forwarding by one of such railways or canals all the traffic arriving by the other, without any unreasonable delay, and without any such preference or advantage or prejudice or disadvantage, as aforesaid, and so that no obstruction may be offered to the public desirous of using such railways or canals, or railways and canals as a continuous line of communication, and so that all reasonable accommodation may by means of the railways and canals and of the several companies be at all times afforded to the public in that behalf:

And, whereas, it is expedient to explain and amend the said enactment, Be it therefore enacted, that—

Subject as hereinafter mentioned, the said facilities to be so afforded are hereby declared to and shall include the due and reasonable receiving, forwarding, and delivering by every railway company and canal company and railway and canal company, at the request of any other such company, of through traffic to and from the railway or canal of any other such company at through rates, tolls, or fares (in this Act referred to as through rates).

Provided as follows:

(1.) The company requiring the traffic to be forwarded shall give written notice of the proposed through rate to each forwarding company, stating both its amount and its apportionment, and the route by which the traffic is proposed to be forwarded.

(2.) Each forwarding company shall, within the prescribed period after the receipt of such notice, by written notice, inform the company requiring the traffic to be forwarded whether they agree to the rate and route; and, if they object to either, the grounds of the objection.

(3.) If at the expiration of the prescribed period no such objection has been sent by any forwarding company, the rate shall come into operation at such expiration.

(4.) If any objection to the rate or route has been sent within the prescribed period, the matter shall be referred to the commissioners for their decision.

(5.) If an objection be made to the granting of the rate or to the route, the commissioners shall consider whether the granting of the rate is a due and reasonable facility, in the interest of the public, and whether, having regard to the circumstances, the route proposed is a reasonable route, and shall allow or refuse the rate accordingly.

(6.) If the objection be only to the apportionment of the rate, the rate shall come into operation at the expiration of the prescribed period, but the decision of the commissioners as to its apportionment shall be retrospective; in any other case the operation of the rate shall be suspended until the decision is given.

(7.) The commissioners, in apportioning the through rate, shall take into consideration all the circumstances of the case, including any special expense incurred in respect of the construction, maintenance or working of the route, or any part of the route, as well as any special charges which any company may have been entitled to make in respect thereof.

(8.) It shall not be lawful for the commissioners in any case to compel any company to accept lower mileage rates than the mileage rates which such company may for the time being legally be charging for like traffic carried by a like mode of transit on any other line of communication between the same points, being the points of departure and arrival of the through route.

(9.) The prescribed period mentioned in this section shall be ten days, or such longer period as the commissioners may from time to time, by general order, prescribe.

Where a railway company or canal company use, maintain, or work, or are party to an arrangement for using, maintaining, or working steam vessels for the purpose of carrying on a communication between any towns or ports, the provisions of this section shall extend to such steam vessels and to the traffic carried thereby.

12. Subject to the provisions in the last preceding section contained, the commissioners shall have full power to decide that any proposed through rate is due and reasonable, notwithstanding that a less amount may be allotted to any forwarding company out of such through rate than the maximum rate such company is entitled to charge, and to allow and apportion such through rate accordingly.

13. A complaint of a contravention of section 2 of the Railway and Canal Traffic Act, 1854, as amended by this Act, may be made to the commissioners by a municipal or other public corporation, local or harbor board, without proof that the complainants are aggrieved by the contravention; *Provided*, That a complaint shall not be entertained by the commissioners in pursuance of this section unless such complaint is accompanied by a certificate of the board of trade to the effect that in their opinion the case, in respect of which the complaint is made, is a proper one to be submitted for adjudication to the commissioners by such municipal or other public corporation, local or harbor board.

14. Every railway company and canal company shall keep at each of their stations and wharves a book or books showing every rate for the time being charged for the carriage of traffic other than passengers and their luggage, from that station or wharf to any place to which they book, including any rates charged under any special contract, and stating the distance from that station or wharf of every station, wharf, siding, or place to which any such rate is charged.

Every such book shall, during all reasonable

hours, be open to the inspection of any person without the payment of any fee.

The commissioners may from time to time, on the application of any person interested, make orders with respect to any particular description of traffic requiring a railway company or canal company to distinguish in such book how much of each rate is for the conveyance of the traffic on the railway or canal, including therein tolls for the use of the railway or canal, for the use of carriages or vessels, or for locomotive power, and how much is for other expenses, specifying the nature and detail of such other expenses.

Any company failing to comply with the provisions of this selection shall, for each offense, and in the case of a continuing offense, for every day during which the offense continues, be liable to a penalty not exceeding £5, and such penalty shall be recovered and applied in the same manner as penalties imposed by the Railways Clauses Consolidation Act, 1845, and the Railways Clauses Consolidation (Scotland) Act, 1845 (as the case may require) are for the time being recoverable and applicable.

15. The commissioners shall have power to hear and determine any question or dispute which may arise with respect to the terminal charges of any railway company, where such charges have not been fixed by any Act of Parliament, and to decide what is a reasonable sum to be paid to any company for loading and unloading, covering collection, delivery, and other services of a like nature; any decision of the commissioners under this section shall be binding on all courts and in all legal proceedings whatsoever.

16. No railway company or canal company, unless expressly authorized thereto by any Act passed before the passing of this Act, shall, without the sanction of the commissioners, to be signified in such manner as they may by general order or otherwise direct, enter into any agreement whereby any control over or right to interfere in or concerning the traffic carried or rates or tolls levied on any part of a canal is given to the railway company, or any persons managing or connected with the management of any railway; and any such agreement made after the commencement of this Act without such sanction shall be void.

The commissioners shall withhold their sanction from any such agreement which is in their opinion prejudicial to the interests of the public.

Not less than one month before any such agreement is so sanctioned, copies of the intended agreement certified under the hand of the secretary of the railway company or one of the railway companies party or parties thereto, shall be deposited for public inspection at the office of the commissioners, and also at the office of the clerk of the peace of the county, riding, or division in England or Ireland, in which the head office of any canal company party to the agreement is situate, and at the office of the principal sheriff clerk of every such county in Scotland, and notice of the intended agreement, setting forth the parties between whom or on whose behalf the same is intended to be made, and such further particulars with respect thereto as the commis-

sioners may require, shall be given by advertisement in the London, Edinburgh or Dublin Gazette, according as the head office of any canal company party to the agreement is situate in England, Scotland, or Ireland, and shall be sent to the secretary or principal officer of every canal company any of whose canals communicates with the canal of any company party to the agreement; and shall be published in such other way, if any, as the commissioners for the purpose of giving notice to all parties interested therein by order direct.

17. Every railway company owning or having the management of any canal or part of a canal shall at all times keep and maintain such canal or part, and all the reservoirs, works, and conveniences thereto belonging, thoroughly repaired and dredged and in good working condition, and shall preserve the supplies of water to the same, so that the whole of such canal or part may be at all times kept open and navigable for the use of all persons desirous to use and navigate the same without any unnecessary hindrance, interruption, or delay.

(Sections 18, 19 and 20 relate to the *Conveyance of Mails*.)

Regulations as to Commerce.

Section 21 prescribes the duties of "assistant commissioners," and section 22 the salaries of the commissioners and their assistants; while sections 23 and 24 provide for the appointment of assessors and subordinate officers and clerks.

25. For the purposes of this Act the commissioners shall, subject as in this Act mentioned, have full power to decide all questions, whether of law or of fact, and shall also have the following powers; that is to say:

(a.) They may, by themselves or by any persons appointed by them to prosecute an inquiry, enter and inspect any place or building being the property or under the control of any railway or canal company, the entry or inspection of which appears to them requisite;

(b.) They may require the attendance of all such persons as they think fit to call before them and examine, and may require answers or returns to such inquiries as they think fit to make;

(c.) They may require the production of all books, papers, and documents relating to the matters before them;

(d.) They may administer an oath;

(e.) They may, when sitting in open court, punish for contempt in like manner as if they were a court of record.

Every person required by the commissioners to attend as a witness shall be allowed such expenses as would be allowed to a witness attending on subpoena before a court of record; and in case of dispute as to the amount to be allowed, the same shall be referred to a master of one of the superior courts, who, on request, under the hands of the commissioners, shall ascertain and certify the proper amount of such expenses.

26. Any decision or any order made by the commissioners for the purpose of carrying into effect any of the provisions of this Act may be made a rule or order of any superior court, and shall be enforced either in the manner directed by section 8 of the Railway and Canal

COMMON—LAW DUTIES OF CARRIERS.

At common law, a common carrier was bound to make only reasonable charges.

Great Western R. Co. v. Sutton, L. R. 4 Eng. & Irish App. (H. L.) 226-237; Angell, Carriers, § 124; Johnson v. Pensacola & P. R. Co. 16 Fla. 628; Baxendale v. Eastern Counties R. Co. 4 C. B. (N. S.) 68; Branley v. South Eastern R. Co. 12 C. B. (N. S.) 68; Fitchburg R. Co. v. Gage, 12 Gray, 398; Ex parte Benson, 18 S. C. 88; S. C. 44 Am. Rep. 564; Menacho v. Ward, 27 Fed. Rep. 531; S. C. 23 Am. & Eng. R. R. Cas. 647; 84 Alb. L. J. 44; Messenger v. Pa. R. Co. 86 N. J. L. 407; McDuffee v. Portland & R. R. Co. 62 N. H. 430; Munn v. Ill. 94 U. S. 118-184 (24 L. ed. 77-87); Sandford v. Catawissa, W. & E. R. Co. 24 Pa. 378; Shipper v. Pa. R. Co. 47 Pa. 388-341; Audenried v. Phila. & R. R. Co. 68 Pa. 370; Chicago B. & Q. R. Co. v. Parks, 18 Ill. 460; Chicago & A. R. Co. v. People, 67 Ill. 11; Scofield v. Lake Shore & M. S. R. Co. 1 West. Rep. 812, 43 Ohio St. 571; New England Express Co. v. M. C. R. Co. 57 Maine, 188; Hays v. Pa. Co. 12 Fed. Rep. 309; Hollister v. Nowlen, 19 Wend. 239; Smith v. Chicago & N. W. R. Co. 49 Wis. 443; Brown v. Adams Express Co. 15 W. Va. 521; Killmer v. N. Y. Cent. & H. R. R. Co. 1 Cent. Rep. 525, 100 N. Y. 895.

But he was not obliged to transport goods for all persons for the same compensation.

Great Western R. Co. v. Sutton, L. R. 4 Eng. & Irish. App. (H. L.) 226-237; Baxendale v. Eastern Counties R. Co. 4 C. B. (N. S.) 68; Branley v. South Eastern R. Co. 12 C. B. (N. S.) 68; Fitchburg R. Co. v. Gage, 12 Gray, 398; Spofford v. Boston & M. R. Co. 128 Mass. 826; Sargent v. Boston & L. R. Corp. 115 Mass. 423; Johnson v. Pensacola & P. R. Co. 16 Fla. 628; Ex parte Benson, 18 S. C. 88; S. C. 44 Am. Rep. 564; Menacho v. Ward, 27 Fed. Rep. 529-531; S. C. 23 Am. & Eng. R. R. Cas. 647; 84 Alb. L. J. 44; Killmer v. N. Y. Cent. & H. R. R. Co. 1 Cent. Rep. 525, 100 N. Y. 895.

The weight of American authority is that the common law requires that the charges must be equal to all for the same services under like circumstances.

St. Louis, A. & T. H. R. Co. v. Hill, 14 Bradw. (Ill. App.) 579; Messenger v. Pa. R. Co. 36 N. J. L. 407; S. C. 87 N. J. L. 531; Shipper v. Pa. R. Co. 47 Pa. 388; Audenried v. Phila. & R. R. At common law discriminations based solely upon the amounts of freight shipped without reference to the actual cost of transportation are not sanctioned.

Hays v. Pa. Co. 12 Fed. Rep. 309; Scofield v. Lake Shore & M. S. R. Co. 1 West. Rep. 812, 43 Ohio St. 571; Mo. Pac. R. Co. v. Texas & P. R. Co. 30 Fed. Rep. 2.

Railroads are bound at common law to receive and haul cars of other roads.

Mackin v. Boston & A. R. Co. 185 Mass. 201; Peoria & P. U. R. Co. v. Chicago, R. I. & P. R. Co. 109 Ill. 185; Note, 19 Cent. L. J. 111; Note, 18 Am. & Eng. R. R. Cas. 506.

LINE WHOLLY WITHIN A STATE; "COMMON CONTROL, MANAGEMENT OR ARRANGEMENT FOR CONTINUOUS CARRIAGE;" INTERSTATE COMMERCE ACT, § 1; ENGLISH RAILWAYS REGULATION, ACT 1878, § 11.

Provisions of section 11, of the Regulation of Railways Act, 1878, apply whenever there is an arrangement with the proprietors of steam vessels for the conveyance of passengers or goods to and from any port or town with which there is railway communication, provided the railway company party to the arrangement owned or worked or was otherwise immediately interested in some portion or other of the line of railway communication.

Caledonian R. Co. v. Greenock & W. B. R. Co. 4 R. & Can. Traf. Cas. 185; Greenock & W. B. R. Co. v. Caledonian R. Co. 2 Nev. & Mac. R. Cas. 327.

An agreement between a steamboat company and railway company that the vessels of the former shall be run at certain times, regard being had to the convenience of the railway company and to the times of the arrival and departure of its trains, as an arrangement within the meaning of section 11 of the Regulation of Railways Act, 1878.

Belfast etc. R. Co. v. G. N. R. Co. 4 R. & Can. Traf. Cas. 379.

But the mere existence of through bookings is not such an arrangement as that contemplated by section 11.

Ayr Harbour Trustees v. Glasgow R. Co. 4 R. & Can. Traf. Cas. 81.

The Interstate Commerce Act does not include or apply to all carriers engaged in interstate commerce, but only to such as use a railway, or a railway and water craft "under common control, management or arrangement for a continuous carriage or shipment" of property from one State to another; nor does it apply to the carriage of property by rail wholly within the State, although shipped from or destined to a place without the State, so that such place is not in a foreign country.

Ex parte Koehler (U. S. C. C.) 1 Inters. Com. Rep. 28; Mo. & I. R. T. & Lumber Co. v. Cape Girardeau & S. W. R. Co. 1 Inters. Com. Rep. 607.

The knowledge of a carrier whose line is wholly within one State that the ultimate destination of freight is without the State will not make it subject to the Interstate Commerce Act.

Mo. & I. R. T. & Lumber Co. v. Cape Girardeau & S. W. R. Co. 1 Inters. Com. Rep. 607.

In Ex parte Koehler, 1 Inters. Com. Rep. 28, Deady, J., says: "The mere fact that a railway wholly within a State, and a vessel running between said State and another, meet at a point within the railway State, and thus form a continuous line of transportation between the two States, by the one taking up the goods delivered by the other at its terminus, and carrying them thence to their destination, does not bring the carriers who so use the rail-

way and steamer within the Act. So long as the railway and steamer are each operated under a separate and distinct control, making its own rates, and only liable for the carriage and safe delivery of the goods at the end of its own route, the Act does not apply to the transaction. To make these carriers subject to the Act, the railway and vessel must, as therein provided, be operated or used under a 'common control'—a control to which each is alike subject, and by which rates are prescribed and bills of lading given for the carriage of goods over both routes as one."

Where a railway company made a contract applicable to all routes which it might thereafter control, and acquired the majority of stock of another railway company and the same persons were elected respectively president and vice president of both companies, *held*, that the contracting company had not acquired "control" of the other railway within the meaning of the terms of the contract.

Pullman Palace Car Co. v. Mo. P. R. Co. 11 Fed. Rep. 634.

A railroad wholly within one State, used as a means of conducting interstate traffic in coal by companies owning connecting interstate roads, is subject to the provisions of the Act to Regulate Commerce; and it must be accessible to all interstate shippers on equal and reasonable terms.

Heck v. East Tenn. V. & G. R. Co. 1 Inters. Com. Rep. 775.

A carrier is not responsible for rates made by a connecting road because of its giving them in connection with its own rates to parties desiring to make through shipments.

Crews v. Richmond & D. R. Co. 1 Inters. Com. Rep. 708.

So far as a railroad company, whose line is entirely within one State, issues through bills of lading over its connecting lines to points in other States, and makes through rates, it falls under the Interstate Commerce Act.

Re Annapolis, W. & B. R. Co. 1 Inters. Com. Rep. 315.

Several railroad companies uniting in an arrangement under which a fast freight line violates the Interstate Commerce Act are responsible therefor.

Boston & A. R. Co. v. Boston & L. R. Co. 1 Inters. Com. Rep. 571.

The Illinois Statute regulating the transportation of goods under one contract to points beyond the State is unconstitutional.

Wabash, St. L. & P. R. Co. v. Ill. 118 U. S. 557 (80 L. ed. 244); 1 Inters. Com. Rep. 31.

A statute regulating the transmission of telegraph messages beyond the State is void.

W. U. Tel. Co. v. Pendleton, 123 U. S. 347 (30 L. ed. 1187); 1 Inters. Com. Rep. 806.

DISCRIMINATION.

Statutory Provisions. Section 3, par. 1, of the Interstate Commerce Act is an almost literal copy of a portion of section 2 of the English Railway and Canal Traffic Act of 1854.

The object of section 3 is to apply to cases not within section 2, since section 2 is limited to cases of "a like and contemporaneous service in the transportation of a like kind of traffic under substantially similar circumstances."

Section 3, par. 2, of the Act of Congress, is also a copy of a portion of section 2 of the English Railway & Canal Traffic Act of 1854; the changes in the Act of Congress are shown by the words between brackets in italics as follows: "Every railway company, canal company, and railway and canal company [*every common carrier subject to the provisions of this Act*] shall, according to their respective powers, afford all reasonable [*proper and equal*] facilities for the [*interchange of traffic between their respective lines and for the*] receiving and [*"and"* omitted] forwarding and delivering of (English Statute: "*Traffic upon and from the several railways and canals belonging to or worked by such companies respectively*;" American Act: "*Passengers and property to and from their several lines and those connecting therewith.*")"

Section 7 of the American Act contains provisions similar to section 2 of the Railway & Canal Traffic Act of 1854.

General Rules.

To constitute an unreasonable preference, there must be inequality in the charge for traveling over the same line, or the same portion of the line.

Caterham R. Co. v. London, B. & S. C. R. Co. 1 C. B. (N. S.) 410; 1 Nev. & Mac. 82; *Finnie v. Glasgow & S. W. R. Co.* 2 Macq. 177; *S. C.* 26 L. T. 14.

The relative reasonableness of rates on shipments from western points to cities on the Atlantic seaboard is to be determined by all the circumstances and conditions that affect the traffic to the respective points between which the rates are questioned, and not solely by one standard of comparison.

Boston Chamber of Commerce v. Lake Shore & M. S. R. Co. 1 Inters. Com. Rep. 754.

What amounts to an undue preference is a question of fact and not of law.

Diphwys etc. Co. v. Festinlog R. Co. 2 Nev. & Mac. 73; *Watkinson v. Wrexham etc. R. Co.* 3 Nev. & Mac. R. Cas. 5; *Denaby Main Colliery Co. v. Manchester etc. R. Co.* 3 Nev. & Mac. 441.

The burden of proof is on petitioner charging unreasonable rates.

Harding v. Chicago, St. P. M. & O. R. Co. 1 Inters. Com. Rep. 375.

The burden is on the carrier to justify any departure from the rules prescribed by the statute.

Re Southern R. & Steamship Asso., and Re Louisville & Nashville R. Co. 1 Inters. Com. Rep. 278.

As to sufficiency of evidence to establish charge of excessive rates, see:

Great Western R. Co. v. Sutton, L. R. 4 Eng. & Irish App. H. L. 226; *Ransome v. Eastern Counties R. Co.* 1 C. B. N. S. 437; *S. C.* 26 L. J. C. P. 91; 1 Nev. & Mac. 63; *Baxendale v. Great Western R. Co.* 5 C. B. N. S. 336; *S. C.* 28 L. J. C. P. 81; *Nicholson v. Great Western R. Co.* 5 C. B. N. S. 366; *S. C.* 28 L. J. C. P. 89; 1 Nev. & Mac. 121.

As to the manner of determining what are reasonable charges, see:

Louisville & N. R. Co. v. Tennessee R. Com-

mission, 19 Fed. Rep. 679; Canada S. R. Co. v. Internat. Bridge Co. 8 Fed. Rep. 190; Internat. Bridge Co. v. Canada S. R. Co. L. R. 8 App. Cas. 733; Riley v. Horne, 5 Bing. 217; Manchester, S. & L. R. Co. v. Brown, L. R. 8 App. Cas. 703; Chicago & A. R. R. Co. v. People, 67 Ill. 11; Stone v. Farmers L. & T. Co. 116 U. S. 807-836 (39 L. ed. 636-646); Baxendale v. Eastern Counties R. Co. 4 C. B. (N. S.) 63.

A charter right to make such charges as the company might see fit is not contravened by the statute requiring charges to all persons to be equal.

Great Western R. Co. v. Sutton, L. R. 4 Eng. & Irish App. H. L. 236; Baxendale v. Great Western R. Co. 14 C. B. N. S. 1; S. C. 16 C. B. N. S. 137; Crouch v. Great Northern R. Co. 9 Exch. 557.

For a Complete Digest of English Decisions and Index thereto see Appendix to Am. & Eng. R. Cases, Vol. 27, by Adelbert Hamilton, Esq.

Against Localities.

Preferences to localities in furnishing facilities or rates for the shipment of goods are prohibited.

Hoxier v. Caledonian R. Co. 17 Scss. 703; S. C. 24 L. T. 339; 1 Nev. & Mac. 27; Jones v. Eastern Counties R. Co. 8 C. B. N. S. 718; 1 Nev. & Mac. 45; Nicholson v. Great Western R. Co. 5 C. B. N. S. 386; Richardson v. Midland R. Co. 4 R. & Can. Traf. Cas. 1; Girardote. Midland R. Co. 4 R. & Can. Traf. Cas. 291.

A railway company must give equal facilities and similar rates to all persons in receiving and delivering goods.

Cooper v. London & S. W. R. Co. 4 C. B. N. S. 733; S. C. 27 L. J. C. P. 324; 1 Nev. & Mac. 185; Bell v. London etc. R. Co. 2 Nev. & Mac. 185.

It is not ground of complaint against a railroad that it equalizes its rates as between small and large towns, even though the effect may be prejudicial to the large towns which before had been specially favored.

Crews v. Richmond & D. R. Co. 1 Inters. Com. Rep. 703.

A carrier cannot be compelled to give to merchants the privilege of shipping goods from the point of purchase to their own locality and thence to the place to which the goods may be sold, at the same rate which would have been charged had there been but one shipment from point of purchase to point of ultimate delivery; the fact that such refusal operates prejudicially to one town and favorably to another, will not constitute unjust discrimination when the carrier applies the same rule to all towns. *Id.*

In view of the longer haul to Boston than to New York, the greater cost of transportation to Boston, the very much greater volume of business to and from New York, the competition by water transportation by the lakes, Erie Canal and Hudson River, and also by several rival railroad lines, and the geographical and commercial advantages of New York, the differentials on Boston local rates of ten cents per 100 pounds on the first and second classes of merchandise and of five cents per 100 pounds on the four other classes between New York

and Boston, on traffic originating west of Buffalo, have not been shown to be unjust and unreasonable or to constitute unjust discrimination against Boston.

Boston Chamber of Commerce v. Lake Shore & M. S. R. Co. 1 Inters. Com. Rep. 754.

The fact that the export rates through Boston, and the rates on merchandise intended for coastwise points east of Portland, and the west bound rates from Boston have been made by the carriers the same as corresponding New York rates in order to put Boston on an equality with New York and other seaboard cities wherever Boston is a competitor with those cities, is not controlling in determining the reasonableness of the east bound local rates in a traffic in which there is no competition by other cities. *Id.*

A manufactory of plaintiff was situated twelve miles from the seaport of Swansea, and on the defendant's railway from the seaport to Liverpool. The defendant charged the plaintiff 12s 6d per ton for the carriage of iron and tin plates over its line from his manufactory to Liverpool, while other manufacturers of iron and tin plates whose works were situated within a radius of six miles of the seaport of Swansea, and therefore further from Liverpool than the plaintiff's works, were charged by the defendant, for the carriage of their plates from Swansea to Liverpool, 11s 4d per ton only. There is a communication by sea from Swansea to Liverpool, and the rate of 11s 4d was fixed by the defendant as the charge for the carriage of the goods of these manufacturers within the six miles' radius in order to enable the defendant to compete with the sea carriage; and by reason of the lesser charge, those manufacturers who were thus favored were enabled to sell their plates at a lower price per ton, delivered at Liverpool, than the plaintiff. *Held*, that the charging of a lower rate to the manufacturers within the six miles' radius, for the carriage of their goods a longer distance than the plaintiff's was an undue and unreasonable preference and advantage granted to them by the defendant, and was in contravention of section 2 of the Railway & Canal Traffic Act of 1854, and the plaintiff was entitled to recover the amounts paid by him to the defendants in excess of the 11s. 4d. rate.

Budd v. London & N. W. R. Co. 38 L. T. N. S. 802; S. C. 25 W. R. 753; 4 R. & Can. Traf. Cas. 393.

Where rates for carrying coal were grouped in districts adjusted not with a view to give an undue preference to one set of dealers over another, but solely with regard to their own convenience and the wants of the neighborhood, the Act is not violated.

Ransom v. Eastern Counties R. Co. 4 C. B. N. S. 135; S. C. L. J. C. P. 166; 1 Nev. & Mac. 109.

Where the through rate is a gross sum of a small amount for conveyance over a long route, it is enough if places that are practically in the same district have the same rate. Thus, *held*, no undue prejudice was caused to the trader charged the same through rates to certain places, for traffic over his siding, as was charged for traffic over the siding situated two or three miles further.

Lloyd v. Northampton etc. R. Co. 3 Nev. & Mac. 359.

Grouping rates for collieries working the same bed of coal, where the coal field extends twenty miles, may result in an unreasonable preference.

Denaby Main Colliery Co. v. Manchester, S. & L. R. Co. 3 Nev. & Mac. 426; 4 R. & Can. Traf. Cas. 23, 450; Broughton etc. Coal Co. v. G. W. R. Co. 4 R. & Can. Traf. Cas. 191.

Where a petition complained of discrimination against the Town of Opelika, Ala., but the order which was prayed would, if granted, increase the discriminations against other local points, leave was given to amend the petition so as to set out the effects with reference to other local points and to afford opportunity of notice to them.

Harwell v. Columbus & W. R. Co. 1 Inters. Com. Rep. 631.

Where on evidence, the Commission found that cotton offered for shipment at Opelika for New Orleans was unjustly and unreasonably refused by the defendant company, in violation of the third section of the statute, while taken by it at other points similarly situated, and that connecting lines were ready and willing to unite in a reasonable adjustment of rates—an order was made requiring the defendant to cease such discrimination within ten days. *Id.*

A petition charging unjust discrimination in rates between Waterville and Mankato, and that such rates were higher than rates between Chicago and Waterville, disposed of by report of Commission that the respondent company has conceded the relief sought and had made and published a tariff of the rates in accordance with the prayer of the petition.

Manufacturer's & Jobbers Union v. Minneapolis & St. L. R. Co. 1 Inters. Com. Rep. 630.

An index of all proceedings and decisions by the Interstate Commerce Commission relating to discrimination against localities will be found in the index to this volume, under title "Charges and Discrimination."

Against Specific Articles.

Under Railways Clauses Act, 1845, § 90, 8 & 9 Vict., the charge must be the same to all for the same services performed in the same manner for carrying goods for the same distance, and for similar services rendered in any other way.

London & N. W. R. Co. v. Evershed, L. R. 3 App. Cas. 1020; S. C. 39 L. T. N. S. 806.

Under the Illinois Statute a charge of two cents more per 100 pounds for carrying grain than charged to others, held unjust discrimination.

St. Louis, A. & T. H. R. Co. v. Hill, 14 Bradw. 579.

Rates are so related to each other that the instances are very frequent where a change of rate upon one important article of commerce involves a consideration of the relative rates on other articles; it appearing that the defendant company has made a change and general reduction on lines of freight, and it appearing that during the next season it is intended to make a further reduction, and that rates on wheat from Walla Walla, Washington Terri-

tory, to Portland, Oregon, were charged at a higher relative rate than was just, it was ordered that the defendant cease to charge more than 23½ cents per 100 pounds or \$4.70 per ton on wheat thus transported.

Evans v. Oregon R. & Nav. Co. and Reed v. Oregon R. & Nav. Co. 1 Inters. Com. Rep. 641.

The relative difference in rates on pearline, and special rates on common soap on shipments from New York to Atlanta adjusted, so that the relative difference in the rates shall not exceed the difference of sixty cents per 100 pounds on pearline and thirty-three cents on common soap.

Pyle v. East Tenn. V. & G. R. Co. 1 Inters. Com. Rep. 767.

The classification of railroad ties in a different class from other lumber, thus imposing a higher rate upon ties than upon other lumber, held to be an unjust discrimination.

Reynolds v. Western N. Y. & P. R. Co. 1 Inters. Com. Rep. 685.

Classification of coals as gas coal and common coal held, under the facts, improper.

Nitshill etc. Coal Co. v. Caledonian R. Co. 2 Nev. & Mac. 39.

Rates established for the purpose of keeping up a line of road material (as railroad ties) for which the road itself has use, or to keep the price thereof low for its own advantage, cannot be justified.

Reynolds v. Western N. Y. & P. R. Co. 1 Inters. Com. Rep. 685.

Whether a special privilege, granted by railroad companies to manufacturers in a single line of trade, but not to manufacturers in general, is consistent with the rule of equity and justice which the Interstate Law undertakes to establish, is a question upon which an opinion ought to be expressed only after the most careful consideration; and the Commission ought clearly to see that duty requires an answer, before it proceeds to give one on *ex parte* application.

Re Iowa Barb Steel Wire Co. 1 Inters. Com. Rep. 605.

An index of all proceedings and decisions by the Interstate Commerce Commission relating to discriminations against specific articles will be found in the index to this volume, under title "Charges and Discrimination."

Character, Quantity, Value of Goods; Classification; Underbilling.

Making of freight rates may be affected by a variety of practical considerations, as: the sparsely settled character of the country; the articles of freight upon which the railroad must depend as compared with other roads transporting similar commodities through more populous communities; the relation of local and through freights; the mode of shipping and delivering, as wheat from elevators, and wheat in sacks; and expenses of hauling empty cars.

Evans v. Oregon R. & Nav. Co. and Reed v. Oregon R. & Nav. Co. 1 Inters. Com. Rep. 641; Hays v. Pa. Co. 12 Fed. Rep. 309; Scofield v. Lake Shore & M. S. R. Co. 1 West. Rep. 812, 43 Ohio St. 571; Mo. Pac. R. Co. v. Texas & P. R. Co. 30 Fed. Rep. 2; Girardot v. Midland

R. Co. 4 R. & Can. Traf. Cas. 291; Greenock v. S. E. R. Co. 2 Nev. & Mac. 819; Concord & P. R. Co. v. Forsaith, 59 N. H. 123.

The length and character of the haul, the cost of service, the volume of business, the conditions of competition, the storage capacity and the geographical situation of the different terminal points are all elements of importance bearing upon the relative reasonableness of the respective charges for transportation.

Boston Chamber of Commerce v. Lake Shore & M. S. R. Co. 1 Inters. Com. Rep. 754.

Under the Railway Clauses Consolidation Act of 1845, mere inequality in the rate of charge, when unequal distances are traversed, does not constitute a preference.

Denaby Main Colliery Co. v. Manchester S. & L. R. Co. L. R. 11 App. Cas. 97.

A difference in the cost of service will justify a carrier in making a reasonable difference in its rates.

Chicago & A. R. Co. v. People, 67 Ill. 11-24; Denaby Main Colliery Co. v. Manchester, S. & L. R. Co. 26 Am. & Eng. R. R. Cas. 298; Nicholson v. Great Western R. Co. 5 C. B. N. S. 866; Ransome v. Eastern Counties R. Co. 2 Nev. & Mac. 202; Girardot v. R. Co. 4 R. & Can. Traf. Cas. 291; Denaby Main Colliery Co. v. Manchester, S. & L. R. Co. L. R. 11 App. Cas. 101, 102; Ransome v. Eastern Counties R. Co. 1 Nev. & Mac. 68; S. O. 1 C. B. N. S. 437; 26 L. J. C. P. 91; Foreman v. Great Western R. Co. 2 Nev. & Mac. 202; Nittshill etc. Coal Co. v. Caledonian R. Co. 2 Nev. & Mac. 89; Bellsdyke Coal Co. v. North British R. Co. 2 Nev. & Mac. 105; Bell v. London etc. R. Co. 2 Nev. & Mac. 185; Holland etc. R. Co. v. Festinlog R. Co. 2 Nev. & Mac. 287; Lotspeich v. Cent. R. & Bkg. Co. 73 Ala. 306; S. O. 18 Am. & Eng. R. R. Cas. 490; Burton Stock Car Co. v. Chicago, B. & Q. R. Co. 1 Inters. Com. Rep. 329; Providence Coal Co. v. Providence & W. R. Co. 1 Inters. Com. Rep. 363.

A railway company is justified in carrying goods for one person at a less rate than that at which it carries goods for another, only where there are circumstances which make the cost of carrying the former less than the cost of carrying the latter.

Garton v. Bristol & E. R. Co. 6 C. B. N. S. 639; S. O. 28 L. J. C. P. 306; 1 Nev. & Mac. 218; Oxlade v. North Eastern R. Co. 1 C. B. N. S. 454; S. O. 26 L. J. C. P. 129; 1 Nev. & Mac. 73; Nittshill etc. Coal Co. v. Caledonian R. Co. 2 Nev. & Mac. 89.

The difference in rates must bear some proportion to the difference of the cost to carriers.

Harris v. Cockermouth etc. R. Co. 1 Nev. & Mac. 97-102; 3 C. B. N. S. 693; Garton v. Bristol etc. R. Co. 1 Nev. & Mac. 227; 6 C. B. N. S. 639-655; Nicholson v. G. W. R. Co. 1 Nev. & Mac. 185; Denaby Main Colliery Co. v. Manchester, S. & L. R. Co. L. R. 11 App. Cas. 123; Baxendale v. R. Co. 1 Nev. & Mac. 202; Ransome v. Eastern Counties R. Co. 1 Nev. & Mac. 69.

A difference in bulk will justify difference in rates.

Lotspeich v. Cent. R. & Bkg. Co. 73 Ala. 306. Or when return loads could not be had.

Chicago & A. R. Co. v. People, 67 Ill. 24; Girardot v. Midland R. Co. 4 R. & Can. Traf. Cas. 291.

Or difference in expense of loading and unloading.

Chicago & A. R. Co. v. People, 67 Ill. 26.

Different rates may be charged where shippers own private side tracks and return cars more promptly.

Denaby Main Colliery Co. v. Manchester, S. & L. R. Co. L. R. 11 App. Cas. 102.

Less rates may be charged for furnishing freight in fully loaded trains at regular intervals.

Nicholson v. Great Western R. Co. 5 C. B. N. S. 866.

A difference in charge is justified where the transportation is over steep grades.

Bellsdyke Coal Co. v. North British R. Co. 2 Nev. & Mac. 105; Nittshill Coal Co. v. Caledonian R. Co. 2 Nev. & Mac. 89.

"Goods of like description" and "goods of same description" refer not to the contents of the parcels, but to the parcels themselves, that is, like or different for the purpose of carriage.

Great Western L. Co. v. Sutton, L. R. 4 Eng. & Irish App. H. L. 226; Nittshill etc. Coal Co. v. Caledonian R. Co. 2 Nev. & Mac. 89; Merry v. Glasgow R. Co. 4 R. & Can. Traf. Cas. 383.

Less desirable traffic must be accepted upon reasonable terms, as well as that which is more desirable.

Riddle v. New York, L. E. & W. R. Co. 1 Inters. Com. Rep. 787.

The N. W. Railway Company carried goods for the complainants who were brewers at B. by their railway; they charged the complainants, and the public generally, 1s per ton for the carriage of goods to and from their B. station, and 9d per ton for terminal services there. T. & Co. and C. & Co., who were also brewers at B., had breweries connected with the M. Railway Company's station at that place by continuous railway communication; the goods which they sent or received by the M. line were loaded and unloaded on their own premises by their servants, and they were consequently not charged by the M. Railway Company any rate for cartage or terminal services. The N. W. Railway Company, in order to compete with the M. Railway Company for the carriage of the goods of T. & Co. and C. & Co., exempted them from the above mentioned rates of 1s 9d respectively, carting and loading their goods gratuitously. There being nothing to show that there was a saving of cost to the company by reason of the quantity of goods carried for T. & Co. and C. & Co., to compensate for the loss of 1s, 9d per ton, and T. & Co. and C. & Co. being the only firms to whom the reduced rates were applicable, held, that there was not sufficient ground for the arrangements made in their favor, and that an injunction should issue against the N. W. Railway Company, under the third section of the Railway & Canal Traffic Act, 1854; in order to justify a difference being made by a railway company in favor of one or more individual members of its general class of customers, there must be an adequate consideration to the railway company lessening the cost to it of the services rendered to such individual members of the general class; and it is not sufficient that the railway company merely de-

sires to attract the traffic from another line to itself, especially where the favor thus shown to a few is prejudicial to many others in the same trade as the favored persons; the railway company having acted *bona fide* in the matter, and with no intention of prejudicing the complainants as rivals in trade with others, the injunction was granted without costs.

Thompson v. London etc. R. Co. 2 Nev. & Mac. 115.

It is an unlawful preference to give reduced rates in consideration of an agreement to employ other lines of the company for the carriage of other traffic or to employ the company in other distinct business, the carriage of goods to other points not affecting the cost of carriage between the particular points.

Baxendale v. Great Western R. Co. 5 C. B. N. S. 809; 1 Nev. & Mac. 191; 28 L. J. C. P. 69; Scofield v. Lake Shore & M. S. R. Co. 1 West. Rep. 812, 48 Ohio St. 571; Twells v. Pa. R. R. Co. 3 Am. L. Reg. N. S. 728; Bellsdyke Coal Co. v. North British R. Co. 2 Nev. & Mac. 105.

Or to charge a higher wharfage rate on goods to be conveyed by another railway.

Toomer v. London R. Co. 3 Nev. & Mac. 79.

A reduced rate in consideration of a contract to carry all of certain goods and to prevent their being carried by water or other means is an undue preference.

Garton v. Bristol & E. R. Co. 1 Nev. & Mac. 218; S. C. 28 L. J. C. P. 306.

A difference in rates on an agreement for a period of thirty years and another agreement for fourteen years for a similar service is an undue preference.

Holland v. Festiniog R. Co. 2 Nev. & Mac. 278.

That the shipper contracts to furnish all his freight to the carrier will not authorize a lower rate to him.

Scofield v. Lake Shore & M. S. R. Co. 1 West. Rep. 812, 48 Ohio St. 571; Baxendale v. Great Western R. Co. 5 C. B. N. S. 809; Diphwys Casson Slate Co. v. Festiniog R. Co. 2 Nev. & Mac. 78; S. C. 32 L. T. N. S. 271; Bellsdyke Coal Co. v. N. B. R. Co. 2 Nev. & Mac. 105.

An agreement with certain quarry owners to carry slate for a fixed number of years at a less rate than charged for the same service to complainant quarry owners, who refused to bind themselves by such an agreement, held an undue preference.

Diphwys Casson Slate Co. v. Festiniog R. Co. 2 Nev. & Mac. 78. See also Scofield v. Lake Co. Shore & M. S. R. Co. 1 West. Rep. 812, 48 Ohio St. 571; Baxendale v. Great Western R. Co. 5 C. B. N. S. 809; Menacho v. Ward, 27 Fed. Rep. 529.

Where the railway company fixed rates for packages containing a certain number of pounds, *held*, that baskets of fish, of a size required by the business, should be rated by the pound and not by the size of packages as contained in the published rates of the railway company.

Woodger v. Great Western R. Co. 2 Nev. & Mac. 102; S. C. L. R. 2 C. P. 318.

But a railway company may carry at a lower rate in consideration of a guaranty of large

quantities and full train loads at regular periods.

Nicholson v. Great Western R. Co. 5 C. B. N. S. 366; S. C. 28 L. J. C. P. 89; 1 Nev. & Mac. 121.

Where plaintiff's business was to collect parcels in London and forward them, each parcel being labeled with plaintiff's name, "Pickford & Co." and also with the name of the person to whom it was ultimately to be delivered, but all the parcels were delivered in one consignment, *held*, defendant company had no right to charge for each parcel separately according to its individual weight.

Baxendale v. South Western R. Co. 35 L. J. Exch. 108.

When oil is transported in tanks permanently fixed to car bodies, the tank is to be considered as a part of the car; and for oil transported therein the charge for transportation should be the same by the 100 pounds that the carrier charges for transportation between the same points, of barrels filled with like oil and taken in car load lots. The carrier is guilty of unjust discrimination if the shipper in barrels is charged a higher rate. Under this rule the carrier will be at liberty, and will be expected, to make to the owner of tank cars a reasonable allowance for their use.

Rice v. Louisville & N. R. Co. 1 Inters. Com. Rep. 722.

Neither the fact that the shipper in the one case supplies the rolling stock, nor the alleged fact, that for the tanks there is a greater probability of return loads, nor the further alleged fact, that with barrel shipments there are greater risks to the carrier's property and that which it carries, can justify imposing upon the barrel shipments the greater burden. *Id.*

When two methods for the transportation of an article of merchandise are nominally offered by the carrier, for only one of which it offers rolling stock, and for the other of which the shipper must supply his own rolling stock at considerable expense, it cannot be said that the resort to the latter by the shipper is so far a matter of choice that he has no concern with the charges for transportation in the other mode. The man of small means being compelled to make his choice, by reason of the carrier's failure to supply rolling stock for the other mode, has a right to insist that the charges for transportation in the two modes shall be relatively just and equal. *Id.*

Defendant railway company published a tariff containing the following: "For the purpose of facilitating quick dispatch of the coal cars of this company, a discount of 10 per cent will be made from the following rates to any person, firm or company, who shall receive consignments of coal, in any one year, amounting to 80,000 tons or upwards, at any one station on the line of this road. Quick dispatch to be construed as immediate unloading of coal on its arrival at destination." Defendant claimed that this discount was offered to secure, and was conditioned upon, quick dispatch in unloading its coal cars, and that it was a reasonable regulation for the proper conduct of its business. *Held*:

(a) That, by the wording of the offer, "quick dispatch" was not made a condition of the of-

fer; and, therefore, it cannot be supported on that ground;

(b) That even if "quick dispatch" were made a condition of the discount, such offer would have neither justice nor reason to support it, as its limitation to consignees receiving a specified number of tons would be an unjust discrimination;

(c) That the offer of discount cannot be supported on the consideration of quantity, on the analogy of the distinction usually made in ordinary business transactions, between wholesale and retail dealers.

Providence Coal Co. v. Providence & W. R. Co. 1 Inters. Com. Rep. 363.

The expense of hauling Burton live stock cars in one direction unloaded (for the reason that by their construction they are not suited to carrying general freight) as compared with the greater ability to load back the ordinary railroad cattle cars, and the fact that a large percentage of the ordinary cattle cars are so back loaded upon the long hauls of western roads, are considerations which justify a difference in charge against shippers who prefer to hire the improved stock cars.

Burton Stock Car Co. v. Chicago, B. & Q. R. Co. 1 Inters. Com. Rep. 329.

Doubted (but not decided) whether the extra charges made to shippers of live stock in special cars (including the Burton cars) over thirty feet in length, according to the revised classification of the Western Railroad Classification Committee, put in force April 7, 1887, are not unreasonable. *Id.*

The permitting by common carriers, of the practice of underbilling the weight of freight or giving it a false classification, whereby less compensation is paid by one person than by another for "a like and contemporaneous service," is within the inhibition of the Act to Regulate Commerce.

Re Underbilling, 1 Inters. Com. Rep. 813.

Competition.

The fact that one shipper can go by another route and will probably do so if charged as much as the charge made to the complaining party, is not a circumstance justifying an unequal charge; nor will the fact that those charged a less rate are seeking to develop a new trade.

London & N. W. R. Co. v. Everahed, L. R. 3 App. Cas. 1029; Denaby Main Colliery Co. v. Manchester, S. & L. R. Co. L. R. 11 App. Cas. 97.

The lowering of rates for the purpose of developing business is an undue preference.

Oxlade v. North Eastern R. Co. 1 C. B. N. S. 454; S. O. 26 L. J. C. P. 129; 1 Nev. & Mac. 73.

Or making a lower rate in consequence of a threat from the owner of a colliery to construct another railway, by which traffic would be diverted.

Harris v. Cockermouth & W. R. Co. 3 C. B. N. S. 693; S. O. 27 L. J. C. P. 162; 1 Nev. & Mac. 97; Diphwys Casson Slate Co. v. Festiniog R. Co. 3 Nev. & Mac. 73.

An exceptional rebate and gratuitous cartage of goods of one customer not allowed to others, for the purpose of competing with another line, held to be undue preference.

London & M. W. R. Co. v. Everahed, L. R. 3 App. Cas. 1029.

A company made an agreement with A to carry for him coals for three years, from Petersborough to various places on its line of railway, at certain rates. B, a coal merchant at Ipswich, sent coals (which had been brought to that port by sea) to various places on the same lines of railway, and the company charged him a much larger sum in proportion to the distance over which his coals were carried than the company charged to A—the professed object of the difference being to enable A (whose coal came to Petersborough by railway) to compete in the coal trade of the district with B, who had the advantage of having had his coals brought to Ipswich by sea. *Held*, that this was giving an undue preference to A, and the company was required to carry coals for B on equal terms with A, due regard being had to any circumstance rendering the cost of carrying for one less than for the other.

Ransome v. Eastern Counties R. Co. 1 C. B. N. S. 437; S. O. 3 Jur. N. S. 217; 26 L. R. C. P. 91; 1 Nev. & Mac. 63.

That "Railroads have water competition and are compelled to meet it," without more, is not sufficient to justify a lesser charge for the greater distance. Dissimilar "circumstances and conditions" are made out by the existence of actual competition which is the controlling force.

Harwell v. Columbus & W. R. Co. 1 Inters. Com. Rep. 631; Ex parte Koehler, 23 Fed. Rep. 529.

In Boston Chamber of Commerce v. Lake Shore & M. S. R. Co. 1 Inters. Com. Rep. 754, the rule is stated to be: the length and character of the haul, the cost of service, the volume of business, the conditions of competition, the storage capacity and the geographical situation of the different terminal points, are all elements of importance bearing upon the relative reasonableness of the respective charges for transportation.

The subject of competition is further considered under the title "Long and Short Haul and Operation and Suspension of Fourth Section of the Interstate Commerce Act."

Furnishing Cars.

A railway company is bound to furnish sufficient locomotive power, and to desist from unduly detaining empty or unloaded wagons; Watkinson etc. Copper Co. v. Wrexham etc. R. Co. 3 Nev. & Mac. 446; and to furnish sufficient cars for its traffic.

Watkinson etc. Copper Co. v. Wrexham etc. R. Co. 3 Nev. & Mac. 164; Tharvis etc. v. London etc. R. Co. 3 Nev. & Mac. 455; Caterham R. Co. v. London, B. & S. C. R. Co. 1 C. B. N. S. 410; S. O. 26 L. J. C. P. 161; 1 Nev. & Mac. 33; Barrett v. Gt. North. R. Co. 1 Nev. & Mac. 38; Toomer v. London etc. R. Co. 3 Nev. & Mac. 79; Dublin etc. R. Co. v. Midland R. Co. 3 Nev. & Mac. 379; Riddle v. N. Y. etc. R. Co. 1 Inters. Com. Rep. 787.

The character and condition of goods and the orderly prosecution of business will determine the order of shipment and the furnishing of facilities for transportation.

Galena & C. U. R. Co. v. Rae, 13 Ill. 493.

Great Western R. Co. v. Burns, 60 Ill. 284; Peet v. Chicago & N. W. R. Co. 20 Wis. 594.

See note, 16 Am. L. Rev. 832.

It is properly the business of a carrier by railroad to supply the rolling stock for the freight it offers or proposes to carry; and if the diversities and peculiarities of traffic are such that this is not always practicable, and consignors are allowed to supply it for themselves, the carrier must not allow its own deficiencies in this particular to be made the means of putting at an unreasonable advantage those who make use in the same traffic of the facilities it supplies.

Rice v. Louisville & N. R. Co. 1 Inters. Com. Rep. 722.

When for a special traffic—e. g., the transportation of petroleum oils—a carrier provides rolling stock for one method, but does not provide it for another for which it publishes rates, but the shippers are expected to provide the same, the terms on which such rolling stock is to be provided should be uniform and should be published with the rate sheets, and cannot lawfully be left to be the subject of bargain and of different terms in the case of different shippers. *Id.*

A railroad is not justified in refusing to furnish cars for the transportation of coal, by the fact that it could at that time make more money by using its coal cars upon other portions of its line.

Riddle v. N. Y. etc. R. Co. 1 Inters. Com. Rep. 737.

During the summer and fall of 1887, owing to high rates on lake vessels, there was an accumulation of coal and other freights along the line of defendant company. *Held*, that the proof did not sustain the charge that the company gave a preference in furnishing cars for the transportation of coke over the coal trade, or gave a preference to shippers in not requiring them to load or unload cars.

Riddle v. Pittsburgh & L. E. R. Co. 1 Inters. Com. Rep. 638.

In the absence of a custom or rule of business placing the duty upon the carrier to notify a shipper of the arrival of cars for his use, it is the duty of the shipper to make inquiry of the proper agent of the railroad company; but if the carrier undertakes to notify, it must perform its duty in this respect.

Riddle v. Balt. & O. R. Co. 1 Inters. Com. Rep. 778.

The proceedings and decisions of the Interstate Commerce Commission relating to refusal to furnish cars are referred to in the index to this volume, under title "Charges and Discrimination."

Connecting Lines; Express Companies.

At common law a railway company is bound to transport or haul upon its road the cars of any other railway company.

Vt. & M. R. Co. v. Fitchburg R. Co. 14 Allen, 463; Mackin v. Boston & A. R. Co. 135 Mass. 201.

A railroad company is bound to supply suitable vehicles of transportation and to offer their use to everybody impartially.

Ogdensburg & L. C. R. Co. v. Pratt, 89 U. S. 23 Wall. 123-133 (23 L. ed. 827-831).

In absence of a statute, a railroad is not

bound to stop its trains and exchange traffic at the junction of another road.

Atchison, T. & S. F. R. Co. v. Denver & N. O. R. Co. 110 U. S. 867 (28 L. ed. 291); and its liability terminates with its delivery to the connecting carrier.

Myrick v. Mich. Cent. R. Co. 107 U. S. 102 (27 L. ed. 325).

The use of cars upon other lines is a service incidental to the receiving, forwarding and delivering of traffic, and is within the provisions of the English Act.

Diphwys Casson Slate Co. v. Festiniog R. Co. 2 Nev. & Mac. 73; S. C. 32 L. T. (N. S.) 271.

Under the English Act it must appear that public convenience requires continuous carriage.

Barret v. Great Northern R. Co. 1 C. B. N. S. 428; S. C. 26 L. J. C. P. 88; 1 Nev. & Mac. 28; Caterham R. Co. v. London, B. & S. C. R. Co. 1 C. B. N. S. 410; S. C. 26 L. J. C. P. 161; 1 Nev. & Mac. 32; Parkinson v. Great Western R. Co. 40 L. J. P. 223; S. C. 24 L. T. N. S. 890; 1 Nev. & Mac. 280; Fishbourne v. Gt. S. & W. R. Co. 2 Nev. & Mac. 224; Wannan v. Scottish Cent. R. Co. 2 Sess. Cas. 1873; 1 Nev. & Mac. 237; Pickford v. Caledonian R. Co. 1 Nev. & Mac. 252; Local Board etc. v. London etc. R. Co. & S. E. R. Co. 2 Nev. & Mac. 214; Toomer v. London etc. R. Co. 3 Nev. & Mac. 79; Victoria etc. Co. v. Neath etc. R. Co. 3 Nev. & Mac. 37; James etc. v. Taff. Vale etc. R. Co. 3 Nev. & Mac. 540; Swindon etc. R. Co. v. Great Western R. Co. 4 Nev. & Mac. 349.

Where cars are dissimilar in character a railway company may refuse to forward, upon reasonable requirements.

Caledonian R. Co. v. North British R. Co. 3 Nev. & Mac. 56.

The mileage rate of three fourths of a cent per mile run, which is customary, among railroads, for freight cars of other railroad companies used upon the paying company's line, and which payment is, by the interchange of cars, practically equalized among the different roads, is not to be taken as the measure of payment for the use of cars belonging to persons other than railroad companies.

Burton Stock Car Co. v. Chicago, B. & Q. R. Co. 1 Inters. Com. Rep. 829.

The Burton Stock Car Company, which furnishes special improved live stock cars owned by it, to shippers over railroads, does not exchange with or use cars belonging to others, and is in no sense a "connecting line," entitled to equal facilities for interchange of traffic, under paragraph 2 of section 3 of the Act to Regulate Commerce. *Id.*

The Burton Stock Car Company is not entitled to claim that it is unjustly discriminated against, by a refusal on the part of railroad companies to pay it the same rate of mileage which carriers adopt as the basis in adjusting their car service accounts with each other. *Id.*

A railway company cannot make a distinction in its rates dependent upon whether the traffic is booked no further than it goes by railway or is booked to a destination beyond the limits subject to the traffic statute.

Ayr Harbour Trustees v. Glasgow R. Co. 4 R. & Can. Traf. Cas. 81.

Where one railway company works the rail

way of another company, it must give equal facilities as to through booking by the worked line as by its own and must not prefer its own route in the matter of rates.

Clonmel Traders v. Waterford R. Co. 4 R. & Can. Traf. Cas. 93.

A railway company is not bound to extend to other steamboats the same facilities as to through rates, etc., as it extends to the steamboat it selects to transact its business.

Napier v. Glasgow etc. R. Co. 1 Nev. & Mac. 393; *contra*, under the Act to Regulate Commerce. *Re Petition of Mallory (U. S. C. C. Fla.)*, 1 Inters. Com. Rep. 294.

Under the charter of the Texas & Pacific Railroad Company no discrimination against connecting roads is allowed in charging for freight or passengers.

Mo. Pac. R. Co. v. Texas & P. R. Co. 30 Fed. Rep. 2.

Railway companies are not obliged, in the absence of a statute, to furnish to all independent express companies equal facilities for doing express business upon their fast trains.

Express Cases, 117 U. S. 1 (29 L. ed. 791); 23 Am. & Eng. R. R. Cas. 545, *Notes*. See also *New England Express Co. v. Maine Cent. R. Co.* 5 Maine, 188; *McDuffee v. Portland & R. R. Co.* 52 N. H. 430; *Sandford v. Catawissa, W. & E. R. Co.* 24 Pa. 378.

The Massachusetts Statute does not render it unlawful for a railroad to carry on the express business itself, and to refuse to allow similar privileges to other parties.

Sargent v. Boston & L. R. Corp. 115 Mass. 416.

Under the Pennsylvania Statute requiring "That equal and impartial justice shall be done to all owners of property," a contract giving to one express company the exclusive right of transportation in passenger trains is unlawful and void.

Sandford v. Catawissa, W. & E. R. Co. 24 Pa. 378; *Audenried v. Philadelphia & R. R. Co.* 68 Pa. 370.

The English commissioners have no power to make an order on two railway companies to act jointly in doing what neither company has power to do separately.

Toomer etc. v. London etc. R. Co. 3 Nev. & Mac. 79.

Stations; Yards; Terminal Facilities.

A railway company may be required to furnish proper station facilities, and prevented from abandoning stations already established.

State v. New Haven & N. R. Co. 87 Conn. 153; 42 Conn. 56; *New Haven & N. Co. v. Hammarley*, 104 U. S. 1 (26 L. ed. 629); *R. Comra. v. Portland & O. C. R. Co.* 63 Maine, 269; *Com. v. Eastern R. Co.* 103 Mass. 354; *State, Moore, v. Chicago, St. P. M. & O. R. Co.* 19 Neb. 476; *Cincinnati Stock Yards Co. v. U. R. Stock Yards Co.* 7 Cin. Week. L. Bul. 396.

A railway company is bound to establish new stations and siding accommodations for passengers and traffic, reasonably sufficient for the business.

Local Board etc. v. N. E. R. Co. 3 Nev. & Mac. 306; *Harris v. London etc. R. Co.* 3 Nev. & Mac. 331; *Catherham R. Co. v. London, B. & S. C. R. Co.* 1 C. B. N. S. 410; *S. C.* 26 L.

J. C. P. 161; 1 Nev. & Mac. 81; *Hastings Town Council v. South Eastern R. Co.* 3 Nev. & Mac. 179; *South Eastern R. Co. v. Railway Comrs. L. R.* 6 Q. B. Div. 586; 50 L. J. Q. B. D. 201; 3 Nev. & Mac. 464; *London etc. R. Co. v. Staines etc. R. Co.* 3 Nev. & Mac. 48.

A railway company may be required to provide a waiting room for passengers and to have platforms extended for the accommodation of traffic, and siding accommodations for the reception and delivery of goods without delay.

London etc. R. Co. v. Staines etc. R. Co. 3 Nev. & Mac. 48; *Holyhead Local Board v. London R. Co.* 4 R. & Can. Traf. Cas. 37.

But the commissioners cannot order accommodation to be provided which will require the company to take additional land which it has no immediate power to take.

Harris etc. v. London etc. R. Co. 3 Nev. & Mac. 331.

In the case of *Hastings Town Council v. London etc. R. Co.* (*Hastings Town Council v. S. E. R. Co.* 3 Nev. & Mac. 179; *South Eastern R. Co. v. Railway Comrs. L. R.* 6 Q. B. Div. 586; 50 L. J. Q. B. 201; 3 Nev. & Mac. 464); it was held that the commissioners had jurisdiction to require a railway company to afford cattle accommodations and better facilities for the delivery of tickets at the booking office; but that other orders, relating to the construction of platforms and the erection of a bridge and the providing of a refreshment room, were erroneous.

A railroad unjustly discriminates against a town by placing its depot a mile and one half distant at its junction with another road.

State, Mattoon, v. Republican Valley R. Co. 17 Neb. 647; *State, Moore, v. Chicago, St. P. M. & O. R. Co.* 19 Neb. 476.

A company has no right to afford to one coal merchant superior facilities for storing coal.

West v. London & N. W. R. Co. L. R. 5 C. P. 623; *S. O.* 39 L. J. C. P. 233; 23 L. T. N. S. 371; 1 Nev. & Mac. 166.

A railway company cannot bind itself to deliver to a particular stock yard all the live stock going over its line to a certain point, but is bound to transport and deliver to all stock yards on equal terms; and the performance of this duty may be compelled by injunction at the suit of the proprietor of the stock yard discriminated against.

McCoy v. Cincinnati I. St. L. & C. R. Co. 18 Fed. Rep. 3; *Cincinnati Stock Yards Co. v. U. R. Stock Yards etc. Co.* 7 Cin. Week. L. Bul.; *Coe v. Louisville & N. R. Co.* 3 Fed. Rep. 775; *Keith v. Ky. Cent. R. Co.* 1 Inters. Com. Rep. 601.

When a railway company has fixed its rates for the transportation of grain from a given station on its line to Chicago, it cannot charge different rates for delivery to different warehouses in Chicago, on the line of its tracks.

Vincent v. Chicago & A. R. Co. 49 Ill. 33.

Undue delay in delivering traffic is ground of complaint.

Cent. Wales R. Co. v. G. W. R. Co. 3 Nev. & Mac. 191.

An exclusive privilege or unequal rights to omnibuses, cab or fly proprietors are prohibited.

Marriott v. London & S. W. R. Co. 1 C. B. N. S. 499; *S. C.* 26 L. J. C. P. 154; 1 Nev.

& Mac. 47; *Beadell v. Eastern Counties R. Co.* 26 L. J. C. P. 250; 1 Nev. & Mac. 56; *Painter v. London, B. & S. C. R. Co.* 2 C. B. N. S. 702; 1 Nev. & Mac. 58; *Ilfracombe etc. Co. v. London etc. R. Co.* 1 Nev. & Mac. 61.

A railway company admitting its own vans, used for the carriage of goods, to the railway station after 6:30 P. M., but excluding the vans of others, thereby gives an unreasonable preference to its own traffic.

Palmer v. London, B. & S. C. R. Co. 1 Nev. & Mac. 271; *S. C.* 40 L. J. C. P. 138; 24 L. T. N. S. 135; *Garton v. Bristol & E. R. Co.* 6 C. B. N. S. 639; *S. C.* 28 L. J. C. P. 806; 1 Nev. & Mac. 218; *Baxendale v. London & S. W. R. Co.* 12 C. B. N. S. 758; 1 Nev. & Mac. 281.

Carriage of Passengers.

A common carrier cannot refuse to carry nonunion laborers because liable to assaults of union men.

Chicago & A. R. Co. v. Pillsbury (Ill.) 6 West. Rep. 790.

Discrimination is permitted against passengers who do not purchase tickets; equal facilities being afforded to all to purchase.

Forsee v. Alabama G. S. R. Co. 68 Miss. 67.

Under the Massachusetts Statute (the general Railroad Act, 1874, chap. 372), § 138, requiring equal terms for the transportation of all persons or property, *held*, that a student who had paid the regular price of a season ticket was not entitled to recover the difference between the price paid and that which the company made to students upon special application.

Spofford v. Boston & M. R. Co. 128 Mass. 326.

The Interstate Commerce Law does not permit the sale of tickets to any class of people at rates different from those established for the general public. The fact that it is very desirable for the defendant to make sale of its lands is not a reason for discriminating in favor of explorers or settlers.

Smith v. Northern P. R. Co. 1 Inters. Com. Rep. 611.

The petition alleged that the defendant railroads had, prior to the time when the Interstate Commerce Act went into effect, entered into an arrangement with petitioner to allow 150 pounds of extra free baggage to passengers presenting the "baggage indemnity certificate" issued by petitioner, and that the defendants now refuse to make such allowance of extra free baggage, *held*:

(a) That there is nothing in the facts disclosed by the evidence which involves any question of unjust discrimination or extortion, or any other matter over which the Commission has jurisdiction;

(b) That the power to enforce contracts has not been confided to the Commission; nor has it any general power or authority to manage the business of carriers, but only a limited power, expressly defined by the Act, to interfere to prevent wrong and oppression in specified cases.

Traders & Travelers Union v. Phila. & R. R. Co. 1 Inters. Com. Rep. 871.

The defendant companies, in prohibiting their agents from receiving commissions and in

refusing to sell through tickets over the roads of complainants while the latter insists on paying commissions to defendant's agents, have not contravened the provisions of the third section of the Act, which require that railroad companies shall "afford all reasonable, proper and equal facilities" to connecting lines, etc. *Morrison, C.*, dissents.

Chicago & A. R. Co. v. Pa. Co. 1 Inters. Com. Rep. 357.

In the absence of statutory authority one railroad company can sell tickets and check baggage over the road of another company only by agreement; and the Act to Regulate Commerce does not in terms require one railroad company to sell through tickets over the road of another company. *Id.*

Held, that upon the evidence offered, the Commission cannot find that \$25 per 1000 miles is an unreasonable rate for mileage tickets. *Id.*

The Commission declines, in the absence of an actual case, to pass upon the question of the propriety of railroads continuing the issuance of free passes to the United States Fish Commission and the National Museum, to enable their employees to carry on their official duty at less expense to the United States. *Id.*

Commercial travelers are not entitled to mileage tickets at lower prices than they are sold to the public generally. *Id.*

Where a railroad ticket broker, having no apparent interest in the transaction, presented a complaint alleging unjust discrimination on the part of a railroad company in permitting a certain person to transfer to another the return portion of a passage ticket, while it refused to grant the same privilege to a third person holding a ticket alleged to be similar (but which was not so in fact) *held*, that the person aggrieved, should complain in his own name, and that the complaint by the ticket broker would not be entertained.

Ottinger v. Southern P. R. Co. 1 Inters. Com. Rep. 607.

A colored passenger having purchased a first class ticket is entitled to passage in a first class car; unjust preference, under section 8 of the Interstate Commerce Act, would not result from separating white and colored passengers, by providing cars equally safe and comfortable.

Council v. Western & A. R. Co. 1 Inters. Com. Rep. 638; *Heard v. Georgia R. Co.* 1 Inters. Com. Rep. 719.

Upon complaint to recover pecuniary damage for the ejection of a colored passenger from a first class car, the Commission has no power to award damages, since, under the amendment of the Constitution, the defendant is entitled to a trial by jury, in which case the plaintiff may recover attorney's fees under section 8 of the Act to Regulate Commerce, "to be fixed by the court."

Council v. Western & A. R. Co. 1 Inters. Com. Rep. 638.

Railroads have a right to grant special privileges to religious teachers.

Re Religious Teachers, 1 Inters. Com. Rep. 21.

The proviso in section 22 of the Interstate Commerce Act "That nothing in this Act shall apply to * * * the issuance of mileage * * *

passenger tickets," applies only to the act of issuing or giving out such tickets; the terms, conditions and circumstances upon which the sale of such tickets is made are subject to and must be in accordance with the Act in its general provision.

Larrison v. Chicago & G. T. R. Co. 1 Inters. Com. Rep. 869.

A sale of mileage tickets to commercial travelers at a certain rate, and a refusal to sell to other passengers except at a higher rate, is an unjust discrimination, within the meaning of the Act. *Id.*

A release of liability by commercial travelers to the railroad company does not constitute a good and sufficient consideration for such discrimination; nor does the fact that they may influence business in favor of the road, etc. *Id.*

Common carriers may continue the issuance of mileage passenger tickets, the charges for which must be reasonable and just, and free from unjust discrimination or unreasonable preference. *Id.*

Persons belonging to the class known as commercial travelers are not privileged to ride over railroads at lower rates than other persons, and to make a difference in this respect is unjust discrimination; this is true whether tickets issued are mileage tickets or in some other form. *Id.*

Neglect on the part of a railroad company to publish rates for mileage tickets is a violation of the Act. *Id.*

The fact that excursion or commutation tickets are put on sale at a given rate, does not entitle the purchaser of a mileage ticket (each class of tickets being issued for distinct purposes and the form of contract in each case being different) to complain of unjust discrimination if charged a higher rate.

Associated Grocers of St. Louis v. Mo. P. R. Co. 1 Inters. Com. Rep. 898.

As the United States Commission of Fish and Fisheries is one of the agencies of the government, and the distribution of fish and eggs by that Commission is by authority of the government, the transportation of fish and eggs so distributed falls within the exception of section 22 of the Act.

Re U. S. Commission of Fish and Fisheries, 1 Inters. Com. Rep. 606.

Long and Short Haul; Fourth Section.

There is no counterpart of the fourth section of the Act of Congress in English legislation; but statutes of similar character are to be found in Illinois. (Act of May 2, 1878, § 8; R. S. 188, p. 884, § 125; Starr & Curt. Stat. § 147); Massachusetts (General Railroad Act, 1874, chap. 873, § 140); and Oregon (Act of February 28, 1885, § 4; Laws of 1885, p. 88.)

But a larger charge for a shorter haul is an undue preference under the English Statutes.

Budd v. London & N. W. R. Co. 4 R. & Can. Traf. Cas. 398; *S. C.* 86 L. T. N. S. 802; and the same charge for a shorter haul; *Denaby Main Colliery Co. v. Manchester, S. & L. R. Co.* 3 Nev. & Mac. 426.

But reductions in fare in favor of longer distances are proper.

Hozler v. Caledonian R. Co. 24 L. T. 389; 1 Nev. & Mac. 27; *Jones v. Eastern Counties*

R. Co. 3 C. B. N. S. 718; 1 Nev. & Mac. 45; *Ransome v. Eastern Counties R. Co.* 1 Nev. & Mac. 117.

"Circumstances and conditions" of transportation are not changed by any of the following considerations:—Developing a new trade.

Denaby Main Colliery Co. v. Manchester, S. & L. R. Co. L. R. 11 App. Cas. 97;

Or to secure traffic that would otherwise go by other lines;

London & N. W. R. Co. v. Evershed, L. R. 8 App. Cas. 1029; *Oxlade v. North Eastern R. Co.* 1 C. B. N. S. 454; 1 Nev. & Mac. 72;

Competing with sea transportation;

Budd v. London & N. W. R. Co. 86 L. T. N. S. 802; 4 R. & Can. Traf. Cas. 398;

The place from which goods are shipped;

Ransome v. Eastern Counties R. Co. 4 C. B. N. S. 185; 1 Nev. & Mac. 109;

Place of destination;

Denaby Main Colliery Co. v. Manchester, S. & L. R. Co. *supra*.

Of the character of the shipper, as whether a rival.

Great Western R. Co. v. Sutton, L. R. 4 Eng. & Irish App. H. L. 226.

Pooling arrangements are contrary to common law, and to public policy and have been the subject of several statutory prohibitions.

State v. Vanderbilt, 37 Ohio St. 590; *Mo. Pac. R. Co. v. Texas & P. R. Co.* 80 Fed. Rep. 2; *Central Ohio Salt Co. v. Guthrie,* 35 Ohio St. 666; *Crawford v. Wick,* 18 Ohio St. 190; *Pullman Palace Car Co. v. Texas & P. R. Co.* 11 Fed. Rep. 625; *Menacho v. Ward,* 27 Fed. Rep. 529; *Charlton v. Newcastle & C. R. Co.* 5 Jur. N. S. 1100; *Hare v. London & N. W. R. Co.* 2 Johns & H. 80; *Stanton v. Allen,* 5 Denio, 440; *Nashua & L. R. Corp. v. Boston & L. R. Corp.* 19 Fed. Rep. 804; *Morris Run Coal Co. v. Barclay Coal Co.* 68 Pa. 173;

Note on Railway Pools, 15 Fed. Rep. 667; *Central R. R. Co. v. Collins,* 40 Ga. 563.

Cost of service constitutes a real difference in "circumstances."

Denaby Main Colliery Co. v. Manchester, S. & L. R. Co. L. R. 11 App. Cas. 97; *Chicago & A. R. Co. v. People,* 67 Ill. 11; *Ransome v. Eastern Counties R. Co.* 1 Nev. & Mac. 117.

Constructions upon the English Statutes as to the manner of making schedule of rates:

Colman v. G. E. R. Co. 4 R. & Can. Traf. Cas. 108; *Watkinson etc. v. Wrexham etc. R. Co.* 8 Nev. & Mac. 874; *Diphwys Casson Slate Co. v. Festiniog R. Co.* 3 Nev. & Mac. 78;

Cairnes v. N. E. R. Co. 4 R. & Can. Traf. Cas. 221; *Clonmel Traders v. Waterford etc. R. Co.* 4 R. & Can. Traf. Cas. 92; *Jones v. N. E. R. Co.* 2 Nev. & Mac. 108.

It is provided by the Illinois Statute of 1873, § 8, Starr & Curt. Stat. 1885, § 147, that "It shall not be deemed a sufficient excuse or justification of such discriminations (same or greater charge for short haul), on the part of such railroad corporation, that the railway station or point at which it shall charge or receive the same or less rates of toll or compensation for the transportation of such passenger or freight, or for the use and transportation of such railroad car the greater distance, than for the shorter distance, is a railway station or point at which there exists competition with

any other railroad or means of transportation."

The same principle is settled by the English decisions.

London & N. W. R. Co. v. Evershed, L. R. 3 App. Cas. 1029; Budd v. London & N. W. R. Co. 36 L. T. N. S. 802; 4 R. & Can. Traf. Cas. 898; Thompson v. London etc. R. Co. 2 Nev. & Mac. 115; Greenoch v. S. E. R. Co. 2 Nev. & Mac. 819; *Note*, 16 Am. L. Rev. 883.

In a case arising under the Oregon Act of February 20, 1885, the court directed the receiver to charge "No more for the carriage of goods for a shorter haul than a longer one in the same direction, except to and from points where the rate attainable is affected by water transportation, in which case he may carry at as low a rate as the water craft do, without reference to the length of the haul."

Ex parte Koehler, 23 Fed. Rep. 529; *S. U.* 25 Fed. Rep. 73; 21 Am. & Eng. R. R. Cas. 52-58.

As to construction of Illinois Statutes, see:

Chicago & A. R. Co. v. People, 67 Ill. 11; St. Louis, A. & T. H. R. Co. v. Hill, 14 Bradw. (Ill. App.) 579; Wabash etc. R. Co. v. People (80 L. ed. 244); 1 Inters. Com. Rep. 81.

As to Massachusetts Statutes, see:

Com. v. Worcester & N. R. Co. 124 Mass. 561.

The Statute of North Carolina (Code § 1966), which imposes a penalty on any rail, road company which shall charge for transportation of any freight over its road a greater amount than shall be charged at the same time by it for an equal quantity of the same class of freight, transported in the same direction over any portion of the same railroad, of equal distance, is to be construed to mean that the compensation charged shippers for carrying an equal quantity of the same class of freight, going in the same direction, must be equal in amount for equal distances, no matter on what part of the road, at any time while its list of charges for carrying freight remains unchanged.

Hines v. Wilmington & W. R. Co. 95 N. C. 434.

A lower rate should not be made for the transportation of goods intended for export trade.

Twells v. Pa. R. Co. 3 Am. L. Reg. N. S. 728; Mo. Pac. R. Co. v. Texas & P. R. Co. 30 Fed. Rep. 2; Denaby Main Colliery Co. v. Manchester, S. & L. R. Co. L. R. 11 App. Cas. 97.

Carrying local passengers from one point on its line is not an identical service with that of carrying a through passenger from the same distance.

Union Pac. R. Co. v. U. S. 117 U. S. 355 (29 L. ed. 920). See also Missouri Pac. R. Co. v. Texas & P. R. Co. 30 Fed. Rep. 2.

A Statute of Illinois enacts that if any railroad company shall, within that State, charge or receive for transporting passengers or freight of the same class, the same or a greater sum for any distance than it does for a longer distance, it shall be liable to a penalty for unjust discrimination. The defendant in this case made such discrimination in regard to goods transported over the same road or roads, from Peoria in Illinois and from Gilman in Illinois

to New York; charging more for the same class of goods carried from Gilman than from Peoria, the former being eighty-six miles nearer to New York than the latter, this difference being in the length of the line within the State of Illinois.

Wabash, St. L. & P. R. Co. v. Ill. 118 U. S. 557 (30 L. ed. 244); 1 Inters. Com. Rep. 81.

The Supreme Court of the United States follows the Supreme Court of Illinois in holding that the Statute of Illinois must be construed to include a transportation of goods under one contract and by one voyage from the interior of the State of Illinois to New York. *Id.*

And it held further that such a transportation is "commerce among the States," even as to that part of the voyage which lies within the State of Illinois, while it is not denied that there may be transportation of goods which is begun and ended within its limits and disconnected with any carriage outside of the State, which is *not* commerce among the States. *Id.*

The latter is subject to regulation by the State, and the Statute of Illinois is valid as applied to it. But the former is national in its character, and its regulation is confided to Congress exclusively, by that clause of the Constitution which empowers it to regulate commerce among the States. *Id.*

Notwithstanding what is said in *Munn v. Illinois*, and *Pelk v. Chicago & N. W. R. Co.*, in 94 U. S. 113, 164 (24 L. ed. 77, 97), the United States Supreme Court holds now, and has never consciously held otherwise, that a statute of a State, intended to regulate or to tax, or to impose any other restriction upon the transmission of persons or property or telegraphic messages from one State to another, is not within that class of legislation which the States may enact in the absence of legislation by Congress; and that such statutes are void even as to that part of such transmission which may be within the State. *Id.*

It follows that the Statute of Illinois, as construed by the Supreme Court of the State, and as applied to the transaction under consideration, is forbidden by the Constitution of the United States. *Id.*

The Commission has not been given a general dispensing power to relieve hardships under the Law, but its power in that regard is strictly limited.

Re Iowa Barb Steel Wire Co. 1 Inters. Com. Rep. 605.

The Interstate Commerce Law contemplates that the cases in which the Commission is authorized to make orders for suspension of its operation are exceptional cases, and that where only general reasons operate, the general law shall be left to its general course, however serious the consequences in particular cases.

Jurisdiction of the Commission, 1 Inters. Com. Rep. 78.

The mere probability that injury will result from the operation of the Act will not authorize the Commission to direct a suspension. *Id.*

Incidental injuries under the Act must be borne for the public good until the Legislature provides a remedy. *Id.*

The prohibition in the fourth section of the Interstate Commerce Act against a greater charge for a shorter than for a longer distance

over the same line, in the same direction, the shorter being included within the longer distance, as qualified therein, is limited to cases in which the circumstances and conditions are substantially similar.

Re Southern R. & Steamship Asso. 1 Inters. Com. Rep. 378.

The phrase "under substantially similar circumstances," in the fourth section, is used in the same sense as in the second section; and under the qualified form of the prohibition in the fourth section carriers are required to judge in the first instance with regard to the similarity or dissimilarity of the circumstances and conditions that forbid or permit a greater charge for a shorter distance. *Id.*

The judgment of carriers in respect to the circumstances and conditions is not final, but is subject to the authority of the Commission and of the courts to decide whether error has been committed or whether the statute has been violated. And in case of complaint for violating the fourth section of the Act, the burden of proof is on the carrier to justify any departure from the general rule prescribed by the statute by showing that the circumstances and conditions are substantially dissimilar. *Id.*

The provisions of section 1, requiring charges to be reasonable and just, and of section 2, forbidding unjust discrimination, apply when exceptional charges are made under section 4, as they do in other cases.

Re Southern R. & Steamship Asso. 1 Inters. Com. Rep. 378.

The existence of actual competition, which is of controlling force in respect to traffic important in amount, may make out the dissimilar circumstances and conditions, entitling the carrier to charge less for the longer than for the shorter haul over the same line in the same direction, the shorter being included in the longer, in the following cases:

(a) When the competition is with carriers by water which are not subject to the provisions of the statute;

(b) When the competition is with foreign or other railroads which are not subject to the provisions of the statute;

(c) In rare and peculiar cases of competition between railroads which are subject to the statute, when a strict application of the general rule of the statute would be destructive of legitimate competition. *Id.*

When the greater charge in the aggregate is made for the transportation of passengers or the like kind of property for a shorter than for a longer distance over the same line in the same direction, the shorter being included in the longer distance, it is not sufficient justification therefor that the traffic which is subjected to such greater charge is way or local traffic, and that which is given the more favorable rates is not.

(a) Nor is it sufficient justification for such greater charge that the short haul traffic is more expensive to the carrier, unless when the circumstances are such as to make it exceptionally expensive, or the long haul traffic exceptionally inexpensive, the difference being extraordinary and susceptible of definite proof;

(b) Nor that the lesser charge on the longer haul has for its motive the encouragement of

manufactures or some other branch of industry;

(c) Nor that it is designed to build up business or trade centers;

(d) Nor that the lesser charge on the longer haul is merely a continuation of the favorable rates under which trade centers or industrial establishments have been built up;

(e) The fact that long haul traffic will only bear certain rates is no reason for carrying it for less than cost at the expense of other traffic. *Id.*

The fact that there is competition in the carriage of persons or property to or from a particular place is a circumstance that justifies a common carrier under section 4 of the Interstate Commerce Act to charge less for a long haul to or from said place than a short one included therein.

Ex parte Koehler (U. S. C. C.) 1 Inters. Com. Rep. 817.

Passes to families of employees. Section 2 of the Interstate Commerce Act in effect prohibits the giving of passes or free carriage to particular persons; and the exception allowed in section 23, in favor of officers and employees of the road, does not include the families of such persons. *Id.*

Defendant railway company has two lines of nearly equal length, one starting from Providence and the other from East Providence, which unite at Valley Falls, whence the main line runs into Massachusetts. The rate charged by defendant on coal shipped at Providence is the same as on coal shipped at East Providence as far as Valley Falls and the next station; but beyond that point the rate on coal from Providence is ten cents per gross ton more than on coal from East Providence. *Held:*

(a) That this is an unjust discrimination; that if it is fair and reasonable for the defendant to make the charge to Valley Falls from the two termini the same, there can be no justification for making different rates to stations beyond, based upon the fact that the coal comes from one terminus rather than from the other;

(b) That the evidence fails to support the contention of defendant that the extra rate upon coal received at Providence is only a fair equivalent for the additional cost of handling it there;

(c) That under all the circumstances it is not admissible for defendant to impose upon its patrons at Providence, whose investments were made before the East Providence line was constructed, an additional charge because of the inconvenience attending the transaction of its business at that station, and for which they are in no way responsible.

Providence Coal Co. v. Providence & W. R. Co. 1 Inters. Com. Rep. 868.

The defendant railway company had for some time paid the cost of hauling coal which was shipped by complainant, from complainant's wharf to defendant's freight station in Providence, without any contract obligation to that effect, but now refuses so to do. *Held*, that defendant cannot be compelled to continue paying for such hauling; that what defendant did for a time as a favor or by way of encouragement, it might discontinue at pleasure, and that there is nothing in the nature of a binding usage about it. *Id.*

Under the Interstate Commerce Act all charges made by the receiver of a railroad, in respect to such business as falls under the head of interstate commerce, for any service in the transportation of passengers or property, or for receiving, delivering, storing or handling property, must be reasonable and just; and such receiver may not discriminate in his rates, charges and facilities for or against either of two connecting steamship lines, but should give to both equal rates and facilities for trade and travel, for equal service, from all points.

Re Petition of Mallory, 1 Inters. Com. Rep. 294.

The complaint, in effect, asks from the Commission an order that shall require the defendant roads to receive freights at Schenectady for transportation at Boston, at rates less than are now charged by the same roads for the transportation of like freights to Boston from stations nearer Boston, under substantially similar circumstances and conditions.

Such order, if issued, would require the roads to depart from the general rule laid down in the fourth section of the Act.

While the Act authorizes the Commission to permit exceptions, it does not authorize it to require exceptions.

The Commission has not power to make rates generally, but only to determine whether rates imposed by the railroads are in conflict with the statute.

The question whether the rates now charged complainant are excessive is not raised by the complaint.

Thatcher v. Fitchburg R. Co. 1 Inters. Com. Rep. 356.

By the word "line" in the Act, a physical line is meant, not a business arrangement; and one line of road may be part of several lines.

Boston & A. R. Co. v. Boston & L. R. Co. 1 Inters. Com. Rep. 571.

Where, in a proceeding against several connecting railroad companies for charging more for a short than for a long haul, one of the companies claims that its only participation in the alleged offense consisted in its sharing in the low charges on the long haul, which were not in themselves alleged to be illegal, the complaint should not be dismissed as against such company, where its interest and the liability of the low rates on long haul traffic to be affected by changes made in the higher rates on short haul traffic is so great that in case such company had not been made a party, and should ask to be made a party, it would be proper so order.

Boston & A. R. Co. v. Boston & L. R. Co. 1 Inters. Com. Rep. 571.

Where, in a proceeding by one railroad company against other companies, for charging more for a short than for the long haul, it appears that the rates alleged to be illegal are local rates; that the petitioner does not pay or participate in paying them; that they are not competitive rates to those imposed on the petitioner's road; and there is no allegation that such rates are excessive or unjust, and the sole grievance of the petitioner is that the defendant companies accept through traffic at lower rates than are made by the petitioner and its

connections—such petitioner has no standing to maintain the proceeding. *Id.*

The right to make greater charges for short than for long hauls is exceptional and depends in every case upon the peculiar circumstances and conditions; and a ruling in reference thereto in the case of one carrier would not be applicable to another carrier differently circumstanced. *Id.*

If several railroad companies join in making the joint tariff which constitutes the lesser charge on the longer haul, while one or more of their number makes the greater charge on the shorter haul, the case is within the fourth section of the Act; and those who make such greater charge are called upon to justify it. *Id.*

Through business over the defendant companies' roads was done by the National Despatch Line (a fast freight line, neither a corporation nor an association of persons, but a name under which business was done), the several roads paying mileage for the cars used, furnished to such line by a car company, and the earnings of such line being divided among the roads in agreed proportions. The tariff for the long haul traffic in question was made by the manager of the Despatch Line, who was the agent for all the roads over which it did business, and was acquiesced in by them. Held, that the defendant companies were responsible for the long haul rates. *Id.*

Held, that such peculiar facts are not found to exist as will justify the greater charge over the shorter line by the Central Vermont Roads. *Id.*

Facts examined, and held:

That defendant receives a greater compensation for its haul from Indianapolis to Michigan City than it does for its haul from Frankfort to South Watah, and consequently does not on its own line charge more for the shorter haul;

That defendant does not, and cannot, control the fixing of rates by the crossing and intersecting lines, and has no option but to accept those rates which are fixed, and prorate upon them, or to cease to take grain altogether;

If it is desired to test the reasonableness of the through rate from Frankfort to New York, all the roads responsible for it should be made defendants. It is not enough to make the initial road defendant, unless that road has authority to make the rate for them all.

Allen v. Louisville N. A. & C. R. Co. 1 Inters. Com. Rep. 621.

Evidence examined, and held: the difference in the rates at Mazeppa, compared with the rates at Red Wing and Lake City should neither exceed 2½ cents on 100 pounds, nor one third part of the rates made in the adjustment of charges from competing towns.

Raymond v. Chicago M. & St. P. R. Co. 1 Inters. Com. Rep. 627.

On complaint of millers and others on the Iowa and Minnesota Division, of unjust discrimination; held:

(a) That the complaint is well founded; that the rate on wheat on that division is relatively too high; that while a reasonable differential may be allowed on that division, on account of greater distance and probable larger expense

of transportation and the greater stringency of the competitive forces on the River Division, the difference above the present rate on the River Division should not exceed $2\frac{1}{2}$ cents a hundred;

(b) That it is not a sufficient compliance with the Law that rates are reasonable in themselves; but they should be so relatively reasonable as to protect communities and business against unjust discrimination;

(c) That when the same carrier operates parallel lines, and for any cause accepts low rates on one line, it should furnish sufficient corresponding advantages to the patrons of the other lines to prevent undue prejudice and disadvantage, and to preserve the substantial equality contemplated by the statute.

Boards of Trade Union v. Chicago, M. & St. P. R. Co. 1 Inters. Com. Rep. 608.

The operation of section 4 of the Act suspended, for ninety days, as to the traffic of the petitioner between certain points.

Re Detroit, G. H. & M. R. Co. 1 Inters. Com. Rep. 17.

Petitioning railroad company relieved temporarily from the operation of the fourth section, on certain conditions.

Re Atchison, T. & S. F. R. Co. 1 Inters. Com. Rep. 58.

The operation of the fourth section of the Act suspended, in its application to certain railroads and connecting steamship lines, for a period not greater than ninety days, until the Commission can make a complete examination of the matters alleged in the petition.

Re Southern R. & Steamship Asso. 1 Inters. Com. Rep. 15.

The circumstances and conditions touching the transportation of passengers and freight to and from the Republic of Mexico through El Paso, Texas, by the Texas & Pacific R. Co. are (within the meaning of section 4 of the Interstate Commerce Act) so substantially different from those surrounding transportation to other points on said railway as to justify said company in establishing lower rates at El Paso on freight transported for export into and received from Mexico and for delivery at El Paso than is charged at points between that city and the points where the freights originate and where the distance and haul are shorter.

Re Tex. & Pac. R. Co. (U. S. C. C. E. D. of La.) 1 Inters. Com. Rep. 80.

For proceedings of the Commission relating to complaints for violation of the Fourth Section, applications for suspension, and orders suspending its operation, see Index *infra*, under title "Long and Short Haul."

RULES OF CONSTRUCTION.

Where English Statutes have been adopted, the settled construction of those statutes is incorporated in the Acts adopting them.

McDonald v. Hovey, 110 U. S. 619 (28 L. ed. 269); Oathcart v. Robinson, 80 U. S. 5 Pet. 265 (8 L. ed. 120); Pennock v. Dialogue, 27 U. S. 2 Pet. 1 (7 L. ed. 327); McCool v. Smith, 66 U. S. 1 Black, 459 (17 L. ed. 218); The Abbotsford, 98 U. S. 440 (25 L. ed. 168).

See Address by Senator Cullom, 1 Inters. Com. Rep. 800.

Transportation in a foreign country is not affected by the English Acts.

Branley v. South Eastern R. Co. 13 C. B. N. S. 68; Zunz v. South Eastern R. Co. L. R. 4 Q. B. 589; S. C. 88 L. J. Q. B. 209.

The Commission has no authority to call a railroad company to account for any wrong of which such company may have been guilty prior to April, 1887, when the Interstate Commerce Act went into operation.

Holbrook v. St. Paul, M. & M. R. Co. 1 Inters. Com. Rep. 823; Ottinger v. Southern P. R. Co. 1 Inters. Com. Rep. 607.

Where no overt acts of misconduct on the part of a defendant railroad company, which could support any judgment of the Commission or any mandatory order, are made to appear, the Commission has no discretion but to dismiss the complaint.

Holbrook v. St. Paul, M. & M. R. Co. 1 Inters. Com. Rep. 823.

RULES OF PRACTICE.

Rules of practice adopted by the Commission. Appendix I.

Sec. 1. Daily sessions at Washington.

" 2. Applications under section 4; petition; verification; notice.

" 3. Investigation by Commission.

" 4. Complaints under section 18; copies of complaint; names and addresses to be set forth; service of copies.

" 5. Answer within twenty days; filing; verification.

" 6. Hearing on complaint without answer.

" 7. Adjournment and extension of time.

" 8. Hearing on issue joined; failure to answer.

" 9. Subpoenas; depositions. (See amendment, Appendix II.)

" 10. Amendments.

" 11. Copies.

" 12. Affidavits, before whom taken.

Applications to the Commission for special exception under the Act will be granted only after investigation of the facts, upon a verified petition formally presenting a case.

Re Southern P. R. Co. 1 Inters. Com. Rep. 16; Re Petition of R. Conductors, 1 Inters. Com. Rep. 18.

The Commission cannot make an order or give an opinion in advance of an actual complaint and hearing.

Re Inmates of Nat. Homes, 1 Inters. Com. Rep. 75; Re Petition of R. Conductors, and Re Theatrical Rates, 1 Inters. Com. Rep. 18.

A desire to obtain a construction of the Interstate Commerce Act is not sufficient to support a proceeding before the Commission.

Boston & A. R. Co. v. Boston & L. R. Co. 1 Inters. Com. Rep. 571.

But it is not held that a complainant must necessarily have a pecuniary interest in order to entitle him to be heard; and it seems, under the provisions of the Act, that when an infraction of the Act would constitute a public grievance, it may be the duty of the Commission to investigate it, when brought to its attention by a responsible party in a duly authenticated form. *Id.*

Held, that the persons composing the Vermont State Grange of the Patrons of Husbandry had such an interest that it was proper that they, as an association, should raise a question

as to the justice of the high rates complained of by them, and that the proceeding was maintainable upon their petition. *Id.*

When an important question is raised by the pleading in the case, the determination of which will affect others quite as much as the parties before the Commission, but the parties give their attention almost exclusively to the other questions, and neither by the evidence nor in argument supply the Commission with the information to enable it to be understandingly determined, the Commission will decline to decide it, and leave the parties to bring it forward again as they may be advised.

Rice v. Louisville & N. R. Co. 1 Inters. Com. Rep. 722.

An amendment to a complaint seeking to introduce new grievances and charges will not be allowed.

Riddle v. Balt. & O. R. R. Co. 1 Inters. Com. Rep. 701.

Where complaint was served on receiver of defendant company, naming him as its president and alleging that the prior receivership had determined, upon answer that the receivership still existed, leave was given to amend the complaint to show the existence of the receivership.

Reynolds v. Western, N. Y. & P. R. Co. 1 Inters. Com. Rep. 685.

A motion to dismiss a complaint denied, because: 1, no notice of motion had been given; and 2, because the object of the motion was to reach the merits of the case and have them passed upon summarily, instead of at the customary final hearing.

Associated Grocers of St. Louis v. Mo. P. R. Co. 1 Inters. Com. Rep. 521.

It is the desire of the Commission that the practice and proceedings shall be as simple as possible, and that final hearings be had forthwith, without the interposition of dilatory motions, etc. *Id.*

Complaint dismissed, where complainant failed to appear at the hearing after notice thereof.

Jackson v. St. Louis, A. & T. R. Co. 1 Inters. Com. Rep. 599.

On a petition charging the exaction of unreasonable rates, the burden of proof is on the petitioner to sustain the charges by evidence which shows with reasonable certainty that they are in substance true.

Harding v. Chicago, St. P. M. & O. R. Co. 1 Inters. Com. Rep. 375.

Hence, petition charging that the rates on twine for harvesters, from Chicago to Hudson, was unreasonable, dismissed without prejudice, where the answer denied that the rate was unreasonable, and showed that it had been reduced, and neither party offered any evidence. *Id.*

The complaint charged unjust discrimination in exacting an extra rate for transporting cattle in a Burton stock car; the answer denied the fact of unjust discrimination, and no proof was given by either side. *Held*, that it is impossible for the Commission to say that if all the facts were before it, the greater charge could not be justified; and hence, as it is not suggested that further proceedings are desired, the case must stand dismissed, but without prejudice.

INTER 8.

Leonard v. Union P. R. Co. 1 Inters. Com. Rep. 627.

The Interstate Commerce Act contemplates that when a complaint is made against a carrier, on the ground of exorbitant rates, the carrier may change its rates before a hearing is had, so as to remedy the matter complained of, if it shall see proper so to do.

Fulton v. Chicago, St. P. M. & O. R. Co. 1 Inters. Com. Rep. 375.

Hence, petition dismissed without prejudice, where it appeared from a reply filed by the complainant to the defendant's answer, that the rates originally complained of had been reduced, and no complaint was made against such reduced rates. *Id.*

If, at a hearing before the Commission, of a complaint against a railroad company, the defendant avows a purpose to comply with the Law, the Commission must not only assume that the company will do so but must act upon that assumption until it has evidence that the purpose is not lived up to.

Holbrook v. St. Paul, M. & M. R. Co. 1 Inters. Com. Rep. 323.

Under the English Act, where the company admitted having made an undue preference, but asserted that the cause of complaint had been removed before the application for an injunction had been filed, so that it was not necessary that an injunction should issue, *held*, that the complainant was entitled to an injunction for the future.

Macfarlane v. N. B. R. Co. 4 R. & Can. Traf. Cas. 269.

But an attachment for disobedience to a writ of injunction was refused where it appeared by affidavits of the company that it was endeavoring to conform to the order of the court, although it appeared that the reformed scale of charges still operated in some respects injuriously to the interests of the complainants and advantageously to the other parties.

Ransome v. Eastern Counties R. Co. 4 C. B. N. S. 159; 1 Nev. & Mac. 116.

While the Commission will grant an application for rehearing for the correction of an error of law or fact, it will not direct a rehearing involving an expense to parties, unless satisfied that reargument may have the effect of changing the result. Where the relation of any carrier to the matter complained of is such that it is, in whole or in part, materially responsible for the alleged grievance, and has direct interest in any investigation of the subject matter involved, and the merits of the controversy cannot be investigated and determined in the absence of such carrier as a party, then that carrier should be made a party to the proceeding, and if not a party, no relief can be had against it.

Riddle v. Pittsburgh & L. E. R. Co. 1 Inters. Com. Rep. 773.

The Commission will not express an opinion where neither by complaint nor by application for relief is a case stated which will come within its jurisdiction.

Re Iowa Barb Steel Wire Co. 1 Inters. Com. Rep. 605.

The Commission has no power to construe, interpret or apply the Interstate Commerce Act in advance of an actual act or omission on the

part of a common carrier in contravention of the provisions of the Act.

Re Petition of R. Conductors, 1 Inters. Com. Rep. 18; Jurisdiction of the Commission, 1 Inters. Com. Rep. 78.

Upon petitions by railroad companies praying the Commission to "authorize the trunk lines to bill export freight to Boston at New York rates" etc., *held*, that as any legal ground for affirmative action on the part of the Commission was precluded by the fact that the parties bringing the practice to the attention of the Commission did so with explanations of its propriety and insisting upon its lawfulness, no order should be made on the petitions, but leave should be given to withdraw them.

Re Export Trade of Boston, 1 Inters. Com. Rep. 25.

The report and findings of the Commission upon the evidence relate only to the ascertainment and presentation of all the material facts necessary to fairly and justly present the merits of the controversy; and the Commission

does not report evidence which is only cumulative, or which is immaterial or irrelevant, or mere details of evidence already embraced in substantial facts stated, upon which the findings and conclusions of the Commission are made.

Riddle v. Pittsburgh & L. E. R. Co. 1 Inters. Com. Rep. 778.

Where the pleadings present issues of fact which cannot be disposed of by a decision which shall reach the merits without some evidence, and no evidence is presented, the case must be dismissed.

Leonard v. Union P. R. Co. 1 Inters. Com. Rep. 627.

The Commission will not make an award of damages where the defendant is entitled to have the amount assessed by a jury.

Riddle v. New York, L. E. & W. R. Co. 1 Inters. Com. Rep. 787; Heck v. E. Tenn. V. & G. R. Co. 1 Inters. Com. Rep. 775; Council v. Western & A. R. Co. 1 Inters. Com. Rep. 688; Heard v. Ga. R. Co. 1 Inters. Com. 719.

INDEX.

ACT TO REGULATE COMMERCE. (INTERSTATE COMMERCE ACT.)

1. Mere desire for construction of Act is not sufficient to support proceeding charging violation of section 4. *Boston & A. R. R. Co. v. Boston & L. R. R. Co.* 571.

2. The Commission can not construe the Act before violation thereof. *Re Theatrical Rates*, 18; *Re Order of Railway Conductors*, 18.

3. Explanation of design of Act as bearing upon its construction. *Address by Senator Cullom*, 300.

4. While the Act authorizes the Commission to permit exceptions, it does not authorize it to require exceptions. *Thatcher v. Fitchburg R. R. Co.* 856.

- See LONG AND SHORT HAUL; RATES; TICKETS.

I. IN GENERAL.

1. Powers and procedure of the Commission. 408, 446.
 2. Section 1 requiring charges to be reasonable, and section 3, forbidding unjust discrimination, apply when **exceptional charges** are made under section 4, as they do in other cases. *Re Southern R. & S. Assn. (Re Louisville & Nashville R. Co.)* 278.
 3. A variety of practical considerations must enter into making of **freight rates** and determine to a great extent whether rates are reasonable. *Beans v. Oregon Railway & Navigation Co.* 641.
 4. Railroad companies cannot be required to make **freight rates** upon mere conjectures. *Id.*
 5. The burden of proving the exaction of **unreasonable** rates is on petitioner. *Harding v. Chicago etc. R. R. Co.* 375.
- II. DISCRIMINATION AGAINST LOCALITIES.**
- a. Rules as to Rates.
 6. The **relative reasonableness** of rates from western points to Atlantic seaboard is governed by circumstances and conditions affecting traffic to points between which rates are given. *Boston Chamber of Commerce v. Lake Shore & M. S. R. Co.* 754.
 7. The length and character of the haul, the cost of the service, the volume of the business, and the conditions of competition, etc., are **elements bearing upon such charges.** *Id.*
 8. Rates should be so **relatively reasonable** as to protect communities and business against unjust discrimination. *Boards of Trade Union v. Chicago, M. & St. P. R. Co.* 608.
 9. A carrier operating parallel lines and accepting **lower rates on one line** should make corresponding charges on other line. *Id.*
 10. When a railroad company in establishing its charges on the different branches of its road so adjusted them as to divert trade and business to one locality, such **unreasonable preference for one place** is not excused by the fact that the rates are the result of competition with other carriers. *Raymond v. Chicago, M. & St. P. R. Co.* 637.
 11. An **advantage given to a competing town** on a main line must not be unreasonable. *Id.*
 12. It is not ground of complaint that railroad company **equalizes its rates as between**

small and large towns, although the effect may be prejudicial to the latter. *Crews v. Richmond & D. R. Co.* 703.

13. The purpose of the Interstate Commerce Act requires that when circumstances will fairly admit of it, **charges** to all points for like service should be made **relatively equal.** *Id.*

14. When the reasonableness of rates is in question, charges on long **through lines** cannot offer a just basis for comparison with **local rates** for relatively short distances. *Id.*

15. A **carrier is not responsible for rates** made by **connecting road** merely because of its giving them in connection with its own rates to parties making through shipments. *Id.*

16. That a refusal to give a **through rate** as for one shipment operates prejudicially to the town desiring privilege, does not make the refusal an unjust discrimination, when the carrier **applies the same rule to all towns.** *Id.*

17. **Discrimination** must consist of allowing one party what is denied another. *Id.*

18. **Carrier need not give the merchants** of towns on its line the **privilege** of shipping their goods from the point of purchase to their own locality and from there to the place of sale of the goods, at the same rate as would have been charged from the point of purchase to the point of ultimate delivery. *Id.*

b. Particular Localities.

19. Beatrice, Neb.—*Beatrice Board of Trade v. Union Pacific R. Co. et al.* 701.
20. Biloxi in favor of New Orleans—*Dunbar v. Louisville & Nashville R. Co.* 593.
21. Boston—*Boston Chamber of Commerce v. Boston & Albany R. Co et al.* 354, 391, 463, 604.
22. There is no unjust discrimination in charging more to Boston than to New York in rates from Chicago. *Id.* 754. *Export Trade of Boston, Re, 18, 23, 25; Fitchburg R. Co.* 23.
23. Carriage by indirect route—*Katzen v. Norfolk & Western R. Co.* 483, 588.
24. Delaware—Fruits and vegetables—*Delaware State Grange v. New York, Phila. & Norfolk R. Co. et al.* 649.
25. Detroit, Mich.—*Detroit Board of Trade v. Grand Trunk R. Co.* 698, 701.
26. Hartford, Conn.—Water Commerce—*Hartford & N. Y. Trans. Co. v. New York & New England R. Co.* 314.
27. Hartwell, Ga.—*McMullan v. Richmond & Danville R. Co.* 483.
28. Hot Springs, N. C.—*Hot Springs v. Western N. C. R. Co.* 316.
29. Hudson, Minn.—*Fulton v. Chicago, St. Paul, M. & O. R. Co.* 375; *Harding v. Same,* 375.
30. Lincoln, Neb.—*Lincoln Board of Trade v. Chicago, B. & Q. R. Co. et al.* 647; *Lincoln Board of Trade v. Southern Pacific R. Co.* 647. 702; *Lincoln Board of Trade v. Union Pacific R. Co.* 702; *Plummer v. Union Pacific R. Co. et al.* 648.

81. Marshallville, Ga.—*Slappey v. Central R. Co. of Ga. et al.* 675, 812.

82. Milwaukee, Wis.—*Milwaukee Chamber of Commerce v. Flint & Pere Marquette R. Co. et al.* 774, 792.

83. Minneapolis, Minn.—*St. Louis Millers' Assn. R.* 22.

84. New Orleans, La.—*Cotton—New Orleans Cotton Exchange v. New Orleans, Cincinnati & Texas Pac. R. Co.* 648.

85. Opelika, Ala., in favor of Montgomery and Columbus—*Columbus & Western R. Co.* 314, 494; *Harwell v. Columbus & Western R. Co.* 494, 681; *Re Opelika Board of Trade*, 314, 494, 681.

86. Phillipstown and Brady's Bend—*Coal—Allegheny River Coal Producers Assn. v. Allegheny Valley R. Co.* 604.

87. Providence and East Providence, R. I.—A higher rate on coal from Providence than from East Providence is an unjust discrimination, and under the circumstances it is not permissible to make an additional charge because of inconvenience attending transaction of business at East Providence. *Providence Coal Co. v. Providence & Worcester R. Co.* 316, 363.

88. Walla Walla, W. T.—The Oregon Railway & Navigation Company is ordered to cease charging more than 25½ cents per 100 pounds or \$4.70 per ton on wheat transported by it on its lines from Walla Walla, Washington Territory, to Portland, Oregon, during the present grain season. *Evans v. Oregon Railway & Navigation Co.* 314, 326, 641; *Reed v. Same*, 314, 328, 641.

III. TRANSPORTATION OF SPECIFIC ARTICLES.

89. The Commission should clearly see that duty requires an answer to the question, on *ex parte* application, whether special **privileges** by a railroad to manufacturers in a **single line of trade**, and not to manufacturers generally, is consistent with the law, before it does so. *Re Iowa Barb Steel Wire Co.* 605.

40. Beer from Milwaukee—*Stahl v. Oregon R. & Nav. Co.* 314.

41. Car load classifications—*Leggett v. Baltimore & O. R. Co.* 396; *Thurber v. New York Central & H. R. R. Co. et al.* 397, 684.

42. Cattle in Burton stock cars—*Leonard v. Union Pac. R. Co.* 472, 627.

43. The expense of hauling the Burton cars in one direction unloaded, since by their construction they are not suited to carry general freight, and the fact that a large percentage of ordinary cattle cars are back loaded upon long hauls of western roads, are considerations which justify difference in charge against shippers who prefer to hire improved stock cars. *Burton Stock Car Co. v. Chicago, Burlington & Quincy R. R. Co.* 329.

44. Classification of freights and underbilling—*Commercial Exchange of Phila. v. Erie Dispatch*, 778, 821; *Re Underbilling*, 778, 818, 821; *Walker v. Baltimore & O. R. Co. et al.* 649.

45. Underbilling weights of freight, whereby one person pays less compensation for like services than another is written inhibition of Act. *Re Underbilling*, 818.

46. Every carrier is held liable for correctness of weight and classification of freight received so far as same can be practically ascertained. *Id.*

47. Devices for evasion of Act commented on. *Id.*

48. Recommendations by Commission for regulations for detecting underbilling and of legislative action imposing penalty upon shippers guilty of underbilling. *Id.*

49. Coal rates—*Ohio Coal Exchange v. Wisconsin Cent. R. Co.* 793, 812; *Rend v. Chicago & N. W. R. Co.* 793, 812.

50. A discount allowed by a railroad company where consignments of coal in one year shall amount to 80,000 tons or upward is an unjust discrimination. *Providence Coal Co. v. Providence & Worcester R. Co.* 363.

51. Differences in rates per car load and less quantities—*Ayres v. Union Pacific R. Co.* 397; *Classification of Railroad Freights*, 317, 355.

52. Grain and flour from Schenectady, N. Y.—*Thatcher v. Fitchburg R. Co.* 356.

53. Live stock from Covington, Ky.—Carriers cannot make the yards of a certain company their exclusive stock depot at a certain place, there being other stock yards near by charging lower rates. *Keith v. Kentucky Central R. Co. et al.* 316, 601.

54. Lumber—Railroad Ties—Classification of railroad ties in different class from other lumber is an unjust discrimination. *Reynolds v. Western New York & P. R. Co.* 600, 685; *Reynolds v. New York & Phila. R. Co.* *Id.*

55. Rates of carrier under desire to keep upon its line a material for which it has use or to keep the price low for its own advantage cannot be justified. *Id.*

56. Lumber—Differences in rates between hewn and sawed lumber—*Jackson v. St. Louis, Arkansas & Texas R. Co.* 476, 599.

57. Lumber from Dalton, Ga.—*Farrar v. East Tennessee, Va. & Ga. R. Co. et al.* 600, 764.

58. Lumber from Fair Haven, Vt.—*Griffith v. Delaware & Hudson Canal Co.* 396, 483.

59. Meat products from Chicago—"Dressed Meat Cases," 294, 303, 314, 464.

60. Milk from Orange Co. N. Y.—*Howell v. New York, L. E. & W. R. Co.* 467; *Re Milk Traffic*, 24, 292, 315, 467.

61. Mineral water from Lansing, Mich.—*Michigan Congress Water Co. v. Chicago & G. T. R. Co.* 797.

62. Pearline, classification—*Pyle v. Southern Railway & Steamship Assn.* 486.

63. Pearline must be placed in fifth class freight in classification of Southern Railway & Steamship Association, and relative difference in rates on pearline and common soap must not exceed difference of sixty cents per 100 pounds on pearline and thirty-three cents on common soap. *Pyle v. East Tennessee, Va. & Ga. R. Co.* 600, 767.

64. Rates for carrying pearline and common soap to be maintained by Southern Railway & Steamship Association, stated. *Id.*

65. Statement of grounds of difference of classification of freight by railroad companies given. *Id.*

66. Petroleum oil—*Brady v. Pa. R. Co.* 649, 810; *Nicola v. Pa. R. Co.* 649, 810; *Rice v. Western N. Y. & P. R. Co.* 717, 792, 795, 811; *Rice v. Louisville & Nashville R. Co. et al.* 854, 876, 448, 478-482, 722.

67. Terms for rolling stock for transportation of petroleum oil should be uniform and published with rate sheets. *Rice v. Louisville & Nashville R. Co.* 722.

68. If from peculiarity of traffic, carrier cannot supply such stock, and consignors supply it for themselves carriers must not allow its deficiencies in this particular to be made means of putting at advantage those who make use in same traffic of facilities it supplies. *Id.*

69. Charge of transportation of oil in tank cars should be same as charged for transportation of barrel shipments of oil. *Id.*

70. That there are greater risks to carrier's property from such shipments does not justify greater charges therefor. *Id.*

71. Allowance can be made to owners of tank cars for their use. *Id.*

72. United States supplies—A carrier may make special rates with individuals to enable the latter to make proposals to the Interior Department for transportation of Indian supplies, such transportation being for the United States. *Re Indian Supplies*, 22.

73. Wheat from Colfax, W. T.—*McClaine v. Oregon R. & Nav. Co.* 395.

74. Wheat from Mazeppa, Minn.—*Raymond v. Chicago, Milwaukee & St. P. R. Co.* 474, 627.

75. Wheat from Minnesota towns—*Boards of Trade Union v. Chicago, Milwaukee & St. P. R. Co.* 608.

IV. REFUSAL TO FURNISH CARS.

76. *Rice v. Louisville & Nashville R. Co.* 722.

77. Refusing to furnish cars for transportation, when all cars are needed for transportation of freight which has accumulated along the line is not violation of Act. *Riddle v. Pittsburgh & L. E. R. Co.* 601, 688.

78. It is duty of carrier to furnish cars **rationably** to shippers along its line until the emergency is passed. *Id.*

79. A charge of preference of cars to one trade over another, and of a preference to shippers in not requiring them to load or unload its cars promptly was not sustained by the evidence. *Id.*

80. At times of special pressure, regular customers are not entitled to preference over occasional ones. *Riddle v. New York, L. E. & W. R. Co.* 787.

81. Shipper need not make special contract with carrier to be entitled to transportation for goods. *Id.*

82. Less desirable freight must be accepted upon reasonable terms, as well as that which is more desirable. *Id.*

83. When equipment of carrier usually applied to transportation of particular article is not equal to demand, carrier must appropriate other cars to such service. *Id.*

84. Carrier is not justified in refusing cars for transportation of coal at certain point by

fact that it could make **more money by using** its regular coal cars on another portion of its line. *Id.*

85. That at certain time article can not be **profitably shipped at existing tariff rate** is not conclusive evidence that that rate is unreasonable. *Id.*

86. The N. Y., L. E. & W. R. Co., extending to Dayton, Ohio, by agreement being considered with C., C. & I. R. Co., extending from Dayton to Cincinnati, an **initial road** at Cincinnati, with the right to make rates to that place, Cincinnati must be treated as point upon line for the purpose of **proceeding** against the company for unjust discrimination in furnishing coal cars. *Id.*

87. **Carrier**, charged with unjust discrimination, may show that it made extra **exertions** in good faith to obtain cars for shipper from connecting line to whom shipper had to look for such cars. *Riddle v. Baltimore & O. R. Co.* 701, 778.

88. In absence of custom, carrier need not **notify shipper** that it can not obtain cars for his freight; it is the duty of the shipper to obtain this information for himself. *Id.*

89. Refusal to carry coal—*Heck v. East Tennessee, Va. & Ga. R. Co. et al.* 498, 775.

90. Transportation of lumber—*Missouri & Ill. Tie & Lumber Co. v. Cape Girardeau & Southwestern R. Co.* 292.

91. Dakota wheat—*Holbrook v. St. Paul, Minneapolis & Manitoba R. Co.* 815, 828.

92. Manitoba wheat—*Derby v. St. Paul, Minneapolis & Manitoba R. Co.* 815.

V. REFUSAL TO AFFORD FACILITIES TO CONNECTING LINES.

93. Interchange of traffic—*Western & Atlantic R. Co. v. East Tenn., Va. & Ga. R. Co.* 488; *Worcester Excursion Car Co. v. Pennsylvania R. Co.* 811.

94. Burton Stock Car Company, which furnishes stock cars to shippers over railroad, does not exchange with or use cars belonging to others, and is not a connecting line entitled to equal facilities for interchange of traffic under section 8, par. 2, of Act. *Burton Stock Car Co. v. Chicago etc. R. R. Co.* 329.

95. Such company is not unjustly discriminated against by refusal of railroad companies to pay same rate of mileage for its cars as for ordinary freight cars. *Id.*

96. Customary mileage rate for freight cars of other railway companies used upon paying company's line, and which payment is, by interchange of cars, practically equalized among different roads, is not the measure of payment for the use of cars belonging to other persons than railroad companies. *Id.*

97. Charges by receiver of railroad in relation to interstate commerce business must be reasonable and just; and there can be no discrimination as to rates, charges or facilities for or against two connecting steamship lines. *Re Mallory* (U. S. C. Ct. Fla.) 294.

98. Refusal to interchange freight—*Owens v. Richmond & Danville R. Co.* 490, 492, 703;

Kentucky & Ind. Bridge Co. v. Louisville & Nashville R. Co. 708, 715.

99. Refusal to accept shipments of wheat unless billed to elevators—*Milwaukee Chamber of Commerce v. Chicago, M. & St. P. R. Co.* 795.

VI. CARRIAGE OF PASSENGERS.

100. It is an unjust discrimination to remove a **colored passenger** holding a first class ticket from a first class car, to a second class car, less clean and comfortable. *Heard v. Georgia R. Co.* 814, 719; *Council v. Western & Atlantic R. Co.* 292, 855, 688.

101. The separation of white and colored passengers is lawful if the accommodations are equal in all respects. *Id.*

102. The Commission declines to proceed on the plaintiff's claim for damages, for injuries done in his violent removal from car, leaving him his remedy in the courts. *Id.* 688.

103. Twenty-five dollars per 1,000 miles is not unreasonable rate for **milage ticket**. *Associated Wholesale Grocers v. Missouri Pac. R. Co.* 321, 898.

104. **Rate at which excursion or commutation tickets are sold does not entitle milage ticket purchaser to complain of unjust discrimination if charged a higher rate.** *Id.*

105. A sale of milage tickets to **commercial travelers** at lower prices than they are sold to public generally, is an unjust discrimination. *Id.*; *Larrison v. Chicago etc. R. R. Co.* 869.

106. A **release of liability** by commercial travelers is not a good consideration for such discrimination. *Id.* 869.

107. Section 2 of Act prohibits giving of **passes** to particular persons, and the exception allowed in section 22 in favor of officers and employees of road does not include the families of such persons. *Ex parte Koehler* (U. S. C. Ct.) 317.

108. In the absence of an actual case, the Commission will not pass upon the question of passes to the United States Fish Commission. *Re U. S. Commission of Fish and Fisheries*, 606.

109. Use of by Territorial Judge of Dakota. *Tuttle v. Northern Pacific R. Co.* 483, 588.

110. Complaint. *Dexter v. Chicago, B. & Q. R. Co.* 598.

111. **Land explorers** and settlers are not entitled to lower rates than the general public. *Smith v. Northern Pac. R. R. Co.* 611.

112. Rates may be reduced for **religious teachers** and as act of charity. *Re Religious Teachers*, 21.

113. **Emigrants** from Castle Garden, New York City. *Savery v. New York Central & H. R. R. Co.* 695; *Savery v. Trunk Lines*, 483.

114. **Fares.** Half rate. *Re Inmates of Nat. Homes*, 75.

115. Passenger rates between Hot Springs and Arika, N. C. *Hot Springs v. Western North Carolina R. Co.* 816.

116. **Tickets.** Through passenger. *Chicago & Alton R. Co. v. Pa. R. Co.* 291, 293, 357.

INTER 8.

117. Complaint by ticket broker, having no apparent interest in transaction, alleging discrimination in allowing transfers of return portions of tickets, will not be entertained. *Ottinger v. Southern Pac. R. Co.* 607.

118. The Commission will not make rules as to **free baggage** until violation of Act is charged. *Re Order of Railway Conductors*, 18; *Traders & Travelers Union v. Phila. & Reading R. Co.* 18, 62, 315, 371.

119. The Commission has no jurisdiction in a case presented involving agreement between Traders & Travelers Union and certain carriers, for allowance of extra free baggage to passengers presenting "baggage indemnity certificate" issued by such Union under arrangement made prior to time when Act went into effect. *Id.* 371.

BRIEFS AND NOTES.

Discrimination; general rule; against localities; against specific article; character, quantity, **value of goods**; classification; underbidding; competition; furnishing cars; connecting lines; express companies; stations; yards; terminal facilities. *Note*, 859-867.

Difference in cost of service so as to justify reasonable difference in rates. 725.

Complainant has burden of proof. 724.

Carriage of **passengers**. *Note*, 867.

CLASSIFICATION OF FREIGHT.

See CHARGES AND DISCRIMINATION, 44-48.

COLORED PERSONS.

1. It is an unjust discrimination to **remove** a colored passenger holding a first class car ticket from **first class car** to a second class car, less clean and comfortable. *Heard v. Georgia R. Co.* 814, 719; *Council v. Western & Atlantic R. Co.* 292, 855, 688.

2. The **separation of white and colored passengers** is not unlawful if the accommodations are equal in all respects. *Id.*

3. The Commission declined to proceed on plaintiff's claim for **damages**, for injuries done in his violent removal from car, leaving him his remedy in the courts. *Id.* 688.

COMBINATIONS.

1. Any **one member** of a joint combination may **file** copies of joint **tariff** for all the members. *Re Filing Copies of Joint Tariff*, 76.

2. Complaint against Trunk Lines alleging combinations to **exclude** emigrant company from **interviewing emigrants** at Castle Garden, New York City. *Savery v. Trunk Lines*, 483.

COMMERCE.

I. **POWER OF CONGRESS.**

II. **STATE POWERS AND RESTRICTIONS.**

a. *Interstate Commerce Generally.*

b. *License Tax upon Nonresidents.*

c. *Police Regulations.*

d. *Foreign Corporations.*

III. **LINES WHOLLY WITHIN STATE; CONNECTING LINES; OTHER SUBJECTS OF INTERSTATE COMMERCE ACT.**

BRIEFS AND NOTES.

I. POWER OF CONGRESS.

1. Power to regulate interstate commerce vested in Congress is the power to prescribe the rules by which it shall be governed. *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 882.

2. The power of Congress is supreme over interstate commerce, unembarrassed by state laws. *Id.*; *Stockton v. Baltimore etc. R. R. Co.* (U. S. C. Ct., N. J.) 411. S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 838.

3. The failure of Congress to make express regulations indicates that the subject shall be free. *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 882; *Phila. etc. Steamship Co. v. Pennsylvania* (U. S. Sup. Ct.) 808; *Robbins v. Taxing District of Shelby Co.* (U. S. Sup. Ct.) 45; S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 839.

4. The control of navigable waters constituting channels of communication between States and foreign countries is within commercial power of Congress. Cited in *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 888; S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 840.

5. Power to regulate commerce between States extends to the erection of piers, bridges and all other instrumentalities of commerce which, in judgment of Congress, may be necessary or expedient. *Stockton v. Baltimore etc. R. R. Co.* (U. S. C. Ct. N. J.) 411.

6. Act of Congress of June 16, 1886, authorizing construction of bridge across Staten Island Sound, known as Arthur Kill, is valid under power of Congress to regulate interstate commerce. *Id.*; *Decker v. Baltimore & O. R. Co.* (U. S. C. Ct. N. Y.) 484.

7. Regulation of fares and freights for transportation between different States is within power of Congress. *Phila. etc. Steamship Co. v. Pennsylvania* (U. S. Sup. Ct.) 808.

II. STATE POWERS AND RESTRICTIONS.

a. Interstate Commerce Generally.

8. Interstate commerce consists of intercourse and traffic between citizens of different States, and includes the transportation of property and the navigation of public waters for that purpose, as well as the purchase, sale and exchange of commodities. *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 883. S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 839.

9. Transportation of property from one State to another is interstate commerce, whether carriers engaged in moving it or vehicles on which it is borne, cross line of State or not. *Ex parte Koehler* (U. S. C. Ct. Or.) 28.

10. A transportation of goods under one contract and by one voyage from the interior of Illinois to New York is interstate commerce. *Wabash etc. R. Co. v. People* (U. S. Sup. Ct.) 81.

11. In absence of interference by Congress a State may carry on works of a local character, although they necessarily more or

less affect interstate commerce. *Ouachita etc. Packet Co. v. Aiken* (U. S. Sup. Ct.) 879; *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 832.

12. A State can not regulate interstate commerce. *Wabash etc. R. Co. v. People* (U. S. Sup. Ct.) 81; *Western U. Tel. Co. v. Pendleton* (U. S. Sup. Ct.) 806.

13. A state tax upon interstate commerce is void. *Re Hennick* (Sup. Ct. D. C.) 66. S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 880.

14. A state law imposing such tax is not cured by including in its provisions subjects within jurisdiction of State. *Phila. etc. Steamship Co. v. Pennsylvania* (U. S. Sup. Ct.) 808; *Re Hennick* (Sup. Ct. D. C.) 70. S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 884.

15. No State can impose a tax upon that portion of interstate commerce which is involved in the transportation of persons and property, whatever be the instrumentality by which it is carried on. Cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 829. S. P. in *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 882.

16. The only state interference with the landing and receiving of passengers and freight which is permissible is confined to such measures as will prevent confusion among vessels and collision between them, and insure their safety and convenience and facilitate the discharge and receipt of passengers and freight. *Id.* 883.

17. State law requiring master of vessel engaged in foreign commerce to pay certain sum to state officer on account of each passenger brought from a foreign country is void. Cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 836.

18. Wharfage is subject to local state laws. Congress having passed no Act to regulate it. *Ouachita etc. Packet Co. v. Aiken* (U. S. Sup. Ct.) 879.

19. Charges for wharfage graduated by tonnage of vessels using wharf are not open to objection that they are duties on tonnage within meaning of Constitution. *Id.*

20. Where wharfage charges are reasonable it in no way concerns those who pay them what application is made of the proceeds. *Id.*

21. The appropriation of wharfage charges to maintain, extend, light and police the wharves is unobjectionable, although profits may be realized by lessees from the city which owns them. *Id.*

22. Goods brought into a State for sale, although they become thereby a part of the mass of its property, cannot be taxed by reason of their introduction into the State or because they are products of another State. Cited in *Phila. etc. Steamship Co. v. Pennsylvania* (U. S. Sup. Ct.) 811.

23. Illinois Act regulating transportation of goods under one contract to points beyond the State is unconstitutional. *Wabash, St. L. & P. R. Co. v. People* (U. S. Sup. Ct.) 81.

24. State tax upon gross receipts of

railroads for carriage of freight or passengers into, out of or through State, is void. *Fargo v. Stevens* (U. S. Sup. Ct.) 51.

25. **State tax upon earnings of sleeping car company** engaged in transporting passengers from one State to another is void. *Indiana v. Woodruff Sleeping & Parlor Coach Co.* (Sup. Ct. Ind.) 798. S. P. cited in *Wabash, St. Louis & P. R. Co. v. People* (U. S. Sup. Ct.) 37.

26. **A state tax upon a steamship company** upon gross receipts from transportation between different States, and to and from foreign countries, is unconstitutional. *Phila. etc. Steamship Co. v. Pennsylvania* (U. S. Sup. Ct.) 808.

27. The capital stock of a **foreign ferry company** engaged in interstate traffic is not taxable by State. *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 382.

28. A State may regulate the charges of **public warehouses**. Cited in Dis. Op. *Wabash etc. R. Co. v. People* (U. S. Sup. Ct.) 44.

29. Indiana Statute regulating mode in which **messages** sent by telegraph companies, doing business in that State, shall be delivered in other States is void. *Western U. Tel. Co. v. Pendleton* (U. S. Sup. Ct.) 806. S. P. cited in *Wabash etc. R. Co. v. People* (U. S. Sup. Ct.) 37.

30. Issuing policy of **insurance** is not interstate commerce. *List v. Pennsylvania* (Pa. Sup. Ct.) 784.

b. License Tax upon Nonresidents.

31. A license tax upon nonresident merchants, drummers or agents is **invalid**. *Robbins v. Tazewell District of Shelby Co.* (U. S. Sup. Ct.) 45; *Corson v. Maryland* (U. S. Sup. Ct.) 50; *Re Hennick* (D. C. Sup. Ct.) 66; *State v. Pratt* (Vt. Sup. Ct.) 299. S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 384.

c. Police Regulations.

32. Arkansas Act, 1885, February 27, **prohibiting greater charge than specified in bill of lading**, and imposing a penalty for refusal to deliver on payment or tender of charges as shown in such bill, is within police power of State. *Little Rock & F. S. R. Co. v. Hanniford* (Sup. Ct. Ark.) 580.

33. **Police power of State defined** and illustrated. Cited in *Id.* 581.

34. State cannot **under cover of exerting its police powers** substantially prohibit or burden interstate commerce. Cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 382.

35. State statute requiring locomotive **engineers** to be licensed is not regulation of interstate commerce. Cited in *Id.* 840. S. P. in *Smith v. Alabama* (U. S. Sup. Ct.) 804.

36. **Fee to be paid by applicant** for examination is not provision for raising revenue and is not tax upon transportation. *Id.* 804.

37. **State statute** which conflicts with common-law exercise of powers of Congress INTER S.

over commerce must **give way** to supremacy of national authority. *Id.*

38. Rhode Island, Public Statute, chap. 634, § 1, **prohibiting the keeping of intoxicating liquors** for sale is not obnoxious to Federal Constitution conferring exclusive power to regulate commerce upon Congress. *State v. Fitzpatrick* (Sup. Ct. R. I.) 718. S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 385.

39. Iowa Code, § 1553, **forbidding carrier to bring into State** intoxicating liquors without first having certificate therein required is regulation of commerce and void. *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 388.

40. It is not legitimate exercise of police power. *Id.*

41. **Prohibiting driving or conveying of certain cattle into State** between certain days in each year is void as regulation of commerce, and is not legitimate exercise of police power. Cited in *Id.* 382.

42. Under police power, State may **prohibit** spread of crime or pauperism or disturbance of the peace; it may exclude from its limits convicts, paupers, idiots and lunatics, as well as persons afflicted with contagious diseases. Cited in *Id.*

d. Foreign Corporations.

43. State Legislature may prescribe **conditions** upon which foreign corporation may do business, unless engaged in interstate commerce. *List v. Pennsylvania* (Pa. Sup. Ct.) 784; *Indiana v. Woodruff Sleeping & Parlor Coach Co.* (Sup. Ct. Ind.) 798; *Stockton v. Baltimore etc. R. Co.* (U. S. C. Ct. N. J.) 411. Cited in *Barron v. Burnside* (U. S. Sup. Ct.) 295.

44. Congress can confer upon a state corporation **powers** not contained in its original charter. *Stockton v. Baltimore etc. R. Co.* (U. S. C. Ct. N. J.) 411.

45. Louisiana Constitution, § 286, **providing** that a foreign corporation shall have a place of business and an agent upon whom service may be made within the State, is void as a restriction on navigation. *New Orleans & M. Packet Co. v. James* (U. S. C. C. La.) 599.

46. Iowa Act of April 16, 1886, seeking to make the right of foreign corporations to transact business in that State dependent upon **surrender of right to remove causes** to federal courts, is invalid. *Barron v. Burnside* (U. S. Sup. Ct.) 295.

47. A corporation is a citizen of the State by which created, so far as its right to sue and be sued in the federal courts is concerned. *Id.*

III. LINES WHOLLY WITHIN STATE; CONNECTING LINES; OTHER SUBJECTS OF INTERSTATE COMMERCE ACT.

48. The word "line" in the Act to Regulate Commerce means a **physical line**, not a business arrangement. *Boston & A. R. Co. v. Boston & L. R. Co.* 571.

49. **Short road** used as means of conducting interstate traffic in coal by companies owning **connecting** interstate roads is sub-

ject to Act to Regulate Commerce. *Heck v. East Tennessee, V. & G. R. Co.* 775.

50. Such road must be accessible to interstate shippers on equal and reasonable terms, and cannot be used to discriminate between mine owners on its line. *Id.*

51. Knowledge of carrier, whose line is wholly within State, that the ultimate destination of freight is without State will not make it subject to Interstate Commerce Act. *Missouri etc. Lumber Co. v. Cape Girardeau & S. R. Co.* 607.

52. Bills of lading over connecting lines to points beyond the State, issued by a railroad whose line is entirely within one State, are subjects of interstate commerce. *Re Annapolis, W. & B. R. Co.* 315.

53. Interstate Commerce Act does not apply to carriage wholly within a State of property shipped from or destined to a point without, not in a foreign country. *Ex parte Koehler* (U. S. C. C. Or.) 28.

54. Express business conducted by a railroad company is within the Interstate Commerce Act; *aliter* as to independent express companies. *Re Express Companies*, 22, 317, 363, 448, 451, 456, 677.

55. Communication that bridge company discriminates against bicyclers. *Re Kenton Wheel Club of Covington*, 28.

BRIEFS AND NOTES.

Power of Congress; how far exclusive. *Notes*, 309, 351; 31, 786, 825; (U. S. Sup. Ct.) 45-53, 307, 382; (U. S. C. Ct.) 411, 427; (Sup. Ct. D. C.) 66-69.

Power of Congress to regulate navigation. (U. S. C. Ct. N. Y.) 421, 435.

State powers and restrictions. *Note*, 853.

State tax upon interstate commerce is void. (U. S. Sup. Ct.) 45-53, 307, 382; 779, 800; (Sup. Ct. D. C.) 63-69.

It makes no difference whether such commerce is carried on by individuals or corporations. 801.

Tax on fares is tax on passengers. 800.

State quarantine laws do not derive validity from their adoption by Congress. 807.

State police powers. *Note*, 853.

State possesses power to adopt police regulations. 825.

State laws prohibiting manufacture of intoxicating liquors are valid police regulations. 825.

State may exercise its police power, even when it incidentally operates upon commerce. 806.

What is interstate commerce. *Note*, 853.

Transportation of passengers from one State to another is. 806.

Business of ferriage between different States. (U. S. Sup. Ct.) 384.

Telegraphing from one State to another is. (U. S. Sup. Ct.) 307.

Foreign corporations; rights and privileges. (U. S. Sup. Ct.) 295.

INTER S.

State law impairing right of removal to federal court, as condition of doing business, is void. *Id.*

Lines within Act—Lines wholly within State; "common control, management or arrangement for continuous carriage;" Interstate Commerce Act, § 1; English Regulation of Railways Act of 1873, § 11. *Note*, 853.

COMMERCIAL TRAVELERS. See COMMERCE, II, b.

1. A sale of mileage tickets to commercial travelers at a rate lower than to other passengers is an unjust discrimination. *Associated Wholesale Grocers v. Missouri Pacific R. Co.* 321, 398; *Larrison v. Chicago etc. R. R. Co.* 369.

2. A release of liability by commercial travelers is not a good consideration for such discrimination. *Id.* 369.

COMMISSION. (THE INTERSTATE COMMERCE.) See RULES; RULINGS.

1. Commission has no jurisdiction in a case presented involving agreement between Traders & Travelers Union and certain carriers, for allowance of extra free baggage to passengers presenting "baggage indemnity certificate" issued by such Union, under arrangement made prior to time when Act went into effect. *Traders & Travelers Union v. Phila. etc. R. R. Co.* 371.

2. The Commission has no authority to call a railroad company to account for a wrong committed prior to time when Act went into effect. *Holbrook v. St. Paul, M. & M. R. Co.* 323.

3. The Commission can not construe the Act before violation thereof charged. *Re Order of Railway Conductors*, 18; *Re Theatrical Rates*, 18; *Re Inmates of Nat. Homes*, 73, 75.

4. In the absence of an actual case, the Commission will not pass upon the question of passes to the United States Fish Commission. *Re United States Commission of Fish and Fisheries*, 606.

5. The Commission has no power to make rates generally, but only to determine whether rates imposed by railroads are in conflict with statute. *Thatcher v. Fitchburg R. R. Co.* 365.

6. The Commission has no power to enforce contracts, nor has it any general power to manage business of carriers. *Traders & Travelers Union v. Phila. etc. R. R. Co.* 371.

7. The Commission has only a limited power, expressly defined by the Act, to interfere to prevent wrong and oppression in specified cases. *Id.*; *Re Iowa Barb Steel Wire Co.* 605.

8. While the Act authorizes the Commission to permit exceptions, it does not authorize it to require exceptions. *Thatcher v. Fitchburg R. R. Co.* 356.

9. Where the complaint does not state a case within its jurisdiction, the Commission will not express an opinion. *Re Iowa Barb Steel Wire Co.* 605.

10. The Commission will not make any ruling where petitioner alleges legal-

ty of practice sought to be authorized. *Re Export Trade of Boston*, 25.

11. The Commission does **not report cumulative evidence** or mere details of evidence already embraced in substantial facts stated, upon which its findings are made. *Riddle v. Pittsburgh & L. E. R. Co.* 778.

COMMON LAW.

There is no common law of the **United States** distinct from the common law of England as adopted by the several States, each for itself, applied as its local law, and subject to such alteration as may be provided by its own statutes. Cited in *Smith v. Alabama* (U. S. Sup. Ct.) 808.

COMMUTATION TICKET. See TICKETS, 6.

COMPETITION.

That there is competition in carriage of persons or property to or from a particular place, is a circumstance that **justifies** a carrier, under section 4, to **charge less for a long haul** to or from such place, than a short one included therein. *Ex parte Koehler* (U. S. C. Ct. Or.) 817; *Re Southern R. & S. Assn.* 278.

COMPLAINT. See PLEADING AND PRACTICE, I.

CONDEMNATION PROCEEDINGS. See EMINENT DOMAIN.

CONNECTING LINES. See CHARGES AND DISCRIMINATION, V.

1. The Interstate Commerce Act **only applies to such carriers as use a railway or a railway and water craft under common control or management for a continuous carriage or shipment of property from one State to another.** *Ex parte Koehler* (U. S. C. Ct. Or.) 28.

2. The Act does **not apply to railroad wholly within State, joining with connecting steamers** in independent although concurrent reduction of rates, unless goods are going to or from a foreign country. *Id.*

8. *Burton Stock Car Company*, which furnishes stock cars to shippers over railroad, does **not exchange with or use cars belonging to others, and is not a connecting line** entitled to equal facilities for interchange of traffic under section 3, par. 2, of Act. *Burton Stock Car Co. v. Chicago etc. R. R. Co.* 829.

4. **Such company is not unjustly discriminated against** by refusal of railroad companies to pay same rate of mileage for its cars as for ordinary freight cars. *Id.*

5. A carrier is **not liable for rates made by a connecting road.** *Allen v. Louisville, N. A. & O. R. Co.* 621; *Crews v. Richmond & D. R. Co.* 703.

6. Where in a proceeding against several connecting roads for violation of section 4, one claims that its only participation consisted in **sharing in low charges on long haul**, complaint should not be dismissed as against it. *Boston & A. R. R. Co. v. Boston & L. R. R. Co.* 571.

INTER S.

7. In absence of statutory authority, one railroad company can **sell tickets over road of another company only by agreement.** *Chicago & A. R. R. Co. v. Pennsylvania Co.* 857.

8. The Act does **not require** one company to **sell through tickets** over road of another. *Id.*

9. Railroad companies **may forbid** their agents to receive commissions for **sale of tickets** over other companies' roads. *Id.*

10. The practice of **one company's paying the agents of another company a commission for selling tickets** over former's road is not reasonable or proper. *Id.*

CONSTITUTIONAL LAW. See COMMERCE.

1. **Arkansas Act**, 1885, February 27, prohibiting greater charge by a carrier for transportation of freight than specified in bill of lading, and imposing a penalty for refusal to deliver on payment or tender of charges as shown in such bill, is not special legislation, nor a regulation of interstate commerce, but **within police power** of State. *Little Rock & F. S. R. Co. v. Hanniford* (Sup. Ct. Ark.) 580.

2. An Act being general and uniform in its operation, upon all persons coming within the class to which it belongs, is not special. Cited in *Id.* 581.

BRIEFS AND NOTES.

Constitutionality of part of Act. (U. S. Sup. Ct.) 296.

CONSTRUCTION. See ACT TO REGULATE COMMERCE.

CONTINUANCE AND ADJOURNMENT.

Adjournment and extension of time is within discretion of Commission. *Rule 7, Appendix I*, 843.

CONTINUOUS CARRIAGE.

Complaint alleging interruption of continuous carriage in violation of section 7. *Plummer v. Union Pac. R. Co.* 596; *Raymond v. Chicago, B. & Q. R. R. Co.* 592.

CONTRACTS.

The Commission has **no power to enforce contracts.** *Traders & Travelers Union v. Phila. etc. R. Co.* 371.

CORPORATIONS. See COMMERCE, II, d.

COURTS. See APPEAL AND ERROR.

1. The jurisdiction of **federal courts** cannot be affected by state legislation. *Barron v. Burnside* (U. S. Sup. Ct.) 295.

2. A **corporation** is a citizen of the State by which created, so far as its right to sue and be sued in the federal courts is concerned. *Id.*

CUSTOM AND USAGE.

That a railway company for some time paid **cost of hauling coal from complainant's wharf to station** is not ground for compelling such payment by the company. *Providence Coal Co. v. Providence & W. R. Co.* 863.

DAMAGES.

A claim for pecuniary damages entitles the defendant to a jury trial, and the Interstate Commerce Commission will not consider it. *Peck v. East Tennessee, V. & G. R. Co.* 775; *Council v. Western & A. R. Co.* 292, 355, 688; *Riddle v. New York, L. E. & W. R. Co.* 787.

DEFINITIONS. See CHARGES AND DISCRIMINATION, 17; COMMERCE, 8, 33.

Interstate commerce. *Ex parte Koehler* (U. S. C. Ct. Or.) 28; *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 882. S. P. cited in *Bowman v. Chicago & N. W. R. Co.* (U. S. Sup. Ct.) 880.

BRIEFS AND NOTES.

Interstate commerce; what is. *Notes*, 858; (U. S. C. Ct. N. J.) 420.

Power to regulate. (U. S. C. Ct. N. J.) 420.

DEPARTMENT OF STATISTICS.

Creation of, by Commission; auditor appointed. 854.

DEPOSITIONS.

Depositions may be taken as provided by U. S. R. S., §§ 863, 864, without application to Commission. *Rule 9* as amended. *Appendix II*, 848, 410.

DEPOTS.

Carriers cannot make the yards of a certain company their exclusive stock depot at a certain place, there being other stock yards near by charging lower rates. *Keith v. Kentucky Cent. R. R. Co.* 601.

DISCOUNT. See REBATE.

DISCRIMINATION. See CHARGES AND DISCRIMINATION.

DISMISSAL AND DISCONTINUANCE.

1. Motion for, may be made at hearing. *Rule 6, Appendix I*, 848.

2. Leave should be granted to withdraw petition when petitioner alleges legality of practice sought to be authorized. *Re Report Trade of Boston*, 25.

3. Where no overt acts of misconduct on part of defendant railroad appears, the Commission has no discretion but to dismiss complaint. *Holbrook v. St. Paul, M. & M. R. Co.* 828.

4. Petition charging exorbitant rates will be dismissed where rates are reduced before hearing. *Fulton v. Chicago etc. R. R. Co.* 875; *Harding v. Chicago etc. R. R. Co.* 875.

5. The pleadings presenting issues of fact and no evidence being presented, the case will be dismissed. *Leonard v. Union Pac. R. Co.* 627.

6. Upon failure of complainant to appear at hearing, complaint will be dismissed. *Jackson v. St. Louis, A. & T. R. Co.* 599.

7. Complaint for over charge withdrawn where complainants receipt in full settlement for over charges was shown by respondent. *Stahl v. Oregon R. & Nav. Co.* 814.

INTER 8.

DRUMMERS. See COMMERCE, II, b; COMMERCIAL TRAVELERS.

EMIGRANTS. See CHARGES AND DISCRIMINATION, 118.

EMINENT DOMAIN.

United States may condemn land within State without consent of State. *Stockton v. Baltimore etc. R. Co.* (U. S. C. Ct. N. J.) 411.

BRIEFS AND NOTES.

Exercise of right of, by United States, without consent of State. (U. S. C. Ct. N. J.) 426.

Right to compensation. (U. S. C. Ct. N. J.) 414.

EMPLOYEES.

Section 2 of the Act prohibits giving of passes to particular persons; and the exception allowed in section 23 in favor of officers and employees of road does not include the families of such persons. *Ex parte Koehler* (U. S. C. Ct.) 817.

ERROR. See APPEAL AND ERROR.

EVIDENCE. See DEPOSITIONS; TESTIMONY.

1. The burden of proof is on petitioner charging exaction of unreasonable rates. *Harding v. Chicago etc. R. Co.* 875.

2. In case of complaint for violation of section 4 of Act, the burden of proof is on the carrier to justify any departure from the general rule prescribed by statute, by showing that circumstances and conditions are dissimilar. *Re Southern R. & S. Assn.* 278.

EXCURSION TICKETS.

Rate at which excursion tickets are sold does not entitle mileage ticket purchaser to complain of unjust discrimination if charged a higher rate. *Assn. Wholesale Grocers v. Missouri Pacific R. Co.* 898.

EXPRESS COMPANIES.

1. Express business conducted by a railroad company is within the Interstate Commerce Act; *aliter* as to independent express companies. *Re Express Companies*, 22, 677.

2. Pleadings, etc. 817, 863, 448, 451, 456.

FARES. See RATES.

FEDERAL COURTS. See COURTS.

FERRIES. See COMMERCE, 27.

A ferry is a means of commercial intercourse between States, bordering upon dividing waters, and it must be conducted without imposition by States of taxes upon the commerce between them. *Gloucester Ferry Co. v. Pennsylvania* (U. S. Sup. Ct.) 883.

FISH AND FISHERIES.

The transportation of fish and eggs, distributed by the United States Commission of Fish and Fisheries, is within the exception of section 23 of the Act. *Re United States Commission of Fish and Fisheries*, 609.

FOREIGN CORPORATIONS. See COMMERCE, II, d.

FOURTH SECTION. See LONG AND SHORT HAUL.

FREE PASSES. See PASSES.

HEARING. See CONTINUANCE AND ADJOURNMENT; REHEARING; RULES, 4, 10.

1. Carrier deeming complaint insufficient may serve notice for hearing on complaint without answer, and facts stated are admitted. Motion to dismiss for insufficiency may be made at hearing. *Rule 6, Appendix I, 842.*

2. Final hearings shall be had forthwith without dilatory motions, etc. *Associated Wholesale Grocers v. Missouri Pac. R. Co. 321*

3. Upon failure of complainant to appear at hearing, complaint will be dismissed. *Jackson v. St. Louis, A. & T. R. Co. 599.*

IMMIGRATION. See COMMERCE, 42.

INSURANCE. See COMMERCE, 30.

INTERCHANGE OF TRAFFIC. See CHARGES AND DISCRIMINATION, V.

INTERSTATE COMMERCE. See COMMERCE.

INTERSTATE COMMERCE ACT. See ACT TO REGULATE COMMERCE.

INTERSTATE COMMERCE COMMISSION. See COMMISSION.

INTOXICATING LIQUORS. See COMMERCE, 38-40.

JOINT TARIFF.

1. Joint tariffs to be printed in ordinary type, and copies kept at every depot or station upon the line of the carriers uniting therein. *Order as to Publication of Joint Tariffs, 598.*

2. Any one member of a joint combination may file copies of joint tariff for all the members. *Re Filing Copies of Joint Tariff, 76.*

JURISDICTION. See CHARGES AND DISCRIMINATION, 119; COMMISSION; CONTRACTS; COURTS; DAMAGES.

JURY.

A claim for pecuniary damages entitles the plaintiff to a jury trial and the Interstate Commerce Commission will not consider it. *Peck v. East Tennessee, V. & G. R. Co. 775; Council v. Western & A. R. Co. 638; Riddle v. New York, L. E. & W. R. Co. 787.*

LAND EXPLORERS.

Land explorers and settlers are not entitled to lower rates than the general public. *Smith v. Northern Pac. R. Co. 611.*

LICENSE. See COMMERCE, II, b; 35, 36.

LIVE STOCK.

1. Carriers cannot make the yards of a certain company their exclusive stock depot at a certain place, there being other stock yards near by charging lower rates. *Keith v. Kentucky Cent. R. Co. 316, 301.*

2. Conveyed in Burton stock cars, rates for. INTER 8.

Burton Stock Car Co. v. Chicago, B. & Q. R. Co. 329.

LONG AND SHORT HAUL.

I. GENERAL RULES; CIRCUMSTANCES JUSTIFYING GREATER CHARGE FOR LESSER HAUL; COMPLAINTS FOR VIOLATION OF SECTION 4.

II. SUSPENSION OF FOURTH SECTION.

III. APPLICATIONS FOR SUSPENSION. BRIEFS AND NOTES.

I. GENERAL RULES; CIRCUMSTANCES JUSTIFYING GREATER CHARGE FOR LESSER HAUL; COMPLAINTS FOR VIOLATION OF SECTION 4.

1. Circular as to short haul rates. 601.

2. The joint rates on long hauls usually are, and should be, proportionately lower than local rates on short hauls. *Farrar v. East Tennessee, V. & G. R. Co. 764.*

3. The Act to Regulate Commerce aids the rule making the aggregate charge of transportation of freight less in proportion every hundred miles after the first. *Id.*

4. The prohibition in section 4 of the Interstate Commerce Act is limited to cases in which circumstances and conditions are substantially similar. *Re Southern R. & S. Assn. 278.*

5. Carriers are required to judge in the first instance with regard to the similarity or dissimilarity of the circumstances or conditions that forbid or permit a greater charge for a shorter distance. *Id.*

6. Judgment of carriers in respect to circumstances and conditions is not final and is subject to authority of the Commission and of the courts to decide whether error has been committed or statute violated. *Id.*

7. In case of complaint for violation of section 4, the burden of proof is on the carrier to justify any departure from the general rule prescribed by statute, by showing that circumstances and conditions are dissimilar. *Id.*

8. Section 1, requiring charges to be reasonable, and section 2, forbidding unjust discrimination, apply when exceptional charges are made under section 4, as they do in other cases. *Id.*

9. The existence of actual competition which is of controlling force may, in certain cases, make out the dissimilar conditions entitling the carrier to charge less for longer than for shorter haul. *Id.; Ex parte Koehler, (U. S. C. Ct. Or.) 817; Harwell v. Columbus & W. R. Co. 631.*

10. That railroads have water competition, and are obliged to meet it, is not in itself sufficient to justify the lesser charge for the greater distance. *Id. 631.*

11. It is not a justification for charging more for a shorter than for a longer distance that the traffic which is subjected to such greater charge is way or local traffic; nor that the shorter haul traffic is more expensive to the carrier; nor that the lesser charge has for its motive the encouragement of manufactures or some other branch of industry; nor that it is designed to build up trade

centers; nor that the lesser charge for the longer haul is merely a continuation of favorable rates under which trade centers or industries have been built up. *Re Southern R. & Steamship Assn.* 278.

12. The fact that long haul traffic will only bear certain rates is not reason for carrying it for less than cost at expense of other traffic. *Id.*

13. The "circumstances and conditions" touching transportation to and from Mexico through El Paso, Texas, by Texas & Pacific R. Co., are so substantially different from those surrounding transportation to other points as to justify the establishment of lower rates than charged at points where the distance and haul are shorter. *Re Texas etc. R. Co.* (U. S. C. Ct. La.) 80.

14. Where in proceeding against several connecting roads for violation of section 4, one claims that its only participation consisted in sharing in low charges on long haul, complaint should not be dismissed against it. *Boston & A. R. R. Co. v. Boston & L. R. R. Co.* 571.

15. The sole grievance of petitioning road in such case being that defendant company accepted through traffic at lower rates than itself, the petitioner has no standing to maintain the proceeding. *Id.*

16. The desire to have the Act construed will not support such proceedings. *Id.*

17. The right to make greater charges for short than for long haul depends upon peculiar circumstances and conditions in each case. *Id.*

18. Complainant must not necessarily have pecuniary interest to be entitled to be heard. *Id.*

19. The Vermont State Grange has such interest that it may raise the question and the proceeding is maintainable upon its petition. *Id.*

20. Where several companies join in joint tariff, those making greater charges must justify it. *Id.*

21. Defendant companies permitting through business to be done over their tracks, by the National Despatch Line, are responsible for long haul rates. *Id.*

22. A complaint, in effect asking from the Commission an order requiring defendant roads to receive freight at Schenectady for transportation to Boston, for rates less than are now charged by some roads for transportation of like freights to Boston from stations nearer Boston, under substantially similar circumstances and conditions must be dismissed. *Thatcher v. Fitchburg R. Co.* 856.

23. Complaints for violation. *Allen v. Louisville, New Albany & C. R. Co.* 586, 621; *Boston & Albany R. Co. v. Boston & Lowell R. Co.* 291, 400, 500, 557, 571; *Business Assn. of Minnesota v. Chicago, & N. W. R. Co.* 483; *Same v. Chicago, St. P. M. & O. R. Co.* 483, 591; *Farrar v. East Tennessee, Va. & Ga. R. Co. et al.* 754; *Friend v. Southern Pacific R. Co. et al.* 58, *Koehler Re*, 817; *Raymond v. Chicago, B. & Q. R. Co.* 592.

INTER 8.

II. SUSPENSION OF FOURTH SECTION.

24. Order for suspension must be based upon investigation. *Jurisdiction of Commission*, 73.

25. The cases in which the Commission is authorized to make orders for suspension of operation of Act are exceptional. *Id.*

26. Mere probability that injury will result will not authorize Commission to direct suspension. *Id.*

27. The Act does not authorize the Commission to require exceptions. *Thatcher v. Fitchburg R. Co.* 856.

28. The Commission will not grant a general suspension of section 4 of Act, but will give relief only as to traffic between specified points. *Re Richmond etc. R. R. Co.* 32.

As to Particular Roads.

29. Atchison, Topeka & Santa Fé R. Co. 1, 27, 58; Cape Fear & Yadkin Valley R. Co. 31; Cincinnati, N. O. & T. P. R. Co. 28; Detroit, Grand Haven & Milwaukee R. Co. 17; Illinois Central R. Co. 21; Louisville & Nashville R. Co. 278; Louisville, N. O. & T. R. Co. 21; Newport News & Miss. Valley R. Co. 21; New York, Phila. & Norfolk R. Co. 21; Norfolk & Western R. II. ANSWERS.

III. AMENDMENT.

IV. PRACTICE.

BRIEFS AND NOTES.

See AFFIDAVITS; COMMISSION; DEPOSITIONS; DISMISSAL AND DISCONTINUANCE; HEARING; JURY; REHEARING; RULES.

FOR PLEADINGS under various sections of Act, See various TITLES.

I. COMPLAINT; PARTIES.

1. **Complaint under section 13** must be by petition, stating facts claimed to be a violation of the Act, and verified; as many written or printed copies of the complaint must be presented as there may be respondents; names and addresses must be set forth and indorsed upon the writ; and a copy is to be served upon each respondent by mail or personally with notice, to satisfy the complaint or answer within time specified. *Rule 4, Appendix I, 841.*

2. Application for exception under Act will only be granted after investigation upon verified petition. 15; *Re Southern Pac. R. R. Co. 16.*

3. Carrier must be made a party where merit of controversy cannot be determined without it. *Riddle v. Pittsburgh & L. E. R. Co. 778.*

4. To test the reasonableness of a through rate, all the roads responsible for it should be made defendants. *Allen v. Louisville, N. A. & O. R. Co. 621.*

5. The person aggrieved should complain in his own name; a complaint by a ticket broker having no interest in the transaction will not be entertained. *Ottinger v. Southern Pac. R. R. Co. 607.*

II. ANSWERS.

6. Answers, verified, must be filed with the Commission within twenty days from notice, unless a shorter time is prescribed, and a copy served upon complainant. *Rule 5, Appendix I, 841.*

7. If respondent makes satisfaction before answering, the written acknowledgment thereof must be filed and may be set forth in answer; if made after service of answer, a supplemental answer may be filed. *Id. 842.*

8. Upon failure to answer, the Commission will take proof and make order. *Rule 8, Id. 842.*

III. AMENDMENT.

9. Pleadings may be amended in discretion of Commission. *Rule 10, Appendix I, 842.*

10. Practice of the Commission in allowing amendments is to be limited under rules of law; amendments to complaint, introducing new charges, not allowed. *Riddle v. Baltimore & O. R. R. Co. 701.*

11. Complaint against railroad company stating that it had been previously in the hands of a receiver who was now president, was allowed to be amended so as to show existence of receivership which it appeared on hearing was still in existence. *Reynolds v. Western New York & P. R. Co. 685.*

IV. PRACTICE.

12. Powers and proceedings of Commission. *Letter of Chairman Cooley, 408.*

13. Practice and proceedings shall be as simple as possible. *Associated Wholesale Grocers v. Missouri P. R. Co. 821.*

14. Letter of Chairman Cooley in response to communication expressing desire that Commission

would go to certain State and there hear testimony in certain cases then pending at issue, and such other cases as may have arisen in that State; suggestion in letter that facts be put in writing and that counsel make diligent effort to bring within smallest possible compass the necessity for oral evidence. 446.

15. Orders for suspension must be based upon investigation. *Jurisdiction of Commission, 78.*

16. Leave should be granted to withdraw petition when petitioner alleges legality of practice sought to be authorized. *Re Export Trade of Boston, 25.*

17. If, at hearing, defendant company avows purpose to comply with law, the Commission must act upon the assumption that defendant will do so, until it has evidence that the purpose is not lived up to. *Holbrook v. St. Paul, M. & M. R. Co. 838.*

18. A motion to dismiss a complaint denied because no notice of motion had been given and the object of the motion was to reach the merits of the case and to have them passed upon summarily instead of at final hearing. *Associated Wholesale Grocers v. Missouri P. R. Co. 821.*

19. Where after the examination of the evidence upon a complaint charging unjust discrimination and unlawful preference in tariff of rates, but before the announcement of the opinion, the respondent conceded the relief sought and published a tariff of rates in accordance with the complaint, the Commission only made a report to complete the record of the case. *Manufacturers & Jobbers Union v. Minneapolis & St. L. R. Co. 630.*

20. When an important question is raised by the pleadings, but the parties neither by evidence nor by argument supply the Commission with information as to it, it will not be decided. *Rice v. Louisville & N. R. Co. 723.*

BRIEFS AND NOTES.

Rules of practice. *Notes, 872.*

POLICE REGULATIONS. See COMMERCE, II, c.

PRACTICE. See PLEADING AND PRACTICE, IV.

RAILROAD COMPANIES. See AGENTS AND BROKERS; BAGGAGE; BILL OF LADING; CHARGES AND DISCRIMINATION; COMMERCE; CONNECTING LINES; LONG AND SHORT HAUL; PASSENGERS; RATES.

RATES. See CHARGES AND DISCRIMINATION; SCHEDULES.

1. The Commission has no power to make rates generally, but only to determine whether rates imposed by railroads are in conflict with statute. *Thatcher v. Fitchburg R. R. Co. 856; Re Theatrical Rates, 18.*

2. But the Commission has power to regulate fares and freights for transportation between different States. *Phila. etc. Steamship Co. v. Pennsylvania (U. S. Sup. Ct.) 308.*

3. A state statute cannot regulate rates

for interstate commerce. *Wabash etc. R. Co. v. People* (U. S. Sup. Ct.) 31.

4. Rates should be so **relatively reasonable** as to protect communities and business against unjust discrimination. *Boards of Trade Union v. Chicago, M. & St. P. R. Co.* 608.

5. A carrier operating **parallel lines**, and accepting lower rates on one line, should make corresponding charges on other line. *Id.*

6. Rates are not to be lower for **commercial travelers** than for general public. *Associated Wholesale Grocers v. Missouri Pacific R. Co.* 321, 398; *Larrison v. Chicago & Grand Trunk R. Co.* 369.

7. Nor for **land explorers** and settlers. *Smith v. Northern Pac. R. Co.* 611.

8. But may be reduced for **religious teachers** and as act of charity. *Re Religious Teachers*, 21.

9. A carrier may make **special rates** with individuals, to enable the latter to make proposals to the Interior Department for transportation of Indian supplies, such **transportation** being for the United States. *Re Indian Supplies*, 22.

10. Twenty-five dollars for 1,000 miles is not unreasonable for a **mileage ticket**. *Associated Wholesale Grocers v. Missouri Pacific R. Co.* 321, 398.

11. Carriers charged with exorbitant rates may **change rates before hearing**. *Fulton v. Chicago etc. R. Co.* 375.

REBATE.

A discount allowed by a railroad company where consignments of coal in one year shall amount to 80,000 tons or upwards is an unjust **discrimination**. *Providence Coal Co. v. Providence etc. R. R. Co.* 863.

REFUSAL TO FURNISH CARS. See CHARGES AND DISCRIMINATION, IV.

REHEARING.

The Commission will **not** order a rehearing involving expenses to parties, **unless** satisfied that the **result** might be **changed**. *Riddle v. Pittsburgh & L. E. R. Co.* 773.

RELIGIOUS TEACHERS.

Religious teachers may have reduced **rates**. *Re Religious Teachers*, 21.

REMOVAL OF CAUSES.

Iowa Act of April 6, 1886, seeking to make right of **foreign corporations** to transact business in that State dependent upon surrender of right to remove causes to federal courts, is invalid. *Barron v. Burnside* (U. S. Sup. Ct.) 295.

RIVERS. See NAVIGABLE WATERS.

RULES.

1. **Sessions** of Commission held at Washington No. 1315 F. St. northwest, at 11 o'clock, daily, except Saturdays and Sundays. When special sessions are held elsewhere, necessary regulations will be made. *Rule 1, Appendix I*, 841.

INTER 8.

2. **Applications under section 4** (Long and Short Haul section), to be made by verified **petition**, stating extent of relief desired and points between which authority is asked to charge less. *Rule 2, Id.*

3. **Notice** to be published by petitioner in two newspapers along line for ten days prior to presentation of petition, stating nature of relief applied for and time of presentation of application; proof of each publication to be filed with petition. *Id.*

4. **Investigation** will be made by **Commission** at time and place designated, where testimony will be received. *Rule 3, Id.*

5. **Complaint under section 13** must be by verified petition, stating facts claimed to be violation of Act; as many **copies** of complaint must be presented as there are respondents; **names and addresses of parties** must be set forth and indorsed upon writ; and copy is to be **served** upon each respondent, with notice to satisfy complaint or answer within time specified. *Rule 4, Id.*

6. **Answers**, verified, must be **filed** with Commission within twenty days from notice, unless shorter **time** is prescribed; and copy served upon complainant. *Rule 5, Id.*

7. If respondent makes satisfaction before answering, written acknowledgment thereof must be filed and may be set forth in answer; if made after service of answer, **supplemental answer** may be filed. *Id.* 842.

8. Carrier deeming complaint insufficient may serve notice for **hearing** on it **without answer**; facts stated are admitted. Motion to dismiss for insufficiency may be made at hearing. *Rule 6, Id.*

9. **Adjournment** and extension of time is within discretion of Commission. *Rule 7, Id.*

10. Upon **issue** being **joined**, time and place of **hearing** will be assigned; witnesses examined orally before Commission, except where otherwise ordered; petitioner has burden of proof. *Rule 8, Id.*

11. Upon **failure to answer**, the Commission will take proof and make order. *Id.*

12. **Subpenas** will be issued by any commissioner and will be required to be obeyed. *Rule 9, Id.*

13. **Depositions** may be taken as printed by U. S. R. 8., §§ 863, 864 without application to Commission. *Rule 9, as amended; Appendix II*, 843; 410.

14. **Amendments** of pleadings are in discretion of Commission. *Rule 10, Appendix I*, 843.

15. **Copies** of petition, opinion, etc., will be furnished upon payment of expense thereof. *Rule 11, Id.*

16. **Affidavits** may be taken before any officer authorized to administer oath. *Rule 12, Id.*

BRIEFS AND NOTES.

Rules of practice. *Note*, 872.

RULINGS.

1. The Commission will **not** make any ruling where **petitioner alleges legality**

of practice sought to be authorized. *Re Export Trade of Boston*, 25.

2. The Commission can not construe the Act before violation thereof charged. *Re Order of Railway Conductors*, 18; *Re Theatrical Rates*, 18; *Re Inmates of Nat. Homes*, 78, 75.

SCHEDULES.

1. When purposes of Act seem to be fully accomplished by rate sheets as printed, and no one complains, Commission may not feel inclined to interfere on its own motion where sheets are printed in smaller type than prescribed by Act. *Re Rate Sheets*, 816.

2. Any one member of a joint combination may file copies of joint tariff for all the members. 76.

3. Neglect to publish rates for mileage tickets is violation of Act. *Larrison v. Chicago etc. R. R. Co.* 369.

4. Complaint alleging violation of section 6. *Plummer v. Union Pac. R. Co.* 596.

SERVANTS. See EMPLOYEES.

SESSIONS. See RULES OF COURT, 1.

SETTLERS.

Land explorers and settlers are not entitled to lower rates than the general public. *Smith v. Northern Pac. R. R. Co.* 611.

SHIPPING FACILITIES. See CHARGES AND DISCRIMINATION, IV, V.

SHIPS AND SHIPPING. See COMMERCE, 17, 26.

SLEEPING CARS.

A state tax upon sleeping cars of a company, used in carrying passengers into and out of the State, is void as a regulation of interstate commerce. *Indiana v. Woodruff Sleeping & Parlor Coach Co.* (Ind. Sup. Ct.) 798; S. P. cited in *Wabash etc. R. Co. v. People* (U. S. Sup. Ct.) 81.

SPECIAL LAWS. See CONSTITUTIONAL LAW.

STATE. See COMMERCE, II.

STATIONS. See DEPOTS.

STATISTICS. See DEPARTMENT OF STATISTICS.

STATUTES. See ACT TO REGULATE COMMERCE; CONSTITUTIONAL LAW.

The Interstate Commerce Act does not afford a remedy for transactions occurring before it took effect. *Ottinger v. Southern Pac. R. Co.* 607.

SUBPENA. See RULES, 12.

SUSPENSION OF LONG AND SHORT HAUL SECTION (§ 4).
See LONG AND SHORT HAUL.

TARIFFS. See SCHEDULES, 2; JOINT TARIFFS.

TAXES. See COMMERCE, II.

TELEGRAPH COMPANIES.

1. Intercourse by telegraph between INTER 8.

States is interstate commerce, and State has no authority to regulate same. *Western Union Tel. Co. v. Pendleton* (U. S. Sup. Ct.) 806. S. P. cited in *Wabash etc. R. Co. v. People* (U. S. Sup. Ct.) 87.

2. Indiana Statute regulating mode in which messages sent by telegraph companies, doing business in that State, shall be delivered in other States, is void, as an interference with interstate commerce. *Western U. Tel. Co. v. Pendleton* (U. S. Sup. Ct.) 806.

TESTIMONY.

1. In matter of various petitions for suspension of section 4 in proceedings at Atlanta, Georgia. 76.

2. In proceedings at Mobile, 186; at New Orleans, 179; at Memphis, 218.

3. In *Boston & Albany R. R. Co. v. Boston & Lowell R. R. Co.* 500.

4. On application charging discrimination in favor of New York, in rates to Chicago, as against Boston. *Re Export Trade of Boston*, 18, 28.

5. In proceeding against Providence & Worcester Railroad Company for discrimination. *Providence Coal Co. v. Providence etc. R. R. Co.* 816.

6. In proceeding against Pennsylvania Railroad Company for unlawful preference in interchange of passengers at Chicago. *Chicago & Alton R. R. Co. v. Pennsylvania R. R. Co.* 293.

7. On petition charging refusal to furnish cars. *Re Thatcher*, 817.

8. On complaint against Western & Atlantic Railroad Company for damages for forcible ejectment from first class car of colored man holding first class ticket. *Council v. Western etc. R. R. Co.* 855.

THEATRICAL RATES.

The Commission will not say in advance of violation of Act what rates company shall make for any class or organization of persons. *Re Theatrical Rates*, 18.

TICKETS.

1. Carriers may continue issuance of mileage passenger tickets at reasonable prices, free from discrimination. *Larrison v. Chicago etc. R. Co.* 369.

2. Neglect to publish rates for mileage tickets is violation of Act. *Id.*

3. Twenty-five dollars per 1,000 miles is not an unreasonable rate for mileage ticket. *Associated Wholesale Grocers v. Missouri Pac. R. R. Co.* 898.

4. A sale of mileage tickets to commercial travelers at a lower rate than to other passengers is an unjust discrimination. *Id.*; *Larrison v. Chicago etc. R. R. Co.* 369.

5. A release of liability by commercial travelers is not a good consideration for such discrimination. *Id.*

6. Rate at which excursion or commutation tickets are sold does not entitle mileage ticket purchaser to complain of unjust discrimination if charged a higher rate. *Associated Wholesale Grocers v. Missouri Pac. R. R. Co.* 898.

7. The Act does not require **one company** to **sell** through **tickets** over road of **another**. *Chicago etc. R. R. Co. v. Pennsylvania Co.* 857.

UNDERBILLING. See CHARGES AND DISCRIMINATION, 44-48.

UNITED STATES.

1. United States may **condemn land** **with-**
in State without consent of State. *Stockton*
v. Baltimore etc. R. R. Co. (U. S. C. Ct. N. J.)
411.

2. Fish and eggs, distributed by the **United**
States Commission of Fish and Fisheries,
are entitled to **free transportation**.
Re United States Commission of Fish and Fish-
eries, 606.

3. In the absence of an actual case, the Com-
mission will not pass upon the question of
passes to the United States Fish Commission.
Id.

INTER 8.

4. A carrier may make **special rates** with
individuals to enable the latter to make pro-
posals to the Interior Department for transpor-
tation of Indian supplies, such **transporta-**
tion being for the United States. *Re Indian*
Supplies, 22.
